RIN: 3072-AA12

CURRENCY ADJUSTMENT FACTOR RULE FOR FOREIGN TARIFFS

Legal Authority: 5 USC 552; 5 USC 553; 46 USC 813(a); 46 USC 814; 46 USC 817(b); 46 USC 841(a)

CFR Citation: 46 CFR 536

Abstract: Currency adjustment factors (CAFs) are a major concern to the shipping public and an effective system which is fair and reasonable to carriers, conferences, and shippers is required. This would establish a simplified and uniform procedure for the publishing and filing of currency adjustment factors in foreign rate tariffs. These provisions would require the filing of CAF schedules for each trade currency by common carriers and conferences to govern the imposition of surcharges and discounts applied on freight rates. If finalized this rule would replace the current procedures and requirements for currency adjustment factors found in 46 CFR 538.4.

●LICENSING OF INDEPENDENT OCEAN FREIGHT FORWARDERS

Legal Authority: 46 USC 817; 46 USC 820; 46 USC 841(a); 46 USC 841(b)

CFR Citation: 46 CFR 510 33(e)

Abstract: The comtemplated amendment would delete the present portwide exemption granted to licensee/agents which allows a licensee in a major port to use the services of a licensee/agent in an outport without the loss of compensation. Under the contemplated amendment the prohibition against compensation would only apply if the licensee in the major port uses the services of a carrier or its agent who is not a licensed ocean freight forwarder. There is no apparent alternative to a rulemaking. No potential costs are evident. The benefits are a lessening of regulations and an increase in the operating freedom of certain forwarders.

Federal Trade Commission

Semiannual Regulatory Agenda

FTC

FEDERAL TRADE COMMISSION

16 CFR Ch. I

Semiannual Regulatory Agenda

AGENCY: Federal Trade Commission.

ACTION: Semiannual Regulatory Agenda.

SUMMARY: The following agenda of Commission proceedings is published in accordance with the Federal Trade Commission Improvements Act of 1980, Pub. L. 96-252 and the Regulatory Flexibility Act, Pub. L. 96-354. Each item reflects the FTC staff's assessment of events that it expects will occur in the listed proceedings during the coming year. No Commission determination on the need for or the substance of a trade regulation rule or any other procedural option should be inferred from the projected events included in this agenda.

Several of the items concern proceedings that potentially may affect a substantial number of small businesses as that term is used in the Regulatory Flexibility Act. Whether any such proceeding will result in a rule which is likely to have a significant economic impact on such entities depends upon final Commission determinations on the need for or on the substance of a trade regulation rule.

The views expressed in these entries are those of the FTC staff, based upon information now available. These views should not be regarded as a final staff position, nor should they be attributed to the Commission itself. The Commission will address the issues presented when it considers each staff proposal.

Each agenda item includes the projected timing of future Commission action. In most instances the dates of future events are listed by month, rather than a specific day. Further details may be obtained from the agency contact responsible for a particular proceeding. Discovery of new information, changes in circumstances or in the law may alter the projected dates.

By direction of the Commission.

Benjamin Berman,

Acting Secretary.

FEDERAL TRADE COMMISSION (FTC) — Current and Projected Rulemakings

PROPOSED TRADE REGULATION RULE CONCERNING CREDIT PRACTICES

Priority: Major

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 444, (New)

Abstract: The proposed rule would restrict certain remedies used by creditors to collect debts in cases where they may cause serious harm to debtors greater than the resulting economic benefit to creditors. Remedies addressed by the rule include: confessions of judgment; waivers of state property exemption wage assignments; blanket security interests in household goods; cross-collateral security interests; deficiencies; attorney's fee clauses; late charges; third party contracts; and cosignors. Final staff recommendations propose certain changes and refinements in the rule, as a result of comments and evidence received during the rulemaking proceeding. Benefits from the proposed rule may include: reducing excessively large deficiencies, late fees and attorney's fees; prevention of invasion of privacy or injury to the employment relationship; and improving consumers' legal defenses. The cost to consumers of any rule may potentially take two forms: increases in the price of consumer credit (i.e., interest rates) and reduction in availability of credit to certain consumers. Alternatives to be considered by the Commission include rule provisions (cont)

Timetable:

Action	Date	FR Cite
NPRM	04/11/75	40 FR 16347
Final notice	06/24/77	42 FR 32259
Presiding Officer's Report	08/00/78	
Staff Report	08/00/80	
Staff Recommendation to Commission	03/00/83	

Small Entity: Undetermined

Additional Information: ABSTRACT CONT: recommended by the staff, rule provisions suggested by participants in the proceeding, and no rule. The proposed rule would probably affect large and small creditors similarly. The proposal would affect finance companies more than other creditors because finance companies make greater use of the remedies covered by the rule.

RIN: 3084-AA02

FUNERAL INDUSTRY PRACTICES

Priority: Major

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 441

Abstract: In July, 1982, the Commission approved a trade regulation rule for funeral industry practices which requires itemized price information to be disclosed over the telephone and in the funeral home, and a written statement of charges for services and merchandise. The rule prohibits certain practices, such as requiring caskets for direct cremations or conditioning the sale of goods or services upon the purchase of other goods or services. The Commission considered and rejected several alternatives to the proposed rule including: (1) taking no action; (2) issuing a non-binding industry guide; and (3) issuing a model state law. The rule's provisions impose compliance costs such as preparing price lists and dislosing prices over the telephone. The Commission believes that compliance costs will not exceed the benefits to consumers. With the rule, it may be easier for consumers to shop comparatively, thereby reducing their search costs and increasing competition. Consumers also may be able to select only those items that they wish to purchase, thereby reducing their total costs. The rule will require funeral providers to formulate and distribute (cont)

Timetable:

Action	Date	FR Cite
Commission approval of the rule	07/28/82	
Rule issued & submitted to Congress	09/00/82	
Rule resubmitted to Congress	01/25/83	

Action	Date	FR Cite
Final Action Effective	00/00/00	

Small Entity: Yes

Additional Information: ABSTRACT CONT: itemized price lists and to incorporate certain affirmative disclosures into these lists. It will also require funeral providers to retain copies of the price lists and the statements of funeral goods and services for one year. Because most funeral providers are small businesses, the rule will affect a substantial number of small entities. The Commission submitted the rule to Congress in January 1983.

Agency Contact: **Erica L. Summers**, Federal Trade Commission, Division of Service Industry Practices, Bureau of Consumer Protection, Washington, DC 20580, **202 523-3413**

RIN: 3084-AA05

AMENDMENT TO TRADE REGULATION RULE CONCERNING PRESERVATION OF CONSUMERS CLAIMS AND DEFENSES ("HOLDER-IN-DUE COURSE RULE")

Priority: Undetermined

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 433

Abstract: The objective of the proposed amendment is to ensure that a purchaser's duty to pay is not separated from sellers' duty to perform when consumer sales are financed by third party creditors or purchase money lenders. The original rule requires sellers to ensure that credit contracts used in consumer installment sales and purchases money loans contain a provision that makes any holder of the contract subject to all legal claims and defenses related to the sale transaction which the buyer may have against the seller. The proposed amendment would extend to creditors the obligation to ensure that credit contracts contain the required provision. Benefits from the proposed amendments may include improvement in the retail market due to increased scrutiny by creditors of the sellers with whom they do business and availability to consumers of additional claims and defenses against creditors. Some creditors may have increased costs associated with screening contracts and monitoring the reputations of retailers with whom they deal. Alternatives considered by the Commission include: rejection of the amendment; postponement of decision pending additional information on (cont)

PROPRIETARY VOCATIONAL AND HOME STUDY SCHOOLS

Priority: Undetermined

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 438, (New)

Abstract: In 1979, the Second Circuit Court of Appeals set aside the rule as originally issued by the Commission, citing problems with some of the remedies that the rule provided to purchasers of proprietary vocational training. The Staff has prepared recommendations as to how the Commission should respond to the Court's decision. Alternatives under consideration include a rule that would give schools the option of providing either a strict pro rata refund remedy or a track record disclosure, a rule requiring some refunds but not on a strict pro rata basis, and a rule with no refund requirements at all. Alternatives to rulemaking include case-by-case enforcement, and FTC intervention before other state and federal agencies having jurisdiction over vocational schools to prevent deceptive practices. The rule may benefit consumers by enabling them to avoid expenditures on inappropriate courses and increasing the effectiveness of the vocational school industry in training and placing people in productive jobs. The cooling-off track record disclosures and refund components of the rule variations under consideration would impose real social costs on schools covered (cont)

Additional Information: ABSTRACT CONT: including administrative costs associated with processing and collecting and disseminating information. Price increases may result from these costs as well as the possibility of paying out increased refunds. The rule should be most costly to schools that use unfair or deceptive practices to induce students to enroll in their courses. Schools that do not use these practices may not incur significant cost increases. The rule seeks to deter deceptive sales practices by requiring schools to provide material information to prospective students, and to provide students with contractual remedies which they can use to protect themselves when necessary. Most of the 6,000 schools that would be affected by the rule are small businesses.

STANDARDS AND CERTIFICATION

Priority: Undetermined

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 46(g) Federal Trade Commission Act

CFR Citation: 15 CFR 457, (New)

Abstract: Standards for products ranging from nuts and bolts to computers are set by trade associations, professional societies, testing laboratories, and other private sector groups. They are relied on by consumers, building code officials, government agencies, and others for regulatory and procurement purposes. These standards can provide significant benefits, such as lowering the cost of communications between buyers and sellers; improving the transfer of technology; encouraging efficiencies in design, production, and inventory; and assuring the safety, fitness, energy efficiency, or other aspects of product performance. However, substantial injury to competition and consumers can occur if standards or certification actions block the use of superior or lower cost technology, inflate product prices, or deceive consumers about the quality or safety of a product. In the proceeding, the Commission is examining whether a rule, guide, or other enforcement action is needed to address these competitive and consumer injuries. The Commission is particularly interested in the impact on injurious practices of other events, such as promulgation of OMB Circular A-119 (cont)

Additional Information: ABSTRACT CONT: and recent court actions. An alternative to a rule is a case-by-case approach to any standards-related problems. The rule might have a significant economic effect - both positive and negative - on small businesses. Many complaints about injurious standards and certification actions were filed by small businesses. The rule is aimed at alleviating these injuries. On the other hand, most of the standards and certification organizations that would be subject to the rule and subject to any compliance costs are small businesses.

USED MOTOR VEHICLES

Priority: Undetermined

Legal Authority: 15 USC 45; 15 USC 57(a); 15 USC 2309(b)

CFR Citation: 16 CFR 455, (New)

Abstract: The rule would have required dealers to post a window form on used cars sold to consumers which disclosed, in plain language, information concerning warranty coverage offered (if any), the meaning of an "As Is" sale (in which neither express warranties nor implied warranties are offered), and other important information. The form would have also informed consumers that oral promises are difficult to enforce and would have required the dealer to disclose certain specific mechanical condition defects known to him. The rule and accompanying Statement of Basis and Purpose and Regulatory Analysis were published in the Federal Register on August 14, 1981. All of the alternatives that were considered, along with an analysis of their costs and benefits, are set forth in the Regulatory Analysis and Statement of Basis and Purpose at 46 FR 41375 to 41377. The Commission submitted the rule to Congress for review under the provisions of the FTC Improvements Act of 1980 on September 9, 1981. The rule was considered by Congress and was vetoed on May 26, 1982. The Commission has taken the rule under consideration in accordance with Section 21(c) of the FTC Improvements Act (cont)

ANTACID ADVERTISING

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 52 Federal Trade Commission Act; 15 USC 55 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 451, (New)

Abstract: The Commission did not propose a rule at the outset of this proceeding. Rather than making a specific proposal, the Commission focused the proceeding on whether, and in what form, warnings required by the Food and Drug Administration ("FDA") in the labeling of non-prescription antacids should also appear in the advertising for such products. The proceeding has explored and considered various alternatives, including no warnings, a general warning (which refers generally to the existence of risk and directs consumers to the label), various specific warnings (which specifically disclose the existence of particular risks), and various combinations of general and specific warnings. The potential benefits from adoption of any rule are threefold: first, the prevalence of contra-indicated use of antacids may be lowered; second, manufacturers may have an incentive to include additional safety information in their advertising, and third, manufacturers may also have an incentive to produce safer antacids. The potential costs from adoption of any rule are the following: first, (cont)

Small Entity: No

Additional Information: ABSTRACT CONT: the effectiveness of antacid advertising may be lowered; second, consumers may mistakenly conclude from the warning information that all antacids are unsafe, and

third, any required advertising disclosure may impose direct dollar costs. Alternatives to a rulemaking might include cases under Section 5 and consumer education. Although no specific rule has yet been proposed, it is not expected that any rule will have a significant economic impact on a substantial number of small entities. With the exception of small retailers who advertise price and availability in newspapers and magazines, virtually all of the antacid advertisers are large entities. Moreover, the impact on small retailers will essentially be eliminated by a provision exempting print advertising that states only the product's name and price.

AMENDMENT TO CARE LABELING OF TEXTILE WEARING APPAREL RULE

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 423

Abstract: The rule and its amendment seek to inform consumers of proper care procedures to safeguard the utility and appearance of purchased textile products. The information thus made available may permit a more informed choice among competing products. The amendments that were proposed would have extended the rule to cover all textile products including carpets and rugs, upholstered furniture, yarns and linens. The amendments would also require a more complete statement of the care procedures, the use of standardized care terminology and the establishment of a basis for the accuracy of each care procedure prescribed in a label. On June 24, 1982, the Commission approved, with certain modifications, those amendments which would clarify the rule's existing requirements but rejected amendments which would have extended the rule to additional products. Pursuant to the Commission's decisions, the staff is preparing a revised statement of basis and purpose and rule amendments for promulgation by the Commission. The amendment approved by the Commission merely clarifies existing obligations. They will therefore impose little or no incremental cost on industry (cont)

EYEGLASSES II

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 456, (Revision)

Abstract: The staff of the FTC's Bureau of Consumer Protection has identified several state and private restrictions on the delivery of eye care goods and services which may decrease consumer access to vision care services, increase the cost of those services, and impede the growth of alternative methods of organizing eye-care practices. The principal question the Commission is exploring is the impact of such restrictions on the price, quality and availability of vision care. The Commission's investigation has sought, through the development of empirical market research, to determine whether higher prices result from these restrictions and, if so, whether offsetting consumer benefits also result. The primary impact of a rule on small businesses could stem from the increased competition in the vision care industry which can be anticipated as a result of deregulatory effect of the rule. Rule provisions removing certain restraints on commercial ophthalmic practice could enhance competition by permitting small entities (i.e., optometrists and opticians) to engage in alternate modes of practice; or to expand, should they desire to do so. The affirmative requirements of a rule could (cont)

HEALTH SPAS

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 443, (New)

Abstract: The proposed rule would require that health spa membership contracts include provisions which would grant consumers the right to cancel and receive a full refund without penalty during a three-day cooling-off period. If a seller's facilities are not yet fully operational, the proposed rule would provide that the consumer right of cancellation may be exercised within ten days after receipt of notice that the spa facilities are fully operational and available. Following the expiration of the cooling-off period, the proposed rule would require that the health spa contract afford the consumer an additional right to cancel at any time prior to the contract's expiration. In this instance, the seller would be allowed to retain a cancellation fee not in excess of 5 percent plus a pro rata portion of the contract price; the balance of the contract price would have to be refunded to the consumer. Other provisions of the proposed rule would prescribe the manner and form of giving the consumer notice of his cancellation right, prohibit the use of long-

term contracts, and prohibit the receipt of more than 5 percent of the contract price from consumers if a spa is not fully (cont)

HEARING AIDS

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 52 Federal Trade Commission Act; 15 USC 55 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 440, (New)

Abstract: The proposed regulation currently under consideration would afford hearing aid purchasers a right to cancel the transaction within 30 days of purchase subject only to specified cancellation charges. Staff has explored alternative rule proposals that would require hearing aid dispensers to disclose whether they offer a trial period or would contain specific advertising prohibitions. In addition, staff has explored case by case enforcement and other alternatives to a Commission rule. If a trial period is required, the costs of the rule would be the dispenser's loss on the returned aid and the administrative expense of complying with the rule. This loss would be mitigated, among other things, by a cancellation fee and by the opportunity to re-sell the used aid. The greatest impact would be felt by dealers who do not currently offer customers trial periods with the sale of a hearing aid, particularly dealers with a high percentage of dissatisfied customers. Many dealers now offer trials. For those dealers the rule would be expected to have little impact beyond the administrative cost of complying with the rule, or any mandated changes in cancellation (cont)

MOBILE HOME SALES AND SERVICE

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 47(a) Federal Trade Commission Act

CFR Citation: 16 CFR 441, (New)

Abstract: Almost all mobile homes are sold with a manufacturer's warranty but many buyers may not receive adequate and timely service under the warranty. The rule would address possibly inadequate performance of mobile home warranties through a number of possible remedies: setting specific service deadlines, prohibiting exclusion of set-up and transportation from warranty coverage, requiring written service agreements between warrantors and their service agents, and requiring maintenance of service records. Compliance costs estimated by staff will be approximately $145 per home for most firms affected, and could be less, depending on what provisions are actually adopted. An estimated 20% of buyers would benefit by saving about $242 for warranty repairs they would otherwise not get; another 15% of buyers would have service time cut by an estimated 4 months. The incidence of warranted defects could be reduced, increasing the useful life of homes. Buyers could also receive better financing terms due to lowering the incidence of defects that diminish resale value. Consumer might benefit from better information,if warranties accurately reflected what service is included (cont)

PROTEIN SUPPLEMENTS

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 52 Federal Trade Commission Act

CFR Citation: 16 CFR 454, (New)

Abstract: The proposed rule addresses the advertising and labeling of protein supplements in three ways. First, there are provisions designed to inform consumers of certain health hazards. Thus, for example, a labeling disclosure would be required warning against use for infants. Second, the rule would prohibit certain false or deceptive claims, such as the claim that use of a protein supplement can counteract or delay the signs of aging. Third, the rule would require a general disclosure in the advertising and labeling of these products that most Americans receive all the protein they need from the food they eat. Public comments on the staff and presiding officer's reports have been analyzed by the rulemaking staff and are now being considered by the Bureau of Consumer Protection. Alternatives under consideration include a rule omitting any of the three major kinds of requirements of the proposed rule, as well as a case-by-case approach to enforcement. Adoption of the proposed rule may benefit the public by reducing and deferring the incidence of hazardous, false or misleading representations concerning the composition, use and effects of protein supplements. The (cont)

AMENDMENTS TO OCTANE POSTING AND CERTIFICATION RULE

Legal Authority: 15 USC 2801 et seq Petroleum Marketing Practices Act

CFR Citation: 16 CFR 306

Abstract: Title II of the Petroleum Marketing Practices Act ("PMPA", Pub. L. 95-297, June 19, 1978) required the Commission to promulgate a rule which establishes standard procedures for determining, certifying and posting, by means of a label on the fuel dispenser, the octane rating of automotive gasoline intended for sale to consumers. The Commission's rule was promulgated on March 30, 1979 and became effective on June 1, 1979. The rule is intended to enable consumers to buy a gasoline with an octane rating that is high enough to prevent inefficient and harmful "engine knock," and to avoid buying gasoline with an octane rating that is too high for their needs. Although compliance imposes costs on affected industry members, the rule's requirements parallel those in PMPA; therefore, the rule adds little, if any, additional cost. The rule requires refiners and importers to retain test records and distributors and retailers to retain octane certification records for one year, to facilitate tracing the source of inaccurate octane representations. While the Commission has attempted to minimize the burden on small businesses, the staff now believes (cont)

FEDERAL TRADE COMMISSION (FTC) — Existing Regulations Under Review

REVIEW OF THE PREMERGER NOTIFICATION RULES AND REPORT FORM

Priority: Task Force

Legal Authority: 15 USC 18a Clayton Act

CFR Citation: 16 CFR 801; 16 CFR 802; 16 CFR 803; 16 CFR 803, Appendix

Abstract: The Premerger Notification Rules and the Antitrust Improvements Act Notification and Report Form were adopted pursuant to Section 7A of the Clayton Act. Section 7A requires firms of a certain size contemplating mergers or acquisitions of a specified size to file notification with the Federal Trade Commission (FTC)and the Department of Justice (DOJ) and to wait a designated period before consummating the transaction. It also requires the FTC, with the concurrence of the Assistant Attorney

General for Antitrust, to promulgate rules requiring that notification be in a form and contain information necessary to enable the FTC and DOJ to determine whether the proposed acquisition may, if consummated, violate the antitrust laws. Review of these rules and the Form focuses on reducing the paperwork burden imposed on the business community.

AMENDMENT TO LABELING AND ADVERTISING OF HOME INSULATION RULE

Legal Authority: 15 USC 57a

CFR Citation: 16 CFR 460.10; 16 CFR 460.18; 16 CFR 460.19; 16 CFR Appendix B

Abstract: The Commission's home insulation trade regulation rule became effective on September 29, 1980. Among other things, it requires advertisers to disclose specific additional information in advertisements or other promotional materials when they make energy savings claims about an insulation product or refer to the products thickness, R-Value or price. The Commission temporarily stayed the effective date of those disclosure requirements as they applied to television pending completion of these amendment proceedings. The Commission has announced its intention to reopen the rulemaking proceeding to consider whether it should amend the rule's disclosure requirements insofar as they apply to television advertising. (ANPR, 46 FR 47237, Sept. 25, 1981.) The TV ad disclosure requirements in the rule benefit consumers by ensuring that they have an opportunity to understand and evaluate claims that may otherwise lead to misguided purchasing decisions. In many cases, the disclosures should benefit smaller manufacturers whose products often compare favorably on an R-Value basis with those manufactured by the dominant members of the industry. The major cost to (cont)

PRE-SALE AVAILABILITY OF WRITTEN WARRANTY TERMS (EXISTING REGULATION; MODIFICATIONS UNDER CONSIDERATION)

Legal Authority: 15 USC 2302(b)(1)(A) Magnuson-Moss Warranty--FTC Improvemts Act; 15 USC 2309(a) Magnuson-Moss Warranty--FTC Improvements Act

CFR Citation: 16 CFR 702

Abstract: The Magnuson-Moss Warranty Act (15 U.S.C. 2302(b)(1)(A)) requires that the Federal Trade Commission promulgate a rule to require that the terms of written warranties for consumer products be made available to consumers prior to purchase. The Rule modifications currently being considered are intended to achieve the Congressional objective more effectively by making the Rule requirements more flexible and thus lessening the costs and burdens of compliance while still ensuring consumers access to warranties prior to purchase. The current Pre-Sale Availability Rule requires that retailers of consumer products costing more than $15 make warranty texts available to consumers prior to purchase by placing the warranty text in one or a combination of four specified locations: (1) on the product, (2) in a binder, (3) on the package, or (4) on a sign. Manufacturers are required to provide materials sufficient for retailers to meet their obligations. The Rule modifications currently under consideration would reduce retailers' obligations. One modification would provide two options for making warranties available: (1) displaying the warranty text(s), and/or (cont)

Begin Review	11/04/81	
End Review	03/00/83	
Sup staff analysis to Commission	12/00/83	

Small Entity: Yes

Additional Information: ABSTRACT CONT: (2) displaying a sign indicating the availability of warranty text(s) upon customer request. In addition, staff is considering raising the dollar threshold for coverage of the Rule and automatic adjustment of this threshold amount to reflect the inflation rate. Modifications to manufacturers' compliance options are also under consideration, including a requirement that manufacturers affix the warranty text to all warranted consumer products. Changes in the rule could produce benefits by reducing the total costs of compliance with the present rule for retailers and manufacturers or by more efficiently allocating compliance obligations between retailers and manufacturers. Costs may arise from reductions in the benefits of the present rule in making warranty information available to consumers. Two large scale surveys are being conducted to examine consumer experience with warranties and to measure the effect of the current Rule on manufacturers and retailers. These surveys will estimate the effect on small business of both the existing rule and the alternatives under consideration.

RIN: 3084-AA15

RETAIL FOOD STORE ADVERTISING AND MARKETING PRACTICES

Legal Authority: 15 USC 41 et seq Federal Trade Commission Act

CFR Citation: 16 CFR 424

Abstract: The Commission's Rule on Retail Food Store Advertising and Marketing Practices seeks to ensure that consumers receive the prices and goods offered in grocery stores' advertisements, and to enable the stores to compete fairly on the basis of price. Since the rule applies to all retail food stores, it may have had a significant effect on a substantial number of small grocery stores. The rule states that it is a violation of Section 5 of the Federal Trade Commission Act for grocery stores to advertise products at a particular price unless such products are in stock and conspicuously and readily available for sale at the advertised price during the effective period of the advertisement. The rule is intended to benefit consumers by ensuring that advertised items are available, that advertising-induced purchasing trips are not fruitless, and that store prices accurately reflect the prices appearing in the ads. The rule may cause costs to be incurred in maintaining sufficient inventory to meet anticipated demand, and costs associated with the monitoring of price changes, changing marked prices, and training of employees to comply with the rule.

COOLING-OFF PERIOD FOR DOOR-TO-DOOR SALES

Legal Authority: 15 USC 41 et seq Federal Trade Commission Act

CFR Citation: 16 CFR 429

Abstract: The rule states that sellers of consumer goods or services with a purchase price of $25.00 or more who sell away from their place of business must furnish to the buyer certain information regarding the buyer's right to cancel sales within three business days and must give the buyer a full refund of any down payment upon the buyer's cancellation. The rule requires a seller to furnish the buyer with a complete receipt or copy of a contract, along with a notice informing the buyer of the right to cancel the transaction, to furnish the buyer with a completed Notice of Cancellation. The rule is intended to benefit consumers by permitting them to reflect on their purchase and the terms of any contract, to compare the purchase with offerings of other sellers, and to ascertain the accuracy of any representations made. The resulting costs to sellers include the costs associated with cancellation (processing cancelled orders, returning downpayments, retrieving delivered goods, and returning traded-in merchandise) and the additional cost of printing the required cancellation notices. Since the rule affects all door-to-door sellers, it may have a significant economic (cont)

MAIL ORDER MERCHANDISE

Legal Authority: 15 USC 41 et seq Federal Trade Commission Act

CFR Citation: 16 CFR 435

Abstract: The Commission's rule concerning mail order merchandise was promulgated on October 22, 1975. The rule requires mail order sellers to possess a reasonable basis for any claims made concerning shipping date or, in the absence of any specifically stated date, to ship the ordered merchandise within thirty (30) days of receipt of an order. In the event of delays in shipment, the rule establishes notification procedures whereby buyers have the option either to agree to the delay or to cancel the order and receive a prompt refund. The Commission's rule is designed to address a number of significant consumer problems described on the record of the rulemaking proceeding, including failure to deliver ordered merchandise, unexplained delays in delivery, failure to make prompt (or any) refunds upon cancellation of an order, and inability to obtain responses to inquiries about pending orders. The rule enables consumers to obtain ordered merchandise within a reasonable time period or, if delays occur, to cancel the order and obtain a prompt refund, so that losses due to undelivered merchandise, delays, and inadequate or nonexistent refunds can be avoided. By subjecting sellers (cont)

Action	Date	FR Cite
Initiation of Reg Flex Act Review	09/00/83	

Small Entity: Undetermined

Additional Information: ABSTRACT CONT: who solicit orders they cannot fill within a reasonable time to the risk of cancellation, the rule may provide competitive benefits, since buyers may shift their business to more efficient merchants. Costs relating to the rule may include the cost of establishing a system for monitoring and recording orders, deliveries, delays, cancellations, consents to delays, and refunds; the costs of complying with the rule's notification requirements regarding delays (printing, postage, etc.); the cost of processing refunds; and additional inventory costs. The Commission is undertaking a review of this rule to determine whether the rule has had a significant economic impact on a substantial number of small entities and, if so, whether the rule should be amended to minimize any such impact. The rule applies to all members of the mail order industry, including small firms.

RULES AND REGULATIONS UNDER THE WOOL PRODUCTS LABELING ACT OF 1939

Legal Authority: 15 USC 68b(d) Wool Products Labeling Act of 1939; 15 USC 68d Wool Products Labeling Act of 1939

CFR Citation: 16 CFR 300

Abstract: The Wool Products Labeling Act of 1939 was enacted on October 14, 1940; the Act and the Commission's accompanying regulations became effective on July 15, 1941. The Act requires all wool products to bear a label showing the percentage of wool, recycled wool, and non-wool fibers contained in the product and the name of the manufacturer or other distributor. The Act prohibits the misbranding of wool products and is administered by the Commission, whose regulations establish the manner and

format in which the information required by the Act is to be disclosed. The Act and accompanying rules are designed to protect producers, manufacturers, distributors and consumers from the unrevealed presence of substitutes and mixtures of fibers in manufactured wool products. Consumers are able to make more informed decisions and to avoid unwanted or unnecessary items. Since each manufacturer must accurately label its product, competition based on content is enhanced. Since the Commission's rules primarily implement statutory directives, most of the costs imposed on affected industry members are not attributable to the rules. However, in accordance with its Plan for Periodic Review (cont)

RULES AND REGULATIONS UNDER FUR PRODUCTS LABELING ACT

Legal Authority: 15 USC 69(e) Fur Products Labeling Act; 15 USC 69(f) Fur Products Labeling Act

CFR Citation: 16 CFR 301

Abstract: The Fur Products Labeling Act was enacted on August 8, 1951; the Act and the Commission's accompanying rules became effective on August 9, 1952. The Act and rules contain requirements for the labeling, invoicing, and advertising of fur products. The Act requires fur products to be labeled with the name of the animal which produced the fur; whether the furs are natural, dyed or otherwise artificially colored; and certain other characteristics of the fur product used. To ascertain compliance with the Act, fur products marketers must maintain records for each product sold. The Act prohibits the misbranding, false and deceptive invoicing, and false and deceptive advertising of fur products. It requires that animal names used conform to the Fur Products Name Guide established by the Commission, which is charged with administering the Act. The Act and accompanying rules are designed to protect producers and consumers against misbranding, false advertising, and false invoicing of furs and fur products. Consumers are able to make more informed purchasing decisions and to avoid unwanted or unnecessary items. Since each manufacturer must (cont)

RULES AND REGULATIONS UNDER THE TEXTILE FIBER PRODUCTS IDENTIFICATION ACT

Legal Authority: 15 USC 70e Textile Fiber Products Identification Act; 15 USC 70j Textile Fiber Products Identification Act

CFR Citation: 16 CFR 303

Abstract: The Textile Fiber Products Identification Act was enacted on September 1, 1958; the Act and the Commission's accompanying regulations became effective on March 3, 1960. The Act requires each household textile product to bear a label containing the percentage of each fiber contained in the product, the name of the manufacturer or distributor, and the country of origin if the product was manufactured principally in a foreign country. The Act prohibits misbranding and false advertising of the fiber content of textile products and requires that the appropriate generic name be used for all fibers. Generic names and definitions for manufactured fibers are established by the Commission, which is charged with administering the Act. The Act and accompanying rules are designed to protect producers and consumers from being deceived by misbranding and false advertising of the fiber content of textile products. Consumers may be able to make more informed decisions and to avoid unwanted or unnecessary items. Since each manufacturer must accurately label its product, competition based on content may be enhanced. Since the Commission's rules implement statutory (cont)

Interstate Commerce Commission

Semi-Annual Regulatory Agenda

ICC

INTERSTATE COMMERCE COMMISSION

49 CFR Ch. X

[Ex Parte No. 420 (Sub-No. 4)]

Semiannual Regulatory Agenda

AGENCY: Interstate Commerce Commission.

ACTION: Notice of semiannual Regulatory Agenda to be part of a Unified Agenda of Federal Regulations.

SUMMARY: Pursuant to OMB Bulletin No. 83-8, issued under Section 6(b) of E.O. 12291 to implement the provisions of Section 5 of the Executive Order concerning Regulatory Agendas, the Commission is publishing an agenda of (1) current and projected rulemakings, and (2) existing regulations being reviewed to determine whether to propose modifications through rulemaking. Listed below are the regulatory actions to be developed or reviewed during the next 12 months. Following each rule identified is a brief description of the rule including its purpose and legal basis.

FOR FURTHER INFORMATION CONTACT: A contact person is identified for each of the rules listed below.

SUPPLEMENTARY INFORMATION: Two lists of proceedings appear below. The first contains information about subject areas in which the Commission is currently conducting rulemaking proceedings or may institute such proceedings in the near future. The second contains information about existing regulations being reviewed to determine whether to propose modifications through rulemaking. Within each list priority regulations are followed by non-priority rules.

The agenda identifies regulations likely to have a significant economic impact on a substantial number of "small entities." Accordingly, this information will satisfy the requirements of section 602 of the Regulatory Flexibility Act, 5 U.S.C. 602.

Finally, this agenda will comprise part of a Unified Agenda of Federal Regulations compiled by the Office of Management and Budget which is to be published in a single issue of the **Federal Register** in April 1983. The purpose of the Unified Agenda is to provide the public with more comprehensive documentation of the federal government's current regulatory plans, and to provide a systematic means of monitoring regulatory activity in each agency.

This notice is issued pursuant to 49 U.S.C. 10321 and 5 U.S.C. 553.

Decided: March 3, 1983.

By the Commission, Chairman Taylor, Vice Chairman Sterrett, Commissioners Andre, and Gradison.

Agatha L. Mergenovich,
Secretary.

INTERSTATE COMMERCE COMMISSION (ICC) — Current and Projected Rulemakings

REVIEW OF PRESERVATION OF RECORDS RULES, DOCKET NO. 38849

Priority: Agency Determination

Legal Authority: 5 USC 553; 49 USC 11144

CFR Citation: 49 CFR 1220

Abstract: The purpose of the preservation of record rules is to assure that carrier's records are secure, readily accessible, and adequately maintained for a prescribed period of time. The regulations instruct carriers to maintain their corporate, treasury, property, personnel, insurance and claims inventory, transportation, tariffs, statistical, and miscellaneous records in hard paper copy, microfiche, or machine-readable form for certain periods. The objective of this review is to determine the relevance of each record, the appropriateness of the prescribed retention periods, and the purpose for which each record is needed for the Commission's regulatory mission. This will allow each company's management more autonomy in establishing a recordkeeping program, while reducing costs and burden.

COAL RATE GUIDELINES - NATIONWIDE, EX PARTE NO. 347 (SUB-NO. 1)

Priority: Agency Determination

Legal Authority: 49 USC 10321; 49 USC 10701a; 49 USC 10704; 5 USC 553; 49 USC 10709(a)

Abstract: The Commission is proposing a maximum rail rate policy applicable to captive coal traffic. Under the proposed "constrained market pricing" approach, rail carriers' pricing of market dominant coal traffic would be subject to four upward constraints. First, a coal shipper could not be charged more than the "stand-alone cost" of serving its traffic. Second, captive shippers would not be required to bear the cost of obvious management inefficiencies. Third, carriers which have adequate revenues, as we have defined them, would not be permitted to increase their rates on captive coal traffic. Finally, carriers would generally not be permitted to increase their rates on captive coal traffic by more than 15 percent in a single year (after allowing for inflation).

CONTRACT IMPLEMENTATION DATE, EX PARTE NO. 387 (SUB-NO. 200)

Priority: Agency Determination

Legal Authority: 49 USC 10713

CFR Citation: 49 CFR 1039; 49 CFR 1300

Abstract: The Commission has proposed rules which further implement regulations for filing contract rates under 49 USC 10713. They would eliminate the need for separate

proceedings and Federal Register publication by granting blanket permission to begin transportation under the contract on the date the contract is filed. The need to reduce the individual proceedings and publications is evident from the number of proceedings filed since 1981 (over 800).

●REVISION TO ACCOUNTING AND REPORTING REQUIREMENTS OF OTHER THAN GENERAL FREIGHT MOTOR CARRIERS

Priority: Agency Determination

Legal Authority: 9 USC 11142

CFR Citation: 49 CFR 1207; 49 CFR 1249

Abstract: This rule would: (1) eliminate the requirement for Class I contract carriers of other than general freight (except household goods) to maintain the uniform system of accounts; (2) reduce the Annual Report Form M filed by Class I common carriers of other than general freight by about 65 percent; and (3) adopt a simple two-page survey form for Class I contract and Class II common and contract carriers of other than general freight (except household goods). These changes would relieve about 1,675 carriers from our accounting rules and reduce the accounting and reporting burden by about 297,350 staff-hours.

●REVISION TO ACCOUNTING RULES FOR CLASS I AND CLASS II COMMON AND CONTRACT MOTOR CARRIERS OF PROPERTY

Priority: Agency Determination

Legal Authority: 5 USC 553; 49 USC 11142

CFR Citation: 49 CFR 1207

Abstract: The proposed rule would revise the regulations to: (1) make the uniform system of accounts a single-class system, generally based on the present requirements for Class II carriers; (2) eliminate recognition of gains on trade-ins of operating equipment; (3) eliminate the requirement for household goods carrier principals to obtain financial reports from their carrier agents; and (4) make miscellaneous technical changes to clarify the regulations.

●REVISION TO THE UNIFORM SYSTEM OF ACCOUNTS FOR RAILROADS

Priority: Agency Determination

Legal Authority: 49 USC 11166

CFR Citation: 49 CFR 1201

Abstract: The purpose of this regulation is to update the uniform system of accounts for railroads. This includes incorporating various suggestions from users and carriers and recommendations from Commission staff. It also addresses such areas as compliance with GAAP, clarity of presentation, and logic for level of detail in account classifications. Further, the operating expense account explanations have been revised for clarity.

●ACQUISITION PROCEDURES FOR LINES OF RAILROADS IN REORGANIZATION, EX PARTE NO. 282 (SUB-NO. 4)

Priority: Agency Determination

Legal Authority: 49 USC 10901; 49 USC 10321; 49 USC 10341; 49 USC 11345; 49 USC 11346; 5 USC 559; 11 USC 1172; 45 USC 904 to 915

CFR Citation: 49 CFR 1150.1(a); 49 CFR 1180(B)

Abstract: The Commission is revising the content and procedures for applications to acquire and operate lines of bankrupt railroads. These procedures govern applications for sales and transfers under Sections 5(b) and 17(b) of the Milwaukee Railroad Restructuring Act (45 USC 904 and 915) and for transfers and operations of or over lines of bankrupt carriers under Section 1172 of the Bankruptcy Act, 11 USC 1172. The procedures are also made applicable for acquisition and operation of lines of bankrupt railroads that require Commission certification under 49 USC 10901.

Timetable:

Action	Date	FR Cite
Final Action	05/01/83	

Small Entity: Yes

Additional Information: The revisions to the regulations in Subpart B of 49 CFR Part 1180 are being issued as final rules. The procedures are patterned after the Commission's certification procedures in Subpart A of 49 CFR Part 1150 and railroad consolidation procedures in Subpart A of 49 CFR Part 1180, both of which resulted from extensive rulemaking proceedings where full opportunity was given for public comment. The rules in Subpart B of 49 CFR Part 1180 were originally issued without requesting comment because of time constraints imposed by the Milwaukee Railroad Restructuring Act. In none of the applications handled so far under Subpart B have objections been raised about the information requirements or procedures. It has been determined that it is unnecessary within the meaning of 5 USC 553(b)(113) for us to request comment prior to adopting the revised procedures for acquisitions and operation of lines or bankrupt carriers.

COSTING METHODOLOGIES FOR THE NORTHEAST CORRIDOR; COMMUTER SERVICE

Legal Authority: PL 97-35, Sec 1163(a) Northeast Rail Service Act of 1981

Abstract: These rules establish an appropriate costing methodology for compensating Amtrak for the use of its trackage in the Northeast Corridor and other areas by commuter rail passenger and freight services. It is based on an avoidable costing methodology concept. Amtrak is treated as the dominant user and the other users of its properties as the minority users; this is for purposes of assigning joint costs. This proceeding is a continuing matter under the Northeast Rail Services Act of 1981; as such, completion dates are not pertinent.

REASONABLY EXPECTED COST

Legal Authority: 49 USC 10705a(b)(2) Staggers Rail Act of 1980

CFR Citation: 49 CFR 1129

Abstract: A railroad may impose a surcharge on traffic originating or terminating on certain light density lines. These surcharges may be applied without Commission interference unless the surcharge increases the carrier's share of joint-line revenues above 110 percent of variable cost plus 100 percent of the carrier's reasonably expected costs of continuing to operate the line itself; i.e., its on-branch costs. These rules establish the methodology for determining "reasonably expected costs." It will benefit the public by permitting shippers a mechanism to monitor and determine the appropriateness of a light density line surcharge. This proceeding is "open" pursuant to the Staggers Rail Act of 1980 and therefore, completion dates are not appropriate.

STANDARDS FOR DETERMINING RAIL SERVICE CONTINUATION

Legal Authority: 45 USC 715(d)(6) Regional Rail Reorganization Act of 1973; 49 USC 10362(b)(6) RR Revitalization & Reg. Reform Act of 1976

CFR Citation: 49 CFR 1125

Abstract: The standards define the terms "revenue attributable to the rail properties," the "avoidable costs of providing service," a "reasonable return on the value," and a "reasonable management fee." When a railroad receives Commission approval to abandon a portion of rail property because it is a burden on interstate commerce, a financially responsible person may offer an operating subsidy (i.e., a rail service continuation payment) to keep the rail line in operation. The standards establish a formula for calculating the estimated first year subsidy payment; the formula utilizes the terms defined above. This standard benefits the public by facilitating the continuation of essential freight service that would otherwise cease; it further provides a mechanism adequately compensating a carrier for the service provided. This proceeding is a continuing matter by statute based upon the Regional Rail Reorganization Act of 1973, modified by the Railroad Revitalization & Regulatory Reform Act of

1976; therefore, completion dates are inappropriate.

STANDARDS FOR DETERMINING COMMUTER RAIL SERVICE CONTINUATION SUBSIDIES AND EMERGENCY OPERATING PAYMENTS

Legal Authority: 45 USC 715 Regional Rail Reorganization Act of 1973; 49 USC 10362(b)(5); PL 94-210 RR Revitalization & Reg. Reform Act of 1976

CFR Citation: 49 CFR 1127

Abstract: These standards establish a methodology by which a subsidy amount may be calculated. This subsidy would be offered by a financially responsible party (usually a state agency or commuter authority) to a railroad to fund the deficits incurred in providing rail passenger commuter service in the Northeast. These standards benefit the public by facilitating the continuation of essential rail passenger service and providing a mechanism for adequately compensating a carrier for the service provided. This proceeding is a continuing matter, by statute, based upon the Regional Rail Reorganization Act of 1973, modified by the Railroad Revitalization & Regulatory Reform Act of 1976; therefore, completion dates are inappropriate.

●BANKRUPT RAILROAD LINES, FORCED SALE PROCEDURES FOR EX PARTE NO. 282 (SUB-NO. 4A)

Priority: Agency Determination

Legal Authority: 45 USC 915(b); 49 USC 10321; 5 USC 553

CFR Citation: 49 CFR 1180(c)

Abstract: The new regulations (49 C.F.R. 1180.40-1180.49) implement section 213 of the Rail Safety and Service Improvement Act of 1982, Pub. L. No. 97-468, amended section 17(b) of the Milwaukee Railroad Restructuring Act [45 U.S.C. 915(b)] which deals with the sale or transfer of lines of bankrupt railroads. Specifically, the Commission is empowered to prescribe terms, including compensation, for the sale of lines over which no service is being provided by the owner, upon the request of a financially responsible offeror whose offer to purchase has been rejected by the trustee. When more than one offeror participates in a proceeding, the Commission is authorized to select an offeror based on a public interest standard.

Completed Actions

Abstract: This rule exempts from regulation the transportation by rail of all farm products (STCC No. 01) not previously exempt, with the exception of grain (STCC No. 0113), soybeans (01144), and sunflower seeds (0114940) and, in addition, exempts specified related partially processed agricultural products, the truck transportation of which is presently exempt, except that railroads shall continue to comply with certain accounting and reporting requirements. The purpose of this exemption is to provide the railroads full flexibility to compete with unregulated motor carriage which has already captured the predominant share of traffic in these agricultural commodities, and to accommodate the needs of shippers and receivers in responding to fundamental changes or substantial fluctuations taking place in these industries. Because of the large quantities of grain, soybeans, and sunflower seeds moving by rail, if exemption of these commodities were considered, separate treatment would be warranted.

National Credit Union Administration

Semi-Annual Agenda of Regulations

NCUA

NATIONAL CREDIT UNION ADMINISTRATION

12 CFR Ch. VII

Semiannual Agenda of Regulations

AGENCY: National Credit Union Administration (NCUA).

ACTION: Semiannual Agenda of Regulations.

SUMMARY: Pursuant to the Regulatory Flexibility Act and agency policy, NCUA is publishing a list of current and projected rulemaking, reviews of existing regulations, and completed actions as of February 25, 1983. NCUA is also including this Agenda in the "Unified Agenda of Federal Regulations."

DATE: This information is current as of February 25, 1983.

ADDRESS: National Credit Union Administration, 1776 G Street, N.W., Washington, D.C. 20456.

FOR FURTHER INFORMATION CONTACT: On a particular regulation, contact the person named in the listing for that regulation at the above address.

SUPPLEMENTARY INFORMATION: On January 1, 1981, the Regulatory Flexibility Act (5 U.S.C. Sections 601 et seq.) became effective. This law requires, among other things, that each agency publish a Regulatory Flexibility Agenda listing regulations that the agency expects to propose that are likely to have a significant economic impact on a substantial number of small entities (5 U.S.C. Section 602). NCUA has defined "small entities" to include credit unions with less than $1,000,000 in assets. NCUA believes, at this time, that none of the regulations listed in the Agenda set forth below will have a significant impact on a substantial number of these small credit unions.

On June 1, 1981, NCUA published a statement of policy (IRPS 81-4, 46 FR 29248) setting forth the procedures for the development of new regulations and the review of existing regulations. NCUA believes that the Agenda is a useful tool to enable the credit union community and the public to track regulatory development and to effectively participate in that process.

NCUA is voluntarily participating in the publication of the "Unified Agenda of Federal Regulations." While NCUA is an independent Agency exempt from coverage by Executive Order 12291, we believe that participating in this joint publication will further the public interest by including NCUA in a single source of information concerning current and projected rulemaking and reviews of existing regulations. The format of this Agenda conforms to the standardized format of the "Unified Agenda."

Approved by the NCUA Board this 1st day of March, 1983.

Rosemary Brady,

Secretary.

NATIONAL CREDIT UNION ADMINISTRATION (NCUA) — Current and Projected Rulemakings

FLOOD INSURANCE

Legal Authority: 12 USC 1757; 12 USC 1789; 42 USC 4102a; 42 USC 4106

CFR Citation: 12 CFR 760

Abstract: The proposed rule provides a plain English revision of regulations governing Federal credit union lending secured by improved realty or mobile home, when either is located in a flood plain. The rule is intended to require only that which is required under Federal statutes concerning flood insurance.

SURETY BOND COVERAGE FOR FEDERAL CREDIT UNIONS

Legal Authority: 12 USC 1761 (a); 12 USC 1761 (b); 12 USC 1766

CFR Citation: 12 CFR 701.20

Abstract: The proposed rule is intended to revise, update and simplify the existing requirements for surety bond coverage for Federal credit unions. The proposed regulations implement mandated sections of the Federal Credit Union Act and establish minimum standards for surety bonds and insurance coverage.

MANAGEMENT INTERLOCKS

Legal Authority: 12 USC 3201 et seq

CFR Citation: 12 CFR 711

Abstract: Actions implement changes to the Depository Institution Management Interlocks Act (Public Law 95-630), as amended by Public Law 97-110, December 26, 1981. After review, the NCUA Board took final action on two changes. The proposed rule still pending would simplify the procedures for obtaining exceptions to the Depository Institution Management Interlocks Act.

Nuclear Regulatory Commission

Regulatory Agenda

NRC

NUCLEAR REGULATORY COMMISSION

10 CFR Ch. I

Regulatory Agenda

AGENCY: Nuclear Regulatory Commission

ACTION: Semiannual publication of NRC Regulatory Agenda.

SUMMARY: The Nuclear Regulatory Commission (NRC) is publishing its semiannual Regulatory Agenda in accordance with Pub. L. 96-354, "the Regulatory Flexibility Act," and Executive Order 12291, "Federal Regulations." The Agenda is a compilation of all rules on which the NRC has recently completed action or has proposed, or is considering action. This issuance updates any action occurring on rules since publication of the last semiannual Agenda on October 28, 1982 (47 FR 48960).

ADDRESSES: Comments on any rule in the Agenda may be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Service Branch. Comments may also be hand delivered to Room 1131, 1717 H Street, NW, Washington, DC between 8:15 a.m. and 5:15 p.m. Comments received on rules for which the comment period has closed will be considered if it is practical to do so, but assurance of consideration cannot be given except as to comments received on or before the closure dates specified in the Agenda.

The Agenda and any comments received on any rule listed in the Agenda are available for public inspection, and copying at a cost of five cents per page, at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street, NW, Washington, DC 20555. Single copies of the NRC Quarterly Agenda can be purchased from the NRC/GPO Sales Program, Division of Technical Information and Document Control, U.S. Nuclear Regulatory Commission, Washington, DC 20555 at a cost of $6.00 each or $16.00 for an annual subscription.

FOR FURTHER INFORMATION CONTACT: For further information concerning NRC rulemaking procedures or the status of any rule listed in this Agenda, contact John D. Philips, Chief, Rules and Procedures Branch, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone (301) 492-7086. Persons outside the Washington, DC metropolitan area may call toll-free: (800) 368-5642. For further information on the substantive content of any rule listed in the Agenda, contact the individual listed under the heading "Agency Contact" for that rule.

SUPPLEMENTARY INFORMATION: The NRC is publishing its semiannual Regulatory Agenda. Although publication of the Agenda is only required semiannually in April and October, the NRC has chosen to update and publish its Agenda each quarter. However, the information contained in this semiannual publication is updated to reflect any action which has occurred on rules since publication of the last NRC semiannual Agenda on October 28, 1982 (47 FR 48960).

Organization of the Agenda

Rules in this Agenda are divided into two main categories, *Action Completed Rules and Current and Projected Rulemakings.* Rules in the Action Completed category include all rules which have been finally promulgated or withdrawn since publication of the last semiannual Agenda.

Current and projected rulemakings are those rules currently under development. This category is subdivided into three sections. Section I includes all rules which have been published in the **Federal Register** as proposed rules. Section II includes all rules which have been published in the **Federal Register** as advance notices of proposed rulemaking. Section III includes all unpublished rules on which the NRC expects to take action.

Within each category and section, the rules are ordered from lowest to highest 10 CFR part, and when more than one rule appears under the same part, the rules are arranged within the part according to the date of most recent publication. If a rule contains changes to more than one 10 CFR part, the rule is listed under the lowest affected part.

The information in this Agenda has been updated through February 28, 1983. The **Federal Register** cite and date for those rules scheduled to be published in March and April 1983 will appear in the next Agenda. The date included under the heading "timetable," for next scheduled action is considered tentative and is not binding on the Commission or its staff. This Regulatory Agenda is intended to provide increased notice and opportunity for public participation in the NRC rulemaking process. The NRC may, however, consider or act on any rulemaking even if it is not included in the Regulatory Agenda.

ADDITIONAL INFORMATION: Several rulemaking items that appeared in the October Agenda have been incorporated into other rules in this Agenda or deleted as the result of a decision by the Commission. The agenda item entitled "Management of Discovery" is incorporated into an unpublished rule, Regulatory Reform of the Rules of Practice and Rules for Licensing of Production and Utilization Facilities" - Part 2. "Reporting of Significant Design and Construction Deficiencies" has been incorporated into an unpublished rule, "Reporting of Defects and Noncompliance" - Part 21. "Safeguards Requirements for Licensees Authorized to Possess SNM of Moderate or Low Strategic Significance" has been incorporated into an unpublished rule, "Changes in Physical Security Plans; Licensees Possessing or Issuing Special Nuclear Material of Moderate and Low Strategic Significance" - Part 70. "Qualification of Mechanical Equipment" Part 50 has been discontinued based on decision by the Commission.

The NRC Agenda lists 114 rulemaking actions. Of these, no rulemaking items are considered to be priority or major as defined in Section 1(b) of Executive Order 12291. In the Action Completed category there are 20 "completed actions." In the Current and Projected rulemaking category: Section I contains 42 proposed rulemakings; Section II contains 11 advance notices of proposed rulemakings; and Section III contains 41 unpublished rulemakings. Six rules potentially will have a "significant economic impact on a substantial

number of small entities" as defined in the Regulatory Flexibility Act.

Rules that appear on this agenda that did not appear either on the last semiannual agenda or the last NRC Quarterly Report are identified by a dagger (†) preceding the title.

Dated at Bethesda, Maryland this 3rd day of March 1983.

For the Nuclear Regulatory Commission.

John Philips,

Acting Director, Division of Rules and Records, Office of Administration.

NUCLEAR REGULATORY COMMISSION (NRC) — Current and Projected Rulemakings

ADVANCE NOTICES OF PROPOSED RULEMAKING

STANDARDS FOR PROTECTION AGAINST RADIATION

Legal Authority: 42 USC 2073; 42 USC 2093; 42 USC 2095; 42 USC 2111; 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2273; 42 USC 5841; 42 USC 5842

CFR Citation: 10 CFR 20

Abstract: The advance notice of proposed rulemaking seeks comments on a proposal to completely revise NRC's standards for protection against radiation (Part 20). This regulation applies to all NRC licensees and establishes standards for protection against radiation hazards under licenses issued by the NRC. The proposed revision reflects a comprehensive and systematic review of Part 20 and incorporates current standards for radiation protection into the revised regulation.

PERFORMANCE TESTING OF PERSONNEL DOSIMETRY

Legal Authority: 42 USC 2073; 42 USC 2093; 42 USC 2095; 42 USC 2111; 42 USC 2134; 42 USC 2201; 42 USC 2273; 42 USC 5841; 42 USC 5842

CFR Citation: 10 CFR 20

Abstract: The advance notice of rulemaking sought comment on a proposal to add amendments to 10 CFR Part 20 that would improve the accuracy and consistency of reported occupational radiation dose measurement by requiring proficiency tests of dosimetry processors who perform dosimetry for NRC licensees. The proposed amendments would require NRC licensees to have personnel dosimeters (devices carried or worn by each radiation worker to measure radiation exposure received during work) processed by a dosimetry service that is certified by an NRC approved or specified testing laboratory.

DECOMMISSIONING CRITERIA FOR NUCLEAR FACILITIES

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 30; 10 CFR 40; 10 CFR 50; 10 CFR 70; 10 CFR 72

Abstract: The advance notice of proposed rulemaking seeks comment on a proposal to develop a more explicit policy for decommissioning nuclear facilities. The proposal would provide more specific guidance on decommissioning criteria for production and utilization facility licensees and byproduct, source, and special nuclear material licenses. This action is intended to protect public health and safety and to provide the applicant or licensee with appropriate regulatory guidance for implementing and accomplishing nuclear facility decommissioning.

UPGRADED EMERGENCY PREPAREDNESS PROCEDURES FOR CERTAIN FUEL CYCLE AND MATERIALS LICENSEES

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 30; 10 CFR 40; 10 CFR 70

Abstract: The advance notice of proposed rulemaking seeks comments on a proposal that would strengthen emergency preparedness requirements for fuel cycle and materials licensees with the potential for accidents involving radioactive materials harmful to public health and safety. This is necessary to ensure that emergency preparedness planning and coordination is sufficient to minimize the danger to public health and safety following an accident involving radioactive materials held by certain fuel cycle and materials licensees. One of the lessons learned from the accident at Three Mile Island was that improvements in emergency preparedness planning and coordination for some NRC licensed activities was necessary.

CERTIFICATION OF INDUSTRIAL RADIOGRAPHERS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 34

Abstract: The advance notice of proposed rulemaking would reqtlire all individuals who use byproduct material in the conduct of industrial radiography to be certified by a third party. Radiography licensees account for over 60 percent of the reported overexposures greater than five rems to the whole body. NRC regulations permit industrial radiographers to perform radiography independently. The NRC grants radiography licensees the authority to train and designate individuals competent to act as radiographers. The advance notice of proposed rulemaking seeks comment on a proposal that would enable NRC to verify the effectiveness of this training, thereby assuring that all radiographers possess adequate training and experience to operate radiographic equipment safely.

ACCEPTANCE CRITERIA FOR EMERGENCY CORE COOLING SYSTEMS FOR LIGHT-WATER-COOLED NUCLEAR POWER PLANTS

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2232; 42 USC 2233

CFR Citation: 10 CFR 50

Abstract: The advance notice of proposed rulemaking seeks comment on several questions concerning the acceptance criteria for Emergency Core Cooling Systems (ECCS) in light-water-cooled nuclear power plants Specifically, some of the questions to be commented on are (1) under what circumstances should corrections to ECCS models be used during licensing reviews without necessitating complete reanalysis of a given plant or an entire group of plants; (2) what would be the impact of the proposed procedure-oriented and certain specific technical rule changes; and (3) how should safety margins be quantified. The Commission is considering changing certain technical and nontechnical requirements within the existing ECCS rule. The technical changes would include consideration of new research information. The nontechnical changes would be procedure-oriented and would, among other things, allow for corrections to be made to vendor ECCS analysis codes during the construction review and during construction of the plant (cont)

SEVERE ACCIDENT DESIGN CRITERIA

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 50

Abstract: The advance notice of proposed rulemaking was published to provide the nuclear industry and the public an opportunity to submit advice and recommendations to the Commission on what should be the content of a regulation requiring improvements to cope with degraded core cooling and with accidents not covered adequately by traditional design envelopes. The rulemaking proceeding will address the objectives of such a regulation, the design and operational improvements being considered, the effect on other safety considerations, and the costs of the design improvements compared to expected benefits. It is the Commission's intent to determine what changes, if any, in reactor plant designs and safety analysis are needed to take into account reactor accidents beyond those considered in the current design basis accident approach. Accidents under consideration include a range of loss-of-core-cooling, core damage, and core-melt events, both inside and outside historical design envelopes. (cont)

DESIGN AND OTHER CHANGES IN NUCLEAR POWER PLANT FACILITIES AFTER ISSUANCE OF CONSTRUCTION PERMIT

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 50

Abstract: The advance notice of proposed rulemaking was published to seek comments on a proposal that would make the procedure for facility licensing more predictable by (1) defining more clearly the limitations on what changes a construction permit holder may make to a facility during construction and (2) controlling the ways a construction permit holder implements NRC criteria. The proposal is intended to improve the present licensing process and to develop specific descriptions of essential facility features to which a construction permit holder is bound.

MANDATORY PROPERTY INSURANCE FOR DECONTAMINATION OF NUCLEAR FACILITIES

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 50

Abstract: The advance notice of proposed rulemaking requests comments on the Long Report (NUREG-0891) entitled "Nuclear Property Insurance: Status and Outlook," in order to determine the adequacy of the NRC's property insurance requirements. This report, prepared by Dr. John D. Long, Professor of Insurance at Indiana University, was written as an outgrowth of the Three Mile Island-2 accident after it became apparent that nuclear utilities may need more property insurance than has previously been required. The NRC staff asked Dr. Long to write the report, in part, to answer six pertinent questions regarding nuclear property insurance. The Commission seeks comments on the issues raised by the Long Report and other issues relating to property insurance for nuclear facilities, including the feasibility of NRC participation in the regulation of replacement power insurance programs.

STORAGE AND DISPOSAL OF NUCLEAR WASTE

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2232; 42 USC 2233

CFR Citation: 10 CFR 50; 10 CFR 51

Abstract: The advance notice of proposed rulemaking seeks public participation in a proceeding to be conducted by NRC on the storage and disposal of nuclear wastes. The purpose of the proceeding is (1) to assess generally the degree of assurance that radioactive wastes can be safely disposed of and (2) to determine whether disposal or off-site storage will be available prior to the expiration of a facility license and if not, whether radioactive wastes can be stored on-site past the expiration date of an existing facility license. This advance notice of proposed rulemaking was initiated in response to the decision of the U.S. Court of Appeals for the District of Columbia Circuit in State of Minnesota v. NRC, Nos. 78-1269 and 78-2032 (May 23, 1979), but also is a continuation of previous proceedings conducted by the Commission on this subject (see Federal Register notice published July 5, 1977; 42 FR 34391).

MODIFICATION OF THE POLICY AND REGULATORY PRACTICE GOVERNING THE SITING OF NUCLEAR POWER REACTORS

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2232; 42 USC 5842

CFR Citation: 10 CFR 50; 10 CFR 51; 10 CFR 100

Abstract: The advance notice of proposed rulemaking was published to seek comment on a proposal that would replace the existing reactor site criteria applicable to the licensing of nuclear power reactors with demographic and other siting criteria. The proposed rule would establish siting requirements that are independent of design differences between nuclear power plants. The proposed rule is intended to reflect the experience gained by the Commission since the original regulations on siting were published on April 12, 1962 (27 FR 3509). The proposed rule would ensure that Commission practices on nuclear power reactor siting afford sufficient protection to the public health and safety. The ANPRM also sought public comment on seven of the nine recommendations contained in NUREG-0625, "Report of the Siting Policy Task Force." Publication of this rule has been deferred pending a two-year-evaluation program of NRC safety goals and a comprehensive reassessment of the new radioactive source term.

MATERIAL CONTROL AND ACCOUNTING REQUIREMENTS FOR FACILITIES POSSESSING FORMULA QUANTITIES OF STRATEGIC SPECIAL NUCLEAR MATERIAL

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 70

Abstract: The advance notice of proposed rulemaking (ANPRM) would replace the material control & accounting (MC&A) requirements for fuel cycle facilities, including reprocessing plants possessing formula quantities of strategic special nuclear material (SSNM). It would establish a performance oriented regulation that emphasizes timely detection of SSNM losses and provides for more conclusive resolution of discrepancies. This is to be accomplished at about the same cost as current MC&A requirements by relaxation or elimination of those current requirements which are not cost-effective and by taking advantage of process controls, production controls, and quality controls already used by licensees.

SEISMIC AND GEOLOGIC SITING CRITERIA FOR NUCLEAR POWER PLANTS

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2232; 42 USC 5842

CFR Citation: 10 CFR 100

Abstract: The advance notice of proposed rulemaking was published to solicit public comment on the need for a reassessment of the Commission's criteria for the siting of nuclear power plants. The Commission determined that this action was necessary as a result of experience gained with application of current criteria and the rapid advancement in the state of the art of earth sciences. The NRC staff was particularly interested in finding out about problems that have arisen in the application of existing siting criteria. The public was invited to state the nature of the problems encountered and describe them in detail. The public was also asked to submit proposed corrective actions. Two petitions for rulemaking filed with the Commission, PRM-50-20 and PRM-100-2 will be addressed as part of this rulemaking.

PROPOSED RULES

PROCEDURES INVOLVING THE EQUAL ACCESS TO JUSTICE ACT: IMPLEMENTATION

Legal Authority: 42 USC 504

CFR Citation: 10 CFR 1; 10 CFR 2

Abstract: The proposed rule provides new provisions intended to implement the Equal Access to Justice Act (EAJA). The provisions would provide for the payment of fees and expenses to certain eligible individuals and businesses that prevail in adjudications with the agency when the agency's position is determined not to have been substantially justified. The basis for these proposed regulations is a set of model rules issued by the Administrative Conference of the United States (ACUS) that have been modified to conform to NRC's established rules of practice. The proposed rule would further the EAJA's intent by insuring the development of government-wide "uniform" agency regulations and by providing NRC procedures and requirements for the filing and disposition of EAJA applications. A final draft rule was sent to the Commission in June 1982, but Commission action has been suspended pending a decision by the Comptroller General on the availability of funds to pay awards to intervenor parties

ENVIRONMENTAL PROTECTION REGULATIONS FOR DOMESTIC LICENSING AND RELATED REGULATORY FUNCTIONS

Legal Authority: 42 USC 2021; 42 USC 2201; 42 USC 4332; 42 USC 4334; 42 USC 4335

CFR Citation: 10 CFR 2; 10 CFR 30; 10 CFR 40; 10 CFR 50; 10 CFR 51; 10 CFR 70; 10 CFR 110

Abstract: Consistent with NRC's domestic licensing and regulatory authority, the proposed rule would revise the Commission's environmental protection regulations to implement all of the procedural provisions of section 102(2) of the National Environmental Policy Act (NEPA). This would broaden the scope of the environmental regulations, which deal mainly with environmental impact statements, to encompass the entire NEPA process from early planning through decisionmaking. The proposed rule would bring, to the extent possible, NRC's environmental review requirements into conformance with the Environmental Quality Council's procedural regulations, ensure that environmental factors are considered as part of the NRC decisionmaking process, and make environmental information available to the public.

LICENSING AND REGULATORY POLICY AND PROCEDURES FOR ENVIRONMENTAL PROTECTION; ALTERNATIVE SITE REVIEWS

Legal Authority: 42 USC 2201; 42 USC 4332; 42 USC 5841

CFR Citation: 10 CFR 2; 10 CFR 50; 10 CFR 51

Abstract: The proposed rule would provide procedures and performance criteria for reviewing alternative sites for nuclear power plants under the National Environmental Policy Act of 1969 (NEPA). The proposal is intended to stabilize alternative site reviews of a license application by codification of the lessons learned in past and recent reviews of nuclear power plant sites into an environmentally sensitive rule. The proposed rule would focus on six major issues associated with alternative site selection: (1) information requirements, (2) timing, (3) region of interest, (4) selection of candidate sites, (5) comparison of the proposed site with alternative sites, and (6) reopening of the alternative site decision. The proposed rule would develop understandable written NRC review and decision-making criteria that provide necessary protection of important environmental qualities while reasonably restricting the consideration of alternatives to permit a rational and timely decision concerning the sufficiency of the alternative site analysis. After considering the comments on the proposed rule, the Commission published a final rule on May 28, 1981 (46 FR 28630). (cont)

POSSIBLE AMENDMENTS TO "IMMEDIATE EFFECTIVENESS" RULES

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 2; 10 CFR 50

Abstract: The proposed rule indicates that the Commission is considering five alternative amendments to the "immediate effectiveness" rule for construction permit proceedings. Under the original "immediate effectiveness" rule (36 FR 828, January 19, 1971) construction of a nuclear power plant could begin on the basis of an initial decision by the Atomic Safety and Licensing Board (ASLB) even though that decision was subject to further review by the Commission. The Commission is concerned that the rule often prevented it from reviewing a case until construction was well underway and that this might have (1) allowed commitment of large sums of money to altering sites before a final decision was made on site-related issues and (2) promoted piecemeal review rather than promoting early resolution of all licensing issues to be considered. Present rules provide for limited review of ASLB decisions by the Atomic Safety and Licensing Appeal Board (ASLAB) and the Commission prior to issuance of construction permits. This proposed rule would help to determine whether NRC should return to the former "immediate effectiveness" rule or adopt one of the following alternatives: (cont)

Timetable:

Action	Date	FR Cite
NPRM	05/22/80	45 FR 34279
Regulatory Reform Rule	06/15/83	

Next Action Undetermined

Small Entity: No

Additional Information: ABSTRACT CONT: (1) require the ASLAB to make a separate ruling on the question of effectiveness, or (2) require final ASLAB and Commission decisions on the merits of certain construction-related issues prior to authorizing issuances of the construction permit; require final ASLAB and Commission decisions on the merits of all issues prior to authorizing issuances of the construction permit; and, return to the former "immediate effectiveness" rule, but relax the standards for obtaining a stay of the ASLAB decisions. The rule "Regulatory Reform of the Rules of Practice and Rules for Licensing of Production and Utilization Facilities" proposed by the Regulatory Reform Task Force will determine which of the alternatives proposed in this rule will become effective.

MODIFICATIONS TO THE NRC HEARING PROCESS (LIMITED INTERROGATORIES AND FACTUAL BASIS FOR CONTENTIONS)

Legal Authority: 42 USC 2239

CFR Citation: 10 CFR 2

Abstract: The proposed rule would expedite conduct of NRC adjudicatory proceedings by requiring intervenors in formal NRC hearings to set forth the facts on which contentions are based and the sources or documents used to establish those facts and limit the number of interrogatories that a party may file in an NRC proceeding. The proposed rule would expedite the hearing process by, among other things, requiring intervenors to set forth at the outset the facts upon which their contention is based and the supporting documentation to give other parties early notice of intervenor's case so as to afford opportunity for early dismissal of contentions where there is no factual dispute. The content of this rule is being considered as part of the regulatory reform rulemaking package.

COMMISSION REVIEW PROCEDURES FOR POWER REACTOR CONSTRUCTION PERMITS; IMMEDIATE EFFECTIVENESS RULE

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 2

Abstract: The proposed rule would amend the immediate effectiveness rule with regard to rules of practice for granting a power reactor construction permit to conform to those for granting an operating license. It (1) would retain the requirement that the Commission conduct a limited review of an Atomic Safety and Licensing Board's decision to grant a construction permit pending completion of administrative appeals and (2) would delete the requirement that an Atomic Safety and Licensing Appeal Board conduct a similar review. The proposed rule would not affect the separate Appeal Board and Commission appellate reviews of the merits of Licensing Board decisions. It would reduce somewhat the time required for administrative review of construction permit decisions while retaining direct Commission oversight prior to permit issuance. (cont)

NONDISCRIMINATION ON BASIS OF AGE IN FEDERALLY ASSISTED COMMISSION PROGRAMS

Legal Authority: 42 USC 6101

CFR Citation: 10 CFR 4

Abstract: The proposed rule would implement the provisions of the Age Discrimination Act of 1975, as amended. The proposed amendment makes it unlawful for any recipient of Federal financial assistance to discriminate on the basis of age in programs or activities receiving Federal financial assistance from the NRC. The Act also contains certain exceptions that permit, under limited circumstances, continued use of age distinctions or factors other than age that may have a disproportionate effect on the basis of age. The Act applies to persons of all ages. The proposed rule is necessary to comply with the Age Discrimination Act of 1975, which directs that all Federal agencies empowered to provide Federal financial assistance issue rules, regulations, and directives consistent with standards and procedures established by the Secretary of Health and Human Services (HHS). NRC's proposed and final regulations have been modeled after those HHS guidelines as published in 45 CFR 90. (cont)

LOWER RADIATION EXPOSURE LEVELS FOR FERTILE WOMEN

Legal Authority: 42 USC 2111; 42 USC 2201

CFR Citation: 10 CFR 19; 10 CFR 20

Abstract: The proposed rule would incorporate the intent of the recommendation of the National Council on Radiation Protection and Measurements (NCRP) in Report No. 39 that the radiation exposure to an embryo or fetus be minimized. It would help provide assurance that radiation exposures of fertile women and fetuses will be kept well within the numerical dose limits recommended by the NCRP without undue restriction on activities involving radiation and radioactive material. The proposed rule would amend NRC regulations to require licensees to instruct workers regarding health protection problems associated with exposure to radiation and radioactive materials by providing information about biological risks to embryos and fetuses. The proposed rule would also contain a Commission statement that licensees should make particular efforts to keep the radiation exposure of an embryo or fetus to the very lowest practicable level during the entire gestation period as recommended by the NCRP. The content of this rule will be incorporated into the comprehensive revision of Part 20 to be issued as a proposed rule in April 1983.

CHANGES IN RADIATION DOSE-LIMITING STANDARDS

Legal Authority: 42 USC 2111; 42 USC 2201

CFR Citation: 10 CFR 19; 10 CFR 20

Abstract: The proposed rule was published because of the desire of the Commission to reduce the risks of occupational radiation doses in Commission-licensed activities, the Commission's continuing systematic assessment of exposure patterns, and new recommendations of the International Commission on Radiological Protection for controlling radiation dose. In preparing the proposed rule, the Commission has also taken into account recently published interpretations of epidemiological data and associated recommendations for lower dose standards as well as petitions for rulemaking to lower dose standards, PRM-20-6 and PRM-20-6A. The proposed rule would eliminate the accumulated dose averaging formula and the associated Form NRC-4,

Exposure History, and impose annual dose-limiting standards while retaining quarterly standards. In addition to the imposition of annual dose-limiting standards, the proposed rule contains provisions that would express, in terms of new annual standards, the standard for dose to minors, the requirement for control of total dose to all workers, including transient and moonlighting workers. TRANSURANIC WASTE DISPOSAL

Legal Authority: 42 USC 2073; 42 USC 2093; 42 USC 2095; 42 USC 2111; 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2273; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 20; 10 CFR 150

Abstract: The proposed rule would prohibit the disposal by burial in soil of transuranic elements above a certain concentration. A companion amendment to Part 150 would reassert exclusive Commission authority in Agreement States over disposal of transuranic contaminated wastes (TRU) exceeding this concentration. This proposed rule has been incorporated into a final rule that establishes a new 10 CFR Part 61. The staff is currently preparing a notice withdrawing this proposed rule and its accompanying amendment to Part 150.

RESIDUAL CONTAMINATION IN SMELTED ALLOYS

Legal Authority: 42 USC 2021; 42 USC 2073; 42 USC 2077; 42 USC 2111; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 30; 10 CFR 32; 10 CFR 70; 10 CFR 150

Abstract: The proposed rule would exempt from licensing and regulatory requirements technetium-99 and low-enriched uranium as residual contamination in any smelted alloy. The proposed rule would remove the Commission's present specific licensing requirement that has the effect of inhibiting trade in and recycling of metal scrap contaminated with small amounts of these radioactive materials. This requirement also prevents recycling by the secondary metals industry of smelted alloys containing these two radioactive materials. The NRC issued the proposed rule in response to a Department of Energy request.

IRRETRIEVABLE WELL-LOGGING SOURCES

Legal Authority: 42 USC 2073; 42 USC 2111; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 30; 10 CFR 70; 10 CFR 150

Abstract: The proposed rule would establish requirements a licensee must follow in the event a well-logging source (a measurement /detection device which contains sealed radioactive source material) becomes disconnected from the wireline which suspends the source in the well and for which all reasonable efforts at recovery, as determined by the Commission, have been expended. The proposed rule would codify the requirements that were previously imposed on individual licensees as a license condition. The proposed rule would give reasonable assurance that there is no damage to the source through subsequent drilling operations which might result in dispersal of the radioactive material to the biosphere.

CLARIFIED REQUIREMENTS FOR TERMINATING A LICENSE

Legal Authority: 42 USC 2073; 42 USC 2092; 42 USC 2093; 42 USC 2111; 42 USC 2112; 42 USC 2113; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 2236; 42 USC 2282; 42 USC 5842

CFR Citation: 10 CFR 30; 10 CFR 40; 10 CFR 70

Abstract: The proposed regulation would clarify a licensee's authority and responsibility for nuclear materials and specify procedures that would allow for orderly license termination. Current regulations are not specific concerning licensee responsibility for nuclear materials following the expiration date of the license. A licensee could dispose of nuclear materials, notify the Commission of its intent to discontinue operations, and vacate the premises before the NRC staff could verify residual radioactive contamination levels. This situation has the potential for adverse public health and safety effects. The proposed rule is necessary to protect public health and safety by establishing clear procedures for the termination of a license. The procedures would ensure that licensed materials are properly disposed of and facilities and sites are properly decontaminated before a licensee's responsibility is terminated. Each licensee who decides to discontinue operations permanently would be required to submit form NRC-314. This form contains information describing the disposal of nuclear materials. Except for licensees with only sealed sources, each licensee would (cont)

CONSUMER PRODUCTS CONTAINING SMALL QUANTITIES OF RADIOACTIVE MATERIAL: MODIFIED REPORTING AND RECORDKEEPING REQUIREMENTS

Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 5841

CFR Citation: 10 CFR 32

Abstract: The final rule would revise the requirement that licensees distributing products containing exempt quantities of radioactive material submit annual reports on the type and number of products distributed. The final rule will require affected licensees to submit a report every five years instead of annually. NRC uses these reports to estimate exposure of the general public to widely used consumer radioactive products. A licensee's questions concerning the significance of the reports resulted in a review of the reporting requirement. The final rule is intended to reduce the administrative and paperwork burden for the licensee and the NRC without significantly changing the value of the reports to the regulatory program monitoring the use of radioactive materials in consumer products.

PATIENT DOSAGE MEASUREMENT

Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 35

Abstract: The proposed rule would require specific category medical licensees to (1) measure the total activity of each radiopharmaceutical dosage, except those containing a pure beta-emitting radionuclide, before it is administered to a patient; (2) measure doses with activity less than ten microcuries to verify that activity did not exceed ten microcuries; and (3) keep a record of each measurement. Currently, each of NRC's approximately 2000 specific medical licensees are individually required by a license condition to measure the activity of radiopharmaceutical dosages before administering them to patients. The proposed rule would simplify licensing by replacing a condition that appears in all specific medical licenses with one regulation and enhance patient radiation safety by minimizing potential misadministrations caused by not measuring the patient dosage.

GENERAL DESIGN CRITERIA FOR FUEL REPROCESSING PLANTS

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2232; 42 USC 2233

CFR Citation: 10 CFR 50

Abstract: The proposed rule would establish general criteria for designing fuel reprocessing plants in order to provide reasonable assurance that fuel reprocessing plants can be operated without undue risk to the health and safety of the public. The general criteria contains the minimum requirements that an applicant must use in the selection of principal design criteria for a fuel reprocessing plant. The principal criteria would establish design, fabrication, construction, testing, and performance requirements for structures, systems, and components important to the safety of the

facility. This proposed rule has been indefinitely deferred until needed for NRC's regulation of a reprocessing facility.

ANTICIPATED TRANSIENTS WITHOUT SCRAM (ATWS)

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 50

Abstract: The proposed rule presents two of three alternative regulatory programs designed to reduce the risk posed by accidents involving anticipated transients without scram (ATWS) events under consideration by the Commission. The third alternative is set out in a petition for rulemaking filed by twenty utilities (Electric Utilities Petition, PRM-50-29, published November 4, 1980; 45 FR 73080, and a supplement to the petition published February 3, 1981; 46 FR 10501). An ATWS event occurs when a nuclear reactor's shut down ("scram") system fails to function following a fault (transient event) in the reactor's normal heat dissipation function. A possible outcome of some ATWS accident sequences is the development of a mismatch between the power generated in the reactor and the controlled dissipation of that power. This power mismatch can threaten the integrity of the barriers that confine the fission products. A core meltdown accident, in some cases accompanied by a failure of containment and a very large release of radioactivity, is a possible outcome of some ATWS accident scenarios. (cont)

Revised Proposed Rule	12/00/83	
Final Action	12/00/83	

Small Entity: No

Additional Information: ABSTRACT CONT: Thus, the Commission has determined that the consequences of some postulated ATWS accidents are unacceptable and has developed this proposed rule to address this important safety issue through rulemaking. The Commission believes that the likelihood of severe consequences arising from an ATWS event during the two to four year period required to implement a rule is acceptably small. The implementation schedule contained in the proposed rule balances the need for careful analysis and plant modifications with the desire to carry out the objectives of the rule as soon as possible. The NRC staff, in response to comments received on the proposed rule, has scheduled the preparation of a revised proposed rule to obtain additional input from the public on the ATWS issue prior to development of a final rule.

RIN: 3150-AA19

IMMEDIATE NOTIFICATION REQUIREMENT FOR OPERATING NUCLEAR REACTORS

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 2239; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 50

Abstract: The proposed rule would require that every operating license for a nuclear power reactor contain a condition that would require the licensee to notify the Commission as soon as possible, and in all cases within one hour, of any significant event; that is, an event that could pose a threat to public health and safety. The current regulations require licensees to notify NRC of certain "significant events." The proposed rule would clarify the list of reportable significant events contained in the regulations. The proposed rule also responds to the intent of Congress, expressed in Section 201 of the Nuclear Regulatory Commission Authorization Act for Fiscal Year 1980 (PL 96-295), that the Commission establish specific guidelines for identifying accidents which could result in an unplanned release of radioactivity in excess of allowable limits and require immediate notification of these incidents. On August 19, 1980 (45 FR 55402), NRC published a final rule on emergency planning that required, among other things, procedures for immediate notification of NRC, state, and local emergency response personnel in certain situations. (cont)

Timetable:

Action	Date	FR Cite
NPRM	12/21/81	46 FR 61894
NPRM Comment Period Begin	12/21/81	46 FR 61894
NPRM Comment Period End	02/19/82	
Final Action	04/00/83	

Small Entity: No

Additional Information: ABSTRACT CONT: These situations were discussed in Revision I to NUREG-0654/FEMA-REP-I issued November 1980. NRC experience and 15 comments on the rule establishing the events that must be reported indicate that the notification rule requires clarification. The proposed rule provides the needed clarification. The proposed requirements would provide increased confidence that the public health and safety would be protected in a radiological emergency.

TECHNICAL SPECIFICATIONS FOR NUCLEAR POWER REACTORS

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 50

Abstract: The proposed rule would amend current regulations pertaining to technical specifications for nuclear power reactors. Specifically, the proposed would (1) establish a standard for deciding which items derived from the safety analysis report must be incorporated into technical specifications, (2) modify the definitions of categories of technical specifications to focus more directly on reactor operations, (3) define a new category of requirements that would be of lesser immediate significance to safety than technical specifications, and (4) establish appropriate conditions that must be met by licensees to make changes to the requirements in the new category without prior NRC approval. The changes are needed because of disagreements among parties to proceedings as to what items should be included in technical specifications, and concern that the substantial growth in the volume of technical specifications may be diverting the attention of licensees from matters most important to the safe operation of the plant. The proposed rule would improve the safety of nuclear power plant operation by reducing the volume of technical specifications, place more emphasis on those (cont)

CODES AND STANDARDS FOR NUCLEAR POWER PLANTS

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would reference additional provisions of the ASME Boiler and Pressure Vessel Code, including sections that provide rules for the construction of certain safety systems, and it would clarify existing regulations by removing obsolete provisions. The ASME Code sections proposed for incorporation by reference include the requirements for Class 2 Components, which are found in Subsections NC and NCA of the Code, and the requirements for Class 3 Components, which are found in Subsections ND and NCA of the Code. Experience has shown that these additional parts of Section III of the ASME Boiler and Pressure Vessel Code are adequate for use on a general basis. The proposed rule would establish enforceable requirements to replace previous guidance criteria and ensure the proper application of referenced ASME Codes to eliminate any possible misunderstandings concerning NRC requirements to be addressed in an application for a license for a nuclear power plant.

LICENSEE EVENT REPORT SYSTEM

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 50

Abstract: The proposed rule requests public comment on a proposal to revise and codify the existing Licensee Event Report (LER) system. The LER system is an NRC-operated, voluntary reporting system in which nuclear power plant licensees provide data concerning operational events. The Commission considered the alternative of including the industry Nuclear Plant Reliability Data System (NPRDS) in the proposed rulemaking. However, the Commission rejected this alternative when the Institute of Nuclear Power Operations (INPO) announced that they would assume responsibility for technical direction of NPRDS and would work to bring about the necessary improvements. The proposed rule would provide the NRC with the most efficient system to gather data on the operation of nuclear power reactors in order to evaluate the operation of the plants and to feed back the lessons learned from that experience.

FITNESS FOR DUTY OF PERSONNEL WITH UNESCORTED ACCESS TO VITAL OR PROTECTED AREAS OF NUCLEAR POWER PLANTS

Legal Authority: 42 USC 2236; 42 USC 2237

CFR Citation: 10 CFR 50

Abstract: The proposed rule would require licensees to establish and implement controls to provide reasonable assurance that all persons with unescorted access to protected areas are fit for duty. The Commission initiated the rule in response to concern by members of the public that nuclear power plant personnel, like airline pilots, should not be permitted to perform activities that could impair the public health and safety while unfit for duty as a result of actions such as the consumption of alcoholic beverages. The result of the proposed rule would be the further protection of the public health and safety by requiring personnel with unescorted access to protected areas to be fit for duty.

RIN: 3150-AA27

APPLICABILITY OF TECHNICAL FACILITY LICENSE CONDITIONS AND SPECIFICATIONS IN AN EMERGENCY

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 2239; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 50

Abstract: The proposed rule would add a specific provision to the Commission's regulations to clarify that licensee technical specifications are not intended to restrict or prohibit the licensee from undertaking any action necessary to protect public health and safety during the course of unanticipated emergency conditions. Technical specifications contain a wide range of operating limitations and specifications concerning actions required to respond to certain systems failures and to other specified operating events. Technical specifications also require the employment of a wide range of operating procedures to be taken in the course of operation to maintain facility safety. The rule would clarify the responsibility of licensees to take actions necessary to protect public health and safety during emergencies even though the action necessary may not be in full accord with certain provisions of the technical specifications. The staff believes that in emergency situations it is very important to assure that licensees have the ability to respond promptly using their best engineering judgment. The impact of this reporting requirement on licensees would be negligible.

SHIFT STAFFING AT NUCLEAR POWER PLANTS

Legal Authority: 42 USC 2201; 42 USC 5846

CFR Citation: 10 CFR 50

Abstract: The proposed rule would provide minimum shift staffing requirements for licensed operators at nuclear power plants. Shift staffing requirements would be based upon a powerplant's configuration (e.g., powerplant may have two units and one control room, or three units and two control rooms) and the status of each unit (i.e. operating or cold shutdown). The proposed rule, in accordance with the requirement in Task I.A.1.4. of the TMI Action Plan would upgrade shift staffing requirements at nuclear power plants to ensure that a sufficient number of licensed personnel are on duty at any given time. Although half of the licensees have met the proposed staffing levels, there is a need to grant extension of the implementation date to some licensees based on the time required to train individuals to become senior reactor operators.

SAFEGUARDS REQUIREMENTS FOR NONPOWER REACTOR FACILITIES POSSESSING FORMULA QUANTITIES OF STRATEGIC SPECIAL NUCLEAR MATERIAL

Legal Authority: 42 USC 2071; 42 USC 2073; 42 USC 2133; 42 USC 2134; 42 USC 2152; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 2236; 42 USC 2239; 42 USC 2273; 42 USC 5841; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 50; 10 CFR 70; 10 CFR 73

Abstract: The revised proposed rule would establish permanent physical security requirements for nonpower reactor licensees who possess a formula quantity (five formula kilograms or more) of strategic special nuclear material (SSNM), primarily uranium-235 contained in high-enriched uranium (HEU). These regulations would require a nonpower reactor licensee, who possesses a nonexempt formula quantity of SSNM, to provide protection against insiders

and to arrange for a response by local law enforcement or other agencies in time to prevent a theft of a formula quantity. The staff is proposing a performance oriented regulatory approach which would give affected licensees flexibility in designing cost-effective measures for implementing the requirements of the final rule by allowing licensees to take advantage of existing facility design features. The proposed amendments would replace the currently effective interim requirements in 10 CFR 73.60.

CODES AND STANDARDS FOR NUCLEAR POWER PLANTS (SUMMER 1982)

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would incorporate by reference the Summer 1982 addenda of the ASME Boiler and Pressure Vessel Code. The ASME (American Society of Mechanical Engineers) code sets standards for the construction of nuclear power plant components. The ASME code requirements for nuclear power plants are set forth in Section III for construction permit holders. The proposed rule would include the most recent changes made to the ASME Boiler and Pressure Vessel Code and permit the use of improved methods for construction of nuclear power plants.

EXPLANATION TO TABLE S-3 URANIUM FUEL CYCLE ENVIRONMENTAL DATA

Legal Authority: 42 USC 2011; 42 USC 4321

CFR Citation: 10 CFR 51

Abstract: The proposed rule provides a narrative explanation of the numerical values established in Table S-3, "Table of Uranium Fuel Cycle Environmental Data," that appears in the Commission's environmental protection regulations. The proposed rule describes the basis for the values contained in Table S-3, the significance of the uranium fuel cycle data in the table, and the conditions governing the use of the table. The narrative explanation also addresses important fuel cycle impacts (e.g., environmental dose commitments, health effects, socioeconomic impacts) and the cumulative impacts that it may be possible to handle generically rather than repeatedly in individual licensing proceedings. A U.S. Court of Appeals (D.C. Circuit) decision on April 27, 1982, invalidated the entire Table S-3 rule. While this decision is being appealed to the Supreme Court, the proposed rule to provide a narrative explanation for Table S-3 is being held in abeyance.

DISPOSAL OF HIGH-LEVEL RADIOACTIVE WASTES IN GEOLOGIC REPOSITORIES

Legal Authority: 42 USC 2021; 42 USC 2071; 42 USC 2073; 42 USC 2092; 42 USC 2093; 42 USC 2095; 42 USC 2111; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 4332; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 60

Abstract: The proposed rule would specify the technical criteria for the disposal of high-level radioactive waste (HLW) in geologic repositories. These proposed criteria address siting, design, and performance of a geologic repository, and the design and performance of the package which contains the waste within the geologic repository. The proposed rule also includes criteria for monitoring and testing programs, performance confirmation, quality assurance, and personnel training and certification. The proposed criteria are necessary for the NRC to fulfill its statutory obligations concerning the licensing and regulating of facilities used for the receipt and storage of high-level radioactive waste and to provide guidance to the Department of Energy and to the public as to the NRC's technical requirements for the disposal of high-level radioactive wastes in a geologic repository.

MATERIAL CONTROL AND ACCOUNTING REQUIREMENTS FOR LOW ENRICHED URANIUM FUEL CYCLE FACILITIES

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 70

Abstract: The proposed rule would establish more cost-effective material control and accounting (MC&A) requirements for low

enriched uranium (LEU). Under current regulations almost all substantive requirements apply uniformly to all licensees authorized to possess greater than one effective kilogram of special nuclear material, whether they have high enriched uranium (HEU), plutonium, or LEU. However, both NRC-sponsored and independent studies have concluded that safeguard risks associated with LEU are far less significant than risks associated with HEU. The proposed rule reduces the LEU MC&A requirements to a level commensurate with the material's low safeguards significance, while maintaining safeguards standards which meet those of the IAEA. The reduction in requirements is estimated to save the industry over $3 million per year.

TRANSPORTATION OF RADIOACTIVE MATERIAL - COMPATIBILITY WITH IAEA REGULATIONS

Legal Authority: 42 USC 2073; 42 USC 2093; 42 USC 2111; 42 USC 2232; 42 USC 2233; 42 USC 2273; 42 USC 5842

CFR Citation: 10 CFR 71

Abstract: The proposed rule would revise the NRC's regulations for the transportation of radioactive material to make them more compatible with those of the International Atomic Energy Agency (IAEA) and thus with those of most major nuclear nations of the world. Although several substantive changes are proposed in order to provide a more uniform degree of safety for various types of shipments, the Commission's basic standards for radioactive material packaging would remain unchanged. The Department of Transportation (DOT) is also proposing a corresponding rule change to its Hazardous Materials Transport Regulations.

PACKAGING OF RADIOACTIVE MATERIAL FOR TRANSPORT AND TRANSPORTATION OF RADIOACTIVE MATERIAL UNDER CERTAIN CONDITIONS

Legal Authority: 42 USC 2073; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 71

Abstract: The proposed rule would require that shipments of plutonium by air be contained in a package specifically certified as air crash-resistant. The rule would permit the air shipment of plutonium in other packages if the plutonium is in a medical device for individual human use or if the plutonium is shipped in quantities or concentrations small enough to prevent significant hazard to the public health and safety, even if the plutonium were released in an air crash. This rule was developed in response to an amendment to the NRC Authorization Act for Fiscal Year 1978, PL 94-79, which was passed on August 9, 1975. This amendment, known as the "Scheuer Amendment," prohibited the air transport of plutonium, except in medical devices, until the NRC certified to the Congress that an air crash-resistant package has been developed. On August 4, 1978, the Commission certified to the Congress that a package certification program has been completed. The NRC has issued this proposed rule which would implement the mandate of Congress. All NRC licensees authorized to transfer plutonium are subject to the provisions of this proposed rule.

MISCELLANEOUS AMENDMENTS CONCERNING PHYSICAL PROTECTION OF NUCLEAR POWER PLANTS (PART OF INSIDER RULE PACKAGE)

Legal Authority: 42 USC 2101; 42 USC 5841

CFR Citation: 10 CFR 73

Abstract: The proposed rule would require in Nuclear Power Plants (1) the designation of vital areas (to allow vital islands), (2) access controls to vital islands, (3) the protection of certain physical security equipment, (4) revised requirements for key and lock controls, and (5) revised searches of hand-carried items at protected area entry points. The requirements will clarify policy in these areas and reduce unnecessary burden on the industry while maintaining plant protection. This rule is a revision of the proposed rule entitled "Access Controls to Nuclear Power Plant Vital Areas." Initial development on the final rule produced significant changes, particularly the criteria for personnel access controls to vital areas, resulting in the need to publish a revised proposed rule. This proposed rule and the other components of the Insider Rule Package are being reviewed by the NRC Safety/Safeguards Review Committee.

SEARCHES OF INDIVIDUALS AT POWER REACTOR FACILITIES (PART OF INSIDER PACKAGE)

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 73

Abstract: The revised proposed rule would require nuclear power plant licensees to conduct searches of individuals, similar to those used on an interim basis at power reactors prior to November 1, 1980, at the entry portals to protected areas of power reactor facilities. The searches would include the mandatory use of search equipment for all persons and the use of pat-

down searches of visitors. Pat-down searches of employees would be required in certain situations. The currently effective regulations require, in part, that pat-down searches be conducted by licensees of their employees and other persons before their entry into a protected area of a power reactor facility. However, the NRC has extended relief to licensees from the requirement to conduct the physical search of regular employees of power reactor facilities while this rulemaking is proceeding (December 1, 1980; 45 FR 79410).

Additional Information: In response to public comments on the proposed rule that was published on December 1, 1980 (45 FR 79492), the staff is currently considering additional changes to the revised proposed rule. In response to public comments, the staff is considering changes to the proposed rule which would require utility employees and contractors who had been successfully screened in accordance with the requirements included in the proposed rule entitled "Access Controls to Nuclear Power Plant Vital Areas," published on March 12, 1980 (45 FR 15937), to be subject only to random searches using search equipment. All unscreened individuals will be required to be searched using search equipment. Physical searches would be required only when search equipment is not working properly or when the licensee suspects that an individual is attempting to carry into the plant prohibited devices or material.

REVISION OF LICENSE FEE SCHEDULES

Legal Authority: 42 USC 2201; 42 USC 5841; 42 USC 483

CFR Citation: 10 CFR 170

Abstract: The proposed rule would amend the regulations to permit the NRC to charge fees for the actual cost incurred by the NRC for inspections and for review of applications, permits, licenses, amendments, renewals, and special projects, including topical and other reports. The new fee schedule would affect the licensing and inspection of nuclear power plants, other production or utilization facilities, vendors of nuclear power steam supply systems and materials, facilities engaged in uranium and plutonium fuel fabrication, uranium milling, leaching and refining operations, source material ore-buying and ion exchange activities, burial of radioactive waste, spent fuel cask and packaging approvals, and other users of critical quantities of special nuclear materials. It incorporates the proposed new Category 11.F schedule of fees for materials licenses published in the Federal Register as a proposed rule on March 31, 1980 (45 FR 20899). The comment period has been extended to February 8, 1983 (48 FR 3624).

RIN: 3150-AA54

TEMPORARY OPERATING LICENSES

Legal Authority: 42 USC 2201; PL 97-415

CFR Citation: 10 CFR 2; 10 CFR 50

Abstract: The proposed rule would implement pending legislation by permitting the Commission to issue a temporary operating license for a nuclear power plant authorizing fuel loading, low-power operation, and testing. This temporary operating license would be issued in advance of the conduct or completion of an on-the-record evidentiary hearing on contested issues relating to the final operating license. This rule would speed the licensing process by authorizing utilities that have applied for licenses to operate nuclear power plants to load fuel and conduct low-power operation and testing on the basis of previously submitted and approved safety and environmental evaluations. Before enactment of legislation, the Commission lacked the authority to authorize fuel loading and low-power operation and testing on the basis of safety and environmental evaluations; instead, this authorization was possible only after the hearing process was complete.

BACKFITTING

Legal Authority: 42 USC 2021; 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 2239; 42 USC 4332; 42 USC 4334; 42 USC 4335; 42 USC 5841; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 2; 10 CFR 50

Abstract: The proposed rule would modify current NRC regulations governing the "backfitting" of production and utilization facilities. "Backfitting" is the term used to describe modifications made to the design of a facility under operating license review or to an operating facility to meet upgraded requirements imposed in response to advances in knowledge concerning reactor design and reactor safety. The proposed changes would revise the Commission's standard for determining whether backfitting is required and is being considered as part of a larger effort to review the NRC's internal processes and procedures associated with the licensing of nuclear power reactors. The specific purposes for development of the proposed rule are as follows: (1) To improve the quality of the backfitting decision-making process; (2) To address the concern that the pace and nature of regulatory actions have created a potential safety problem which deserves further attention by the agency; and (3) To reduce the level of regulatory uncertainty and ensure better understanding and improve analysis of the costs and safety benefits likely to result from NRC-imposed changes before they are placed in effect.

●REGULATORY REFORM OF THE RULES OF PRACTICE AND RULES FOR LICENSING OF PRODUCTION AND UTILIZATION FACILITIES

Legal Authority: 42 USC 2201; 42 USC 2231; 42 USC 5841; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 2; 10 CFR 50

Abstract: This proposed rule would amend thirty-three sections of two parts affecting the hearing process associated with the issuance of licenses. In the screening process, the most significant changes would (1) establish a screening Atomic Safety and Licensing Board (ASLB) to act as a clearing house for all requests for hearings, petitions for leave to intervene, and proposed contentions, (2) require a participant in a hearing to show that he or she has an interest to protect in the proceeding, and (3) require evidence of a factual dispute for a contention to be admitted. During the conduct of hearings, the most significant changes would (1) not hear discovery requests requiring the staff to support positions other than its own, (2) permit the ASLB to decide the case on the basis of written material, (3) permit the ASLB to appoint a panel of technical experts if needed, (4) allow presiding officers to raise issues on their own motion (sua sponte) only in unusual cases, (5) allow summary disposition motions to be filed at any stage of the proceeding, (6) allow the Commission to designate a hearing examiner in lieu of a three-member ASLB and (7) require the filing of cross examination plans.

Timetable:

Action	Date	FR Cite
NPRM	06/15/83	

Small Entity: No

Additional Information: During the decision-making process, the most significant changes would (1) remove the ASLAB as an independent appeal board but place it organizationally directly under the Commission to review, as before, ASLB decisions, and give its recommendations to the Commission, (2) allow any generic issue resolved in an initial licensing proceeding to be codified, allowing a 45-day comment period, (3) allow an intervenor to participate in discussing only those items he or she introduced, and (4) reinstate the immediate effectiveness of an ASLB decision on an operating license, construction permit, or work authorization.

SEPARATION OF FUNCTIONS AND EX PARTE COMMUNICATIONS IN ON-THE-RECORD ADJUDICATIONS

Legal Authority: 5 USC 554; 5 USC 557

CFR Citation: 10 CFR 2

Abstract: The proposed rule would amend the Commission's rules of practice regarding the separation of functions and ex-parte communications in on-the-record adjudications. The proposed rule contains two options. Each option would allow the Commission greater flexibility in communicating with its staff by relaxing the restrictions on Commission-staff communications in initial licensing cases. The first option would eliminate restrictions on supervisory personnel while the second function would remove all restrictions in initial licensing matters. The proposed rule is intended to provide the Commission with better access to the expertise of its staff. This proposed rule would supersede a prior proposed rule entitled "Ex Parte Communications and Separation of Adjudicatory and Non-Adjudicatory Functions" published in the Federal Register on March 7, 1979 (44 FR 12428).

RIN: 3150-AA64

PERFORMANCE TESTING FOR BIOASSAY LABS

Legal Authority: 42 USC 5841

CFR Citation: 10 CFR 20

Abstract: The proposed rule would require licensees, who provide bioassay services for individuals to assess internal radiation exposure, to use accredited laboratories after the NRC establishes an accreditation program. The proposed rule would reduce unacceptable errors in measurements that have been revealed by programs designed to check the accuracy of laboratories that analyze materials for radioactivity. Thus, the accuracy and reliability of determinations of internal radiation exposure or intakes of radioactive material would be improved. An expert committee of the Health Physics Society has written a draft standard. The draft standard has been revised to take into account early comments that the NRC solicited and received from industry. The NRC, in cooperation with the DOE, has established a performance testing study to test the standard, to provide the information necessary to complete the standard, and to design and set up an accreditation program.

PERFORMANCE TESTING FOR HEALTH PHYSICS SURVEY INSTRUMENTS

Legal Authority: 42 USC 2073; 42 USC 2093; 42 USC 2095; 42 USC 2111; 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2273; 42 USC 5841; 42 USC 5842

CFR Citation: 10 CFR 20

Abstract: The advance notice of proposed rulemaking would require that NRC licensees use health physics survey instruments that have been certified as meeting certain performance specifications. The proposed rule would permit the NRC to determine whether health physics survey instruments used by almost all NRC licensees meet acceptable performance standards. The proposed rule would improve the radiation safety of workers using health physics instruments by ensuring that the instruments meet acceptable performance standards.

PROCEDURES FOR PICKING UP, RECEIVING, AND OPENING PACKAGES

Legal Authority: 42 USC 2201; 42 USC 5842

CFR Citation: 10 CFR 20

Abstract: The proposed rule has been prepared in response to a General Accounting Office recommendation that the NRC broaden the requirements of Section 20.205. The rule would extend current requirements for the receipt and external radiation monitoring by licensees of packages containing an excess of Type A quantities of nuclear material to include packages not transported by exclusive use vehicles that contain more than one-third of a Type A quantity of nuclear material. These packages, if damaged, could pose a direct radiation hazard. The rule would remove the existing requirements to report excessive external radiation levels at the package surface to avoid increased occupational radiation exposure to the worker. The rule would also add a general package monitoring under existing NRC regulations in Section 20.205. The effect of the proposed rule would be to provide increased radiological protection for transportation workers and the general public by broadening the requirements for monitoring packages used to transport radioactive material.

PROPOSED REVISIONS TO THE CRITERIA AND PROCEDURES FOR THE REPORTING OF DEFECTS AND NONCOMPLIANCE

Legal Authority: 42 USC 2201; 42 USC 2282; 42 USC 5841; 42 USC 5846

CFR Citation: 10 CFR 21; 10 CFR 50

Abstract: This proposed rule would amend Part 21 and Part 50.55(e), both of which require the reporting of defects by licensees, (1) to eliminate duplicate reporting and evaluation, (2) to establish consistency with other NRC reporting requirements, (3) to clarify reporting criteria and responsibilities for establishing procedures for implementing 10 CFR Part 21, and (4) to establish time limits within which a defect must be reported and evaluated.

†REGIONAL LICENSING PROGRAM; FURTHER IMPLEMENTATION

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 30; 10 CFR 40; 10 CFR 70

Abstract: The final rule provides information concerning the further implementation of NRC's regional licensing program as the program applies to byproduct, source, and special nuclear material licensees. The final rule extends the regional licensing program

for materials licensees to Regions II, IV, and V. The final rule also specifies the categories of licensing actions for which authority has been delegated to each Regional Administrator. The final rule is necessary to inform current or prospective licensees of current NRC practices and procedures.

†RADIATION SURVEYS AND INTERNAL INSPECTION SYSTEM

Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 5841

CFR Citation: 10 CFR 34

Abstract: The proposed rule would require that the internal inspection description in a radiography license application specify a method for inspecting each radiographer and radiographer's assistant's knowledge of applicable regulations, license conditions, and established procedures at intervals not exceeding three months. This action is intended to ensure that radiographic operations are conducted safely. The proposed rule would also allow a licensee to record a radiation survey of a radiographic exposure device made when storing the device after use instead of recording the results of the radiation survey made after the last exposure. This action, which is taken in response to PRM-34-3, is intended to provide an acceptable alternative procedure for assuring that the sealed source has been properly stored within the device.

MEDICAL LICENSES FOR HUMAN USE OF BYPRODUCT MATERIAL

Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 2232; 42 USC 2233

CFR Citation: 10 CFR 35

Abstract: The proposed rule would completely revise Part 35. This part contains the requirements and procedures applicable to a physician or medical institution that seeks to obtain a license authorizing the human use of byproduct material. The proposed rule would simplify the medical licensing process by adopting a "performance standard" approach to medical licensing. The proposed rule would simplify the medical licensing process and reduce the administrative burden on the licensee and the NRC by (1) including in the regulations all the requirements a medical licensee must meet; (2) eliminating or modifying administrative requirements not essential to safety; (3) simplifying the application form which, together with an automated licensing system, will create a more efficient licensing process; and (4) reducing the paperwork burden for the licensee and the NRC. The proposed rule would be consistent with regulatory reform objectives while maintaining the current level of protection to the health and safety of the medical worker and the general public. ●GROUP LICENSING FOR CERTAIN MEDICAL DEVICES: SEALED SOURCE DEVICE

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 35

Abstract: The final rule would add a device containing iodine-125 as a sealed source to the list of groups of authorized radioactive drugs, sources, and devices. This hand-held device is used for real-time bone imaging and foreign body detection. The Commission has performed a safety analysis and will consult with the Advisory Committee on the Medical Uses of Isotopes before adding this device to the Group VI listing in its regulations that contains similar sealed source devices. This action would allow NRC Group VI medical licensees to use this device without applying for a license amendment.

FIRE PROTECTION FOR FUTURE PLANTS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would provide more comprehensive fire protection requirements for future nuclear power plants by consolidating the NRC fire protection guidelines and requirements for nuclear power plants into one enforceable document. The present requirements for fire protection at nuclear power plants are limited in that these requirements apply only to plants licensed prior to January 1, 1979. At the time when these effective regulations were approved, the Commission directed the staff to proceed with development of a comprehensive rule for plants licensed in the future. The Commission has approved a staff recommendation that preparation of the proposed comprehensive fire protection rule for new nuclear power plants be postponed until June 1984. This postponement will allow the staff to concentrate on processing the many Appendix R exemption requests. The results of relevant research and the exemption request resolution decisions will then be available to assure proper technical bases for the rule. In addition, the Commission requested a report from the staff by June 30, 1983, which will describe the types of exemptions requested and the safety (cont)

RADON EMISSIONS ESTIMATE FOR TABLE S-3

Legal Authority: 42 USC 2201; 42 USC 5841; 42 USC 5842

CFR Citation: 10 CFR 50; 10 CFR 51

Abstract: In a Federal Register notice published on April 14, 1979 (43 FR 15613) the Commission deleted the radon-222 value from Table S-3 because it was recognized to be underestimated; the Commission stated that upon issuance of the Generic Environmental Impact Statement (GEIS) on uranium milling and the evaluation of data from several ongoing research programs, it would determine whether to initiate rulemaking to provide a new estimate for radon-222 in Table S-3. Meanwhile, the environmental effects of radon-222 would be subject to litigation in individual nuclear power plant licensing proceedings. The purpose of the proposed rule would be to deal with this question generically for all nuclear power plants, thus saving the time and cost of repetitive consideration of the effects of radon-222 in individual nuclear power plant licensing proceedings. The GEIS on uranium milling and the reports of research on radon releases in uranium mining were published in 1979 and 1980. Based on these documents, the staff developed new estimates of radon emissions from the entire fuel cycle. These new estimates were introduced into the public record at the February 1980 hearing on radon before the (cont)

ASLA Board Decision on Radon-222	00/00/00	

Small Entity: No

Additional Information: ABSTRACT CONT: Atomic Safety and Licensing Appeal Board in Harrisburg, PA. The Appeal Board decision of May 13, 1981 (ALAB-640) upheld the staff's new estimates of radon releases and the final decision (ALAB-701) affirmed previous decisions that fuel-cycle-related radon emissions would not have significant health effects. Rulemaking to add the new value for randon 222 in Table S-3 could be affected by actions taken in response to the Chairman's memorandum of October 13, 1982, suggesting review of the uranium mill tailings regulations. In a separate action, the D.C. Circuit Court of Appeals decision of April 27, 1982, invalidated the entire Table S-3 rule. The Nuclear Regulatory Commission is appealing this decision to the Supreme Court. Pending the outcome of this appeal, the rulemaking to add a new estimate for randon-222 to Table S-3 is being held in abeyance.

APPLICABILITY OF APPENDIX B TO APPENDIX A

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2233

CFR Citation: 10 CFR 50

Abstract: The proposed rule would clarify the quality assurance program requirements for those structures, systems, and components of nuclear power plants that are important to safety. The proposed rule would also eliminate any possible confusion over the definition of the terms "important to safety" and "safety-related" and provide a clear statement in the Commission's

regulations concerning the applicability of the quality assurance criteria in 10 CFR 50 of Appendix B to the structures, systems, and components covered in Appendix A. In the aftermath of the Three Mile Island-2 accident, a number of studies concluded that the scope of the items to which the quality assurance criteria of Appendix B to 10 CFR 50 apply needs to be broadened to include the full range of safety matters as was originally intended. Typical examples of structures, systems, and components for which the Appendix B quality assurance program criteria may not have been fully implemented are in-core instrumentation, reactor coolant pump motors, reactor coolant pump power cables, and radioactive waste system pumps, valves, and storage tanks. The proposed rule could expand (cont)

RIN: 3150-AA79

OCCUPATIONAL ALARA RULE

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would require NRC commercial nuclear power plant operating licensees to develop and use means subject to NRC inspection and enforcement to achieve and control occupational radiation dosages that are as low as reasonably achievable (ALARA). This requirement would become part of the Radiation Protection Programs of licensees required to provide personnel monitoring, perform bioassays, or to measure concentrations of radioactivity in the air. The proposed rule expresses the Commission's belief that radiation doses received by workers in licensed activities can and should be reduced and strengthen efforts to maintain occupational doses of ionizing radiation ALARA. The Commission believes that a reduction in the occupational collective (man-rem) dose received in connection with NRC licensed activities at nuclear power plants can be effected without unreasonable costs to licensees. With this objective, it is feasible to adopt as performance criteria, radiation protection techniques which have been shown by experience to be both effective and practical.

CRITERIA FOR NOTICE AND PUBLIC COMMENT AND PROCEDURES FOR STATE CONSULTATION ON LICENSE AMENDMENTS INVOLVING NO SIGNIFICANT HAZARDS CONSIDERATION

Legal Authority: 42 USC 2201; PL 97-415

CFR Citation: 10 CFR 2; 10 CFR 50

Abstract: The proposed rule would implement recently enacted legislation by specifying criteria and procedures for providing or dispensing with prior notice and public comment on determinations about whether amendments to operating licenses for certain facilities involve no significant hazards consideration. In addition, the proposed rule would specify procedures for consultation on these determinations with the State in which the facility of the licensee requesting the amendment is located. The proposed rule would permit the Commission to act expeditiously, if circumstances surrounding a request for amendment require a prompt response and to issue an amendment before holding any required hearing, unless a significant hazards consideration is involved.

RIN: 3150-AA61

EXTENSION OF CRIMINAL PENALTIES

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 50

Abstract: The proposed rule, in accordance with the provisions of the NRC Authorization Act for Fiscal Year 1980, would extend the application of the criminal penalties provision of the Atomic Energy Act (AEA) of 1954, as amended, to any individual director, officer, or employee of a firm constructing or supplying the components of a nuclear power plant who knowingly and willfully violates any NRC regulation, order, or license condition during construction of a nuclear power plant. Section 223(b) of the AEA essentially directs the Commission to establish a limit for potential unplanned off-site releases of radioactive material which would trigger consideration of possible criminal penalties. As directed in Section 223(b)(3), the proposed rule establishes, in its definition of a "basic component," the limits for potential unplanned releases of radioactive material that could trigger application of criminal penalties.

EXTENSION OF CONSTRUCTION COMPLETION DATE

Legal Authority: 42 USC 2235

CFR Citation: 10 CFR 50

Abstract: The proposed rule would clarify the provision of Section 50.55(b) which describes both the procedure for renewal of a construction permit for a nuclear power plant following its expiration (a showing of "good cause") and the circumstances under which the Commission will consider granting a request for an extension of a construction completion date. The proposed rule would also address two essentially identical petitions for rulemaking filed with the Commission by the State of Illinois (PRM-50-25) and the Porter County Chapter of the Izaak Walton League of America, et al. The petitioners requested that Section 50.55(b) be amended or rescinded, and that the Commission promulgate a regulation which would not limit a "good cause" showing to the reasons why construction was not completed before the latest completion date specified in the construction permit.

EMERGENCY PREPAREDNESS REPORTING REQUIREMENTS

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 2239; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 50

Abstract: The proposed rule would add a specific provision to the Commission's regulations which would require nuclear power plant licensees to report to the Commission if the level of emergency preparedness is adversely affected. The proposed reporting requirements would focus on the more important aspects of emergency preparedness such as communications capabilities and accident assessment capabilities, while placing less emphasis on items such as recovery operations and updating and distribution of copies of the emergency preparedness plan. The purpose of the proposed rule is to ensure that an adequate level of emergency preparedness is maintained by nuclear power plant licensees. The proposed rule would provide an enforceable basis for requiring that the affected licensees report to the NRC concerning deficiencies in the status of their emergency preparedness capabilities.

PERSONNEL ACCESS AUTHORIZATION REQUIREMENTS FOR NUCLEAR POWER PLANTS (PART OF INSIDER PACKAGE)

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50; 10 CFR 73

Abstract: The proposed rule would require nuclear power plant licensees and applicants to establish an access authorization program for individuals requiring unescorted access to the protected and vital areas of nuclear power plants. On March 17, 1977, the NRC published in the Federal Register (42 FR 14880) a proposed rule that would establish an unescorted access authorization program for individuals who have access to or control over special nuclear material (SNM) at both nuclear reactors and fuel cycle facilities. Written comments were invited and received. On December 28, 1977, the NRC published a notice of public hearing (42 FR 64703) on the proposed rulemaking. Subsequently, the NRC established a Hearing Board to gather additional testimony. As a result of information gathered at the public hearing and its own examination of the proposed access authorization program, the Hearing Board recommended publication of a final rule, based on the 1977 proposed rulemaking, for

fuel cycle facilities and transportation licensees only. (The final rule was published on November 21, 1980; 45 FR 76968.) The Hearing Board further recommended that a new access authorization (cont)

†PRESSURIZED THERMAL SHOCK

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would codify the NRC staff's recommended near-term actions for protection against pressurized thermal shock (PTS) events. Specifically, the provisions of the proposed rule would establish screening criteria for axial and circumferential welds; require licensees with operating plants to submit data concerning their reactor vessels to the NRC staff for review; require certain licensees to implement flux-reduction programs; and require certain licensees with operating pressurized water reactors (PWRs) to submit a PTS safety analysis to the NRC staff for review. The issue of pressurized thermal shock arises because in PWRs transients and accidents can occur that result in severe overcooling (thermal shock) of the reactor pressure vessel concurrent with or followed by repressurization. In these PTS events, rapid cooling of the reactor vessel internal surface results in thermal stress with a maximum tensile stress at the inside surface of the vessel. The provisions of the proposed rule would apply only to PWRs.

PRIMARY REACTOR CONTAINMENT LEAKAGE TESTING FOR WATER-COOLED POWER REACTORS

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would revise the criteria for preoperational and periodic pressure testing for leakage of primary and secondary containment boundaries of water-cooled power reactors. The current regulation specifies the criteria that leakage testing must meet and how the testing must be performed. The proposed rule would implicitly recognize national standard (ANSI/ANS 56.8) that specifies approved procedures for conducting the test and thus permit the NRC staff to focus its attention on the performance standard and design criteria aspects of the regulation. The proposed rule would eliminate ambiguities, increase the flexibility of the regulation, and emphasize the testing criteria aspects of the regulation while reducing the mechanistic aspects of the testing procedure. It would also reduce the paperwork burden on NRC and the compliance burden on licensees by reducing the number of exemption requests licensees are required to submit.

CODES AND STANDARDS FOR NUCLEAR POWER PLANTS.(WINTER 1982)

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would incorporate by reference the Winter 1982 addenda of the ASME Boiler and Pressure Vessel Code. The ASME (American Society of Mechanical Engineers) code sets standards for the construction of nuclear power plant components and specifies requirements for inservice inspection of those components. The ASME code requirements for nuclear power plants are set forth in Section III for construction permit holders and Section XI for operating plants. The proposed rule would include the most recent changes made to the ASME Boiler and Pressure Vessel Code and permit the use of improved methods for construction and inservice inspection of nuclear power plants.

OPERATOR TRAINING AND QUALIFICATION

Legal Authority: 42 USC 2137; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50; 10 CFR 55

Abstract: The proposed rule would strengthen the criteria for issuing licenses to operators of nuclear power plants by requiring simulator training, teaching theory behind the operation of a facility, maintaining operator proficiency, and requiring requalification examinations. This proposed rule would improve operator performance and bring the NRC regulations into compliance with the "Nuclear Waste Policy Act of 1982."

†GENERAL HUMAN FACTORS CRITERIA FOR NEW CONSTRUCTION

Legal Authority: 42 USC 2201; 42 USC 5846

CFR Citation: 10 CFR 50

Abstract: The advance notice of proposed rulemaking would establish three new general human factors criteria. The criteria to be addressed are 1) criteria for operability, surveillance, and maintainability, 2) criteria for management and organization, and 3) human engineering criteria. The revised human factors criteria are necessary because post-TMI reviews and

operating experience indicate that the human factors discipline is rarely applied when needed at the design and construction stage. After receipt of public comments on the ANPRM and additional review of past operating experience, the staff will develop a proposed rule.

SAFEGUARDS REQUIREMENTS FOR LICENSEES AUTHORIZED TO POSSESS SNM OF MODERATE OR LOW STRATEGIC SIGNIFICANCE

Abstract: Entry incorporated into an unpublished rule "Changes in Physical Security Plans; Licensees Possessing or Issuing Special Nuclear Material of Moderate and Low Strategic Significance" Part 70 (RIN 3150-AA95).

RIN: 3150-AA94

CHANGES IN PHYSICAL SECURITY PLANS; LICENSEES POSSESSING OR USING SPECIAL NUCLEAR MATERIAL OF MODERATE AND LOW STRATEGIC SIGNIFICANCE

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 70

Abstract: The final rule would amend the regulations for domestic licensing of special nuclear material to allow licensees possessing or using special nuclear material of moderate and low strategic significance to change their physical security plans without prior approval of the Commission, provided the changes do not decrease the effectiveness of the plan. These licensees were inadvertently omitted from the regulation published on July 24, 1979 (44 FR 43280). The final rule would correct the oversight.

INTERNATIONAL CONVENTION FOR THE PROTECTION OF NUCLEAR MATERIAL

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 70; 10 CFR 73; 10 CFR 110

Abstract: The NRC is amending its regulations in order to comply with the provisions of the International Convention for the Protection of Nuclear Material. The proposed amendments would require (1) the physical protection of transient shipments of special nuclear material of moderate and low strategic significance and irradiated reactor fuel, (2) advance notification to NRC concerning the export of Convention-defined nuclear materials, and (3) advance notification and assurance of protection to NRC concerning the importation of Convention-defined nuclear materials from countries that are not parties to the Convention.

RIN: 3150-AA92

MODIFICATION OF PROTECTION REQUIREMENTS FOR SPENT FUEL SHIPMENTS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 73

Abstract: The proposed rule would moderate the present interim requirements for the protection of shipments of irradiated reactor fuel cooled for 150 days or more. Recent research shows that the quantity of radioactive material that would be released as a result of successful sabotage is much smaller than was supposed at the time that the interim rule was issued. The moderated requirements would provide for (1) shipments to be accompanied by an unarmed escort, who may be a driver or carrier employee and may have other duties, (2) on-board communications, and (3) immobilization capability for trucked shipments. Present interim requirements will continue to be effective for shipments of irradiated reactor fuel cooled less than 150 days. The benefit of the proposed rule would be the elimination of unnecessarily strict requirements which presently apply to spent fuel shipments. It is estimated that the modified requirements will result in a savings to licensees of about $20,000 to $30,000 annually, assuming 135 shipments annually.

MEDICAL STANDARDS FOR EMPLOYMENT OF SECURITY PERSONNEL

Legal Authority: 42 USC 2201; 42 USC 5842

CFR Citation: 10 CFR 73

Abstract: The proposed rule would amend the medical standards for the employment of security personnel by licensees who operate nuclear power plants, fuel cycle facilities, or possess or ship certain quantities of special nuclear material. Specifically, the rule would revise paragraph I.B.(3) of Appendix B to Part 73 to provide the conditions under which persons with an established medical history or medical diagnosis of a chronic or nervous disorder may be employed as security personnel. Currently, these criteria provide that an individual have no established medical history or diagnosis of epilepsy or diabetes or, where either of these medical conditions exist, the individual provide medical evidence that the condition may be controlled with proper medication. The revised paragraph would clarify the types of diseases which are required to be controlled in order for individuals to be employed as security personnel and would require that an individual who has any chronic disease or nervous disorder must provide evidence that it can be controlled through medication.

EXPORT/IMPORT OF NUCLEAR EQUIPMENT AND MATERIAL

Legal Authority: 42 USC 2073; 42 USC 2074; 42 USC 2077; 42 USC 2092; 42 USC 2094; 42 USC 2111; 42 USC 2112; 42 USC 2139; 42 USC 5841; 42 USC 5842

CFR Citation: 10 CFR 110

Abstract: The proposed rule would simplify licensing requirements for the export of nuclear equipment and material that does not have significance from a nuclear proliferation perspective by expanding or establishing general licenses for nuclear reactor components, gram quantities of special nuclear material, and certain kinds of source or byproduct material. The general licenses would ease current licensing restrictions by removing the requirement to obtain a specific export or import license for certain material and equipment. The proposed general licenses include a policy of facilitating nuclear cooperation with countries sharing U.S. non-proliferation goals. The proposed rule would increase international commerce and reduce the regulatory burden on the public and the NRC without increasing the risk to public health and safety or the common defense and security. The proposed rule would reduce NRC's minor case licensing workload by about 75% thus allowing the staff to process license applications for major exports of nuclear equipment and material expeditiously.

CRITERIA FOR AN EXTRAORDINARY NUCLEAR OCCURRENCE

Legal Authority: 42 USC 2201; 42 USC 2210; 42 USC 5841; 42 USC 5842

CFR Citation: 10 CFR 140

Abstract: The proposed rule would revise the criteria the Commission currently follows in determining an extraordinary nuclear occurrence (ENO), in order to overcome the problems that were encountered following the Three Mile Island (TMI) accident when the present criteria were applied. The proposed criteria would focus on things that can be readily counted or estimated within a relatively short time following an accident (i.e., substantial release of radioactive material or radiation offsite and substantial exposure levels). The revised criteria will provide for speedy satisfaction of legitimate claims in the event of an ENO.

EXECUTIVE ORDER 12356, "NATIONAL SECURITY INFORMATION," IMPLEMENTATION

Legal Authority: 42 USC 2165; 42 USC 2201; 42 USC 5841; EO 12356

CFR Citation: 10 CFR 2; 10 CFR 9

Abstract: The final rule amends NRC regulations to incorporate the new Executive Order 12356, "National Security Information," and Implementing Directive. EO 12356 replaces EO 12065 and modifies the procedures to be followed wherever a Freedom of Information Act request is made for a classified document. In addition, the rule makes minor changes to some definitions contained in these parts. This final rule brings NRC regulations into compliance with the latest Executive Order. EO 12356, that prescribes a uniform system for classifying/declassifying, and safeguarding National Security Information.

ACCESS TO AND PROTECTION OF NATIONAL SECURITY INFORMATION AND RESTRICTED DATA

Legal Authority: 42 USC 2165; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 25; 10 CFR 95

Abstract: The final rule (1) modifies the requirements for requesting access authorizations for individuals who possessed authorizations on the effective date of Part 25, (2) establishes a requirement to maintain records concerning visits to and from affected licensed facilities involving classified information, (3) provides additional guidance to affected licensees for handling classified drafts of documents and working papers as well as guidance for obtaining approvals for the security of telecommunications and ADP systems where classified information is involved, and (4) addresses the requirements for classifying, declassifying and safeguarding National Security Information as set forth in the new EO 12356 and Implementing Directive. These final amendments are necessary to incorporate experience gained under the current regulations, comply with the requirements of the new Executive Order 12356, and prohibit the unauthorized disclosure of National Security Information and Restricted Data.

PHYSICIAN'S USE OF RADIOACTIVE DRUGS

Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 5841

CFR Citation: 10 CFR 35

Abstract: The final rule establishes the first exception to the NRC's requirement that a physician follow FDA approved labeling for (1) chemical and physical form, (2) route of administration, and (3) dosage range. The final rule allows a physician to use technetium-99 pentatate for lung function studies without regard to restrictions concerning FDA labeling. The final rule also establishes the process by which other radiopharmaceuticals and uses could be exempted from the requirement to follow FDA labeling after the NRC makes a determination of radiation safety. This final rule constitutes NRC's response to PRM-35-1.

TELETHERAPY ROOM RADIATION MONITORS

Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 5841

CFR Citation: 10 CFR 35

Abstract: The final rule codifies existing licensing orders and conditions that require installation of radiation monitors in licensed teletherapy rooms, the use of portable survey meters when monitors are inoperable, and the performance of inspection and servicing of safety related teletherapy components. The rule is intended to provide warning of potential teletherapy unit malfunctions and resultant patient/operator overexposures. Further, the final rule replaces repetitive individual license conditions with a single regulation. Finally, inspection and servicing requirements are required of teletherapy licensees. The NRC became aware of several teletherapy unit malfunctions that had the potential of causing serious overexposures through reports from the Bureau of Radiological Health and voluntary reports from licensees. In May 1980, the NRC issued an order amending all teletherapy licenses to require the installation of radiation monitors.

MISADMINISTRATION OF RADIOACTIVE MATERIAL; PROPOSED REMOVAL OF REPORTING REQUIREMENTS

Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 5841

CFR Citation: 10 CFR 35

NRC

Completed Actions

Abstract: On May 14, 1980 (45 FR 31701) the Commission published a final rule requiring NRC's medical licensees to report misadministrations of radioactive material. The rule was intended to detect common conditions that lead to misadministrations and correct them by regulation or license condition. The Commission indicated that it would reevaluate the merits of the regulation after three years. In a memorandum dated June 30, 1981, the Commission directed the staff to conduct an analysis of the first year's reports. After conducting the anlysis, the staff submitted a proposed rule that would have removed the reporting requirements to the Commission for approval. On October 29, 1981, the Commission disapproved the staff's recommendation to remove the medical misadministration reporting requirements thereby ending the rulemaking proceeding.

TMI-RELATED LICENSING REQUIREMENTS FOR PENDING OPERATING LICENSE APPLICATIONS

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 50

Abstract: The proposed rule would add new requirements to power reactor safety regulations applicable only to operating license applications. The proposed rule, as part of NRC's efforts to apply the lessons learned from the accident at Three Mile Island to power plant licensing, would codify into the Commission's regulations the basic requirements contained in NUREG-0737, which address the problems of design deficiencies, equipment failure, and human error. The proposed rule advised the public that the Commission was considering the issuance of a similar rule that would incorporate NUREG-0737 requirements into its regulations applicable to operating reactors. However, at a meeting held August 12, 1981, the Commission determined that a proposed rule for operating reactors should not be issued, and requested instead an approach with a substantially reduced scope that would increase flexibility and permit more detailed consideration. The Commission approved staff recommendations not to issue a final rule imposing NUREG-0737 provisions on operating license applicants. Recent litigation experience shows that there is no need for the rule, and the rule would limit flexibility.

REPORTING OF CHANGES TO THE QUALITY ASSURANCE PROGRAM

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The final rule requires each holder of a nuclear power plant or fuel reprocessing plant construction permit or operating license to (1) inform the Commission in writing of quality assurance (QA) program changes that affect the description of the quality assurance program described or referenced in its Safety Analysis Report and accepted by the Commission, and (2) to clarify the requirement concerning implementation of the accepted quality assurance program. In the past, existing regulations did not specifically require that changes to the accepted quality assurance program be reported and some licensees changed their quality assurance programs without informing the Commission. The final rule ensures that quality assurance programs accepted by the Commission do not have their effectiveness reduced by subsequent changes thereby increasing the risk to public health and safety.

ENVIRONMENTAL QUALIFICATION OF ELECTRIC EQUIPMENT IMPORTANT TO SAFETY FOR NUCLEAR POWER PLANTS

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2232; 42 USC 2233

CFR Citation: 10 CFR 50

Abstract: The final rule clarifies and strenghtens the criteria for environmental qualification of electric equipment used in nuclear power plants. The applicable qualification methods currently contained in national standards, NRC regulatory guides, and certain NRC publications for equipment qualification are subject to different interpretations and have not had the legal force of an agency regulation. The final rule codifies the current NRC practice and applies the same uniform performance criteria with respect to environmental qualification to all operating nuclear power plants and plants for which application has been made for a construction permit or an operating license. Included are specific technical requirements pertaining to (a) qualification parameters, (b) qualification methods, and (c) documentation. The scope of the final rule includes that portion of electric equipment important to safety commonly referred to as safety-related electric and non safety-related electric equipment whose failure could prevent the satisfactory accomplishment of required safety functions by a safety-related equipment.

FILING OF CONTROLLED COPIES OF EMERGENCY PLANS

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 2239; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 50

Abstract: The final rule requires certain licensees to submit a specified number of controlled copies of emergency plans and implementing procedures along with changes to these plans and procedures to the appropriate NRC regional office and to NRC headquarters. Each of the controlled copies delivered to NRC would have a receipt attached that would be signed and returned to the licensee by the NRC employee who is responsible for receiving and maintaining the controlled copies. The NRC employee would certify that the plan was received and filed or that the changes were received and incorporated into the appropriate emergency plan. Adoption of the final rule will ensure that the NRC has the latest updated plan to use in the event of a radiological incident or accident. The final rule also reduces the number of copies that a licensee must submit to the NRC from 13 to 3 thus lessening the regulatory burden on affected licensees.

LICENSING REQUIREMENTS FOR LAND DISPOSAL OF RADIOACTIVE WASTE

Legal Authority: 42 USC 2021a; 42 USC 2073; 42 USC 2077; 42 USC 2092; 42 USC 2093; 42 USC 2095; 42 USC 2111; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 2273; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 61

Abstract: The final rule provides specific requirements for licensing the land disposal of low level radioactive wastes containing source, special nuclear, or byproduct material. Specifically, the rule establishes performance objectives for land disposal of radioactive waste, technical requirements for the siting, design, operations, and closure activities for a near-surface disposal facility; technical requirements concerning the waste form that waste generators must meet for the land disposal of waste, institutional requirements; and administrative and procedural requirements for licensing a disposal facility. This rule will provide comprehensive national criteria applicable to the land disposal of radioactive waste.

EXPORT OF AUSTRALIAN-ORIGIN NUCLEAR MATERIAL AND EQUIPMENT

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 110

Abstract: The final rule requires export licensees to notify the Commission in advance before shipping nuclear equipment or material of Australian origin to a third country. The US/Australian Agreement for Cooperation concerning the Peaceful Uses of Nuclear Energy (the Agreement) became effective January 16, 1981. Article 5, paragraph 2 of the Agreement requires the United States to obtain the consent of Australian authorities before exporting nuclear material or equipment of Australian origin. The advance notification requirement contained in this final rule allows the US Government to assure proper compliance with this requirement.

MODIFICATION OF INDEMNITY AGREEMENTS

Legal Authority: 42 USC 2201; 42 USC 2210

CFR Citation: 10 CFR 140

Abstract: The final rule removes from the current regulations a stipulation which requires the Commission to allow interested persons 15 days to file petitions for leave to intervene when it enters into an indemnity agreement with provisions different from those in a standard form indemnity agreement. The Commission took this action because it believes that a public hearing on the limited subject of the precise wording of an amendment to an indemnity agreement serves no useful purpose and is unnecessary.

DESIGN OF INDUSTRIAL RADIOGRAPHIC EXPOSURE DEVICES

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 34

Abstract: The advance notice of proposed rulemaking seeks comment on NRC's undertaking the development of safety design requirements for industrial radiation exposure devices. The proposed amendments would establish safety requirements for radiographic equipment. The proposed amendments are intended to reduce routine radiation exposures to radiographers and to reduce the number of overexposures to radiography operators and others caused by equipment failure. This action will be reassessed in light of parallel efforts aimed at radiographer training and certification and the issuance of an industry standard (ANSI N432).

APPEALS OF PREHEARING AND SPECIAL PREHEARING CONFERENCE ORDERS GRANTING OR DENYING INTERVENTION

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 2

Abstract: Since publication of the July 1982 NRC Regulatory Agenda the scope of the proposed rule has been expanded to clarify the appropriate procedure for appealing both a special prehearing section 2.751a(d) and a prehearing section 2.714(a) conference order granting or denying a petition for leave to intervene in a nuclear power reactor licensing proceeding. For questions falling within the ambit of section 2.742(a), the proposed rule would retain the right of a person to take an immediate appeal to the Atomic Safety and Licensing Appeal Board of a conference order that wholly denies an intervention petition or that grants a petition that another person believes should have been wholly denied. The proposed rule would eliminate the opportunity for a person to file objections to intervention rulings in a conference order with the presiding officer conducting the hearing. On September 28, 1982, the Commission disapproved publication of this proposed rule. Amendments proposed in the regulatory reform rulemaking package will affect the prehearing process.

ACTIONS THAT STARTED AND ENDED BETWEEN ISSUES OF THE UNIFIED AGENDA

●DELEGATION TO COMMISSION SECRETARY

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 2

Abstract: The final rule amends the Commission's regulations to allow the Secretary to the Commission to perform three functions previously performed by the

Completed Actions

Commission itself. The Secretary now may (1) rule on requests for hearings that fail to meet certain requirements, (2) refer certain requests for hearings to the Atomic Safety and Licensing Board Panel or an Administrative Law Judge, and (3) take action on minor procedural matters. These amendments allow the Commission to act more expeditiously on these matters.

SECURITIES AND EXCHANGE COMMISSION

17 CFR Ch. II

[Release No. 33-6457, 34-19568, 35-22871, 39-807, IC-13076 and IA-841; File No. S7-964]

Regulatory Flexibility Agenda and Rules Scheduled for Review

AGENCY: Securities and Exchange Commission.

ACTION: Publication of Regulatory Flexibility Agenda and Rules Scheduled for Review.

SUMMARY: The Securities and Exchange Commission is today publishing an agenda of its regulations, pursuant to Chapter Six of the Administrative Procedure Act and Office of Management and Budget Bulletin 83-8. The agenda is intended to provide advance notice of rulemaking actions which may have a significant economic impact on a substantial number of small entities. The Commission is also publishing a list of rule reviews anticipated to be completed during the next twelve months. The Commission is seeking public comment on the various subject areas, on particular items of the agenda and on the identified rules scheduled for review.

DATE: Comments are due by June 30, 1983.

ADDRESSES: Persons wishing to submit written views should file four copies thereof with George A. Fitzsimmons, Secretary, Securities and Exchange Commission, 450 5th Street, N.W., Room 6184, Washington, D.C. 20549. All submissions should refer to File No. S7-964, and will be available for public inspection at the Commission's Public Reference Room, Room 1026, at the same address.

FOR FURTHER INFORMATION CONTACT: Joseph A. Meiburger, Jr., Directorate of Economic and Policy Analysis, Securities and Exchange Commission, 450 5th Street, Room 7169, Stop 7-6, Washington, D.C. 20549 (202-272-7110). Additional names of persons to contact are identified with each entry.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act ("RFA") (Pub. L. No. 96-354, 94 Stat. 1164 [September 19, 1980]) requires each federal agency during April and October of each year to publish in the **Federal Register** a regulatory flexibility agenda identifying any rules which the agency expects to propose or adopt which are likely to have a significant economic impact on a substantial number of small entities (the "significant impact criterion"). [1] Part I of this agenda contains entries for all open and anticipated (within the next twelve months) rulemaking actions which may meet this criterion.

Pursuant to a separate requirement of the RFA, [2] the Commission published in June 1981 a plan for the periodic review of all rules issued by the agency which may have a significant economic impact upon a substantial number of small entities. [3] The plan provides for the review of all such rules in effect on January 1, 1981 within ten years of that date and for the review of such rules adopted thereafter within ten years of the publication of their adoption as final rules. The RFA further requires publication each year of a list of those rules which are to be reviewed during the succeeding twelve months. [4] Part II of the agenda contains these entries. Since the scope of the Commission's review of its rules extends beyond the requirements of the RFA, some rules listed in this part of the agenda may not be required to be reviewed, but the Commission is identifying them on the agenda in order to fully inform the public of its intention to review them. Part III of the agenda identifies actions and rule reviews which have been completed since the last RFA release was approved by the Commission on September 24, 1982 (Release No. 33-6427 [47 FR 18342]). The agenda which follows relies on the definitions of the term "small entity" for purposes of the RFA which were adopted by the Commission for the various categories of regulated entities. [5]

Several entries in Part I of this agenda represent recommendations which were developed through a research forum held in Washington, D.C. in November 1982. The purpose of the forum was to gather information regarding the strengths and weaknesses of the of the Commission's disclosure system from a group of its users. These items have been included in this agenda to notify the public of Commission consideration of recommendations made by forum participants. Among the current and anticipated rulemaking actions are entries dealing with possible accounting rules and research studies regarding off-balance sheet obligations, segment reporting and quarterly financial reporting.

As provided by the RFA, the publication of this regulatory flexibility agenda does not preclude the Commission from considering or acting on any matter not included therein, nor is the Commission required to consider or act on any matter which is included therein. [6] Furthermore, the inclusion of a rule in the Commission's regulatory flexibility agenda reflects only the staff's preliminary judgment that the rule, if promulgated, may have a significant economic impact on a substantial number of small entities. This preliminary judgment may be changed upon further development and analysis.

The documents describing the rules (standardized data entry forms and computer printout pages) will be available in the Commission's public reference room (File S7-964, as noted above) and will be published in the **Federal Register** as part of the Unified Agenda on or before April 30, 1983, pursuant to the requirements of Section 602(a) of the RFA as noted above.

The Commission invites public comment on its agenda and on the rules scheduled for review in 1983.

By the Commission.

DATED: March 7, 1983.

George A. Fitzsimmons,

Secretary.

SECURITIES AND EXCHANGE COMMISSION (SEC) — Current and Projected Rulemakings

ACCOUNTING RULES

●OFF-BALANCE SHEET OBLIGATIONS

Priority: Undetermined

Legal Authority: 15 USC 77f; 15 USC 77g; 15 USC 77j; 15 USC 77s(a); 15 USC 78l; 15 USC 78m; 15 USC 78n; 15 USC 78o(d); 15 USC 78(w); 15 USC 79e; 15 USC 79n; 15 USC 79t

CFR Citation: Not yet determined

Abstract: The staff will study the area of off-balance sheet obligations to determine whether to recommend action by the Commission. Participants at the Commission's November, 1982 Research Forum on the disclosure system suggested that standard footnote disclosure about such obligations is needed in view of the increasing number and complexity of transactions.

●DISCLOSURE ABOUT INSURANCE RESERVES

Priority: Undetermined

Legal Authority: 15 USC 77f; 15 USC 77g; 15 USC 77j; 15 USC 77s(a); 15 USC 78m; 15 USC 78n; 15 USC 78(w); 15 USC 78f

CFR Citation: Not yet determined

Abstract: The Commission may consider whether to propose amendments to rules or forms to assist investors in comparing reserving practices of different property-casualty insurance companies. The adequacy of estimated loss reserves for property-casualty insurance companies is uncertain. The level of uncertainty varies with, among other things, a company's mix of business, its system of internal control and management's ability to forecast future economic, social and other conditions which will influence the amount of future loss payments. Estimated reserve amounts are material factors in the computation of year-to-year earnings of an insurance company and in the assessment of its financial condition. The failure of several insurance companies has been ascribed to inadequate provision for future losses. The project is in a very preliminary state. The Commission will consider various alternative disclosures and the related costs and benefits.

●RESCISSION OF OBSOLETE RULES AND TECHNICAL REVISIONS AND CORRECTIONS

Priority: Undetermined

Legal Authority: 15 USC 77f; 15 USC 77g; 15 USC 77j; 15 USC 77s(a); 15 USC 78l; 15 USC 78m; 15 USC 78n; 15 USC 78o(d); 15 USC 78w; 15 USC 79e; 15 USC 79n; 15 USC 79t; 15 USC 80a-8; 15 USC 80a-30; 15 USC 80a-37(a)

CFR Citation: 17 CFR 210.1-02(v)(3); 17 CFR 210.4-08(j)(2); 17 CFR 210.4-08(k); 17 CFR 210.4-08(l); 17 CFR 210.5A-01 to 5A-03; 17 CFR 210.8-01 to 8-03

Abstract: The Commission may consider whether to propose the rescission of various obsolete rules, such as Articles 5A and 8 and related rules of Regulation S-X, and the amendment of other rules to make technical revisions and corrections or update the rules to reflect current financial reporting experience. These rules will be reviewed concurrently with any rulemaking action.

●SEGMENT INFORMATION

Priority: Undetermined

Legal Authority: 15 USC 77f; 15 USC 77g; 15 USC 77j; 15 USC 77s(a); 15 USC 78l; 15 USC 78m; 15 USC 78n; 15 USC 78o(d); 15 USC 78(w); 15 USC 79e; 15 USC 79n; 15 USC 79t

CFR Citation: 17 CFR 229.101(b)

Abstract: Registrants disclose information about their industry segments in financial statements and in their description of business disclosures. In the view of various participants in the Commission's November, 1982 Research Forum on the disclosure system, a better definition of, and more consistency in the composition of, segments is needed. The Commission's staff will review segment disclosures made by registrants to determine whether any Commission initiatives should be considered to encourage better disclosures.

●GUIDE 3 - DISCLOSURES BY BANK HOLDING COMPANIES ABOUT NONPERFORMING LOANS AND CERTAIN FOREIGN LOANS.

Priority: Undetermined

Legal Authority: 15 USC 77f; 15 USC 77g; 15 USC 77j; 15 USC 77s(a); 15 USC 78l; 15 USC 78m; 15 USC 78n; 15 USC 78(w)

CFR Citation: 17 CFR 229.801(c); 17 CFR 229.802(c)

Abstract: The Commission plans to consider whether to propose amendments to the portions of the Industry Guides for Statistical Disclosures by Bank Holding Companies relating to disclosures of nonperforming loans and certain foreign loans. Such amendments would revise the definition of nonperforming loans and provide for expanded disclosures about certain foreign loans. The revision to the definition of nonperforming loans would reduce the potential for different interpretations of the term by making the definition more precise. The revisions to require expanded disclosures about foreign loans would codify staff interpretations of

material appropriate disclosures. The rule proposals should not result in new recordkeeping or data collection costs. Any other costs relating to the proposals have not been determined.

●QUARTERLY FINANCIAL REPORTING

Priority: Undetermined

Legal Authority: 15 USC 77f; 15 USC 77g; 15 USC 77j; 15 USC 77s(a); 15 USC 78m; 15 USC 78o(d); 15 USC 78w(a); 15 USC 78n

CFR Citation: 17 CFR 249.308a; 17 CFR 210.10-01; 17 CFR 229.302(a)

Abstract: The Commission may consider whether to revise the rules regarding interim financial statements. These rules were most recently revised in 1981 at which time the requirement for condensed financial statements was widely favored and the requirement for the prior year-end balance sheet was adopted. The staff will review these rules, in part because of recommendations made by participants in the Commission's November, 1982 Research Forum on the disclosure system that the rules be revised to require full, rather than condensed, financial statements, comparative quarter rather than the prior year-end, balance sheet, and quarterly segment data. In addition, the staff will review the requirement for disclosure of selected quarterly financial data in annual reports. These rules will also be reviewed concurrently with this staff project.

PROPOSED AMENDMENTS TO ITEM 402 OF REGULATION S-K, MANAGEMENT REMUNERATION AND TRANSACTIONS

Priority: Undetermined

Legal Authority: 15 USC 77f Securities Act; 15 USC 77g Securities Act; 15 USC 77h Securities Act; 15 USC 77s(a) Securities Act; 15 USC 78l Exchange Act; 15 USC 78m Exchange Act; 15 USC 78n Exchange Act; 15 USC 78o(d) Exchange Act; 15 USC 78w(a) Exchange Act

CFR Citation: 17 CFR 229.402

Abstract: The Commission intends to adopt revisions to the provisions of Item 402 of Regulation S-K regarding disclosure of management remuneration. Amendments were proposed in January 1983. The primary purpose of the proposed amendments is to enhance the usefulness of remuneration disclosure to security holders and investors. This would be accomplished by, among other things, highlighting cash remuneration in the Remuneration Table, permitting disclosure of remuneration paid pursuant to plans to be disclosed in connection with the descriptions of such plans, and focusing more on remuneration actually paid or vested than on contingent remuneration. The proposed amendments also are intended to reduce burdens on registrants to the extent possible without sacrificing investor protection. This would be achieved through such actions as establishing a de minimis threshold for disclosure of prerequisites, and decreasing the amount of information disclosed about options granted in previous years. In addition, while individual disclosure of the top five most highly compensated executive officers or directors would still be required, disclosure with respect to all officers and (cont)

●GENERAL RULES UNDER THE SECURITIES ACT OF 1933--THE "100 SERIES"--RULES 100 THROUGH 176

Priority: Undetermined

Legal Authority: 15 USC 77s Securities Act

CFR Citation: 17 CFR 230.100 to 176

Abstract: The Commission is conducting a "sunset" review of the thirty-nine rules contained in the "100 series" of general rules under the Securities Act. Generally, these rules define key terms used in the Securities Act. The object of this review is to eliminate any inconsistencies, to delete unnecessary, outmoded or duplicative rules and to update and revise the remaining provisions. In particular, the review will focus on Rules 137, 138, and 139, which define terms relating to activities--such as publication of information, opinions or recommendations with respect to securities of an issuer--which might otherwise be deemed offers to sell or participations in the distribution of securities under the Securities Act.

●RULE 144 AMENDMENTS

Priority: Undetermined

Legal Authority: 15 USC 77s(a)

CFR Citation: 17 CFR 230.144

Abstract: Rule 144 permits resales of restricted securities and securities held by affilitates of the issuer. Any person who sells restricted securities in compliance with the rule will not be deemed to be an underwriter of those securities. The rule restricts the method of resale and requires a minimum holding period and the availability of public information about the issuer. For small businesses, however, Rule 144 has proved quite restrictive. One alternative under consideration is to exempt securities held by non-affiliates for three years or more from the requirement of available public information about the issuer. If the proposed amendments are adopted, compliance with the rule should enhance small business capital formation without cost to the issuer.

Abstract: Banks issue American Depositary Receipt (ADRs) to represent foreign securities and file registration statements under the Securities Act for such ADRs. Current regulations and forms were developed in 1955. This project is a comprehensive review of ADR regulation intended to delete obsolete provisions, codify current practice, and streamline procedures. Two forms are proposed to be replaced by one and a proposed rule would allow depositaries to designate the date and time of effectiveness of ADR registration statements.

PROPOSED REVISION OF FORM S-14 AND OTHER FORMS AND RULES RELATING TO DISCLOSURE IN CONNECTION WITH BUSINESS COMBINATION TRANSACTIONS

Legal Authority: 15 USC 77f Securities Act; 15 USC 77g Securities Act; 15 USC 77j Securities Act; 15 USC 77s(a) Securities Act; 15 USC 78l Exchange Act; 15 USC 78m Exchange Act; 15 USC 78n Exchange Act; 15 USC 78w(a) Exchange Act

CFR Citation: 17 CFR 239.23

Abstract: As part of its review of proxy rules, regulations, and schedules, the Commission intends to revise the disclosure requirements under the federal securities laws relating to mergers, acquisitions, and other business combinations, focusing primarily on Form S-14 (17 CFR 239.23). Form S-14 is used for the registration of securities in business combination transactions under Rule 145 (17 CFR 230.145). The Commission has found that in many cases the sheer volume of disclosure in connection with mergers, acquisitions and other business combinations tends to be confusing to security holders and burdensome for registrants to prepare. The Commission intends to revise the existing disclosure requirements of Form S-14 to provide streamlined, comprehensible disclosure to shareholders and to reduce compliance burdens on issuers consistent with the protection of investors. In developing proposals in this area and considering alternative approaches to the problem of reducing burdens while ensuring that sufficient information is available to security holders, the Commission will attempt to apply the techniques used in its integrated disclosure system, such as incorporation (cont)

●FORM S-18 REVISION

Priority: Undetermined

Legal Authority: 15 USC 77s(a)

CFR Citation: 17 CFR 239.28

Abstract: Form S-18 is an optional, simplified form under the Securities Act of 1933 for registration of securities to be sold to the public by the issuer for an aggregate cash price of $5 million. The revisions proposed would raise the aggregate cash price ceiling to $7.5 million. This element of the proposal is a response to a recommendation of the 1982 SEC Government-Business Forum on Small Business Capital Formation. In addition, the proposed amendments would reduce disclosure requirements in several items of the form, including transactions with management and remuneration of directors and officers. The Commission is considering alternatives as to the amount below which disclosures regarding management transactions and remunerations need not be made and the categories of persons about whom disclosures must be made

RULE 12G3-2 REVISION

Priority: Undetermined

Legal Authority: 15 USC 78l Exchange Act

CFR Citation: 17 CFR 240.12g3-2

Abstract: This rule, adopted under Section 12(g)(3) of the Exchange Act, exempts certain foreign private issuers from the Commission's periodic reporting requirements if they furnish the Commission with copies of material made public in the country of domicile. The rule was initially designed to apply to foreign private issuers that had not voluntarily entered the U.S. capital markets. Changes in the structure of the over-the-counter markets, namely the advent of the NASDAQ quotation system, compel reconsideration of the rule because more foreign private issuers are now entering the U.S. capital markets by voluntarily listing their stocks on NASDAQ. One alternative being considered is making the exemptive provisions unavailable to issuers with securities quoted in NASDAQ. If it is retained or revised, the costs involved in compliance with the rule should be minimal because the rule relies solely on reports and documents required by foreign law or regulation.

●RULE 12H-3, PROPOSED SUSPENSION OF PERIODIC REPORTING OBLIGATIONS

Priority: Undetermined

Legal Authority: 15 USC 78l Exchange Act; 15 USC 78m Exchange Act; 15 USC 78o(d) Exchange Act; 15 USC 78w(a) Exchange Act

CFR Citation: 17 CFR 240.12h-3

Abstract: Proposed new Rule 12h-3 would immediately suspend the duty of an issuer to file periodic reports pursuant to Section 15(d) of the Exchange Act with respect to two classes of securities: (1) any class of securities held of record by less than 300 persons and issued by a person whose outstanding equity securities are substantially owned by a single parent; (2) any class of securities held of record by less than 300 persons, and issued by a person having no significant assets, for the sole purpose of forming a holding company. Alternatively, immediate suspension of Section 15(d) reporting is being considered for any class of securities held by less than 300 persons. Either version of the proposed rule would reduce costs to affected issuers by eliminating the need for periodic reports. There would be no cost burden to issuers.

REGULATION 14A -- RULES RELATING TO PROXY CONTESTS

Priority: Undetermined

Legal Authority: 15 USC 78n(a) Exchange Act

CFR Citation: 17 CFR 240.14a-1 to 240.14a-12; 17 CFR 240.14a-101; 17 CFR 240.14a-102

Abstract: As part of its proxy review program, the Commission intends to review the rules governing proxy contests, which are contained in Regulation 14A, promulgated under Section 14(a) of the Exchange Act. Regulation 14A regulates the solicitation of proxies in regard to securities registered under Section 12 of the Exchange Act. In general, Regulation 14A specifies the information required to be disclosed to security holders to enable them to make informed decisions concerning authorization of proxies. This review focuses only on regulations concerning proxy contests. Rules 14a-3 through 14a-10 prescribe certain filing, dissemination and disclosure requirements with respect to all proxy solicitations, including proxy contests. Rule 14a-11 prescribes special requirements relating only to contested elections of directors. The number of proxy contests has risen in recent years and the rules relating to them have not been reexamined in some time. The Commission's goal in this review is to make sure that the rules pertaining to proxy contests still operate effectively in addressing this dynamic area, thus benefiting shareholders and issuers.

Abstract: The Commission established the Advisory Committee on Shareholder Communications in April 1981 for the purpose of exploring the possibilities for improving the process by which issuers communicate with the beneficial owner of securities registered in the name of a broker-dealer, bank or other nominee. The Committee met nine times between May 1981 and May 1982 and presented the Division of Corporation Finance with a Report in June 1982. The Committee's Report, "Improving Communications Between Issuers and Beneficial Owners of Nominee Held Securities", includes a number of recommendations for improving the existing proxy distribution process, improving the existing proxy voting process, improving dissemination of interim reports and other shareholder communications, and providing a means for issuers to identify beneficial owners. On December 2, 1982, the Commission published a release for public comment (Release No. 34-19291) setting forth proposed amendments to Rules 14a-3, 14h-l, and 17a-3 under the Exchange Act relating to the Advisory Committee's recommendations. The comment period expires March 11, 1983.

●PROPOSED AMENDMENTS TO RULE 14A-8 RELATING TO SECURITY HOLDER PROPOSALS

Priority: Undetermined

Legal Authority: 15 USC 78n(a) Exchange Act; 15 USC 78w(a) Exchange Act

CFR Citation: 17 CFR 240.14a-8

Abstract: In connection with its Proxy Review Program, the Commission is reexamining the current regulatory framework governing the security holder proposal process. The Commission has published a release requesting public comment on a wide variety of issues relating to federal regulation of the security holder proposal process, including whether security holder access to the issuer's proxy statement should be provided under the Exchange Act or left to regulation under state law. The release also invites comments on three specific proposals for regulation of the security holder proposal process. Proposal I would retain the basic framework of the current rule, with certain revisions. Proposal II would permit the issuer, with the approval of its security holders, to vary the procedures specified in the Commission's security holder proposal rule. Proposal III reflects a view that security holders should have relatively unfettered access to the issuer's proxy statement and its limitations are less strict than the other proposals. The comment period on this proposed rulemaking ended February 24, 1983.

INVESTMENT MANAGEMENT RULES

AMENDMENT TO RULE 180 -- EXEMPTION FROM REGISTRATION OF CERTAIN INTERESTS AND PARTICIPATIONS IN CERTAIN H.R. 10 PLANS

Priority: Undetermined

Legal Authority: 15 USC 77c(a)(2); 15 USC 77s(a)

CFR Citation: 17 CFR 230.180

Abstract: Rule 180 provides an exemption from the registration requirements of the Securities Act for interests and participations issued in connection with certain qualified H.R. 10 plans. In order for interests in funding media issued to plans established by financially inexperienced employers to qualify for the rule's exemption, the rule, as adopted, requires those employers to obtain financial advice from an independent expert prior to adopting the H.R. 10 plan. Among other things, the Commission is considering proposing an amendment to Rule 180 that would codify a present "no-action" position regarding the situation where a financially unsophisticated employer has already established a plan for its employees without obtaining advice from an independent expert, and intends either to change the funding medium or add another funding medium to the choices already available to employees. The issuer of the funding medium in such a case would be in compliance with the rule if the issuer has reasonable grounds to believe and, after having made reasonable inquiry, does believe, that an independent financial expert

reviewed the funding medium prior to the investment of the (cont)

●RULE 482 UNDER THE SECURITIES ACT OF 1933, ADVERTISING BY AN INVESTMENT COMPANY AS SATISFYING REQUIREMENTS OF SECTION 10

Priority: Undetermined

Legal Authority: 15 USC 77j; 15 USC 77s(a); 15 USC 80a 37a

CFR Citation: 17 CFR 230.482; 17 CFR 239.15; 17 CFR 274.11

Abstract: Rule 482 currently permits investment companies to distribute prospectuses that omit information which is generally required in statutory prospectuses ("omitting prospectuses") to potential investors by using various forms of public media, but not direct mail solicitations. Rule 482 also permits money market funds to advertise their yields as determined in accordance with Item 17 of Form N-1. The Commission is considering amending Rule 482 to permit investment companies to mail omitting prospectuses directly to potential investors. The Commission is also considering amending Item 17 of Form N-1 (i) in order to modify the method by which money market funds calculate their yield for the purpose of eliminating the present bias in favor of those funds that pay dividends monthly and (ii) to permit money market funds to include a compound yield figure in their prospectuses and advertisements pursuant to Rule 482. In considering these amendments, the Commission considered establishing different advertising requirements for small investment companies, and exempting small investment companies from the restrictions on advertising, but has concluded that to reduce the (cont)

REGULATION E EXEMPTION FOR SECURITIES OF SMALL BUSINESS INVESTMENT COMPANIES

Priority: Undetermined

Legal Authority: 15 USC 77c(c) Securities Act; 15 USC 77s(a) Securities Act

CFR Citation: 17 CFR 230.601 to 230.610(a)

Abstract: Regulation E exempts from registration, subject to certain terms and conditions, securities issued by any small business investment company which is licensed as such (or has a license application pending) under the Small Business Investment Act of 1958 and registered under the Investment Company Act of 1940 ("Investment Company Act"). The Commission is considering amending Regulation E to further reduce the regulatory burden on small business investment company issuers. Any such amendments would generally have the effect of paralleling amendments made to Regulation A in September 1978 (see Securities Act Release No. 5977, September 11, 1978 (43 FR 41383, September 18, 1978)). No method currently exists to quantify the costs to the small business investment company industry of complying with an amended Regulation E. However, to the extent that any such amendments make Regulation E available to more issuers, the staff is of the opinion that the benefits of complying with amended Regulation E would far outweigh the costs to such issuers of registration under the Securities Act. With respect to the costs imposed on the Commission by virtue of Regulation E amendments, the (cont)

PROPOSED FORM N-1A; PROPOSED RULE 404A; PROPOSED RULE 8B-11A

Priority: Undetermined

Legal Authority: 15 USC 80a-8; 15 USC 77g; 15 USC 77j

CFR Citation: 17 CFR 239.15; 17 CFR 274.11

Abstract: Proposed Form N-1A would replace Form N-1 as the registration statement under the Securities Act of 1933 ("1933 Act") and the Investment Company Act of 1940 for all open-end management investment companies other than registered separate accounts of insurance companies. Two companion provisions, proposed rules 404A and 8b-11A, have also been proposed to conform certain rules to the proposed Form N-1A format. Form N-1A would establish a two-part format for disclosure to prospective investors consisting of a simplified prospectus that could be used to satisfy the prospectus delivery requirements of the 1933 Act and a statement of additional information that would be available to prospective investors upon request and without charge. In addition, a third part of the registration statement would contain other information that is required to be in the registration statement, although not disclosed in the prospectus or available in the statement of additional information. Form N-1A has been proposed in order to shorten and simplify the prospectus provided to investors, while making available more extensive information to those who desire such information.(cont)

Action	Date	FR Cite
NPRM	12/27/82	48 FR 813
NPRM Comment Period Begin	12/27/82	
NPRM Comment Period End	04/18/83	

Next Action Undetermined

Small Entity: Yes

Additional Information: ABSTRACT CONT: Since the form would be required for all open-end management investment companies, it is expected to have a significant economic impact on a substantial number of small entities. There does not

currently exist a basis upon which to quantify the reduced costs and burdens of such action on those registrants affected. However, if adopted, Form N-1A is expected to reduce the cost of registration for both industry and government. Based on talks with industry representatives, it appears that the cost associated with preparing and mailing prospectuses may be reduced under the proposed format. Some representatives point out that this form will be shorter and lighter in weight. In addition, since the objective of the proposal is to remove unnecessary information from the prospectus, consistent always with the full and fair disclosure policy underlying the 1933 Act, we expect that the use of Form N-1A will ultimately result in a reduction of the staff time involved in reviewing these filings.

●SIMPLIFICATION OF REGISTRATION STATEMENTS FILED BY UNIT INVESTMENT TRUSTS

Priority: Undetermined

Legal Authority: 15 USC 80a-8; 15 USC 77g; 15 USC 77j

CFR Citation: 17 CFR 239.16; 17 CFR 274.12

Abstract: Forms S-6 and N-8b-2 are the registration statement forms under the Securities Act of 1933 and the Investment Company Act of 1940, respectively, for unit investment trusts. Included within Form S-6 is the trust's prospectus used in offering securities to the public. A substantial amount of the information required by Form N-8b-2 is also required by Form S-6. Consequently, one goal of the Commission with regard to simplification of registration statements for unit investment trusts is the integration of the disclosure requirements of Forms S-6 and N-8b-2. The Commission also believes that current prospectuses for unit investment trusts have become too cumbersome for the average investor to understand and that current disclosure requirements result in the dissemination of much information that is not necessarily material to an investment decision. Simplification of prospectus requirements for unit investment trusts will, therefore, make disclosure easier for investors to understand and reduce the costs and burdens on those registrants affected. Since the action will apply to all unit investment trust registrants it is expected to have a significant economic impact on a (cont)

●REVISION OF PROXY RULES

Priority: Undetermined

Legal Authority: 15 USC 78n; 15 USC 78w; 15 USC 80a-20; 15 USC 80a-37

CFR Citation: 17 CFR 240.14a-1 to 240.14a-102; 17 CFR 240.14b-1; 17 CFR 240.14c-1 to 240.14c-101; 17 CFR 270.20a-1; 17 CFR 270.20a-2; 17 CFR 270.20a-3

Abstract: Absent an exception, every solicitation of a proxy, authorization or consent in respect of any security with respect to which a registered investment company is the issuer, is subject to rules adopted pursuant to the Securities Exchange Act of 1934 and the Investment Company Act of 1940 concerning solicitations of proxies. Solicitations to which the rules apply may not commence unless each person solicited is furnished or has previously been furnished with a proxy statement containing specified information prepared in accordance with certain rules and the material has been filed with the Commission. The existing proxy rules were adopted in piecemeal fashion and have been the subject of frequent changes. This has led to certain duplicative and, in certain cases, complex requirements. To the extent that a proxy statement contains repetitive material or is overly complicated and difficult to read, it may not effectively perform its intended function of communicating meaningful information to security holders in order that they may make informed voting decisions. In order to update the proxy regulations and, in doing so, improve the (cont)

Timetable:

Action	Date	FR Cite
NPRM	09/30/83

AMENDMENT OF RULE 2A-5 – CERTAIN PERSONS NOT DEEMED INTERESTED PERSONS

Priority: Undetermined

Legal Authority: 15 USC 80a-6(c) Investment Company Act; 15 USC 80a-37(a) Investment Company Act

CFR Citation: 17 CFR 270.2a-5

Abstract: The Commission is considering whether to propose an amendment to Rule 2a-5 under the Investment Company Act. Rule 2a-5 presently affords a narrow exemption from that part of Section 2(a)(19) of the Act which defines as an interested person of another person any broker or dealer registered under the Exchange Act or any affiliated person of such a broker or dealer. The Commission will consider rulemaking that would broaden that exemption while still providing protection to investors. This would benefit regulated investment companies by increasing the pool from which directors may be chosen without contravention of, inter alia, Section 10(a) of the Act which governs the composition of investment companies' boards of directors. The conditions set forth in the proposed rule will be those that the Commission believes

necessary to protect investors and implement the policies of the Act. A potential cost of the amendment under consideration would be a requirement that the board of directors of any affected investment company determine that such company would not be adversely affected by compliance with the amended rule's conditions; the time involved in such a (cont)

Timetable:

Action	Date	FR Cite
NPRM	06/30/83	

Small Entity: Undetermined

Additional Information: ABSTRACT CONT: determination may be viewed as a cost. It is believed, however, that these costs would be far outweighed by the benefits of the suggested amendment including alleviating the need for investment companies to formally apply for Commission exemptive orders in situations addressed by the rule. As is presently the case, investment companies would still be able to seek exemptive orders, notwithstanding the existence of a generic rule.

PROPOSED RULE 3A-4 -- INDIVIDUALIZED INVESTMENT MANAGEMENT SERVICES

Priority: Undetermined

Legal Authority: 15 USC 80a-6(c); 15 USC 80a-37(a); Investment Company Act, Sec 6(c); Investment Company Act, Sec 38(a)

CFR Citation: 17 CFR 270.3a-4

Abstract: In Investment Company Act Release No. 11391 (October 10, 1980) (45 FR 69479) the Commission proposed for public comment Rule 3a-4, which would deem investment management services providing their clients with individualized treatment not to be investment companies for purposes of the Act. The rule provides a "safe harbor" for any investment manager providing its clients with treatment based on the needs and goals of each client. Under such circumstances, regulation of investment management services under the Act appears unnecessary. The proposed rule was intended to clarify the Commission's position on the question of "mini-accounts" by providing a safe harbor for certain investment management services and thereby provide some certainty to the public. The Commission does not expect any final action taken on the proposal to significantly affect the cost of providing investment management services. The public comment letters on the proposal have been reviewed and alternatives for final action are being formulated.

AMENDMENT TO RULE 6C-1 -- EXEMPTION FOR SUBSIDIARIES ORGANIZED TO FINANCE THE OPERATIONS OF DOMESTIC OR FOREIGN COMPANIES

Priority: Undetermined

Legal Authority: 15 USC 80a-6(c); 15 USC 80a-37(a); Investment Company Act, Sec 6(c); Investment Company Act, Sec 38(a)

CFR Citation: 17 CFR 270.6c-1

Abstract: In Investment Company Act Release No. IC-12679 (September 22, 1982) the Commission proposed for public comment a comprehensive revision of Rule 6c-1 under the Act. The recommended amendments would greatly expand Rule 6c-1 to exempt from all provisions of the Act certain finance subsidiaries of United States and foreign private issuers. An exemptive rule is the least burdensome method available to accomplish the proposed amendment's objectives. An unconditional exemption, however, would be inconsistent with the public interest standard set forth in Section 6(c) of the Act and therefore the Commission has proposed certain conditions it believes are necessary and appropriate to fulfill the statutory requirements. The proposed rule would reduce the compliance burden faced by covered finance subsidiaries by obviating the need for them to file exemptive applications. The application procedure, of course, would still be available notwithstanding the rule's existence.

PROPOSED RULES 11A-3 AND 11A-4 UNDER THE INVESTMENT COMPANY ACT

Priority: Undetermined

Legal Authority: 15 USC 80a-6(c); 15 USC 80a-11(a); 15 USC 80a-37(a)

CFR Citation: 17 CFR 270.11a-3; 17 CFR 270.11a-4

Abstract: The Commission is considering whether to propose a Rule 11a-3 and a Rule 11a-4 which would exempt certain persons from the requirements of Section 11(a) of the Investment Company Act. That section generally prohibits any registered open-end investment company and the principal underwriter of its shares from making an offer to a shareholder to exchange his security for another security on any basis other than the net asset values of the securities to be exchanged without approval of the Commission. Section 11(c) extends the prohibitions of Section 11(a) to offers of the securities of unit investment trusts. The Commission has issued numerous orders permitting open-end management companies and the principal underwriter(s) of their shares to make exchange offers on the basis of the relative net asset value of the securities being exchanged plus a sales load equal to the difference between the sales load which would otherwise be charged on the securities to be acquired and on the securities to be exchanged. The Commission has also issued orders permitting unit investment trusts and their sponsors to make offers of exchange based on the relative net asset (cont)

Timetable:

Action	Date	FR Cite
NPRM	09/30/83	

Small Entity: Undetermined

Additional Information: ABSTRACT CONT: value of the respective securities plus a fixed fee to cover expenses. The proposed rules would codify such orders (Rule 11a-3 for management companies; Rule 11a-4 for unit investment trusts) thereby eliminating the cost for small companies of preparing applications seeking the orders. Thus, the proposed rules would have a beneficial economic impact on such companies. The proposed rules would contain several conditions to assure the protection of investors. Any such conditions would be included in the rule in order to adequately protect investors against the abuses addressed by Section 11.

PROPOSED AMENDMENT TO RULE 17G-1 UNDER THE INVESTMENT COMPANY ACT

Priority: Undetermined

Legal Authority: 15 USC 80a-6(c); 15 USC 80a-17(g); 15 USC 80a-37(a)

CFR Citation: 17 CFR 270.17g-1

Abstract: The Commission is considering whether to adopt an amendment to Rule 17g-1 under the Investment Company Act. The amendment was proposed for public comment in Investment Company Act Release No. 11193 (June 2, 1980) (45 FR 38407). Rule 17g-1 requires every registered investment company to provide and maintain a bond against larceny and embezzlement covering officers and employees of the company. In some circumstances, the officers and employees of a company's depositor, trustee, investment adviser or other manager and various affiliates of such persons, because they have access to the company's assets, function as officers and employees of the investment company. The proposed amendment to the rule would clarify the scope of the rule by explicitly requiring the bonding of such persons. The principal cost associated with this rule would be the cost of a bond. That cost would vary according to the persons required to be bonded by the rule. In this regard, before adopting any amendment to the rule, the Commission will carefully consider what persons should be bonded to protect investors adequately, weighing the benefits of the protection against the cost of a bond.

RULE 17J-1 UNDER THE INVESTMENT COMPANY ACT OF 1940

Priority: Undetermined

Legal Authority: 15 USC 80a-17(j); 15 USC 80a-37(a)

CFR Citation: 17 CFR 270.17j-1

Abstract: Rule 17j-1 requires every access person of a registered investment company, or of an investment adviser of or principal underwriter for the investment company to report to the investment company certain of his securities transactions. The Commission is considering whether to propose an amendment to this rule which would reduce the reporting requirement for investment company directors who are interested persons with respect to the investment company by reason of their affiliation with a registered broker-dealer. Members of the industry have characterized these reporting requirements as unnecessarily burdensome in some instances. Any such rule amendment would have the effect of lessening the reporting requirements currently imposed by the rule. As a result, the staff believes that the costs, which should be insignificant, of complying with any amendment would be significantly less than the benefits it would provide.

PROPOSED RULE 22D-6 UNDER THE INVESTMENT COMPANY ACT

Priority: Undetermined

Legal Authority: 15 USC 80a-6(c); 15 USC 80a-37(a)

CFR Citation: 17 CFR 270.22d-6

Abstract: The Commission is considering whether to propose a Rule 22d-6, which would exempt certain persons from the provisions of Section 22(d) of the Investment Company Act. That section generally requires that redeemable securities issued by investment companies be sold to the public only at a current public offering price described in the prospectus. In recent years, investment companies have requested an increasingly greater number of orders of exemption from the section. The costs to companies filing such requests and to the Commission processing them have been substantial. The proposed rule, which would permit an investment company and its underwriters to decide to vary the price of securities being offered (including allowing dealers to negotiate the sales loads) without first obtaining Commission approval, would benefit companies by eliminating this cost. This benefit would probably be greater for small companies than for large companies for whom such an expense is less in proportion to assets. The proposed rule would permit greater competition in the pricing of investment company shares. That competition may have a significant impact on small (cont)

Timetable:

Action	Date	FR Cite
NPRM	03/30/83	

Small Entity: Undetermined

Additional Information: ABSTRACT CONT: companies and broker-dealers, although the nature and degree of that impact are impossible to determine at this time. Any assessment of benefit or cost to small entities from price competition would be complicated by the complexities of the market in which investment company shares are sold. That market is constantly influenced by changes in the economy, interest rates and investor attitudes. While alternatives to the proposed rule might contain fewer provisions, conditions included in the proposed rule will be those that the Commission believes necessary to satisfy the statutory test set forth in Section 6(c) of the Act that "such exemption (be) necessary or appropriate in the public interest and consistent with the protection of investors and the purpose fairly intended by the policy and provisions of the Act". The proposed rule could have codified past orders of exemption from Section 22(d) and

not have permitted negotiated sales loads, but that alternative would have limited the flexibility and freedom of investment companies to compete in today's market against issuers of other investment products.

●RULE 202-1 UNDER THE INVESTMENT ADVISERS ACT OF 1940, EXCLUSION OF CERTAIN PERSONS WHO OFFER INVESTMENT ADVICE TO THEIR EMPLOYER-SPONSORED EMPLOYEE BENEFIT PLANS

Priority: Undetermined

Legal Authority: 15 USC 80b-11(a)

CFR Citation: 17 CFR 275.202-1

Abstract: Rule 202-1 generally excludes from the Advisers Act definition of investment adviser persons whose only advisory activities consist of providing investment advice to an employee benefit plan, as defined in ERISA, sponsored by their employer. The rule was adopted primarily to preclude such persons from voluntarily registering under the Advisers Act and thereby qualifying as "investment managers" under ERISA. The Commission will consider whether it is necessary to retain the rule or whether it can be rescinded. The costs and benefits of rescinding the rule cannot be estimated at this time; however, any costs to persons subject to the rule would be minimal in that rescinding the rule would permit but generally not require their registration under the Advisers Act.

Priority: Undetermined

Legal Authority: 15 USC 80b-4 Advisers Act; 15 USC 80b-11 Advisers Act

CFR Citation: 17 CFR 275.204-2

Abstract: The rule requires a registered investment adviser to make and keep true, accurate, and current certain books and records relating to its investment advisory business. Such records enable the Commission's examination personnel to review the investment adviser's activities to determine whether they are fulfilling their responsibilities to their clients and complying with the relevant provisions of the Federal securities laws and the rules thereunder. Inasmuch as most investment advisers, as a matter of sound business practice, are likely to maintain books and records substantially similar to those required by the rule, the incremental costs of compliance are minimal. However, the rule is being reviewed to determine whether there are any unnecessary provisions which can be deleted or unduly complex provisions which can be simplified. These revisions, which are the product of the first comprehensive review the rule has received since it was adopted in 1962, would also reflect changes in the nature of the investment advisory business since adoption of the rule and the experience of the Commission's staff in conducting its inspection program. The revisions are (cont)

●PROPOSED RULE 205-3 UNDER THE INVESTMENT ADVISERS ACT OF 1940

Priority: Undetermined

Legal Authority: 15 USC 80b-6a

CFR Citation: 17 CFR 275.205-3

Abstract: Section 205 prohibits, with certain limited exceptions, registered investment advisers from being compensated on the basis of a share of capital gains upon, or capital appreciation of, the funds or any portion of the funds of a client. The Commission is considering proposing a rule which would allow investment advisers to receive performance-based advisory fees under certain circumstances. Any such rule would have the effect of allowing advisers greater flexibility in structuring their compensation arrangement than is now permitted. Because of this, the staff is of the opinion that the benefits of complying with proposed rule would far outweigh the costs. The staff believes that any costs associated with compliance would be insignificant.

●RULES 206(3)-2 UNDER THE INVESTMENT ADVISERS ACT OF 1940

Priority: Undetermined

Legal Authority: 15 USC 80b-6(4); 15 USC 80b-11(a)

CFR Citation: 17 CFR 275.206(3)-2

Abstract: The Commission is considering whether to propose an amendment to Rule 206(3)-2 under the Investment Advisers Act of 1940. The rule provides a non-exclusive method for compliance with Section 206(3) of the Advisers Act in connection with agency cross transactions for an advisory client by persons who might be considered to be acting in a conflict of interest in violation of their fiduciary duties to the client. The rule requires that the transaction be affected pursuant to a written consent effective for a period not to exceed one year and executed by the advisory client after full written disclosure that the investment adviser and/or an affiliated broker-dealer are acting as agent for and receiving commissions from both parties and, accordingly, have a conflicting division of loyalties and responsibilities. The Commission is considering, whether the requirement for annual written consent can be eliminated consistent with investor protection. The Commission is considering, among other things, the costs imposed by the rule on investment advisers relating to the need for

securing annual written consent from the client, and the related benefits to the client and would expect that (cont)

●UTILIZING PRIVATE ENTITIES IN INVESTMENT COMPANY EXAMINATIONS AND IMPOSING EXAMINATION FEES

Priority: Undetermined

Legal Authority: 15 USC 80a-30; 15 USC 80a-31; 15 USC 80a-37

Abstract: The Commission is considering the concept of utilizing private entities in investment company examinations and imposing inspection fees, in order to supplement the Commission's investment company examination program. In light of the dramatic growth which has occurred in the investment company industry in recent years and the budgetary constraints under which the Commission operates, the Commission is considering what alternatives may be available to ensure that investment company examinations continue to be conducted with sufficient regularity. In an ANPRM the Commission requested comment on a number of alternatives: (1) authorization of the creation of one or more self-regulatory organizations to conduct routine periodic examinations of investment companies; (2) use of investment company independent auditors to conduct certain additional procedures as a substitute for similar procedures now performed by Commission examiners during examinations; (3) some combination of these alternatives; and (4) collection of fees from investment companies to cover part or all of the cost of investment (cont)

●MUTUAL FUND GOVERNANCE

Priority: Undetermined

Legal Authority: 15 USC 80a-16(c); 15 USC 80a-35; 15 USC 80a-6(c)

Abstract: On December 10, 1982, the Commission issued an advance concept release (Investment Company Act Release No. 12888) soliciting public comment on whether the Commission should propose rules or recommend legislation which would provide for an alternative form of mutual fund governance. Specifically, this release requests comment on whether mutual funds should be exempted from shareholder voting and/or director requirements under the Investment Company Act of 1940 (the "Act") and, if so, whether conditions could be fashioned which would adequately insure against loss of investor protection. Although such changes might be effected through rulemaking, the Commission has indicated that, in its preliminary judgment, changes of this magnitude should be effected through legislative rather than administrative action. Since the costs and benefits of providing for an alternative scheme of mutual fund governance cannot be estimated at the present time, the release solicits specific comment on the costs and benefits which would result from such changes...(cont)

SECURITIES MARKETS AND SECURITIES INDUSTRY RULES

RULE 10B-10 – CONFIRMATION OF TRANSACTIONS

Priority: Undetermined

Legal Authority: 15 USC 78c Exchange Act; 15 USC 78j Exchange Act; 15 USC 78k Exchange Act; 15 USC 78o Exchange Act; 15 USC 78q Exchange Act; 15 USC 78w Exchange Act

CFR Citation: 17 CFR 240.10b-10

Abstract: The Commission proposed an amendment to the confirmation rule, Rule 10b-10, that would permit broker-dealers to send one monthly statement for certain transactions in "account management plans", instead of individual confirmations. Accordingly, customers would continue to have the benefit of essential account information, but at a significantly reduced cost to the broker-dealer. In addition, the Commission proposed an amendment to Rule 10b-10 to require yield and call disclosure that is intended to assure that investors receive important information in connection with debt securities transactions. Alternative forms of disclosure suggested by the securities industry were considered. Yield disclosure may require some new compliance procedures for preparing confirmations, but that impact will be substantially reduced by current compliance with similar Municipal Securities Rulemaking Board rules. The Commission will consider public comment on the proposed amendments, including comments on the impact on small entities, in connection with consideration of whether to adopt the amendments.

Priority: Undetermined

Legal Authority: 15 USC 78b Exchange Act; 15 USC 78c Exchange Act; 15 USC 78f Exchange Act; 15 USC 78i Exchange Act; 15 USC 78j Exchange Act; 15 USC 78k Exchange Act; 15 USC 78k-1 Exchange Act; 15 USC 78o Exchange Act; 15 USC 78o-3 Exchange Act; 15 USC 78q Exchange Act; 15 USC 78w Exchange Act

CFR Citation: 17 CFR 240.11A-1

Abstract: In connection with the partial removal of exchange off-board trading restrictions through Rule 19c-3, the Commission has proposed a revised rule, Rule 11A-1, to address order exposure concerns. Proposed Rule 11A-1 would require exchange and over-the-counter market makers in Rule 19c-3 securities, prior to executing an order as principal, to hold the order out for 30 seconds, thereby allowing other market makers to compete for that order. Alternatively, the proposed rule would permit the market maker to compete for orders by maintaining competitive quotations in the National Association of Securities Dealers' Computer Assisted Execution System or the Cincinnati Stock Exchange's National Securities Trading System, and routing orders to those systems. The proposed rule also contains a number of specific exceptions to order exposure requirements. The Commission will consider public comment on the impact of the proposed rule on small broker-dealers in connection with its final rulemaking.

PROPOSED RULE 15B7-1 -- MINIMUM QUALIFICATION STANDARDS FOR NON-MEMBER BROKER-DEALERS AND ASSOCIATED PERSONS

Priority: Undetermined

Legal Authority: 15 USC 78o(b)(7) Exchange Act; 15 USC 78q Exchange Act; 15 USC 78w Exchange Act

CFR Citation: 17 CFR 240.15b7-1

Abstract: Associated persons of SECO broker-dealers are currently subject to examination and filing requirements under Rule 15b8-1. Under the proposal, Rule 15b7-1 would replace Rule 15b8-1 and upgrade the qualification standards applicable to SECO broker-dealers to parallel those of the NASD. The Commission considered exempting small broker-dealers from the rule, but instead modified the proposal to lessen the requirements applicable to small entities. The proposed examination fee would be approximately $40 and the filing fee would be $50. There are also costs involved in preparing for the examination and filling out the form. The benefits to the public are difficult to quantify. Qualification examinations help ensure that new entrants to the securities business understand the securities laws and are aware of their obligations to their customers. The benefits of the filing requirement include better surveillance of the activities of SECO broker-dealers.

●SECURITIES EXCHANGE ACT RULE 15C2-11 INITIATION AND RESUMPTION OF QUOTATIONS WITHOUT SPECIFIED INFORMATION

Priority: Undetermined

Legal Authority: 15 USC 78c Exchange Act; 15 USC 78j Exchange Act; 15 USC 78o Exchange Act; 15 USC 78q Exchange Act; 15 USC 78w Exchange Act

CFR Citation: 17 CFR 240.15c2-11

Abstract: Rule 15c2-11 regulates the publication and submission of over-the-counter quotations by brokers and dealers. For several reasons, the Rule, as currently drafted and administered, does not ensure that brokers and dealers will be precluded from furnishing arbitrary quotations for certain over-the-counter securities in a variety of situations. Accordingly, the staff intends to recommend that the Commission propose for comment several amendments to the Rule as well as review compliance practices respecting certain of the Rule's provisions. Publication of the proposed amendments will also provide an opportunity for a public review of Rule 15c2-11 to determine whether it achieves its objectives at a reasonable cost. In that connection, the staff will recommend that the Commission also solicit comment on whether there is any continuing need for the Rule and whether the Commission should rescind it rather than adopt the proposed amendments.

ACCOUNTING RULES

●OIL AND GAS PRODUCERS--FULL COST ACCOUNTING PRACTICES

Legal Authority: 15 USC 77f; 15 USC 77g; 15 USC 77j; 15 USC 77s(a); 15 USC 78l; 15

USC 78m; 15 USC 78n; 15 USC 78o(d); 15 USC 78w; 15 USC 79e; 15 USC 79n; 15 USC 79t; 42 USC 6383

CFR Citation: 17 CFR 210.4-10(i)(3)(ii); 17 CFR 210.4-10(i)(6)(i) and (iii)

Abstract: In December 1982, the Commission published for comment amendments to its rules for application of the full cost method of accounting by oil and gas producers. The proposed amendments should clarify the criteria for, and, thereby, narrow the diversity of practice in the amortization of capitalized costs and the recognition of gain or loss on transfers of oil and gas producing properties. The current diversity has created a serious lack of comparability between financial statements of companies that are using the same basic method of accounting. One alternative approach would permit exclusion from the amortization base of all unevaluated costs in a cost center; the other would require inclusion in the amortization base of a normal inventory of unevaluated costs. Commentators were invited to discuss other approaches. Although the proposed amendments would result in no additional costs from a recordkeeping or data collection standpoint, they may have a significant impact on a registrant's reported net income. Whether that book income impact could affect a registrant's competitive or capital raising position is undetermined.

CFR Citation: 17 CFR 210.2-01

Abstract: Rule 2-01 states the basic qualifications of accountants who practice before the Commission and the general meaning of the requirement that such accountants be independent. The rule provides guidance to registrants required to file financial statements that have been audited by independent accountants and assures that the accountants are entitled to practice accounting and are independent. The rule does not impose any costs on registrants.

FINANCIAL STATEMENT REQUIREMENTS FOR BANK HOLDING COMPANIES

Priority: Undetermined

Legal Authority: 15 USC 77g Securities Act; 15 USC 77h Securities Act; 15 USC 77s(a) Securities Act; 15 USC 78l Exchange Act; 15 USC 78m Exchange Act; 15 USC 78o(d) Exchange Act; 15 USC 78w Exchange Act

CFR Citation: 17 CFR 210.9-01 to 210.9-05

Abstract: Article 9 of Regulation S-X is intended to assure a degree of uniformity in the presentation of financial statements by bank holding companies that file with the Commission. In Securities Act Release No. 6417 (July 9, 1982) (47 FR 22158), the Commission proposed to revise Article 9 in connection with its efforts to integrate and update its rules and eliminate rules which are duplicative of generally accepted accounting principles.

DISCLOSURE RULES

REGULATION 14A – SOLICITATION OF PROXIES

Priority: Undetermined

Legal Authority: 15 USC 78n(a) Exchange Act; 15 USC 78w(a) Exchange Act

CFR Citation: 17 CFR 240.14a-1 to 240.14a-12; 17 CFR 240.14a-101; 17 CFR 240.14a-102

Abstract: Regulation 14A specifies the information required to be disclosed to security holders to enable them to make informed decisions concerning authorization of proxies. Regulation 14A consists of twelve rules and Schedules 14A and 14B. These provisions contain requirements regarding disclosures in, and dissemination and filing of, proxy solicitations with respect to a security registered pursuant to Section 12 of the Exchange Act, opposition solicitations with respect to the election of directors and annual reports to security holders accompanying or preceding a proxy solicitation with respect to a security registered pursuant to Section 12 of the Exchange Act. This regulation is being reviewed in conjunction with the Commission's examination of its proxy rules and will encompass any provisions not specifically covered in other related proxy review projects. The review will attempt to identify ineffective or outmoded rules and, as appropriate, rescind or replace such rules with alternatives designed to maximize shareholder protection while minimizing burdens on registrants.

REGULATION 14C – DISTRIBUTION OF INFORMATION PURSUANT TO SECTION 14(C)

Priority: Undetermined

Legal Authority: 15 USC 78n(a) Exchange Act; 15 USC 78w(a) Exchange Act

CFR Citation: 17 CFR 240.14c-1 to 240.14c-7; 17 CFR 240.14c-101

Abstract: Regulation 14C consists of seven rules and Schedule 14C, which contain requirements as to the dissemination, content and filing of information statements in connection with annual or other meetings of holders of securities registered pursuant to Section 12 of the Exchange Act and annual reports to security holders accompanying or preceding such information statements. The Rules are intended to enable security holders to make informed voting decisions in any matters to be acted upon at annual or other meetings in those situations where proxies are not being solicited. This regulation is being reviewed in conjunction with the Commission's examination of its proxy rules. The review will attempt to identify ineffective or outmoded rules and, as appropriate, rescind or replace such rules with alternatives designed to maximize shareholder protection while minimizing burdens on issuers. The review also will update rules where necessary to accord with changes in state law.

SECURITIES MARKETS AND SECURITIES INDUSTRY RULES

●RULE 3A12-1–EXEMPTION OF CERTAIN MORTGAGES AND INTERESTS IN MORTGAGES

Priority: Undetermined

Legal Authority: 15 USC 78c Exchange Act; 15 USC 78w Exchange Act

CFR Citation: 17 CFR 240.3a12-1

Abstract: Rule 3a12-1 provides that mortgages and interests in mortgages (as defined in Section 302(d) of the Emergency Home Finance Act of 1970) sold by the Federal Home Loan Mortgage Corporation ("FHLMC") will become "exempt securities" under Section 3(a)(12) of the Securities Exchange Act of 1934. The principal impact of the rule is that broker-dealers dealing solely in these mortgages and other exempt securities will not be subject to the registration, net capital and other provisions of the Exchange Act which, by their terms, are not applicable to "exempt securities." The Commission is at the initial stages of its review of this rule. Consequently, potential alternatives to the rule, as well as other costs and benefits, have yet to be determined.

●SECURITIES EXCHANGE ACT RULE 3A12-2–EXEMPTION OF CERTAIN SECURITIES, THE INCOME ON WHICH IS SUBSTANTIALLY GUARANTEED BY STATES OR POLITICAL SUBDIVISIONS THEREOF

Priority: Undetermined

Legal Authority: 15 USC 78c Exchange Act; 15 USC 78w Exchange Act

CFR Citation: 17 CFR 240.3a12-2

Abstract: Rule 3a12-2 provides that a security, the income of which is guaranteed by a state or political subdivision thereof and the business of which is managed by a state or political subdivision thereof, shall be an "exempt security" under Section 3(a)(12) of the Securities Exchange Act of 1934. This rule was adopted to permit exchange trading to continue, without registration under the Exchange Act, in a security such as the common stock of the Boston Elevated Railway Company, where the annual dividend was guaranteed by the Commonwealth of Massachusetts and the company was managed by trustees appointed by the Commonwealth. The Commission is at the initial stages of its review of Rule 3a12-2. Consequently, potential alternatives to the rule, as well as their costs and benefits, have yet to be determined.

Priority: Undetermined

Legal Authority: 15 USC 78h(c) Exchange Act; 15 USC 78c(b) Exchange Act; 15 USC 78w(a) Exchange Act

CFR Citation: 17 CFR 240.8c-1

Abstract: Rule 8c-1 was adopted in 1940 and was designed to work in tandem with Rule 15c2-1 to achieve the Congressional mandate of safeguarding customer securities by prohibiting broker-dealers from pledging securities of customers as collateral to finance its own trading, speculative or underwriting ventures. The rule, in essence, sets out three basic principles regarding the use of customer securities: First, a broker-dealer may not commingle securities of different customers as collateral for a loan without the written consent of each customer. Second, a broker-dealer may not commingle customer securities with non-customer securities under the same pledge. Finally, a broker-dealer may not pledge customer securities for more than customers owe him. Rule 8c-1 applies only to broker-dealers which transact a business in securities through members of a national securities exchange, while Rule 15c2-1 applies to broker-dealers which do a securities business in the over-the-counter market. The staff has undertaken a comprehensive review of Rule 8c-1 and 15c2-1 to determine whether the prohibitions regarding the use of customers securities (cont)

●SECURITIES EXCHANGE ACT RULE 15A-4; FORTY-FIVE DAY EXEMPTION FROM REGISTRATION FOR CERTAIN MEMBERS OF NATIONAL SECURITIES EXCHANGES

Priority: Undetermined

Legal Authority: 15 USC 78o Exchange Act

CFR Citation: 17 CFR 240.15a-4

Abstract: Rule 15a-4 provides a temporary exemption from the Exchange Act broker-dealer registration requirements for a member of a national exchange who becomes disassociated from a registered broker-dealer and who has filed a Form BD. The exemption permits the exchange member to continue with the written consent of the exchange submitted to the Commission with Form BD to transact business on the floor of the exchange prior to the time that an order granting such registration as a broker-dealer has been issued by the Commission. Such exemption is not available to any person while there is pending before the Commission any proceeding pursuant to Section 15(b)(1)(B) involving such person. The Commission is at the initial stages of its review of this rule. Consequently, potential alternatives to the rule, as well as their costs and benefits, have yet to be considered.

Priority: Undetermined

SEC

Existing Regulations Under Review

Legal Authority: 15 USC 78o; 15 USC 78w

CFR Citation: 17 CFR 240.15a-5

Abstract: Rule 15a-5 provides an exemption from the Exchange Act broker-dealer registration requirements for certain lenders participating in the Small Business Administration's (SBA) guaranteed loan program provided that their securities activities requiring such registration are limited to making such loans and selling the guaranteed portion. The rule permits a financial institution participating in the SBA loan program to sell the guaranteed portion of a note evidencing such indebtedness provided that the sale is made through or to a broker or dealer registered with the Commission. Rule 15a-5 is intended to facilitate participation by qualified lending institutions in the SBA's guaranteed loan program by exempting such institutions from regulatory requirements under the Exchange Act which are not necessary and appropriate for the protection of investors. The Commission is at the initial stages of its review of this rule. Consequently, potential alternatives to the rule, as well as their costs and benefits, have yet to be considered.

●SECURITIES EXCHANGE ACT RULE 15C3-2: USE OF CUSTOMER FREE-CREDIT BALANCES

Priority: Undetermined

Legal Authority: 15 USC 78o(c)(3) Exchange Act; 15 USC 78q Exchange Act; 15 USC 78w Exchange Act

CFR Citation: 17 CFR 240.15c3-2

Abstract: Rule 15c3-2 prohibits a broker-dealer from using customer free credit balances in his business unless the customer has been given notice at least once every calendar quarter informing him of the amount due and that (1) such funds are not segregated; (2) such funds may be used in the operations of the broker-dealer's business; and (3) such funds are payable on demand. The Commission has a longstanding proposal to amend Rule 15c3-2 to require broker-dealers to send customers at least once during every calendar quarter, a statement of account reflecting money balances and securities positions as of the date of the statement. This information will enable customers to verify most of the activity in their accounts and serves as a check for any error made on the broker-dealers' books and records. The Commission received several comments expressing concerns regarding the proposal. In light of these comments, the staff is presently considering whether to re-propose for public comment amendments to Rule 15c3-2.

●SECURITIES EXCHANGE ACT RULE 15C3-3: CUSTOMER PROTECTION RESERVES AND CUSTODY OF SECURITIES

Priority: Undetermined

Legal Authority: 15 USC 78o(c)(3) Exchange Act; 15 USC 78q Exchange Act; 15 USC 78w Exchange Act

CFR Citation: 17 CFR 240.15c3-3

Abstract: Rule 15c3-3 was adopted in 1972 to furnish protection for customer funds and securities. The rule, in essence, requires the broker-dealer to perform the following tasks: First, the broker-dealer must obtain and maintain possession or control of all fully paid or excess margin securities held for the account of customers. Second, the rule requires the broker-dealer to make a weekly computation (in some cases a monthly computation) to determine how much money it is holding which is either customer money or money obtained from the permissible use of customer securities (formula credits). From that amount, the broker-dealer subtracts the amount of money it is owed by customers or by other broker-dealers because of customer transactions (formula debits). If the credits exceed the debits, the broker-dealer must deposit the excess by Tuesday morning in a Special Bank Account. If the debits exceed the credits, no deposit is required. Thus, the rule prevents a broker-dealer from using customer monies to finance its business. The staff has recently initiated a comprehensive review of Rule 15c3-3. Accordingly, alternatives to the rule, as well as their costs and (cont)

SECURITIES AND EXCHANGE COMMISSION (SEC) — Completed Actions

COMPLETED RULEMAKINGS

PROPOSED RULE 17A-9 UNDER THE INVESTMENT COMPANY ACT

Priority: Undetermined

Legal Authority: 15 USC 80a-6(c); 15 USC 80a-17(b); 15 USC 80a-37(a)

CFR Citation: 17 CFR 270.17a-9

Abstract: The Commission is considering whether to propose a Rule 17a-9 which would exempt certain persons from the requirements of Section 17(a) of the Investment Company Act. That section, in pertinent part, prohibits any affiliate of an investment company, or any affiliate of such a person, from selling a security to such company unless the sale has been approved by the Commission. Section 2(a)(3) of the Act defines an affiliate of an investment company to include any person that owns directly or indirectly 5% or more of the company's securities and any person acting as the company's investment adviser. In some situations, a bank, as trustee, may own 5% or more of the securities of a mutual fund or money market fund. In other cases, a bank may act as investment adviser for or have some other association with one or several of, but not all, the funds in a complex. In either of these situations, Section 17(a) would prohibit the affiliated bank from selling certificates of deposit or other investments issued by it to the fund or to a sister fund unless the Commission has issued an order under Section 17(b) of the Act permitting the transaction. It has been suggested that these situations (cont)

Timetable:

Action	Date	FR Cite
Review ended; action contemplated	02/01/83	

Small Entity: Undetermined

Additional Information: ABSTRACT CONT: may occur more frequently and that it is possible to devise a rule to permit the sale of such securities under conditions designed to assure that the statutory standards of Section 17(b) of the Act are met. The Commission is considering the suggestion but has not yet determined whether it is necessary and appropriate for it to propose a rule. If it were to propose such an exemptive rule, the rule would eliminate the cost of seeking exemptive relief through the preparation and filing of applications. It is not known at this time what, if any, compliance requirements would be contained in the rule, or what cost might be incurred as a result of complying with such requirements. Any compliance requirements ultimately proposed would be those the Commission believes necessary to protect investors and implement the policies of the Act.

RULES 6A-1 AND 6A-2 – FORM OF APPLICATION AND AMENDMENTS AND ANNUAL AMENDMENTS TO REGISTRATION OR EXEMPTION STATEMENTS OF EXCHANGES

Priority: Undetermined

Legal Authority: 15 USC 78e Exchange Act; 15 USC 78f Exchange Act; 15 USC 78q Exchange Act; 15 USC 78w Exchange Act

CFR Citation: 17 CFR 240.6a-1; 17 CFR 240.6a-2

Abstract: Rule 6a-1 requires an applicant for registration as a national securities exchange, or for exemption from registration, to file Form 1 with the Commission. Rule 6a-1 also requires an exchange to correct any inaccurate statements on Form 1 by filing Form 1-A. Rule 6a-2 requires each registered or exempted exchange to update its statement by filing an annual amendment. The Commission has proposed amending Rule 6a-2 and Forms 1 and 1-A to reflect changes in the regulatory scheme and technological advances. The proposed amendments would eliminate unnecessary and duplicative reporting requirements. The amendments also would require audited financial statements regarding the exchange and its affiliates and subsidiaries. The Commission is presently reviewing public comments on the proposed amendments. The Commission will weigh the potential financial burden on the exchanges imposed by the audited financial reports requirement against the potential benefit to the Commission's oversight program before taking final action on the proposed amendments. Rule review completed 02/03/83.

PROPOSED RULES 11A-1(A) AND (B)

Legal Authority: 15 USC 78b Exchange Act; 15 USC 78c Exchange Act; 15 USC 78f Exchange Act; 15 USC 78i Exchange Act; 15 USC 78k Exchange Act; 15 USC 78k-1 Exchange Act; 15 USC 78o Exchange Act; 15 USC 78o-3 Exchange Act; 15 USC 78q Exchange Act; 15 USC 78w Exchange Act

CFR Citation: 17 CFR 240.11A-1(A); 17 CFR 240.11A-1(B)

Abstract: In connection with the partial removal of exchange off-board trading restrictions through Rule 19c-3, the Commission has proposed three alternatives to address order exposure problems or "internalization." The first alternative would defer action until internalization caused demonstrable harm. The second alternative, proposed Rule 11A-1(A), would require over-the-counter market makers in Rule 19c-3 securities, prior to executing an order as principal, to hold the order out for a period of time, thereby allowing other market makers to compete for that order. Alternatively, this proposed rule would permit the market maker to compete for orders by maintaining competitive quotations in the Computer Assisted Execution System ("CAES"), and routing orders to CAES. The third alternative, proposed Rule 11A-1(B) would extend the requirements to all market makers in Rule 19c-3 securities. The Commission will consider public comment on the impact of

the proposed rules on small broker-dealers in connection with its final rulemaking. Replaced with RIN 3235-aa39.

CFR Citation: 17 CFR 210.4-10(k)

Abstract: Rule 4-10(k) of Regulation S-X requires supplemental disclosures about the value of oil and gas reserves. In Securities Act Release No. 6412 (June 24, 1982) (47 FR 28684) the Commission proposed amendments to this rule to require compliance with the provisions of a statement of financial accounting standards which the Commission expects will be issued by the Financial Accounting Standards Board during the fall, 1982.

Abstract: Article 6 of Regulation S-X is intended to assure a degree of uniformity in the presentation of financial statements and schedules to those financial statements by registered investment companies. Article 6 is being reviewed as a part of the evaluation of amendments to Article 6 announced in Securities Act Release No. 6374 (January 11, 1982) (47 FR 2776) that were proposed to revise that article to (1) eliminate rules which are duplicative of generally accepted accounting principles, (2) effect changes which recognize current industry practices, and (3) integrate and simplify the rules to improve financial reporting.

RULE 206(4)-2 UNDER THE INVESTMENT ADVISERS ACT OF 1940 ("ADVISERS ACT")

Priority: Undetermined

Legal Authority: 15 USC 80b-6 Advisers Act; 15 USC 80b-11 Advisers Act

CFR Citation: 17 CFR 275.206(4)-2

Abstract: The rule requires investment advisers who have custody or possession of the funds or securities of any client to follow certain practices and procedures as to those funds or securities. The purpose of the rule is to assure the safety of clients' assets which are in the possession of their investment adviser. One alternative to the rule might be to require those investment advisers who have custody or possession of clients' funds or securities to purchase a suitable bond. The staff has not yet determined the costs related to this alternative approach. Final action 4/2/62 (27 FR 2149).

RULE 6A-3 – SUPPLEMENTAL MATERIAL

Priority: Undetermined

Legal Authority: 15 USC 78e Exchange Act; 15 USC 78f Exchange Act; 15 USC 78q Exchange Act; 15 USC 78w Exchange Act

CFR Citation: 17 CFR 240.6a-3

Abstract: Rule 6a-3 requires each registered or exempted exchange to supplement its application and annual amendment by filing the following three types of information with the Commission: (a) notification of any action taken by the exchange which renders its application or annual statements inaccurate; (b) copies of any material which the exchange issues or makes generally available to members of the exchange; and (c) monthly reports concerning the securities activity on the exchange for that month. The information filed pursuant to Rule 6a-3 is designed to enable the Commission to carry out its statutorily mandated oversight functions and to assure that exchanges continue to be in compliance with the Act. The Commission is in the initial stages of its review of this rule. Accordingly, alternatives to the rule, as well as their costs and benefits, have not yet been considered.

SECURITIES EXCHANGE ACT RULE 10B-6 – DISTRIBUTIONS THROUGH RIGHTS

Priority: Undetermined

Legal Authority: 15 USC 78c Exchange Act; 15 USC 78i(a)(6) Exchange Act; 15 USC 78j(b) Exchange Act; 15 USC 78l(a) Exchange Act

CFR Citation: 17 CFR 240.10b-6

Abstract: Rule 10b-6 applies to any person participating in a distribution of securities being offered through rights issued on a pro-rata basis to holders of a security. In order to prevent manipulative or deceptive acts and practices, its provisions regulate the price at which a participant in the distribution may sell the underlying security, and the conditions under which and the prices at which bids for and purchases of rights may be made. The staff is currently reviewing comprehensive proposed amendments to another rule within its jurisdiction, Rule 10b-6. In view of the extensive amount of staff time and resources devoted to the proposed revisions to Rule 10b-6 and in view of the potential impact such revisions may have on Rule 10b-8, comprehensive review of Rule 10b-8 must be temporarily postponed. Accordingly, alternatives to the rule, as well as their costs and benefits, will be considered at a later date.

RULE 15B1-1 – APPLICATION FOR REGISTRATION OF BROKER OR DEALER

Priority: Undetermined

Legal Authority: 15 USC 78o(b) Exchange Act; 15 USC 78q(a) Exchange Act; 15 USC 78w(a) Exchange Act

CFR Citation: 17 CFR 240.15b1-1; 17 CFR 249.501; 17 CFR 249.510

Abstract: Rule 15b1-1 provides that an application for registration as a broker or dealer must be filed on Form BD. The information required to be disclosed on Form BD is necessary for the Commission to determine whether registration as a broker or dealer should be granted and to furnish information to public investors. The Commission is at the initial stages of its review of this rule and has not arrived at its final conclusions or recommendations with respect to this rule. Accordingly, it remains to be considered what the potential costs and benefits of any recommended changes will be, as well as possible alternatives.

RULE 15B1-3 – REGISTRATION OF SUCCESSOR TO REGISTERED BROKER OR DEALER

Priority: Undetermined

Legal Authority: 15 USC 78o(b) Exchange Act; 15 USC 78w(a) Exchange Act

CFR Citation: 17 CFR 240.15b1-3

Abstract: Rule 15b1-3 permits an unregistered broker-dealer who succeeds to the business of an existing registered broker-dealer to continue the business of its predecessor for 75 days if an application for registration is filed within 30 days of the date of succession. Without the rule, the successor could not continue the business of its predecessor until the successor's registration as a broker-dealer had been approved by the Commission. The Commission is at the initial stages of its review of this rule. Consequently, any alternatives, as well as their potential costs and benefits, have yet to be considered.

RULE 15B1-4 – REGISTRATION OF FIDUCIARIES

Priority: Undetermined

Legal Authority: 15 USC 78o(b)(2)(A) Exchange Act; 15 USC 78w(a) Exchange Act

CFR Citation: 17 CFR 240.15b1-4

Abstract: Rule 15b1-4 permits a court appointed or qualified fidiciary who succeeds to the business of a registered broker-dealer to assume responsibility immediately for the operation of the broker-dealer's business if the fiduciary files a statement with the Commission within 30 days of the date he assumes his duties. Without the rule, the fiduciary could not assume operational responsibility for the broker-dealer until his registration with the Commission has become effective. The Commission is at the initial stages of its review of this rule. Accordingly, possible alternatives to the rule, as well as potential costs and benefits of any recommended changes, have yet to be considered.

RULE 15B1-5--CONSENT TO SERVICE OF PROCESS TO BE FURNISHED BY NONRESIDENT BROKERS OR DEALERS AND BY NONRESIDENT GENERAL PARTNERS OR MANAGING AGENTS OF BROKERS AND DEALERS

Priority: Undetermined

Legal Authority: 15 USC 78o(b) Exchange Act; 15 USC 78w(a) Exchange Act

CFR Citation: 17 CFR 240.15h1-5; 17 CFR 249.507; 17 CFR 249.508; 17 CFR 249.509; 17 CFR 249.510

Abstract: The rule requires non-resident broker-dealers to submit forms stating that they consent to service of process with respect to causes of action arising under the federal securities laws and irrevocably give a power of attorney designating the Commission as the non-resident's agent for service of process. This consent is necessary to assure that the Commission, the investing public, and members of the securities industry are able to obtain service on such non-residents. The Commission is at the initial stages of its review of this rule. Consequently, any potential alternatives, as well as their costs and benefits, have yet to be considered.

RULE 15B2-1 -- ADOPTION OF APPLICATION FILED BY PREDECESSOR

Priority: Undetermined

Legal Authority: 15 USC 78o(b)(2)(A) Exchange Act; 15 USC 78w(a) Exchange Act

CFR Citation: 17 CFR 240.15b2-1

Abstract: Rule 15b2-1 permits an application for registration as a broker-dealer to be filed on behalf of a corporation or partnership (the "successor") by a predecessor and permits the successor to adopt that application as its own, thereby facilitating registration and reducing the paperwork associated with registering successor brokerage firms. The Commission is at the initial stages of its review of this rule. Consequently, potential alternatives to the rule, as well as their costs and benefits, have yet to be considered.

RULE 15B5-1 -- EXTENSION OF REGISTRATION FOR PURPOSES OF THE SECURITIES INVESTOR PROTECTION ACT OF 1970 AFTER CANCELLATION OR REVOCATION

Priority: Undetermined

Legal Authority: 15 USC 78o(b) Exchange Act; 15 USC 78w(a) Exchange Act

CFR Citation: 17 CFR 240.15b5-1

Abstract: This rule extends the effective date of the cancellation or revocation of a broker's or dealer's registration for six months for purposes of applying certain sections of the SIPA to customer claims arising prior to the date of revocation or cancellation. The rule is necessary to allow SIPC to protect customers for six months beyond the effective date of cancellation or revocation. The Commission is at the initial stages of its review of this rule. Consequently, potential alternatives, as well as their costs and benefits, have yet to be considered.

RULE 15B6-1 -- WITHDRAWAL FROM REGISTRATION

Priority: Undetermined

Legal Authority: 15 USC 78o(b) Exchange Act; 15 USC 78w(a) Exchange Act

CFR Citation: 17 CFR 240.15b6-1; 17 CFR 249.501a

Abstract: This rule addresses the situation in which a broker or dealer wishes to withdraw its registration under the Exchange Act. Form BDW is needed to determine whether it is in the public interest to permit a broker or dealer to withdraw its registration and thus no longer be subject to regulation by the Commission, and to provide certain information to the public. The Commission is at the initial stages of its review of this rule. Consequently, potential alternatives, as well as their costs and benefits, have yet to be considered.

CFR Citation: 17 CFR 240.15b8-1

SEC

Completed Actions

Abstract: Rule 15b8-1 requires all persons associated with SECO broker-dealers to pass qualification examinations before engaging in securities activities and requires all SECO broker-dealers to file a Form U-4 for each associated person before that person engages in securities activities and to file a list on or before July 31 of each year of persons who have ceased to be associated with the firm. The rule was adopted in response to a Congressional directive to establish standards of competence for SECO broker-dealers. The Commission is considering rescinding Rule 15b8-1 and replacing it with Rule 15b7-1, which was proposed in May 1982. Securities Exchange Act Release No. 18710, 47 FR 20783 (May 14, 1982). Proposed Rule 15b7-1, would still, however, maintain the examination and filing requirements contained in Rule 15b8-1. Alternatives to qualification examinations include the establishment of standards of training or experience. The Commission believes, however, that those standards would involve more regulation and be more anticompetitive than the establishment of examination standards.

RULE 17F-2 -- FINGERPRINTING OF SECURITIES INDUSTRY PERSONNEL

Priority: Undetermined

Legal Authority: 15 USC 78q(a) Exchange Act; 15 USC 78q(b) Exchange Act; 15 USC 78w(a) Exchange Act

CFR Citation: 17 CFR 240.17f-2

Abstract: Rule 17f-2 requires that securities professionals be fingerprinted. This requirement serves (1) to identify security risk personnel; (2) to allow all employers to make fully informed employment decisions; and (3) to deter possible wrongdoers from seeking employment in the securities industry. The Commission has proposed for comment amendments to Rule 17f-2 designed to simplify (1) the procedure to claim certain exemptions from the fingerprinting requirement; and (2) the maintenance and storage of records required to be kept under Rule 17f-2. Securities Exchange Act Release No. 18645 (April 14, 1982). These amendments, if adopted, will save the securities industry approximately $100,000 annually.

ACTIONS THAT STARTED AND ENDED BETWEEN ISSUES OF THE UNIFIED AGENDA

●AMENDMENT TO INVESTMENT ADVISER REGISTRATION AND REPORTING REQUIREMENTS

Priority: Undetermined

Legal Authority: 15 USC 80b-3; 15 USC 80b-4; 15 USC 80b-6(4); 15 USC 80b-11(a)

CFR Citation: 17 CFR 279.1

Abstract: Regulation 279.1 sets forth the requirement that Form ADV shall be used as an application for registration as an investment adviser and for amendments to such application. The form provides a uniform format for disclosure of the material facts relating to the investment adviser to both the Commission and the public. On May 14, 1982, the Commission adopted on a temporary basis until March 31, 1983 certain amendments which deleted several items from Form ADV because the items, although useful to the Commission in its understanding of the investment advisory industry, were not sufficiently important to justify their continuation in view of the apparent costs and burden to investment advisers in supplying the information. The Commission solicited public comments as to whether the temporary amendments should be made permanent. Permanent adoption of the deletions would simplify Form ADV in certain significant respects thereby resulting in cost savings to applicants and registrants in filing and periodically amending Form ADV.

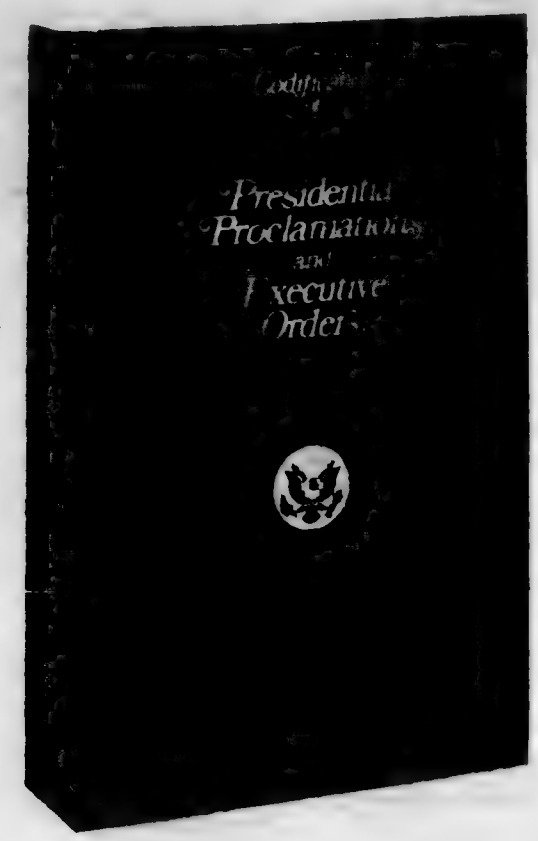
UPDATED EDITION NOW AVAILABLE



For those of you who must keep informed about Presidential proclamations and Executive orders, there is a convenient reference source that will make researching these documents much easier.

Arranged by subject matter, this edition of the *Codification* contains proclamations and Executive orders that were issued or amended during the period January 20, 1961, through January 20, 1981, and which have a continuing effect on the public. For those documents that have been affected by other proclamations or Executive orders, the codified text presents the amended version. Therefore, a reader can use the *Codification* to determine the latest text of a document without having to "reconstruct" it through extensive research.

Special features include a comprehensive index and a table listing each proclamation and Executive order issued during the 1961–1981 period, along with any amendments, an indication of its current status, and, where applicable, its location in this volume.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $300.00 per year, or $150.00 for six months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

Presidential Documents

Title 3—

The President

Proclamation 5055 of April 22, 1983

National Farm Safety Week, 1983

By the President of the United States of America

A Proclamation

Many of the world's people depend on American agriculture to fill their food and fiber needs. Yet, the efficiency of American agriculture and the quality of life for those who work on the land are impaired by a high accident rate. Many farm and ranch families, both owners and workers, suffer great personal sorrow and economic loss each year because of serious injuries or fatal accidents. It is particularly unfortunate that farm children and teenagers often are the victims of these accidents.

Although great progress has been made in improving safety on farms, much work remains to be done. It is important that community leaders and public officials continue to contribute their time and effort to promoting accident prevention programs. But real progress in safety must start with the individual. Most farm accidents can be prevented if safe work methods are followed and appropriate protective equipment used. If our farmers and ranchers develop strong safety habits while at work, in the home, in recreational pursuits, and while driving on the road, our safety record will improve further.

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, do hereby designate the week of September 18 through September 24, 1983, as National Farm Safety Week. I urge all persons who live and work on the Nation's farms and ranches to make safety a daily part of activities on the job, at home or on the highway. I also urge those who work with and service America's farms and ranches to support safety efforts in every way possible. I call upon parents especially to teach their children good safety practices and instill in them a positive attitude toward safety which will serve them well throughout their lives.

IN WITNESS WHEREOF, I have hereunto set my hand this 22nd day of April, in the year of our Lord nineteen hundred and eighty-three, and of the Independence of the United States of America the two hundred and seventh.

Ronald Reagan

Rules and Regulations

Federal Register
Vol. 48, No. 81
Tuesday, April 26, 1983

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Soil Conservation Service

7 CFR Part 621

River Basin Investigations and Surveys

AGENCY: Soil Conservation Service, USDA.

ACTION: Final rule.

SUMMARY: The Soil Conservation Service (SCS) is revising its regulations governing the River Basin Investigations and Surveys Program to reflect current planning objectives and make the program more responsive to water resources planning needs. The revision also makes editorial changes to improve the general readability of the text.

EFFECTIVE DATE: May 26, 1983.

FOR FURTHER INFORMATION CONTACT: Edgar H. Nelson, Director, Basin and Area Planning Division, Soil Conservation Service, P.O. Box 2890, Washington, D.C. 20013 (202–447–2847).

SUPPLEMENTARY INFORMATION:

I. General

Pub. L. 83–566, 68 Stat. 666, was passed in 1954. Section 6 of the Act authorizes the Secretary of Agriculture to investigate and survey watersheds of rivers and other waterways as a basis for developing coordinated programs in cooperation with other Federal agencies and with State and local agencies. The Secretary of Agriculture delegates to the SCS leadership responsibility within the Department for conservation, development, and productive use of the Nation's soil, water, and related resources, including the Department's activities under River Basin Surveys and Investigations. The SCS activities under this authority include: (1) Cooperative river basin studies in coordination with Federal, State, or local agencies; (2) floodplain management studies in coordination with the responsible State agency and involved local governments; (3) salinity studies in the Colorado River Basin in cooperation with the Department of the Interior's Bureau of Reclamation to identify opportunities to reduce salt loading of the Colorado River through improved irrigation practices; (4) joint investigations and reports with the Department of the Army under Pub. L. 87–639, 76 Stat. 438 (16 U.S.C. 1009); and (5) interagency coordination of the water resources activities of the Department. The Forest Service and the Economic Research Service are active participants in the cooperative river basin studies and interagency coordination.

This rule has been reviewed under the Department of Agriculture's (USDA) procedures established to implement Executive Order 12291. It has been determined that it is not a major rule. It does not meet any of the three criteria for a major rule as set forth in Executive Order 12291.

This action does not increase the Federal paperwork burden for individuals, small businesses, and other persons. This determination has been made in accordance with the provisions of the Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 35).

State and local government agencies frequently participate in River Basin Investigations and Surveys. Small businesses occasionally have opportunities to provide support services through contracts. Small entities are sometime invited to participate in public involvement activities. No significant change in the existing level of such activities is expected. Therefore, these regulations will not significantly affect small entities. This satisfies the requirements of the Regulatory Flexibility Act (Pub. L. 96–354, 94 Stat. 1164, September 19, 1980).

The title and number of the Federal Assistance Program to which this action applies is: Title—River Basin Surveys and Investigations; Number 10.906.

II. Discussion of comments

On September 10, 1982, SCS published a proposed rule (47 FR 39833) to revise its regulations for River Basin Investigations and Surveys. At that time, SCS solicited written comments from interested persons regarding the proposed revisions. The public comment period ended on November 9, 1982. Comments were received from the Small Business Administration (SBA), the National Wildlife Federation (NWF), and an individual. The comments and SCS responses are as follows:

Comment: The SBA requested that this final rule contain a statement about how publishing this rule may be expected to affect small entities.

Response: A statement of effects on small entities is now included above.

Comment: The NWF objected to the specific reference to the Cabinet Council on National Resources and Environment, the Assistant Secretaries' Working Group on Water Resources, the USDA Committee on Natural Resources and Environment, and the Water Issues Working Group in Subpart E—Interagency Coordination. The NWF stated that there is no specific statutory authority for the establishment of these organizations.

Response: These organizations have been established and are functioning by Executive direction. Interagency coordination is a legitimate function and responsibility of all Federal agencies. The SCS uses its authority derived from Pub. L. 83–566 as a basis for funding its support of these and other organizations established for interagency coordination of water resources related activities. We have provided additional information in Subpart E to show that SCS interagency coordination is not limited to the organizations listed above.

Comment: The NWF suggested that changes be made in § 621.30(b) to reinforce the concept of "flood damage reduction" rather than "flood control."

Response: The words in § 621.30(b) related to flood prevention and flood control are found in the legislation which authorizes joint studies by the Department of Agriculture and the Department of the Army. Therefore we have not changed the wording in this section. Investigations of methods for flood prevention and flood control are expected to include consideration of floodplain management and hazard reduction measures.

Comment: The NWF suggested that newly formed regional entities for interstate coordination for water resources programs as mentioned in § 621.41(a) have no statutory authority to exist or to function.

Response: State and local governments have organized the newly formed regional entities. They require no Federal statutory authority. USDA agencies assist the regional entities only on request by the State agencies represented. USDA assistance is granted under the authority of Section 6 of Pub. L. 83–566. No change was made in response to this comment. However, minor editorial changes were made to simplify this section.

Comment: The NWF objected to the deletion of the concept of "comprehensive planning" from § 621.1.

Response: Congress has discontinued the Federal financial support for developing comprehensive, coordinated, river basin plans. Pub. L. 83–566 calls for coordinated programs but not necessarily for comprehensive plans. Pub. L. 89–80 encourages comprehensive planning but does not necessarily require it. Comprehensive interagency planning efforts cannot be funded through USDA agencies alone. If comprehensive planning efforts are initiated by regional entities, interagency committees, or by the compact commissions, USDA agencies may provide support as indicated in Subpart E. No changes were made in response to this comment.

Comment: An individual requested that SCS reconsider the need for a "Joint Coordination Agreement" between SCS and a State agency before floodplain management studies can be authorized in a State.

Response: We have changed §§ 621.21 and 621.23(a) to delete the provisions which required the development of a Joint Coordination Agreement with a State agency before providing floodplain management assistance to local communities. We have added a provision in § 621.23 to indicate that an appropriated State agency may express its priorities for those floodplain management activities which occur within a State. This provides greater flexibility in program management and reduces the requirements for obtaining program assistance.

Comment: The individual suggested that the criteria for starting floodplain management studies described in § 621.23(a) should be the same as those criteria for starting USDA Cooperative Studies as found at § 621.13.

Response: We have changed § 621.23(a) as suggested.

List of Subjects in 7 CFR Part 621

Rivers, Flood prevention, Technical assistance, Water resources.

Accordingly, 7 CFR Part 621, Table of Contents and text are revised to read as follows:

PART 621—RIVER BASIN INVESTIGATIONS AND SURVEYS

Subpart A—General

Sec.
621.1 Purpose.
621.2 Scope.

Subpart B—USDA Cooperative Studies

621.10 Description.
621.11 Who may obtain assistance.
621.12 How to request assistance.
621.13 Conditions for approval.
621.14 Recipient responsibility.

Subpart C—Floodplain Management Assistance

621.20 Description.
621.21 Who may obtain assistance.
621.22 How to request assistance.
621.23 Conditions for approval.
621.24 SCS responsibility.
621.25 Recipient responsibility.

Subpart D—Joint Investigations and Reports With the Department of the Army

621.30 Description.
621.31 Who may request assistance.
621.32 How to request assistance.
621.33 Conditions for approval.
621.34 Recipient responsibility.

Subpart E—Interagency Coordination

621.40 Participation in Federal interagency policy activities at the national level.
621.41 Participation in Federal-State policy and planning activities at the regional level.
621.42 Federal-State compacts.
621.43 Interstate compacts and commissions.
621.44 Special studies.
621.45 Flood insurance studies.

Authority: Sec. 6 (Pub. L. 83–566) 68 Stat. 666 (16 U.S.C. 1006) unless otherwise noted.

Subpart A—General

§ 621.1 Purpose.

This part describes policies, requirements, and procedures governing the Department of Agriculture's (USDA's) investigations and surveys of watersheds of rivers and other waterways as a basis for developing coordinated programs. These activities are undertaken in cooperation with other Federal, State, and local agencies. The delegation of authority to the Soil Conservation Service (SCS) to provide national leadership for the conservation, development, and productive use of the Nation's soil, water, and related resources, including the activities treated in this part is found at § 2.62 of this title.

§ 621.2 Scope.

USDA river basin activities include:

(a) Cooperative river basin surveys in coordination with Federal, State, and local agencies;

(b) Floodplain management assistance in coordination with the responsible State agency and involved local governments;

(c) Joint investigations and reports with the Department of the Army under Pub. L. 87–639, 76 Statute 438 (16 U.S.C. 1009); and

(d) Interagency coordination of water resources activities.

Subpart B—USDA Cooperative Studies

§ 621.10 Description.

Cooperative river basin studies provide USDA planning assistance to Federal, State, and local governments. The purpose of these studies is to assist in appraising water and related land resources; defining and determining the extent of the problems; and formulating alternative plans, including land treatment, nonstructural or structural measures, or combinations thereof, that would solve existing problems or meet existing and projected needs. These studies concentrate on specific objectives identified by the requesting agencies and citizen groups that are consistent with USDA authorities and responsibilities and current SCS priorities. The objectives ordinarily include the formulation of a plan but may require only inventories of available resources and associated problems to be used by other agencies in plan formulation. USDA assistance is provided through field advisory committees composed of representatives of the Economic Research Service, Forest Service, and SCS. The SCS representative chairs the field advisory committee.

§ 621.11 Who may obtain assistance.

Assistance is available to conservation districts, communities, county governments, regional planning boards, other planning groups, and State and Federal agencies. Local groups express their desires for a cooperative study to the governor or appropriate State agency.

§ 621.12 How to request assistance.

For a cooperative study a governor, or a Federal, State, or local government agency must submit a written request and a Proposal to Study (PTS) through the SCS State Conservationist to the Chief. Assistance in preparing the proposal may be obtained by contacting the State Conservationist. The State Conservationist sends the request and proposal with comments to the Chief for consideration. The proposal should:

(a) Describe the basin or study area, including a map of the study area;

(b) Explain the need for the study;

(c) Explain the need for USDA participation;

(d) State the responsibility and authority of the requesting agency in the study;

(e) Estimate the extent of participation of other Federal and State agencies;

(f) Discuss views and priorities of affected soil conservation districts regarding the proposed study;

(g) Briefly describe the intended management organization of the study;

(h) Specifically describe the expected results of the study;

(i) Identify primary users of the study results and the manner in which the results will be used;

(j) State the relationship of the study to ongoing and completed river basin studies;

(k) State that procedures for informing clearinghouses and for eliciting public participation will be followed;

(l) Estimate the duration and scope of the study; and

(m) Estimate the study costs by year and agency.

§ 621.13 Conditions for approval.

The Chief may authorize requested cooperative studies recommended by the State Conservationist. Priority for starting cooperative studies is based on the date of application, the readiness of the requesting agency to begin participation, the importance and significance of problems to be studied, the monetary or in-kind contributions toward the study, the sequence of ongoing and future studies, the type of study, the duration of study, the cost of study, the potential for implementation and other factors affecting the effectiveness and efficiency of the study. The number and location of cooperative studies started each year are governed by the availability of USDA funds and personnel.

§ 621.14 Recipient responsibility.

Leadership in arrangements for other needed Federal, State, and local agency participation is responsibility of the requesting agency. Consistent with national objectives and SCS policy and procedures, the requesting agency has leadership responsibility for developing specific study objectives, providing the necessary study organization, and ensuring public participation in the planning process.

Subpart C—Floodplain Management Assistance

§ 621.20 Description.

Floodplain management studies provide needed information and assistance to local and State entities so that they can implement programs for reducing existing and future flood damages in rural and urban communities. Assistance is targeted to communities where flood damage is a serious concern and local governments are sincerely interested in taking action to reduce damage.

§ 621.21 Who may obtain assistance.

Assistance is available to conservation districts, communities, county governments, regional planning boards, other planning groups, and State and Federal agencies.

§ 621.22 How to request assistance.

(a) A conservation district, local community or other jurisdiction may request floodplain management assistance for a local area for which they are responsible, by letter to the governor or the agency of State government responsible for floodplain management activities. Assistance in making application may be obtained by contacting any SCS office.

(b) The governor or his designee may request floodplain management assistance for the State by submitting a written request to the State Conservationist.

§ 621.23 Conditions for approval.

(a) USDA floodplain management studies are authorized by the Director of the Basin and Area Planning Division. Priority for starting floodplain management studies is based on the same factors as for USDA Cooperative Studies as described in § 621.13.

(b) A study for an individual community may be started upon completion of a plan of work in which the Director of the Basin and Area Planning Division concurs and for which funds are available. Preparation of the plan of work is the responsibility of and must be approved by the applicant, the responsible State agency, and the State Conservationist. The plan sets forth the responsibilities of the applicant, the State, and USDA in carrying out the study and interpreting and using the data in a local floodplain management program. The State agency responsible for floodplain management activities may establish priorities on which to base the sequence of approval of floodplain management studies within its State. The number of studies started each Federal fiscal year is governed by the availability of funds and personnel and the amount of State and local assistance available.

(c) States and communities are encouraged to make monetary or in-kind contributions toward the floodplain management study. The State and local share may reflect in-kind contributions in lieu of fund transfers.

§ 621.24 SCS responsibility.

SCS is responsible for providing leadership for scheduling and implementing the technical phases of the studies and preparing the reports. SCS assists in interpreting the study results.

§ 621.25 Recipient responsibility.

The State agency is responsible for developing State priorities for floodplain management studies and coordinating this work with related activities in the State. The cooperating local government entity is responsible for obtaining permission for carrying out field surveys. The State and local participants assist in distributing and interpreting the report and providing public information and educational services.

Subpart D—Joint Investigations and Reports With the Department of the Army

§ 621.30 Description.

(a) As provided by Pub. L. 87–639, joint investigations and reports by USDA and the Department of the Army may be authorized by resolutions adopted by the Committee on Environment and Public Works of the U.S. Senate or the Committee on Public Works and Transportation of the U.S. House of Representatives for any watershed area in the 50 States, the Commonwealth of Puerto Rico, and the U.S. Virgin Islands if the nature of the watershed area problems dictates need for a joint effort by the two Departments.

(b) Authorized joint investigations and reports are made to determine works of improvement needed in the study area for flood prevention; for the conversation, development, use, and disposal of water; for flood control; for the conservation and proper use of land; and for allied purposes. The joint report to Congress may include a water and related land resources plan recommended for implementation. Such an implementation plan must be accompanied by an environmental impact statement (EIS) and must be in sufficient detail to permit its implementation.

(c) As mutually agreed by USDA and the Department of the Army Corps of Engineers, the report and EIS are forwarded to Congress through appropriate channels after technical, public, and interagency reviews in accordance with SCS policy as described in § 622.34, or in accordance with the Corps of Engineers' policy concerning technical and public review.

Implementation of these plans is contingent on congressional action.

§ 621.31 Who may request assistance.

Any organization, group, or State or local government may request assistance.

§ 621.32 How to request assistance.

Applicants for a joint investigation and report should request their congressional representative(s) to initiate appropriate action under Pub. L. 87–639.

§ 621.33 Conditions for approval.

A joint investigation and report is authorized by a resolution of the Committee on Environment and Public Works of the U.S. Senate or the Committee on Public Works and Transportation of the U.S. House of Representatives. Studies are initiated when funds for them are appropriated by the Congress.

§ 621.34 Recipient responsibility.

Participating local and State governments work with USDA and the Department of the Army representatives in developing objectives, collecting data, analyzing problems, planning and formulating proposals, and considering financial plans. Active public participation is solicited in the planning process through means such as questionnaires, public meetings, citizen advisory boards, and technical committees.

Subpart E—Interagency Coordination

§ 621.40 Participation in Federal interagency policy activities at the national level.

(a) Policy development in water and related land resources is coordinated at the Federal level through the Cabinet Council on Natural Resources and Environment. SCS provides staff support and representation in these activities as requested.

(b) Within the Department, all interested USDA agencies participate in water policy development through the USDA Committee on Natural Resources and Environment and the Water Issues Work Group.

(c) SCS provides appropriate staff support when requested for committees, work groups, and task forces established for interagency coordination of water resources related activities of Federal agencies.

§ 621.41 Participation in Federal-State policy and planning activities at the regional level.

(a) SCS has a responsibility to represent the Department when needed to assist regional water planning entities and interagency committees which coordinate water resources planning activities.

(b) For the Arkansas-White-Red Basin Interagency Committee (AWRBIAC) and the Pacific Southwest Interagency Committee (PSIAC), the USDA member periodically serves as chairperson and provides an executive secretary. For the Southeast Basin Interagency Committee (SEBIAC), SCS periodically provides an executive secretary for the chairperson, who is a State government official.

(c) Under the leadership of SCS, other USDA agencies, principally the Forest Service and Economic Research Service, also participate.

§ 621.42 Federal-State compacts.

SCS is designated to represent USDA in assisting the U.S. Commissioners of the Delaware River Basin Commission and the Susquehanna River Basin Commission. In carrying out this responsibility, SCS provides a liaison officer to work with the U.S. Commissioners on policy level matters, as well as providing the USDA representatives on the Federal field committees to assist the Commissioners.

§ 621.43 Interstate compacts and commissions.

As assigned, an SCS State Conservationist is the USDA point of contact for governing bodies of interstate compacts and commissions concerned with the conservations, development, and proper use of water, soil, and related resources.

§ 621.44 Special studies.

As designated, SCS represents USDA on special study groups such as for the Colorado River Basin Salinity Control Program Studies.

§ 621.45 Flood insurance studies.

As requested by the Federal Emergency Management Agency (FEMA), and within the limits of available resources, SCS carries out flood insurance studies of various types under the National Flood Insurance Program (Pub. L. 90–448, 82 Statute, 574 (42 U.S.C. 4012)), as amended. In this activity, SCS performs detailed technical studies to determine the extent and frequency of flooding. The flood insurance program is administered by FEMA. SCS is reimbursed by that agency for actual costs incurred in carrying out the studies. Local entities desiring flood insurance coverage should contact the responsible State agency or FEMA and apply in accordance with procedures of that agency.

Peter C. Myers,
Chief, Soil Conservation Service.
April 19, 1983.

BILLING CODE 3410-16-M

Animal and Plant Health Inspection Service

9 CFR Part 55

[Docket No. 83–020]

Cattle Destroyed Because of Anaplasmosis

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: This document removes the regulations in 9 CFR Part 55, concerning the payment of indemnities for cattle destroyed because of anaplasmosis in Hawaii. Anaplasmosis has been eradicated in Hawaii. Accordingly, these regulations are unnecessary.

EFFECTIVE DATE: April 26, 1983.

FOR FURTHER INFORMATION CONTACT: Dr. J. R. Pitcher, Staff Veterinarian, Special Diseases Staff, VS, APHIS, USDA, Room 824, 6505 Belcrest Road, Hyattsville, MD 20782, 301–436–8231.

SUPPLEMENTARY INFORMATION:

Background

On November 24, 1982, a document was published in the **Federal Register** at 47 FR 53026 proposing to remove 9 CFR Part 55. Comments on this rule were solicited for 60 days after publication of the proposal. No comments were received in response to the proposal and the factual situation which was set forth in the proposal on November 24, 1982, still provides a basis for this amendment.

Executive Order 12291

This final rule has been reviewed in conformance with Executive Order 12291 and has been classified as not a "major rule." Based on information compiled by the Department, it has been determined that this action will not have any annual effect on the economy; will not cause any increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; and will not have any adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-

based enterprises in domestic or export markets. This is because anaplasmosis has been eradicated in Hawaii and the State is effectively protected against a reinfection. Therefore, there is no reason to pay indemnity in Hawaii for cattle infected with or exposed to this disease.

Certification Under the Regulatory Flexibility Act

Under the circumstances explained above, Mr. James O. Lee, Jr., Acting Administrator of the Animal and Plant Health Inspection Service, has determined that this action will not have a significant economic impact on a substantial number of small entities.

PART 55—[RESERVED]

Accordingly, Title 9, Code of Federal Regulations, is amended by removing Part 55, and Part 55 is reserved.

(Sec. 2, 32 Stat. 792, as amended, sec. 3, 23 Stat. 32, as amended, sec. 11, 58 Stat. 734, as amended; 21 U.S.C. 111, 114, 114a, 7 CFR 2.17, 2.51, and 371.2(d))

Done at Washington, D.C., this 20th day of April 1983.

William E. Ketter,

Acting Deputy Administrator, Veterinary Services.

BILLING CODE 3410-34-M

Food Safety and Inspection Service

9 CFR Parts 303 and 381

[Docket No. 83-002N]

Exemptions for Retail Stores; Adjustment of Dollar Limitations

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Rule related notice.

SUMMARY: This notice announces that the dollar limitation currently in effect for annual sales of meat products by retail stores, exempt from routine Federal inspection, to nonhousehold consumers, such as hotels, restaurants and similar institutions, has been adjusted to conform with price increases for meat products as indicated by the Consumer Price Index. The adjustment raises the dollar limitation for meat products from $28,800 to $30,200. The dollar limitation for poultry products remains at $23,100 per calendar year.

EFFECTIVE DATE: April 26, 1983.

FOR FURTHER INFORMATION CONTACT: Mr. Paul Ragan, Director, Regulations Office, Policy and Program Planning, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, DC 20250, (202) 447-3317.

SUPPLEMENTARY INFORMATION:

Background

Federal inspection of meat and poultry products prepared for sale and distribution in commerce and in States designated under section 301(c) of the Federal Meat Inspection Act (21 U.S.C. 661(c)) and section 5(c) of the Poultry Products Inspection Act (21 U.S.C. 454(c)) is required by law and administered by the Food Safety and Inspection Service (FSIS). However, section 301(c)(2) of the Federal Meat Inspection Act (21 U.S.C. 661(c)(2)) and section 5(c)(2) of the Poultry Products Inspection Act (21 U.S.C 454 (c)(2)) state that the general requirement of routine Federal inspection " * * * shall not apply to operations of types traditionally and usually conducted at retail stores * * * when conducted at any retail store * * * for sale in normal retail quantities * * * to consumers * * *"

FSIS has promulgated regulations (9 CFR 303.1(d) and 381.10(d)) defining retail stores which qualify for exemption from routine Federal inspection under these Acts. Whether or not FSIS deems an establishment to be an exempt retail establishment depends, in part, upon the level of its trade with nonhousehold consumers, such as hotels, restaurants and similar institutions. Accordingly, the Federal meat and poultry products inspection regulations state in terms of dollars the maximum amount of meat and poultry products which may be sold to nonhousehold consumers if the establishment is to remain an exempt retail establishment. For meat products, the maximum amount is currently $28,800 per calendar year; for poultry products, the amount is $23,100 per calendar year.

The Federal meat and poultry products inspection regulations (9 CFR 303.1(d)(2)(iii)(*b*) and 381.10(d)(2)(iii)(*b*)) further provide that the dollar limitations on the sales of meat and poultry products by exempt retail stores to nonhousehold consumers will be automatically adjusted during the first quarter of each calendar year, whenever the Consumer Price Index, published by the Bureau of Labor Statistics, Department of Labor, indicates a change in the price of the same volume of product exceeding $500, upward or downward. The regulations also require that notice of the adjusted dollar limitation will be published in the **Federal Register.**

The Consumer Price Index for 1982 has been published by the Bureau of Labor Statistics and, for that year, indicates a price increase in meat products of 4.8 percent and a price decrease in poultry products of 1.8 percent. As a percentage of the existing dollar limitations, a change in excess of $500 is indicated by meat products only. When rounded off to the nearest $100, a price increase for meat products amounts to $1,400 and a price decrease for poultry products amounts to $400.

Accordingly, pursuant to the regulations, FSIS has automatically raised the dollar limitation of permitted sales of meat products to nonhousehold consumers by establishments desiring status as retail establishments exempt from Federal inspection requirements. The adjustment raises the dollar limitation on meat products specified in § 303.1(d)(2)(iii)(*b*) from $28,800 to $30,200. Since a change in excess of $500 for poultry products has not occurred, the dollar limitation for poultry products remains at $23,100.

Done at Washington, DC, on April 20, 1983.

Donald L. Houston,

Administrator, Food Safety and Inspection Service.

BILLING CODE 3410-DM-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Part 271

[Docket No. RM79-76-146 (Nebraska—1 Addition); Order No. 294]

High-Cost Gas Produced From Tight Formations

Issued: April 21, 1983.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determines that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.203). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This final order adopts the recommendation of the State of Nebraska that an additional area of the Niobrara

Formation be designated as a tight formation under § 271.703(d).

EFFECTIVE DATE: This rule is effective May 23, 1983.

FOR FURTHER INFORMATION CONTACT: Craig Ellis, (202) 357–8511, or Victor Zabel, (202) 357–8616.

SUPPLEMENTARY INFORMATION: The Federal Energy Regulatory Commission (Commission) hereby amends § 271.703(d) of its regulations to include an additional area of the Niobrara Formation, underlying Lincoln County, Nebraska as a designated tight formation eligible for incentive pricing under § 271.703. The amendment was proposed in a Notice of Proposed Rulemaking by the Director, Office of Pipeline and Producer Regulation, issued November 1, 1982, (47 FR 53032, November 24, 1982),[1] based on a recommendation by the State of Nebraska Oil and Gas Conservation Commission (Nebraska) in accordance with § 271.703, that the additional area of the Niobrara Formation be designated as a tight formation.[2]

Evidence submitted by Nebraska supports the assertion that the additional area of the Niobrara Formation meets the guidelines contained in § 271.703(c)(2). The Commission adopts the Nebraska recommendation.

This amendment shall become effective May 23, 1983.

List of Subjects in 18 CFR Part 271

Natural gas, Incentive price, Tight formations.

(Department of Energy Organization Act, 42 U.S.C. 7101 *et seq.*; Natural Gas Policy Act of 1978, 15 U.S.C. 3301–3432; Administrative Procedure Act, 5 U.S.C. § 553)

In consideration of the foregoing, Part 271 of Subchapter H, Chapter I, *Code of Federal Regulations*, is amended as set forth below.

By the Commission.

Kenneth F. Plumb,

Secretary.

PART 271—[AMENDED]

Section 271.703 is amended by revising paragraph (d)(71) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) *Designated tight formations.* * * *

* * * * *

(71) *Niobrara Formation in Nebraska.* RM79–76 (Nebraska—1).

(i) *Delineation of formation.* The Niobrara Formation is found in all of Chase, Deuel, Dundy, Hitchcock, Keith, Lincoln and Perkins Counties, the western half of Frontier County (Townships 5 through 8 North, Ranges 27 through 30 West), the eastern half of Cheyenne County (Townships 12 through 17 North, Ranges 46 through 49 West), and the southern most third of Garden County (Townships 15 through 19 North, Ranges 41 through 46 West), Nebraska.

(ii) *Depth.* The Niobrara Formation underlies the Pierre Shale Formation and overlies the Fort Hays Limestone Formation. The depth to the top of the Niobrara Formation ranges from 900 to 4,000 feet and averages 2,450 feet.

[FR Doc. 83–11082 Filed 4–25–83; 8:45 am]

BILLING CODE 6717–01–M

[1] Comments were invited on the proposed rule and one comment supporting the recommendation was received. No party requested a public hearing and no hearing was held.

[2] This order also corrects an incorrect depth delineation in the Nebraska—1 tight formation designation, Docket No. RM79–76 (Nebraska—1), Order No. 214 (47 FR 10203, March 10, 1982).

18 CFR Part 271

High-Cost Gas Produced From Tight Formations; Final Rule

[Docket Nos. RM79–76–150 (Texas—22 Addition) and RM79–76–157 (Texas—22 Addition II); Order No. 295]

Issued April 21, 1983

AGENCY: Federal Energy Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determined that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This final order adopts the recommendation of the Railroad Commission of Texas that an additional area of both the Detrital and Strawn-Detrital Formations be designated as a tight formation under § 271.703(d).

EFFECTIVE DATE: This rule is effective May 23, 1983.

FOR FURTHER INFORMATION CONTACT: Steven Ross, (202) 357–8571, or Walter Lawson, (202) 357–8556.

SUPPLEMENTARY INFORMATION: The Commission hereby amends § 271.703(d) of its regulations to include an additional area of both the Detrital and Strawn-Detrital Formations, underlying land in Crockett County, Texas as a designated tight formation eligible for incentive pricing under § 271.703. The amendment was proposed in two Notices of Proposed Rulemaking by the Director, Office of Pipeline and Producer Regulation. The Notice concerning Texas-22 Addition was issued December 2, 1982 (47 FR 55246, December 8, 1982), and the Notice concerning Texas-22 Addition II was issued December 23, 1982 (47 FR 57953, December 28, 1982) [1] based on recommendations by the Railroad Commission of Texas (Texas), in accordance with § 271.703, that an additional area of both the Detrital and Strawn-Detrital Formations be designated as a tight formation.

Evidence submitted by Texas supports the assertion that an additional area of both the Detrital and Strawn-Detrital Formations meets the guidelines contained in § 271.703(c)(2). The Commission adopts both Texas recommendations.

This amendment shall become effective May 23, 1983.

List of Subjects in 18 CFR Part 271

Natural gas, Incentive price, Tight formations.

(Department of Energy Organization Act, 42 U.S.C. 7101 *et seq.*; Natural Gas Policy Act of 1978, 15 U.S.C. 3301–3432; Administrative Procedure Act, 5 U.S.C. 553)

In consideration of the foregoing, Part 271 of Subchapter H, Chapter I, *Code of Federal Regulations*, is amended as set forth below.

By the Commission.

Kenneth F. Plumb,

Secretary.

PART 271—[AMENDED]

Section 271.703 is amended by revising paragraph (d)(106) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) *Designated tight formations.*

* * * * *

[1] Comments were invited on both proposed rules, and one comment supporting each of the recommendations was received. No party requested a public hearing and no hearing was held.

(106) Strawn-Detrital Formation in Texas. RM79–76 (Texas–22).

(i) *University Block 31 (Strawn-Detrital) Field.*

(A) *Delineation of formation.* The Strawn-Detrital Formation is found in Crockett County, Texas, approximately 8 miles west of Ozona. The designated area includes all of Block 31 of University Lands Survey; the northern half of section 18, Block 32 of University Lands Survey; Sections 1, 2, 14 through 18, Block ST of G.C & S.F. RR Co. Survey; the southern 264.93 acres of section 30, Block UV of G.C & S.F. RR Co. Survey; Section 2, Block ST–2 of G.C. & S.F. RR Co. Survey; the northern half of Hampton Survey; Section 1001 of W.G. Hall Survey; Section 1002 of J.M. Jean Survey; and Section 1003 of M.C. Lopez Survey.

(B) *Depth.* The top of the Strawn-Detrital Formation varies from 8,000 feet in the north, to 8,700 feet in the south, and approximate thickness ranges from 100 feet in the north to 250 in the south.

(ii) *Perner Ranch Area.*—(A) *Delineation of formation.* The Detrital Formation in the Perner Ranch Area is located approximately 23 miles west-southwest of the city of Ozona, Crockett County, Texas, Railroad Commission District 7C. The area includes the following sections: L & SV Survey, Sections 199 and 200, and T.C. RR Survey, Sections 43 and 45.

(B) *Depth.* The depth to the top of the Detrital Formation varies from −6,000 feet to the northwest part to the area to −6,700 feet in the southeast. The approximate thickness of the formation is 110 feet.

(iii) *University Block 31 (Strawn-Detrital) and Howards Creek (Penn) Fields.*—(A) *Delineation of formation.* The Strawn-Detrital Formation in the area of the University Block 31 and Howards Creek Fields is located in Crockett County, Texas, Railroad Commission District 7C. The designated area consists of Sections, 19, 20, S ½ of 21, 29 30, 31 and 32, University Lands Survey, Block 30; Sections 1, 2, 3, S ½ of 4, 5, 6, 7, 8, S ½ of 9, 11, 12, 13 and 14, University Lands Survey, Block 32; Sections 29, 31, 50, 51, north 320 acres of 30, SE ¼ 53, S ½ of 32, SW ¼ of 12, Block UV, G.C. & S.F.R.R. Co. Survey; and Sections 12, 17, 18, 19 and 20, University Lands Survey, Block 33.

(B) *Depth.* Type logs within the designated area show the top of the Strawn-Detrital Formation at approximate depths of 7,924 feet in the north to 8,296 feet in the south, and the base is located at approximately 7,980 feet in the north to 8,668 feet in the south.

[Docket No. RM79–76–131 (Oklahoma—4); Order No. 290]

High-Cost Gas Produced From Tight Formations

Issued: April 21, 1983.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Federal Regulatory Energy Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determines that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This final order adopts the recommendation of the Oklahoma Corporation Commission that the Atoka Formation located in Washita County, Oklahoma, be designated as a tight formation under § 271.703(d).

EFFECTIVE DATE: This rule is effective May 23, 1983.

FOR FURTHER INFORMATION CONTACT: Jane M. Oliver, (202) 357–8316 or Webster Gray, (202) 357–8731.

SUPPLEMENTARY INFORMATION: The Commission hereby amends § 271.703 of its regulations to include the Atoka Formation located in Washita County, Oklahoma, as a designated tight formation eligible for incentive pricing under § 271.703. The amendment was proposed in a Notice of Proposed Rulemaking by the Director, Office of Pipeline and Producer Regulation, on September 3, 1982 (47 FR 39862, September 10, 1982),[1] based on a recommendation by the Oklahoma Corporation Commission (OCC) in accordance with § 271.703(c)(2)(ii) that the Atoka Formation be designated as a tight formation.

Evidence submitted by OCC supports the assertion that the Atoka Formation meets the guidelines contained in § 271.703(c)(2). The Commission hereby adopts the OCC recommendation.

The amendment shall become effective May 23, 1983.

(Department of Energy Organization Act, 42 U.S.C. 7101 *et seq.*; Natural Gas Policy Act of 1978, 15 U.S.C. 3301–3432; Administrative Procedure Act, 5 U.S.C. 553)

In consideration of the foregoing, Part 271 of Subchapter H, Chapter I, *Code of Federal Regulations*, is amended as set forth below.

By the Commission.

Kenneth F. Plumb,

Secretary.

PART 271—[AMENDED]

Section 271.703 is amended by adding paragraph (d)(121) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) *Designated tight formations.* * * *

* * * * *

(121) *Atoka Formation in Oklahoma.* RM79–76–131 (Oklahoma—4).—(i) *Delineation of formation.* The Atoka Formation of Pennsylvanian age is located in Washita County, Oklahoma, in Sections 6 and 7, Township 9 North, Range 19 West and Sections 1, 2, 3, 10, 11, and 12, Township 9 North, Range 20 West. It is bounded above by the base of the Pennsylvanian Des Moinesian Series, called "Cherokee Group" by drillers and below by the top of the Pennsylvanian Morrowan Series, called "Morrow Shale" by drillers.

(ii) *Depth.* The depth to the top of the designated interval varies from approximately 10,850 to 12,150 feet below mean sea level. Its thickness ranges from 2,200 to 2,800 feet.

[Docket No. RM79–76–155 (Utah—7); Order No. 296]

High-Cost Gas Produced From Tight Formations

Issued: April 21, 1983.

[1] Comments on the proposed rule were invited and no comments were received. No party requested a public hearing and no hearing was held. Agrico Chemical Company (Agrico) intervened at the state level and protested the designation of the Atoka Formation as a tight formation eligible for incentive pricing. Agrico did not file any comments with the Commission.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determined that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This final order adopts the recommendation of the State of Utah Board of Oil, Gas and Mining and the U.S. Geological Survey that the Mancos "B" Formation be designated as a tight formation under § 271.703(d).

EFFECTIVE DATE: This rule is effective May 23, 1983.

FOR FURTHER INFORMATION CONTACT: Jane M. Oliver, (202) 357–8316 or Vic Zabel, (202) 357–8616.

SUPPLEMENTARY INFORMATION:

The Commission hereby amends § 271.703(d) of its regulations to include the Mancos "B" Formation is Carbon County, Utah as a designated tight formation eligible for incentive pricing under § 271.703. The amendment was proposed in a Notice of Proposed Rulemaking by the Director, Office of Pipeline and Producer Regulation, issued December 16, 1982 (47 FR 57060, December 22, 1982) [1] based on a recommendation by the State of Utah Board of Oil, Gas and Mining (Utah) and the U.S. Department of Interior, Bureau of Land Management (BLM) (formerly the U.S. Geological Survey) in accordance with § 271.703, that the Mancos "B" Formation underlying certain lands in Carbon County, Utah be designated as a tight formation.

Evidence submitted by Utah and the BLM supports the assertion that the Mancos "B" Formation meets the guidelines contained in § 271.703(c)(2). The Commission adopts the Utah-BLM recommendation.

[1] Comments were invited on the proposed rule and no comments were received. No party requested a hearing and no hearing was held.

This amendment shall become effective May 23, 1983.

[Docket No. RM80–53]

Authority Delegation; Office of Pipeline and Producer Regulation, Director

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Order of the Director, OPPR.

SUMMARY: Pursuant to the authority delegated by 18 CFR 357.307(1), the Director of the Office of Pipeline and Producer Regulation revises and publishes the maximum lawful prices prescribed under Title I of the Natural Gas Policy Act (NGPA) for the months of May, June and July, 1983. Section 101(b)(6) of the NGPA requires that the Commission compute and publish the maximum lawful prices before the beginning of each month for which the figures apply.

EFFECTIVE DATE: May 1, 1983.

FOR FURTHER INFORMATION CONTACT: Kenneth A. Williams, Director, OPPR, (202) 357–8500.

SUPPLEMENTARY INFORMATION:

In the matter of: Publication of Prescribed Maximum Lawful Prices Under the Natural Gas Policy Act of 1978, Docket No. RM80–53.

Order of the Director, OPPR

Issued: April 21, 1983.

Section 101(b)((6) of the Natural Gas Policy Act of 1978 (NGPA) requires that the Commission compute and make available maximum lawful prices and inflation adjustments prescribed in Title I of the NGPA before the beginning of any month for which such figures apply.

Pursuant to this requirement and § 375.307(1) of the Commission's regulations, which delegates the publication of such prices and inflation adjustments to the Director of the Office of Pipeline and Producer Regulation, the maximum lawful prices for the months of May, June and July, 1983 are issued by the publication of the price tables for the applicable quarter. Pricing tables are found in § 271.101(a) of the Commission's regulations. Table I of § 271.101(a) specifies the maximum lawful prices for gas subject to NGPA sections 102, 103, 106(b)(1)(B), 107(c)(5), 108 and 109. Table II of § 271.101(a) specifies the maximum lawful prices for sections 104 and 106(a) of the NGPA. Table III of § 271.102(c) contains the inflation adjustment factors. The maximum lawful prices and the inflation adjustment factors for the periods prior to May 1983 are found in the tables in §§ 271.101 and 271.102.

List of Subjects in 18 CFR Part 271

Natural gas.

Kenneth A. Williams,

Director, Office of Pipeline and Producer Regulation.

PART 271—[AMENDED]

§ 271.101 [Amended]

1. Section 271.101(a) is amended by inserting the maximum lawful prices for May, June and July, 1983, in Tables I and II.

§ 271.102 [Amended]

2. Section 271.102(c) is amended by inserting the inflation adjustment for the months of May, June and July, 1983 in Table III.

TABLE I.—NATURAL GAS CEILING PRICES

(Other than NGPA §§ 104 and 106(a))

Maximum lawful price per MMBtu for deliveries in:

Subpart of part 271	NGPA section	Category of gas	May 1983	June 1983	July 1983
B	102	New natural gas, certain OCS gas	$3.394	3.421	3.448
C	103	New, onshore production wells	2.765	2.778	2.792
F	106(b)(1)(B)	Alternative maximum lawful price for certain intrastate rollover gas.	1.579	1.587	1.595
G	107(c)(5)	Gas produced from tight formations	5.530	5.556	5.584
H	108	Stripper gas	3.636	3.665	3.694
I	109	Not otherwise covered	2.289	2.300	2.311

TABLE II.—NATURAL GAS CEILING PRICES: NGPA §§ 104 AND 106(a) (SUBPART D, PART 271)

Maximum lawful price per MMBtu for deliveries made in:

Category of natural gas	Type of sale or contract	May 1983	June 1983	July 1983
Post-1974 gas	All producers	$2.289	2.300	2.311
1973-1974 Biennium gas	Small producer	1.938	1.947	1.956
	Large producer	1.481	1.488	1.495
Interstate Rollover gas	All producers	.850	.854	.858
Replacement contract gas or recompletion gas.	Small producer	1.089	1.094	1.099
	Large producer	.832	.836	.840
Flowing gas	Small producer	.548	.551	.554
	Large producer	.465	.467	.469
Certain Permian Basin gas	Small producer	.649	.652	.655
	Large producer	.571	.574	.577
Certain Rocky Mountain gas	Small producer	.649	.652	.655
	Large producer	.548	.551	.554
Certain Appalachian Basin gas	North subarea contracts dated after 10-7-69.	.517	.520	.523
	Other contracts	.483	.485	.487
Minimum rate gas [1]	All producers	.284	.285	.286

[1] Prices for minimum rate gas are expressed in terms of dollars per Mcf, rather than MMBtu.

TABLE III.—INFLATION ADJUSTMENT

Month of delivery 1983	Price factor [1]
May	1.00487
June	1.00487
July	1.00487

[1] Factor by which price in preceding month is multiplied.

[Docket No. RM79-76-144 (Texas—25); Order No. 292]

High-Cost Gas Produced From Tight Formations; Final Rule

Issued: April 21, 1983.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Final rule

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determined that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This final order adopts the recommendation of the Railroad Commission of Texas that the Monte Christo, South (10,500') Formation be designated as a tight formation under § 271.703(d).

EFFECTIVE DATE: This rule is effective May 23, 1983.

FOR FURTHER INFORMATION CONTACT: Steven Ross, (202) 357-8571, or Walter Lawson, (202) 357-8556.

SUPPLEMENTARY INFORMATION:

The Commission hereby amends § 271.703(d) of its regulations to include the Monte Christo, South (10,500') Formation, underlying land in Hidalgo County, Texas, as a designated tight formation eligible for incentive pricing under § 271.703. The amendment was proposed in a Notice of Proposed Rulemaking by the Director, Office of Pipeline and Producer Regulation, issued November 1, 1982, (47 FR 50,300 November 5, 1982)[1] based on a recommendation by the Railroad Commission of Texas (Texas) in accordance with § 271.703, that the Monte Christo, South (10,500') Formation be designated as a tight formation.

Evidence submitted by Texas supports the assertion that the Monte Christo, South (10,500') Formation meets the guidelines contained in § 271.703(c)(2). The Commission adopts the Texas recommendation.

This amendment shall become effective May 23, 1983.

In consideration of the foregoing, Part 271 of Subchapter H, Chapter I, Code of Federal Regulations, is amended as set forth below.

By the Commission.

Kenneth F. Plumb,

Secretary.

PART 271—[AMENDED]

Section 271.703 is amended by adding paragraph (d)(125) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) *Designated tight formations.*

* * * * *

(125) *Monte Christo, South (10,500') Formation in Texas.* RM79-76 (Texas—25).

(i) *Delineation of formation.* The Monte Christo, South (10,500') Formation is located in the southern portion of Hidalgo County, Texas, Railroad Commission, District 4, and includes the following surveys: Macedonia Jr. Vela No. 214, A-623; Tex.—Mex. R.R. No. 215, A-130; W. T. Bomar No. 218, A-626; Jas. L. Hudson, A-649; Walter A. Hoffhein, A-797; W. H. Kozel, A-798; Tex.—Mex. R.R. No. 217, A-131; the northernmost 500 acres of both the Nicholas Zamora Porcion No. 48, A-76 and the Torebio Zamora Porcion No. 49, A-78; and the southernmost 900 acres of the northern 1,800 acres of the Francisco Cantu Porcion No. 80, A-570.

(ii) *Depth.* The depth to the top of the Monte Christo, South (10,500') Formation varies from 10,200 feet subsea to 10,600

[1] Comments were invited on the proposed rule and one comment supporting the recommendation was received. No party requested a public hearing and no hearing was held.

feet subsea. The maximum thickness of the formation is approximately 900 feet.

[Docket No. RM79-76-156 (Texas—7 Addition II); Order No. 297]

High-Cost Gas Produced From Tight Formations; Final Rule

Issued: April 21, 1983.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Final rule.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determined that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This final order adopts the recommendation of the Railroad Commission of Texas that an additional area of the Lower Wilcox (Midcox) Formation be designated as a tight formation under § 271.703(d).

EFFECTIVE DATE: This rule is effective May 23, 1983.

FOR FURTHER INFORMATION CONTACT: Steven Ross, (202) 357-8571 or Walter Lawson (202) 357-8556.

SUPPLEMENTARY INFORMATION:

The Commission hereby amends § 271.703(d) of its regulations to include an additional area of the Lower Wilcox (Midcox) Formation underlying land in Colorado County, Texas as a designated tight formation eligible for incentive pricing under § 271.703. The amendment was proposed in a Notice of Proposed Rulemaking by the Director, Office of Pipeline and Producer Regulation, issued December 30, 1982 (48 FR 424, January 5, 1983) [1] based on a recommendation by the Railroad Commission of Texas in accordance with § 271.703, that an additional area of the Lower Wilcox (Midcox) Formation be designated as a tight formation.

Evidence submitted by Texas supports the assertion that the additional area of the Lower Wilcox (Midcox) Formation meets the guidelines contained in § 271.703(c)(2). The Commission adopts the Texas recommendation.

This amendment shall become effective May 23, 1983.

List of Subjects in 18 CFR Part 271

Natural gas, Incentive price, Tight formations.

(Department of Energy Organization Act, 42 U.S.C. 7101 *et seq.;* Natural Gas Policy Act of 1978, 15 U.S.C. 3301-3432; Administrative Procedure Act, 5 U.S.C. 553)

[1] Comments were invited by the Commission, and no comments or requests for a public hearing were received by the Commission in this docket.

[Docket RM79–14]

OPPR of Publication of Incremental Pricing Acquisition Cost Thresholds Under Title II of the NGPA

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Order prescribing incremental pricing thresholds.

SUMMARY: The Director of the Office of Pipeline and Producer Regulation is issuing the incremental pricing acquisition cost thresholds prescribed by Title II of the Natural Gas Policy Act and 18 CFR 282.304. The Act requires the Commission to compute and publish the threshold prices before the beginning of each month for which the figures apply. Any cost of natural gas above the applicable threshold is considered to be an incremental gas cost subject to incremental pricing surcharging.

EFFECTIVE DATE: May 1, 1983.

FOR FURTHER INFORMATION CONTACT: Kenneth A. Williams, Federal Energy Regulatory Commission, 825 N. Capitol Street, NE., Washington, D.C. 20426, (202) 357–8500.

SUPPLEMENTARY INFORMATION:

In the matter of: Publication of Prescribed Incremental Pricing Acquisition Cost Threshold of the NGPA of 1978 Docket No. RM79–14.

Order of the Director, OPPR

Issued: April 21, 1983.

Section 203 of the NGPA requires that the Commission compute and make available incremental pricing acquisition cost threshold prices prescribed in Title II before the beginning of any month for which such figures apply.

Pursuant to that mandate and pursuant to § 375.307(1) of the Commission's regulations, delegating the publication of such prices to the Director of the Office of Pipeline and Producer Regulation, the incremental pricing acquisition cost threshold prices for the month of May 1983 is issued by the publication of a price table for the applicable month.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 145

[Docket No. 79N-0231]

Canned Berries; Standard of Identity; Confirmation of Effective Date

AGENCY: Food and Drug Administration.

ACTION: Final rule; confirmation of effective date.

SUMMARY: The Food and Drug Administration (FDA) is confirming the effective date for compliance with the provision of the amended standard of identity for canned berries to provide for the use of safe and suitable nutritive carbohydrate sweeteners as optional ingredients.

DATES: Effective July 1, 1985, for all affected products initially introduced or initially delivered for introduction into interstate commerce on or after this date. Voluntary compliance may have begun March 22, 1983.

FOR FURTHER INFORMATION CONTACT: F. Leo Kauffman, Bureau of Foods (HFF-214), Food and Drug Administration, 200 C St. SW., Washington, DC 20204; 202-245-1164.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of January 21, 1983 (48 FR 2747), FDA issued a final rule amending the standard of identity for canned berries to provide for the use of safe and suitable nutritive carbohydrate sweeteners as optional ingredients (21 CFR 145.120(a)(3)). Any person who would be adversely affected by the regulation could have, at any time on or before February 22, 1983, filed written objections to the final regulation and requested a public hearing on the specific provisions to which there were objections. No objections or requests for a hearing were received.

List of Subjects in 21 CFR Part 145

Canned fruit, Food standards, Fruits.

Therefore, under the Federal Food, Drug, and Cosmetic Act (Secs. 401, 701(e), 52 Stat. 1046 as amended, 70 Stat. 919 as amended (21 U.S.C. 341, 371(e))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), notice is given that the effective date for compliance with the standard of identity for canned berries (21 CFR 145.120) as amended in the **Federal Register** of January 21, 1983 (48 FR 2747) is July 1, 1985. Voluntary compliance may have begun March 22, 1983.

Dated: April 15, 1983.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

[FR Doc. 83-10840 Filed 4-25-83; 8:45 am]

BILLING CODE 4160-01-M

21 CFR Part 172

[Docket No. 80F-0031]

Food Additives Permitted for Direct Addition to Food for Human Consumption; Anoxomer

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the food additive regulations to provide for the safe use of an antioxidant for use in food for human consumption.

DATES: Effective April 26, 1983; objections by May 26, 1983. The Director of the Federal Register approves the incorporation by reference of certain publications in 21 CFR 172.105 effective April 26, 1983.

ADDRESS: Written objections to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Rudolph Harris, Bureau of Foods (HFF-334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204; 202-472-5690.

SUPPLEMENTARY INFORMATION: In a notice published in the **Federal Register** of March 3, 1981 (46 FR 14970), FDA announced that a petition (FAP OA3517) had been filed by Dynapol, 1454 Page Mill Rd., Palo Alto, CA 94304, proposing that a new section be added under Part 172 (21 CFR Part 172), Subpart B—Food Preservatives, to provide for the safe use of an antioxidant, 1,4-benzenediol, 2-(1,1-dimethylethyl)polymer with diethenylbenzene, 4-(1,1-dimethylethyl)phenol, 4-methoxyphenol, 4,4'-(1-methylethylidene)bis(phenol) and 4-methylphenol (CAS Reg. No. 60837-57-2), for use in food for human consumption. The antioxidant is also called anoxomer or *tert*-butylhydroquinone polymer with divinylbenzene, *p-tert*-butylphenol, *p*-methoxyphenol, 4,4'-isopropylidenediphenol, and *p*-cresol.

FDA has evaluated the data in the petition and other relevant material and concludes that the proposed food additive use is safe and that the regulations should be amended as set forth below. The agency is listing the antioxidant in the regulation under the generic name of the additive, anoxomer.

In accordance with § 171.1(h) (21 CFR 171.1(h)), the petition and the documents that FDA considered and relied upon in reaching its decision to approve the petition are available for inspection at the Bureau of Foods (address above) by appointment with the information contact person listed above. As provided in § 171.1(h)(2), the agency will delete from the documents any materials that are not available for public disclosure before making the documents available for inspection.

The agency has carefully considered the potential environmental effects of this action and has concluded that the action will not have a significant impact on the human environment and that an environmental impact statement is not required. The agency's finding of no significant impact and the evidence supporting that finding may be seen in the Dockets Management Branch (address above), between 9 a.m. and 4 p.m., Monday through Friday.

List of Subjects in 21 CFR Part 172

Food additives, Food preservatives, Incorporation by reference, Spices and flavorings.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 72 Stat. 1784-1788 as amended (21 U.S.C. 321(s), 348)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), Part 172 is amended in Subpart B by adding new § 172.105, to read as follows:

PART 172—FOOD ADDITIVES PERMITTED FOR DIRECT ADDITION TO FOOD FOR HUMAN CONSUMPTION

§ 172.105 Anoxomer.

Anoxomer as identified in this section may be safely used in accordance with the following conditions:

(a) Anoxomer is 1,4-benzenediol, 2-(1,1-dimethylethyl)-polymer with diethenylbenzene, 4-(1,1-

dimethylethyl)phenol, 4-methoxyphenol, 4,4'-(1-methylethylidene)bis(phenol) and 4-methylphenol (CAS Reg. No. 60837-57-2) prepared by condensation polymerization of divinylbenzene (*m*- and *p*-) with *tert*-butylhydroquinone, *tert*-butylphenol, hydroxyanisole, *p*-cresol and 4,4'-isopropylidenediphenol.

(b) The polymeric antioxidant meets the following specifications:

(1) Polymer, not less than 98.0 percent as determined by an ultraviolet method entitled "Ultraviolet Assay, "1982, which is incorporated by reference. Copies are available from the Division of Food and Color Additives, Bureau of Foods (HFF-330), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, or available for inspection at the Office of the Federal Register, 1100 L St. NW., Washington, DC 20408.

(2) Molecular weight: Total monomers, dimers and trimers below 500 not more than 1 percent as determined by a method entitled "Low Molecular Weight Anoxomer Analysis," 1982, which is incorporated by reference. Copies are available from the Division of Food and Color Additives, Bureau of Foods (HFF-330), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, or available for inspection at the Office of the Federal Register, 1100 L St. NW., Washington, DC 20408.

(3) Phenol content: Not less than 3.2 milliequivalent/gram and not more than 3.8 milliequivalent/gram as determined by a method entitled "Total Phenols," 1982, which is incorporated by reference. Copies are available from the Division of Food and Color Additives, Bureau of Foods (HFF-330), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, or available for inspection at the Office of the Federal Register, 1100 L St. NW., Washington, DC 20408.

(4) Heavy metals as lead (as Pb), not more than 10 parts per million. Arsenic (as As), not more than 3 parts per million. Mercury (as Hg), not more than 1 part per million.

(c) Anoxomer may be safely used as an antioxidant in food at level of not more than 5,000 parts per million based on fat and oil content of the food.

Any person who will be adversely affected by the foregoing regulation may at any time on or before May 26, 1983, submit to the Dockets Management Branch (address above) written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held; failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Three copies of all documents shall be submitted and shall be identified with the docket number found in brackets in the heading of this regulation. Received objections may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Effective date. This regulation shall become effective April 26, 1983.

(Secs. 201(s), 409, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348))

Dated: April 22, 1983.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

21 CFR Parts 430, 436, and 444

[Docket No. 83N-0074]

Antibiotic Drugs; Netilmicin Sulfate Injection

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the antibiotic drug regulations to provide for the inclusion of accepted standards for a new antibiotic drug, netilmicin sulfate injection. The manufacturer has supplied sufficient data and information to establish its safety and efficacy.

DATES: Effective April 26, 1983; comments, notice of participation, and request for hearing by May 26, 1983; data, information, and analyses to justify a hearing by June 27, 1983.

ADDRESS: Written comments to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Joan Eckert, National Center for Drugs and Biologics (HFN-140), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-4290.

SUPPLEMENTARY INFORMATION: FDA has evaluated data submitted in accordance with regulations promulgated under section 507 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 357), as amended, with respect to a request for approval of a new antibiotic drug, netilmicin sufate injection. The agency has concluded that the data supplied by the manufacturer concerning this antibiotic drug are adequate to establish its safety and efficacy when used as directed in the labeling and that the regulations should be amended in Parts 430, 436, and 444 (21 CFR Parts 430, 436, and 444) to provide for the inclusion of accepted standards for the product.

The agency has determined pursuant to 21 CFR 25.24(b)(22) (proposed December 11, 1979; 44 FR 71742) that this action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

List of Subjects

21 CFR Part 430

Administrative practice and procedures, Antibiotics.

21 CFR Part 436

Antibiotics.

21 CFR Part 444

Antibiotics, Oligosaccharide.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 507, 701 (f) and (g), 52 Stat. 1055–1056 as amended, 59 Stat. 463 as amended (21 U.S.C. 357, 371 (f) and (g))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), Parts 430, 436, and 444 are amended as follows:

PART 430—ANTIBIOTIC DRUGS; GENERAL

1. Part 430 is amended:

a. In § 430.4 by adding new paragraph (a)(50), to read as follows:

§ 430.4 Definitions of antibiotic substances.

(a) * * *

(50) *Netilmicin.* Netilmicin is a semi-synthetic antibiotic of the aminoglycoside group derived from sisomicin, and each of the same substances produced by any other means is a kind of netilmicin. It is D-Streptamine, 4-*O*-[3-amino-6-(aminomethyl)-3,4-dihydro-2*H*-pyran-2-yl]-2-deoxy-6-*O*-[3-deoxy-4-*C*-methyl-3-(methylamino)-*β*-L-arabinopyranosyl]-*N*^{1}-ethyl-, (2*S-cis*)-.

b. In § 430.5 by adding new paragraphs (a)(77) and (b)(77), to read as follows:

§ 430.5 Definitions of master and working standards.

(a) * * *

(77) *Netilmicin.* The term "netilmicin master standard" means a specific lot of netilmicin that is designated by the Commissioner as the standard of comparison in determining the potency of the netilmicin working standard.

(b) * * *

(77) *Netilmicin.* The term "netimicin working standard" means a specific lot of a homogeneous preparation of netilmicin.

c. In § 430.6 by adding new paragraph (b)(78), to read as follows:

§ 430.6 Definitions of the terms "unit" and "microgram" as applied to antibiotic substances.

* * * * *

(b) * * *

(78) *Netilmicin.* The term "microgram" applied to netilmicin means the netilmicin activity (potency) contained in 1.000 microgram of the netilmicin master standard expressed on an anhydrous basis.

PART 436—TESTS AND METHODS OF ASSAY OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

2. Part 436 is amended in § 436.105 (a) and (b) by alphabetically inserting a new item in the respective tables, as follows:

§ 436.105 Microbiological agar diffusion assay.

* * * * *

(a) * * *

Antibiotic	Media to be used (as listed by medium number in § 436.102(b))		Milliliters of media to be used in the base and seed layers		Test organism	Suggested volume of standardized inoculum to be added to each 100 milliliters of seed agar (milliliters)	Incubation temperature for the plates (degrees C)
	Base layer	Seed layer	Base layer	Seed layer			
Netilmicin	11	11	20	5	D	0.25	36-37.5

(b) * * *

Antibiotic	Working standard stock solutions					Standard response line concentrations	
	Drying conditions (method number as listed in § 436.200)	Initial solvent	Diluent (solution number as listed in § 436.101(a))	Final concentration units or milligrams per milliliter	Storage time under refrigeration	Diluent	Final concentrations, units or micrograms of antibiotic activity per milliliter
Netilmicin	Not dried *		3	1 mg	7 days	3	0.064, 0.080, 0.100, 0.125, 0.156 μg.

* Working standard should be stored below minus 10° C under an atmosphere of nitrogen. Netilmicin sulfate is hygroscopic and care should be exercised during weighing.

PART 444—OLIGOSACCHARIDE ANTIBIOTIC DRUGS

3. Part 444 is amended:

a. In Subpart A by adding new § 444.46, to read as follows:

§ 444.46 Netilmicin sulfate.

(a) *Requirements for certification*—(1) *Standards of identity, strength, quality, and purity.* Netilmicin sulfate is the sulfate salt of D-Streptamine,4-*O*-[3-amino-6-(aminomethyl)-3,4-dihydro-2*H*-pyran-2-yl]-2-deoxy-6-*O*-[3-deoxy-4-*C*-methyl-3-(methylamino)-B-L-arabinopyranosyl]-*N*^{1}-ethyl-, (2*S-cis*)-, (2:5). It is a white-to-buff-colored powder. It is so purified and dried that:

(i) Its potency is not less than 595 micrograms of netilmicin per milligram on an anhydrous basis.

(ii) Its loss on drying is not more than 15.0 percent.

(iii) Its pH in an aqueous solution containing 40 milligrams per milliliter is not less than 3.5 and not more than 5.5.

(iv) Its residue on ignition is not more than 1.0 percent.

(v) Its specific rotation in an aqueous solution containing 30 milligrams per milliliter at 25° C is not less than +88° and not more than +96°.

(vi) It passes the identity test.

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 432.5 of this chapter.

(3) *Requests for certification; samples.* In addition to complying with the requirements of § 431.1 of this chapter, each such request shall contain:

(i) Results of tests and assays on the batch for potency, loss on drying, pH, residue on ignition, specific rotation, and identity.

(ii) Samples, if required by the Director, National Center for Drugs and Biologics: 12 packages, each containing approximately 500 milligrams.

(b) *Tests and methods of assay*—(1) *Potency.* Proceed as directed in § 436.105 of this chapter, preparing the sample for assay as follows: Dissolve an accurately weighed sample in sufficient 0.1*M* potassium phosphate buffer, pH 8.0 (solution 3), to obtain a stock solution of convenient concentration. Dilute an aliquot of the stock solution with solution 3 to the reference concentration of 0.1 microgram of netilmicin per milliliter (estimated).

(2) *Loss on drying.* Proceed as directed in § 436.200(c) of this chapter.

(3) *pH.* Proceed as directed in § 436.202 of this chapter, using an aqueous solution containing 40 milligrams per milliliter.

(4) *Residue on ignition.* Proceed as directed in § 436.207(a) of this chapter.

(5) *Specific rotation.* Use an aqueous solution containing 3 milligrams of sample per milliliter. Proceed as directed in § 436.210 of this chapter, using a 1.0-decimeter tube, and calculate the specific rotation on an anhydrous basis.

(6) *Identity.* Proceed as directed in § 436.318 of this chapter, except:

(i) Prepare sample and standard solutions containing 10 milligrams of netilmicin per milliliter;

(ii) Use 5 microliters of the solutions to spot the chromatography plate;

(iii) Remove the plate from the tank after 1.5 hours; and

(iv) Netilmicin sulfate appears as a brown spot.

b. In Subpart C by adding new § 444.246, to read as follows:

§ 444.246 Netilmicin sulfate injection.

(a) *Requirements for certification—(1) Standards of identity, strength, quality, and purity.* Netilmicin sulfate injection is an aqueous solution of netilmicin sulfate and one or more buffers, chelating agents, antioxidants, and preservatives. Each milliliter contains netilmicin sulfate equivalent to 10 milligrams, 25 milligrams, or 100 milligrams of netilmicin. Its potency is satisfactory if it is not less than 90 percent and not more than 115 percent of the number of milligrams of netilmicin that it is represented to contain. It is sterile. It is nonpyrogenic. Its pH is not less than 3.5 and not more than 6.0. The netilmicin sulfate used conforms to the standards prescribed by § 444.46(a)(1).

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 432.5 of this chapter.

(3) *Requests for certification; samples.* In addition to complying with the requirements of § 431.1 of this chapter, each such request shall contain:

(i) Results of tests and assays on:

(*a*) The netilmicin sulfate used in making the batch for potency, loss on drying, pH, residue on ignition, specific rotation, and identity.

(*b*) The batch for potency, sterility, pyrogens, and pH.

(ii) Samples, if required by the Director, National Center for Drugs and Biologics:

(*a*) The netilmicin sulfate used in making the batch: 12 packages, each containing approximately 500 milligrams.

(*b*) The batch:

(*1*) For all tests except sterility: A minimum of 12 immediate containers.

(*2*) For sterility testing: 20 immediate containers collected at regular intervals throughout each filling operation.

(b) *Tests and methods of assay—(1) Potency.* Proceed as directed in § 436.105 of this chapter, preparing the sample for assay as follows: Dilute an accurately measured representative portion of the product with 0.1*M* potassium phosphate buffer, pH 8.0 (solution 3), to the reference concentration of 0.1 microgram of netilmicin per milliliter (estimated).

(2) *Sterility.* Proceed as directed in § 436.20 of this chapter, using the method described in paragraph (e)(1) of that section.

(3) *Pyrogens.* Proceed as directed in § 436.32(a) of this chapter, using a solution containing 10 milligrams of netilmicin per milliliter.

(4) *pH.* Proceed as directed in § 436.202 of this chapter, using the undiluted solution.

This regulation announces standards that FDA has accepted in a request for approval of an antibiotic drug. Because this regulation is not controversial and because when effective it provides notice of accepted standards, notice and comment procedure and delayed effective date are found to be unnecessary and not in the public interest. The amendment, therefore, is effective April 26, 1983. Interested persons may, however, on or before May 26, 1983, submit written comments to the Dockets Management Branch (address above). Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number in brackets in the heading of this document. Received comments may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

Any person who will be adversely affected by this regulation may file objections to it and request a hearing. Reasonable grounds for the hearing must be shown. Any person who decides to seek a hearing must file (1) on or before May 26, 1983, a written notice of participation and request for hearing, and (2) on or before June 27, 1983, the data, information, and analyses on which the person relies to justify a hearing, as specified in 21 CFR 430.20. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. If it conclusively appears from the face of the data, information, and factual analyses in the request for hearing that no genuine and substantial issue of fact precludes the action taken by this order, or if a request for hearing is not made in the required format or with the required analyses, the Commissioner of Food and Drugs will enter summary judgment against the person(s) who request(s) the hearing, making findings and conclusions and denying a hearing. All submissions must be filed in three copies, identified with the docket number appearing in the heading of this order and filed with the Dockets Management Branch.

The procedures and requirements governing this order, a notice of participation and request for hearing, a submission of data, information, and analyses to justify a hearing, other comments, and grant or denial of a hearing are contained in 21 CFR 430.20.

All submissions under this order, except for data and information prohibited from public disclosure under 21 U.S.C. 331(j) or 18 U.S.C. 1905, may be seen in the Dockets Management Branch (address above) between 9 a.m. and 4 p.m., Monday through Friday.

Effective date: April 26, 1983.

(Secs. 507, 701(f) and (g), 52 Stat. 1055–1056 as amended, 59 Stat. 463 as amended (21 U.S.C. 357, 371 (f) and (g)))

Dated: April 20, 1983.

James C. Morrison,

Assistant Director for Regulatory Affairs.

21 CFR Parts 510 and 558

New Animal Drugs For Use in Animal Feeds; Tylosin

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of two new animal drug applications (NADA's) filed for De Kalb Feeds, Inc., providing for manufacturing 0.8- and 10-gram-per-pound tylosin premixes. The 0.8-gram-per-pound premixes are used to make swine feeds; the 10-gram-per-pound permixes are used to make swine, cattle, and chicken feeds. In addition, the firm is added to the list of sponsors of approved NADA's.

EFFECTIVE DATE: April 26, 1983.

FOR FURTHER INFORMATION CONTACT: Lonnie W. Luther, Bureau of Veterinary Medicine (HFV–128), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–4317.

SUPPLEMENTARY INFORMATION: De Kalb Feeds, Inc., Box 111, Rock Falls, IL 61071, is sponsor of NADA's 133–382 and 133–383 submitted on its behalf by Elanco Products Co. NADA 133–382 provides for use of Elanco's 40- and 100-gram-per-pound tylosin premixes or granulated tylosin concentrate to make 10-gram-per-pound intermediate premixes which are used to make complete feeds for swine; beef cattle; and layer, broiler, and replacement chickens as provided for in 21 CFR 558.625(f)(1) (i) through (vi). NADA 133–

383 provides for use of Elanco's 40- and 100-gram-per-pound premixes or granulated tylosin concentrate to make 0.8-gram-per-pound intermediate premixes to make complete swine feed as provided for in 21 CFR 558.625(f)(1)(vi) (*a*). The basis of approval of these NADA's is discussed in the freedom of information summaries. The NADA's are approved and the regulations are amended accordingly.

The sponsor has not been previously added to the list of sponsors of approved NADA's in 21 CFR 510.600(c). The list is amended to add this sponsor.

In accordance with the freedom of information provisions of Part 20 (21 CFR Part 20) and § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

The Bureau of Veterinary Medicine has determined pursuant to 21 CFR 25.24(d)(1)(i) (proposed December 11, 1979; 44 FR 71742) that this action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

List of Subjects

21 CFR Part 510

Administrative practice and procedure, Animal drugs, Labeling, Reporting requirements.

21 CFR Part 558

Animal drugs, Animal feeds.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Bureau of Veterinary Medicine (21 CFR 5.83), Parts 510 and 558 are amended as follows:

PART 510—NEW ANIMAL DRUGS

1. In Part 510, § 510.600 is amended by adding a new sponsor alphabetically to paragraph (c)(1) and numerically to paragraph (c)(2) to read as follows:

§ 510.600 Names, addresses, and drug labeler codes of sponsors of approved applications.

* * * * *

(c) * * *

(1) * * *

Firm name and address	Drug labeler code
* * * * *	
De Kalb Feeds, Inc., P.O. Box 111, Rock Falls, IL 61071.	024857
* * * * *	

(2) * * *

Drug labeler code	Firm name and address
* * * * *	
024857	De Kalb Feeds, Inc., P.O. Box 111, Rock Falls, IL 61071.
* * * * *	

PART 558—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

2. In Part 558, § 558.625 is amended by adding new paragraph (b)(81) to read as follows:

§ 558.625 Tylosin.

* * * * *

(b) * * *

(81) To 024857: 0.8 gram per pound; paragraph (f)(1)(vi)(*a*) of this section; 10 grams per pound; paragraph (f)(1)(i) through (vi) of this section.

BILLING CODE 4160-01-M

21 CFR Part 520

Oral Dosage Form New Animal Drugs Not Subject to Certification; Sulfamethazine Sustained-Release Boluses

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulation for sulfamethazine sustained-release boluses to remove a statement concerning hours required to attain the therapeutic blood level in cattle. The statement concerning the therapeutic level is no longer accurate, based on recently submitted data, and in addition, is now considered superfluous.

EFFECTIVE DATE: April 26, 1983.

FOR FURTHER INFORMATION CONTACT: Charles E. Haines, Bureau of Veterinary Medicine (HFV–133), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–3410.

SUPPLEMENTARY INFORMATION: International Multifoods Corp., 1200 Multifoods Bldg., 8th and Marquette Sts., Minneapolis, MN 55402, is sponsor of approved NADA 120–615. Approval of the NADA was published in the **Federal Register** of July 14, 1981 (46 FR 36131). The application provides for the use of sulfamethazine sustained-release boluses for treating beef and nonlactating dairy cattle for certain infections caused by sulfamethazine-sensitive organisms.

Under "Limitations" in § 520.2260b (21 CFR 520.2260b) of the regulation reflecting International Multifoods' approval, the statement "Boluses are designed to provide a therapeutic sulfamethazine level in approximately 8 to 12 hours and to maintain the level for 72 hours (3 days)" appears. This statement is no longer accurate because the firm has submitted a supplemental NADA containing additional bioavailability studies demonstrating attainment of a therapeutic sulfamethazine level at 6 hours instead of 8 to 12 hours. The supplement and the indicated label revision are approved.

This approval does not change the approved dosage and remaining conditions of use of the drug and does not increase the human risk of exposure to residues of the drug in edible tissue. Consequently, approval of this application does not require reevaluation of the safety and effectiveness under the Bureau of Veterinary Medicine's supplemental approval policy (42 FR 64367; December 23, 1977).

In accordance with the freedom of information provisions of Part 20 (21 CFR Part 20) and § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

The Bureau of Veterinary Medicine has determined pursuant to 21 CFR 25.24(d)(1)(i) (proposed December 11, 1979; 44 FR 71742) that this action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmentalal assessment nor an environment impact statement is required.

This action is governed by the provisions of 5 U.S.C. 556 and 557 and is therefore excluded from Executive Order 12291 by section 1(a)(1) of the Order.

List of Subjects in 21 CFR Part 520

Animal drugs, Oral use.

PART 520—ORAL DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Bureau of Veterinary Medicine (21 CFR 5.83), §520.2260b *Sulfamethazine sustained-release boluses* is amended in paragraph (c)(2)(iii) under "Limitations" by removing the first sentence "Boluses are designed to provide a therapeutic sulfamethazine level in approximately 8 to 12 hours and to maintain the level for 72 hours (3 days)."

Effective date. This amendment is effective April 26, 1983.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)))

Dated: April 21, 1983.

21 CFR Part 558

New Animal Drugs For Use in Animal Feeds; Virginiamycin

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of a new animal drug application (NADA) (filed for Carl S. Akey, Inc., providing for use of a 50-percent virginiamycin premix to manufacture a 10-gram-per-pound (2.2 percent) intermediate premix. The intermediate premix is subsequently used to make a finished swine feed used for increased rate of weight gain and improved feed efficiency.

EFFECTIVE DATE: April 26, 1983.

FOR FURTHER INFORMATION CONTACT: Lonnie W. Luther, Bureau of Veterinary Medicine (HFV–128), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–4317.

SUPPLEMENTARY INFORMATION: Carl S. Akey, Inc., P.O. Box 128, Lewisburg, OH 45338, is sponsor of original NADA 133–333 filed in its behalf by SmithKline Animal Health Products, Division of SmithKline Beckman Corp., Philadelphia, PA. The NADA provides for use of SmithKline's 50 percent virginiamycin premix to make a 10-gram-per-pound (2.2 percent) intermediate premix subsequently used to make finished swine feeds used as in 21 CFR 558.635(f)(1) (iv) and (v). The basis of approval is discussed in the freedom of information summary for NADA's 91–467 and 91–513. Based on that data and information, the NADA is approved and the regulations are amended to reflect the approval.

In accordance with the freedom of information provisions of Part 20 (21 CFR Part 20) and § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

The Bureau of Veterinary Medicine has determined pursuant to 21 CFR 25.24(d)(1)(i) (proposed December 11, 1979; 44 FR 71742) that this type of action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Part 301

[T.D. 7889]

Tax Classification of Limited Partnerships in Light of Certain Recent Legislative Developments

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations relating to the classification, for federal tax purposes, of limited partnerships. The regulations provide that references in the classification rules to the Uniform Limited Partnership Act (ULPA) refer to that Act both as originally promulgated and as revised in 1976. The regulations also clarify the significance, for classification purposes, of provisions in a partnership agreement for removal of a general partner by the limited partners and for limitation of the liability of a general partner to partnership creditors.

DATES: The regulations are effective April 26, 1983, and apply to taxable years beginning after 1953.

FOR FURTHER INFORMATION CONTACT: David R. Haglund of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, NW., Washington, D.C. 20224 (Attention: CC:LR:T (202-566-3459)).

SUPPLEMENTARY INFORMATION:

Background

On October 27, 1980, the **Federal Register** published proposed amendments to the Regulations on Procedure and Administration (26 CFR Part 301) under section 7701 of the Internal Revenue Code of 1954 (45 FR 70909). The amendments were proposed to make clear the application of certain tax classification rules to limited partnerships. No public hearing on the proposed amendments was requested, and accordingly none was held. Two comments on the proposed regulations were received. One merely stated approval of the general provision that the revised ULPA would be treated as equivalent to the original ULPA. The other comment is discussed below.

References to the ULPA

For federal tax purposes various entities may be classified as associations (which are taxable as corporations), partnerships, or trusts. Section 7701(a) (2) and (3) of the Code

and §§ 301.7701–1 through 301.7701–4 of the Regulations on Procedure and Administration set forth the definitions and rules that control the tax classification of entities. Section 301.7701–2 provides that the classification of an entity depends upon the presence or absence of corporate characteristics. That section also includes certain special rules for determining whether an entity organized under a statute corresponding to the ULPA possesses or lacks the corporate characteristics of continuity of life, centralization of management, and limited liability.

The National Conference of Commissioners on Uniform State Laws (NCCUSL) revised the ULPA in 1976. The regulations adopted by this Treasury decision provide that reference in § 301.7701–2 to the ULPA shall be deemed to refer to that Act both as originally promulgated and as revised in 1976. Thus, the same classification rules apply to entities organized under a statute corresponding to the revised ULPA as apply to entities organized under a statute corresponding to the original ULPA.

Power To Remove General Partner

The regulations adopted by this Treasury decision provide that all the facts and circumstances must be taken into account in determining whether the characteristic of centralized management is found in a limited partnership whose limited partners may remove the general partner. The regulations note that a substantially restricted removal power would not itself cause the partnership to possess centralized management.

The only comment received with respect to this issue suggested that the fact that the limited partners has an unrestricted power to remove a general partner indicated the absence, rather than the presence, of centralized management. An unrestricted power to remove a general partner, however, tends to show that the general partner is managing the partnership in a representative capacity rather than on the partner's own behalf. The power, therefore, is an indication that the partnership possesses centralized management. See *Glensder Textile Co. v. Commissioner*, 46 B.T.A. 176 (1942). Accordingly, the final regulations adopt this provison of the proposed regulations without change.

Provision in Partnership Agreement Limiting Liability

The Executive Committee of the NCCUSL adopted an amendment to section 403 of the revised ULPA in February, 1983. That amendment clarified section 403 to ensure that the section would not be read as authorizing any provision in the partnership agreement to limit the liability of general partners to creditors of the partnership. Because the February 1983 amendment is merely a clarifying amendment, the regulations adopted by this Treasury decision do not distinguish between statutes incorporating the 1983 amendment and statutes retaining the version of section 403 of the revised ULPA promulgated in 1976. A statute adopting either version of section 403 may correspond to the ULPA as revised in 1976.

To prevent undue tax benefits for partnerships attempting to exploit the ambiguity in the 1976 version of section 403, however, the final regulations provide that a provision in a partnership agreement that limits the liability of general partners to creditors will be presumed to be effective under local law unless it is established that the provision is ineffective. Under these regulations, therefore, a partnership whose agreement contains such a provision will generally be found to possess the corporate characteristic of limited liability.

Non-Applicability of Executive Order 12291

The Treasury Department has determined that this regulation is not subject to review under Executive Order 12291 or the Treasury and OMB implementation of the Order dated April 28, 1982.

Regulatory Flexibility Act

No general notice of proposed rulemaking is required by 5 U.S.C. 553(b) for interpretative regulations. Accordingly, the Regulatory Flexibility Act (5U.S.C. Chapter 6) does not apply and no Regulatory Flexibility Analysis is required for this rule.

Drafting Information

The principal author of these regulations is David R. Haglund of the Legislation and Regulations Division of the Office of the Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations both on matters of substance and style.

List of Subjects in 26 CFR Part 301

Administrative practice and procedure, Bankruptcy, Courts, Crime, Employment taxes, Estate taxes, Excise taxes, Gift taxes, Income taxes, Investigations, Law enforcement, Penalties, Pensions, Statistics, Taxes Disclosure of information, and Filing requirements.

Adoption of Amendments to the Regulations

PART 301—[AMENDED]

Accordingly § 301.7701–2 of the Regulations on Procedure and Administration (26 CFR Part 301) is amended by adding a new paragraph (a)(5) at the end of paragraph (a), by adding two new sentences at the end of paragraph (c)(4), and by adding a new sentence at the end of paragraph (d)(2). These added provisions read as follows:

§ 301.7701–2 Associations.

(a) *Characteristics of corporations.* * * *

(5) All references in this section to the Uniform Limited Partnership Act shall be deemed to refer both to the original Uniform Limited Partnership Act (adopted in 1916) and to the revised Uniform Limited Partnership Act (adopted by the National Conference of Commissioners on Uniform State Laws in 1976).

* * * * *

(c) *Centralization of management.* * * *

(4) * * * Furthermore, if all or a specified group of the limited partners may remove a general partner, all the facts and circumstances must be taken into account in determining whether the partnership possesses centralized management. A substantially restricted right of the limited partners to remove the general partner (*e.g.*, in the event of the general partner's gross negligence, self-dealing, or embezzlement) will not itself cause the partnership to possess centralized management.

(d) *Limited liability.* * * *

(2) * * * If the limited partnership agreement provides that a general partner is not personally liable to creditors for the debts of the partnership (other than debts for which another general partner is personally liable), it shall be presumed that personal liability does not exist with respect to that partner unless it is established that the provision is ineffective under local law

* * * * *

This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

Dated: April 11, 1983.
Roscoe L. Egger, Jr.,
Commissioner of Internal Revenue.

Approved: April 11, 1983.
John E. Chapoton,
Assistant Secretary of the Treasury.

BILLING CODE 4830-01-M

DEPARTMENT OF DEFENSE

Department of the Navy

32 CFR Part 706

Certifications and Exemptions Under the International Regulations for Preventing Collisions at Sea, 1972; Amendment

AGENCY: Department of the Navy, DOD.

ACTION: Final rule.

SUMMARY: The Department of the Navy is amending its certifications under the International Regulations for Preventing Collisions at Sea, 1972 (72 COLREGS) to reflect that the Secretary of the Navy has determined that USS PETERSON (DD 969) is a vessel of the Navy which, due to its special construction and purpose, cannot comply fully with certain provisions of the 72 COLREGS without interfering with its special function as a destroyer. The intended effect of this rule is to warn mariners in waters where the 72 COLREGS apply.

EFFECTIVE DATE: April 1, 1983.

FOR FURTHER INFORMATION CONTACT: Captain Richard J. McCarthy, JAGC, USN, Admiralty Counsel, Office of the Judge Advocate General, Navy Department, 200 Stovall Street, Alexandria, VA 22332, Telephone Number: (202) 325-9744.

SUPPLEMENTARY INFORMATION: Pursuant to the authority granted in Executive Order 11964 and 33 U.S.C. 1605, the Department of the Navy amends 32 CFR Part 706. This amendment provides notice that the Secretary of the Navy has certified that USS PETERSON (DD 969) is a vessel of the Navy which, due to its special construction and purpose, cannot comply fully with 72 COLREGS: 72 COLREGS Annex I, Section 3(a) pertaining to the placement of the forward masthead light in the forward quarter of the ship; 72 COLREGS Annex I, Section 3(a) pertaining to the placement of the after masthead light and the horizontal distance between the forward and after masthead lights, without interfering with its special function as a naval ship. The Secretary of the Navy has also certified that the aforementioned lights are located in closest possible compliance with the applicable 72 COLREGS requirements. Moreover, it has been determined, in accordance with 32 CFR Parts 296 and 701, that publication of this amendment for public comment prior to adoption is impracticable, unnecessary and contrary to public interest since it is based on technical findings that the placement of lights on this ship in a manner differently from that prescribed herein will adversely affect the ship's ability to perform its military function.

List of Subjects in 32 CFR Part 706

Marine safety, Navy Department, Navigation (water), Vessels.

PART 706—[AMENDED]

Accordingly, 32 CFR Part 706 is amended as follows:

§ 706.2 [Amended]

1. Table Five of § 706.2 is amended by adding the following naval ship to the list of vessels therein to indicate the certifications issued by the Secretary of the Navy:

TABLE 5

Vessel	Number	Forward masthead light not required; height above hull Annex I, Section 2(a)(i), (ii), (c), (d)	Aft masthead light less than 4.5 meters above forward masthead light Annex I, Section 2(a)(ii)	Masthead lights not over all other lights and obstructions. Annex I, Section 2(f)	Vertical separation of masthead lights used when towing less than required by Annex I, Section 2(a)(ii)	Aft masthead lights not visible over forward light 1,000 meters ahead of ship in all normal degrees of trim Annex I, Section 2(b)	Forward masthead light not in forward quarter of ship Annex I, Section 3(a)	After masthead light not less than ½ ship's length aft of forward masthead light, Annex I, Section 3(a)	Percentage horizonal separation attained
USS PETERSON	DD-969						X	X	46.4

Dated: April 1, 1983.
John Lehman,
Secretary of the Navy.

BILLING CODE 3810-AE-M

32 CFR Part 706

Certifications and Exemptions Under the International Regulations for Preventing Collisions at Sea, 1972; Amendment

AGENCY: Department of the Navy, DOD.

ACTION: Final rule.

SUMMARY: The Department of the Navy is amending its certifications and exemptions under the International Regulations for Preventing Collisions at Sea, 1972 (72 COLREGS) to reflect that the Secretary of the Navy: (1) Has determined that USS KLAKRING (FFG 42) is a vessel of the Navy which, due to its special construction and purpose, cannot comply fully with certain provisions of the 72 COLREGS without interfering with it special function as a naval frigate, and (2) has found that USS KLAKRING (FFG 42) is a member of the FFG 7 class of ships, certain exemptions for which have been previously granted under 72 COLREGS Rule 38. The intended effect of this rule is to warn mariners in waters where the 72 COLREGS apply.

EFFECTIVE DATE: April 15, 1983.

FOR FURTHER INFORMATION CONTACT: Captain Richard J. McCarthy, JAGC, USN, Admiralty Counsel, Office of the Judge Advocate General, Navy Department, 200 Stovall Street, Alexandria, VA 22332, Telephone number: (202) 325-9744.

SUPPLEMENTARY INFORMATION: Pursuant to the authority granted in Executive Order 11964 and 33 U.S.C. 1605, the Department of the Navy amends 32 CFR Part 706. This amendment provides notice that the Secretary of the Navy has certified that USS KLAKRING (FFG 42) is a vessel of the Navy which, due to its special construction and purpose, cannot comply fully with 72 COLREGS: Rule 21(a) regarding the arc of visibility of its forward masthead light; Annex I, Section 2(a)(i) regarding the height above the hull of its forward masthead light; and Annex I, Section 3(b) regarding the horizontal relationship of its sidelights to its forward masthead light, without interfering with its special function as a Navy frigate. The secretary of the Navy has also certified the above-mentioned light is located in closest possible compliance with the applicable 72 COLREGS requirements.

Notice is also provided to the effect that USS KLAKRING (FFG 42) is a member of the FFG 7 class of ships for which certain exemptions, pursuant to 72 COLREGS Rule 38, have been previously authorized by the Secretary of the Navy. The exemptions pertaining to that class, found in the existing tables of § 706.3, are equally applicable to this ship. Moreover, it has been determined, in accordance with 32 CFR Part 296 and 701, that publication of this amendment for public comment prior to adoption is impracticable, unnecessary and contrary to public interest since it is based on technical findings that the placement of lights on this ship in a manner different from that prescribed herein will adversely affect the ship's ability to perform its military function.

List of Subjects in 32 CFR Part 706

Marine safety, Navy Department, Navigation (water), Vessel.

PART 706—[AMENDED]

Accordingly, 32 CFR Part 706 is amended as follows:

§ 706.2 [Amended]

1. Table One of § 706.2 is amended as follows to indicate the certifications issued by the Secretary of the Navy:

Vessel	Number	Distance in meters of forward masthead light below minimum required height. § 2(a)(i) Annex I
• • • • •		
USS KLAKRING	FFG-42	1.6
• • • • •		

2. Table Four of § 706.2 is amended by adding to the existing paragraph 8 the following vessel for which navigational light certifications are herewith issued by the Secretary of the Navy: USS KLAKRING (FFG 42).

3. Table Four of § 706.2 is amended by adding to the existing paragraph 9 the following vessel for which navigational light certifications are hwerwith issued by the Secretary of the Navy:

Vessel	Number	Distance of sidelights forward of masthead lights in meters
• • • • •		
USS KLAKRING	FFG-42	2.75

(E.O. 11964; 33 U.S.C. 1605)

Dated: April 15, 1983.

James F. Goodrich,

Acting Secretary of the Navy.

BILLING CODE 3810-AE-M

Department of the Air Force

32 CFR Part 806b

Privacy Act of 1974; Air Force Privacy Act Program

AGENCY: Department of the Air Force, DOD.

ACTION: Final rule.

SUMMARY: The Department of the Air Force is revising Part 806b—Air Force Privacy Act Program. This revision expands the discussion of disclosure of medical records of a minor to the parents or legal guardian, and changes HQ USAF appeal procedures by deleting the Air Force Privacy Board. It implements 5 U.S.C. 552a, Pub. L. 93-579, and DOD Directive 5400.11, 9 June 1982.

EFFECTIVE DATE: February 18, 1983.

FOR FURTHER INFORMATION CONTACT: Mr. Updike, Department of the Air Force, HQ USAF/DAQD, Washington, D.C. 20330, telephone (202) 694-3488.

SUPPLEMENTARY INFORMATION: Because this regulation implements a higher authority directive it was not published as proposed for public comment. It is published as a final rule for information purposes. The Department of the Air Force has determined that this regulation is not a major rule as defined by Executive Order 12291; is not subject to the relevant provisions of the Regulatory Flexibility Act of 1980 (Pub. L. 96-354); and does not contain reporting or recordkeeping requirements under the criteria of the Paperwork Reduction Act of 1980 (Pub. L. 96-511).

List of Subjects in 32 CFR Part 806b

Privacy, Records.

Title 32 Part 806b is revised to read as follows:

PART 806b—[AMENDED]

Subpart A—General Information

Sec.
806b.1 Purpose.
806b.2 Air Force policy.
806b.3 Terms explained.
806b.4 Access authorities.
806b.5 Judicial sanctions.

Subpart B—Providing Information From Systems of Records

806b.6 Access by subjects of records.
806b.7 Disclosures to third parties and organizations.

Subpart C—Exempting Systems of Records

806b.8 General exemptions.
806b.9 Specific exemptions.
806b.10 General and specific exemptions claimed.

Authority: 5 U.S.C. 552a, Pub. L. 93-579.

Note.—Part 806b is derived from Air Force Regulation (AFR) 12-35, Air Force Privacy Act Program, 18 February 1983.

Subpart A—General Information

§ 806b.1 Purpose.

This part explains policies and outlines procedures that govern collecting personal information and safeguarding, maintaining, using, accessing, amending, and disseminating personal information kept by the Department of the Air Force in systems of records. It applies to all Air Force activities, including the Reserve Components, except for the Office of the Chief, National Guard Bureau; Air National Guard technicians; and Army-Air Force Exchange Service activities, including Motion Picture Service activities. It does not apply to civilian employee records that are maintained by Air Force activities and are covered under the Office of Personnel Management system of records. Such records are subject to Parts 293, 294, and 297 of the Office of Personnel Management regulations and the Federal Personnel Manual and Air Force supplements.

§ 806b.2 Air Force policy.

It is Air Force policy to:

(a) Protect as required by the Privacy Act of 1974 the privacy of individuals from unwarranted invasion. Individuals covered by this protection are living citizens of the United States or aliens

lawfully admitted for permanent residence. A legal guardian or parent has the same rights as, and may act on behalf of, a minor.

(b) Collect, keep, and use only that personal information needed to support Air Force operations and programs as authorized by law or Executive Order. Disclose this information only as authorized by the Privacy Act of 1974 and this part.

(c) Keep only personal information that is timely, accurate, complete, and relevant to the purpose for which it was collected.

(d) Safeguard personal information to prevent unauthorized use, disclosure, alteration, or destruction.

(e) Let individuals know what records the Air Force is keeping on them and let them review or get copies of these records, subject to exemptions authorized by law, approved by the Secretary of the Air Force, and published in this part.

(f) Let individuals amend records about themselves that they can prove are factually in error, are not timely, not complete, or irrelevant.

(g) Let individuals ask for an administrative review of decisions that deny them access to or the right to amend their records.

(h) Keep personal information only for as long as it is needed to protect the rights of the citizen and the government, and to provide for the administrative needs of the Air Force.

§ 806b.3 Terms explained.

Terms, and their meanings, used in this part are.

(a) *Access.* Letting individuals review or obtain copies of their own records that are part of a system of records.

(b) *Agency.* For purposes of disclosing records subject to § 806b.7, the Department of Defense (DOD) is an agency as defined by the Privacy Act. For all other purposes, including applications for access and amendment, appeals from denials, exempting systems of records, etc., the Department of the Air Force is an agency.

(c) *Confidential Source.* Any individual or organization that has given information to the Federal Government under an:

(1) Expressed promise that the identity of the source would be withheld; or

(2) Implied promise to withhold the identity of the source made before September 27, 1975.

(d) *Confidentiality.* When authorized, an express promise to withhold the identity of a source or the information provided.

(e) *Disclosure.* Giving information about an individual, by any means, to an organization or to an individual who is not the subject of the record. Within the context of the Privacy Act and this part, this term only applies to personal information that is a part of a system of records.

(f) *Individual.* A living citizen of the United States or an alien admitted for permanent residence. The Privacy Act rights of an individual may be exercised by the parent or legal guardian of a minor or an incompetent.

Note.—The Privacy Act confers no rights on deceased persons, nor may their next of kin exercise any rights for them.

(g) *Maintain.* Includes "hold," "collect," "use," "control," or "disseminate."

(h) *Minor.* Any individual under the age of majority as determined by state law that governs the location of the facility where the records are kept. If there is no prevailing state law (for example, overseas), a minor is any individual under 18 years of age. See § 806b.7(c) for discussion of the confidentiality of a minor's treatment records. According to this part, a member of the Armed Forces is not a minor.

(i) *Official Use.* Any action by a member or employee of DOD which is prescribed or authorized by law or a regulation, and is intended to perform a mission or function of the department.

(j) *Personal Information.* Any item of information about an individual that is not a matter of public record and is usually considered to be personal to the individual. It may include, for example, information about the individual's financial, family (other than names and sex of dependents), social, and recreational affairs; his or her medical, employment (other than duty assignments and duty phone numbers), political, or criminal history (other than convictions or acquittals in a military court); or information that identifies, describes, or gives a basis for inferring personal characteristics, such as voiceprints or fingerprints.

(k) *Privacy Act Request.* A request from an individual for information about the existence of, or for access to or amendment of, a record about him or her that is in a system or records. The request must cite or indicate a reliance on the Privacy Act of 1974.

(l) *Record.* Any item, collection, or grouping of information about an individual that is kept by the government.

(m) *Routine Use.* Any use or disclosure of information from a system of records that has been listed in a published systems notice and that is consistent with the purpose for which the information was collected. These systems notices are published in the **Federal Register** and AFP 12–36.

(n) *System Manager (SM).* The official responsible for policies and procedures for operating and safeguarding a system of records. Local SMs operate and have immediate contact with the system. Local SMs have identical responsibilities as SMs within their jurisdiction.

(o) *Statistical Record.* A record kept for statistical or reporting proposes. It is not used for making judgments about individuals. The identity of specific persons must not be discoverable using normal statistical or data manipulation methods.

(p) *System of Records.* Any group of records from which personal information is retrieved by the name of an individual or by some personal identifier, such as the individual's Social Security Number (SSN). If such retrieval is possible but not actually done, the group does not constitute a system of records. Likewise, if retrieval depends on the memory of an individual, no system or record exists. However, the creation of a retrieval index, arranged by personal identifier for a system that is filed at random, makes that system a system of record. Notices for all systems must be published in the **Federal Register** and a system must not be operated or maintained until this is done.

(q) *Workday or Day.* An official duty day, not including Saturdays, Sundays, and official federal holidays.

§ 806b.4 Access authorities.

(a) The individual named or position listed in the record system notice published in the **Federal Register**, either as the one to whom the request is to be sent or as the SM.

(b) Reports of the Air Force Office of Special Investigations (AFOSI) are released under rules in AFR 124–4, Requesting AFOSI Investigations and Safeguarding, Handling, and Releasing Information from AFOSI Reports. Reports on investigations that are not complete and on which no final action has been made or released by the commander of the organization that requests the investigation. Reports on completed investigations may only be released by HQ AFOSI.

§ 806b.5 Judicial sanctions.

The Privacy Act has both civil remedies and criminal penalties for violations of its provisions.

(a) *Civil Remedies.* An individual may file a civil suit against the Air Force, if Air Force personnel fail to comply with the Privacy Act.

(b) *Criminal Penalties.* A member or employee of the Air Force may be found guilty of a misdemeanor and fined not more than $5,000 for willfully:

(1) Maintaining a system of records without first meeting the public notice requirements.

(2) Disclosing individually indentifiable personal information to one not entitled to have it.

(3) Asking for or getting another's record under false pretenses.

Subpart B—Providing Information From Systems of Records

§ 806b.6 Access by subjects of records.

Individuals may ask whether the Air Force is maintaining records on them. If such records exist within systems of records, the Privacy Act governs the individual's right of access to the record and to request its amendment.

(a) *How To Identify a Privacy Act Request.* To be considered under the Privacy Act, a request must:

(1) Come from an individual whose records are in the system, or who is a designated agent or legal guardian of such an individual. The request can be either oral or written.

(2) Cite the Privacy Act or at least show an awareness of the law and its requirement to provide an individual access to his or her records. For example, it could be addressed to the Privacy Act officer, the SM, or FOIA manager—even if it does not cite the Act in the text of the request. Because people sometimes confuse the Privacy Act and FOIA, a request that cites or implies FOIA must be treated as a Privacy Act request, if it meets all the other standards in this section.

(3) Pertain to records that are in a system of records. If the records the individual wants are not in a system of records, the request falls into a category other that Privacy. The request does not have to name the system, but it should be fairly specific. Do not accept blanket requests for "all records about me." Instead, refer the individual to AFP 12–36 and ask for more details.

(b) *How To Identify a Functional Request.* Other Air Force directives give individuals the right to have access to their records. If an individual asks for his or her records and does not cite, or reasonably imply, the Privacy Act or FOIA, and another prescribing directive authorizes the release of the records, use the directive as the releasing authority. Apply the schedule of fees in Part 813, Schedule of Fees and Copying, Certifying, and Searching Records and Other Documentary Material. Functional requests are not reported in the annual report required by the Privacy Act. Examples of functional request are a military member asking to see his or her personnel file located in the Consolidated Base Personnel Office (CBPO) or a civilain employee asking to see his or her AF Form 971, Supervisor's Record of Employee, maintained by the supervisor.

(c) *How To Process a Privacy Act Request for Existence or Access that Cites Privacy Act, FOIA, or Both.* Regardless of whether an individual cites or implies the Privacy Act or the FOIA, process the request in order to give the most information possible. This may mean processing part of the request under one Act and part under another. NOTE: If an individual cites one Act but the SM processes the request under the other Act, tell the individual as soon as is practicable why the request is being processed under the other Act. For example, when the individual cites the Privacy Act but the information is contained in an exempted system of records, the request is processed under the FOIA.

(1) Verifying Identity. When local SMs receive a request for information about the existence of, or for access to, records, they must verify the requester's identity, unless the record sought is available to anyone under the FOIA. The individual does not have to state a reason for the request, nor can the request be denied if the individual does not give his or her SSN, unless disclosure of the SSN is required by Federal Statute or by a regulation adopted before 1 January 1975.

(2) Notifying the Requester. Once the requester's identity is assured, the local SM or custodian must:

(i) Tell the individual if the system of records has a record about him or her, and when and where it may be reviewed. Normally this should be done within 10 workdays from the date the request was received.

(ii) Let the individual review the record, or obtain a copy, unless it is exempted and listed in § 806b.10. Normally this should be done within 30 workdays from the date the request was received. If the requester wants to bring another individual, the local manager may ask for written permission from the requester for the other individual to be present during any discussion of the content of the record. There is no requirement to create a record to fulfill a request; the record must be in existence at the time of the request. However, do not deny a record just because it is not readily available in a convenient format. Information in a system of records on magnetic or computer tape should be given in a format the requester can read.

(iii) If the 10 workday time limit cannot be met, send a letter to the requester telling why a delay is needed and giving an approximate response date. That date should be no more than 20 workdays after the first Air Force office receives the request. Send a copy of this letter to HQ USAF/DAQD(S), Wash DC 20330, through Privacy Act channels.

(3) Assessing Fees. When providing documents under the Privacy Act, fees for reproduction only are charged.

(i) Use the following fee schedule:

Office copy (per page)	.10
Microform media (paper copy) (per image)	.25
Microfiche (per fiche)	.95

(ii) Do not charge fees for performing record searches; reproducing a document for the convenience of the Air Force; reproducing a record only in order to let a requester review it. If he or she wants a personal copy, use the fee in § 806b.6(c)(3)(i).

(iii) Waive the fee, if the total amount is less than $30. Do not waive the fee when a previous waiver has been granted and subsequent requests appear to be an extension or duplication of the original request.

(iv) Charge fees to reproduce photographs or nonpaper material, as determined locally.

Note.—Base fees on the direct cost for repoduction only.

(4) Denying Access. If the local SM decides the record should not be released, he or she sends a copy of the request, a copy of the record (or records), and the reasons for recommending denial (including the exemption being applied) to the denial authority through the command Privacy Act officer. This should be done within 5 workdays from the date the request was received.

(i) Record Evaluation. A record may not be withheld just because it is in an exempt system. Before recommending denial, the local SM must make sure that the system is covered by an exemption approved by the Secretary of the Air Force and listed in § 806b.10; make sure that each document is, in fact, covered by the exemption, because all documents in a system are not automatically exempt; determine that

there are no reasonably segregable nonexempt portions.

(ii) Medical Records. If, in the judgment of a physician, releasing a medical record to the subject could harm the subject's mental or physical health, the SM requires the requester to name a physician to receive the record. If this requirement poses a hardship on the individual, offer the service of a military practitioner other than the one who provided treatment. If the individual refuses to name a physician, the record must not be released. This is not considered a denial under the Privacy Act and is not appealable.

(iii) Third Party Information. Third party information pertaining to the subject of the record may not be deleted from a record when the subject requests access to the record unless there is an established exemption published in § 806b.10. However, personal data such as SSNs and home addresses of third parties normally do not pertain to the subject of the record and therefor, need not be released. Information about the relationship between the subject and the third party would normally be disclosed as pertaining to the subject.

(iv) Information Compiled for Litigation. Information in a system of records compiled in reasonable anticipation of a civil action or proceeding may be denied. The requester should be informed of his or her right to appeal this denial.

(v) Denial Authority Action. The command Privacy Act officer reviews the denial recommendation and obtains the written advice of the servicing staff judge advocate and the office responsible for the program under which the record was created. He or she makes a recommendation to the denial authority based on the results of this review. The denial authority, after examining the case, sends the requester a letter stating whether or not access will be granted. If the denial authority decides to grant access, he or she instructs the local SM to release the record. If the denial authority denies access, he or she must tell the requester why, and that the decision may be appealed to the Secretary of the Air Force within 45 days after the denial letter is received. The requester will be told to resubmit the original request and send any supporting material back to the denial authority for forwarding to HQ USAF/DAQD(S), Wash DC 20330. The requester should be cautioned that failure to follow this procedure may delay the appeal.

(d) *How To Process a Request for Amendment.* Individuals may ask the Air Force to amend records about them that are in a system of records. The amendment sought must change, delete, or add material to make a record factually accurate, timely, relevant, or complete. A request that asks for an amendment of information that is subjective, or involves a matter of opinion or interpretation, is not processed according to this part. It is sent back, and the individual is advised to send it to the Air Force Board for the Correction of Military Records according to Part 865, Subpart A, Air Force Board for Correction of Military Records, to follow grievance procedures in AFR 40–771, Appeal and Grievance Procedures, or to act according to or to use another appropriate directive.

(1) Requests to amend may be made orally or in writing, but only requests asking for minor corrections are accepted orally. In either case, the local SM verifies the identity of the individual seeking the amendment.

(2) Local SMs routinely correct any record if the requester can show it is factually in error. In these cases, the local SM makes the change, notifies all known recipients of the record, and informs the individual when the correction is made.

(3) If the local SM decides not to amend or partially amend the record, he or she sends a copy of the request, a copy of the record (or records), and the reasons for recommending denial to the denial authority through the command Privacy Act officer. This must be done within 5 workdays from the date the request was received.

(i) The command Privacy Act officer reviews the denial recommendation and obtains the written advice of the servicing Staff Judge Advocate and the office responsible for the program under which the record was created. He or she makes a recommendation to the denial authority based on the results of this review.

(ii) The denial authority, after examining the case, sends the requester a letter stating whether or not the amendment or partial amendment will be granted. If the denial authority decides to amend or partially amend the record, he or she instructs the local SM to amend the record and notify all subsequent recipients of the change. If the denial authority denies the amendment request, he or she must tell the requester why, and that the decision may be appealed to the Secretary of the Air Force within 45 days after the denial letter is received. The requester will be told to resubmit the original request and send any supporting material back to the denial authority for forwarding to HQ USAF/DAQD(S), Wash DC 20330. The requester should be cautioned that failure to follow this procedure may delay the appeal.

(e) *Appeals of Denials To Grant Access or To Amend Records:*

(1) Request for Secretarial Review. An individual may request a review of the denial by writing to the Secretary of the Air Force within 45 days after the denial is received. The request should be addressed to SAF/AA, Wash DC 20330 and sent back to the denial authority for forwarding to HQ USAF/DAQD(S), Wash DC 20330. The denial authority sends a complete file in the following order:

(i) The request for review.

(ii) The request for access or amendment.

(iii) The denial.

(iv) A copy of the record or portions involved.

(v) Any internal records or coordination actions that relate to the denial.

(vi) Denial authority comments on the appellant's arguments.

(vii) Denial authority servicing Staff Judge Advocate legal review.

(2) Responsibilities for Review:

(i) HQ USAF/DAQD(S) reviews the denial and makes a recommendation to the Office of the Vice Chief of Staff, HQ USAF/CV.

(ii) HQ USAF/CV considers the recommendation and decides whether to direct the denial authority to grant access to or amend the record. If HQ USAF/CV decides to uphold a denial, this recommendation is passed to SAF/AA through the Office of the General Counsel, SAF/GC, for final action.

(iii) SAF/AA considers the recommendation to uphold a denial, decides to grant or deny the appeal, and notifies both the individual and the denial authority of the decision. If SAF/AA upholds a denial to amend a record, the individual is advised of his or her right to send a statement of disagreement to the SM.

(3) Requests for Secretarial Review. These requests must be completed within 30 workdays from the date HQ USAF/DAQD(S) receives the appeal.

(f) *Statements of Disagreement.* If an individual submits a statement of disagreement with the Secretary of the Air Force's decision not to amend his or her record, the local SM:

(1) Flags the record so that the disagreement may be seen by anyone who discloses or gains access to the record.

(2) Files the statement with the record. If this is not possible, the manager maintains it to allow ready retrieval when the disputed portion of the record is used.

(3) Advises previous recipients that the record has been disputed and, if they can be identified, gives them a copy of the statement of disagreement.

(4) Lets subsequent users know that the record is disputed and gives them a copy of the statement along with the record. The manager may include a brief summary of the reasons for not amending the record. Summaries are limited to the reasons SAF/AA gave to the individual. The summary is treated as a part of the individual's record, but is not subject to the amendment procedures.

§ 806b.7 Disclosures to third parties and organizations.

The fact that the Air Force lets an individual know why the information is collected and how it will be used does not mean he or she gave consent to release it. Thus, when the decision is made to release information as authorized below, first consider all the consequences of that disclosure. Before any information is released, make a reasonable effort to ensure that it is accurate.

(a) *With Subject's Consent.* Unless prohibited by other statutes or directives, information may be disclosed from a system of records if the subject of the record writes and asks for it or if he or she was given prior written consent by signing a release form. Make sure, however, that there is no statute or directive that prohibits release. See AFR 11–24, Base/Unit Personnel Locators and Postal Directories, for a discussion of the release of an individual's home telephone number and home address from a unit locator system.

(b) *Without Subject's Consent.* An individual's records may be disclosed without his or her consent to:

(1) DOD officials and employees who need the record to perform their duties and the use is compatible with the purpose for which the record is maintained.

(2) The public, as required by the FOIA. See Part 806, Disclosure of Air Force Records.

(i) Some examples of information that may normally be released for individual military personnel without an unwarranted invasion of privacy are: name; grade; marital status; name, number and sex of dependents; date of rank; gross pay (base pay and entitlements); present and past duty assignments and future assignments that are firm; office and unit address and phone number; source of commission; professional military education, civilian educational degrees and major areas of study, school, year of graduation; promotion sequence number; awards and decorations; duty status at any given time; official photograph; and home of record, without street address. See Federal Personnel Manual Supplement 990–1, Part 294, on release of civilian personnel information.

(ii) A balancing test may be used to decide whether disclosure would be a clearly unwarranted invasion of the individual's privacy. Weigh the individual's right to privacy versus the public's right to know. Consider the nature of the information to be disclosed; do individuals usually expect this information to be kept private? Are the identities of the subject and the recipient already in the public eye? What is likely to happen to the individual as a result of the disclosure? How old is the information; is it still relevant? To what degree is the information already in the public domain?

(iii) Information may be released if the balancing test described above weighs in favor of disclosure. For example, home addresses may be disclosed to a requester who wants to enforce a court order for alimony or child support payments, or to local and state tax authorities to enforce tax laws.

(iv) Lists of individual's names and home addresses may not be rented or sold. Without individuals' consent, lists of names and home addresses may not be released to the public. Also, individuals must be allowed to decide if they want their home addresses and phone numbers included in base directories.

(3) Agencies outside DOD for a routine use that has been listed in the systems notice describing the system of records and has been published in the **Federal Register.** The routine use must be compatible with the purpose for which the information was collected.

(4) The Bureau of Census to plan or carry out a census or survey under Title 13, U.S.C.

(5) A recipient for statistical research or reporting. The recipient must give us advance written assurance that the record will be used solely as a statistical research or reporting record. The record must not be used, in whole or part, to make any decisions about the individual's rights, benefits, or entitlements. It must be sent in a form in which the identity of the individual cannot be found out through usual research methods.

(6) The National Archives of the United States as a record with enough value to warrant keeping it, or for evaluation by the Administrator of the General Services Administration to see if the record has such value. However, records sent to Federal Records Centers for storage stay under Air Force control. These transfers are not disclosures under this section and do not need an accounting.

(7) A federal, state, or local agency outside DOD for civil or criminal law enforcement activity authorized by law. The head of the agency or a designee must send a written request to the SM. The request must specify the record or part needed and the law enforcement purpose for which it is wanted. A record may also be disclosed to a law enforcement agency by the Air Force office that has it if a criminal act is suspected. This disclosure is a routine use for all US Air Force records systems and has been published in the **Federal Register.**

(8) Another individual or agency under compelling circumstances that affect the health or safety of an individual. The individual whose records are disclosed does not have to be the one in danger. For example, records on several individuals could be disclosed to identify individuals injured in an accident. When individual records are disclosed in this way, the subject(s) must be sent a notification of disclosure to the last known address.

(9) Either House of Congress (a congressional committee or subcommittee) for matters within their jurisdictions.

(10) A congressional office acting for a constituent who is the record subject. This disclosure is allowed by a blanket routine use.

(11) The Comptroller General or any authorized representatives on business of the General Accounting Office.

(12) A court of competent jurisdiction that has ordered the disclosure of the record. When a record is disclosed, reasonable efforts must be made to notify the individual to whom the record pertains, if the legal process is a matter of public record.

(13) A contractor who is operating a system of records under a contract to perform an Air Force function, such as personnel, payroll, or health systems management. In this case, the contractor is considered an employee of the Air Force according to the Privacy Act and the system of records is considered an Air Force system. Disclosure of records to the contractor does not need the subject's consent nor does it require that an accounting be kept.

(c) *Medical Records of Minors.* Disclosure of the medical records of a minor to the parents or legal guardians of the minor may be granted; however, the following conditions must be met:

(1) In the United States, the law of the particular state in which the records are

located may give special protection to certain types of medical records that deal with drug or alcohol abuse treatment, abortions, and birth control advice or devices. These statutes will be observed. Medical records custodians in the United States must be knowledgeable of the local laws and coordinate any proposed local policies with their servicing staff judge advocate.

(2) At oversea installations, the age of majority is 18.

(3) Parents or guardians are not allowed to see the medical records of a minor when all the following conditions are met:

(i) The minor was between 15 and 17 years of age at the time he or she sought or consented to the treatment;

(ii) The treatment was sought in a program that was authorized by regulations or statute to offer confidentiality of treatment records as a part of the program;

(iii) The minor specifically requested or indicated that he or she wished his or her treatment record to be handled with confidence and not released to a parent or guardian; and

(iv) The parent or guardian seeking access does not have the written authorization of the minor or a valid order for access.

Subpart C—Exempting Systems of Records

Note.—The Secretary of the Air Force may exempt Air Force systems of records from certain parts of the Privacy Act. There are two kinds of exemptions: general and specific. The general exemption relieves systems of records from most requirements of the Act; the specific exemption from only a few.

§ 806b.8 General exemptions.

Only US Air Force activities actually engaged in law enforcement as their primary function may claim the general exemption for a law enforcement system of records. These include the staff judge advocate and correctional activities. This exemption appears in the Privacy Act in subparagraph (j)(2).

(a) To qualify for the exemption, a system must consist of:

(1) Data, compiled to identify individual criminals and alleged criminals, which consists only of identifying data and arrest records; type and disposition of charges; sentencing, confinement, and release records; and parole and probation status;

(2) Data that supports criminal investigations (including efforts to prevent, reduce, or control crime) and reports of informants and investigators that identify an individual; or

(3) Reports on an individual, compiled at any stage of the process of law enforcement, from arrest or indictment through release from supervision.

(b) When a general exemption is claimed for a system of records, the only parts of the Privacy Act the Air Force is required to comply with are subsections (b); (c)(1) and (2); (e)(4) (A) through (F); (e)(6), (7), (9), (10), and (11); and (i).

§ 806b.9 Specific exemption.

(a) The Secretary of the Air Force has exempted all properly classified information and a few systems of records that have the following kinds of information from certain parts of the Privacy Act. The Privacy Act exemption cite appears in parentheses after each category below.

(1) Classified information in every Air Force system of records. This exemption is not limited to the systems shown in § 806b.10 of this part. Before denying an individual access to classified information, the denial authority must make sure that it was properly classified under the standards of Executive Orders 11652, 12065, or 12356, and that it must remain so in the interest of national defense or foreign policy ((k)(1)).

(2) Investigatory data for law enforcement purposes (other than that claimed under the general exemption). But, if this information has been used to deny someone a right, it must be released, unless doing so would reveal the identity of a confidential source ((k)(2)).

(3) Statistical data required by statute and used only for statistical purposes and not to make decisions on the rights, benefits, or entitlements of individuals ((k)(4)).

(4) Data compiled to determine suitability, eligibility, or qualifications for federal service, federal contracts, or access to classified information. We may withhold this information, only if disclosure would reveal the identity of a confidential source ((k)(5)).

(5) Tests to determine if a person is qualified for appointment or promotion in the federal service. We may withhold this information, only if disclosure would compromise the objectivity or fairness of the examination process ((k)(6)).

(6) Information to determine promotion potential in the Armed Forces. Information may be withheld, but only to the extent that disclosure would reveal the identity of a confidential source ((k)(7)).

(b) Complying with any or all of the following parts of the Privacy Act is not required in operating a system for which we claim a specific exemption: subsections (c)(3); (d); (e)(1); (e)(4) (G), (H), and (I); and (f).

§ 806b.10 General and specific exemptions claimed.

(a) *General Exemption for Criminal Investigation Files.* The Air Force claims the general exemption for the following systems of records: Counter Intelligence Operations and Collection Records, F124 AF OSI A; Criminal Records, F124 OSI B; Incident Investigation Files, F125 AF SP A; Investigative Support Records, F124 AF OSI B.

(b) *Specific Exemptions.* Systems for which we claim specific exemptions are:

(1) Classified Records. All records in systems of records that are properly classified according to Executive Orders 11652, 12065 or 12356, are exempt from 5 U.S.C. 552a(c)(3); (d); (e)(4) (G), (H), and (I); and (f), regardless of whether the entire system is otherwise exempt.

(2) Admissions and Registrar System (FO53 AFA A):

(i) Exemption. Parts of this system of records (Liaison Officer Evaluation and Selection Panel Candidate Evaluation) are exempt from 5 U.S.C. 552a(d), (e)(4)(H), and (f), but only to the extent that disclosure would reveal the identity of a confidential source.

(ii) Authority. 5 U.S.C. 552a(k)(5).

(iii) Reasons. To ensure the frankness of information used to determine whether cadets are qualified for graduation and for commissioning as officers in the United States Air Force.

(3) Air Force Personnel Test 851, Test Answer Cards (FO35 MPC A):

(i) Exemption. This system is exempt from 5 U.S.C. 552a(c)(3); (d); (e)(4) (G), (H), and (I); and (f).

(ii) Authority. 5 U.S.C. 552a(k)(6).

(iii) Reasons. To protect the integrity of the promotion testing system by keeping the test questions and answers secure.

(4) Cadet Personnel Management System (FO35 AFA A):

(i) Exemption. Parts of this system are exempt from 5 U.S.C. 552a(d), (e)(4) (H), and (f), but only insofar as disclosure would reveal the identity of a confidential source.

(ii) Authority. 5 U.S.C. 522a(k)(7).

(iii) Reasons. To maintain the candor and integrity of comments needed to evaluate an Air Force Academy cadet for commissioning in the US Air Force.

(5) Cadet Records (FO45 ATC A):

(i) Exemption. Portions of this system (Detachment Professional Officer Course (POC) Selection Rating Sheets; Air Force Reserve Officer Training Corps (AFROTC) Form 0–24—Disenrollment Review; Memoranda for Record and Staff Papers with Staff

Advice, Opinions, or Suggestions) are exempt from 5 U.S.C. 552a(c)(3); (d); (e)(4) (G) and (H), and (f), but only to the extent that disclosure would reveal the identity of a confidential source.

(ii) Authority. 5 U.S.C. 552a(k)(5).

(iii) Reasons. To protect the identity of a confidential source who furnishes information necessary to make determinations about the qualification, eligibility, and suitability of cadets for graduation and commissioning in the US Air Force, under a promise of confidentiality.

(6) Child Advocacy Case Files (F168 AF SG A):

(i) Exemption. Parts of this system are exempt from 5 U.S.C. 552a(c)(3) and (d), but only to the extent that disclosure would reveal the identity of a confidential source.

(ii) Authority. 5 U.S.C. 552a(k) (2) and (5).

(iii) Reasons. To encourage those who know of child abuse or neglect to come forward by protecting their identities, and to protect the integrity of on-going and civil law investigations of criminal and civil law violations. Giving subjects access to their files could result in them concealing, altering, or fabricating evidence; could hamper the identification of offenders and alleged offenders; and could jeopardize the safety and wellbeing of parents and their children.

(7) Civilian Personnel Occupational and Suitability Employment Examinations (F040 AF MP A):

(i) Exemption. Parts of this system are exempt from 5 U.S.C. 552a(c)(3); (d); (e)(4)(G), (H), and (I); and (f).

(ii) Authority. 5 U.S.C. 552a(k) (5) and (6).

(iii) Reasons. To protect the confidentiality of a source who gives information about whether a person is qualified and suitable for civilian employment in the federal service, and to protect test material used to determine qualifications in order to be fair to all candidates.

(8) Class Committee Products (F011 AFA A):

(i) Exemption. Parts of this system are exempt from 5 U.S.C. 552a(d), (e)(4)(H), and (f), but only to the extent that disclosure would reveal the identity of a confidential source. This exemption does not apply to records created on or after 14 July 1980. The exemption will be withdrawn on 1 July 1983 after disposition of all currently exempt records.

(ii) Authority. 5 U.S.C. 552a(k)(7).

(iii) Reasons. To maintain the candor and integrity of comments needed to evaluate an Air Force Academy cadet for commissioning in the US Air Force.

(9) Effectiveness/Performance Reporting Systems (F035 AF MP A):

(i) Exemption. The parts of this system that have completed AF Forms 705, Lieutenant Colonel Promotion Recommendation Report; and AF Forms 706, Colonel Promotion Recommendation Report; are exempt from 5 U.S.C. 552a(c)(3); (d); (e)(4)(G), (H), and (I); and (f), but only to the extent that disclosure would reveal the identity of a confidential source.

(ii) Authority. 5 U.S.C. 552a(k)(7).

(iii) Reasons. To make sure that selection boards get candid evaluations of the potential of officers being considered for promotion to the grades of Colonel and Brigadier General.

(10) Equal Opportunity in Off Base-Housing (F030 AF PR A):

(i) Exemption. This system is exempt from 5 U.S.C. 552a(c)(3); (d); (e)(4)(G), (H), and (I); and (f).

(ii) Authority. 5 U.S.C. 552a(k)(2).

(iii) Reasons. To enforce civil laws, court orders, and the activities of the Departments of Housing and Urban Development and Justice.

(11) General Officer Personnel Data System (F035 MPC B):

(i) Exemption. The parts of this system that have completed AF Forms 78, Air Force General Officer Effectiveness Report, are exempt from 5 U.S.C. 552a(c)(3); (d); (e)(4)(G), (H), and (I); and (f), but only to the extent that disclosure would reveal the identity of a confidential source.

(ii) Authority. 5 U.S.C. 552a(k)(7).

(iii) Reasons. To make sure selection boards get candid evaluations of the potential officers being considered for promotion to Major General, Lieutenant General, and General.

(12) historical Airman Promotion Master Test File (F035 MPC C):

(i) Exemption. This system is exempt from 5 U.S.C. 552a(c)(3); (d); (e)(4)(G), (H), and (I); and (f).

(ii) Authority. 5 U.S.C. 552a(k)(6).

(iii) Reasons. To protect the integrity, objectivity, and equity of the promotion testing system by keeping test questions and answers secure.

(13) Inspector General Records (F120 IG A):

(i) Exemption. This system is exempt from 5 U.S.C. 552a(c)(3); (d); (e)(4)(G), (H), and (I); and (f). However, if a person is denied any right, privilege, or benefit, he or she would otherwise be entitled to as a result of keeping this material, it must be released, unless doing so would reveal the identity of a confidential source.

(ii) Authority. 5 U.S.C. 552a(k)(2).

(iii) Reasons. Granting individuals access to information collected while an Inspector General inquiry is in progress could interfere with the just, thorough, and timely resolution of the complaint or inquiry and could possibly enable individuals to conceal wrong doing or mislead the inquiring officer. Disclosure might also subject sources, witnesses, and their families to harassment or intimidation.

(14) Investigative Applicant Processing Records (F124 OSI C):

(i) Exemption. This system is exempt from 5 U.S.C. 552a (c)(3); (d); (e)(4) (G), (H), and (I); and (f), but only to the extent that disclosure would reveal the identity of a confidential source.

(ii) Authority. 5 U.S.C. 552a(k)(5).

(iii) Reasons. To protect those who gave information in confidence during Air Force Office of Special Investigations (AFOSI) applicant inquiries. Fear of retaliation or exposure could cause sources not to make frank and open responses about applicant qualifications. This could compromise the integrity of the AFOSI personnel progam that relies on selecting only qualified people.

(15) Master Cadet Personnel Record (Active/Historical) F035 AFA B):

(i) Exemptions. Parts of these systems are exempt from 5 U.S.C. 552a(d), (e)(4)(H), and (f), but only to the extent that they would reveal the identity of a confidential source.

(ii) Authority. 5 U.S.C. 552a(k)(7).

(iii) Reasons. To maintain the candor and integrity of comments needed to evaluate a cadet for commissioning in the US Air Force.

(16) Military Performance Average (MPA) (F030 AFA A):

(i) Exemption. Parts of this system are exempt from 5 U.S.C 552a(d), (e)(4)(H) and (f), but only to the extent that disclosure would reveal the identity of a confidential source. This exemption applies only to the old Military, Leadership, and Basic Cadet Order of Merit Records. The exemption will be withdrawn on 1 July 1983 after disposal of these records.

(ii) Authority. 5 U.S.C. 552a(k)(7).

(iii) Reasons. To maintain the candor and integrity of comments needed to evaluate Air Force Academy cadets for commissioning in the US Air Force.

(17) Personnel Files on General Officers and Colonels Assigned to General Officer Positions (F035 MP A):

(i) Exemption. This system is exempt from 5 U.S.C. 552a(c)(3); (d); (e)(4) (G), (H), and (I); and (f), but only to the extent that disclosure would reveal the identity of a confidential source.

(ii) Authority. 5 U.S.C. 552a(k)(7).

(iii) Reasons. To protect the integrity of information used in the Reserve Initial Brigadier General Screening

Board, the release of which would compromise the selection process.

(18) Personnel Security Case Files (F205 SCO A):

(i) Exemption. This system is exempt from 5 U.S.C. 552a(c)(3); (d); (e)(4) (G), (H), and (I); and (f), but only to the extent that disclosure would reveal the identity of a confidential source.

(ii) Authority. 5 U.S.C. 552a(k)(5).

(iii) Reasons. To protect the identity of those who give information in confidence for personnel security and related investigations. Fear of retaliation or exposure could cause sources to refuse to give this information in the frank and open way needed to pinpoint those areas in an investigation that should be expanded to fully develop or put to rest charges of questionable conduct. It is essential that all such allegations be resolved fairly and quickly.

(19) Security and Related Investigative Records (F124 AF OSI C):

(i) Exemption. This system is exempt from 5 U.S.C. 552a(c)(3); (d); (e)(4) (G), (H), and (I); and (f), but only to the extent that disclosure would reveal the identity of a confidential source.

(ii) Authority. 5 U.S.C. 552a(k)(5).

(iii) Reasons. To protect the identity of those who give information in confidence for personnel security and related investigations. Fear of retaliation or exposure could cause sources to refuse to give this information in the frank and open way needed to pinpoint those areas in an investigation that should be expanded to fully develop or put to rest charges of questionable conduct. It is essential that all such allegations be resolved fairly and quickly.

(20) Sensitive Compartmented Information Personnel Security Records (F205 AFIS A):

(i) Exemption. This system is exempt from 5 U.S.C. 552a(a)(3); (d); (e)(4)(G), (H), and (I); and (f), but only the extent that disclosure would reveal the identity of confidential source.

(ii) Authority. 5 U.S.C. 552a (k)(2) and (k)(5).

(iii) Reasons. To protect the identity of sources to whom proper promises of confidentiality have been made during investigations. Without these promises, sources will often be unwilling to provide information essential in adjudicating access in a fair and impartial manner.

(21) Special Security Files (F205 AF SP A):

(i) Exemption. This system is exempt from 5 U.S.C. 552a(c)(3); (d); (e)(4)(G), (H), and (I); and (f), but only to the extent that disclosure would reveal the identity of a confidential source.

(ii) Authority. 5 U.S.C. 552a(k)(5).

(iii) Reasons. To protect the identity of those who give information in confidence for personnel security and related investigations. Fear of retaliation or exposure could cause them to refuse to give this information in the frank and open way needed to pinpoint areas in an investigation that should be expanded to fully develop or put to rest charges of questionable conduct. It is essential that all such allegations be resolved fairly and quickly.

Winnibel F. Holmes,

Air Force Federal Register Liaison Officer.

BILLING CODE 3910-01-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 271

[SW-4-FRL 2354-3]

Hazardous Waste Management Programs, Mississippi; Interim Authorization Phase II, Component C

AGENCY: Environmental Protection Agency.

ACTION: Approval of State Hazardous Waste Management Program.

SUMMARY: The State of Mississippi has applied for Interim Authorization Phase II, Component C. EPA has reviewed Mississippi's application for Phase II, Interim Authorization Component C, and has determined that Mississippi's hazardous waste program is substantially equivalent to the Federal program covered by Component C. The State of Mississippi is hereby granted Interim Authorization for Phase II, Component C, to operate the State's hazardous waste program covered by Component C in lieu of the Federal program.

EFFECTIVE DATE: Interim Authorization Phase II, Component C, for Mississippi shall become effective April 26, 1983.

FOR FURTHER INFORMATION CONTACT: James H. Scarbrough, Chief, Residuals Management Branch, Environmental Protection Agency, 345 Courtland Street, N.E., Atlanta, Georgia 30365, Telephone (404) 881-3016.

SUPPLEMENTARY INFORMATION:

Background

In the May 19, 1980, **Federal Register** (45 FR 33063) the Environmental Protection Agency (EPA) promulgated regulations, pursuant to Subtitle C of the Resource Conservation and Recovery Act of 1976, as amended (RCRA), to protect human health and the environment from the improper management of hazardous waste. The Act (RCRA) includes provisions whereby a State agency may be authorized by EPA to administer the hazardous waste program in that State in lieu of a Federally administered program. For a State program to receive final authorization, its hazardous waste program must be fully equivalent to and consistent with the Federal program under RCRA. In order to expedite the authorization of State programs, RCRA allows EPA to grant a State agency Interim Authorization if its program is substantially equivalent to the Federal program. During Interim Authorization, a State can make whatever legislative or regulatory changes that may be needed for the State's hazardous waste program to become fully equivalent to the Federal program. The Interim Authorization program is being implemented in two phases corresponding to the two stages in which the underlying Federal program takes effect.

Phase I regulations were published on May 19, 1980, and became effective on November 19, 1980. The Phase I regulations include the identification and listing of hazardous wastes, standards for generators and transporters of hazardous waste, standards for owners and operators of treatment, storage and disposal facilities, and requirements for State Programs. The Phase II regulations cover the procedures for issuing permits under RCRA and the standards that will be applied to treatment, storage, and disposal facilities in preparing permits. In the July 26, 1982, **Federal Register** (47 FR 32373), the Environmental Protection Agency annunced that States could apply for Component C of Phase II of Interim Authorization. Component C published in the **Federal Register** July 26, 1982 (47 FR 32274), contains standards for permitting facilities that dispose hazardous waste in waste piles, surface impoundments, land treatment, and landfills.

A full description of the requirements and procedures for State Interim Authorization is included in 40 CFR Part 271, Subpart F, (46 FR 8298) January 26, 1982, and (47 FR 32373) July 26, 1982.

The State of Mississippi received Interim Authorization for Phase I on January 7, 1981, and Interim Authorization for Phase II, Components A & B, on August 31, 1982.

Draft Application

The State of Mississippi submitted its draft application for Phase II, Component C, Interim Authorization, on

September 27, 1982. After detailed review, EPA identified only minor concerns and transmitted comments to the State on November 16, 1982, for its consideration.

EPA requested the Attorney General to certify that Mississippi adopted the federal land disposal regulations by reference. EPA also requested that Mississippi revise the Memorandum of Agreement to include new language on reporting and delisting.

State Officials resolved these issues through revisions in the Memorandum of Agreement and Attorney General's Statement. The Attorney General certified that Mississippi adopted the federal regulations by reference. Mississippi also incorporated EPA Region IV's new language on reporting and delisting in the Memorandum of Agreement.

Final Application

On January 17, 1983, Mississippi submitted to EPA a final application for Phase II, Component C, Interim Authorization, under RCRA. An EPA review team consisting of both Headquarters and Regional personnel made a detailed analysis of Mississippi's hazardous waste management program.

EPA comments were forwarded to the State on March 1, 1983. No *major* questions were raised in the comments. The comments requested minor clarification and correction of typographical errors. By letter dated March 16, 1983, the State responded satisfactorily to the issues raised by EPA.

Public Hearing and Comment Period

As noticed in the **Federal Register** on February 4, 1983 (48 FR 5284), EPA gave the public until March 14, 1983, to comment on the State's application. EPA also issued a public notice for a hearing to be held in Jackson, Mississippi on March 24, 1983, if significant public interest was expressed.

EPA received no written or oral comments, inquiries, or requests for a hearing.

Decision

EPA has reviewed Mississippi's complete application for Interim Authorization Phase II, Component C, and has determined that the state program is substantially equivalent to Phase II, Component C, of the Federal program as defined in 40 CFR Part 271, Subpart F, as amended at 47 FR 32373 (July 26, 1982). In accordance with Section 3006(c) of RCRA and implementing regulations, Mississippi is hereby granted Interim Authorization for Phase II, Component C, to operate the State's hazardous waste program for permitting the construction and operation of facilities that dispose of hazardous waste in lieu of the Federal program.

Regulatory Flexibility Act

Pursuant to the provisions of 5 U.S.C. 605(b), I hereby certify that this authorization will not have a significant economic impact on a substantial number of small entities. The authorization suspends the applicability of certain Federal regulations in favor of the State program, thereby eliminating duplicative requirements for handlers of hazardous wastes in the State. It does not impose any new burdens on small entities. This rule, therefore, does not require a regulatory flexibility analysis.

Executive Order 12291

The Office of Management and Budget (OMB) has exempted this rule from the requirements of Section 3 of Executive Order 12291.

List of Subjects in 40 CFR Part 271

Hazardous materials, Reporting requirements, Waste treatment and disposal, Water pollution control, Water supply, Intergovernmental relations, Penalties, Confidential business information.

Authority. This notice is issued under the authority of secs. 2002(a), 3006, and 7004(b) of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act of 1976, as amended, 42 U.S.C. 6912(a), 6926, and 6974(b).

Dated: March 25, 1983.

Charles R. Jeter,

Regional Administrator.

BILLING CODE 6560-50-M

DEPARTMENT OF THE INTERIOR

Office of the Secretary

43 CFR Subtitle A

Coastal Barrier Resources Act; Opting-In Provision

AGENCY: Office of the Secretary, Interior.

ACTION: Final rule.

SUMMARY: On October 18, 1982, President Reagan signed the Coastal Barrier Resources Act (CBRA) into law, (Pub. L. 97-348). The law establishes the Coastal Barrier Resources System delineated on maps incorporated by reference in the legislation, and prohibits most Federal expenditures and financial assistance for development within the units of that System. These provisions of the Act became effective immediately, except that the ban on new Federal flood insurance in these units will go into effect on October 1, 1983.

Significant responsibilities are also assigned to the Secretary of the Interior by the legislation. This rule describes the approach the Department of the Interior (DOI) has adopted to interpret paragraph 4(a)(2) of CBRA which allows landowners with property on a coastal barrier or associated landform that was not included in the System to elect to have their property included. The paragraph also requires the Secretary of the Interior to establish regulations for this purpose within 180 days of enactment of CBRA.

DATE: This rule becomes effective April 26, 1983.

FOR FURTHER INFORMATION CONTACT: Frank McGilvrey, U.S. Fish and Wildlife Service, U.S. Department of the Interior, Washington, D.C. 20240, (202-343-5000).

SUPPLEMENTARY INFORMATION: Based on the language in the Omnibus Budget Reconciliation Act of 1981 (OBRA) and its legislative history, the Department of the Interior developed criteria for delineating the undeveloped coastal barriers on the Atlantic and Gulf Coasts of the United States. These criteria were the basis for both the maps proposed by DOI under OBRA and the final maps designated by Congress as part of CBRA. Copies of the CBRA maps have distributed to all affected State executives, State coastal zone management agencies, counties, and Federal agencies. On November 19, 1982, the Department published interpretive guidelines and a general statement of policy (47 FR 52388), pertaining to its responsibilities under Section 4 of the Act. With completion of minor and technical boundary modifications, as mandated by CBRA, the unit boundaries depicted on the maps of the CBR System become fixed and cannot be modified without an amendment to the Act.

This rule permits landowners on coastal barriers or associated landforms which have not been included in the Coastal Barrier Resources System to put their land in the System within one year of the date of enactment of this bill. Once exercised, this option will not be revocable by the landowner or his/her successors in title, and the prohibition against Federal assistance contained in the bill will apply as if the land had been included in the System from the outset.

(1) *Environmental Effects:* The environmental impacts of administering the action to be undertaken pursuant to

this rule have been carefully considered. Based upon the draft environmental impact statement issued on May 21, 1982, concerning the same type of resource considerations, and the public comments on that document, it has been determined that this rule will have no significant impact on the environment. A Finding of No Significant Impact has been prepared and a copy may be obtained by writing the U.S. Fish and Wildlife Service (see address).

(2) *Statement of Effects:* The Department of the Interior has determined that this document is not a major rule under E.O. 12291, and certifies that this rule will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). It is anticipated that this "opting-in" provision will be exercised by very few individuals and, therefore, will not have a significant economic impact.

(3) *Paperwork Reduction Act:* This rule does not contain information collection requirements which require approval by the Office of Management and Budget under 44 U.S.C. 3501 et seq.

(4) *Authorship Statement:* This document has been prepared by the Coastal Barriers Task Force within the Department of the Interior. The Chairman of the Task Force is Mr. Ric Davidge, Office of the Assistant Secretary for Fish and Wildlife and Parks.

(5) *Public Comments:* The proposed rulemaking was published in the Federal Register of February 28, 1983, (48 FR 8310) and invited comments ending on March 18, 1983. Comments were received from one source. This source recommended removal of the minimum size criterion for inclusion in the System. We concur with this recommendation and have removed the minimum size limitation from the final rule.

Opting-in to the CBRS

Criteria

The legislative history of paragraph 4(a)(2) states "that the only limitation intended on the application (of this provision) is that the property sought to be brought into the System be located on a coastal barrier or associated landform within reasonable proximity of and physically comparable to an established unit of the System."

The following categories of areas qualify for inclusion under this paragraph:

(1) Contiguous with and located on the same coastal barrier landform as an existing unit of the Coastal Barrier Resources System.

(2) Properties, regardless of location, on the same coastal barrier landform as a unit of the Coastal Barrier Resources System, which are not contiguous with the unit.

(3) Any coastal barrier or portion thereof protected for recreation, wildlife refuge, sanctuary, or scientific purposes.

(4) Coastal landforms containing a core of consolidated sedimentary material. Each area must be physically comparable with an existing unit's characteristics. An area will not be included if it is highly developed or if it is separated by a natural barrier, such as a major river or substantial cliffs, from an existing unit. It must also be within five miles of an existing unit. Where questions concerning these criteria arise, owners are encouraged to submit an application which will be carefully considered on a case-by-case basis.

Proof of ownership

To be included in the System, one of the following proofs of ownership or control of the land must be provided:

1. Fee simple title or its functional equivalent; or

2. An heir in possession of "heir's" property; or

3. A trustee or trustees of a perpetual trust with control of use and disposition of the property in question.

Procedures for Registration

To become certified as part of the System, landowners who meet the requirements must:

1. Secure an official coastal barrier map or appropriate 1:24,000 quadrangle map from the U.S. Geological Survey and outline the property on the map. (Procurement information follows.)

2. Submit the map, with proof of property ownership, to the Director, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240, postmarked no later than October 18, 1983.

3. Upon notification of acceptance by the Department of the Interior, file the election in accordance with the real property laws regulating the sale or other transfer of land or other real property of the State in which the land is located. Such filing must indicate that the property in question has been irrevocably included within the CBRS.

4. Notify the Department of the Interior that filing has been completed.

Once in the System, the property will be treated as any other land in the System. Transfer of ownership cannot remove the property from the System. Only an amendment to the Act by the Congress can do so.

Map procurement information: Individual unit maps may be secured for $3.25 from: Eastern—National Cartographic Information Center, U.S. Geological Survey, 536 National Center, Reston, Virginia 22092, Telephone: (703), 860–6336.

Make checks payable to: U.S. Geological Survey.

Dated: April 6, 1983.

G. Ray Arnett,

Assistant Secretary for Fish and Wildlife and Parks.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[BC Docket No. 82-719; RM-4190]

FM Broadcast Stations in Mary Esther, Florida

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This action assigns Channel 288A to Mary Esther, Florida, in response to a petition filed by Richard Allen Humphrey. The proposed station could provide a first local FM broadcast service to Mary Esther.

DATE: Effective: June 13, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Mass Media Bureau, (202) 634–6530.

List of Subjects in 47 CFR Part 73

Radio broadcasting.

Report and Order Proceeding Terminated

In the Matter of: Amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Mary Esther, Florida) BC Docket No. 82–719, RM–4190.

Adopted: April 1, 1983.
Released: April 14, 1983.

By the Chief, Policy and Rules Division:

1. The Commission has under consideration a *Notice of Proposed Rule Making*, 47 FR 49418, published November 1, 1982, proposing the assignment of Channel 288A to Mary Esther, Florida, as that community's first FM assignment. Supporting comments were filed by the petitioner restating his

intention to apply for the channel, if assigned.

2. In the *Notice* we indicated that the assignment of Channel 288A to Mary Esther would require a site restriction of approximately 1.2 miles south of the city to avoid short-spacing to Station WIGC(FM), Troy, Alabama. Due to this restriction and Mary Esther's close proximity to the Gulf of Mexico, it was determined that site availability could be somewhat of a problem. Petitioner was requested to address this issue in comments to the proposal. In response, petitioner alleges that the licensee for Station WIGC(FM) was recently granted a construction permit to move its transmitter 8 miles north of its present site. According to the petitioner, this move would open up a large area of potential sites for a Mary Esther station. Petitioner also claims that he may be able to share on one of two existing towers in the area or build a third tower.

3. The Commission believes that the public interest would be served by assigning Channel 288A to Mary Esther, since it could provide that community with its first local FM service. The recent grant of a permit for Station WIGC(FM) to relocate its transmitter site eliminates the imposition of site restriction and our concern on the availability of sites for a transmitter.

4. Accordingly, pursuant to authority contained in Sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, *it is ordered*, that effective June 13, 1983, the FM Table of Assignments, § 73.202(b) of the Commission's Rules, is amended with regard to the following community:

City	Channel No.
Mary Esther, Fla	288A

5. *It is further ordered*, that this proceeding *is terminated.*

6. For further information concerning this proceeding, contact Montrose H. Tyree, Mass Media Bureau, (202) 634–6530.

(Secs. 4, 303, 48 Stat. as amended, 1068, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Division, Mass Media Bureau.

Radio broadcasting.

Report and Order

Proceeding Terminated

In the Matter of: Amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Imperial, Nebraska) BC Docket 82–730, RM–4195.

Adopted: April 1, 1983.
Released: April 19, 1983.

By the Chief, Policy and Rules Division:

1. The Commission has under consideration the *Notice of Proposed Rule Making*, 47 FR 50722, published November 9, 1982, proposing the assignment of Channel 221A to Imperial, Nebraska, as its first FM broadcast service, in response to a petition filed by Jerrell E. Kautz ("petitioner"). The petitioner originally sought the assignment of Channel 276A to Imperial, Nebraska. However, we noticed that Channel 276A would have been short spaced by approximately 13 miles to Station KZMC–FM, McCook, Nebraska. A staff study showed that Channel 221A was alternately available for assignment to Imperial, Nebraska, without a site restriction.

2. In his comments, petitioner indicated that the license for Station KZMC–FM has been modified to specify Class C Channel 287 in BC Docket 80–569 and petitioner in the licensee of that station. He states that he expects the changeover at McCook to be made before Channel 276A could be constructed at Imperial. Thus, the impediment that would have prevented the assignment of Channel 276A to Imperial, Nebraska, has been removed.

3. The Commission has determined that the public interest would be served by assigning Channel 276A to Imperial, Nebraska, since it could provide a first local FM broadcast service to that community.

4. Accordingly, pursuant to authority contained in §§4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, *it is ordered*, That effective June 20, 1983, § 73.202(b) of the Commission's Rules, *is amended* with regard to the following community:

City	Channel No.
Imperial, Nebr	276A

6. *It is further ordered*, that this proceeding *is terminated.*

7. For further information concerning this proceeding, contact Mark N. Lipp, Mass Media Bureau (202) 634–6530.

(Secs. 4, 303, 48 stat. as amended, 1066, 1082; 47 U.S.C. 154, 303)

[Ex Parte No. 311 (Sub-No. 4)]

Motor Carriers; Modification of the Motor Carrier Fuel Surcharge Program

AGENCY: Interstate Commerce Commission.

ACTION: Change in owner-operator fuel reimbursement figure; rule-related notice.

SUMMARY: Due to a change in the nationwide average cost of diesel fuel, owner-operator reimbursement has changed from 10.5 to 11 cents per mile.

EFFECTIVE DATE: This decision will be effective on May 10, 1983.

FOR FURTHER INFORMATION CONTACT:

Lee Alexander, (202) 275–7723
Ted Kalick, (202) 275–6446
Alan Rothenberg, (202) 275–7597
Boston, MA, (617) 223–2372
Philadelphia, PA, (215) 597–4460
Atlanta, GA, (404) 881–2167
Chicago, IL, (312) 353–6204
Ft. Worth, TX, (817) 334–2794
San Francisco, CA, (415) 974–7125

SUPPLEMENTARY INFORMATION: In a decision served March 14, 1983 (48 FR 10846, March 15, 1983), the Commission established owner-operator reimbursement at 10.5 cents per mile for all carrier-related business miles. This change became effective March 29, 1983. As noted in the October 8, 1981 decision (46 FR 50070, October 9, 1981), the mileage payment will change when the price of fuel in conjunction with the reimbursement formula causes the figure to rise or decline by .5 cents per mile.

As of April 18, 1983, the current price of diesel fuel was 116.3 cents per gallon the reimbursement figure is 11.2. Ten working days after publication of the notice in the **Federal Register** (effective May 10, 1983), carriers shall reimburse owner-operators at a minimum of 11 cents per mile.

During this 10-day period or after, if they choose, carriers may adjust their rates to reflect the change in owner-operator reimbursement by using the 10-day notice provisions of Special Permission No. 81-2500 (see Part 2 of Appendix B and Appendix C to the October 8 decision). All other normal rate-making avenues are also available.

Notice shall be given to the general public by mailing a copy of this decision to the Governor of each State having jurisdiction over transportation by depositing a copy in the Office of the Secretary, Interstate Commerce Commission, Washington D.C., for public inspection and by depositing a copy with the Director, Office of the Federal Register, for publication.

Decided: April 18, 1983.

By the Commission, Heber P. Hardy, Director, Office of Proceedings.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 1505-01-M

50 CFR Part 655

[Docket No. 30418-59]

Atlantic Mackerel, Squid, and Butterfish Fisheries

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Rule related notice; Preliminary initial specifications and request for comments.

SUMMARY: NOAA issues this notice to provide preliminary initial annual specifications for the Atlantic Mackerel, Squid, and Butterfish fisheries. NOAA also requests comments on the specifications. Regulations governing these fisheries require that the Secretary publish these preliminary specifications. This action will provide the data and comments for the Secretary's final determination of the initial annual specifications for the current fishing year.

DATE: Comments must be received on or before May 26, 1983.

ADDRESS: Send comments to Allen E. Peterson, Jr., National Marine Fisheries Service, NOAA, 14 Elm St., Federal Building, Gloucester, MA 01930.

FOR FURTHER INFORMATION CONTACT: Salvataore Testaverde, 617-281-600 Ext. 273.

SUPPLEMENTARY INFORMATION: An emergency interim rule to implement Amendment No. 3 to the Fishery Management Plans for the Atlantic Mackerel, Squid, and Butterfish Fisheries was effective on April 1, 1983 (48 FR 14554). Section 655.21(b) requires the Secretary to determine annual specifications of the respective optimum yields (OYs) and the amounts for domestic annual harvest (DAH), domestic annual processing (DAP), and total allowable level of foreign fishing (TALFF) for Atlantic Mackerel, *Illex* and *Loligo* squids, and Atlantic butterfish. Procedures for determining the initial annual amounts are set out under § 655.22 of these regulations. Section 655.22(b) requires the Secretary to publish a notice that specifies preliminary initial amounts of OY, DAH, DAP, TALFF, and reserve (if any) for each species by February 1 of each year and to provide for a 30-day comment period on the preliminary specifications. Regulations to implement Amendment No. 3 were not effective until April 1, 1983, and a notice was not published by February 1, 1983; thus, the preliminary specifications could not be made at the time set out in the regulations. This notice now provides these preliminary specifications.

The Mid-Atlantic Fishery Management Council's recommendation and all relevant data are available in aggregate form for inspection at the office of the Regional Director at the above address during the comment period. A notice of the determination and responses to public comments will be published in the **Federal Register** after the conclusion of the comment period.

Specifications

The following table lists the preliminary initial specifications in restrictions for the OYs, DAHs, DAPs, reserve, and TALFFs for *Illex* and *Loligo* squids, Atlantic mackerel, and butterfish.

Species	OY	DAH	DAP	Reserve	TALFF
Squid					
Illex	30,00	27,100	5,000	.1,450	1,450
Loligo	44,000	22,000	10,300	11,000	11,000
Mackerel	101,700	30,000	5,000	35,850	35,850
Butterfish	up to 16,000	11,000	10,000	0	(1)

[1] See text

Discussion

Illex squid.

In 1982, U.S. fishermen landed 3,432 mt of *Illex* squid for shoreside processing, a six-fold increase over 1981 landings. Although the Council recommended an increase in DAP to 10,000 mt, this increase was based on unsubstantiated reports of domestic landings. The Secretary has selected the DAP of the past three years, or 5000 mt, as the preliminary specification. (The DAH was equal to DAP during that 3-year period.) This will allow for continued growth in shoreside landings.

Applications for *Illex* squid joint ventures totalled over 42,000 mt. Since the OY is only 30,000 mt, joint venture processing (JVP) capacity must be limited to the amount not needed for shoreside processing. Historical data for the *Loligo* squid, Atlantic mackerel, and hakes fisheries indicate 2,900 mt may be needed to supplement TALFF for the incidental foreign catch of *Illex* squid if the foreign directed fisheries in the Northwest Atlantic develop as discussed below. Therefore, JVP is specificed as 22,100 mt. JVP plus DAP constitute DAH, or 27,100 mt. The DAH plus incidental catch amount equals the OY of 30,000 mt.

Under § 655.21(b)(1), the initial *Illex* squid TALFF and reserve specifications are equal. Therefore, the initial TALFF is half of 2,900 mt, or 1,450 mt. The other 1,450 mt may be released from reserve to TALFF in September, under the

provisions of § 655.23, if necessary and available.

The TALFF will be allocated to foreign nations as incidental catch quantities for other Atlantic fisheries. NOAA used historical performance in the foreign *Loligo* squid, Atlantic mackerel, and silver and red hake fisheries to establish the incidental catch allowances for *Illex* squid, tabulated below:

Loligo squid	8.4 mt. *Illex* per 100 mt.
Atlantic mackerel	1.71 mt. *Illex* per 100 mt.
Silver hake	0.19 mt. *Illex* per 100 mt.
Red hake	0.19 mt. *Illex* per 100 mt.

Loligo squid.

The *Loligo* squid OY is equal to the MSY of 44,000 mt.

In 1982, U.S. fishermen landed 3,770 mt of *Loligo* squid for shoreside processing, a 30 percent increase from 1981. Shoreside processors estimate that they can utilize up to 22,000 mt in 1983, mostly for export. Growth in the export market is dependent upon two factors:

1. A reduced offshore foreign catch of *Loligo* squid and,

2. The amount of *Loligo* squid allowed for joint ventures.

Shoreside processors of *Loligo* squid are concerned that U.S.-harvested *Loligo* squid delivered to foreign processing vessels will displace shoreside landings. However, there is no clear evidence to support or refute this contention.

DAH is specified as 22,000 mt. To create a balance between joint venture requests and concerns of the shoreside processors, the Secretary is specifying an increased DAP of 10,300 mt, and a JVP of 11,700 mt. Although this DAP is less than the industry estimate, it allows for three-fold growth for shoreside processors. The 11,000 mt in reserve (see below) will be available for additional growth during 1983.

OY minus DAH equals 22,000 mt. One-half of this, or 11,000 mt, is assigned to reserve and the other half to TALFF, as required by § 655.21(b)(1). The foreign harvest of *Loligo* squid during the 1982–83 fishing year was 12,733 mt, so a TALFF of 11,000 mt will allow about the same level of fishing in 1983.

Atlantic Mackerel

Procedures set out at § 655.21 (a)(2) and (b)(2)(if) were used to determine the initial annual specifications for Atlantic mackerel. At a natural mortality rate of 0.3, the estimated 1983 spawning stock size is 706,600 mt. To achieve a spawning stock size of 600,000 mt at the beginning of the 1984 fishing year, 188,800 mt of mackerel would have to be harvested. The fishing mortality rate at this level, however, would equal 0.538. Since § 655.21(b)(2)(ii) prohibits the rate from exceeding 0.4, the harvest level is revised downward to 146,700 mt. This will result in a spawning stock of 635,800 mt at the end of this fishing year.

The catch in the Canadian fishery during 1983 is estimated at 45,000 mt. The acceptable catch (AC), therefore, equals 146,700 mt minus the Canadian catch, or 101,700 mt.

The DAH is set at 30,000 mt. The DAH includes a DAP of 5,000 mt to allow an increase over the 2,944 mt landed in 1982. The recreational catch, estimated by the formula of § 655.21(b)(2), will be about 4,500 mt. The balance of the DAH, 20,500 mt, is the estimated domestic harvest amount available for joint ventures during the fishing year.

Section 655.21(b)(2)(ii)(C) provides that under the circumstances above, the OY is equal to the AC, or 101,700 mt. Similarly, TALFF plus reserve was determined under § 655.21(b)(2)(ii)(C)(*3*) and is equal to 71,700 mt. One-half, or 35,850 mt, is assigned to TALFF and 35,850 mt to reserve.

Butterfish

Section 655.21(b)(3) specifies that the DAH for butterfish is the estimated domestic annual harvest and the DAP is the estimated amount of the DAH that domestic processors will process. Domestic landings of butterfish during 1982 were 7,804 mt, which is an increase of 35 percent over 1981. A similar increase in the current fishing year would require that DAP be specified at 10,000 mt. One joint venture application for 1,000 mt of butterfish has been received. Therefore, the Secretary specifies an initial DAH of 11,000 mt and an initial DAP of 10,000 mt.

Section 655.21(b)(3) also provides that the TALFF be determined by applying the fixed percentages noted in that section to allocations for foreign fisheries for *Loligo* squid, *Illex* squid, Atlantic mackerel, silver hake, and red hake. The TALFF is a floating number that increases as the Secretary of State allocates squids, mackerel, and hakes to foreign countries. Further, the butterfish OY is the sum of the DAH plus the floating TALFF, but cannot exceed the maximum of 16,000 mt. Thus the Secretary is not specifying initial amounts of OY and TALFF. As the year progresses, OY, DAH and TALFF will be monitored so that the 16,000 mt figure is not exceeded.

Classification

This action is required by 50 CFR 655, and complies with E.O. 12291.

Correction

In FR Doc. 83–9622 beginning on page 15634 in the issue of Tuesday, April 12, 1983, make the following correction:

In § 52.2053, Table III, near the top of page 15637, in the entry for *Character*, under Grade B, Maximum sample average, insert "Reasonably good [1]".

BILLING CODE 1505-01-M

FEDERAL RESERVE SYSTEM

12 CFR Part 269

[Docket No. R–0462]

Policy on Labor Relations for the Federal Reserve Banks; Policy on Labor Relations for the Board of Governors of the Federal Reserve System

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Proposed Policy Statements.

SUMMARY: The Board of Governors of the Federal Reserve System proposes to revise substantially its Policy on Unionization and Collective Bargaining for the Federal Reserve Banks, which was adopted in 1969, to provide, with certain restrictions, for the exclusive recognition of labor organizations to represent employees of the Federal Reserve Banks. The proposed revision would change the composition of the Federal Reserve System Labor Relations Panel, which is charged with administering the matters that are subject to collective bargaining; and would eliminate the current requirement that in representation elections 60 percent of eligible voters must vote in order for a labor organization to prevail. The proposal would also make some additional, less significant, changes in the procedures established by the Policy and would clarify some of the Policy's language. The Board also proposes to revise its Policy on Unionization and Collective Bargaining for the Board of Governors of the Federal Reserve System, which governs labor relations for employees of the Board. The proposed revisions to the Federal Reserve Board Policy would make that Policy comparable in substance to the proposed revised Policy governing employees of the Federal Reserve Banks.

DATE: All comments must be received by May 27, 1983.

ADDRESS: Comments, which must refer to Docket No. R–0462, may be mailed to William W. Wiles, Secretary, Board of Governors of the Federal Reserve System, 20th & Constitution Avenue, N.W., Washington, D.C. 20551, or delivered to Room B–2223 between 8:45 a.m. and 5:15 p.m. Comments received may also be inspected at Room B–1122 between 8:45 a.m. and 5:15 p.m., except as provided in § 261.6(a) of the Board's Rules Regarding Availability of Information (12 CFR 261.6(a)).

FOR FURTHER INFORMATION CONTACT: Charles W. Wood, Assistant Director, Division of Personnel (202) 452–3660, John R. Weis, Assistant Director, Division of Personnel (202) 452–3435, Richard M. Ashton, Assistant General Counsel, (202) 452–3750, Legal Division, Jennifer J. Johnson, Senior Counsel, (202) 452–3584, Legal Division, Board of Governors of the Federal Reserve System.

SUPPLEMENTARY INFORMATION: Pursuant to its statutory authority to exercise general supervision over the twelve regional Federal Reserve Banks that are part of the Federal Reserve System, the Board has issued a Policy on Unionization and Collective Bargaining for the Federal Reserve Banks (the "Reserve Bank Policy"), which provides for the exclusive recognition of a labor organization, within certain restrictions, to represent employees of a Reserve Bank.

The revision effects substantial changes in three major aspects of the Reserve Bank Policy. The current Policy provides for the establishment of the Federal Reserve System Labor Relations Panel, which is authorized to issue rules to implement the Policy and to serve as the final decisional authority in disputes in individual cases that arise under the Policy. Under the present Policy, the System Panel is comprised of two members of the Board and one person chosen from the public. The revised Policy would provide for a panel consisting of two public members and one Board member. The revised Policy would further provide that the public members of the Panel shall serve for a fixed term and may be removed from office only for neglect of duty or malfeasance in office.

Second, the revision would make certain changes with respect to the matters that may be bargained about by a Reserve Bank and an exclusive representative. Section 269.3(b) of the present Policy requires a Reserve Bank to negotiate with a recognized labor organization concerning personnel policies and working conditions but not with respect to specific designated areas of discretion and policy of the Reserve Bank, such as its purposes and functions, or the compensation of its employees. Section 269.7(a)(2) of the current Policy, governing the content of collective bargaining agreements, provides that the management of a Reserve Bank retains certain designated management rights, *e.g.*, the right to hire employees. The proposed revised Policy incorporates the list of non-negotiable topics and designated management rights, which are also clearly non-negotiable, into a single provision expressly listing all matters concerning which negotiation is not required.

The list of non-negotiable items in the revised Policy is generally the same as the matters determined in the current Policy to be not subject to bargaining or to be management rights. The revision would add a provision stating that a Reserve Bank shall upon request discuss, but shall not be required to negotiate with respect to, the procedures followed by a Reserve Bank in excercising the management rights designated in the Policy. The revised provision allows a Reserve Bank to elect to negotiate with regard to procedures for implementing management rights.

Third, the revision would modify the required showing of support a labor organization must obtain in a representation election in order to be recognized. As currently written, the

Policy provides that a labor organization is recognized if a majority of the employees in the bargaining unit vote in favor of the union and if 60 per cent of employed in the unit eligible to vote actually vote. This provision is revised to adopt the usual rule in unionization elections: the labor organization is recognized if a majority of employees in the unit voting select the labor organization. The proposal also modifies the required showing necessary to revoke the recognition of a labor organization.

The proposed revision makes a number of other changes in the procedures to be followed by labor organizations in seeking representation of Reserve Bank employees. For example, in cases where a labor organization has made the requisite showing necessary to obtain a representation election, the revised Policy would provide for the creation of a three-member Special Tribunal, composed of a representative of the Reserve Bank, a representative of the labor organization, and an independent arbitrator chosen from a list provided by the American Arbitration Association. The Special Tribunal would be authorized to determine, subject to appeal to the System Panel, the appropriate bargaining unit and to resolve elections disputes.

The proposed revision would also add a new section to the Policy providing for the assistance of an independent mediator upon request in the event of an impasse in negotiations for a collective bargaining agreement. The new provision would replace regulations issued by the System Panel concerning bargaining impasses (12 CFR Part 294), which would be removed. The regulation issued by the System Panel with respect to unfair labor practice procedure (12 CFR Parts 290, 292) would be adopted as regulations of the Board.

The proposed revision also would eliminate the existing requirement that arbitration of grievances pursuant to a collective bargaining agreement be advisory in nature, and would provide that arbitration may extend only to grievances that involve interpretation of a labor agreement and may be invoked only by a labor organization. In addition, the revision would add a new section to the Policy establishing procedures for mediation by an independent arbitrator of any impasse in negotiations for a collective bargaining agreement.

The Board also proposes to revise its Policy on Unionization and Collective Bargaining for the Board of Governors of the Federal Reserve System, governing labor relations for Board employees. The proposed revision would incorporate the revisions proposed to be made to the Policy covering employees of the Reserve Banks. Some of the revisons proposed to be made to the Reserve Bank Policy, such as modifying the composition of the governing panel, are already contained in the current Policy covering Board employees. The proposed changes to the Board Policy would make the two Policies substantially the same in all material respects.

Lists of Subjects in 12 CFR Part 269

Federal Reserve System, Labor-management relations, Labor organizations.

1. Pursuant to its authority under section 11(j) of the Federal Reserve Act, 12 U.S.C. 248(j), the Board proposes to revise Part 269 to read as follows:

PART 269—POLICY ON LABOR RELATIONS FOR THE FEDERAL RESERVE BANKS

Sec.

269.1 Definition of a labor organization.
269.2 Membership in a labor organization.
269.3 Recognition of a labor organization and its relationship to a Federal Reserve Bank.
269.4 Determination of appropriate bargaining unit.
269.5 Elections.
269.6 Unfair labor practices.
269.7 Approval of agreement and required contents.
269.8 Grievance procedures.
269.9 Mediation of negotiation impasses.
269.10 Time for internal labor organization business, consultations, and negotiations.
269.11 Federal Reserve System Labor Relations Panel.
269.12 Amendment.

Authority: Sec 11(j) of the Federal Reserve Act, 12 U.S.C. 248(j).

§ 269.1 Definition of a labor organization.

When used in this part, the term "labor organization" means any lawful organization of any kind, or any employee representation group, which exists for the purpose, in whole or in part, of dealing with any Federal Reserve Bank concerning grievances, personnel policies and practices, or other matters affecting the working conditions of its employees, but the term shall not include any organization: (a) Which asserts the right to strike against the government of the United States, the Board of Governors of the Federal Reserve System, or any Federal Reserve Bank, or to assist or participate in any such strike, or which imposes a duty or obligation to conduct, assist or participate in any such strike; or (b) which fails to agree to refrain from seeking or accepting support from any organization which employs coercive tactics affecting any Federal Reserve Bank's operations; or (c) which advocates the overthrow of the constitutional form of the government of the United States; or (d) which discriminates with regard to the terms or conditions of membership because of race, color, sex, creed, age or national origin.

§ 269.2 Membership in a labor organization.

(a) Any employee of a Federal Reserve Bank (hereinafter referred to as "Bank") is free to join and assist any existing labor organization or to participate in the formation of a new labor organization or to refrain from any such activities except that officers and their administrative or confidential assistants, managers, and other supervisory personnel, secretaries to all such persons and all employees engaged in Bank personnel work shall not be represented by any labor organization.

(b) The rights described in paragraph (a) of this Section for employees do not extend to participation in the management of a labor organization, or acting as a representative of any such organization, where such participation or activity would conflict with law or the duties of an employee.

(c) Notwithstanding anything stated in paragraph (a) of this Section, professional employees of a Bank shall not be represented by a labor organization which represents other employees of the Bank unless a majority of the professional employees eligible to vote specifically elect to be represented by such labor organization. However, the professional employees of a Bank may, if they so choose, be represented by a separate labor orgnization of their own, or by no labor organization at all.

(d) Notwithstanding anything stated in paragraph (a) of this Section, the guards of a Bank shall not be members of a labor organization which represents other categories of employees of the Bank. However, the guards of a Bank may, if they so choose, be represented by a separate labor organization of their own, or by no labor organization at all.

§ 269.3 Recognition of a labor organization and its relationship to a Federal Reserve Bank.

(a) Any labor organization shall be recognized as the exclusive bargaining representative of the employees in an appropriate unit of a Bank when that organization has been selected by the employees in said unit pursuant to the procedure set forth in § 269.5. A unit may be established in a Bank on any

basis which will ensure a clear and identifiable community of interest among the employees concerned, and will promote effective relationships and the efficiency of the Bank's operations, but no unit shall be established solely on the basis of the extent to which a labor organization or employees in the proposed unit may have sought organization.

(b) When a labor organization has been recognized as the exclusive representative of employees in an appropriate unit, it shall be entitled to act for and to negotiate agreements in good faith covering all employees in the unit, and it shall be responsible for representing the interests of all such employees without discrimination and without regard to whether they are members of that labor organization or not, provided that nothing in this Policy shall prevent an employee from adjusting his or her grievance without the intervention of the recognized labor organization. The labor organization shall be given notice of the adjustment and a reasonable opportunity to object on the sole ground that it is in conflict with the terms of the collective bargaining agreement.

(c) A Bank, through appropriate officials, shall have the obligation to meet at reasonable times with representatives of a recognized labor organization to negotiate, in good faith, with respect to personnel policies and practices affecting working conditions for employees, provided that they do not involve matters in any of the following areas:

(i) The purposes and functions of the Bank; the compensation of and hours worked by employees; any classification system used to evaluate positions; the budget of the Bank; the retirement system; any insurance or other benefit plans; internal security operations; maintenance of the efficiency of Bank operations including the determination of work methods; the right to contract out; the determination as to manpower requirements; use of technology and organization of work; and action to meet emergency situations;

(ii) Management rights as to the direction of employees, including hiring, promotion, transfer, classification, assignment, layoffs, retention, suspension, demotion, discipline and discharge, provided that on matters involving the procedures to be followed by a Bank for the exercise of its rights under this subparagraph, a Bank shall, upon request, discuss such procedures with a recognized labor organization, but shall not be required to negotiate for an agreement as to them;

(iii) All Bank matters specifically governed by applicable laws or regulations. The obligation under this paragraph to negotiate with regard to certain matters shall include the execution of a written contract incorporating any agreement reached, but does not compel either a Bank or a labor organization to agree to a particular proposal or to make any concession during such negotiations.

(d) At the time it requests an election to be held, any labor organization seeking recognition shall submit to a Bank a roster of its officers and representatives, a copy of its constitution and bylaws, and a statement of its objectives.

(e) Subject to the provisions of § 269.8, the exclusive recognition of a labor organization shall not preclude any employee, regardless of labor organization membership, from bringing matters of personal concern not governed by a collective bargaining agreement to the attention of appropriate officers, managers or supervisory personnel in accordance with applicable law, rule, regulation, or established Bank policy, or from choosing his or her own representative in such matters.

§ 269.4 Determination of appropriate bargaining unit.

(a) If a labor organization asserts in writing to a Bank that it holds cards requesting a representation election signed by at least thirty percent (30%) of the employees in a unit which that organization considers to be an appropriate bargaining unit, the labor organization and the Bank shall each designate a representative who together shall request the American Arbitration Association (hereinafter referred to as "Association") to submit to them from its National Panel of Professional Labor Arbitrators a list of seven (7) impartial, qualified professional arbitrators. The two designated representatives shall meet promptly and, by alternately striking names from the list, arrive at the remaining person who, together with the two representatives, shall constitute a Special Tribunal to rule on the labor organization's request for an election. The impartial arbitrator shall always act as the Chairperson of any Special Tribunal duly constituted under this Section.

(b) In the absence of an agreement between the labor organization and the Bank on the appropriate unit, the Tribunal shall investigate the facts, hold hearings if necessary, and issue a decision as to the appropriateness of the unit for the purposes of conducting a representation election for exclusive recognition and as to related issues submitted for consideration. The expenses for this proceeding, including the fees of the association and of the arbitrator, shall be borne equally by the labor organization and the Bank. If either the Bank or the labor organization should disagree with the Special Tribunal's decision, the party in disagreement may appeal within thirty (30) calendar days to the Federal Reserve System Labor Relations Panel referred to in Section 269.11, and the decision of the System Panel shall be final and binding on the parties.

(c) If there is any dispute as to whether a labor organization holds cards signed by at least thirty percent (30%) of the employees in a unit claimed by a labor organization as appropriate or subsequently determined by the Special Tribunal as appropriate, the dispute shall be resolved by the Chairperson of the Special Tribunal, acting as a single impartial arbitrator. The expenses of such procedure, including the impartial arbitrator's fee, shall be borne equally by the labor organization and the Bank. The decision of the Chairperson of the Special Tribunal shall be final and binding and shall not be subject to appeal to the Federal Reserve System Labor Relations Panel.

§ 269.5 Elections.

(a) Once there has been a final determination of the existence of an appropriate bargaining unit under the procedure in § 269–4, and a showing by a labor organization that it has cards signed by at least thirty percent (30%) of the employees in such unit requesting a representation election, an election shall be ordered by the Special Tribunal. A labor organization shall be recognized as the exclusive bargaining representative of the unit if it is selected by a majority of the employees in the unit actually voting.

(b) The election shall be held under the auspices of the Association and shall be subject to its election rules and regulations. However, if there should be any conflict between such rules and regulations and the provisions of this Policy, the latter shall prevail. The fees charged by the Association for its election service shall be borne equally by the labor organization and the Bank.

(c) An election to determine whether a labor organization should continue as the exclusive bargaining representative of a particular unit shall be held when requested by a petition or other bona fide showing by at least thirty percent (30%) of the employees of that unit. Any dispute as to whether thirty percent

(30%) of the employees requested such an election shall be resolved by the same procedure as that set forth in § 269.4(b). The election shall be held under the auspices of the Association in the same manner described in paragraph (b) of this Section. The recognition of a labor organization as the exclusive bargaining representative of a unit shall be revoked if a majority of the employees in the unit who actually vote signify approval of such revocation.

(d) Only one election may be held in any unit in a twelve (12) month period to determine whether a labor organization should become, or continue to be recognized as, the exclusive representative of the employees in that unit.

(e) Upon receipt of a request for an election from a labor organization under § 269.4(a), it shall be incumbent on the Bank, labor organization and all others to refrain from any conduct, action or policy that interferes with or restrains employees from making a fair and free choice in selecting or rejecting a bargaining representative consistent with the right of the Bank, labor organization or employees to exercise privileges of free speech in the expression of any views, argument or opinion, or the dissemination thereof, whether in oral, written, printed, graphic or visual form.

(f) The Special Tribunal shall hear and decide any post-election objections of a Bank or labor organization filed with it claiming that a violation of paragraph (e) of this section has improperly affected the outcome of the election. Such objections must be filed with the Special Tribunal no later than five (5) business days after the date of election. In the event of such violation by a Bank, labor organization or other individuals or organizations which the Special Tribunal finds sufficient to have prejudiced the outcome of an election, appropriate remedial action shall be taken in the form of setting aside the election results and ordering a new election, provided, however, that an appeal from the order of the Special Tribunal may be taken within thirty (30) calendar days to the Federal Reserve System Labor Relations Panel by either the affected Bank or labor organization. The ruling of the System Panel shall be final and binding. Neither the Special Tribunal nor the Federal Reserve System Labor Relations Panel shall have the authority to direct a Bank to recognize a labor organization as the exclusive collective bargaining representative without a valid election being held in which a majority of the employees actually voting have so designated such labor organization.

(g) The Special Tribunal and the Federal Reserve System Labor Relations Panel will adhere to any rules and regulations promulgated by the Board of Governors for the administration of the provisions of paragraphs (e) and (f) of this Section.

§ 269.6 Unfair labor practices

(a) It shall be an unfair labor practice for a Bank to: (1) Interfere with, restrain, or coerce employees in the exercise of the rights guaranteed in § 269.2(a); (2) dominate or interfere with the formation or administration of any labor organization, or to contribute financial or other support to it; (3) encourage or discourage membership in any labor organization by discrimination in regard to hire or tenure of employment or any term or condition of employment; (4) refuse to bargain collectively with the representatives of its employees subject to the provisions of § 269.3 (b) and (c).

(b) It shall be an unfair labor practice for a labor organization, its agents or representatives to: (1) Restrain or coerce employees in the exercise of the rights guaranteed in § 269.2(a); (2) cause or attempt to cause a Bank to discriminate against an employee in violation of paragraph (a)(3) of this section; (3) refuse to bargain collectively with a Bank, provided the labor organization is the exclusive representative of a unit of employees.

(c) Notwithstanding anything previously stated in this Section, the expression of any view, argument or opinion, or the dissemination thereof, whether in oral, written, printed, graphic or visual form, shall not constitute or be evidence of an unfair labor practice, if such expression contains no threat of reprisal or force, or promise of benefit.

(d) The Federal Reserve System Labor Relations Panel will adhere to the rules and regulations promulgated by the Board of Governors for the prevention and remedy of the unfair labor practices listed herein.

§ 269.7 Approval of agreement and required contents.

Any agreement entered into with a labor organization as the exclusive representative of employees in a unit must be approved by the President of the Bank or a designated officer representative. All agreements with labor organizations shall also be subject to the requirement that the administration of all matters covered by the agreement shall be governed by the provisions of applicable laws and Federal Reserve System rules and regulations, and the agreement shall at all times be applied subject to such laws and regulations.

§ 269.8 Grievance procedures.

(a) Subject to the provisions of § 269.3(b), an agreement entered into with a labor organization as the exclusive representative of employees in a unit may contain a grievance procedure, applicable only to employees in such unit and which shall be the exclusive means for a labor organization and/or an employee to obtain resolution of a grievance arising under such agreement.

(b) Grievance procedures established by a labor agreement may also include provisions for arbitration of unresolved grievances by a tripartite panel under the Voluntary Labor Arbitration Rules of the Association with the impartial arbitrator selected by the Bank and labor organization representatives on the arbitration panel to be the Chairperson. In such event, arbitration shall extend only to grievances which involve the interpretation and application of specific provisions of a labor agreement and not to any other matters on to changes in or proposed changes in the agreement. Arbitration may only be invoked by a labor organization on behalf of individual employees with their concurrence.

§ 269.9 Mediation of negotiation impasses.

In the event of an impasse in negotiations between the parties for a collective bargaining agreement, either the labor organization or the Bank may request the Association to appoint a qualified neutral person as a mediator to assist the parties in attempting to resolve the impasse. The parties will meet promptly with the mediator, and all matters discussed, as well as any documents submitted, shall not be publicly divulged for any reason. The cost of the mediator shall be borne equally by the parties.

§ 269.10 Time for internal labor organization business, consultations and negotiations.

Solicitation of memberships, dues or other internal labor organization business shall be conducted during the nonduty hours of the employees concerned. Officially requested or approved consultation between management executives and representatives of a labor organization shall, whenever practicable, be conducted on official time, but the President or a duly authorized officer of a Bank may require that negotiations with a labor organization be conducted during the nonduty hours of the Bank.

§ 269.11 Federal Reserve System Labor Relations Panel.

There shall be established a Federal Reserve System Labor Relations Panel, which shall consist of three members: One member of the Board of Governors of the Federal Reserve System, who shall be Chairperson of the Panel, and two public members. Each member shall be selected by the Board of Governors; provided, however, that the public members shall not have any present or past affiliation with the Federal Reserve System. Initially, one of the two public members shall be appointed for a term of two years, and the other for a term of three years. Thereafter, each public member shall be appointed for a term of three years, except that in the case of an unexpired term of a former member, the successor shall be appointed to fill such unexpired term. Upon the expiration of their term of office, public members may continue to serve until their successors are appointed and have qualified. A public member may be removed by the Board only upon notice and hearing, and only for neglect of duty or malfeasance in office. The Panel shall be responsible for the duties assigned to it as set forth in this Policy.

§ 269.12 Amendment.

This policy may be amended upon appropriate legal notice to all Federal Reserve Banks and labor organizations recognized, or seeking recognition, at any such Bank under this Policy. In no instance shall an amendment be applied retroactively.

PART 290—[AMENDED]

PART 292—[AMENDED]

PART 294—[REMOVED]

2. The Board also proposes to adopt without change as regulations of the Board 12 CFR Parts 290 and 292, issued previously by the Federal Reserve System Labor Relations Panel, and to remove 12 CFR Part 294.

Upon final adoption, Parts 290 and 292 will be redesignated into subchapter A and renumbered accordingly.

3. Pursuant to its authority under section 10 of the Federal Reserve Act, 12 U.S.C. 244, the Board proposes to revise its Policy on Collective Bargaining for the Board of Governors of the Federal Reserve System to read as follows:

Policy on Labor Relations for the Board of Governors of the Federal Reserve System

Sec.

1 Definition of a labor organization.
2 Membership in a labor organization.
3 Recognition of a labor organization and its relationship to the Board.
4 Determination of appropriate bargaining unit.
5 Elections.
6 Unfair labor practices.
7 Approval of agreement and required contents.
8 Grievance procedures.
9 Mediation of Negotiation Impasses
10 Time for internal labor organization business, consultations, and negotiations.
11 Federal reserve System Labor Relations Panel.
12 Amendment.

Section 1 Definition of a Labor Organization

When used in this part, the term "labor organization" means any lawful organization of any kind, or any employee representation group, which exists for the purpose, in whole or in part, of dealing with the Board of Governors of the Federal Reserve System (hereinafter referred to as the "Board") concerning grievances, personnel policies and practices, or other matters affecting the working conditions of its employees, but the term shall not include any organization: (a) which asserts the right to strike against the government of the United States, the Board of Governors of the Federal Reserve System, or any Federal Reserve Bank, or to assist or participate in any such strike, or which imposes a duty or obligation to conduct, assist or participate in any such strike; or (b) which fails to agree to refrain from seeking or accepting support from any organization which employs coercive tactics affecting the Board's operation; or (c) which advocates the overthrow of the constitutional form of the government of the United States; or (d) which discriminates with regard to the terms or conditions of membership because of race, color, sex, creed, age or national origin.

Section 2 Membership in a Labor Organization

(a) Any employee of the Board is free to join and assist any existing labor organization or to participate in the formation of a new labor organization, or to refrain from any such activities except that officials and their administrative or confidential assistants, managers and other supervisory personnel, secretaries to all such persons and to members of the Board, and all employees engaged in the Board's personnel work shall not be represented by any labor organization.

(b) The rights described in paragraph (a) of this Section for employees do not extend to participation in the management of a labor organization, or acting as a representative of any such organization, where such participation or activity would conflict with law or the duties of an employee.

(c) Notwithstanding anything stated in paragraph (a) of this Section, professional employees of the Board shall not be represented by a labor organization which represents other employees of the Board unless a majority of the professional employees eligible to vote specifically elect to be represented by such labor organization. However, the professional employees of the Board may, if they so choose, be represented by a separate labor organization of their own, or by no labor organization at all.

(d) Notwithstanding anything stated in paragraph (a) of this Section, the guards of the Board shall not be members of a labor organization which represents other categories of employees of the Board. However, the guard of the Board may, if they so choose, be represented by a separate labor organization of their own, or by no labor organization at all.

Section 3 Recognition of a Labor Organization and its Relationship to the Board

(a) Any labor organization shall be recognized as the exclusive bargaining representative of the employees in any appropriate unit of the Board when that organization has been selected by the employees in said unit pursuant to the procedure set forth in Section 5. A unit may be established on any basis which will ensure a clear and identifiable community of interest among the employees concerned, and will promote effective relationships and the efficiency of the Board's operations, but no unit shall be established solely on the basis of the extent to which a labor organization or employees in the proposed unit may have sought organization.

(b) When a labor organization has been recognized as the exclusive representative of employees in an appropriate unit, it shall be entitled to at for and to negotiate agreements in good faith covering all employees in the unit, and it shall be responsible for representing the interests of all such employees without discrimination and without regard to whether they are members of the labor organization or not, provided that nothing in this Policy shall prevent an employee from adjusting his or her grievance without the intervention of the recognized labor organization. The labor organization shall be given notice of the adjustment and a reasonable opportunity to object on the sole ground that it is in conflict with the terms of the collective bargaining agreement.

(c) The Board, through appropriate representatives, shall have the obligation to meet at reasonable times with representatives of a recognized labor organization to negotiate, in good faith, with respect to personnel policies and practices affecting working conditions for employees, provided that they do not involve matters in any of the following areas:

(i) the purposes and functions of the Board; the compensation of and hours worked by employees; any classification system used to evaluate positions; the budget of the Board; the retirement system; any insurance or other benefit plans; internal security operations; maintenance of the efficiency of Board operations including the determination of work methods; the right to contract out; the determination as to manpower requirements; use of technology and organization of work; and action to meet emergency situations.

(ii) management rights as to the direction of employees, including hiring, promotion, transfer, classification, assignment, layoffs, retention, suspension, demotion, discipline and discharge, provided that on matters

involving the procedures to be followed by the Board for the exercise of its rights under this subparagraph, the Board shall upon request discuss such procedures with a recognized labor organization, but shall not be required to negotiate for an agreement as to them;

(iii) all Board matters specifically governed by applicable laws or regulations.

The obligation under this paragraph to negotiate with regard to certain matters shall include the execution of a written contract incorporating any agreement reached, but does not compel either the Board or a labor organization to agree to a particular proposal or to make any concession during such negotiations.

(d) At the time it requests an election to be held, any labor organization seeking recognition shall submit to the Board a roster of its officers and representatives, a copy of its constitution and bylaws, and statement of its objectives.

(e) Subject to the provisions of Section 8, the exclusive recognition of a labor organization shall not preclude any employee, regardless of labor organization membership, for bringing matters of personal concern not governed by a collective bargaining agreement to the attention of appropriate officers, managers or supervisory personnel in accordance with applicable law, rule, regulation, or established Bank policy, or from choosing his or her own representative in such matters.

Section 4 Determination of Appropriate Bargaining Unit

(a) If a labor organization asserts in writing to the Board that it holds cards requesting a representation election signed by at least thirty percent (30%) of the employees in a unit which that organization considers to be an appropriate bargaining unit, the labor organization and the Board shall each designate a representative who together shall request the American Arbitration Association (hereinafter referred to as "Association") to submit to them from its National Panel of Professional Labor Arbitrators a list of seven (7) impartial, qualified professional arbitrators. The two designated representatives shall meet promptly and, by alternately striking names from the list, arrive at the remaining person who, together with the two representatives, shall constitute a Special Tribunal to rule on the labor organization's request for an election. The impartial arbitrator shall always act as the Chairperson of any Special Tribunal duly constituted under this Section.

(b) In the absence of an agreement between the labor organization and the Board on the appropriate unit, the Tribunal shall investigate the facts, hold hearings if necessary, and issue a decision as to the appropriateness of the unit for purposes of conducting a representation election for exclusive recognition and as to related issues submitted for consideration. The expenses for this proceeding, including the fees of the Association and of the arbitrator, shall be borne equally by the labor organization and the Board. If either the Board or the labor organization should disagree with the Special Tribunal's decision, the party in disagreement may appeal within thirty (30) calendar days to the Federal Reserve System Labor Relations panel referred to in Section 11, and the decision of the Board Panel shall be final and binding on the parties.

(c) If there is any dispute as to whether a labor organization holds cards signed by at least thirty percent (30%) of the employees in a unit claimed by a labor organization as appropriate or subsequently determined by the Special Tribunal as appropriate the dispute shall be resolved by the Chairperson of the Special Tribunal, acting as a single impartial arbitrator. The expenses of such procedure, including the impartial arbitrator's fee, shall be borne equally by the labor organization and the Board. The decision of the Chairperson of the Special Tribunal shall be final and binding and shall not be subject to appeal to the Federal Reserve System Labor Relations Panel.

Section 5 Elections

(a) Once there has been a final determination of the existence of an appropriate bargaining unit the procedure in Section 4, and a showing by a labor organization that it has cards signed by at least thirty percent (30%) of the employees in such unit requesting a representation election, an election shall be ordered by the Special Tribunal. A labor organization shall be recognized as the exclusive bargaining representative of the unit if it is selected by a majority of the employees in the unit actually voting.

(b) The election shall be held under the auspices of the Association and shall be subject to its election rules and regulations. However, if there should be any conflict between such rules and regulations and the provisions of this Policy, the latter shall prevail. The fees charged by the Association for its election service shall be borne equally by the labor organization and the Board.

(c) An election to determine whether a labor organization should continue as the exclusive bargaining representative of a particular unit shall be held when requested by a petition or other bona fide showing by at least thirty percent (30%) of the employees of that unit. Any dispute as to whether thirty percent (30%) of the employees requested such an election shall be resolved by the same procedure as that set forth in Section 4(b). The election shall be held under the auspices of the Association in the same manner described in paragraph (b) of this Section. The recognition of a labor organization as the exclusive bargaining representative of a unit shall be revoked if a majority of the employees in the unit who actually vote signify approval of such revocation.

(d) Only one election may be held in any unit in a twelve (12) month period to determine whether a labor organization should become, or continue to be recognized as, the exclusive representative of the employees in that unit.

(e) Upon receipt of a request for an election from a labor organization under Section 4(a), it shall be incumbent on the Board, labor organization and all others to refrain from any conduct, action or policy that interferes with or restrains employees from making a fair and free choice in selecting or rejecting a bargaining representative consistent with the right of the Board, labor organization or employees to exercise privileges of free speech in the expression of any views, argument or opinion, or the dissemination thereof, whether in oral, written, printed, graphic or visual form.

(f) The Special Tribunal shall hear and decide any post-election objections of the Board or labor organization filed with it claiming that a violation of paragraph (e) of this Section has improperly affected the outcome of the election. Such objections must be filed with the Special Tribunal no later than five (5) business days after the date of election. In the event of such violation by the Board, labor organization or other individuals or organizations which the Special Tribunal finds sufficient to have prejudiced the outcome of an election, appropriate remedial action shall be taken in the form of setting aside the election results and ordering a new election, provided, however, that an appeal from the order of the Special Tribunal may be taken within thirty (30) calendar days to the Federal Reserve System Labor Relations Panel by either the Board or the affected labor organization. The ruling of the Board Panel shall be final and binding. Neither the Special Tribunal nor the Federal Reserve System Labor Relations Panel shall have the authority to direct the Board to recognize a labor organization as the exclusive collective bargaining representative without a valid election being held in which a majority of the employees actually voting have so designated such labor organization.

(g) The Special Tribunal and the Federal Reserve System Labor Relations Panel will adhere to any rules and regulations promulgated by the Board of Governors for the administration of the provisions of paragraphs (e) and (f) of this Section.

Section 6 Unfair Labor Practices

(a) It shall be an unfair labor practice for the Board to: (1) interfere with, restrain, or coerce employees in the exercise of the rights guaranteed in Section 2(a); (2) dominate or interfere with the formation or administration of any labor organization, or to contribute financial or other support to it; (3) encourage or discourage membership in any labor organization by discriminations in regard to hire or tenure of employment or any term or condition of employment; (4) refuse to bargain collectively with the representative of its employees subject to the provisions of Section 3(b) and (c).

(b) It shall be an unfair labor practice for a labor organization, its agents or representatives to: (1) restrain or coerce employees in the exercise of the rights guaranteed in Section 2(a); (2) cause or attempt to cause the Board to discriminate against an employee in violation of paragraph (a)(3) of this Section; (3) refuse to bargain collectively with the Board, provided the labor organization is the exclusive representative of a unit of employees.

(c) Notwithstanding anything previously stated in this Section, the expression of any view, argument or opinion, or the dissemination thereof, whether in oral,

written, printed, graphic or visual form, shall not constitute or be evidence or an unfair labor practice, if such expression contains no threat of reprisal or force, or promise of benefit.

(d) The Federal Reserve System Labor Relations Panel will adhere to the rules and regulations promulgated by the Board of Governors for the prevention and remedy of the unfair labor practices listed herein.

Section 7 Approval of Agreement and Required Contents

Any agreement entered into with a labor organization as the exclusive representative of employees in a unit must be approved by the Board of Governors or a designated representative. All agreements with labor organizations shall also be subject to the requirement that the administration of all matters covered by the agreement shall be governed by the provisions of applicable laws and Board rules and regulations, and the agreement shall at all times be applied subject to such laws and regulations.

Section 8 Grievance Procedures

(a) Subject to the provisions of Section 3(b), and agreement entered into with a labor organization as the exclusive representative of employees in a unit contain a grievance procedure, applicable only to employees in such unit and which shall be the exclusive means for a labor organization and/or an employee to obtain resolution of a grievance arising under such agreement.

(b) Grievance procedures established by a labor agreement may also include provisions for arbitration of unresolved grievances by a tripartite panel under the Voluntary Labor Arbitration Rules of the Association with the impartial arbitrator selected by the Board and the labor organization representatives on the arbitration panel to be the Chairperson. In such event, arbitration shall extend only to grievances which involve the interpretation and application of specific provisions of a labor agreement and not to any other matters or to changes in or proposed changes in the agreement. Arbitration may only be invoked by a labor organization on behalf of individual employees with the concurrence.

Section 9 Mediation of Negotiation Impasses

In the event of an impasse in negotiations between the parties for a collective bargaining agreement, either the labor organization or the Board may request the Association to appoint a qualified neutral person as a mediator to assist the parties in attempting to resolve the impasse. The parties will meet promptly with the mediator, and all matters discussed, as well as any documents submitted, shall not be publicly divulged for any reason. The cost of the mediator shall be borne equally by the parties.

Section 10 Time for Internal Organization Business, Consultations and Negotiations

Solicitation of memberships, dues or other internal labor organization business shall be conducted during the nonduty hours of the employees concerned. Officially requested or approved consultation between management executives and representative of a labor organization shall, whenever practicable, be conducted on official time, but the Director of the Division of Personnel, or a duly authorized representative, may require that negotiations with a labor organization be conducted during the nonduty hours of the Board.

Section 11 Federal Reserve System Labor Relations Panel

There shall be established a Federal Reserve System Labor Relations Panel, which shall consist of three members: one member of the Board of Governors of the Federal Reserve System, who shall be Chairperson of the Panel, and two public members. Each member shall be selected by the Board of Governors; provided, however, that the public members shall not have any present or past affiliation with the Federal Reserve System. Initially, one of the two public members shall be appointed for a term of two years, and the other for a term of three years. Thereafter, each public member shall be appointed for a term of three years, except that in the case of an unexpired term of a former member, the successor shall be appointed to fill such unexpired term. Upon the expiration of their term of office, public members may continue to serve until their successors are appointed and have qualified. A public member may be removed by the Board only upon notice and hearing, and only for neglect of duty or malfeasance in office. The Panel shall be responsible for the duties assigned to it as set forth in this Policy.

Section 12 Amendment

This policy may be amended upon appropriate legal notice to all labor organizations recognized, or seeking recognition, under this Policy. In no instance shall an amendment be applied retroactively.

By order of the Board of Governors of the Federal Reserve System, April 21, 1983.

William W. Wiles,

Secretary of the Board.

SECURITIES AND EXCHANGE COMMISSION

17 CFR Parts 231 and 241

[Release Nos. 33-6462; 34-19679; File No. S7-970]

Proposed Revision of Industry Guide Disclosures for Bank Holding Companies

AGENCY: Securities and Exchange Commission.

ACTION: Proposed rules.

SUMMARY: The Commission has authorized the proposal of amendments to the portions of the Industry Guides for Statistical Disclosures by Bank Holding Companies relating to disclosures about nonperforming loans and certain foreign loans. The proposed changes would revise the current disclosure guidelines dealing with information about nonperforming loans to focus more broadly on various elements of the loan portfolio which may indicate unusual lending risks. The proposed rules also provide for additional disaggregated disclosures about foreign loans.

DATE: Comments should be received by the Commission on or before May 31, 1983.

ADDRESS: Comment letters should refer to File No. S7-970, and should be submitted in triplicate to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, 450 5th Street, N.W., Washington, D.C. 20549. All comments received will be available for public inspection and copying in the Commission's Public Reference Room, 450 5th Street, N.W., Washington, D.C. 20549.

FOR FURTHER INFORMATION CONTACT: Marc D. Oken or Edmund Coulson (202-272-2130), Office of the Chief Accountant, or Howard Hodges, Jr. (202-272-2553), Division of Corporation Finance, Securities and Exchange Commission, 450 5th Street, N.W., Washington, D.C. 20549.

SUPPLEMENTARY INFORMATION: .

Background—Nonperforming Loans

Disclosure of nonperforming loans has been formally required in filings since the Commission implemented the Industry Guides for Disclosure by Bank Holding Companies, guides 61 and 3, in August 1976.[1] The Commission authorized amendments to Guides 61 and 3 in July 1980 which, among other things, refined the definition of nonperforming loans set forth in the 1976 release.[2] Guides 61 and 3 were redesignated as Securities Act Industry Guide 3 and Exchange Act Industry Guide 3 ("Guide 3") in 1982.[3]

[1] Securities Act Release No. 5735, August 31, 1976 [41 FR 39007].

[2] Securities Act Release No. 6221, July 8, 1980 [45 FR 47138]. The principal revisions to the definition of nonperforming loans in this release comprised: an expansion of the criteria to encompass non-accrual loans; an increase in the time period for accruing loans contractually past due from 60 to 90 days before such loans are classified as nonperforming; and deletion of the requirement to disclose 1) the amount of interest reflected in income on any nonperforming loans during the period, and 2) the gross amount of interest income which would have been recorded on all such loans during the period if they had been current (in accordance with their original terms) and outstanding throughout the period or since their origination, whichever was shorter.

[3] These guides were redesignated in securities Act Release No. 6384 (March 3, 1982) [47 FR 11476]. They are included in the list of industry guides in Items 801 and 802 of Regulation S-K (17 CFR 229).

On March 3, 1983, the Commission authorized the issuance of Financial Reporting Release No. 11 (FRR 11) [4] which announced certain revisions to Article 9 of Regulation S–X ("S–X") [17 CFR 210.9], which governs the form and content of bank holding company financial statements, and to Guide 3. The rules adopted in FRR 11 are effective for financial statements covering fiscal years ending on or after December 31, 1983. In the release which set forth the proposed amendments,[5] the Commission proposed certain changes to Guide 3 primarily to facilitate related changes to Article 9. In addition, certain minor changes were proposed to clarify the Guide 3 disclosure guidelines, including several technical changes to the instructions relating to disclosures of nonperforming loans. Since the Commission determined to propose amendments to the existing Guide 3 guidelines for nonperforming loans separately, none of the proposed technical changes to the nonperforming loan disclosures were adopted in FRR 11.

The current provisions of Guide 3 calls for the aggregate amount of loans in each of the following categories be separately disclosed:[6]

(1) Loans accounted for on a non-accrual basis;

(2) Loans which are contractually past due 90 days or more as to principal or interest payments;

(3) Loans, the terms of which have been renegotiated to provide a reduction or deferral of interest or principal because of a deterioration in the financial position of the borrower; and

(4) Loans now current where there are serious doubts as to the ability of the borrower to comply with present loan repayment terms.

Recent Bank Regulatory Disclosure Requirements for Past Due, Nonaccrual, and Renegotiated Loans

The information about nonperforming loans called for by Guide 3 has historically comprised the only required public disclosure of such loans.[7] Recently, however, the bank regulatory agencies (the Federal Deposit Insurance Corporation, the Federal Reserve and the Office of the Comptroller of the Currency), have revised their rules to require that certain information about "past due, nonaccrual and renegotiated loans and lease financing receivables" be disclosed as supplemental information to their periodic supervisory filings.[8] The supplemental data disclosed includes information about loans and leases which are—

- Past due 30 through 89 days and still accruing;
- Past due 90 days or more and still accruing;
- On nonaccrual status;
- Considered to be renegotiated "troubled" debt as defined by FAS 15.[9]

The information must be presented in the aggregate by type of loan or lease, as defined, for domestic amounts and in the aggregate for all foreign office balances. The data must be filed quarterly with the bank regulators beginning with the quarter ending December 31, 1982. The amounts reported in the last three categories noted above will become public information beginning with the quarter ended June 30, 1983; the amounts designated as "past due 30 through 89 days and still accruing" will not be publicly disclosed by the bank regulators. The impact of this regulatory change is that information about past due, nonaccrual and renegotiated loans will be publicly available after June 30, 1983 for all banks and bank holding companies, and not just for bank holding companies which are required to file with the Commission, as has been the situation since the Commission implemented Guide 3 in 1976.

Summary of Proposed Changes

The proposed amendments are intended to establish useful disclosures by registrants in Commission filings of all loans having risk elements material to investors and to achieve uniformity in the bases for preparing such information between bank holding companies for Commission filings and banks for supplementary disclosures for bank regulatory purposes.

The proposed amendments do not utilize the terminology "nonperforming loans" [10] since that term is not broad enough to encompass all of the disclosure elements of the proposed new section, which is intended to focus more broadly on the various elements of the loan portfolio which may indicate unusual lending risks. Also, the new section is intended to elicit disclosures of certain foreign loans and industry concentrations which may be currently "performing" loans but which nonetheless represent potential problems or unusual risks and uncertainties.

The revised section, a substantial part of which comprises a reorganization of and amendments to certain existing Guide 3 disclosures, will call for information which should complement other required Guide 3 data such as loan categories, loan loss experience, and maturities and sensitivities to interest rates. The Commission believes that more useful and relevant information should result by amending and expanding this section of the Guide to emphasize disclosures and related discussions of all of the various unusual risk elements in the loan portfolio. The new disclosure section utilizes the revised four elements of the existing nonperforming loan disclosures as a fondation, and includes a fifth

the central repository of nonfinancial statement disclosure requirements under the Securities Act and the Exchange Act.

[4] Securities Act Release No. 6458 (March 7, 1983) [48 FR 11104 (March 16, 1983)].

[5] Securities Act Release No. 6417 (July 9, 1982) [47 FR 32158 (July 26, 1982)].

[6] Instruction 5 to Item III C of Guide 3 provides, however, that "the registrant may use different criteria and may present quantitative information in a different manner . . . if such presentation more effectively identifies and communicates the present risk elements in the loan portfolio."

[7] However, financial statements prepared in accordance with generally accepted accounting principles (GAAP), must contain footnote disclosures of certain renegotiated loans involving borrowers with financial difficulties ("troubled debt restructurings"), in accordance with Statement of Financial Accounting Standards No. 15 ("FAS 15"), "Accounting by Debtors and Creditors for Troubled Debt Restructurings." Paragraph 40 of FAS 15 requires disclosure of the following information about outstanding receivables whose terms have been modified in troubled debt restructurings as of the date of each balance sheet presented: (1) The aggregate recorded investment; (2) the gross interest income that would have been recorded in the period then ended if those receivables had been current in accordance with their original terms and had been outstanding throughout the period or since origination, if held for part of the period; and (3) the amount of interest income on those receivables that was included in net income for the period. FAS 15 also requires disclosure of any commitments to lend funds to debtors owing receivables whose terms have been modified in troubled debt restructurings.

[8] This information is to be disclosed as a supervisory supplement to the reports of condition and income ("call reports") required to be filed with these agencies. These revisions were developed by the Federal Financial Institutions Examination Council, an interagency panel comprised of representatives from the financial institutions regulatory agencies.

[9] FAS 15 states that a *troubled debt restructuring* occurs if the creditor for economic or legal reasons related to the debtor's financial difficulties grants a concession to the debtor that it would not otherwise consider (para. 2). Examples of troubled debt restructurings include the modification of terms of a debt, such as one or a combination of: (1) Reduction (absolute or contingent) of the stated interest rate for the remaining original life of the debt; (2) extension of the maturity date or dates at a stated interest rate lower than the current market rate for new debt with similar risk; (3) reduction (absolute or contingent) of the face amount of the debt as stated in the instrument or other agreement; (4) reduction (absolute or contingent) of accrued interest (para. 5c).

[10] Rule 9–03(e)(2) of Regulation S–X and Instruction 3 to Item 404(c) of Regulation S–K (17 CFR Part 229) refer to Guide 3 for the definition of nonperforming loans. These rules will be appropriately amended if these revisions are adopted by the Commission as proposed. It is presently anticipated that the term would be deleted from those provisions and that the reference would be to items III.C. (a) through (d).

disclosure element—industry loan concentrations—which is transferred from the instructions to Section III.A. of Guide 3 (Loan Categories). All of the information disclosed would be presented by type of loan as specified in Section III.A. This display should provide useful information for assessing relative risks based on the classification and on the nature of the borrower.

A summary of the other more significant proposed changes in this release follows:

- The Commission's (third) criterion for the determination of renegotiated loans is replaced with the FAS 15 criteria for troubled debt restructurings;[11]
- Loans to foreign countries experiencing liquidity problems which may have a material impact on timely payment are specifically identified as being loans to borrowers "where there are serious doubts as to the ability of the borrower to comply with present loan repayment terms";[12]
- For nonaccrual loans and troubled debt restructurings, the interest income that would have been recognized under the original loan terms and the amount that has been recognized would be disclosed;
- Separate disclosure of any significant amounts of interest-bearing assets, other than loans, would be required if there are unusual risks associated with recovery of the interest or principal;
- An explanation of the registrant's policy for placing loans on a nonaccrual status would be required (this requirement could be satisfied by a cross reference to the accounting policies footnote to the financial lstatements);
- The instruction in the current rules allowing exclusion of installment and lease amounts if they do not exceed 10 percent of total loans would be eliminated to result in consistency between the disclosures called for with respect to loans past due 90 days or more and still accruing in Commission filings and in the information required to be disclosed by banks for purposes of filings with the bank regulators; and
- The existing instruction 5, which allows the registrant to use different criteria and present quantitative information in a different manner than prescribed under certain circumstances would be deleted in order to ensure consistency of disclosure and because the specificity of the proposed criteria have been increased.

The substitution of the FAS 15 criteria for troubled debt restructurings for the Commission's existing third criterion for classification of loans as nonperforming where "the terms * * * have been renegotiated to provide a reduction or deferral of interest or principal because of a deterioration in the financial position of the borrower," should result in more consistent disclosures because of the more comprehensive guidance in the Standard as to what constitutes a troubled debt restructuring. FAS 15 also specifies when a loan need not continue to be classified as a troubled debt restructuring.[13] The Commission rules provide no similar guidance. As noted previously, the principal substantive difference between the existing Guide 3 provision and FAS 15 is that restructurings involving deferrals of principal only are not troubled debt restructurings if the revised terms of the renegotiated debt reflect an appropriate market interest rate. The Commission believes that a standard which employs a test of whether a creditor has granted a concession to a borrower (such as a less than market interest rate) may be a better indicator for determinations as to when conditions are present which reflect risk elements. The Commission understands that many registrants have used the criteria in FAS 15 in determining the amount of restructured loans to be classified as nonperforming in reliance on the provision in existing Instruction 5 to Item III.C. of Guide 3.

The fifth disclosure element, industry concentrations of loans, is currently called for by Section III.A. of Guide 3 which calls for registrants to present a breakdown of the loan portfolio by type of loan. Inclusion of this disclosure in Section III.C. may be more appropriate because it should convey potential risk elements present in the portfolio because of any significant concentrations, particularly where such industries have been or are expected to be adversely affected by any economic or other conditions.

The Commission requests specific comments, particularly from users of financial information, as to whether its proposal to call for disclosure of the amount of interest income actually recognized on nonaccrual loans and on troubled debt restructurings (and the amount that would have been recognized under the original contractual terms of the loans) will provide more useful information for assessing the impact of such loans on the operations of the registrant. The Commission recognizes that it has previously rescinded a similar disclosure provision for the nonperforming loan categories,[14] in part because of the assertions by some commentators as to the impracticability of determining these amounts. However, since the rescission of that requirement, the Commission has received several requests from analysts and other users, that it reinstate this disclosure provision. The interest disclosures proposed are an existing disclosure requirement of FAS 15 (para. 40a) for troubled debt restructurings[15], and interest obligations of borrowers whose loans had been placed on nonaccrual status would presumably continue to be calculated but not accrued by registrants. Therefore, the determinations of such amounts would not be impracticable or costly.

The proposed instruction to disclose separately any significant amounts of interest-bearing assets (other than loans) would apply to an interest-bearing deposit, for example, with another financial institution experiencing difficulties and unable to pay interest in accordance with the terms of the deposit.

Background—Foreign Loan Disclosures

Article 9 of Regulation S–X, as amended by FRR 11, requires financial statement disclosure of the aggregate amount of foreign loans outstanding at the balance sheet date.[16] Guide 3 (Item III A) provides for disclosure of the aggregate amounts of each of the following categories of foreign loans which exceed 10% of total loans related to foreign activities: governments and

---

[11] The principal difference in substance between FAS 15 and the present Guide 3 definition is that FAS 15 excludes loans involving deferrals of principal from classification as troubled debt restructuring provided the interest rate applicable to the restructured loan is at a current market rate for new debt with similar risk.

[12] Staff Accounting Bulletin No. ("SAB") 49 (47 FR 49627, November 2, 1982) currently provides that such information be disclosed about foreign loans. Additionally, an indication as to the effect that such problems have had or are expected to have on the registrant's financial condition or results of operations is also required to be discussed. Although this latter provision of SAB 49 is not proposed to be codified in Guide 3, the inclusion of such foreign loans (and any other amounts) in the proposed new disclosure section should be coupled with an appropriate explanation of any related impact on the registrant's financial condition or results of operations in Management's Discussion and Analysis.

[13] Paragraph 40.a. of FAS 15 provides that "a receivable whose terms have been modified need not be included in that disclosure (i.e., as a troubled debt restructuring) if subsequent to its restructuring, its effective interest rate * * * has been equal to or greater than the rate that the creditor was willing to accept for a new receivable with comparable risk."

[14] *Supra*, note 2.

[15] Where these disclosures are made in the financial statements pursuant to FAS 15, the data would not have to be repeated in the Guide 3 presentation. A cross-reference to such data would suffice.

[16] 17 CFR 210.9–02.5)b).

official institutions, banks and other financial institutions, commercial and industrial entities and other loans. In addition, Guide 3 (Item IV) calls for an analysis of the allowance for loan losses related to foreign activities.

Rule 9-05(b) requires that total identifiable assets associated with foreign activities and the amount of revenue, pretax income (loss) and net income (loss) associated with foreign activities, be presented for each significant geographic area and in the aggregate for all other geographic areas.

Finally, the Commission staff recently issued two staff accounting bulletins relating to foreign loan disclosures: SAB 49 and SAB 49A.[17] SAB 49 provides the staff's views concerning minimum disclosures by bank holding companies about dollar-denominated or other non-local currency loans to public and private sector borrowers in countries that are experiencing liquidity problems. The disclosure provisions of SAB 49 can be summarized as follows:

- Management must identify countries where political and economic conditions may have a material impact on the timely payment of principal or interest of obligations of borrowers located in that country, and where the aggregate outstanding[18] payable in dollars or other non-local currency exceed one percent of the registrant's total outstandings.
- The aggregate amount of such outstandings and the names of each such country must be disclosed.
- The effect that these conditions have had or are expected to have on the financial condition or results of operations of the registrant should be described.

SAB 49 provides for an alternative optional disclosure, which can be summarized as follows:

- A listing of each country and the related outstandings payable in U.S. or other non-local currency (where the related outstandings exceed 1% of total outstandings) should be provided.
- If the effect of the outstandings have had or are expected to have a material adverse impact on the registrant's results of operations or financial condition, the impact should be discussed.

The objective of the alternative SAB 49 disclosure is to provide a summary listing of a bank holding company's principal foreign outstandings to enable the investor to assess the registrant's exposure to liquidity and other risks which are inherent in international lending activities. Of course, the registrant is also obligated by SAB 49 to discuss the specific risks related to any foreign country whose liquidity problems have already had a material adverse impact on the registrant or where they are expected to have a material adverse impact in the future.

SAB 49A sets forth the staff's views regarding the need for additional disclosures about material subsequent developments regarding outstandings to foreign countries experiencing liquidity problems. The SAB calls for disclosures about certain foreign countries that are currently negotiating with or have entered into agreements with U.S. lenders, other foreign banks, international lending agencies and others to restructure is existing debt and to obtain additional new borrowings. Other disclosures solicited by 49A include the impact of any renegotiations on the maturities of existing debt principal and on unpaid interest, commitments of the registrant to extend additional borrowings, and other arrangements such as agreements to maintain deposits with government banks.

Summary of Proposed Changes—Foreign Loan Disclosures

The proposed amendments to Guide 3 would codify the substance of the disclosures called for by SAB 49 in a new Section III.D. which would also call for certain additional data to facilitate user assessment of the impact of international lending activities on the registrant's operations. The Commission believes these disclosures are material to the assessment of credit and/or liquidity risks associated with international lending activities. These matters are of particular relevance currently because of the dificulties which certain foreign countries are encountering in complying with the terms of their loan agreements. The revised disclosure guidelines would call for registrants to provide a listing of the aggregate dollar amounts exceed one percent of total outstandings [19]; separate disclosure of the outstandings which are repayable by private and public sector borrowers in each foreign country; and separate disclosures of the amounts of outstandings repayable in dollars (or other non-local currency) and in local currency, as well as information about certain guarantees and collateral arrangements.

An instruction to this section would call for disclosure of the amounts of any of the outstanding disclosed which are also included in the table called for by Section III.C. (Risk Elements in the Loan Portfolio). The Commission requests specific comments as to whether the final amendments should provide for additional disclosures about the aggregate amount of foreign loans disclosed in the table pursuant to the proposed Section III.C. (such as the names of foreign countries for which amounts are included in Section III.C. but whose outstandings are less than 1% of consolidated outstandings).

While adoption of these proposals would eliminate the need for SAB 49, SAB 49A would continue to provide dislosure guidance as to foreign loan restructurings and related matters.

The Commission requests specific comments as to whether the proposed rules will result in appropriate disclosures of foreign lending risks in situations involving certain interbank lending transactions where a registrant makes loans to a branch of a foreign bank when such bank is located outside of the foreign bank's home country. The Commission is concerned as to whether the registrant's loan to the foreign branch is or should be reflected as a loan to the foreign country in which the parent bank is located. [20] Therefore, the Commission requests comment on how these and similar transactions are being disclosed and whether the final amendments should provide for specific instructions in this area.

Regulatory Flexibility Act Certification

Pursuant to Section 605(b) of the Regulatory Flexibility Act, 5 U.S.C. 605(b), the Chairman of the Commission has certified that the amendment proposed herein will not, if adopted, have a significant economic impact on a substantial number of small entities. This certification, including the reasons therefor, is attached to this release.

The Commission anticipates that the amendments being proposed will not materially change disclosure costs. Nevertheless, the Commission requests comments from issuers on whether significant economic effects might result and the nature and extent of those effects.

---

[17] 48 FR 3585, January 26, 1983 (SAB 49A).

[18] Outstanding are defined in SAB 49 as "loans, acceptance, interest bearing deposits with other banks and other investments."

[19] The Commission requests specific comment as to whether a different disclosure threshold than one percent of outstandings would be more meaningful or appropriate, such as a percentage of shareholders' equity or total assets.

[20] The Commission's present rule (Rule 9-05 of Regulation S-X, as amended by FRR 11) defines "foreign activities" as loans and other revenue producing assets and transactions in which the debtor or customer, whether an affiliated or unaffiliated person, is domiciled outside the United States.

List of Subjects in 17 CFR Parts 321 and 241

Accounting, Reporting requirements, Securities.

The Commission hereby proposes to amend 17 CFR Chapter II as follows:

PART 231—INTERPRETIVE RELEASES RELATING TO THE SECURITIES ACT OF 1933 AND GENERAL RULES AND REGULATIONS THEREUNDER

1. By revising the Securities Act Industry Guide 3 [Statistical Disclosure by Bank Holding Companies] of Part 231 by revising the requirements and instructions of Items III.A and III.C., and by adding new Item III.D.

Guide 3—Statistical Disclosure by Bank Holding Companies

* * * * *

III. Loan Portfolio

* * * * *

A. Types of Loans

* * * * *

Instructions. A series of categories other than those specified above may be used to present details of loans if considered a more appropriate presentation.

* * * * *

C. *Risk Elements in the Loan Portfolio.* As of the end of each reported period (except for (d) and (e), which need only be presented as of the latest fiscal year end), state separately the aggregate amount of loans in each of the following categories: (a) loans accounted for on a non-accrual basis; (b) accruing loans which are contractually past due 90 days or more as to interest or principal payments; (c) troubled debt restructurings; (d) loans not included in any of the above categories but where there are serious doubts as to the ability of the borrowers to comply with the present loan repayment terms; and (e) significant industry concentrations (such as energy, real estate, agricultural, etc).

Instructions. (1) The information required by this item should be provided separately for each category of loans disclosed pursuant to Section III.A. above.

(2) As of the most recent fiscal year end, state separately for loans in categories (a) and (c) above the following information: (i) The gross interest income that would have been recorded in the period then ended if the loans had been current in accordance with their original terms and had been outstanding throughout the period or since origination, if held for part of the period; and (ii) the amount of interest income on those loans that was included in net income for the period.

(3) A discussion of the registrant's policy for placing loans on non-accrual status should be provided.

(4) Reference is made to Statement of Financial Accounting Standards No. 15 ("FAS 15"), "Accounting by Debtors and Creditors for Troubled Debt Restructurings," for the determination as to whether loans are considered to be troubled debt restructurings for purposes of inclusion in category (c). Amounts should not be included in this category if they are more appropriately categorized in (a) or (b).

(5) Include in category (d) above (i) any loans to private and public sector borrowers in foreign countries experiencing economic and political conditions which have created liquidity problems which may have a material impact on the timing of interest or principal payments, and (ii) other loans subject to serious doubts as to the ability of the borrowers to repay debt in compliance with present loan repayment terms.

(6) If significant amounts of the loans disclosed pursuant to category (e) above are included in any of the preceding categories, this fact should be disclosed and discussed in a note.

(7) A separate discussion should be provided if the registrant has significant amounts of interest bearing assets other than loans (such as deposits, acceptances, etc.) where recovery of the principal or interest is subject to unusual risks and uncertainties.

D. *Foreign Lending Activities.* As of the end of each reported period, state the name of the country and aggregate dollar amount of outstandings to borrowers in each foreign country where such amounts exceed 1 percent of total outstandings.

Instructions. (1) Outstandings are defined as loans, acceptances, interest bearing deposits with other banks and other investments. The registrant should disclose the aggregate amount of consolidated outstandings in a note to this table.

(2) For each country state separately the total amounts repayable by private sector and by public sector (government and official institution) borrowers.

(3) For each country state separately the aggregate amounts repayable in (i) U.S. dollars or in other non-local currency, and (ii) in local currency. If the amounts repayable in local currency are not material to total outstandings for that country, the amounts need not be disclosed providing a statement to this effect is made.

(4) If any of the outstandings to foreign countries diclosed herein are included in the amounts disclosed pursuant to Section III.C., identify each such country and the related amounts disclosed in that section.

(5) If significant amounts of outstandings are guaranteed by U.S. or other non-local entities (or are otherwise secured or collateralized by assets located outside the particular foreign country), a brief discussion of the nature and impact of such arrangements should be provided.

2. Part 231 would be further amended by adding Release No. 33–6462 to the table.

PART 241—INTERPRETIVE RELEASES RELATING TO THE SECURITIES EXCHANGE ACT OF 1934 AND GENERAL RULES AND REGULATIONS THEREUNDER

1. By conforming Exchange Act Industry Guide 3 (Statistical Disclosure by Bank Holding Companies) to the amendments proposed for Securities Act Industry Guide 3.

2. Part 241 would be further amended by adding Release No. 34–19679 to the table.

(Secs. 7, 19a and Schedule A (25) and (26) of the Securities Act of 1933, 15 U.S.C. 77g, 77s(a), 77nn (25) and (26); and Sections 12, 13, 14, 15(d), and 23(n) of the Securities Exchange Act of 1934, 15 U.S.C. 78*l*, 78m, 78n, 78o(d), 78w(a))

Pursuant to Section 23(a)(2) of the Securities Exchange Act, the Commission has considered the impact of these proposals on competition and it is not aware at this time of any burden that such rules, if adopted, would impose on competition. However, the Commission specifically invites comments as to the competitive impact of these proposals if adopted.

In addition, the Commission is mindful of the cost to registrants and others of its proposals and recognizes its responsibilities to weigh with care the costs and beneifts which result from its rules. Accordingly, the Commission specifically invites comments on the costs to registrants and others of the adoption of the proposals published herein.

By the Commission.

George A. Fitzsimmons,

Secretary.

April 15, 1983.

Regulatory Flexibility Act Certification

I, John S. R. Shad, Chairman of the Securities and Exchange Commission, hereby certify, pursuant to 5 U.S.C. 605(b) that the proposed amendments contained in Securities Act Release No. 33–6462 which revise portions of the industry guide disclosures for bank holding companies will not have a significant economic impact on a substantial number of small entities.

The reason for this certification is that it is anticipated that the effects of the proposed amendments, if adopted, will not be significant for entities subject to these provisions. The information that would be required to be disclosed either is not substantially different from what is disclosed pursuant to the current guidelines or is readily available to issuers as a result of their compliance with such disclosure requirements. Therefore, the compliance burden on entities affected by the guidelines, if they are amended, would not be changed to any significant extent.

John S. R. Shad,

Chairman.

April 15, 1983.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 184

[Docket No. 82N-0393]

Sodium Metasilicate and Sodium Zinc Metasilicate; Proposed GRAS Status

AGENCY: Food and Drug Administration.

ACTION: Proposed rule.

SUMMARY: The Food and Drug Administration (FDA) is proposing to affirm that sodium metasilicate is generally recognized as safe (GRAS) as a direct human food ingredient. In addition, FDA is proposing not to affirm sodium zinc metasilicate as a GRAS food ingredient because of the absence of safety information. The safety of these ingredients has been evaluated under the comprehensive safety review conducted by the agency.

DATE: Written comments by June 27, 1983.

ADDRESS: Written comments to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Hortense S. Macon, Bureau of Foods (HFF-335), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-426-5487.

SUPPLEMENTARY INFORMATION: FDA is conducting a comprehensive review of human food ingredients classified as GRAS or subject to a prior sanction. The agency has issued several notices and proposals (see the **Federal Register** of July 26, 1973 (38 FR 20040)) initiating this review, under which the safety of sodium metasilicate and sodium zinc metasilicate has been evaluated. In accordance with the provisions of § 170.35 (21 CFR 170.35), the agency proposes to affirm the GRAS status of sodium metasilicate but not to affirm sodium zinc metasilicate as GRAS.

Sodium metasilicate is a strongly alkaline white powder that is insoluble in alcohol, acids, and salt solutions. It does not occur naturally because of its solubility in water and reactivity as an alkali. Sodium metasilicate is a synthetic product that is manufactured by melting sand with sodium carbonate at about 1400° C.

Sodium metasilicate is one of several compounds in which the molar ratio of Na_2O to SiO_2 is 1:1. In the past, sodium metasilicate has been called by the generic name "sodium silicate." The term "sodium silicate" should not be indiscriminately used, however, because of the different properties of other sodium silicates where Na_2O/SiO_2 ratios vary from 2:1 to 1:3.9.

Several chemical forms of sodium metasilicate exist. The commercially available forms are the anhydrous form (Na_2SiO_3), the pentahydrate ($Na_2SiO_3 \cdot 5H_2O$), and the nonahydrate ($Na_2SiO_3 \cdot 9H_2O$). The anhydrous and pentahydrate forms of sodium metasilicate are commercially available as free-flowing, glassy white beads, and the nonahydrate form is available as white, efflorescent, sticky crystals.

In letters dated October 2, 1962, and July 29, 1968, FDA stated that sodium metasilicate is GRAS for use in washing fruits and vegetables, and in a memorandum dated September 2, 1975, the agency stated that the substance is GRAS as a component of sanitizing solutions. It is prior sanctioned by the U.S. Department of Agriculture (USDA) for use as a denuding agent for tripe, as a hog scald agent for removing hair, and as a cooling and retort water treatment agent to prevent staining of the exterior surfaces of canned goods (9 CFR 318.7(c)(4)). USDA published a final rule in the **Federal Register** of February 10, 1983 (48 FR 6090), however, that eliminated its list of substances approved for use as cooling and retort agents. USDA stated that substances used for this purpose are not likely to become components of food and thus need not be regulated. Additionally, sodium metasilicate is a regulated food additive in boiler water for the preparation of steam that will contact food under 21 CFR 173.310.

Although FDA placed sodium zinc metasilicate on a list of presumed GRAS ingredients when this GRAS review was initiated in 1970, the agency cannot find any record that it ever approved or recognized a food use for this ingredient. Very little information is available regarding sodium zinc metasilicate. Standard references such as the Merck Index and the CRC Handbook of Chemistry and Physics do not list this substance.

In 1971, the National Academy of Science/National Research Council (NAS/FRC) surveyed a representative cross-section of food manufacturers to determined the specific foods in which sodium metasilicate and sodium zinc metasilicate are used and the levels of usage. No use data or estimates of consumption in foods were reported for these substances, although thousands of tons of sodium metasilicate are produced in the United States each year. Because the survey was limited to those ingredients that appear on the labels of food products, however, it is probable that concurrent uses of sodium metasilicate as a processing aid as previously authorized would have been missed. FDA considers these uses to be incidental additions, and an ingredient added for these purposes is not required to be listed in the labeling of the food product.

Sodium metasilicate and sodium zinc metasilicate have been the subjects of a search of the scientific literature from 1920 to the present. The criteria used in the search were chosen to discover any articles that considered (1) chemcial toxicity, (2) occupational hazards, (3) metabolism, (4) reaction products, (5) degradation products, (6) carcinogenicity, teratogenicity, or mutagenicity, (7) dose response, (8) reproductive effects, (9) histology, (10) embryology, (11) behavioral effects, (12) detection, and (13) processing. A total of 117 abstracts was reviewed, and 56 particularly pertinent reports from the literature survey have been summarized in a scientific literature review.

Information from the scientific literature review has been summarized in a report to FDA by the Select Committee on GRAS Substances (the Select Committee), which is composed of qualified scientists chosen by the Life Sciences Research Office of the Federation of Americas Societies for Experimental Biology (FASEB). The members of the Select Committee have evaluated all the available safety information on sodium metasilicate and sodium zinc metasilicate.[1] In the Select Committee's opinion:

> The amounts of sodium metasilicate consumed as a consequence of its use as an indirect GRAS food ingredient are not known. However, residues remaining in fruits, vegetables, and hog carcasses following the required clear water rinses are judged to be minute, as are the traces that would remain in foods contacted by steam from boiler water containing sodium metasilicate. Nevertheless, direct analyses of such residues under conditions of practical use should be made, and permissible residual levels and food grade standards for sodium metasilicate should be established. Use of sodium metasilicate in cooling and retort

[1] "Evaluation of the Health Aspects of Sodium Metasilicate and Sodium Zinc Metasilicate as Food Ingredients," Life Sciences Research Office, Federation of American Societies for Experimental Biology, 1981, pp. 7-11. In the past, the agency presented verbatim the Select Committee's discussion of the biological data it reviewed. However, because the Select Committee's report is available at the Dockets Management Branch and from the National Technical Information Service, and because it represents a significant savings to the agency in publication costs, FDA has decided to discontinue presenting that discussion in the preamble to proposals that affirm GRAS status in accordance with current good manufacturing practice.

water to prevent staining of the exterior surfaces of intact food cans does not expose foods to the compound. In any event, the amounts of sodium metasilicate entering the diet as a result of its GRAS uses are probably orders of magnitude less than the estimated human daily consumption of 20–30 mg silica (SiO_2) from natural sources in the diet and drinking water.

Sodium metasilicate is part of a chemical continuum of sodium silicates in which the molar ration of Na_2O to SiO_2 varies from 1:1 in the metasilicate to 1:3.9 in the tetrasilicate. In the low concentrations that result from their GRAS use, sodium metasilicates and sodium silicate should exist largely as monomeric silicate, an absorbable form of silica.

While the proportion of absorbed silica retained in the tissues is not known with certainty, available data suggest that it is slight. However, even though renal excretion seems to be an efficient protective mechanism against tissue accumulation of silica, it would be desirable to determine whether chronic exposure is accompanied by significant tissue accumulation.

Oral administration of sodium metasilicate in single doses to rats and mice indicated low acute toxicity. Most short-term studies on metabolic and growth effects of sodium metasilicate have not detected adverse reactions. However, a report published in 1970 indicated that beagles fed sodium silicate mixed with the diet at a dosage of 0.8 g/kg body wt/d for 4 weeks developed renal lesions. A 1973 report noted that rats consuming sodium silicate in drinking water at dosages of approximately 96 and 192 mg/kg body wt/d for 180 days had fewer offspring and lower rates of survival of offspring than controls. Amounts of sodium silicate fed in these studies far exceed expected normal daily intakes of the species tested as well as of man. No substantiating reports of these observations have appeared.

No long-term feeding, reproductive, mutagenic, teratogenic or carcinogenic tests have been reported for sodium metasilicate. Sodium silicate was nonmutagenic in tests with *E. coli*. No reports of biological studies of sodium zinc metasilicate or its uses in foods were available to the Select Committee.[2]

The Select Committee concludes that no evidence in the available information on sodium metasilicate demonstrates, or suggests reasonable ground to suspect, a hazard to the public when it is used at levels that are now current or that might reasonably be expected in the future. On the other hand, because of the deficiency in relevant chemical and biological studies and in information on food uses, the Select Committee states that it has insufficient data upon which to base an evaluation of sodium zinc metasilicate for use as a food ingredient.[3]

FDA has undertaken its own evaluation of the available information on food uses of sodium metasilicate and sodium zinc metasilicate and concurs with the conclusions of the Select Committee.

The agency concludes that no change in the current GRAS status of sodium metasilicate is justified, and therefore, the agency is proposing to affirm sodium metasilicate as GRAS.

Although there are no data on the residues of sodium metasilicate remaining in foods when this substance is used as a processing aid as previously authorized, the agency agrees with the Select Committee that the amount consumed in the diet from the uses evaluated by the agency and by the Select Committee would be minute compared to other sources of silica in the diet and would not be expected to pose a safety problem. If any person, however, has any data concerning residual levels of sodium metasilicate from its current uses, the agency would be interested in receiving such information, including the foods or food categories in which the ingredient is used, the technical effects for which the ingredient is used, and the purity of the ingredient. If there are current uses other than those listed in the proposed regulation, the agency will consider listing those uses in the final regulation on the basis of such information.

The proposed regulation does not specifically list the use of sodium metasilicate in sanitizers. This indirect use as well as all other indirect uses are authorized by §§ 184.1(a) and 184.1769a.

The agency has also determined that sodium zinc metasilicate should not be affirmed as GRAS because of the absense of sufficient safety information. FDA has no information on the chemical identity or the existence of biological studies for this ingredient. The agency is also unaware of any evidence that sodium zinc metasilicate is used in food. The agency will reconsider the GRAS status of sodium zinc metasilicate as a food ingredient if information is provided, in comments on this proposal, on the safety and purity of the substance and the conditions of its current use in foods. Because FDA is not aware that it ever authorized any food use for this ingredient, comments on uses of sodium zinc metasilicate should include any available documentation that the uses were previously authorized by the agency.

Because no food-grade specifications exist for sodium metasilicate at the present time, the agency will work with the Committee on Food Chemicals Codex of the National Academy of Sciences to develop acceptable specifications for this ingredient. If acceptable specifications are developed, the agency will incorporate them into this regulation at a later date. Until specifications are developed, FDA has determined that the public health will be adequately protected if commercial sodium metasilicate complies with the description in this proposed regulation and is of food-grade purity (21 CFR 182.1(b)(3) and 170.30(h)(1)).

Additionally, FDA is proposing not to include in the GRAS affirmation regulation for sodium metasilicate any levels of use for this ingredient. Both FASEB and the agency have concluded that a large margin of safety exists for the use of this ingredient, and that a reasonably foreseeable increase in the level of consumption of sodium metasilicate will not adversely affect human health. Therefore, the agency is proposing to affirm the GRAS status of sodium metasilicate when it is used under current good manufacturing practice conditions of use in accordance with § 184.1(b)(1) (21 CFR 184.1(b)(1)). To make clear, however, that the affirmation of the GRAS status of sodium metasilicate is based on the evaluation of limited uses, the proposed regulation sets forth the technical effect and specific food uses that FDA evaluated.

In the **Federal Register** of September 7, 1982 (47 FR 39199), FDA proposed to adopt a general policy restricting the circumstances in which it will specifically describe conditons of use in regulations affirming substances as GRAS under 21 CFR 184.1(b)(1) or 186.1(b)(1). The agency proposed to amend its regulations to indicate clearly that it will specify one or more of the current good manufacturing practice conditions of use in regulations for substances affirmed as GRAS with no limitations other than current good manufacturing practice only when the agency determines that it is appropriate to do so.

Copies of the scientific literature review on sodium metasilicate and sodium zinc metasilicate and the report of the Select Committee are available for review at the Dockets Management Branch (address above) and may be purchased from the National Technical Information Service, 5285 Port Royal, Rd., Springfield, VA 22161, as follows:

Title	Order No.	Price code	Price [1]
Sodium metasilicate and sodium zinc metasilicate (scientific literature review)	PB 287-766/AS	A03	$7.50
Sodium metasilicate and sodium zinc metasilicate (Select committee report).	PB 82-160367	A03	$7.50

[1] Price subject to change.

This proposal action does not affect the current use of sodium metasilicate in

[2] *Ibid.*, p. 12–13.
[3] *Ibid.*, p. 13.

pet food or animal feed.

The format of this proposed regulation is different from that in previous GRAS affirmation regulations. FDA has modified paragraph (c) § 184.1769a to make clear the agency's determination that GRAS affirmation is based upon current good manufacturing practice conditions of use, including both the technical effect and food categories listed. This change has no substanitve effect but is made merely for clarity.

The agency has determined under 21 CFR 25.24(d)(6) (proposed December 11, 1979; 44 FR 71742) that this proposed action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

FDA, in accordance with the Regulatory Flexibility Act, has considered the effect that this proposal would have on small entities including small businesses and has determined that the effect of this proposal is to maintain current known uses of the substances covered by this proposal by both large and small businesses. Therefore, FDA certifies in accordance with section 605(b) of the Regulatory Flexibility Act that no significant economic impact on a substantial number of small entities will derive from this action.

In accordance with Executive Order 12291, FDA has carefully analyzed the economic effects of this proposal, and the agency has determined that the final rule, if promulgated, will not be a major rule as defined by the Order.

List of Subjects in 21 CFR Part 184

Direct food ingredients, Food ingredients, Generally recognized as safe (GRAS) food ingredients.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs., 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348, 371(a))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), it is proposed that Part 184 be amended by adding new § 184.1769a, to read as follows:

PART 184—DIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS SAFE

§ 184.1769a Sodium metasilicate.

(a) Sodium metasilicate (CAS Reg. No. 6834–92–0) is a strongly alkaline white powder. It does not occur naturally but rather is synthesized by melting sand with sodium carbonate at 1400° C. The commercially available forms of sodium metasilicate are the anhydrous form (Na_2SiO_3), the pentahydrate ($Na_2SiO_3.5H_2O$), and the nonahydrate ($Na_{2.2}SiO_3.9H_2O$).

(b) FDA is developing food-grade specifications for sodium metasilicate in cooperation with the National Academy of Sciences. In the interim, the ingredient must be of a purity suitable for its intended use.

(c) In accordance with § 184.1(b)(1), the ingredient is used in food with no limitation other than current good manufacturing practice. The affirmation of this ingredient as generally recognized as safe (GRAS) as a direct human food ingredient is based upon the following current good manufacturing practice conditions of use:

(1) The ingredient is used as a processing aid as defined in § 170.3(o)(24) of this chapter.

(2) The ingredient is used to treat the following foods at levels not to exceed current good manufacturing practice: for use in washing fresh fruits and vegetables, for use as a denuding agent in tripe, and for use as a hog scald agent in removing hair.

The agency is unaware of any prior sanction for the use of this ingredient in foods under conditions different from those identified in this document. Any person who intends to assert or rely on such a sanciton shall submit proof of its existence in response to this proposal. The action proposed above will constitute a determination that excluded uses would result in adulteration of the food in violation of section 402 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 342), and the failure of any person to come forward with proof of an applicable prior sanction in response to this proposal constitutes a waiver of the right to assert or rely on it later. Should any person submit proof of the existence of a prior sanction, the agency hereby proposes to recognize such use by issuing an appropriate final rule under Part 181 (21 CFR Part 181) or affirming it as GRAS under Part 184 or 186 (21 CFR Part 184 or 186), as appropriate.

Interested persons may, on or before June 27, 1983, submit to the Dockets Management Branch (address above) written comments regarding this proposal. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: April 1, 1983.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

[Docket No. 82N–0219]

Regenerated Collagen; Proposed Gras Status as a Direct Human Food Ingredient

AGENCY: Food and Drug Administration.

ACTION: Proposed rule.

SUMMARY: The Food and Drug Administration (FDA) is proposing to affirm that regenerated collagen is generally recognized as safe (GRAS) as a direct human food ingredient. The safety of this ingredient has been evaluated under the comprehensive safety review conducted by the agency.

DATE: Comments by June 27, 1983.

ADDRESS: Written comments to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Leo F. Mansor, Bureau of Foods (HFF–335), Food and Drug Administration, 200 C St. SW., Washington, D.C. 20204, 202–426–8950.

SUPPLEMENTARY INFORMATION: FDA is conducting a comprehensive review of human food ingredients classified as GRAS or subject to a prior sanction. The agency has issued several notices and proposals (see the Federal Register of July 26, 1973 (38 FR 20040)) initiating this review, under which the safety of regenerated collagen has been evaluated. In accordance with the provisions of § 170.35 (21 CFR 170.35), the agency proposes to affirm the GRAS status of this ingredient.

Collagen (native collagen) is the most abundant of all proteins in higher vertebrates, constituting more than one-third of body protein. Skin, tendons, ligaments, bone, and cornea are particularly rich in collagen. Collagen is also present in large amounts in the fleshy portions of meat, fish, and poultry as connective tissue. Collagen has a distinctive amino acid composition: about 35 percent glycine, 11 percent alanine, 12 percent proline, and 9 percent hydroxyproline. Hydroxylysine and only a small amount of tyrosine are present, while tryptophan and cystine are absent.

Collagen is obtained from the hides of animals. Bovine tendon has been reported in the patent literature as a source of collagen for the manufacture of sausage casing, but it does not appear to be a current source. U.S. Department of Agriculture procedures require that food-grade collagen used in the manufacture of sausage casings must come from animals that are inspected while being slaughtered, and that the identity with acceptable carcasses be established.

Animal hides consists of three principal layers: the epidermis, or outer layer, containing hair follicles; the corium comprising the bulk of the hide and consisting mainly of bundles of collagen fibers; and the flesh or connective tissue layer, comprising the inner layer of the hide. Collagen is derived from the purified corium layer, which is obtained from the hides by mechanical removal of the epidermal and flesh layers after chemical pretreatment. Processing chemicals are removed by washing, resulting in a product that is principally collagen.

Collagen is converted to regenerated collagen by treating the purified corium with solutions of weak organic or mineral acids to disperse the collagen fibers. Regenerated collagen sausage casings are produced when the collagen fibril solution is extruded through an annular orifice, in the form of a tubular body. Regenerated collagen sausage casings may also be treated with plasticizers and other processing aids that become part of the casing and serve to strengthen in the casing. The substances used as processing aids must either be GRAS or the subject of food additive regulations approving them for this use.

The agency has issued a number of advisory opinion letters since 1960 stating that the use of regenerated collagen for making sausage casings is GRAS.

In 1971, the National Academy of Sciences/National Research Council (NAS/NRC) surveyed a representative cross-section of food manufacturers to determine the specific foods in which regenerated collagen was used and the levels of usage. The survey reported that 5,948 pounds of regenerated collagen sausage casings were used in 1970. However, a later report from a casings manufacturer estimated that 360 million pounds of sausage were packed in regenerated collagen casings in 1978. Assuming that regenerated collagen represents about 60 percent of the weight of the casing, and that the casing is about 0.7 to 1.0 percent of the weight of the sausage, the amount of regenerated collagen consumed from this source would be about 2 million pounds. Regenerated collagen was not reported to be used as an ingredient of any other food, and no reports were received by NAS/NRC for food uses of native collagen.

Collagen and regenerated collagen have been the subject of a search of the scientific literature from 1920 to the present. The criteria used in the search were chosen to discover any articles that considered: (1) Chemical toxicity, (2) occupational hazards, (3) metabolism, (4) reaction products, (5) degradation products, (6) carcinogenicity, teratogenicity, or mutagenicity, (7) dose response, (8) reproductive effects, (9) histology, (10) embryology, (11) behavioral effects, (12) detection, and (13) processing. A total of 577 abstracts on collagen and regenerated collagen was reviewed, and 35 particularly pertinent reports from the literature survey have been summarized in a scientific literature review.

Information from the scientific literature review and other sources has been summarized in a report to FDA by the Select Committee on GRAS Substances (the Select Committee), which is composed of qualified scientists chosen by the Life Sciences Research Office of the Federation of American Societies for Experimental Biology (FASEB). The members of the Select Committee have evaluated all available safety information on collagen and regenerated collagen. [1] In the Select Committee's opinion:

Food-grade collagen is currently prepared from bovine hides by separating and purifying the corium layers, which consists mainly of bundles of collagen fibers. The only present food use of this native collagen is in the production of sausage casings. For this purpose, the purified corium layers of hides are dissolved in dilute acid and precipitated in tubular form under conditions that regenerate the fibrillar structure of the native collagen. Various plasticizing, softening, and strengthening agents may be included in the casing to obtain desired physical properties. Such regenerated collagen sausage casings are considered GRAS.

Regenerated casing is estimated to account for only about 0.7% of sausage weight. Intake of collagen from sausage casings is likely to be considerably less (less than one-fourth of total) than that contributed by the remainder of the sausage and certainly a minor fraction of total intake of collagen. Collagen makes up a significant percentage of the weight of meats, poultry, and fish as they are consumed and the likelihood of adverse effects from such consumption seems remote. Collagen consumed in the form of sausage casings appears to be digestible. There is little reason to suspect that the regeneration process results in a product that is more likely to produce adverse effects than native collagen. However, specifications for food-grade collagen, native or regenerated, have not been established.

Several substances are described in the patent literature as useful in the preparation of sausage casings from collagen. Most of GRAS substances and their use in sausage casings would add relatively little to the amount of these substances now consumed in other GRAS applications. Their content in casings would be only a fraction of the amount of collagen in the casing and total use of the latter is estimated to be 10–15 mg/capita/day. Glutaraldehyde, preferred for use as an agent to strengthen casings, is not included among the compounds listed as GRAS. However, no significant adverse effects were observed in short-term feeding tests with rats and dogs fed collagen or gelatin diets which provided several orders of magnitude more free and/or bound glutaraldehyde/kg body wt than is estimated for human consuming glutaraldehyde-treated sausage casings. Chemical evidence indicates that the binding of glutaraldehyde to collagen is stable under the acid and alkaline conditions of the digestive system. This is supported by markedly decreased digestibility of collagen molecules containing higher levels of bound glutaraldehyde indicating that portions of collagen molecules containing higher levels of bound glutaraldehyde are not absorbed, but are eliminated in the feces. Reports on mutagenic activity of free glutaraldehyde are equivocal. One investigator reported no activity, another weak activity. Tests on the mutagenic activity of enzymatic digest of glutaraldehyde-treated collagen appear not be have been conducted, but should be undertaken in due course.

Although the addition of collagen to foods in forms other than sausage casings is not now practiced, it has been suggested that native collagen has functional properties that may be useful in other processed foods. Native collagen is digestible by rats and presumably by humans. After heat treatment, as in cooking, it seems likely that native collagen will be similar not only chemically but physically to gelatin. Although feeding native collagen, or gelatin, to rats in high concentration has been reported to result in kidney enlargement, it seems must unlikely that a hazard to the public would result from consumption of native collagen as a food ingredient. [2]

The Select Committee concludes that no evidence in the available information

[1] "Evaluation of the Health Aspects of Collagen as a Food Ingredient," Life Sciences Research Office, Federation of American Societies for Experimental Biology, 1981, pp. 9–12. In the past, the agency presented verbatim the Select Committee's discussion of the biological data it reviewed. However, because the Select Committee's report is available at the Dockets Management Branch and from the National Technical Information Service, and because it represents a significant savings to the agency in publication costs, FDA has decided to discontinue presenting the discussion in the preamble to proposals that affirm GRAS status in accordance with current good manufacturing practice

[2] *Ibid.*, pp. 13–14.

on regenerated collagen or collagen (native collagen) demonstrates, or suggests reasonable grounds to suspect, a hazard to the public when it is used at levels that are now current or that might reasonably be expected in the future.[3]

FDA has undertaken its own evaluation of the available information on regenerated collagen and native collagen and concurs with the conclusions of the Select Committee with two exceptions. The agency agrees that regenerated collagen and native collagen present no discernible hazards as food ingredients. In addition, the agency agrees with the Select Committee that the use of certain GRAS ingredients or regulated food additives to disperse, dissolve, coagulate, harden, soften, or strengthen collagen in the production of sausage casings also is safe. However, the agency does not agree with the Select Committee that glutaraldehyde is a suitable ingredient to strengthen collagen in the production of sausage casings. Glutaraldehyde does not have GRAS or food additive status for this use. In addition, as reported by the Select Committee, equivocal results have been obtained in mutagenic tests of this substance. As a result, FDA is not approving the use of glutaraldehyde as an agent for use in treating regenerated sausage casings. FDA has received a GRAS affirmation petition for the use of glutaraldehyde as a cross-linking agent in collagen sausage casings. Notice of the filling of this petition appeared in the **Federal Register** of July 13, 1982 (47 FR 30290). Future agency action on the use of glutaraldehyde in sausage casings will depend on the results of FDA's evaluation of this petition.

The Select Committee also states that the potential use of native collagen as a food ingredient in a manner similar to gelatin would also be expected to be safe. Although the agency is aware of potential interest in the use of native collagen as a food ingredient, FDA has never indicated that native collagen is GRAS and has no information that collagen has any current use as a direct human food ingredient. The agency therefore is not proposing to list it as a direct food ingredient affirmed as GRAS. If FDA receives, as comments on the proposal, evidence (food categories, intend technical effects, and the levels of addition) of direct food use of native collagen, the agency will consider affirming the use as GRAS based upon the data and information that has been compiled as part of this safety review. These data may also be used in support of a GRAS or food additive petition, submitted in accordance with 21 CFR 170.35 or 171.1, at a later date.

Because no food-grade specifications exist for regenerated collagen at the present time, the agency will work with the Committee on Food Chemicals Codex of the National Academy of Sciences to develop acceptable specifications for this ingredient. If acceptable specifications are developed, the agency will incorporate them into this regulation at a later date. Until any such specifications are developed, FDA has determined that the public health will be adequately protected if commercial regenerated collagen complies with the description in the proposed regulation and is of food-grade purity (21 CFR 170.30(h)(1) and 182.1(b)(3)).

Additionaly, FDA is proposing not to include in the GRAS affirmation regulation for regenerated collagen the technical effect and the levels of use estimated for this ingredient. Both FASEB and the agency have concluded that a large margin of safety exists for the use of regenerated colagen in the manufacture of sausage casings, and that any reasonably foreseeable increase in the level of consumption of this substance will not adversely affect human health. Therefore, the agency is proposing to affirm the GRAS status of regenerated collagen when it is used under current good manufacturing practice conditions of use in accordance with § 184.1(b)(1) (21 CFR 184.1(b)(1)). FDA has drafted the proposed regulation to make clear, however, that the affirmation of the GRAS status or regenerated collagen is based on the evaluation of its current use in the manufacture of sausage casings for meat and poultry products.

In the **Federal Register** of September 7, 1982 (47 FR 39199), FDA proposed to adopt a general policy restricting the circumstances in which it will specifically describe conditions of use in regulations affirming substances as GRAS under 21 CFR 184.1(b)(1) or 186.1(b)(1). The agency proposed to amend its regulations to indicate clearly that it will specify one or more of the current good manufacturing practice conditions of use in regulations for substances affirmed as GRAS with no limitations other than current good manufacturing practice only when the agency determines it is appropriate to do so.

Copies of the scientific literature review on collagen and the report of the Select Committee are available for review at the Dockets Management Branch (address above), and may be purchased from the National Technical Information Service, 5285 Port Royal Rd., Springfield, VA 22161, as follows:

Title	Order No.	Price code	Price [1]
Collagen (scientific literature review)	PB 280-589/AS	A05	$10.50
Collagen (Select Committee report)	PB 81-229221	A03	6.00

[1] Price subject to change.

This proposed action does not affect the current use of collagen in pet food or animal feed.

The format of this proposed regulation is different from that in previous GRAS affirmation regulations. FDA has modified paragraph (c) of § 184.1681 to make clear the agency's determination that GRAS affirmation of regenerated collagen is based upon current good manufacturing practice conditions of use, when used to make sausage casings for meat and poultry products. This change is not substantive but is made merely for clarity.

The agency has determined under 21 CFR 25.24 (proposed December 11, 1979; 44 FR 71742) that this proposed action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

FDA, in accordance with the Regulatory Flexibility Act, has considered the effect that this proposal would have on small entities including small businesses and has determined that the effect of this proposal is to maintain current known uses of the substance covered by this proposal by both large and small businesses. Therefore, FDA certifies in accordance with section 605(b) of the Regulatory Flexibility Act that no significant economic impact on a substantial number of small entities will derive from this action.

In accordance with Executive Order 12291, FDA has carefully analyzed the economic effects of this proposal, and the agency has determined that the final rule, if promulgated, will not be a major rule as defined by the Order.

List of Subjects in 21 CFR Part 184

Direct food ingredients, Food ingredients, Generally recognized as safe (GRAS) food ingredients.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409 701(a), 52 Stat. 1055, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348,

[3] *Ibid. p. 14.*

371(a)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), it is proposed that Part 184 be amended by adding new § 184.1681, to read as follows:

PART 184—DIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS SAFE

§ 184.1681 Regenerated collagen.

(a) Regenerated collagen (CAS Reg. No. 9007–34–5) is prepared by treating purified corium derived from U.S. Department of Agriculture approved hides with solutions of weak organic or mineral acids to produce a homogeneous solution of swollen collagen fibers. This solution is extruded through an annular orifice into a coagulating medium to produce the regenerated collagen as a tubular body for sausage casings. The regenerated collagen casings may be further processed with safe and suitable generally recognized as safe or approved food additive inredients for the purpose of solubilizing, coagulating, hardening, plasticizing, softening, strengthening, or preserving the final sausage casings.

(b) The Food and Drug Administration is developing food-grade specifications for regenerated collagen in cooperation with the National Academy of Sciences. In the interim, this ingredient must be of a purity suitable for its intended use.

(c) In accordance with § 184.1(b)(1), the ingredient is used in food with no limitation other than current good manufacturing practice. The affirmation of this ingredient as generally recognized as safe (GRAS) as a direct human food ingredient is based upon its use as a component of sausage casings for meat products as defined in § 170.3(n)(29) of this chapter and for poultry products as defined in § 170.3(n)(34) of this chapter.

The agency is unaware of any prior sanction for the use of this ingredient in food under conditions different from those identified in this document. Any person who intends to assert or rely on such a sanction shall submit proof of its existence in response to this proposal. The action proposed above will constitute a determination that excluded uses would result in adulteration of the food in violation of section 402 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 342), and the failure of any person to come forward with proof of an applicable prior sanction in response to this proposal constitutes a waiver of the right to assert or rely on it later. Should any person submit proof of the existence of a prior sanction, the agency hereby proposes to recognize such use by issuing an appropriate final rule under Part 181 (21 CFR Part 181) or affirming it as GRAS under Part 184 or 186 (21 CFR Part 184 or 186), as appropriate.

Interested persons may, on or before June 27, 1983, submit to the Dockets Management Branch (address above) written comments regarding this proposal. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: April 1, 1983.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

21 CFR Part 886

[Docket Nos. 82N–0179 and 82N–0180]

Proposed Reclassification of Daily Wear Optically Spherical Hydrogel (Soft) Contact Lenses; Daily Wear Spherical Contact Lenses Consisting of Rigid Gas Permeable Plastic Materials; Public Hearing

AGENCY: Food Drug Administration.

ACTION: Notice of public hearing.

SUMMARY: This notice announces the time, location, and procedure for participating in the Food and Drug Administration's public hearing on the proposed reclassification of daily wear optically spherical hydrogel (soft) contact lenses and daily wear spherical contact lenses consisting of rigid gas permeable plastic materials. In reaching a final decision in this matter, the agency will consider the administrative record of the hearing along with all comments and other information received.

DATES: Written notices of participation should be filed by May 10, 1983. The hearing will begin at 9 a.m. on May 26, 1983.

ADDRESSES: Written notices of participation should be sent to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857. The hearing will be held in the Hubert H. Humphrey Bldg. Auditorium, 200 Independence Ave. SW., Washington, DC 20201.

FOR FURTHER INFORMATION CONTACT: Joseph M. Sheehan, National Center for Devices and Radiological Health (HFK–140), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301–427–7114.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of November 26, 1982, the Food and Drug Administration (FDA) published proposed regulations to reclassify certain marketed daily wear optically spherical hydrogel (soft) contact lenses (47 FR 53411; Docket No. 82N–0179) and marketed daily wear spherical contact lenses consisting of certain rigid gas permeable plastic materials (47 FR 53402; Docket No. 82N–0180) from class III (premarket approval) into class I (general controls). Interested persons were given until December 27, 1982, to submit written comments on the proposals. In the **Federal Register** of December 10, 1982 (47 FR 55497), FDA extended the comment periods for these proposed rules to January 26, 1983. In the **Federal Register** of April 15, 1983 (48 FR 16291; 16293), FDA reopened the comment period on these proposed rules to obtain further information on issues raised by the comments, and announced its intent to grant requests to hold a public hearing on the matter insofar as the requests relate to reclassification.

FDA believes that it is in the public interest to provide interested persons an opportunity to present information and views at a public hearing under Part 15 of FDA's administrative practices and procedures regulations (21 CFR Part 15) on the issues involved in this proceeding. Accordingly, FDA will hold a public hearing regarding the reclassification of daily wear spherical contact lenses consisting of rigid gas permeable plastic materials and daily wear spherical hydrogel (soft) contact lenses beginning at 9 a.m. on May 26, 1983, in the Hubert H. Humphrey Bldg. Auditorium, 200 Independence Ave. SW., Washington, DC 20201. The presiding officers will be John C. Villforth, Director, National Center for Devices and Radiological Health (NCDRH), FDA, and James S. Benson, Deputy Director, NCDRH. Oral presentations at the hearing will be strictly limited to matters directly related to the reclassification of these contact lenses.

In accordance with 21 CFR 15.21, interested persons who wish to participate should, on or before May 10, 1983, submit a notice of participation to the Dockets Management Branch (address above). All notices submitted should be identified with the docket number(s) of the rulemaking(s) to which the oral presentation will be relevant and should contain the name, address, telephone number, any business

affiliation of the person desiring to make a presentation, a brief summary of the presentation, and the approximate time requested for the presentation. FDA requests that the presentations be limited to 10 minutes, if possible. Groups having similar interests are requested to consolidate their comments and present them through a single representative. FDA will allocate the time available for the hearing among the persons who properly file a notice of participation. Interested persons attending the hearing who did not request an opportunity to make an oral presentation may be given an opportunity to do so at the conclusion of the hearing, at the discretion of the presiding officers.

After reviewing the submitted summaries and the notices of participation, FDA will schedule each appearance and notify each participant by mail or telephone of the time allotted to the person and the approximate time the person's oral presentation is scheduled to begin. The hearing schedule will be placed on file in the Dockets Management Branch under the docket numbers appearing in the heading of this notice. The conduct of the hearing will be governed by 21 CFR 15.30.

The administrative record of the proposed regulations will remain open for 15 days after the hearing to allow interested persons to submit written comments on matters raised at the hearing. Pursuant to section 520(d) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360j(d)), FDA has concluded that although the total period of time allowed for comment on these proposed rules will exceed 90 days, there is good cause to allow a 15-day comment period on matters raised at the hearing, because 21 CFR 15.25 provides that the record of a Part 15 hearing will remain open for 15 days after the hearing is held and because FDA believes that issues involved in the hearing will be sufficiently complex that it is appropriate to allow interested persons 15 days to respond. Two copies of any such comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket numbers found in brackets in the heading of this notice and are to be submitted to the Dockets Management Branch (address above). The administrative record in the matter, including the transcript of the hearing and any received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: April 20, 1983.

Joseph P. Hile,

Associate Commissioner for Regulatory Affairs.

Correction

In FR Doc. 83-8703, beginning on page 14641 in the issue of Tuesday, April 5, 1983, make the following corrections:

1. In § 1.901-2(a)(2)(ii)(B), nineteen lines from the bottom of the first column of page 14644, "and §§ 1.901-A" should have read "and §§ 1.901-2A".

2. In § 1.901-2(b)(4)(i), four lines from the bottom of the third column of page 14645, "the rate situation" should have read "the rare situation".

3. In § 1.901-2, nine lines from the top of the center column of page 14650, the paragraph now designated "(9) *Definitions"* should have been designated "(g) *Definitions".*

4. In § 1.901-2A(a)(2), *Example (1),* sixteen lines from the bottom of the first column of page 14651, "expenditures to such" should have read "expenditures attributable to such". Also, two lines from the bottom of the same column, "corporations engage" should have read "corporations that engage".

5. In the same section, *Example (5),* twenty nine lines from the top of the third column of page 14651, "country X required" should have read "country X are required".

6. In § 1.901-2A(e)(8), *Example (4),* Twenty one lines from the bottom of the third column of page 14656 (not counting the table), "corporations other than income" should have read "corporations other than corporations".

7. In the same example, in the Costs and Expenses table, third column of page 14657, ninth line of Item 6, "+(100μ)" should have read "+(1000μ)". Also, twenty two lines from the bottom of the column, "(15,134μ" should have read "(54,134μ".

8. In § 1.903-1(b)(3) *Example (5),* eighteen lines from the bottom of the first column of page 14659, "of another is" should have read "of another country is".

9. In § 1.903-(c), five lines from the top of the center column of page 14659, "as provided in § 1.90-2(h)" should have read "as provided in § 1.901-2(h)".

BILLING CODE 1505-01-M

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

29 CFR Part 1610

Freedom of Information Act; Schedule of Fees

AGENCY: Equal Employment Opportunity Commission.

ACTION: Proposed rulemaking.

SUMMARY: The Commission proposes to amend its regulations on the availability of records so that its schedule of fees for the search of records will reflect increases in the direct costs incurred by the Commission in responding to requests for records.

DATES: Comments by June 30, 1983. Proposed rule to be implemented by August 1, 1983.

ADDRESS: Written comments should be addressed to Treva McCall, Executive Secretariat, Room 5215, Equal Employment Opportunity Commission, 2401 E Street, N.W., Washington, D.C. 20506.

FOR FURTHER INFORMATION CONTACT: Anthony J. De Marco, Assistant Legal Counsel, Legal Services, Office of the Legal Counsel, Equal Employment Opportunity Commission, 2401 E Street N.W., Washington, D.C. 20506, (29) 634-6592.

SUPPLEMENTARY INFORMATION: The Equal Employment Opportunity Commission proposes to amend 29 CFR 1610.15(a). This provision contains a schedule of fees utilized by the Commission for purposes of assessing costs to individuals who seek access to records under the Freedom of Information Act, 5 U.S.C. 552. The present fee schedule has become outdated since it does not reflect increases in direct costs to the Commission for the search for records requested. The higher costs are attributable to increases in the salaries of personnel required to search for records. The last search fee revision occurred in 1978. 43 F.R. 40222 (Sept. 11, 1978).

In accordance with the Regulatory Flexibility Act, 5 U.S.C. 1601.612, and Executive Order 12291, the Equal Employment Opportunity Commission certifies that the economic effects of this rule have been carefully analyzed, and that it has been determined that neither a regulatory flexibility analysis nor a regulatory impact analysis is required.

List of Subjects in 29 CFR Part 160

Freedom of information.

The proposed regulation is published for comment pursuant to the requirements of the Freedom of Information Act, 5 U.S.C. 552(a) (4)(A). This provision is also promulgated in accordance with 31 U.S.C. 483a.

PART 1610—[AMENDED]

Section 1610.15 would be amended so that paragraph (a) would be revised to read as follows:

§ 1610.15 Schedule of fees and method of payment for services rendered.

(a) Except as otherwise provided, the following specific fees shall be applicable with respect to services rendered to members of the public under this subpart:

(1) For actual search time by clerical personnel—at the rate of $7.00 per hour.

(2) For actual search time by professional personnel—at the rate of $17.00 per hour.

(3) For copies made by photocopying machine—$.15 per page (maximum of 10 copies).

(4) For attestation of each record as a true copy—$.75 per document.

(5) For certification of each record as a true copy, under the seal of the agency—$1.00.

(6) For each signed statement of negative result of search for record—$1.00.

(7) All other direct costs of search or duplication shall be charged to the requester in the same amount as incurred by the agency.

* * * * *

Signed this 20th day of April, 1983.

For the Commission.

Clarence Thomas,

Chairman.

BILLING CODE 6570-06-M

DEPARTMENT OF LABOR

Office of Pension and Welfare Benefit Programs

29 CFR Part 2520

Employee Benefit Plans; Rules and Regulations for Reporting and Disclosure

AGENCY: Office of Pension and Welfare Benefit Programs, Labor.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains a notice of a proposed regulation under the Employee Retirement Income Security Act of 1974 (ERISA or the Act) which would provide a plan administrator with an alternative means of complying with the statutory requirement to furnish an updated summary plan description (SPD) to participants and beneficiaries at five year intervals for those plans which have adopted amendments during the five year period. The proposed regulation would permit a plan administrator to satisfy this requirement by notifying participants and beneficiaries that they may request and receive, free of charge, a copy of the latest SPD and all subsequent updated summary plan description materials to the plan.

DATES: The regulation is proposed to be effective after publication of the final rule in the **Federal Register**. Written comments concerning the regulation must be received by the Department on or before June 27, 1983.

ADDRESS: Interested persons are invited to submit written comments concerning the regulation to the Division of Reporting and Disclosure, Pension and Welfare Benefit Programs, Room N-4472, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20216, ATTENTION: Alternative SPD Update Regulation. All submissions will be available for public inspection at the Public Documents Room, Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue, N.W., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: John Malagrin, Pension and Welfare Benefit Programs, U.S. Department of Labor, Washington, D.C., (202) 523-8684 (this is not a toll-free number), or Shelby J. Hoover, Esq., Plan Benefits Security Division, Office of the Solicitor, U.S. Department of Labor, Washington, D.C. (202) 523-8658 (this is not a toll-free number).

SUPPLEMENTARY INFORMATION: Notice is hereby given that the Department proposes to amend Part 2520 of Chapter XXV of Title 29 of the Code of Federal Regulations by adding a new § 2520.104b-6, as discussed below.

Section 104(b)(1) of ERISA requires, in part, that the administrator of an employee benefit plan furnish an SPD to each participant (within 90 days after he becomes a participant) and each beneficiary receiving benefits under the plan (within 90 days after he first receives benefits). Under section 102, the SPD generally must describe, in language understandable to the average plan participant, the benefits, rights and obligations of the participants under the plan. The administrator is also required to furnish participants and beneficiaries with a summary of any material modification to the plan or any change in the information required to be included in the summary plan description (SMM) within 210 days following the end of the plan year in which the change was adopted.[1]

Section 104(b)(1) of ERISA requires the plan administrator to furnish the participants and beneficiaries of a plan an updated SPD every fifth year after the plan becomes subject to Part 1 of Title I.[2] If there have been no amendments to the terms of the plan within the five year period, a new SPD need only be furnished to the participants and beneficiaries every tenth year after the plan becomes subject to Part 1. ERISA also requires the plan administrator to file a copy of the SPD and SMM with the Department.

The Department recently adopted an amendment to current reporting requirements which permits a plan administrator to defer distribution of an updated SPD to participants and beneficiaries receiving benefits under the plan. The amendment contains parallel deferral provisions with respect to the requirement that an SPD be distributed, even if there have been no amendments to the plan, every ten years after the plan first becomes subject to Part 1.[3]

In order to reduce the administrative burden and expense of duplicative reporting and disclosure, the Department is now proposing for comment an alternative method of compliance for satisfying, and an exemption from, the requirements that a plan administrator furnish to plan participants and beneficiaries and file with the Department an updated SPD within the five year period specified in section 104(b)(1) or 29 CFR 2520.104b-2(b), as amended. The regulation would allow a plan administrator to satisfy these reporting and disclosure requirements by giving notice to each participant of a plan and each

[1] In the Department's view, the disclosure and filing requirements for an SMM are triggered by any change in information required by section 102 or 29 CFR 2520.102-3 or any modification of a plan which results in a change of such information. Section 102 requires, among other things, disclosure of any information which is necessary to accurately and reasonably apprise plan participants and beneficiaries of their rights and obligations under the plan.

[2] In the Department's view, the requirement of section 104(b)(1) to furnish an updated SPD every fifth year is triggered by plan amendments during the five year period which result in a change in the information required by section 102 or 29 CFR 2520.102-3.

[3] 48 FR 1712 (January 14, 1983). This final regulation amends 29 CFR 2520.104b-2 by adding paragraphs (b) (1) and (2).

beneficiary who is receiving benefits under a pension plan of the availability of and the right of participants and beneficiaries to request and receive, free of charge, updated summary plan description materials.

For purposes of this regulation, updated SPD materials would include the latest SPD of the plan and summaries of any changes adopted subsequent to that SPD which affect any information required to be included in the SPD by section 102 of the Act or 29 CFR 2520.102–3 and which are necessary to produce, in conjunction with the latest SPD, an accurate summary of the plan as of the end of the plan year in which the five year period ends. The Department recognizes that updated SPD materials may take various forms. Whichever form is used, the latest SPD and summary descriptions of changes, when viewed as a whole, and the instructions, if any, describing appropriate steps to be taken by participants and beneficiaries to compile the updated SPD materials, must be reasonably understandable to the average plan participants.

The proposal would permit the plan administrator to provide such notice within 210 days after the end of the plan year in which the five year period ends. Any participant or beneficiary who requests such information must be provided the materials, free of charge, within a reasonable period of time, not to exceed 30 days.

Notice to participants who are present employees may be provided by posting a notice, for at least a 30 day period, at locations which will provide the participants a reasonable opportunity to view the notice, including: (1) Locations within the principal places of employment of the participants; or (2) if the plan is one which is maintained pursuant to one or more collective-bargaining agreements, either at the above locations or at those locations customarily used by the employee representatives for posting notices concerning labor-management relations matters.

Notice to participants who have retired or separated from service with vested benefits under a pension plan, beneficiaries receiving benefits under a pension plan, and other participants under the plan who could not reasonably be expected to visit such posting locations during the period when the notice is posted must be given notice by personal delivery or by a method of delivery described in 29 CFR 2520.104b–1.[4]

[4] See ERISA DOL Advisory Opinions 81–68A (August 13, 1981) and 82–14A (February 19, 1982) for the Department's views regarding the requirements of regulation 104b–1.

The proposal would not exempt any plan from the requirement that every ten years an updated SPD be furnished to each participant and beneficiary, as well as filed with the Department, regardless of whether any amendments to the plan have been made. This proposal also would not affect the provisions of 29 CFR 2520.104b–4(b) which provide an alternative method of compliance for furnishing updated SPDs to retired participants, vested separated participants, or beneficiaries receiving benefits.

The proposal should result in reduced costs and burdens to plans while providing participants and beneficiaries with access to the same information that otherwise would be available in the absence of the alternative. In addition, the reporting of information to the Department would remain unchanged.

Executive Order 12291 Statement

Pursuant to the requirements of Executive Order 12291, it is the Department's determination that this proposed regulation, if adopted, would not be a "major rule", as that term is used in the Order because it does not appear that the proposal would result in: an annual effect on the economy of $100 million or more; a major increase in costs or prices for consumers, individual industries, government agencies, or geographic regions; or significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets. The proposed regulation, if adopted, would provide plan administrators with a less costly and less burdensome means of complying with the statutory requirement that plans distribute to participants and beneficiaries, and file with the Department, updated summary plan descriptions (SPDs) at five year intervals when a plan has been amended during the relevant five year period. Accordingly, implementation of the proposed regulation would not have an adverse impact on employee benefit plans, or their sponsors, required to prepare, distribute and file updated SPDs.

Regulatory Flexibility Act Statement

Section 603(a) of Pub. L. 96–354 (the Regulatory Flexibility Act of 1980) requires Federal agencies to prepare and make public an initial regulatory flexibility analysis upon publication of a notice of proposed rulemaking when regulations would have a significant economic impact on a substantial number of small businesses or small entities. It has been determined that the proposed rule contained in this notice could have a significant economic impact, albeit positive, on a substantial number of small entities.

Small entities were defined, for these purposes, as employee benefit plans covering fewer than 100 persons. While some larger employers have small plans, in general, most small plans are maintained by small businesses. Therefore, assessing the regulation's impact on small plans is an appropriate substitute for evaluating its effects on small entities. Based on this definition, 90 percent of pension plans (covering ten percent of all participants) and 99 percent of welfare plans (covering 40 percent of all participants) are small entities.

The proposed regulation, if adopted, would provide administrators of employee benefits plans with a less costly and less burdensome means of complying with the statutory requirement under section 104(b)(1) of ERISA to furnish updated summary plan descriptions to participants and beneficiaries at five year intervals. It is estimated that implementation of this proposed regulation could result in a cost savings to small plans of approximately $43,112,791 in FY 1983 and $158,346,586 in FY 1984, or about 93.5% of the total cost savings estimated for all impacted employee benefit plans.

Pursuant to section 604(b) of the Regulatory Flexibility Act, an analysis concerning this proposed regulation has been prepared and is available on request at the Public Disclosure Room, Pension and Welfare Benefit Programs, Frances Perkins, Department of Labor Building, Room N–4677, 200 Constitution Ave., N.W., Washington, D.C. 20216.

Paperwork Reduction Act Statement

Implementation of the proposed regulation would reduce the information collection requirements for plans impacted by the statutory requirement to prepare and distribute updated summary plan descriptions at five year intervals. In this regard, it is estimated that the proposed regulation, if adopted, could have the effect of reducing the burden hours attributable to compliance with the SPD requirements currently included in the LMSA Information Budget by an estimated 2,295,232 hours in FY 1983 and 8,436,842 hours in FY 1984.

Information collection requirements contained in this regulation have been approved by the Office of Management

and Budget under the provision of 44 U.S.C. Chapter 35 and have been assigned OMB No. 1210–0039.

List of Subjects in 29 CFR Part 2520

Accounting, Employee benefit plans, Pensions, Reporting and recordkeeping requirements.

Authority: The regulation set forth below is proposed to be adopted pursuant to the authority contained in sections 104, 110 and 505 of ERISA (29 U.S.C. 1024, 1030, and 1135).

PART 2520—[AMENDED]

In view of the foregoing, § 2520.104b–6 is proposed to be added to Chapter XXV of Title 29 of the Code of Federal Regulations to read as follows:

§ 2520.104b–6 Alternative method of compliance and exemption for furnishing the updated summary plan description.

(a) *General.* If the conditions of paragraphs (b), (c), and (d) of this section are met, a plan administrator will be deemed to satisfy the requirements of:

(1) Section 104(b)(1) of the Act to furnish to each participant and each beneficiary receiving benefits under the plan, an updated summary plan description within the five year period described in section 104(b)(1) of the Act or 29 CFR 2520.104b–2(b)(1); and

(2) Section 104(a)(1)(C) of the Act to file with the Secretary of Labor a copy of such summary plan description.

(b) *Notice of Amendments in Five Year Period.* In the case of amendments to a plan during the applicable five year period (as described in paragraph (a) above), the plan administrator must provide notice to participants and beneficiaries of the availability of "updated summary plan description materials" (as described in paragraph (d)) within 210 days following the end of the plan year in which the five year period ends.

(1) *Notice.* The notice must inform plan participants and beneficiaries of: (i) Their right to request and receive, free of charge, a copy of such updated summary plan description materials, and (ii) the procedure by which a participant or beneficiary may request and receive such information.

(2) *Present Employees.* In the case of participants who are present employees, the notice, if not distributed to each participant by a method of delivery prescribed in 29 CFR 2520.104b–1 must be posted for at least 30 days at locations which provide the participants a reasonable opportunity to view its contents, including:

(i) Locations within the principal places of employment of the participants; or

(ii) If the plan is maintained pursuant to one or more collective-bargaining agreements, those locations described in (i) or at those locations customarily used by the employee representatives for posting notices with regard to labor-management relations matters in the geographical area or areas within which the participants are employed.

(3) *Former Employees and Beneficiaries.* In the case of participants who have retired or separated from service with vested benefits under a pension plan, beneficiaries receiving benefits under a pension plan, and other participants under the plan who could not reasonably be expected to visit such posting locations during the period when the notice is posted, an individual copy of the notice must be distributed to each such participant and each beneficiary by personal delivery or by a method of delivery prescribed in 29 CFR 2520.104b–1.

(c) *Distribution Upon Request.* Any plan participant or any beneficiary receiving benefits under a pension plan may request a copy of the updated summary plan description materials (as described in paragraph (d)). One set of these documents must be distributed, free of charge, to the requesting participant or beneficiary within a reasonable period of time after the request, but not to exceed 30 days. Materials furnished upon request shall be mailed to an address provided by the requesting participant or beneficiary or personally delivered to the participant or beneficiary.

(d) *Updated Summary Plan Description Materials.* (1) For purposes of this alternative method of compliance and exemption, updated summary plan description materials shall include—

(i) The latest summary plan description of the plan, and

(ii) Summary descriptions of any changes in the information required to be included in the summary plan description by section 102 of the Act or 29 CFR 2520.102–3.

(2) The updated summary plan description materials, described in paragraph (d)(1) of this section, together with the instructions, if any, describing the appropriate steps to be taken in order to produce such updated summary plan description materials, when viewed as a whole, must:

(i) Be reasonably understandable to the average plan participant; and

(ii) Produce an accurate summary of the plan, with any superseded material being deleted, that is current as of the end of the plan year in which the five year period ends.

(e) *Limitation.* This section does not exempt any plan from filing with the Secretary and distributing to participants and beneficiaries, within the ten year period (described in section 104(b)(1) of the Act or 29 CFR 2520.104b–2(b)(2)), an updated summary plan description which integrates all plan changes adopted during such ten year period.

Signed at Washington, D.C., this 21st day of April 1983.

Jeffrey N. Clayton,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, Department of Labor.

BILLING CODE 4501–29–M

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 933

Surface Mining and Reclamation Operation Under a Federal Program for North Carolina

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Cancellation of public hearing.

SUMMARY: The Office of Surface Mining (OSM) is announcing the cancellation of the public hearing scheduled on the proposed Federal program for regulation of coal exploration and surface coal mining and reclamation operations in North Carolina because no requests were received by April 19, 1983, to testify at that hearing. The Director of the Office of Surface Mining is hereby cancelling the hearing which was scheduled for April 26, 1983, in Sanford, North Carolina.

This notice cancels the public hearing but does not alter the comment period during which interested persons may submit written comments on the proposed Federal program.

DATES: The following hearing is cancelled: The public hearing on the proposed Federal program for the regulation of coal exploration and surface coal mining and reclamation operations on non-Federal and non-Indian lands in North Carolina originally scheduled for April 26, 1983.

ADDRESS: Written comments should be mailed or hand delivered to: Administrative Record Room (R&I–29), Office of Surface Mining, Knoxville Field Office, 530 Gay Street, SW., Suite 500, Knoxville, Tennessee 37902.

FOR FURTHER INFORMATION CONTACT: James M. Kress, Branch of Regulatory Programs, Office of Surface Mining, U.S.

Department of the Interior, 1951 Constitution Avenue, NW., Washington, D.C. 20240, Telephone: (202) 343–5866.

SUPPLEMENTARY INFORMATION: On March 2, 1983 (48 FR 8954) the Office of Surface Mining proposed a Federal program for North Carolina in the **Federal Register** which would regulate coal exploration and surface coal mining and reclamation operations on non-Federal and non-Indian lands in the State. The proposed Federal program provided for a public hearing to be held on April 4, 1983, to receive comments. Subsequently ODM postponed the public hearing until April 26, 1983, and notified the public that if no person indicated an intention to testify by April 19, 1983, the hearing would be cancelled (48 FR 14005, April 1, 1983). As of close of business on April 19, 1983, no persons had contacted OSM indicating that they wished to testify. Therefore, the Director of OSM is cancelling the hearing.

While there will be no public hearing in North Carolina, interested persons may still submit written comments on the proposed Federal program. Written comments must be received on or before 5:00 p.m., on May 6, 1983, to be considered.

Dated: April 20, 1983.

Carl C. Close,

Acting Assistant Director, Program Operations and Inspection, Office of Surface Mining.

[FR Doc. 83-10827 Filed 4-25-83; 8:45 am]

BILLING CODE 4310-05-M

VETERANS ADMINISTRATION

38 CFR Part 1

Privacy Act Exemptions

AGENCY: Veterans Administration.

ACTION: Proposed regulation.

SUMMARY: The Veterans Administration is proposing to revise its regulation to permit the implementation of general and specific exemptions of the Privacy Act of 1974. Currently, for example, investigations conducted by the Office of the Inspector General and the Loan Guaranty Service, Department of Veterans Benefits, are seriously hampered when the subject of an investigation or an internal audit requests, under the Privacy Act, access to any and all information that the Inspector General or the Loan Guaranty Service has regarding him or her. Revision of the regulation would allow the Veterans Administration to implement the exemptions for specified Privacy Act systems of records identified in the revised regulation thereby preventing subjects of an investigation from interfering with or frustrating the investigatory process, preventing disclosure of investigative techniques, and maintaining the Veterans Administration's ability to obtain necessary information from third-party sources by protecting the confidentiality of a source's identity. The revision would also permit the VA to exempt certain information in one system of records compiled solely for the purpose of determining suitability, eligibility or qualifications for agency approval as VA fee personnel for the Loan guaranty program to the extent that disclosure would reveal the identity of a source who furnished information to the government under an express promise that the identity would be held in confidence or, prior to September 27, 1975, under an implied promise that the identity of the source would be held in confidence.

DATE: Comments must be received on or before May 25, 1983. It is proposed to make this revision effective upon final approval.

ADDRESSES: Interested persons are invited to submit written comments, suggestions or objections in regard to this proposed regulation to: Administrator of Veterans Affairs (271A), Veterans Administration, 810 Vermont Avenue, N.W., Washington, D.C. 20420. All written comments received will be available for public inspection only at the Veterans Administration Central Office, Veterans Services Unit, in Room 132 of the above address between the hours of 8 a.m. and 4:30 p.m., Monday through Friday (except holidays) until June 9, 1983.

FOR FURTHER INFORMATION CONTACT: Howard C. Lem (202) 389–3431.

SUPPLEMENTARY INFORMATION: Sections 552a (j) and (k), Title 5, United States Code, provide that the head of an agency may exempt any system of records from specific provisions of the Privacy Act of 1974. The Veterans Administration has two law enforcement Inspector General and two Department of Veterans Benefits systems of records which warrant the protection afforded by 5 U.S.C 552a (j) or (k).

The Inspector General Act of 1978, Pub. L. 95–452, mandates the Inspector General to recommend policies for, and to conduct, supervise and coordinate activities in the Veterans Administration and between the Veterans Administration and other Federal, State and local governmental agencies with respect to all matters relating to the prevention and detection of fraud in programs and operations administered or financed by the Veterans Administration and to the identification and prosecution of participants in such fraud. Under the Act, whenever the Inspector General has reasonable grounds to believe there has been a violation of Federal criminal law the Inspector General must report the matter expeditiously to the Attorney General. Two systems of records have been created in major part to support the criminal and civil law related activities assigned by the Inspector General to the Office of Investigations. These activities constitute the principal function of this staff.

Pursuant to 38 U.S.C. 210(c), 1804 (b), (d), 1810(b), and 3311, investigations are conducted on behalf of Loan Guaranty Service, Department of Veterans Benefits, concerning veterans, Loan Guaranty fee personnel and program participants and the Loan Guaranty program in general for the purpose of assuring program integrity when there is a reasonable belief that an illegal or unethical act has been committed. Investigations may take several forms. For example, an investigation of fraudulent loan application documents may result in the investigation of the veteran, the lender proposing to extend the loan and/or the broker selling the property, to determine if any of these individuals participated in the fraudulent activities. An investigation also might be initiated to determine the reasons why a fee-basis appraiser had initially valued a property at a very high amount when a foreclosure appraisal indicated a value far lower causing a loss to the government and the veteran. Release of information that an investigation was underway to a Privacy Act requestor could seriously impede the investigation by allowing the subject of an investigation to destroy documents, falsify evidence, tamper with potential witnesses and cover up the wrongdoing.

Investigations are also conducted on behalf of the Loan Guaranty Service to determine the suitability, eligibility or the qualifications of prospective Veterans Administration fee personnel (i.e., VA approved appraisers and compliance inspectors). By necessity, information is sometimes gathered under a pledge of confidence. Permitting access to the information supplied by persons after a promise of confidentiality has been given, could reveal the identity of the source of the information and constitute a breach of the promised confidentiality on the part of the agency. Such breaches ultimately would restrict the free flow of information vital to a determination of

prospective appraisers' or compliance inspectors' qualifications and suitability for VA approval.

The current 38 CFR 1.582 does not specifically identify which systems should be exempt and the reasons behind the exemptions claimed for each system. Under 5 U.S.C. 552a(j)(2), the agency would be exempt from disclosing VA-generated criminal identification information, criminal investigative materials, and reports compiled between the stages of arrest and release from the supervision of the criminal law enforcement agency or entity to which the criminal matter has been referred for disposition. Under 5 U.S.C. 552a(k), the agency could refuse individual access to the accounting of its routine use disclosures. Generally, it could refuse to disclose the identity of a source where a promise of confidentiality had been given. The agency would also be exempt from the requirements for publication of procedures for individual access and amendment, records source categories and the maintenance requirement for accuracy and relevancy of files. In order that the Veterans Administration may implement 5 U.S.C. 552a(j)(2), (k)(2) and (k)(5) for specified systems of records, 38 CFR 1.582 is being revised to identify those systems of records and the reasons behind the exemptions being claimed.

It has been determined that this revision to VA regulations is other than major under the criteria of Executive Order 12291, Federal Regulation. It will not have an annual effect on the economy of $100 million or more; it will not result in major increases in costs for consumers, individual industries, Federal, state or local government agencies, or geographic regions, nor will it have significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of the United States-based enterprises to compete with foreign-based enterprises in domestic or export markets. The Administrator hereby certifies that this proposed regulation will not, if promulgated, have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act (RFA), 5 U.S.C. 601 through 612. Pursuant to 5 U.S.C. 605(b), this proposed regulation is therefore exempt from the initial and final regulatory flexibility analyses requirements of sections 603 and 604. The reason for this certification is that this rule affects the Privacy Act rights of individuals and does not generally regulate small entities. Further, there are no reporting or recordkeeping requirements, additional paperwork burdens or other regulatory burdens imposed. Any economic impact on small business entities would be indirect, minimal and would occur in very few instances.

There is no catalog of Federal Domestic Assistance number.

List of Subjects in 38 CFR Part 1

Administrative practice and procedure, Investigations, Privacy Act.

Approved: April 18, 1983.

By direction of the Administrator.

Everett Alvarez, Jr.,

Deputy Administrator.

PART 1—[AMENDED]

38 CFR Part 1, *General*, is amended by revising § 1.582 to read as follows:

§ 1.582 Exemptions.

(a) Certain systems of records maintained by the Veterans Adminstration are exempted from provisions of the Privacy Act in accordance with exemptions (j) and (k) of 5 U.S.C. 552a.

(b) *Exemption of Inspector General Systems of Records.* The Veterans Administration provides limited access to Inspector General Systems of Records as indicated.

(1) The following systems of records are exempted pursuant to the provisions of 5 U.S.C. 552a(j)(2) from subsections (c) (3) and (4), (d), (e) (1), (2) and (3), (e)(4) (G), (H) and (I), (e) (5) and (8), (f) and (g) of 5 U.S.C. 552a; in addition, the following systems of records are exempted pursuant to the provisions of 5 U.S.C. 552a (k)(2) from subsections (c)(3), (d), (e)(1), (e)(4) (G), (H), and (I), and (f) of 5 U.S.C. 552a:

(i) Investigation Reports of Persons Allegedly Involved in Irregularities Concerning VA and Federal Laws, Regulations, Programs, etc.—VA (11VA51); and

(ii) Inspector General Complaint Center Records—VA (66VA53).

(2) These exemptions apply to the extent that information in those systems is subject to exemptions pursuant to 5 U.S.C. 552a (j)(2) and (k)(2)

(3) For the reasons set forth, the systems of records listed under paragraph (b)(1) of this section are exempted under §§ 552a (j)(2) and (k)(2) from the following provisions of 5 U.S.C. 552a:

(i) 5 U.S.C. 552a(c)(3) requires that upon request, an agency must give an individual named in a record an accounting which reflects the disclosure of the record to other persons or agencies. This accounting must state the date, nature and purpose of each disclosure of the record and the name and address of the receipient. The application of this provision would alter subjects to the existence of the investigation and identify that such persons are subjects to that investigation. Since release of such information to subjects would provide them with significant information concerning the nature of the investigation, it could result in the altering or destruction of derivative evidence which is obtained from third parties, improper influencing of witnesses, and other activities that could impede or compromise the investigation.

(ii) 5 U.S.C. 552a (c)(4), (d), (e)(4) (G) and (H), (f) and (g) relate to an individual's right to be notified of the existence of records pertaining to such individual; requirements for identifying an individual who requests access to records; the agency procedures relating to access to records and the amendment of information contained in such records; and the civil remedies available to the individual in the event of adverse determinations by an agency concerning access to or amendment of information contained in record systems. This system is exempt from the foregoing provisions for the following reasons: To notify an individual at the individual's request of the existence of records in an investigative file pertaining to such individual or to grant access to an investigative file could interfere with investigative and enforcement proceedings, threaten the safety of individuals who have cooperated with authorities, constitute an unwarranted invasion of personal privacy of others, disclose the identity of confidential sources, reveal confidential information supplied by these sources, and disclose investigtive techniques and procedures.

(iii) 5 U.S.C. 552a(e)(4)(I) requires the publication of the categories of sources of records in each system of records. The application of this provision could disclose investigative techniques and procedures and cause sources to refrain from giving such information because of fear of reprisal, or fear of breach of promises of anonymity and confidentiality. This could compromise the ability to conduct investigations and to identify, detect and apprehend violators. Even though the agency has claimed an exemption from this particular requirement, it still plans to generally identify the categories of records and the sources for these records in this system. However, for the reasons stated in paragraph (b)(3)(ii) of this section, this exemption is still being cited in the event an individual wants to know a specific source of information.

(iv) 5 U.S.C. 552a(e)(1) requires each agency to maintain in its records only such information about an individual that is relevant and necessary to accomplish a purpose of the agency required by statute or executive order. These systems of records are exempt from the foregoing provisions because:

(A) It is not possible to detect relevance or necessity of specific information in the early stages of a criminal or other investigation.

(B) Relevance and necessity are questions of judgment and timing. What appears relevant and necessary may ultimately be determined to be unnecessary. It is only after the information is evaluated that the relevance and necessity of such information can be established.

(C) In any investigation the Inspector General may obtain information concerning the violations of laws other than those within the scope of his/her jurisdiction. In the interest of effective law enforcement, the Inspector General should retain this information as it may aid in establishing patterns of criminal activity, and provide leads for those law enforcement agencies charge with enforcing other segments or civil law.

(v) 5 U.S.C. § 552a(e)(2) requires an agency to collect information to the greatest extent practicable directly from the subject individual when the information may result in adverse determinations abut an indiviudal's rights, benefits, and privlieges under Federal programs. The application of the provision would impair investigations of illegal acts, violation of the rules of conduct, merit system and any other misconduct for the following reasons:

(A) In order to successfully verify a complaint, most information about a complainant or an individual under investigation must be obtained from third parties such as witnesses and informers. It is not feasible to rely upon the subject of the investigation as a source for information regarding his/her activities because of the subject's rights against self-incrimination and because of the inherent unreliability of the suspect's statements. Similarly, it is not always feasible to rely upon the complainant as a source of information regarding his/her involvement in an investigation.

(B) The subject of an investigation will be alerted to the existence of an investigation if an attempt is made to obtain information from the subject. This would afford the individual the opportunity to conceal any criminal activities to avoid apprehension.

(vi) 5 U.S.C. § 552a(e)(3) requires that an agency must inform the subject of an investigation who is asked to supply information of:

(A) The authority under which the information is sought and whether disclosure of the information is mandatory or voluntary;

(B) The purposes for which the information is intended to be used;

(C) The routine uses which may be made of the information; and

(D) The effects on the subject, if any, of not providing the requested information. The reasons for exempting this system of records from the foregoing provision are as follows:

(1) The disclosure to the subject of the purposes of the investigation as stated in paragraph (b)(3)(vi)(B) of this paragraph would provide the subject with substantial information relating to the nature of the investigation and could impede or compromise the investigation.

(2) If the complainant or the subject were informed of the information rquired by this provision, it could seriously interfere with undercover activities requiring disclosure of the authority under which the information is being requested. This could conceivably jeopardize undercover agents' identities and impair their safety, as well as impair the sucessful conclusion of the investigation.

(3) Individuals may be contacted during preliminary information gathering in investigations before any individual is identified as the subject of an investigation. Informing the individual of the matters required by this provision would hinder or adversely affect any present or subsequent investigations.

(vii) 5 U.S.C. 552a(e)(5) requires that records be maintained with such accuracy, relevance, timeliness, and completeness as is reasonably necessary to assure fairness to the individual in making any determination about an individual. Since the law defines "maintain" to include the collection of information, complying with this provision would prevent the collection of any data not shown to be accurate, relevant, timely, and complete at the moment of its collection. In gathering information during the course of an investigation it is not always possible to determine this prior to collection of the information. Facts are first gathered and then placed into a logical order which objectively proves or disproves criminal behavior on the part of the suspect. Material which may seem unrelated, irrelevant, incomplete, untimely, etc., may take on added meaning as an investigation progresses. The restrictions in this provision could interfere with the preparation of a complete investigative report.

(viii) 5 U.S.C. 552a(e)(8) requires an agency to make reasonable efforts to serve notice on an individual when any record on such individual is made available to any person under compulsory legal process when such process becomes a matter of public record. The notice requirement of this provision could prematurely reveal an ongoing criminal investigation to the subject of the investigation.

(c) *Exemption of Loan Guaranty Service, Department of Veterans Benefits, Systems of Records.* The Veterans Administration provides limited access to Loan Guaranty Service, Department of Veterans Benefits, systems of records as indicated:

(1) The following systems of records are exempted pursuant to the provisions of 5 U.S.C. 552a(k)(2) from subsections (c)(3), (d), (e)(1) and (e)(4) (G), (H) and (I) and (f):

(i) Loan Guaranty Fee Personnel and Program Participant Records—VA (17VA26); and

(ii) Loan Guaranty Home Condominium and Mobile Home Loan Applicant Records and Paraplegic Grant Application Records—VA (55VA26).

(2) These exemptions apply to the extent that information in these systems is subject to exemption pursuant to 5 U.S.C. 552a(k)(2).

(3) For the reasons set forth, the systems of records listed under paragraph (c)(1) of this section is exempted under 5 U.S.C. 552a(k)(2) from the following provisions of 5 U.S.C. 552a:

(i) 5 U.S.C. 552a(c)(3) requires that an agency make accountings of disclosures of records available to individuals named in the records at their request. These accountings must state the date, nature and purpose of each disclosure of the record and the name and address of the recipient. The application of this provision would alert subjects of an investigation to the existence of the investigation and that such persons are subjects of that investigation. Since release of such information to subjects of an investigation would provide the subjects with significant information concerning the nature of the investigation, it could result in the altering or destruction of documentary evidence, improper influencing of witnesses and other activities that could impede or compromise the investigation.

(ii) 5 U.S.C. 552a(d), (e)(4) (G) and (H) and (f) relate to an individual's right to be notified of the existence of records pertaining to such individual; requirements for identifying an individual who requests access to records; and the agency procedures

relating to access to records and the content of information contained in such records. This system is exempt from the foregoing provisions for the following reasons: To notify an individual at the individual's request of the existence of records in an investigative file pertaining to such individual or to grant access to an investigative file could interfere with investigative and enforcement proceedings; constitute an unwarranted invasion of the personal privacy of others; disclose the identify of confidential sources and reveal confidential information supplied by these sources and disclose investigative techniques and procedures.

(iii) 5 U.S.C. 552a(e)(4)(I) requires the publication of the categories of sources of records in each system of records. The application of this provision could disclose investigative techniques and procedures and cause sources to refrain from giving such information because of fear of reprisal, or fear of breach of promises of anonymity and confidentiality. This would compromise the ability to conduct investigations. Even though the agency has claimed an exemption from this particular requirement, it still plans to generally identify the categories of records and the sources for these records in this system. However, for the reasons stated above, this exemption is still being cited in the event an individual wanted to know a specific source of information.

(iv) 5 U.S.C. 552a(e)(1) requires each agency to maintain in its records only such information about an individual that is relevant and necessary to accomplish a purpose of the agency required by statute or executive order. This system of records is exempt from the foregoing provision because:

(A) It is not possible to detect relevance or necessity of specific information in the early stages of an investigation.

(B) Relevance and necessity are questions of judgment and timing. What appears relevant and necessary when collected may ultimately be determined to be unnecessary. It is only after the information is evaluated that the relevance and necessity of such information can be established.

(C) In interviewing persons or obtaining other forms of evidence during an investigation, information may be supplied to the investigator which relates to matters incidental to the main purpose of the investigation but which is appropriate in a thorough investigation. Oftentimes, such information cannot readily be segregated.

(4) The following system of records is exempt pursuant to the provisions of 5 U.S.C. 552a(k)(5) from subsections (c)(3), (d), (e)(1), (e)(4) (G), (H) and (I) and (f): Loan Guaranty Fee Personnel and Program Participant Records—VA (17VA26).

(5) This exemption applies to the extent that information in this system is subject to exemption pursuant to 5 U.S.C. 552a(k)(5).

(6) For the reasons set forth, the system of records listed in paragraph (c)(4) of this section is exempt under 5 U.S.C. 552a(k)(5) from the following provisions of 5 U.S.C. 552a:

(i) 5 U.S.C. 552a(c)(3) requires that an agency make accountings of disclosures of records available to individuals named in the records at their request. These accountings must state the date, nature and purpose of each disclosure of the record and the name and address of the recipient. The application of this provision would alert subjects of background suitability investigations to the existence of the investigation and reveal that such persons are subjects of that investigation. Since release of such information to subjects of an investigation would provide the subjects with significant information concerning the nature of the investigation, it could result in revealing the identity of a confidential source.

(ii) 5 U.S.C. 552a(d), (e)(4) (G) and (H) and (f) relate to an individual's right to be notified of the existence of records pertaining to such individual; requirements for identifying an individual who requests access to records; and the agency procedures relating to access to records and the contest of information contained in such records. This system is exempt from the foregoing provisions for the following reasons: To notify an individual at the individual's request of the existence of records in an investigative file pertaining to such an individual or to grant access to an investigative file would disclose the identity of confidential sources and reveal confidential information supplied by these sources.

(iii) 5 U.S.C. 552a(e)(4)(I) requires the publication of the categories of sources of records in each system of records. The application of this provision could disclose sufficient information to disclose the identity of a confidential source and cause sources to refrain from giving such information because of fear of reprisal, or fear of breach of promises of anonymity and confidentiality. This would compromise the ability to conduct background suitability investigations.

(iv) 5 U.S.C. 552a(e)(1) requires each agency to maintain in its records only such information about an individual that is relevant and necessary to accomplish a purpose of the agency required by statute or executive order. This system of records is exempt from the foregoing provision because:

(A) It is not possible to detect relevance and necessity of specific information from a confidential source in the early stages of an investigation.

(B) Relevance and necessity are questions of judgment and timing. What appears relevant and necessary when collected may ultimately be determined to be unnecessary. It is only after the information is evaluated that the relevance and necessity of such information can be established regarding suitability for VA approval as a fee appraiser or compliance inspector.

(C) In interviewing persons or obtaining other forms of evidence during an investigation for suitability for VA approval, information may be supplied to the investigator which relate to matters incidental to the main purpose of the investigation but which is appropriate in a thorough investigation. Oftentimes, such information cannot readily be segregated and disclosure might jeopardize the identity of a confidential source.

(5 U.S.C. 552a(j) and (k); 38 U.S.C. 210(c))

[MM Docket No. 83-374; RM-4293]

TV Broadcast Stations In Reno, Nevada; Proposed Changes In Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to assign VHF Television Channel 11 to Reno, Nevada, in response to a petition filed by Harry C. Powell, Jr. The assignment could provide Reno with its sixth commercial television assignment.

DATES: Comments must be filed on or before May 31, 1983, and reply comments must be filed on or before June 15, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Mass Media Bureau, (202) 634-6530.

Television broadcasting.

Proposed Rule Making

Adopted: March 30, 1983.
Released: April 15, 1983.

By the Chief, Policy and Rules Division:

In the Matter of; Amendment of § 73.606(b), Table of Assignments, TV Broadcast Stations (Reno, Nevada) MM Docket No. 83–374 RM–4293.

1. A petition for rule making was filed January 3, 1983, by Harry C. Powell, Jr. ("petitioner"), seeking the assignment of VHF Television Channel 11 to Reno, Nevada, as that community's sixth commercial television allocation. Petitioner indicated that he, or an entity of which he is a part, will apply for the channel, if assigned.

2. Reno (population 100,756),[1] the seat of Washoe County (population 193,623), is located in the western portion of the state, approximately 300 kilometers (190 miles) northeast of San Francisco, California. Reno currently is served by commercial television Stations KTV (Channel 2), KCRL (Channel 4), KOLO (Channel 8), KAME (Channel 21+), KREN (Channel 27+), and noncommercial education Station KNPB (Channel *5).

3. VHF Television Channel 11 can be assigned to Reno in conformity with the minimum distance separation requirements of § 73.610 of the Commission's Rules. We believe petitioner's proposal warrants consideration since the proposed television assignment could provide a sixth commercial television broadcast service to Reno. Accordingly, we shall propose to amend the Television Table of Assignments, § 73.606(b) of the Commission's Rules, with regard to that community, as follows:

City	Channel No.	
	Present	Proposed
Reno, Nevada	2, 4, *5, 8, 21+, and 27+.	2, 4, *5, 8, 11, 21+, and 27+.

4. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

5. Interested parties may file comments on or before May 31, 1983, and reply comments on or before June 15, 1983, and are advised to read the Appendix for the proper procedures.

[1] Population figures are extracted from the 1980 U.S. Census Advance Report.

6. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the TV Table of Assignments, § 73.606(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

7. For further information concerning this proceeding, contact Nancy V. Joyner, Mass Media Bureau, (202) 634–6530. However, members of the public should note that from the time a *Notice of Proposed Rule Making* is issued until the matter is no longer subject to Commission consideration, or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making, other than comments officially filed at the Commission, or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment, to which the reply is directed, constitutes an *ex parte* presentation and shall not be considered in the proceeding.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1l), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, IT IS PROPOSED TO AMEND the TV Table of Assignments, § 73.606(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See Section 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, intrerested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of Section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference

Room at its headquarters, 1919 M Street, NW., Washington, D.C.

TV Broadcast Station in Austin, Texas; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes the assignment of UHF Television Channel 54 to Austin, Texas, as its sixth television assignment, in response to a petition filed by the Allandale Baptist Church of Austin.

DATES: Comments must be filed on or before June 3, 1983, and reply comments must be filed on or before June 20, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

Television broadcasting.

Proposed Rule Making

In the Matter of Amendment of: § 73.606(b), Table of Assignments, TV Broadcast Stations (Austin, Texas) MM Docket No. 83-386, RM-4363.

Adopted: April 1, 1983.
Released: April 19, 1983.

By the Chief, Policy and Rules Division:

1. The Commission herein considers a petition for rule making filed January 24, 1983, by the Allandale Baptist Church of Austin ("petitioner"), seeking the assignment of UHF Television Channel 54 to Austin, Texas, as its sixth UHF television assignment. The channel can be assigned in compliance with the minimum distance separation requirements and other criteria. Petitioner filed information in support of the proposal and expressed its interest in applying for the channel, if assigned.

2. Austin (population 345,496),[1] seat of Travis County (population 419,335) and the capital of the State of Texas, is located approximately 240 kilometers (150 miles) northeast of Houston.

3. Since Austin is located within 320 kilometers (199 miles) of the U.S.-Mexican border, the proposed assignment requires the concurrence of the Mexican government.

[1] Population figures are taken from the 1980 U.S. Census Advance Report.

4. In view of the fact that Austin could receive its sixth television assignment, we shall seek comments on the proposal to amend the Television Table of Assignments (§ 73.606(b) of the Commission's Rules) with respect to the following city:

City	Channel No.	
	Present	Proposed
Austin, Texas	7+, *18+, 24, 36, and 42-.	7+, *18+, 24, 36, 42-, and 54

5. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

6. Interested parties may file comments on or before June 3, 1983, and reply comments on or before June 20, 1983, and are advised to read the Appendix for the proper procedures.

7. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the TV Table of Assignments, § 73.606(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 F.R. 11549, published February 9, 1981.

8. For further information concerning this proceeding, contact Mark N. Lipp, Mass Media Bureau, (202) 634-6530. However, members of the public should note that from the time a *Notice of Proposed Rule Making* is issued until the matter is no longer subject to Commission consideration, or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making, other than comments officially filed at the Commission, or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment, to which the reply is directed, constitutes an *ex parte* presentation and shall not be considered in the proceeding.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, it is proposed to amend the TV Table of Assignments, § 73.606(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Coments are invited on the proposal(s) discussed in the Notice of Proposed Rule Making to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communitites involved.

4. *Comments and Reply comments; Service.* Pursuant to applicable procedures set out in §§ 1.412 amd 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the Notice

of Proposed Rule Making to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

Proposed Rule Making

In the Matter of: Amendment of § 73.606(b), Table of Assignments, TV Broadcast Stations (El Paso, Texas) MM Docket No. 83-382, RM-4312.

Adopted: March 30, 1983.
Released: April 18, 1983.

By the Chief, Policy and Rules Division:

1. The Commission herein considers a petition for rule making filed January 7, 1983, by Peggy Ann Rothchild ("petitioner"), seeking the assignment of UHF Television Channel 65 to El Paso, Texas, as its eighth television assignment. The channel can be assigned in compliance with the minimum distance separation requirements and other criteria.

2. El Paso (population 425,259) [1] seat of El Paso County (population 479,899), is located in western Texas, approximately 370 kilometers (230 miles) south of Albuquerque, New Mexico.

3. Petitioner submitted information in suppport of the proposal and expressed an interest in applying for the channel, if assigned.

4. Since El Paso is located within 320 kilometers (199 miles) of the U.S.-Mexican border, the proposed assignment requires the concurrence of the Mexican government.

5. In view of the fact that El Paso could receive its eighth television service, we shall seek comments on the proposal to amend the Television Table of Assignments, § 73.606(b) of the Commission's Rules, with respect to the following city:

City	Channel No.	
	Present	Proposed
El Paso, Texas	4, 7, 9, *13, 14, 26+, and *38-.	4, 7, 9, *13, 14, 26+, *38-, and 65.

6. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

7. Interested parties may file comments on or before June 2, 1983, and reply comments on or before June 17, 1983, and are advised to read the Appendix for the proper procedures.

8. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the TV Table of Assignments, § 73.606(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules,* 46 FR 11549, published February 9, 1981.

Television broadcasting.

Proposed Rule Making

Adopted: March 30, 1983.
Released: April 15, 1983.

By the Chief, Policy and Rules Division:

In the Matter of: Amendment of § 73.606(b), Table of Assignments, TV Broadcast Stations (Longview, Texas); MM Docket No. 83-375, RM-4311.

1. Peggy Ann Rothchild ("petitioner") submitted a petition for rule making on January 7, 1983, requesting the assignment of UHF Television Channel 54 to Longview, Texas, as a third television assignment. Petitioner indicated that she, or an entity of which she is a part, will apply for the channel, if assigned.

2. Longview (population 62,762) [1] seat of Gregg County (population 99,487), is located in northeastern Texas, approximately 190 kilometers (118 miles) southeast of Dallas. Longview is currently served by Station KLMG-TV (Channel 51).

3. Based on the information provided by the petitioner, we believe that an adequate showing has been made for a third television assignment to Longview. Comments are invited on the proposal to amend the Television Table of Assignments (§ 73.606(b) of the Rules) with regard to the following city:

City	Channel No.	
	Present	Proposed
Longview, Texas	16+ [1], and 51-	16+ [1], 51-, and 54+.

[1] Following the decision in docket No. 18261, channels so indicated will not be available for television use until further action by the Commission.

4. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

5. Interested parties may file comments on or before May 31, 1983, and reply comments on or before June 15, 1983, and are advised to read the Appendix for the proper procedures.

6. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making To Amend § 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

7. For further information concerning this proceeding, contact Montrose H. Tyree, Mass Media Bureau, (202) 634-6530. However, members of the public should note that from the time a *Notice of Proposed Rule Making* is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment, to which the reply is directed, constitutes an *ex parte* presentation and shall not be considered in the proceeding.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

[1] Population figures are taken from the 1980 U.S. Census Advance Report.

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

1. Pursuant to authority found in Section 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, *it is proposed to amend* the TV Table of Assignments, § 73.606(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showing Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the Notice of Proposed Rule Making to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW. Washington, D.C.

[MM Docket No. 83-379; RM 4368]

FM Broadcast Stations in Freedom, California; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes a first FM assignment to Freedom, California, in response to a petition filed by Eric R. Hilding.

DATES: Comments must be filed on or before June 2, 1983, and reply comments on or before June 17, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Mass Media Bureau, (202) 634-6530

List of Subjects in 47 CFR Part 73

Radio broadcasting.

In the matter of an amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Freedom, California) MM Docket No. 83-379, RM-4368.

Proposed Rule Making

Adopted: March 30, 1983.
Released: April 18, 1983.

By the Chief, Policy and Rules Division.

1. Eric R. Hilding ("petitioner") submitted a petition for rule making on January 24, 1983, which seeks the assignment of Channel 240A to Freedom, California, as its first FM assignment. Petitioner indicated that he would apply for the channel, if assigned.

2. In an effort to demonstrate a need for the requested assignment, petitioner submitted population and community data. In view of the action taken in *Revision of FM Policies and Procedures*, 90 F.C.C. 2d 88 (1982), these issues are no longer relevant to this type of proceeding.

3. We have determined that Channel 240A can be assigned to Freedom in conformity with the minimum distance separation requirements, provided the transmitter site is located approximately 2.4 miles south of the city. This restriction is necessary to avoid short spacing to Station KKHI(FM) (Channel 239), San Francisco, and Station KNTO(FM) (Channel 240A), Livingston, California.

4. In view of the fact that the proposal could provide a first local broadcast service to Freedom, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Rules, with regard to the following community:

City	Channel No.	
	Present	Proposed
Freedom, California		240A.

5. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

6. Interested parties may file comments on or before June 2, 1983, and reply comments on or before June 17, 1983, and are advised to read the Appendix for the proper procedures.

7. The Commission has determined that the relevent provisions of the regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend § 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

8. For further information concerning this proceeding, contact Montrose H. Tyree, Mass Media Bureau, (202) 634-6530. However, members of the public

should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as ths one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment to which the reply is directed constitutes an *ex parte* presentation and shall not be considered in the proceeding.

(Sec. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Roderick K. Porter,

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, *it it proposed to amend* the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if is only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Conterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in § 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

[MM Docket No. 83-376; RM-4387]

FM Broadcast Stations in Armijo, New Mexico; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes the assignment of Channel 296A to Armijo, New Mexico, in response to a petition filed by Dorothy D. Davis. The proposal could provide a first FM service to Armijo.

DATES: Comments must be filed on or before May 31, 1983, and reply comments on or before June 15, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Mass Media Bureau (202) 634-6530.

List of Subjects in 47 CFR Part 73

Radio broadcasting.

Proposed Rule Making

In the matter of; Amendment of § 73.202(b), Table of Assignments FM Broadcast Stations (Armijo; New Mexico) MM Docket No. 83-376, RM-4387.

Adopted: March 30, 1983.
Released: April 15, 1983.

By the Chief, Policy and Rules Division.

1. Dorothy D. Davis ("petitioner"), on February 4, 1983, submitted a petition for rule making seeking the assignment of Channel 296A to Armijo, New Mexico, as that community's first FM channel. Petitioner stated her intention to apply for the channel, if assigned.

2. In an effort to support her request, petitioner submitted population and economic information. However, in view of the action taken in *Revision of FM Policies and Procedures*, 90 F.C.C. 2d 88 (1982), these issues were eliminated as a requirement to justify a non-conflicting proposal.

3. We have determined that a Channel 296A assignment at Armijo will require a site restriction of 5.9 miles south of the city.[1] Petitioner had indicated that the assignment would meet the minimum distance separation requirements without a site restriction.

4. In view of the fact that the proposal could provide a first local broadcast service to Armijo, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Rules, with regard to the following community.

City	Channel No.	
	Present	Proposed
Armijo, New Mexico		296A

5. The Commission's authority to institute rule making proceedings,

[1] This restriction is necessary to avoid short spacing to Station KHFM(FM) (Channel 242) Albuquerque, New Mexico, and a rule making to assign Channel 296A to Los Alamos, New Mexico, Docket 83-22, RM-4222.

showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

6. Interested parties may file comments on or before May 31, 1983, and reply comments on or before June 15, 1983, and are advised to read the Appendix for the proper procedures.

7. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules,* 46 FR 11549, published February 9, 1981.

8. For further information concerning this proceeding, contact Montrose H. Tyree, Mass Media Bureau, (202) 634–6530. However, members of the public should note that from the time a *Notice of Proposed Rule Making* is issued until the matter is no longer subject to Commission consideration, or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making, other than comnments officially filed at the Commission, or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment, to which the reply is directed, constitutes an *ex parte* presentation and shall not be considered in the proceeding.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, *It is proposed to amend* the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showing Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice,* they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of Section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

Proposed Rule Making

In the matter of; Amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Alva, Oklahoma) MM Docket No. 83–380, RM–4362.

Adopted: March 30, 1983.
Released: April 18, 1983.

By the Chief, Policy and Rules Division.

1. Lynn L. Martin ("petitioner") submitted a petition for rule making on January 24, 1983, which seeks the assignment of Channel 232A to Alva, Oklahoma, as its third FM assignment. Petitioner stated his intention to apply for the channel, if assigned. The assignment can be made in full compliance with the requirements of § 73.207 of the Rules.

2. In view of the fact that the proposal could provide a third local broadcast service to Alva, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Rules, with regard to the following community:

City	Channel No.	
	Present	Proposed
Alva, Oklahoma	259, 284	232A, 259, 284

3. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

4. Interested parties may file comments on or before June 2, 1983, and reply comments on or before June 17, 1983, and are advised to read the Appendix for the proper procedures.

5. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do No Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

[MM Docket No. 83-378; RM-4381]

FM Broadcast Station in Elk City, Oklahoma; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to assign FM Channel 232A to Elk City, Oklahoma, in response to a petition filed by Gary C. Smith. The proposed assignment could provide a second FM service to that community.

DATES: Comments must be filed on or before May 31, 1983, and reply comments on or before June 15, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

Proposed Rule Making

In the matter of: Amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Elk City, Oklahoma) MM Docket No. 83-378, RM-4381.

Adopted: March 30, 1983.

Released: April 15, 1983.

By the Chief, Policy and Rules Division:

1. A petition for rule making was filed February 14, 1983, by Gary C. Smith ("petitioner"), proposing the assignment of Channel 232A to Elk City, Oklahoma, as its second FM assignment. Petitioner submitted information in support of the proposal and expressed his interest in applying for the channel, if assigned.

The channel can be assigned in compliance with the minimum distance separation requirements.

2. In view of the fact that the proposed assignment could provide a second local FM broadcast service to Elk City, Oklahoma, the Commission believes it is appropriate to propose amending the FM Table of Assignments, § 73.202(b) of the Commission's Rules, with respect to the following community:

City	Channel No.	
	Present	Proposed
Elk City, Okla	243	232A, 243

3. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

4. Interested parties may file comments on or before May 31, 1983, and reply comments on or before June 15, 1983, and are advised to read the Appendix for the proper procedures.

5. The commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

6. For further information concerning this proceeding, contact Mark N. Lipp, Mass Media Bureau, (202) 634–6530. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment to which the reply is directed constitutes an *ex parte* presentation and shall not be considered in the proceeding.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303).

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

Proposed Rule Making

In the Matter of; Amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations

(McAlester, Oklahoma) MM Docket No. 83-387, RM-4359.

Adopted: April 1, 1983.

Released: April 19, 1983.

By the Chief, Policy and Rules Division:

1. A petition for rule making was filed January 21, 1983, by Megacom ("petitioner") proposing the assignment of Channel 285A to McAlester, Oklahoma, as its second FM assignment. Petitioner submitted information in support of the proposal and expressed its interest in applying for the channel, if assigned. The channel can be assigned in compliance with the minimum distance separation requirements.

2. In view of the fact that the proposed assignment could provide a second local FM broadcast service to McAlester, Oklahoma, the Commission believes it is appropriate to propose amending the FM Table of Assignments, § 73.202(b) of the Commission's Rules, with respect to the following community:

City	Channel No.	
	Present	Proposed
McAlester, Okla.	267	267, 285A

3. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

4. Interested parties may file comments on or before June 3, 1983, and reply comments on or before June 20, 1983, and are advised to read the Appendix for the proper procedures.

5. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

6. For further information concerning this proceeding, contact Mark N. Lipp, Mass Media Bureau, (202) 634-6530. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact, is a message (spoken or written) concerning the merits of a pending rule making other than comments officially file at the Commission or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes and *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has been served on the person(s) who filed the comment to which the reply is directed constitutes and *ex parte* presentation and shall not be considered in the proceeding.

(Sec. 4, 303, 48 Stat., as amended, 1066, 1082, 47 U.S.C. 154, 303)

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and Sections 0.61, 0.204(b) and 0.283 of the Commission's Rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showing Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filing in this proceeding.

(a) Counterproposals advance in this proceeding itself will be considered, if advance in initial comments, so that parties may comment on them in reply comments. The will not be considered if advanced in reply comments. (See Section 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant applicable procedures set out in § 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, and original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

[MM Docket No. 83-385; RM-4292]

TV Broadcast Station in Denver, Colorado; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to assign UHF Television Channel 50 to

Denver, Colorado, in response to a petition filed by William V. Johnson. The assignment could provide Denver with its seventh commercial television allocation.

DATES: Comments must be filed on or before June 3, 1983, and reply comments must be filed on or before June 20, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Mass Media Bureau, (202) 634–6530.

List of Subjects in 47 CFR Part 73

Television broadcasting.

Proposed Rule Making

In the Matter of an amendment of § 73.606(b), Table of Assignments, TV Broadcast Stations (Denver, Colorado) MM Docket No. 83–385, RM–4292.

Adopted: April 1, 1983.
Released: April 19, 1983.

By the Chief, Policy and Rules Division.

1. A petition for rule making was filed January 3, 1983, by William V. Johnson ("petitioner") seeking the assignment of UHF Television Channel 50 to Denver, Colorado, as that community's seventh commercial television assignment. Petitioner indicates that he, or an entity of which he is a part, will apply for the channel, if assigned.

2. Denver (population 491,396),[1] the seat of Denver County (population 491,396), as well as the State capital of Colorado, is located in the northeast portion of the state. Currently, Denver is served by commercial Stations KWGN–TV (Channel 2); KOA–TV (Channel 4); KMGH–TV (Channel 7); KBTV–TV (Channel 9); (Channel 20, applications pending); and KTMX–TV (Channel 31); and noncommercial educational Station KRMA–TV (Channel *6); and (Channel *41, unoccupied).

3. We believe that petitioner's proposal warrants consideration. The channel can be assigned consistent with the minimum distance separation requirements of § 73.610 of the Commission's Rules.

4. In view of the foregoing, and the fact that the proposed television assignment could provide a seventh commercial television broadcast service to Denver, Colorado, the Commission believes it appropriate to propose amending the Television Table of Assignments, § 73.606(b) of the Commission's Rules, as follows:

[1] Population figures are taken from the 1980 U.S. Census Advance Report.

City	Channel No.	
	Present	Proposed
Denver, Colorado	2, 4–, *6–, 7, 9–, 20, 31, and *41.	2, 4–, *6–, 7, 9–, 20, 31, *41, and 50

5. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

6. Interested parties may file comments on or before June 3, 1983, and reply comments on or before June 20, 1983, and are advised to read the Appendix for the proper procedures.

7. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the TV Table of Assignments, § 73.606(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making To Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

8. For further information concerning this proceeding, contact Nancy V. Joyner, Mass Media Bureau, (202) 634–6530. However, members of the public should note that from the time a *Notice of Proposed Rulemaking* is issued until the matter is no longer subject to Commission consideration, or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making, other than comments officially filed at the Commission, or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitute an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment, to which the reply is directed, constitutes an *ex parte* presentation and shall not be considered in the proceeding.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.)

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Divisions, Mass Media Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, *it is proposed to amend* the TV Table of Assignments, § 73.606(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and if authorize, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposal advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflicts with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rule and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed

comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rule and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

Proposed Rule Making

In the matter of: Amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations (Charleston, Illinois) MM Docket No. 83-383; RM-4357.

Adopted: March 30, 1983.
Released: April 18, 1983.

By the Chief, Policy and Rules Division.

1. The Commission herein considers a petition for rule making filed January 25, 1983, by Eastern Illinois University ("petitioner"), seeking to assign and reserve UHF television Channel *51 at Charleston, Illinois, for noncommercial educational use. Petitioner stated its intention to apply for the channel, if assigned.

2. Charleston (population 19,355)[1], seat of Coles County (population 52,992), is located in east central Illinois, approximately 270 kilometers (170 miles) south of Chicago. It has no local television service.

3. We believe that the petitioner's proposal for a first noncommercial educational assignment at Charleston warrants consideration. The channel can be assigned in compliance with the minimum distance separation requirements, without a site restriction.

4. Comments are invited on the proposal to amend the Television Table of Assignments (§ 73.606(b) of the Rules) with regard to the following city:

City	Channel No.	
	Present	Proposed
Charleston, Illinois		*51+

5. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

6. Interested parties may file comments on or before June 2, 1983, and reply comments on or before June 17, 1983, and are advised to read the Appendix for the proper procedures.

7. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to the rule making proceedings to amend the TV Table of Assignments, Section 73.606(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

Television broadcasting.

Proposed Rule Making

In the Matter of; Amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations (Owensboro, Kentucky) MM Docket No. 83-384, RM-4347.

Adopted: March 30, 1983.

Released: April 19, 1983.

By the Chief, Policy and Rules Division.

1. Before the Commission is a petition for rule making filed by William T. Conner on January 13, 1983, requesting the assignment of UHF television Channel 61 to Owensboro, Kentucky, as that community's third commercial television allocation. Petitioner indicated that he, or an entity of which he is a part, will apply for the channel, if assigned.

2. Owensboro (population 54,450),[1] the seat of Daviess County (population 85,949) is located in the northwestern portion of the State, approximately 130 kilometers (80 miles) southwest of Louisville, Kentucky. At the present time, Owensboro is assigned two commercial television channels.

3. UHF television Channel 61 can be assigned to Owensboro, Kentucky, in compliance with the minimum distance separation requirements of § 73.610 of the Commission's Rules. Therefore, we believe the petitioner's proposal warrants consideration since the proposed television assignment could provide Owensboro with its third local commercial television broadcast service. Accordingly, the Commission proposes to amend the Television Table of Assignments, § 73.606(b) of the Commission's Rules, as follows:

City	Channel No.	
	Present	Proposed
Owensboro, Kentucky	31 -, 48	31 -, 48, 61 +

4. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

[1] Population data was extracted from the 1980 U.S. Census, Advance Reports.

Note.—A showing of continuing interest is requred by paragraph 2 of the Appendix before a channel will be assigned.

5. Interested parties may file coments on or before June 3, 1983, and reply comments on or before June 20, 1983, and are advised to read the Appendix for the proper procedures.

6. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the TV Table of Assignments, § 73.604(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules.* 46 FR 11549, published February 9, 1981.

7. For further information concerning this proceeding, contact Nancy V. Joyner, Mass media Bureau, (202) 634-6530. However, members of the public should note that from the time a Notice of Proposed Rule making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment to which the reply is directed constitutes an *ex parte* presentation and shall not be considered in the proceeding.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Division Mass Media Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, *it is proposed to amend* the TV Table of Assignments, § 73.606(b) of the Commission's Rules and Regulations, as set forth in the *Notice of proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in

the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *notice of Proposed Rule making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filing made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W.,

In the matter of: Amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations (Madisonville, Kentucky) MM Docket No. 83-377, RM-4344.

Adopted: March 30, 1983.

Released: April 15, 1983.

By the Chief, Policy and Rules Division.

1. A petition for rule making was filed on January 11, 1983 by William T. Conner ("petitioner"), seeking the assignment of UHF television Channel 57 to Madisonville, Kentucky, as that community's second commercial television assignment. Petitioner indicates that he, or an entity of which he is a part, will apply for the channel, if assigned.

2. Madisonville (population 16,979) [1], the seat of Hopkins County population 46,174), is located in western Kentucky, approximately 182 kilometers (113 miles) southwest of Louisville, Kentucky. Presently, Madisonville is assigned one commercial and one educational television channel.

3. UHF television Channel 57 can be assigned to Madisonville consistent with the minimum distance separation requirements of § 73.610 of the Commission's Rules. In view of the above considerations, we believe the petitioner's proposal warrants consideration since it could provide a second commercial television service to Madisonville, Kentucky. Accordingly, the Commission proposes to amend the Television Table of Assignments, § 73.606(b) of the Commission's Rules, as follows:

City	Channel No.	
	Present	Proposed
Madisonville, Ky.	19-, *36-	19-, *35-, 57+

4. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the appendix before a channel will be assigned.

5. Interested parties may file comments on or before May 31, 1983, and reply comments on or before June 15, 1983, and are advised to read the Appendix for the proper procedures.

6. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the TV Table of Assignments, § 73.606(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

7. For further information concerning this proceeding, contact Nancy V. Joyner, Mass Media Bureau, (202) 634-6530. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission. Any

[1] Population figures were extracted from the 1980 U.S. Census, Advance Reports.

comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment to which the reply is directed constitutes an *ex parte* presentation and shall not be considered in the proceeding.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, *it is proposed to amend* the TV Table of Assignments, § 73.606(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

Television Broadcast Stations in Omaha, Nebraska; Proposed Changes in Tables of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes the assignment of UHF television Channel 54 to Omaha, Nebraska, in response to a petition filed by Harry C. Powell, Jr. The proposed assignment could provide a sixth commercial television service to Omaha.

DATES: Comments must be filed on or before June 2, 1983, and reply comments on or before June 15, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

Television broadcasting.

Proposed Rule Making

In the Matter of; Amendment of § 73.606(b), table of assignments, television broadcast stations (Omaha, Nebraska) MM Docket No. 83-381, RM-4294.

Adopted: March 30, 1983.
Released: April 18, 1983.

By the Chief, Policy and Rules Division:

1. The Commission herein considers a petition for rule making filed by Harry C. Powell, Jr. ("petitioner") on January 3, 1983, proposing the assignment of UHF television Channel 54 to Omaha, Nebraska. Petitioner stated that he or an entity of which he is a part, will apply for the channel, if assigned.

2. Omaha (population 311,681),[1] seat of Douglas County (population 397,884), is located in eastern Nebraska, approximately 275 kilometers (172 miles) north of Kansas City. Omaha is currently assigned five commercial channels: 3, 6, 7, 15 and 42.

3. We believe that the petitioner's proposal warrants consideration since the proposed assignment could allow for a sixth commercial television service at Omaha. Accordingly, we shall seek comments on the proposal to amend the Television Table of Assignments (§ 73.606(b) of the Rules) with respect to the following city:

City	Channel No.	
	Present	Proposed
Omaha, Nebr	3, 6+, 7, 15, *26, 42, and *48.	3, 6+, 7, 15, *26, 42, *48-, and 54.

4. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

5. Interested parties may file comments on or before June 2, 1983, and reply comments on or before June 17, 1983, and are advised to read the Appendix for the proper procedures.

6. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the TV Table of Assignments, § 73.606(b) of the Commission's Rules.

[1] Population figures are taken from the 1980 U.S. Census, Advance Report.

See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

7. For further information concerning this proceeding, contact Montrose H. Tyree, Mass Media Bureau, (202) 634–6530. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment to which the reply is directed constitutes an *ex parte* presentation and shall not be considered in the proceeding.

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, *it is proposed to amend* the TV Table of Assignments, § 73.606(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

Commission Announces Oral Presentation Schedule in Children's Television Proceeding (Docket 19142)

In a Public Notice dated March 28, 1983, the Commission indicated its intention to hold an *En Banc* meeting to hear oral presentations in Docket 19142 (45 FR 1976). The meeting will be held on Thursday, April 28, 1983, at the Commission's offices at 1919 "M" Street, NW., Washington, D.C., in room 856. The purpose of these presentations is to update the record in this proceeding.

The record has also been reopened until April 28, 1983, for the purpose of receiving additional written comments.

Three panels of participants will be heard from. Within each panel, parties are free to coordinate presentations. The schedule is as follows:

1. (9:30a.m.–10:45a.m.)—
National Association of Broadcasters
CBS, Inc.
Action for Children's Television
Robert Keeshan
Romper Room Enterprises
Jerome and Dorothy Singer
Association of National Advertisers
Office of Communications, United Church of Christ
Gilmore Broadcasting Corporation

Each party is allocated 5 minutes, and the Commission will have a 30 minute question period.

2. (10:55a.m.–12:20p.m.)—
American Broadcasting Companies, Inc.

Association of Independent Television Stations, Inc.
Washington Association for Television and Children
Francis M. Palumbo, M.D.
Corporation for Public Broadcasting
National Association of Public Television Stations
Public Broadcasting Service
Susan Greene
Bruce Watkins
National Education Association

Each party is allocated 5 minutes, and the Commission will have a 30 minute question period.

3. (2:00p.m.–3:20p.m.)—
National Association of Television Program Executives
National Broadcasting Company, Inc.
Radio and Television Commission of the Southern Baptist Convention
National Black Media Coalition
Roy Menninger, M.D.
National Association of Elementary School Principals
Robert Abramovitz, M.D.
International Reading Association
Citizens Communications Center
National Coalition on Television Violence

Each party is allocated 5 minutes, and the Commission will have a 30 minute question period.

This meeting will be open to the public. For further information contact William H. Johnson or Molly Pauker, telephone number (202) 632–6460.

William J. Tricarico,

Secretary, Federal Communications Commission.

BILLING CODE 6712–01–M

INTERSTATE COMMERCE COMMISSION

49 CFR Ch. X

[Ex Parte No. 44]

Electronic Filing of Tariffs

AGENCY: Interstate Commerce Commission.

ACTION: Extension of time to file comments to advance notice of proposed rulemaking.

SUMMARY: In the **Federal Register** advance notice of proposed rulemaking (ANPR), March 8, 1983 (48 FR 9672) the Commission considered establishing rules and procedures to permit parties wishing to do so to file tariffs electronically. The date that comments were due was April 22, 1983. The American Trucking Associations, Inc. (ATA) requested that the date for filing comments be extended to May 23, 1983. This request was granted in a decision of the Commission, served April 18, 1983. The Western Railroad Association (WRA) has now filed a request that the due date be exended 90 days beyond the April 22, 1983 due date. The WRA has appointed a study group to review the Commission's questions and the proposed impact on the railroad industry and the shipping public. The group found that additional investigations and research into the ramifications of this rulemaking and its affect on current individual carrier programs are clearly needed to prepare an intelligent response.

Considering the importance of the rulemaking and the desire of the Commission to elicit meaningful comments, the extension request for 90 days is denied, but an extension of an additional 30 days is warranted.

It is pointed out that this is an *advance* notice, and the parties will have another opportunity to comment when the Commission issues a notice of proposed rulemaking.

DATES: Comments should be submitted by June 22, 1983.

ADDRESS: An original and ten copies should be sent to: Secretary, Interstate Commerce Commission, Washington, DC 20423.

FOR FURTHER INFORMATION CONTACT: W. P. Geisenkotter, Section of Tariffs, Bureau of Traffic, (202) 275–7739.

Dated: April 20, 1983.

By the Commission, Reese H. Taylor, Jr., Chairman.

Agatha L. Mergenovich,

Secretary.

Tuesday, April 26, 1983

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

Advisory Council on Maternal, Infant and Fetal Nutrition; Meeting

Pursant to the Federal Advisory Committee Act (Pub. L. 92–463), announcement is made of the following Council meeting:

Name: National Advisory Council on Maternal, Infant and Fetal Nutrition.

Date and time: May 24–25, 1983; 9:00 a.m.

Place: Quality Inn, Pentagon City, 300 Army-Navy Drive, Arlington, Virginia 22202.

Purpose of meeting: The Council will continue its study of the Special Supplemental Food Program for Women, Infants and Children (WIC) and the Commodity Supplemental Food Program (CSFP). The Council will discuss a wide range of matters concerning the operations of these two programs.

Agenda: The agenda will include the following items: regulations; funding; program evaluations; and general program operations.

This meeting will be open to the public. As time permits, members of the public may participate in the meeting.

Persons wishing additional information about this meeting should contact Mary Sleane, Supplemental Food Programs Division, Food and Nutrition Service, U.S. Department of Agriculture, Alexandria, Virginia 22302. Telephone: (703) 756–3730.

Dated April 5, 1983.

BILLING CODE 3410-30-M

Commodity Supplemental Food Program; Supplemental Administrative Funds

AGENCY: Food and Nutrition Service, USDA.

ACTION: Notice.

SUMMARY: The Department announces the allocation of supplemental administrative funds for State and local administration of the Commodity Supplemental Food Program (CSFP) in Fiscal Year 1983, pursuant to Pub. L. 98–8.

EFFECTIVE DATE: April 26, 1983.

FOR FURTHER INFORMATION CONTACT: Barbara P. Sandoval, Director, Supplemental Food Programs Division, FNS, USDA, 3101 Park Center Drive, Alexandria, Virginia 22302, telephone (703) 756–3746.

SUPPLEMENTARY INFORMATION: On March 24, 1983, the President signed Pub. L. 98–8. Section 209 of Title II, the Temporary Emergency Food Assistance Act of 1983, states: "Notwithstanding any other provision of law, administrative expenses for the Commodity Supplemental Food Program, on commodities donated by CCC during fiscal year 1983, shall be paid from CCC funds and shall be fifteen per centum of the book value of the commodities donated." "CCC" refers to the Commodity Credit Corporation. Under CCC authority agricultural commodities are acquired to stabilize farm prices. These commodities may be processed into food items, such as cheese, and released for domestic distribution.

Until 1982, all foods provided to CSFP State agencies were purchased with funds from CSFP food appropriations. Since then the Department has begun to donate some CCC commodities to State agencies free of charge. Processed cheese and nonfat dry milk have been donated to CSFP throughout Fiscal Year 1983; butter and honey have more recently become available. The nonfat dry milk is distributed as *part* of the authorized CSFP food package, and the other items are provided to participants in *addition* to the authorized food package. The Temporary Food Assistance Act of 1983 mandates that CCC funds be provided, in addition to current levels of CSFP administrative funds, in Fiscal Year 1983 to help defray costs of handling these donated commodities. The Food and Nutrition Service is allocating these CCC funds to CSFP State agencies. For purposes of clarity in this notice, the term "donated commodities" refers to those foods that CCC is donating to the CSFP.

These CCC monies are intended to supplement CSFP administrative funds which were already provided under the 1983 Agriculture Appropriations Act (Pub. L. 97–370) and allocated to State agencies in accordance with the regulatory administrative funding formula at 7 CFR 247.10(b). The level of traditional CSFP administrative funding is governed by Section 5(a) of the Agriculture and Consumer Act of 1973, as most recently amended by the Agriculture and Food Act of 1981 (Pub. L. 97–98).

The Department is allocating the supplemental administrative funds to CSFP State agencies based on the value of donated commodities received by CSFP local agencies within each State. A State agency will receive supplemental administrative funds equal to 15 percent of the value of donated commodities received by local agencies in Fiscal Year 1983. The State agency may retain a portion of supplemental administrative funds at the State level commensurate with its share of the total costs of transportation, storage and distribution of donated commodities. The balance of the funds should be promptly allocated to local agencies. Since Fiscal Year 1983 is still in progress, the Department has estimated the level of commodity donation expected to be received by local agencies for the entire fiscal year from the currently available records (October 1982 to February 1983).

The estimates of donated commodities to be received by local agencies may not conform to the actual levels for the fiscal year. Thus, the Department will later adjust the 1983 supplemental administrative grants in accordance with records of actual commodity receipt at the local level. Therefore, it is especially important that all affected agencies maintain and promptly report complete and accurate records of the local receipt of donated commodities. State agencies may wish to estimate the level of supplemental administrative funds which have accrued by distribution of donated commodities. For example, if local agencies in a State receive 100 five-pound loaves of processed cheese in April, valued at $7.35 per loaf, for a total value of $735.00, the State agency will accrue 15 percent of the value of the donated foods; that is, $110.25. By keeping track of the local receipt of donated commodities, their approximate dollar value, and the estimated accrual of

administrative funds, State agencies may ensure that expenditures do not exceed actual administrative funding.

The supplemental administrative funding levels listed below will be provided to each State agency.

State agency	Level of supplemental administrative funds
District of Columbia	$30,470
Kentucky	156,958
North Carolina	16,078
Tennessee	132,129
Michigan	901,568
Minnesota	1,420
Louisiana	70,115
Colorado	92,819
Iowa	14,737
Nebraska	64,881
North Dakota	18,423
California	11,803
National total	1,511,201

While these levels represent the actual amounts of money to be granted to States at this time, it should be noted that they are subject to later adjustments to reflect the value of commodities actually received by CSFP local agencies within the State.

Since these supplemental administrative funds are being provided exclusively for donated commodities received by local agencies during Fiscal Year 1983, the Department has determined that it is not necessary to incorporate this special termporary supplemental funding protocol into the CSFP regulations. This notice constitutes full notification of the policies it embodies.

Signed on April 21, 1983.

Raymond A. Pugh, Sr.,

Acting Administrator, Food and Nutrition Service.

BILLING CODE 3410-30-M

Rural Electrification Administration

Washington Electric Cooperative, Inc., East Montpelier, Vermont; Proposed Loan Guarantee

AGENCY: Rural Electrification Administration (REA), USDA.

ACTION: Proposed loan guarantee.

SUMMARY: Under the authority of Pub. L. 93–32 (87 Stat. 65) and in conformance with applicable agency policies and procedures as set forth in REA Bulletin 20–22 (Guarantee of loans for Bulk Power Supply Facilities), notice is hereby given that the Administrator of REA will consider providing a guarantee supported by the full faith and credit of the United States of America for a loan in the approximate amount of $2,840,000 to Washington Electric Cooperative, Inc., (WEC), East Montpelier, Vermont. This loan guarantee will provide funds needed to finance the construction of a 1.0 MW hydroelectric facility at the existing Wrightsville Dam on the North Branch of the Winooski River in Washington County, Vermont.

FOR FURTHER INFORMATION CONTACT: Mr. Robert O. Toombs, General Manager, Washington Electric Cooperative, Inc., P.O. Box 8, East Montpelier, Vermont 0561.

SUPPLEMENTARY INFORMATION: Legally organized lending agencies capable of making, holding and servicing the loan proposed to be guaranteed may obtain information on the proposed program, including the engineering and economic feasibility studies and the proposed schedule for advances to the borrower of the guaranteed loan funds from Mr. Toombs at the address given above.

In order to be considered, proposals must be submitted on or before, (May 26, 1983) to Mr. Toombs. The right is reserved to give such consideration and to make such evaluation or other disposition of all proposals received as WEC and REA deem appropriate. Prospective lenders are advised that the guaranteed financing for this project is available from the Federal Financing Bank under a standing agreement with the Rural Electrification Administration.

Copies of REA Bulletin 20–22 are available from the Director, Public Information Office, Rural Elctrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250.

This propram is listed in the Catalog of Federal Domestic Assistance as 10.850—Rural Electrification Loans and Loan Guarantees.

Dated: April 18, 1983.

Harold V. Hunter,

Administrator.

BILLING CODE 3410-15-M

DEPARTMENT OF COMMERCE

International Trade Administration

Scissors and Shears From Brazil; Final Results of Administrative Review of Countervailing Duty Order

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of final results of administrative review of countervailing duty order.

SUMMARY: On January 20, 1983, the Department of Commerce published in the **Federal Register** a notice of the preliminary results of its administrative review of the countervailing duty order on certain scissors and shears from Brazil. The review covered the period March 1, 1980 through February 28, 1981. The notice stated that the Department had preliminarily determined the net subsidy to be 3.88 percent *ad valorem*.

Interested parties were invited to comment on the preliminary results. We received no comments. Upon incorporating two changes in our calculations, we have determined the amount of the net subsidy to be 2.44 percent of the f.o.b. invoice price of the merchandise.

Further, due to an increase in the benchmark commercial interest rate in Brazil and the two calculation changes, we have determined that a cash deposit of estimated countervailing duty of 7.19 percent of the f.o.b. invoice price of the merchandise shall be required on future entries pending the results of the next administrative review.

EFFECTIVE DATE: April 26, 1983.

FOR FURTHER INFORMATION CONTACT: Laura Kneale or Edward Haley, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230; telephone: (202) 377–2786.

SUPPLEMENTARY INFORMATION:

Background

On January 20, 1983, the Department of Commerce ("the Department") published in the **Federal Register** (48 FR 2578) the preliminary results of its administrative review of the countervailing duty order on certain scissors and shears from Brazil (42 FR 8634, February 11, 1977). The Department has now completed that administrative review.

Scope of the Review

Imports covered by the review are scissors and shears valued over $1.75 per dozen, imported directly or indirectly from Brazil. Such imports are currently classifiable under items 650.9000 and 650.9200 of the Tariff Schedules of the United States Annotated.

The review covers the period March 1, 1980 through February 28, 1981 and three programs found countervailable in the original investigation: preferential financing for exports, income tax exemptions for export earnings, and the IPI export credit premium.

There are two known Brazilian exporters of this merchandise to the

United States. The review is based on information provided by the Government of Brazil covering one of these exporters, ZIVI, S.A.-Cutelaria ("ZIVI"), whose shipments represented 92% of Brazilian exports of this merchandise to the United States during the period.

Final Results of the Review

Interested parties were invited to comment on our preliminary results. We received no comments. Subsequent to the publication of our preliminary results, we discovered two errors in our method of calculating the aggregate net subsidy.

In our preliminary results, we prorated the value of short-term loans outstanding by calculating the fraction of the loan's duration that fell within the period of review. Since the duration of such loans is usually less than one year, but the interest rates are annual, this technique reflects a greater benefit than actually conferred. To avoid overstating the benefits, we have now taken the daily interest rate (based on a 365 day period) and multiplied it by the number of days of the loan falling within this period of review.

In our preliminary results, we used ZIVI's exports of the covered scissors and shears as a denominator in calculating the *ad valorem* subsidy rates. The level of benefit conferred by the Brazilian programs, however, is related to a firm's total exports. We reexamined the questionnaire response and found that ZIVI exports products other than the merchandise covered by this order. Therefore, in our final results, we used ZIVI's exports of all products in calculating *ad valorem* subsidy rates. The two calculation changes have reduced the benefit conferred by the program for the period of review from 2.77 to 1.72 percent *ad valorem*.

As a result of our review, we determine that the aggregate net subsidy conferred on the export of certain scissors and shears from Brazil by the three programs during the period of review is 2.44 percent *ad valorem*. Accordingly, the Department will instruct the Customs Service to assess countervailing duties of 2.44 percent of the f.o.b. invoice price on all unliquidated entries of the merchandise exported on or after March 1, 1980 and on or before February 28, 1981.

Effective January 3, 1983, the Banco do Brasil increase its discount rate to 72 percent. In addition, the tax on financial transactions was reduced to 4.6 percent, effective January 11, 1983. As a result, the benchmark commercial interest rate is 76.6 percent, and the differential between the benchmark rate and the preferential rate is 32.6 percent. After adjusting for the errors in our calculations and the increased interest differential, we find the potential benefit under the preferential financing for exports program to be 6.47 percent, rather than the 7.15 percent reported in our preliminary results.

Therefore, as provided by section 751(a)(1) of the Tariff Act of 1930 ("the Tariff Act"), a cash deposit of estimated countervailing duties of 7.19 percent of the f.o.b. invoice price shall be required on all shipments of this merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice. This deposit requirement shall remain in effect until publication of the final results of the next administrative review. The Department is now commencing the next administrative review of this order. The amount of countervailing duties to be imposed on exports made from March 1, 1981 through February 28, 1982 will be determined in that review.

The Department encourages interested parties to review the public record and submit applications for protective orders, if desired, as early as possible after the Department's receipt of the information in the next administrative review.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and § 355.41 of the Commerce Regulations (19 CFR 355.41).

Dated: April 19, 1983.

Gary N. Horlick,

Deputy Assistant Secretary for Import Administration.

BILLING CODE 3510-25-M

National Oceanic and Atmospheric Administration

Issuance of Permit; The Whale Museum

On March 21, 1983, Notice was published in the **Federal Register** (48 FR 11735), that an application had been filed with the National Marine Fisheries Service by The Whale Museum P.O. Box 945 Friday Harbor, Washington 98250, for a permit to import one (1) killer whale (*Orcinus orca*) skull for the purpose of scientific research.

Notice is hereby given that on April 20, 1983, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), the National Marine Fisheries Service issued a Scientific Research Permit for the above import to The Whale Museum subject to certain conditions set forth therein.

The Permit documentation relating to the Permit are available for review in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C.; and

Regional Director, Northwest Region, National Marine Fisheries Service, 7600 Sand Pt. Way, N.W. BIN C15700, Seattle, Washington 98115.

Dated: April 20, 1983.

R. B. Brumsted,

Acting Director, Office of Protected Species and Habitat Conservation, National Marine Fisheries Service.

[FR Doc. 83-11040 Filed 4-25-83; 8:45 am]

BILLING CODE 3510-22-M

[Docket No.30418-58]

Foreign Fishing

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of intent to approve joint venture applications.

SUMMARY: NOAA intends to approve five applications for foreign vessels to receive U.S.-caught *Illex* squid in joint ventures. Some applications are not approved because the projected U.S. harvest of *Illex* squid is less than the total requested. This notice announces the criteria used to rank the applications, sets forth the procedures for appealing denied permits, and explains procedures to apply for permits in the *Loligo* squid fishery.

DATES: Permits will be issued May 6, 1983.

FOR FURTHER INFORMATION CONTACT: Allen E. Peterson, Jr., National Marine Fisheries Service, NOAA, 14 Elm Street, Federal Building, Gloucester, Massachusetts, 01930; 617-281-3200.

SUPPLEMENTARY INFORMATION:

Background

Applicants were received by the Secretary of State from seven foreign parties to receive U.S.-harvested *Illex* squid in joint ventures with U.S. fishermen during the 1983-84 fishing year. The total amount requested is 42,200 metric tons (mt). However, only 22,100 mt will be available (see rule-related notice published in this issue of the **Federal Register**). While NOAA considered the option of issuing all permits and allowing open competition for the resource, the NOAA Assistant Administrator for Fisheries (Assistant

Administrator) decided that for the current fishing year approved applicants should receive a specific share of the joint venture processing (JVP) capacity for the squid resource. Most applicants stated that a threshhold quantity was required before capital, time, and effort would be committed to begin the ventures.

Given these particulars, all applications for *Illex* squid were ranked, using the criteria listed below.

Criteria

The Assistant Administrator's deliverations were based upon 23 objective criteria, distributed among three broad categories (Table 1). These categories were: (A) Compliance with Regulations/Business Agreements; (B) Trade Barriers and Market Development; and (C) U.S. Benefits and Technology Transfer.

Table 1. Joint Venture Evaluation Criteria

A. Compliance with Regulations/ Business Agreements:

1. Total violations by country's fleet (Northwestern Atlantic).
2. Violations by vessels identified in joint ventures.
3. Settlement record.
4. U.S. partner's past performance.
5. Past performance and U.S. partner's satisfaction.

B. Trade Barriers and Market Development:

6. Existing tariff and/or non-tariff barriers.
7. Indication of change, i.e. lowering of tariffs.
8. Import quotas, history and trend.
9. Purchase of U.S. processed product (amount, form).
10. Knowledge of final destination of product.

C. Technology transfer and U.S. benefits:

11. Willingness to transfer technology.
12. Description of technology to be transferred.
13. Need for technology transfer.
14. Training opportunities.
15. Long term commitment to joint ventures.
16. Commitment of capital investment to U.S. partner by foreigh partner (to the extent known).
17. U.S. partner main participant in harvesting, processing, marketing.
18. U.S. partner main participant in harvesting/marketing; foreign partner main participant in processing.
19. U.S. partner main participant it harvesting/processing; foreign partner main participant in marketing.
20. U.S. partner harvests and sells over the side; foreign partner main participant in processing/marketing.
21. Compatible with U.S. management strategy.
22. Direct participation in U.S fishery development activities.
23. Amount of increased U.S. landings.

The Assistant Administrator completed a review of all of the applications for *Illex* squid, and ranked each according to these criteria. Five applications scored comparatively high, and three much lower. These three, from the USSR and Spain, are denied permits for the *Illex* squid fishery. The remaining five are awarded 85 percent of the amounts requested.

Foreign fishing permits which authorize each approved applicant to receive the quantity specified below will be issued about 10 days after publication of this notice. The permits will be valid for a 45-day period following the issue date and subject to reauthorization based on the performance of the permit holder during the 45-day period.

Table 2 lists applicants, and the amounts approved.

TABLE 2.—APPROVED AMOUNTS BY APPLICATION

Applicant	Approved amount of Illex
International Seafood Trading Corporation/Italy	5,950
Lund's Fisheries, Inc./Portugal	8,500
Scan Ocean/Portugal	4,250
Joint Trawlers, Ltd./Portugal	2,550
Lund's Fisheries, Inc./Japan	850
Sea Havest, Inc./Spain (2 applications)	None
Scan Ocean/USSR	None

Additional Illex

After review of performance of the joint ventures after successive 45-day periods, additional *Illex* may be available for the approved applicants, as well as for the denied applicants. If performance is satisfactory, the permit will be extended for an additional 45 days. Joint venture participants whose performance is unsatisfactory may not be reissued permits and the unused portion of the JVP initially awarded to that permittee may become available for reallocation.

Appeals

Applicants whose permits were denied or who claim they did not know about the cut-off date for submitting JV applications may petition for reconsideration.

Applicants have 10 days from the date of this Notice to request a hearing before the Assistant Administrator.

Loligo Joint Ventures

Applications for joint ventures in the *Loligo* fishery will continue to be received through May 6, 1983. If applications exceed the JVP, the Assistant Administrator will apply the same criteria used to score *Illex* squid applicants. Otherwise, all applicants may be awarded permits.

(16 U.S.C. 1801 *et seq.*)

Dated: April 21, 1983.

Carmen J. Blondin,

Acting Deputy Assistant Administrator for Fisheries Resource Management, National Marine Fisheries Service.

BILLING CODE 3510-22-M

Marine Mammals; Modification No. 7 to Permit No. 31; Dr. Robert Elsner

Notice is hereby given that pursuant to the provisions of § 216.33 (d) and (e) of the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216), Scientific Research Permit No. 31 issued to Dr. Robert Elsner, Institute of Marine Science, University of Alaska, Fairbanks, Alaska, on July 3, 1974, and subsequently modified is further modified to authorize an additional taking of harbor or spotted seals.

Accordingly, Section A.1 is deleted and replaced by:

A.1 Sixty five (65) harbor seals (*Phoca vitulina richardii* or *Phoca vitulina largha*) of either sex and any age.

This modification became effective on April 20, 1983.

The Permit as modified and documentation pertaining to the modification are available for review in the following Offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C.

Regional Director, National Marine Fisheries Service, Alaska Region, P.O. Box 1668, Juneau, Alaska 99802.

Dated: April 20, 1983.

R. B. Brumsted,

Acting Director, Office of Protected Species and Habitat Conservation, National Marine Fisheries Service.

BILLING CODE 3510-22-M

DEPARTMENT OF DEFENSE

Office of the Secretary

DOD Advisory Group on Electron Devices; Advisory Committee; Meeting

Working Group A (Mainly Microwave Devices) of the DoD Advisory Group on Electron Devices (AGED) will meet in closed session on 19 May 1983 at the AGED Secretariat Office, 1925 N. Lynn Street, Suite 1000, Arlington, VA 22209.

The mission of the Advisory Group is to provide the Under Secretary of Defense for Research and Engineering, the Director, Defense Advanced Research Projects Agency and the Military Departments with technical advice on the conduct of economical and effective research and development programs in the area of electron devices.

The Working Group A meeting will be limited to review of research and development programs which the military propose to initiate with industry, universities or in their laboratories. This microwave device area includes programs on developments and research related to microwave tubes, solid state microwave, electronic warfare devices, millimeter wave devices, and passive devices. The review will include classified programs details throughout.

In accordance with Section 10(d), of Pub. L. No. 92–463, as amended (5 U.S.C. App. 1 10(d) (1976)), it has been determined that this Advisory Group meeting concerns matters listed in 5 U.S.C. 552b(c)(1) (1976), and that accordingly, this meeting will be closed to the public.

Dated: April 20, 1983.

M. S. Healy,

OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 3810-01-M

DOD Advisory Group on Electron Devices; Advisory Committee Meeting

Working Group D (Mainly Laser Devices) of the DoD Advisory Group on Electron Devices (AGED) will meet in closed session on 24–25 May 1983 at the AGED Secretariat Office, 1925 N. Lynn Street, Suite 1000, Arlington, VA 22209.

The mission of the Advisory Group is to provide the Under Secretary of Defense for Research and Engineering, the Director, Defense Advanced Research Projects Agency and the Military Departments with technical advice on the conduct of economical and effective research and development programs in the area of electron devices.

The Working Group D meeting will be limited to review of research and development programs which the military propose to initiate with industry, universities or in their laboratories. This laser area includes programs on developments and research related to low energy lasers for such applications as battlefield surveillance, target designation, ranging, communications, weapon guidance and data transmission. The review will include classified program details throughout.

In accordance with Section 10(d) of Pub. L. No. 92–463, as amended (5 U.S.C. App. 1 10(d) (1976)), it has been determined that this Advisory Group meeting concerns matters listed in 5 U.S.C. 552b(c)(1) (1976), and that accordingly, this meeting will be closed to the public.

Dated: April 20, 1983.

M. S. Healy,

BILLING CODE 3810-01-M

DEPARTMENT OF ENERGY

Economic Regulatory Administration

[ERA Docket No. 83–CERT–005]

Columbus Bituminous Concrete Corp.; Certification of Eligible Use of Natural Gas to Displace Fuel Oil

On March 4, 1983, Columbus Bituminous Concrete Corporation (CBCC), P.O. Box 366, 301 Frank Road, Columbus, Ohio 43216, filed with the Administrator of the Economic Regulatory Administration (ERA) pursuant to 10 CFR Part 595 an application for certification of an eligible use of approximately 157,000 Mcf per year of natural gas which is expected to displace the use of approximately 1,050,000 gallons (25,000 barrels) of No. 6 fuel oil (1.0 percent sulfur) per year at its asphalt production facilities in Columbus and Circleville, Ohio.

The eligible seller of the natural gas is Ohio Gas Marketing Corporation, 3933 Price Road, Newark, Ohio 43055. The gas will be transported by Columbia Gas Transmission Corporation, 1700 MacCorkle Avenue, S.E., Box 1273, Charleston, West Virginia 25325; and Columbia Gas of Ohio, Inc., 99 North Front Street, Columbus, Ohio 43215, a local distribution company.

Notice of that application was published in the **Federal Register** (48 FR 12118, March 23, 1983) and an opportunity for public comment was provided for a period of ten (10) calendar days from the date of publication. No comments were received.

The ERA has carefully reviewed CBCC's application for certification in accordance with 10 CFR Part 595 and the policy considerations expressed in the Final Rulemaking Regarding Procedures for Certification of the Use of Natural Gas to Displace Fuel Oil (44 FR 47920, August 16, 1979). The ERA has determined that CBCC's application satisfies the criteria enumerated in 10 CFR Part 595 and, therefore, has granted the certification and transmitted that certification to the Federal Energy Regulatory Commission. More detailed information, including a copy of the application, transmittal letter, and the actual certification, is available for public inspection at the ERA Natural Gas Division Docket Room, RG–43, Room GA–007, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. 20585, from 8:00 a.m. to 4:30 p.m., Monday through Friday, except Federal holidays.

Issued in Washington, D.C. April 15, 1983.

James W. Workman,

Director, Office of Fuels Programs, Economic Regulatory Administration.

[FR Doc. 83-10960 Filed 4-25-83; 8:45 am]

BILLING CODE 6450-01-M

[ERA Docket No. 83–CERT–009]

The Gates Rubber Co.; Application for Certification of the Use of Natural Gas To Displace Fuel Oil

The Gates Rubber Company (GATES), 999 South Broadway, Denver, Colorado 80217, filed an application on March 21, 1983, with the Economic Regulatory Administration (ERA) for certification of an eligible use of natural gas to displace fuel oil at its rubber manufacturing facility in Denver, Colorado, pursuant to 10 CFR Part 595 (44 FR 47920, August 16, 1979). More detailed information is contained in the application on file and available for public inspection at the ERA Natural Gas Division Docket Room, RG–43, Room GA–007, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. 20585, from 8:00 a.m. to 4:30 p.m., Monday through Friday, except Federal holidays.

In its application, GATES indicates that the volume of natural gas for which it requests certification is approximately 1,480,000 Mcf per year. This volume is estimated to displace the use of approximately 7,410,000 gallons

(176, 428 barrels) of No. 6 fuel oil (less than 1.0 percent sulfur) and 1,650,000 gallons (39,285 barrels) of No. 2 fuel oil (less than 1.0 percent sulfur) per year.

The eligible seller is Williston Gas Company, 10701 Melody Drive, Northglenn, Colorado 80234. The gas will be transported by Montana-Dakota Utilities Company, 400 North 4th Street, Bismarck, North Dakota 58501; and Colorado Interstate Gas Company, Box 1087, Colorado Springs, Colorado 80944. The local distribution company will be Public Service Company of Colorado, 243 Lipan Street, Denver, Colorado 80223.

In order to provide the public with as much opportunity to participate in this proceeding as is practicable under the circumstances, we are inviting any person wishing to comment concerning this application to submit comments in writing to the Economic Regulatory Administration, Office of Fuels Programs, Natural Gas Division, RG–43, Room GA–007, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. 20585, Attention: Paula A. Daigneault, within ten (10) calendar days of the date of publication of this notice in the **Federal Register.**

An opportunity to make an oral presentation of data, views, and arguments either against or in support of this application may be requested by any interested person in writing within the ten (10) day comment period. The request should state the person's interest and, if appropriate, why the person is a proper representative of a group or class of persons that has such an interest. The request should include a summary of the proposed oral presentation and a statement as to why an oral presentation is necessary. If ERA determines that an oral presentation is necessary, further notice will be given to GATES and any person filing comments and will be published in the **Federal Register.**

Issued in Washington, D.C., on April 15, 1983.

James W. Workman,

Director, Office of Fuels Programs, Economic Regulatory Administration.

BILLING CODE 6450–01–M

[ERA Docket No. 83–CERT–008]

Long Island Lighting Co.; Application for Certification of the Use of Natural Gas To Displace Fuel Oil

Long Island Lighting Company (LILCO), 250 Old Country Road, Mineola, New York 11501, filed an application on March 15, 1983, with the Economic Regulatory Administration (ERA) for certification of an eligible use of natural gas to displace fuel oil at its E. F. Barrett Electric Plant in Island Park, New York, and its Glenwood Electric Plant in Glenwood Landing, New York, pursuant to 10 CFR Part 595 (44 FR 47920, August 16, 1979). More detailed information is contained in the application on file and available for public inspection at the ERA Natural Gas Division Docket Room, RG–43, Room GA–007, Forrestal Building, 1000 Independence Avenue SW., Washington, D.C. 20585, from 8:00 a.m. to 4:30 p.m., Monday through Friday, except Federal holidays.

In its application, LILCO indicates that the volume of natural gas for which it requests certification is approximately 2.0 billion cubic feet per year. This volume is estimated to displace the use of approximately 8,000 barrels of No. 2 fuel oil (0.30 percent sulfur) and 280,000 barrels of residual fuel oil (0.37 percent sulfur) per year at the E. F. Barrett Electric Plant. At the Glenwood Electric Plant, this volume will displace the use of approximately 37,000 barrels of residual fuel oil (0.37 percent sulfur) per year.

The eligible seller is New York State Electric and Gas Corporation, 4500 Vested Parkway, East Binghampton, New York 13902. The gas will be transported by Tennessee Gas Pipeline Company, Tenneco Building, P.O. Box 2511, Houston, Texas 77001.

In order to provide the public with as much opportunity to participate in this proceeding as is practicable under the circumstances, we are inviting any person wishing to comment concerning this application to submit comments in writing to the Economic Regulatory Administration, Office of Fuels Programs, Natural Gas Division, RG–43, Room GA–007, Forrestal Building, 1000 Independence Avenue SW., Washington, D.C. 20585, Attention: Paula A. Daigneault, within ten (10) calendar days of the date of publication of this notice in the **Federal Register.**

An opportunity to make an oral presentation of data, views and arguments either against or in support of this application may be requested by any interested person in writing within the ten (10) day comment period. The request should state the person's interest and, if appropriate, why the person is a proper represenative of a group or class of persons that has such an interest. The request should include a summary of the proposed oral presentation and a statement as to why an oral presentation is necessary. If ERA determines that an oral presentation is necessary, further notice will be given to LILCO and any person filing comments and will be published in the **Federal Register.**

Issued in Washington, D.C. on April 15, 1983.

James W. Workman,

Director, Office of Fuels Programs, Economic Regulatory Administration.

Federal Energy Regulatory Commission

Florida Power and Light Co.; Refund Report

[Docket Nos. ER78–19–000, et al.]

April 19, 1983.

The filing Company submits the following:

Take notice that on April 8, 1983, Florida Power & Light Company submitted for filing a refund report in compliance with the Commission's letter order dated March 9, 1983 which accepted compliance rate and ordered refunds.

Any person desiring to be heard or to protest this filing should file comments with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, on or before May 5, 1983. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. QF–225–000]

International Paper Co. (Mansfield Mill); Application for Commission Certification of Qualifying Status of a Cogeneration Facility

April 19, 1983.

On March 22, 1983, International Paper Co., (Applicant), of 77 West 45th Street, New York, New York, filed with the Federal Energy Regulatory Commission (Commission) an application for certification of a facility as a qualifying facility pursuant to 292.207 of the Commission's rules.

The topping-cycle cogeneration facility is located in Mansfield, Louisiana. The primary energy sources are biomass in the forms of wood and spent pulping liquor. The electric power production capacity of the facility will be 80 megawatts. Electricity is generated

in three turbine/generators with steam fed through a common header produced in four boilers. Natural gas will be used only in igniters for start-up purposes. Installation of the facility will begin on July 9, 1979. Applicant states that no electric utility, electric utility holding company or any combination thereof has any ownership interest in the facility.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rule 211 or 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests should be filed within 30 days after the publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

John P. Barr; Application for Commission Certification of Qualifying Status of a Cogeneration Facility

April 19, 1983.

On March 11, 1983, John P. Barr (Applicant) of 1030 W. New York Street, Aurora, Illinois 60506, filed with the Federal Energy Regulatory Commission (Commission) an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's rules.

The topping-cycle cogeneration facility will consist of a reciprocating engine and an induction generator. The facility will be located at Applicant's address. The primary energy source is natural gas. The power production capacity of the facility will be 15.6 kilowatts. Installation of the facility was completed October 15, 1982. Applicant states that no electric utility, electric utility holding company or any combination thereof has any ownership interest in the facility.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. QF83-247-000]

Mammoth Binary Power Co.; Application for Commission Certification of Qualifying Status of a Small Power Production Facility

April 19, 1983.

On April 4, 1983, Mammoth Binary Power Company, (Applicant), 1025 Spring Meadow Drive, West Covina, California 91791, filed with the Federal Energy Regulatory Commission (Commission) an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's rules.

The facility will be located in Mono County, California. The primary energy source to the facility will be a liquid-dominated geothermal resource supplied from production wells on adjacent lands. No natural gas, oil or coal will be used in the facility. The electric power production capacity of the facility will be 7 megawatts. There are no other geothermal-powered small power production facilities owned by Applicant and located within one mile of the facility. No electric utility, electric utility holding company or any combination thereof has any ownership interest in the facility.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket Nos. CP74-260-006 and CP75-269-005]

Natural Gas Pipeline Company of America; Petition to Amend

April 20, 1983.

Take notice that on March 18, 1983, Natural Gas Pipeline Company of America (Petitioner), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket Nos. CP74-260-006 and CP75-269-005 a petition to amend further the orders issued July 18, 1975,[1] in Docket No. CP74-260 and August 29, 1975,[1] in Docket No. CP75-269 pursuant to Section 7(c) of the Natural Gas Act so as to authorize an increase in the quantity of natural gas per day which Petitioner is authorized to sell to certain of its existing winter service customers under Rate Schedules WS-1 and WS-2, all as more fully set forth in the petition to amend, which is on file with the Commission and open to public inspection.

Petitioner states that under terms of the existing agreements Petitioner's participating customers are entitled to receive winter service based on the highest sustainable 100,000 Mcf per day increment in deliverability from the Shell Oil Company (Shell) reserves as such increments become available. Deliverability from the Shell reserves is projected to permit Petitioner to deliver 21,000,000 Mcf of gas in the 1983-84 winter period and 18,400,000 Mcf in the 1984-85 winter period to its participating customers.

Petitioner states that it has offered to all of its winter service customers daily quantities for the 1983-84 and 1984-85 winter periods equal to 191,000 Mcf per day. It is asserted that due to the prevailing economic climate and continued conservation by end users five of these customers have elected to participate in the winter service program for the next two winter periods. It is stated that of the five customers desiring

[1] This proceeding was commenced before the FPC. By joint regulation of October 1, 1977 (10 CFR 1000.1), it was transferred to the Commission.

this service, Illinois Power Company (Illinois Power), Interstate Power Company (Interstate) and the City of Perryville, Missouri (Perryville), desire an increase in their respective daily winter service quantities. It is submitted that Interstate and Perryville have indicated a desire to continue to have their daily quantities delivered over 120 days while Illinois Power desires its daily quantities for only 10 of the 120 days available. Petitioner states that of its remaining twenty-one customers two have elected to decrease their daily service and nineteen have elected not to participate in Petitioner's winter service for the next two winter periods. Such customers have no objection to Petitioner's providing this service to those customers electing an increase in their daily winter service quantity, it is asserted.

Petitioner projects that this additional service would commence December 1, 1983, and that approval of such additional service would allow the three electing customers to receive an additional 94,580 Mcf of natural gas supply for each of the next two winter periods.

Petitioner states that the additional service would have no impact on currently certificated winter service customers or on the ability of Petitioner to deliver current entitlement volumes to all of its customers.

Petitioner proposes to render service to the three electing customers as follows:

Company	Proposed winter service quantities (1,000 ft³ at 1,000 Btu/cubic foot)	
	Daily	Season total
100-Day Service		
Rate Schedule WS-1: Illinois Power Co.	7,888	788,800
120-Day Service		
Rate Schedule WS-2: Interstate Power Co.	1,855	222,600
Perryville, Mo., city of	200	24,000
Total	9,943	1,035,400

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before May 11, 1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

[FR Doc. 83-11105 Filed 4-25-83; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. CP83-250-000]

Northwest Pipeline Corp.; Request Under Blanket Authorization

April 20, 1983.

Take notice that on March 24, 1983, Northwest Pipeline Corporation (Northwest), P.O. Box 1526, Salt Lake City, Utah 84110, filed in Docket No. CP83-250-000 a request pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) that Northwest proposes to construct and operate certain facilities to be used for the sale and delivery of natural gas to Cascade Natural Gas Company (Cascade), an existing customer of Northwest, and to abandon certain facilities, all as more fully set forth in the request on file with the Commission and open to public inspection.

Northwest proposes to abandon two existing 4-inch taps and any meter facilities and replace such taps with one 8-inch tap and any necessary measuring and any appurtenant facilities. Such replacement, it is asserted, would increase deliverability at the existing Anacortes-Sedro-Woolley delivery point in Skagit County, Washington.

Northwest asserts that the additional volumes of natural gas to be sold to Cascade would be within the certificated volumes of natural gas which Northwest has heretofore been authorized to sell and deliver to Cascade. Northwest further asserts that no increase in the total daily contract demand which Northwest is authorized to sell and deliver is proposed nor would any such increase result from the proposed service.

Northwest states that the additional volumes required by Cascade through the Anacortes-Sedro-Woolley delivery point would provide for as interruptible service load to Puget Sound Power and Light Company (Puget), it is stated, would use the gas for peakload cogeneration in two single-cycle combustion turbine generators. Northwest further states that Cascade has agreed to reimburse Northwest for all out-of-pocket costs associated with the additional facilities which is estimated to be $97,500.

It is asserted that Puget would require an additional deliverability of 600,000 therms equivalent per day which would be purchased under Northwest's Rates Schedule ODL-1 to the extent possible. It is stated that if ODL-1 volumes are not available, with Cascade's existing ODL-1 contract demand, that Cascade proposes to utilize Northwest's Rate Schedule IOS-1 in providing the necessary volumes to Puget.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 20 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. QF83-216-000]

Or-Sol Inc.—Danby; Application for Commission Certification of Qualifying Status of a Small Power Production Facility

April 20, 1983.

On March 11, 1983, Or-Sol Inc., c/o Ormat Engineering Inc., 1900 Washington Boulevard, Seattle, Washington 98101, filed with the Federal Energy Regulatory Commission (Commission) an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's rules.

The facility will be a solar pond power plant located at the Danby Dry Lake in San Bernardino, California. The new power production capacity of the facility will be 20 MW. The primary energy source of the facility will be solar insolation, with approximately 10 percent of energy input being fuel oil. No other solar-powered small power

production facilities owned by Or-Sol Inc. will be located within one mile of the facility. No electric utility, holding company or any combination thereof has any ownership interest in the facility.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER83-457-000]

Public Service Company of New Mexico; Filing

April 19, 1983.

The filing Company submits the following:

Take notice that Public Service Company of New Mexico (PNM), on April 11, 1983, tendered for filing a Letter Agreement for banked energy for transactions between PNM and San Diego Gas & Electric Company (SDG&E). (Supplement to Rate Schedule FERC No. 39).

PNM states that the service to be provided hereunder is for delivery of banked energy at a rate of 35 Mw each hour. Rates for the service provided is $0.030 per kWh, plus applicable taxes.

PNM requests an effective date of May 1, 1983, and therefore requests waiver of the Commission's notice requirements.

Copies of the filing were served upon the San Diego Gas & Electric Company and the New Mexico Public Service Commission.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before May 4, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary

[FR Doc. 83-11114 Filed 4-25-83; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. HB55-74-1-001]

Puget Sound Power & Light Co.; Order Providing for Hearing

Issued: April 19, 1983.

By order of November 5, 1982, the Commission staff issued a proposed determination of headwater benefits payments in the White River Basin. The November 5 order directed the Puget Sound Power & Light Company ("Puget") to pay to the United States, pursuant to Section 10(f) of the Federal Power Act, 16 U.S.C. 803(f), $396,867 for energy benefits provided to Puget's White River Project by the operation of the United States Corps of Engineers Mud Mountain Project for the years 1942 through 1981, plus $51,400 for the costs of investigation.

On January 4, 1983, Puget paid the entire amount of the assessment under protest in accordance with § 11.31(d) of our regulations, 18 CFR 11.31(d) (1982), and concurrently filed a protest and a request for hearing. By this order we grant Puget's request for hearing.

Discussion

A headwater improvement can benefit the energy production of a downstream project by accumulating storage water at high water times and making it available during times of reduced river flow. Section 10(f) authorizes the Commission to investigate such situations and require reimbursement to be made to the United States by a downstream beneficiary for such part of the annual charges for interest, maintenance, and depreciation of the Federal project as the Commission may deem equitable.

1. *Alleged Detriments.* Puget does not deny that it has received energy gains at its downstream plant from the operation of the Mud Mountain Dam. Puget nevertheless alleges that its headwater benefit payments should be eliminated, or at least greatly reduced, on account of the alleged detriments to its project caused by the operation of the Mud Mountain Dam. The alleged detriments are caused by increased sedimentation which creates: (1) energy losses on account of more frequent project shutdowns; and (2) higher operational costs.

The Army Corps of Engineers completed Mud Mountain Dam in 1950 for flood control purposes, and they operate it to eliminate nearly all peak discharges in favor of more consistent and more moderate discharges.[1] Puget alleges that operating Mud Mountain Dam to eliminate peak flows causes huge quantities of sediment, which used to bypass Puget's off channel project during times of peak flows, to enter the project area. Thus the alleged increased sediment load causes more frequent plant shutdowns and also increases the cost of sediment removal. Puget argues that it should receive offsets for both types of detriments in calculating headwater benefit payments.

a. *Energy Detriments.* We agree with Puget that an offset might be necessary if the operation of Mud Mountain Dam results in not only energy gains but also countervailing energy losses for Puget's downstream project. We are therefore providing for a hearing to determine if the operation of Mud Mountain Dam has caused more frequent shutdowns, and thus energy losses, due to increased sedimentation.

b. *Cost Detriments.* Puget alleges that with Mud Mountain Dam in operation its White River Project experiences 2½ times more sediment than it would have had otherwise. Moreover, it alleges that the expenses of removing this sediment has increased dramatically in recent years due to more restrictive environmental protection procedures.

Puget's allegations, without more, are not worthy of an offset in payments. Our authority under Section 10(f) is limited to calculating energy gains enjoyed by non-Federal entities. A Section 10(f) proceeding is not the forum to litigate claims for damages caused by an upstream Federal project. Similarly, any equities favoring a downstream poject do not enter into the calculation of statutory benefits. *See South Carolina Electric & Gas Company* v. *Federal Power Commission,* 338 F. 2d 896, 903 (4th Cir. 1964).

We may take into consideration a

[1] This regulation results in the energy gains calculated by the staff.

related claim, however. Staff's report accounted for the increased cost of sediment removal in its calculation of the value of the energy gains received. The increased costs of producing energy at the White River Project were compared to the costs of alternative energy sources. Puget argues that staff did not go far enough, claiming that the staff should have considered the incremental cost of the energy benefits and not the average cost of all energy produced. Without commenting on the merits of Puget's claim, we shall not bar them from raising this question in the hearing scheduled by this order.

2. *Allocation of Costs Between Power and Flood Control.* Puget also challenged the staff's allocation of Mud Mountain Project's costs between power and flood control. This factual dispute affects the "equitable portion" of the annual charges to be reimbursed by Puget. Therefore we also set this matter for hearing.

The Commission Orders

(A) Pursuant to the provisions of the Federal Power Act, the Commission's Rules of Practice and Procedure and other applicable regulations, a hearing, limited to the following factual issues, shall be held at the Commission's offices, 825 North Capitol Street, NE., Washington, D.C.:

(1) Whether energy losses are sustained by Puget's White River Project due to the operation of the Mud Mountain Dam; and

(2) Whether the staff employed the proper allocation of Mud Mountain Project costs between power and flood control.

(B) A Presiding Administrative Law Judge, to be designated by the Chief Administrative Law Judge, shall preside at the hearing in this proceeding. A prehearing conference shall be convened within 90 days of the issuance date of this order.

(C) The Presiding Judge's recommended decision in this proceeding shall include an updated tabulation of the Commission's costs of investigation, including any costs of litigation.

(D) The Secretary shall cause prompt publication of this order in the **Federal Register**.

By the Commission.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. QF83-245-000]

Texaco U.S.A.; Application for Commission Certification of Qualifying Status of a Small Power Production Facility

April 19, 1983.

On April 4, 1983, Texaco U.S.A., (Applicant) P.O. Box 98, Westville, New Jersey 08093, filed with the Federal Energy Regulatory Commission (Commission) an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's rules.

The facility is located at Texaco's Eagle Point Plant in West Deptford Township, Gloucester County, New Jersey. The electric power production capacity of the facility is 23,500 kilowatts from three steam turbine generators. The primary energy source is waste in the form of refinery waste gas. Natural gas and fuel oil contribute approximately 15 percent of the energy input to the facility. No other waste-fueled small power production facility owned by Applicant is located within one mile of the facility. No electric utility, electric utility holding company or any combination thereof has any ownership interest in the facility.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest wih the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER83-456-000]

Texas-New Mexico Power Co.; Filing

April 19, 1983.

The filing Company submits the following:

Take notice that the Texas-New Mexico Power Company (the Company) on April 8, 1983, tendered for filing a proposed Excess Power Service rate schedule. The Company states that the purpose of the rate schedule is to enable the Company to make off-system sales of capacity and/or energy out of the excess capacity and energy available to the Company under firm power contracts with its power supplies in its New Mexico Division. The reason that the Company has such excess power supply in its New Mexico Division is that the Company has experienced a substantial drop in its industrial sales.

The Company proposes an effective date of June 7, 1983 in compliance with the Commission's notice requirements. However, the Company requests a waiver of the notice requirements in order that an effective date be permitted at the earliest possible date prior to June 7, 1983.

Copies of the filing were served upon the New Mexico Public Service Commission, Public Utility Commission of Texas, and the Company's power suppliers to the New Mexico Division.

Any person desiring to be heard or to protest said application should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motion or protests should be filed on or before May 4, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this application are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. QF83-222-000]

Tosco Corp.; Application for Commission Certification of Qualifying Status of a Cogeneration Facility

April 19, 1983

On March 18, 1983, Tosco Corporation, 10100 Santa Monica Blvd., Los Angeles, California 90067, filed with the Federal Energy Regulatory Commission (Commission) an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's rules.

The topping-cycle cogeneration facility will be located in Martinez Contra County, California at the Tosco

Corporation refinery. It will consist of two gas turbine generators, two waste heat recovery steam boilers and a single steam turbine generator along with associated support systems. The net power production capacity of the facility will be 83.5 megawatts. The primary energy source will be refinery byproduct gas or natural gas. Installation will begin in the second half of 1983. No electric utility, electric utility holding comapny or any combination thereof has any ownership interest in the facility.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP75-302-004]

Tennessee Gas Pipeline Company, a Division of Tenneco Inc., Respondent; Application

April 20, 1983.

Take notice that on March 21, 1983, the Town of Elizabeth, Louisiana (Applicant), Elizabeth, Louisiana 70638, filed in Docket No. CP75-302-004 an application pursuant to Section 7(a) of the Natural Gas Act for an order making permanent the temporary authority previously granted by the Federal Power Commission (FPC) in Docket No. CP75-302, directing Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), to sell and deliver to Applicant a maximum quantity of natural gas of up to 500 Mcf per day and 50,000 Mcf per year, and further, Applicant requests waiver of the in-kind payback obligation, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

It is submitted that by order of the FPC issued September 3, 1975, in Docket No. CP75-302 Tennessee was directed to provide emergency gas service to Applicant for a period of one year, subsequently extended by orders of the FPC issued September 3, 1976, and March 4, 1977, in Docket No. CP75-302. It is further submitted that the order issued March 4, 1977, extended the term until Commission action on applications for rehearing filed by Elizabeth and the State of Louisiana in Docket No. CP77-234, *United Gas Pipe Line Company* (United). Applicant states that it requested deferral of Commission action on the applications for rehearing by letter dated December 3, 1981.

Applicant states that it is a municipality harboring approximately 500 inhabitants and that it provides natural gas service to 136 private residences, 22 small public and commercial establishments, and 4 small agricultural users, for use in heating, cooking, irrigation, and crop drying. It is submitted that Applicant's maximum requirements for the next three years would not exceed 500 Mcf per day and 50,000 Mcf per year.

Applicant submits that its efforts to obtain alternative gas supplies have failed for reasons beyond its control. Applicant states that United's application in Docket No. CP77-234 for authorization to transport state royalty gas was foreclosed by the FPC's assertion in the order issued March 4, 1977, of jurisdiction over the sale of gas, an assertion submitted to have been unacceptable to intrastate sellers. A second alternative supply, Applicant submits, involved sales by intrastate pipelines to have been transported by Tennessee and United under the Natural Gas Policy Act of 1978. Applicant explains that an essential element of the transaction was Boise Southern Company's (Boise Southern) industrial purchase, the proceeds of which would be used to finance improvements needed to connect and distribute the gas. It is explained that this arrangement was precluded by the closure of Boise Southern's plant announced in November 1981.

It is asserted that waiver of the payback obligation is appropriate because of changed circumstances of gas supply and Tennessee curtailment. Applicant further asserts that the payback obligation would impose an unreasonably harsh burden inasmuch as 615,783 Mcf of gas were purchased by January 1983.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 20, 1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214, 385.211) and the Regulations under the Natural Gas Act (18 CFR 156.9). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Office of the Secretary

Voluntary Agreement and Plan of Action To Implement the International Energy Program; Meeting

In accordance with section 252(c)(1)(A)(i) of the Energy Policy and Conservation Act (42 U.S.C. 6272), the following meeting notice is provided:

A meeting of the Industry Supply Advisory Group to the International Energy Agency (IEA) will be held from May 5 until about May 31, 1983, at the offices of the IEA, 2 Rue Andre Pascal, Paris 16, France, beginning at 9:00 a.m. on May 5. This meeting is being held inconjunction with the conduct of the Fourth IEA Allocation Systems Test, and that test is the agenda of the meeting.

As provided in section 252(C)(1)(A)(ii) of the Energy Policy and Conservation Act, this meeting will not be open to the public.

Issued in Washington, D.C, April 20, 1983.

Craig S. Bamberger,

Assistant General Counsel, International Trade and Emergency Preparedness.

BILLING CODE 6450-01-M

National Petroleum Council Subcommittee on Enhanced Oil Recovery; Open Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given of the following neeting:

Name: National Petroleum Council Subcommittee On Enhanced Oil Recovery.

Date and Time: Wednesday, May 19, 1983—4:00 p.m.

Place: The Madison Hotel, Executive Chambers I and II, 15th and M Streets NW., Washington, D.C.

Contact: Gerald J. Parker, U.S. Department of Energy, Office of Oil, Gas and Shale Technology, Mail Stop D–122, GTN, Washington, D.C. 20545, Telephone: 301–353–3032.

Purpose of National Petroleum Council: To provide advice, information, and recommendations to the Secretary of Energy on matters relating to oil and gas or the oil and gas industries.

Tentative Agenda:

—Review and discuss study scope and organization in response to the Secretary of Energy's request to update the National Petroleum Council's 1976 Enhanced Oil Recovery report
—Review and discuss progress of the Coordinating Subcommittee and Task Groups
—Review and discuss study schedule and final report format
—Discuss any other matters pertinent to the overall assignment from the Secretary
—Public comment (10 minute rule)

Public Participation: The meeting is open to the public. The Chairperson of the Subcommittee is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Subcommittee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements pertaining to agenda items should contact Gerald J. Parker at the address or telephone number listed above. Requests must be received at least 5 days prior to the meeting and reasonable provision will be made to include the presentation on the agenda.

Transcripts: Available for public review and copying at the Public Reading Room, Room 1E–190, Forrestal Building, 1000 Independence Avenue, SW, Washington, DC, between 8:00 a.m. and 4:00 p.m., Monday through Friday, except Federal holidays.

Issued at Washington, DC on April 21, 1983.

Howard H. Raiken,

Deputy Advisory Committee Management Officer.

Public Hearings on Proposed Nomination of Sites in Salt Deposits for Detailed Site Characterization, Recommendations on Issues to be Addressed in the Environmental Assessments and Site Characterization Plans

AGENCY: Department of Energy.

ACTION: Notice of public hearing and solicitation of comments.

SUMMARY: The U.S. Department of Energy has identified one or more potentially acceptable sites, in salt deposits in Deaf Smith and Swisher counties in the Texas Panhandle, for a high-level radioactive waste repository and now announces public hearings on the proposed nomination of these sites for site characterization studies pursuant to Section 113 of the Nuclear Waste Policy Act of 1982 (Pub. L. 97–425). The U.S. Department of Energy announced identical hearings in the April 13 Federal Register for the other salt sites previously identified as potentially acceptable. These sites are: The Richton and Cypress Creek salt domes in Mississippi, the Vacherie salt dome in Louisiana, and sites in Davis and Lavender Canyons in southeastern Utah. The Department has decided to propose for nomination and conduct pre-nomination hearings in the vicinity of *all* sites previously identified as potentially acceptable in order to provide maximum opportunity for public comments to influence the nomination process. A site in basalt in Washington, and tuff in Nevada have already been proposed for nomination. The basis for the final nomination of any site will be documented in an Environmental Assessment. The EA will reflect the prenomination hearing comments and include an evaluation as to whether the site is suitable for site characterization under the final siting guidelines. The Department intends to nominate at least five sites and subsequently to recommend three of the nominated sites to the President in the fall of 1983. A Site Characterization Plan will be developed if a site is approved by the President as a candidate site. A major objective of the site characterization activity will be the acquisition of geologic information necessary for the evaluation of the suitability of the sites for a repository. Site characterization activities at all candidate sites must be completed within the next four years to support a Departmental recommendation to the President and subsequent Presidential recommendation of a site for a repository to the Congress by March 31, 1987. This notice establishes the hearing dates and locations, and a public comment period to solicit: (1) Comments on the proposed nominations, (2) issues to be included in Environmental Assessments supporting the nomination of each site, and (3) issues to be addressed in the Site Characterization Plan.

DATES AND ADDRESSES: The Hearings are scheduled for:

1. May 16, 1983, 7:00 pm to 11:00 pm, Hereford High School, Hereford, Texas;
2. May 17, 1983, 7:00 pm to 11:00 pm, Tulia High School, Tulia, Texas;
3. May 18, 1983, 2:00 pm to 8:00 pm, Best Western Villa Capri, 2400 North Interstate Highway 35, Austin, Texas.

Written request to schedule time for oral presentation are due by five calendar days before the hearing in question. Written comments on issues being addressed in the hearing are due by May 25, 1983.

FOR FURTHER INFORMATION CONTRACT: For requests to speak at the hearing, and for further information contact: J. O. Neff, U.S. Department of Energy, NWTS Program Office, 505 King Avenue, Columbus, Ohio 43201, telephone: (614) 424–5916.

Written comments should be submitted to: J. O. Neff, U.S. Department of Energy, NWTS Program Office, 505 King Avenue, Columbus, Ohio 43201, telephone: (614) 424–5916.

SUPPLEMENTARY INFORMATION:

Public Hearings

Hearing will be conducted by the Department of Energy in Hereford, Texas, on May 16, 1983, Tulia, Texas on May 17, 1983, and Austin, Texas on May 18, 1983. The purpose of these hearings is to inform the public of the activities and considerations that led to these proposed nominations and to receive comments. To support site nominations, the Department of Energy will develop Environmental Assessments that address site characterization activities. Pub. L. 97–425, Section 112(b)(1)(E), identifies issues that must be addressed by the Environmental Assessment.[1] An additional purpose of the Hearings is to solicit and receive recommendations with respect to specific issues that should be addressed in the aforementioned Environmental Assessment and also specific issues that should be addressed in any Site Characterization Plan which would subsequently be issued, if and when the location is approved by the President as a candidate site for site characterization. Also, the Department intends to provide the public and the States an opportunity to review and comment on a draft of the Environmental Assessments prior to their being finalized to support the site nominations.

Presentations

Parties interested in providing oral presentations at the Hearing may request time not to exceed ten minutes for the purpose of delivering that presentation. A type-written copy of the presentation is requested and should be delivered to the presiding officer before being presented at the Hearing. Requests for scheduled presentation

[1] Pursuant to Section 112a, proposed general guidelines for the recommendation of sites for repositories were published in the **Federal Register** on February 7, 1983 (48 FR 5670).

must be written and mailed or delivered so as to be received at the address noted above no later than five calendar days before the hearing in question. A person scheduled to appear at the hearing will be notified by DOE of his or her participation. Requests to speak should include a telephone number where the person can be reached up to the day of the hearing.

Individuals who do not make advance requests to speak at the Hearing may register to speak with the presiding officer prior to the start of the Hearing. An opportunity to speak will be provided to these individuals if time permits. However, time for these unscheduled presentations will be limited, depending on the number of requests received and time available.

Written Comments

Parties may also submit written comments on the proposed Nomination; the issues to be addressed in the Environmental Assessment; and the issues to be addressed in any Site Characterization Plan. These comments will be added to the Hearing transcript and constitute the official Department record of the Hearing. Written comments should be mailed to reach the address noted above by May 25, 1983.

Conduct of Hearing

DOE reserves the right to arrange the schedule of presentations to be heard and to establish additional procedures governing the conduct of the Hearing. Questions may be asked only by those conducting the Hearing. Cross examination of persons presenting statements will not be permitted. Any further procedural rules needed for the proper conduct of the Hearing will be announced by the presiding officer.

Transcripts of the Hearing will be made, and the entire record of the Hearing, including the transcripts, will be retained by DOE and made available for inspection at public libraries in the vicinity of the proposed site, at the public document room DOE Public Reading Room, Room 1E–190, Forrestal Building, 1000 Independence Avenue, SW, Washington, D.C. 20585. Any person may purchase a copy of the transcript of the Hearing from the reporter so identified by the presiding officer.

Additional copies of the complete transcripts will also be available at the public document centers noted below.

Albuquerque Operations Office, National Atomic Museum, Kirkland Air Force Base East, Albuquerque, New Mexico;

Idaho Operations Office, 550 Second Street, Idaho Falls, Idaho;

Nevada Operations Office, 2753 South Highland Drive, Las Vegas, Nevada;

Oak Ridge Operations Office, Federal Building, Oak Ridge, Tennessee;

Richland Operations Office, Federal Building, Richland, Washington;

San Francisco Operations Office, Wells Fargo Building, 1333 Broadway, Oakland, California;

Savannah River Operations Office, Savannah River Plant, Aiken, South Carolina.

For the Department of Energy April 20, 1983.

Donald Paul Hodel,

Under Secretary.

[FR Doc. 83-11061 Filed 4-25-83; 8:45 am]

BILLING CODE 6450-01-M

Western Area Power Administration

Central Valley Project, California; Rate Order

AGENCY: Wester Area Power Administration, DOE.

ACTION: Notice of a rate order—central vally project, California.

SUMMARY: Notice is given of Rate Order No. WAPA–17 of the Assistant Secretary for Conservation and Renewable Energy (Assistant Secretary) for placing increased power rates into effect on an interim basis for the Central Valley Project (CVP) power marketed by the Western Area Power Administration (Western).

The rate adjustment would increase average annual revenues from firm power sales to meet the allowable time periods for repayment of the various power costs.

New rates for the CVP wholesale firm power rate consist of a capacity charge of $3.75 per kW per month and an energy charge with periodic stairstep increases. The effective dates and applicable charges are shown below.

Date effective	Capacity charge (kilowatts per month)	Energy charge (mills per kilowatt hour)	Estimated average composite rate (mills per kilowatt hour)
5–25–83	$3.75	8.53	16.89
10–1–83	3.75	13.74	21.98
10–1–84	3.75	18.95	27.18
11–1–85	3.75	27.97	36.16
10–1–86	3.75	31.44	39.63

Future events, such as a change in the hydrologic conditions, may require a change in the effective dates of the final two steps of the proposed rate. Therefore, upon at least 6-months notice to the CVP customers in advance of the announced effective dates, the effective dates of either or both of the final two steps can be adjusted in 3-month increments. This adjustment can either advance or delay the announced dates of the final two steps.

The estimated average wholesale composite firm power rate, expected to yield 39.63 mills per kWh beginning October 1, 1986, and thereafter, is an increase of 29.87 mills per kWh over the existing composite rate of 9.76 mills per kWh.

New rates of $.35 per kW per month for firm transmission and 1 mill per kWh for nonfirm transmission are also being adopted for customers transmitting non-CVP power over the CVP transmission system. There is no existing CVP wheeling rate.

The rate order also contains discussion of the principal factors leading to the decisions on the rate increase and responses to the major comments, criticisms, and alternatives offered during the rate adjustment proceedings.

EFFECTIVE DATE: The new rates will become effective on May 25, 1983, and will be applicable on the first full billing period thereafter, in accordance with 10 CFR 903.21(c).

FOR FURTHER INFORMATION CONTACT:

Mr. David G. Coleman, Area Manager, Sacramento Area Office, Western Area Power Administration, 2800 Cottage Way, Sacramento, CA 95825; (916) 484–4251;

Mr. Conrad K. Miller, Chief, Rates and Statistics Branch, Western Area Power Administration, P.O. Box 3402, Golden, CO 80401; (303) 231–1535; or

Mr. John DiNucci, Office of Power Marketing Coordination, Department of Energy, CE–91, Federal Building, Washington, DC 20461; (202) 633–8336.

SUPPLEMENTARY INFORMATION: Pursuant to section 302(a) of the Department of Energy (DOE) Organization Act, 42 U.S.C. 7152(a), the power marketing functions of the Secretary of the Interior under the Reclamation Act of 1902, 43 U.S.C. 372 et seq., as amended and supplemented by subsequent enactments, particularly by section 9(c) of the Reclamation Act of 1939, 43 U.S.C. 458h(c), and acts specifically applicable to the CVP for the Bureau of Reclamation (Bureau), were transferred to and vested in the Secretary of Energy. By Delegation Order No. 0204–33, effective January 1, 1979 (43 FR 60636, December 28, 1978), last amended March 19, 1981 (46 FR 25426, May 7, 1981), the Secretary of Energy delegated to the Assistant Secretary the authority to develop power and transmission rates

acting by and through the Administrator of Western and to confirm, approve, and place in effect such rates on an interim basis.

Also, the Federal Energy Regulatory Commission (FERC) was delegated the authority to confirm and approve on a final basis or to disapprove rates developed by the Assistant Secretary. This rate order is issued pursuant to the delegation to the Assistant Secretary and the rate adjustment procedures at 10 CFR Part 903.

Public proceedings on the rate adjustment were initiated on January 19, 1982, with an informal public information meeting to announce the need for and adjustment in the CVP power rates, to establish a tentative time schedule for the rate adjustment, and to inform the CVP customers and interested parties on various power marketing activities that could have an impact on the rate adjustment. The informal comment meeting held on February 24, 1982, provided interested parties an opportunity to express their views on various items that relate to this rate adjustment.

The June 25, 1982, **Federal Register** notice at 47 FR 27602 initiated the 90-day customer consultation and comment period for the proposed CVP rate adjustment; announced the first formal public information forum, which was held on July 13, 1982; and announced the first public comment forum, which was held on August 17, 1982. The CVP revenue requirements and three alternative firm power rate structures that could be used to recover the required revenues were addressed at the information forum and detailed in the **Federal Register** notice. The proposed rates for CVP transmission service were also discussed. At the formal public comment forum, interested persons were provided an opportunity to present their views, data, and arguments regarding the proposed rates.

A notice published at 47 FR 39717 (September 9, 1982), amended the proposed rate for transmission service, provided for a combined public information and comment forum held on October 26, 1982, and extended the consultation and comment period until November 15, 1982. A third notice, published at 47 FR 44425 (October 7, 1982), announced the selection of the rate structure alternative consisting of a uniform rate with periodic energy charge stairsteps for sale of CVP firm power. The proposed rates were also announced.

A combined public information and comment forum was held on October 26, 1982, with Western representatives announcing the proposed rates and the changes that had been made in the development of the proposed rates since June 25, 1982. Interested persons then had an opportunity to comment on the proposed rates. The consultation and comment period closed on November 15, 1982.

Therefore, Rate Order No. WAPA-17 confirming and approving increased power rates on an interim basis is hereby issued. The rates will be promptly submitted to the FERC as Provisional Rates, and as Substitute Rates pursuant ot the ruling in the FERC docket No. EF80-5011, for confirmation and approval on a final basis.

Issued in Washington, DC, April 19, 1983.

Joseph J. Tribble,

Assistant Secretary, Conservation and Renewable Energy.

[Rate Order No. WAPA-17]

Order Confirming, Approving, and Placing Power and Transmission Rates in Effect on an Interim Basis

April 19, 1983.

In the matter of Western Area Power Administration—Central Valley Project Power Rates.

Pursuant to section 302(a) of the Department of Energy (DOE) Organization Act, 42 U.S.C. 7152(a), the power marketing functions of the Secretary of the Interior under the Reclamation Act of 1902, 43 U.S.C. 372 et seq., as amended and supplemented by subsequent enactments, particularly by section 9(c) of the Reclamation Act of 1939, 43 U.S.C. 485h(c), and acts specifically applicable to the Central Valley Project (CVP) for the Bureau of Reclamation (Bureau), were transferred to and vested in the Secretary of Energy. By Delegation Order No. 0204-33, effective January 1, 1979 (43 FR 60603, December 28, 1978), last amended March 19, 1981 (46 FR 25426, May 7, 1981), the Secretary of Energy delegated to the Assistant Secretary for Conservation and Renewable Energy (Assistant Secretary) the authority to develop power and transmission rates acting by and through the Administrator of the Western Area Power Admninistration (Western) and to confirm, approve, and place in effect such rates on an interim basis. Also, the Federal Energy Regulatory Commission (FERC) was delegated the authority to confirm and approve on a final basis or to disapprove rates developed by the Assistant Secretary. This rate order is issued pursuant to the delegation to the Assistant Secretary and the rate adjustment procedures at CFR Part 903.

Background

Existing and New Rates

The first CVP rate increase was promulgated in November 1973 to be effective April 1, 1974. Those rates were set aside by a district court because of inadequate public procedures. After new public procedures were developed and followed, interim rates were placed in effect on May 25, 1978, by the Economic Regulatory Administration (ERA). The rates were initially proposed as two-step rates, with the first step to be effective for 1 year and the second, higher, step to be effective thereunder. However, the ERA only approved the first step for 1 year. The effective period for the first step was extended for 5 months by the Assistant Secretary for Resource Applications, who at that time had the authority to approve rates on an interim basis. When the 5-month extension expired, those interim rates were superseded by the current rates. The Assistant Secretary for Resource Applications approved the current rates effective on an interim basis for 1 year beginning November 1, 1979, and submitted them to the FERC for final confirmation and approval. The effective period for the rates was subsequently extended for an additional year beginning November 1, 1980.

The Assistant Secretary extended the rate for a second 1-year period beginning Novmber 1, 1981, and, by order of September 27, 1982, confirmed and approved on an interim basis, effective November 1, 1982, a third extension of the existing rates. The current extension provides that the rates remain in effect until the FERC confirms and approves them or substitute rates on a final basis or until they are superseded.

The FERC set a docket and allowed interested parties to intervene in the rate proceeding. Pacific Gas and Electric Company (PGandE), Sacramento Municipal Utility District (SMUD), Northern California Power Agency (NCPA), the city of Santa Clara, certain former load growth customers, and certain irrigation districts intervened.

By order dated May 4, 1982, the FERC disapproved the rates and requested Western and the Assistant Secretary to file substitute rates within 120 days. The rates were disapproved because the FERC alleged that the rates failed to recover certain costs which were required to be recovered under reclamation law and DOE regulations. Since the FERC disapproved the rates as being too low, the rates remained in effect pending implementation of new rates. On June 3, 1982, Western and the

Assistant Secretary petitioned the FERC for a rehearing, arguing that the rates were in fact adequate under the law. On the same day, Western and the Assistant Secretary filed a motion with the FERC for an extension of time to file substitute rates. By order issued July 2, 1982, the FERC denied the petition for rehearing and denied without prejudice the motion for extension of time to file substitute rates. In response, on August 9, 1982, Western and the Assistant Secretary again filed a motion for an extension of time to file substitute rates. Western and the Assistant Secretary requested the FERC to grant an extension to May 31, 1983, and to accept the new rates being developed in these proceedings as the substitute rates. By orders dated September 2, 1982, October 1, 1982, and November 2, 1982, the FERC granted 30-day extensions for futher consideration of Western's motion. On November 29, 1982, the FERC granted a 60-day extension to January 31, 1983, to consider the significant questions raised by Western's motion. An additional 45-day extension to consider the significant questions raised by Western's motion was granted by the FERC for the period from January 31, 1983, to March 17, 1983. By order dated March 15, 1983, the FERC accepted the August 9, 1982, motion as filed.

1. *Wholesale firm power rate.* The existing and new wholesale firm power rates are compared in the following paragraphs.

a. *Existing rates.* The existing rates for the CVP as confirmed and approved on an interim basis by the Assistant Secretary, effective on November 1, 1979, were designed to yield a composite annual rate of 9.76 mills per kWh. The monthly charges are as follows:

Demand Charge: $2.00 per kilowatt of billing demand.

Energy Charge: 5.11 mills per kilowatthour for all energy use up to, but not in excess of, the energy obligation under the power sales contract.

Billing Demand: The billing demand will be the highest 30-minute integrated demand established during the month up to, but not in excess of, the delivery obligation under the power sales contract.

Energy Obligation: The maximum kilowatthour obligation of the United States during the month as established under the power sales contract.

Unathorized Overruns: For each billng period in which there is a contract violation involving an unauthorized overrun of the contractual obligation for capacity and/or energy, such overrun shall be billed at ten (10) times the above charges.

b. *New rates.* The new rates maintain the same provisions for the billing demand, energy obligation, and unauthorized overruns. The capacity and energy charges are as provided below with the composite rates provided for information only.

Date effective	Capacity charge (kilowatt per month)	Energy charge (mills per kilowatt hour)	Estimated average composite rate (mills per kilowatt hour)
5-25-83	$3.75	8.53	16.89
10-1-83	3.75	13.74	21.98
10-1-84	3.75	18.95	27.16
11-1-85	3.75	27.97	36.16
10-1-86	3.75	31.44	39.63

In FY 1987, the new rates for wholesale firm power are expected to provide about $187 million more in annual revenue than would be yielded by the current rates.

Future variables, such as a change in the hydrologic conditions, may require a change in the effective dates of the final two steps of the rate. Therefore, upon at least 6-months' notice to the CVP customers in advance of the announced effective dates, the effective dates of either or both of the final two steps can be adjusted in 3-month increments. This adjustment can either advance or delay the announced effective dates of the final two steps in this rate order.

2. *Transmission rates.* There is no existing CVP transmission rate. The new rates that will be applicable to customers who desire to transmit non-CVP power over the CVP transmission system are $.35 per kW per month for firm transmission service and 1 mill per kWh for nonfirm transmission service.

Public Notice

Public proceedings on the proposed rate adjustment were initiated on January 19, 1982, with an informal public information meeting to announce the need for an adjustment in the CVP power rates, to establish a tentative time schedule for the rate adjustment, and to inform the CVP customers and interested parties on various power marketing activities that could have an impact on the rate adjustment. The informal comment meeting held on February 24, 1982, provided interested parties an opportunity to express their views on various items that related to this rate adjustment.

The June 25, 1982, **Federal Register** notice at 47 FR 27602 initiated the 90-day customer consultation and comment period for the proposed CVP rate adjustment; announced the first formal public information forum, which was held on July 13, 1982; and announced the first formal public comment forum, which was held on August 17, 1982. The CVP revenue requirements and three alternative firm power rate structures that could be used to recover the required revenues were addressed at the information forum and in the **Federal Register** notice. The proposed rates for CVP transmission service were also discussed. At the formal public comment forum, interested persons were provided an opportunity to present their views, data, and arguments regarding the proposed rates.

A notice published at 47 FR 39717 (September 9, 1982) amended the proposed rates for transmission service, provided for a combined public information and comment forum on October 26, 1982, and extended the consultation and comment period until November 15, 1982. A third notice, published at 47 FR 44425 (October 7, 1982), announced the selection of the rate structure alternative consisting of a uniform rate with periodic energy charge stairsteps for sale of CVP firm power. The proposed stairstep rates were also announced.

The combined public information and comment forum was held on October 26, 1982, with Western representatives announcing the proposed rates and the changes that had been made in the development of the proposed rates since June 25, 1982. Interested persons then had an opportunity to comment on the proposed rates. The consultation and comment period closed on November 15, 1982.

Project History

The initial features of the CVP in northern California were authorized for construction in 1935. Operation of the project began in January 1944, with additional units periodically being authorized and integrated into the CVP since that time. The CVP is a multiple purpose project serving many differnt functions. The power generated from the CVP hydroelectric system is dedicated first to meeting the power requirements of the project pumping facilities. The remaining capability of the hydroelectric system is available to provide commercial power to preference customers.

The 11 existing powerplants, of which 2 are pumpting-generating plants, have a total installed capacity of over 1,750 MW. However, the amount of commercial firm load which can be supplied at present by CVP generation alone is significantly lower. Therefore, the system has been operationally integrated with the PG and E system, which by contract will provide support

for the CVP to supply a maximum simultaneous customer demand of 1,152 MW through the year 2004.

Power Repayment Study

The basic purpose of the power repayment study (PRS) is to determine if the revenues available will be sufficient to pay the power costs within the allowed time and within the legislative requirements. In order to determine if this requirement will be met, a year-by-year analysis of historical, present, and future projections of revenues and costs must be made in an appropriate manner.

A PRS for the CVP is prepared each year in accordance with authorizing legislation for the CVP and with DOE Order RA 6120.2, entitled "Power Marketing Administration Financial Reporting," dated September 20, 1979.

The existing rates for the CVP of $2.00 per kW per month and 5.11 mills per kWh are based on the revenue requirements derived in the FY 1976 PRS, which was used to support the November 1, 1979, rate submitted to the FERC. The current PRS shows that these rates are not sufficient to recover the annual expenses of the CVP, and that a large deficit would occur by the year 2030, the end of the repayment period.

A revised PRS has been developed which shows rate increases beginning May 25, 1983, which will yield revenues sufficient to recover the CVP power deficit of $150 million plus the required annual expenses prior to November 1, 1985. The rate will be further increased on November 1, 1985, and October 1, 1986, to recover the anticipated substantial rise in the cost of purchased power that is expected to occur as a result of the expiration of low-cost purchases from Energy Account No. 1. (Energy Account No. 1 is discussed under 4(b) of Major Changes Since the Previous Rate Order Was Submitted.)

Major Changes Since the Previous Rate Order Was Submitted

Since the rate order containing the current rates was submitted to the FERC, changes have occurred in CVP customer load level, PGandE wheeling costs, CVP generation, purchased power quantities and associated costs, CVP investment, operating costs, interest rates, and the project-use rate.

1. *Customer load level.* The 1979 power rate was based on a maximum simultaneous customer demand which gradually increased from 925 MW in 1978 to 1,050 MW in 1985 and remained at that level through 2004. An out-of-court settlement with the city of Santa Clara resulted in the maximum simultaneous demand being increased to 1,050 MW in 1980. The Santa Clara Settlement also contained a provision that allowed CVP to serve an additional 102 MW of customer load. Western's allocation of the 102 MW to various customers was published at 46 FR 51224 (October 16, 1981). The contractual load limit in the revised PRS reaches 1,152 MW in 1987.

2. *PGandE wheeling costs.* Studies supporting the existing power rates included PGandE wheeling costs of 1.2 mills per kWh for deliveries above 44 kV and 1.67 mills per kWh for deliveries below 44 kV. This was in accordance with Western's position in the FERC docket No. ER76-532, PGandE's 1976 filing for a transmission rate increase.

The revised PRS includes wheeling costs for the period from FY 1976 to FY 1982 based on the actual amounts paid to PGandE during the period. The amounts were 1.7 mills per kWh for above 44-kV deliveries and 3.9 mills per kWh for below 44-kV deliveries. The rates in Phase I of PGandE's new transmission rates, proposed in the FERC docket No. ER82-729, filed August 17, 1982, are included in the PRS for FY 1983. These rates are $1.354 per kW per month for above 44-kV deliveries and $2.47 per kW per month for below 44-kV deliveries. The rates in Phase II of the newly proposed rates, included in the PRS for 1984 and thereafter, are $1.476 per kW per month for above 44-kV deliveries and $2.692 per kW per month for below 44-kV deliveries. These rates have increased the wheeling costs in 1984 and thereafter by approximately $9 million per year above those in the PRS used to support the 1979 CVP rate adjustment submittal. The new PGandE rates are included in the revised PRS to comply with the FERC's order of May 4, 1982. Inclusion of these rates is not to be construed as acceptance by Western of PGandE's filing before the FERC.

3. *CVP generation.* Future estimates of project generation have been revised to reflect certain changes in water operations policies since the 1979 rate adjustment studies. A new flow schedule increasing releases down the Trinity River by 170,000 acre feet in all but critical years, was incorporated into the hydrology studies. This reduces the CVP generation because the water was previously diverted into the Sacramento River Basin for power generation at the Judge Francis Carr, Spring Creek, and Keswick Powerplants. The other major policy change reflected in the hydrology studies was the Bureau's commitment to meet State mandated Delta water quality standards. That decision resulted in increased releases from the reservoirs for water quality. In terms of power production, the overall effect of meeting the standards reduced the amount of water stored in the reservoirs, thereby decreasing power production.

The combination of those factors, and some other smaller changes, have the effect of reducing system flexibility and generation, especially in the early years of the study. The effect will diminish with time, and generation in the later years will more closely approximate previous projections.

4. *Purchased power.* These costs, as projected in the rate proposal for the 1982–1987 computation period, have increased substantially from the purchases projected for the 1979 rate increase. The following items affect the purchased power costs.

a. *Amount of purchases.* The amount of purchases required has increased because of the additional 102 MW customer load level and a change in the project generation to reflect the current operational criteria for the CVP, both of which have just been discussed.

b. *Cost of purchases.* Energy Account No. 1 (EA No. 1), Energy Account No. 2 (EA No. 2), and the Capacity Account are banking arrangements between Western and PGandE, established under Contract No. 14-06-200-2948A (Contract 2948A). The cost of purchases from EA No. 1 is 2.8105 mills per kWh. The cost of purchases from EA No. 2 and the Capacity Account are updated each year to reflect PGandE's average thermal plant production costs. These costs reflect the current price of fuel, construction, and operating costs. They also include future investment costs for the Diablo Canyon Nuclear Powerplant at the time it is scheduled to be placed in service. The costs in the 1976 study used to develop the 1979 CVP rate adjustment did not reflect the drastic increases in fuel prices or the inflation that occurred in the late 1970's. Thus, the costs for purchased power in the 1981 PRS are substantially higher than those shown in the 1976 PRS.

c. *Available surpluses.* Inclusion of 1982 surplus purchases from the Bonneville Power Administration (BPA) partially offsets the increases in a. and b. above. Because of the excellent water conditions in the Northwest and in northern California, the CVP has been able, for the 1982 summer season, to meet its load obligations, and in addition, import large amounts of Northwest surplus for sale to preference customers and PGandE, thus avoiding purchases from the EA No. 1 during 1982.

5. *Investment.* An increase of $53 million has occurred in the capital costs to be repaid by the power customers since the last rate increase. This is due primarily to future construction of

transmission facilities by Western during the cost evaluation period.

6. *Operating costs.* The 1976 PRS projected operation and maintenance (O&M) costs for the years 1977 through the end of the repayment period. The actual O&M expenses for the years 1977, 1978, and 1979 were somewhat lower than costs projected in the 1976 PRS. However, the actual expenses for 1980 and 1981 increased substantially over those projected in the 1976 PRS and also increased over the previous years' actual expenses.

One cause for such a variance between the costs projected and those that occurred beyond FY 1979 is that O&M cost changes were projected in the 1976 PRS through FY 1979 only. A constant O&M expense was projected from 1980 through the end of the repayment study.

The major reasons for the increases in the booked O&M expenses for the past 5 historical years are: (a) New Melones Dam, reservior, and powerplant became operable in 1980; (b) extraordinary maintenance expenditures occurred on some facilities; (c) double-digit inflation occurred over the past 5 years; (d) increases in the Bureau's administrative and general expenses were apportioned to the O&M program because of a reduction in their construction program; and (e) costs increased due to the increased power marketing activities of Western.

Projection of future expenses is in accordance with RA 6120.2, with cost changes reflected through the cost evaluation period, 1982–1987.

7. *Interest rates.* An interest rate of 9 percent has been used, as specified in paragraph 11(b) of RA 6120.2, to compute interest on the unpaid balance for new additions, loans, and replacements occuring in and after FY 1982. The applicable interest rate for each year prior to FY 1982 was also used to compute interest for new additions, loans, and replacements occuring during the corresponding year.

8. *Project use rate.* The Bureau has increased the project use pumping rate from the historical 2.5 mills per kWh to 4.75 mills per kWh.

Discussion of New Rates

Wholesale Firm Power Rate

Western considered three rate structures for the wholesale firm power rate: a uniform CVP rate with periodic energy charge stairsteps; a uniform CVP rate with a single energy charge stairstep; and a tip-up or tiered CVP rate structure. Under each rate structure, the proposed wholesale firm power rate consisted of a capacity component and an energy component. These components were established at levels that would, when applied to the capacity and energy sales of the CVP system, generate revenues sufficient to recover the appropraite expenses listed in RA 6120.2. The amount of the capacity component and the procedure for its determination were the same in each of the three rate structures.

1. *Capacity component.* The power costs assigned to the capacity component include capital costs for existing project facilities, capital costs for future project facilities to be in service before the end of the cost evaluation period, replacements, one-half the required assistance for irrigation and deferred expenses, and costs for capacity purchases. Each of the five categories of capacity costs is annualized, and the total annualized cost for the period 1983 through 1987 is divided by the average billing demand for the same period to determine the capacity charge of $3.75 per KW month.

2. *Energy component.* Since both the capacity and energy components of the firm power rate must be used together in the PRS to demonstrate that all cost recovery criteria are met, Western decided to allow the energy component to remain variable and be determined by the results of the revised PRS.

Each of the three energy rate structures is discussed in the following paragraphs. After considering the views of the customers expressed at the public comment forums and in various letters sent to Western concerning the CVP rate adjustment, Western decided that the uniform rate structure with periodic energy charge stairsteps is the most equitable alternative to implement for the sale of CVP power.

a. *Uniform CVP rate with periodic energy charge stairsteps.* This rate will have an initial energy charge of 8.53 mills per kWh, to be effective on May 25, 1983. The energy charge is uniformly increased on October 1, 1983, and October 1, 1984, to 13.74 mills per kWh and 18.95 mills per kWh, respectively, so that by the end of October 1985, when EA No. 1 is forecasted to be depleted, all of the annual expenses plus the historical deficit will be recovered.

An energy charge of 27.97 mills per kWh is applicable starting November 1, 1985, and on October 1, 1986, an energy charge of 31.44 mills per kWh is required to meet higher purchased power costs. Future events, such as a change in hydrologic conditions could shorten or lengthen the amount of time required to deplete EA No. 1 and thus impact the effective date of the last two stairsteps of the rate that will be required at the time withdrawals are projected to commence from EA No. 2 in 1985. Therefore, upon at least 6-months notice to the CVP customers in advance of the announced effective dates, the effective dates of either or both of the final two steps of the rate can be adjusted in 3-month increments. This adjustment can either advance or delay the effective dates of the final two steps in this rate order. For example, if future circumstances should extend the life of EA No. 1 for a sufficient period of time, the effective date of the 27.97 mills per kWh energy charge could be delayed for two 3-month increments until May 1, 1986. Such an adjustment was not objected to by any customer and was recommended by several customers.

Most of the customers preferred the periodic energy charge stairstep approach rather than having one large increase in May of 1983 and a second larger increase in 1986. Under the periodic energy charge stairstep approach, the first increase is smaller, and subsequent increases would be made each year so that the magnitude of any one increase will be smaller.

A number of the customers are also in favor of this rate structure because a uniform rate has historically been followed for the CVP and relied upon by its customers.

b. *Uniform CVP rate with a single energy charge stairstep.* This was the second rate structure considered by Western. Under this alternative, a uniform rate would be charged to all CVP firm power customers, with the initial increase in the energy charge from the existing 5.11 mills per kWh to 15.02 mills per kWh occurring on May 25, 1983. This rate would generate sufficient revenues to pay annual expenses plus the $150 million deficit by the end of October 1985, the date the energy balance in Western's EA No. 1 with PGandE is projected to be depleted. The energy charge would increase in a single step to 30.96 mills per kWh in November 1985 and remain the same thereafter, being sufficient to pay for the more expensive energy purchases from EA No. 2 and from Basin Electric Power Cooperative (Basin Electric).

This rate structure was discarded because of customer comments that the rate increase would be too drastic and would cause budgetary problems with their agencies. The customers prefer a more gradual, stairstep increase.

c. *Tip-up or tiered rate.* The third alternative energy rate structure considered was the tip-up or tiered rate which would recover the same amount of revenues over the same time period as the other two alternatives. Under

either of the two uniform rate structures previously discussed, all customers would pay a uniform energy charge regardless of their load factor. Under the tip-up rate, two tiers of energy charges would be imposed. The base tier would be applied to the first 249 kWh per kW used each month (reduced from 270 kWh per kW each month because of changes in hydrologic conditions as discussed elsewhere in this order), with the rate for this tier based on the cost of the CVP hydrosystem. The charge for energy used in this base tier would remain constant at 5.73 mills per kWh.

The energy charge for the second tier, 25.83 mills per kWh, would be applied to all energy used over 249 kWh per month for the period May 25, 1983, through October 1985, when the EA No. 1 would be depleted. An energy charge of 60.42 mills per kWh would be required starting in November 1985 for any energy used in the second tier. The monthly energy cost to the customer would depend on the customer's load factor.

Western decided not to use this rate structure for the following reasons:

1. The tip-up rate appeared to conflict with energy conservation efforts in that it encouraged customers to have high monthly peak demands in order to get more energy in the base tier.

2. It might require several customers to reconsider and revise their entire ratemaking standards and conduct new Public Utility Regulatory Policies Act (PURPA) hearings to consider load management, time-of-day rates, and interruptible rates.

3. The tip-up rate could conflict with the provisions of Contract 2948A. A load factor for the sale of surplus energy to PGandE cannot be determined because sales of surplus capacity and energy are separately accounted for under these provisions. Thus, a tiered rate structure could not be applied to PGandE sales.

4. A tip-up rate would be an administrative problem for the CVP because the billing program would need to be rewritten, causing a delay in the transmittal of the bills to the customer.

CVP Transmission Rates

The new charge for firm transmission is $0.35 per kV per month, and the charge for nonfirm transmission is 1 mill per kWh. The charges are for the transmission of power between any of the interconnections within the entire CVP transmission system, including the CVP entitlement to the Pacific Northwest-Pacific Southwest Intertie System (Intertie) in northern California. The firm transmission charge will be applied to transmission at the point of receipt into the CVP system, and the nonfirm charge will be applied to transmission at the point of delivery from CVP system.

Both firm and nonfirm transmission service will be available to non-CVP power users, as well as to CFP power users, as determined by separate agreements or contracts. Those CVP customers that are directly connected to the CVP system will have first priority to receive transmission service from the CVP to supply their supplemental requirements. Transmission service will be limited by the availability of the system and will be negotiated and contracted for on an individual basis.

Discussion of Public Comments

Rate Design

1. *Selection of wholesale commercial energy rate structure.* Virtually all of the customers commented on the selection of the energy rate structure, and Western's responses to those comments are set forth in the "Discussion of New Rates" section fo this rate order.

2. *Development of capacity rate.* Two customers commented on the computation of the capacity rate. It is determined by taking annual equivalent costs to be repaid and dividing such costs by the annual capacity sales. In the July 13, 1982, Power Rate Adjustment brochure, Western used the 5-year average maximum simultaneous demand as the capacity sales divisor. The customers pointed out that payment for capacity is on the basis of the customer's billing demand, and the divisor should be determined on this basis. Western recognized this comment and revised the computation accordingly.

3. *Costs repaid by project use rate.* Several customers feel that the Bureau's rate should be higher for use of project power for pumping CVP water for irrigation, municipal and industrial (M&I). and waterfowl conservation purposes.

In the Bureau's cost allocation for the CVP, capital costs are initially allocated to a total power function and then further suballocated to the four purposes that utilize the power facilities; irrigation, M&I, waterfowl conservation, and commercial power. In the O&M cost allocation for the CVP, O&M expenses for those purposes are simply allocated to the total power function and included in the PRS. To account for the fact that part of the D&M expenses are incurred for delivering project power to the irrigation, M&I, and waterfowl conservation functions, a project use charge is levied by the Bureau on those functions to offset the applicable project use costs that are incorporated into the commercial power function. Those Bureau revenues are also included in the PRS.

The project use rate is applied to the energy required at Federal Facilities to move CVP water to the customer's delivery points. The rate is used for internal accounting to transfer certain power O&M costs from the power purpose of the project to the water purpose for repayment. It is Bureau policy that the charge shall be sufficient to cover the costs of operation, maintenance, transmission service (wheeling), and replacement associated with delivering power to the project-use purposes. The Bureau has increased the project-use rate from 2.5 to 4.75 mills kWh to recover those applicable costs. Further increases in the project-use rate would more than recover the appropriate costs and thus subsidize commercial users.

4. *CVP transmission rates.* One customer commented in favor of the proposed wheeling rate for use of the CVP transmission system. Another customer commented that a rate based on incremental costs would be more appropriate. The latter customer also indicated that the rate as proposed is excessive, inasmuch as the 1 mill per kWh nonfirm rate and the $.35 per kW per month firm rate are both based on the same transmission system costs. In addition, the same costs are scheduled for recovery in the CVP firm power rate, thereby recovering the same transmission system costs three times.

One of the purposes of establishing a CVP firm wheeling rate is to have a uniform rate that is cost based. This concept is utilized by most utilities. While it is correct that the wholesale firm power rate is based upon the costs of the transmission system, as well as other costs such as generation and purchased power, these costs are not being accounted for three times in the PRS used to develop the rates. Since there are not existing contracts for wheeling over the CVP transmission system, no revenue from transmission is included in the PRS and the firm power rate must recover the costs of the transmission system. Otherwise those costs would not be recovered. However, even if all of the entities which have expressed an interest in CVP transmission enter into contracts based upon their maximum desired amount, the transmission revenue derived from those contracts would not be sufficient to impact the current firm power rate.

Disputed Rates and Issues

1. *The FERC order disapproving the existing CVP rate schedule.* The FERC's

order of May 4, 1982, rejected Western's existing rates submitted October 4, 1979. The FERC rejected the rates on the basis of three deficiencies and noted three other issues.

The 1981 PRS incorporates two items that the FERC noted in their May 4, 1982, order as being deficient in developing the existing rates: interest computed on one-half of the applicable interest rate on the replacements and additions during the year the new investments occur, and the payment of costs for transmission service provided by PGandE, even though a portion of those costs is subject to refund. The transmission costs included in the PRS for developing the new rates are those filed with the FERC by PGandE on August 17, 1982.

The 1981 PRS used for the new rate does not include the FERC's remaining suggestions regarding the exclusion of revenues from the PRS that are currently shown as accounts receivable in the financial statements, the assumption of 1976–1977 drought level for project dependable capacity (PDC, which is defined at 2.b. of this section), departure from payment of the highest interest bearing investment first, and the inclusion of interest during construction on facilities prior to 1968. However, Western prepared studies in July 1982, based on a 1981 PRS, incorporating these items. These studies showed that the rates would increase significantly. The results of the studies were sent out to the customers, and some of the customers responded with the following comments.

a. *Revenues in escrow and dependable capacity.* The FERC suggested that revenues presently being held in an escrow account by SMUD and revenues involved in the PDC dispute with PGandE should not be included in the CVP repayment study because they are not actually being collected.

Three customers stated that the PRS used to set the revenue requirements should definitely reflect that Western's position will prevail in the PDC dispute with PGandE and in the lawsuit with SMUD. The customers point out that to do otherwise would weaken Western's negotiating position and create doubts concerning the merits of Western's arguments. Also, if the PRS assumed the disputes were settled in favor of PGandE or SMUD, but the disputes were in fact settled in favor of Western, the CVP customers would have been required to make up for lost revenues that Western would ultimately receive. In such an event, an overcollection would have occurred; however, any direct refunds would be subject to congressional appropriatons.

If Western's position does not prevail, the loss of revenues will be recovered in the next rate adjustment.

b. *Payment of highest interest bearing investment first.* The FERC questioned Western's practice of repaying high interest bearing investments before repaying the lower interest bearing investments. Western agrees with the position stated in the following reply of a customer. "Western's policy is consistent with the U.S. Department of Energy Order RA 6120.2 (paragraph 8.c.3) which requires that, to the extent possible, while still complying with the repayment periods established for each increment of investment and unless otherwise indicated by legislation, amortization of the investment will be accompanied by application to the highest interest bearing investment first. Furthermore, we feel that Western's policy is not only consistent with RA 6120.2, but is in furtherance of its statutory mandate to market Federal power *at the lowest possible cost* to consumers consistent with sound business principles (16 USCA section 825s). It should be emphasized that increased CVP revenues generated by compounding interest would come at the expense of numerous Federal agencies, resulting in increased tax-supported Federal budgets."

c. *Collection of interest during construction incurred from 1944 to 1968.* The FERC objected to the omission of interest during construction (IDC) for the period 1944 to 1968 in the costs to be repaid in the PRS. The essence of a customer's comment on this subject is that IDC was excluded in accordance with policy established in a memorandum written by the Commissioner of the Bureau of Reclamation, dated June 17, 1955, and that the Bureau had the authority to establish this policy. By letter of September 24, 1982, the Bureau has reaffirmed its decision that IDC should be excluded on investments during that period as stated in the June 17, 1955, memorandum. Since the IDC computation is a matter that lies within the jurisdiction of the Bureau and the Bureau has not changed its 1955 decision, Western has not included IDC in the PRS used to derive the proposed rates for the period in question.

2. *Items under negotiation with PGandE.* The following items received comments from various customers and interested parties regarding the disputes that currently exist between Western and PGandE.

a. *Wheeling rates filed by PGandE pending before the FERC.* A letter submitted on the July 13, 1982, rate adjustment brochure included the following comment. "In rejecting the 1979 CVP power rate, the FERC said it was appropriate to use the wheeling rate under which Western was currently paying (1.7 mills per kWh), notwithstanding that it was subject to refund. Western's current PRS uses this recommendation. PGandE has already filed new Contract 2948A wheeling charges in docket No. ER82–729. In accordance with that filing, it is suggested that Western use the following wheeling rates in its PRS: for transmission, $1.476 per kW per month and for distribution, $2.692 per kW per month." This suggestion was acted upon, and the final PRS includes the $1.476 per kW per month rate for transmission and the $2.692 per kW per month rate for distribution after FY 1983.

PGandE has since filed revised wheeling rates with the FERC. These revised wheeling rates were not received by Western until after the final public information/comment forum on October 26, 1982, and therefore they were not included in the proposed rates. The revised wheeling rates are not significantly different from those in the original filing.

Two customers noted that since they were physically located closer to the Tracy load center, their PGandE wheeling charge should be lower. However, PGandE bills Western for transmission based upon the backbone (i.e., postage stamp) concept, and the distance from the load center does not impact the transmission cost.

b. *Project dependable capacity.* There are varying opinions by customers and PGandE on the amount of PDC which should be used.

As defined in Contract 2948A, PDC is the lowest electric capacity for use within PGandE's service area which can be available with energy support from project plants after deducting the capacity required for project load during PGandE's peakload period.

PGandE commented that sound ratemaking principles require Western to use 554 MW in the PRS until the dispute over PDC is resolved, and that Contract 2948A expressly requires that PDC shall remain at 554 MW until otherwise agreed. Other customers indicate the 845–894 MW range used in the PRS is too low. A consulting firm employed by a group of customers developed studies showing the PDC should increase from 872 MW, to 1,035 MW in 1983, and from 899 MW, to 1,140 MW in 1990. A list of changes for the

determination of PDC at a more representative level was submitted in their comments. Another customer reasoned that to derate the CVP's 1,750 MW hydroelectric system by two-thirds or one-half was ludicrous. This customer suggested that a probabilistic approach should be used for computing PDC, a method similar to that use by Western in other river basins.

The criteria under which PDC was determined were established in the 1960's. Since then, northern California has had a very severe, but short drought period. Currently, Western is undertaking studies to determine what an appropriate level of PDC should have been in the 1976–1977 drought and should be thereafter. Negotiations with PGandE on this subject have involved mostly and exchange of recently developed hydrology data.

Therefore, for the purpose of establishing the rates, the criteria that existed prior to the 1976–1977 drought were used to determine the PDC.

c. *Nondependable capacity sales.* Three customers have commented that a considerable amount of nondependable capacity is being sold to PGandE. The customers believe that the PGandE should be paying a higher price for this capacity and that these nondependable capacity sales should be included in the PRS.

The nondependable capacity the customers are referring to is the capacity which is the difference between 554 MW (PGandE's interpretation of PDC) and a capacity level declared available from the CVP on a monthly basis. PGandE is purchasing this "nondependable" capacity base upon the daily needs of its system.

If PGandE had agreed to Western's determination of the PDC level, nondependable capacity sales would not have occurred. These sales only occurred because of the PDC dispute. Therefore, it is not appropriate to include the nondependable sales because Western's position regarding the PDC level was used in the PRS.

d. *Underestimated capacity and energy account service charges.* PGandE asserts that the $2,000 per month service charges are insufficient; that 14 percent and 15 percent charges, respectively, for the Capacity Account and EA No. 2 would be more appropriate.

It is Western's position that the percentages listed by PGandE result in exorbitant charges that are not cost based. The only costs that may be appropriate are accounting costs of approximately $2,000 per month.

e. *Surplus energy sales.* Conflicting comments have been received on the treatment in the PRS of surplus Northwest energy sales during the 1982 summer season. A dispute has arisen over whether this energy was sold to various NCPA cities, or whether it was sold to PGandE and placed in EA No. 2. PGandE concurs with Western to exclude split-savings sales to NCPA from the PRS until this issue is settled. PGandE believes Western does not have the authority to sell energy to customers above the customers' firm contract rates of delivery.

NCPA has expressed the opinion that Western has taken a firm legal position that Western has the lawful authority to make such sales, and the revenues from such sales should be included in the PRS even though they are being held in escrow. NCPA further states that the PRS reflects Western's position for other lawsuits and disputes and it should do so in this dispute also.

The rate adjustment PRS shows the surplus energy sales in 1982 as sales to the EA No. 2 at pass-through rates. In the PRS, the surplus sales to the EA No. 2 increase the credit due the CVP when energy is repurchased. Thus, the impact on the new rates of increasing the repurchase credit from EA No. 2 is approximately the same as including additional revenue from the split-saving sales, should those sales be allowed.

F. *Capacity Account unbanking rate.* The preliminary PRS prepared for the July 13, 1982, rate brochure included Capacity Account withdrawals at $2.00 per kW per month for 1982, excluding costs of Diablo Canyon Nuclear Powerplant. The 1982 rate, including Diablo Canyon costs, would have been $3.72 per kW per month, and this amount was escalated at 7 percent annually through the cost evaluation period for Capacity Account withdrawals in 1983 and thereafter.

A letter from PGandE commenting on the rate increase indicated PGandE's thermal production costs had been updated for 1982 to $2.85 per kW per month excluding Diablo Canyon. Western used this rate for the unbanking rate for 1982 and indexed this cost by 7 percent for the 1983 unbanking rate. The latest projection indicated that Diablo Canyon would be placed in service in the fall of 1983, and thus Western included the costs of Diablo Canyon in the capacity costs commencing in 1984.

3. *Irrigation district rates.* The irrigators' argument is a long-standing issue, one that has been brought up in previous rate adjustments and during the power marketing proceedings for the CVP during 1981 and 1982. Responses to the irrigators' arguments can be found in Rate Order No. WAPA-2, dated October 2, 1979 (44 FR 57962, October 9 1979); the Final Power Marketing Plan (46 FR 51224, October 6, 1981); and the FERC orders dated May 4, 1982, and July 2, 1982, docket No. ER80-5011. The main thrust of the irrigators' comments is that the districts should receive a project rate because they use CVP project water. A special project-use power rate is charged for the pumping of CVP project water where the United States owns and operates main conveyance pumping facilities or where the water service contract specifically provides for distribution system pumping at project-use rates. Neither of these conditions exist for the subject 11 irrigation districts to qualify as project-use customers. It has been Western's consistent position (and the Bureau's position) that the districts are not project-use customers but, rather, are preference customers and should pay the same rates as other preference customers.

4. *County of origin rates.* Trinity, Calaveras, and Tuolumne Counties have requested special rates claiming that special rates would be consistent with the intent of congressional acts which established the county of origin entitlements. Trinity County has also requested a rate to support the wheeling costs within Trinity County.

The Flood Control Act of 1962 authorized construction of the New Melones Projects and specifically granted first preference to preference customers in Calaveras and Tuolumne Counties in a quantity not to exceed 25 percent of such additional CVP energy resulting from the construction of the New Melones power facility and its integration into the CVP system. The Act of August 12, 1955, authorized construction of the Trinity River Division, and granted a similar first preference of 25 percent of additional CVP energy from the Trinity plants as integrated into the CVP power system to preference customers in Trinity County.

The acts entitled the preference customers in those counties to a first preference in the purchase of CVP energy under certain conditions; the authorizing legislation does not speak to rates. Since the power service provided to these customers is the same as that provided to other customers who received CVP power, the rates charged to the county of origin customers will be the same.

5. *Use of 400 MW of Intertie capacity.* Several comments were received on the use of the Intertie. The United States is party to Contract No. 14–06–200–2947A (Contract 2947A) dated July 31, 1967, with three contractors, PG and E,

Southern California Edison Company, and San Diego Gas and Electric Company for use by the CVP of 400 MW of Intertie capacity at a charge of $3.35 per kW per year. In 1968, the CVP began purchasing 400 MW of capacity and the associated energy under a contract with BPA, using the Intertie to transport the energy from the Northwest to Tracy Switchyard.

The PRS used the new rate adjustment includes use of the entire 400 MW of Intertie capacity through December 31, 1982, after which a portion of the Intertie capacity is to be used to import purchases from BPA's assigned share of the Hanford Project, presently under contract to CVP through April 1, 1983. Purchases from 1987–1990 from Basin Electric also require the use of a portion of the 400 MW of Intertie capacity. In years when the specific use of the Intertie capacity is not identified, Western has assumed that the costs associated with the Intertie would be directly offset by revenues accruing from assignment of the Intertie capacity to others.

6. *Inclusion of New Melones.* A customer commented that it is improper to include New Melones in the PRS until the legal restrictions against its full utilization are removed.

The PRS includes New Melones investment and operating costs as of fiscal year 1981. Project generation is also included, based on Bureau hydrology studies that project a full reservoir level by 1987.

There is a dispute between the State of California and the United States on the operation level of New Melones Reservoir. Until the dispute is resolved or settled, Western will treat New Melones in the PRS as though it will be filled and operated as authorized by Congress.

When the Bureau declared New Melones to be operational, Western was obligated to put New Melones power costs into plant inservice status. There is no statute or regulation that allows Western to defer recovery of these costs.

Payment of Deficit

A number of customers commented on the repayment criteria for the $150 million deficit which was incurred from 1974 to 1981. The PRS shows recovery of the deficit by the end of October 1985, when EA No. 1 is forecasted to be depleted.

1. *Opposing payment of deficit.* Those customers opposed to paying the deficit do so for varying reasons. The position of one customer group is that it is inappropriate and indeed unlawful for Western to charge all customers for that portion of the deficit that was incurred as a result of sales of Northwest power and energy to PGandE at less than cost and without charging PGandE for the full cost of transmission from the Northwest. Two new CVP customers who received recent allocations from the 102 MW feel that as a matter of equity they should be exempt from paying for the deficit. The three county or origin customers had the same comment. The new customers state that they were not receiving the benefits of CVP power at the time the deficit was incurred.

Western's response to these comments is that the rate formula for Northwest power sales to PGandE was set in 1976 by the "Frizzell Decision." The "Frizzell Decision" is a December 14, 1976, Department of the Interior document entitled "Final Position on an Adjustment in Rates to Pacific Gas and Electric Company for Northwest Capacity and Energy." This decision established the payment responsibilities of PGandE for Northwest power through April 1, 1981. The legality of the "Frizzell Decision" has been questioned in the past, and has been investigated by the Comptroller General of the United States. In his Decision B–125042 (December 22, 1978), the Comptroller General specifically declined to rule on the separate issue regarding recovery of past deficits. However, his construction of the requirements of section 9(c) of the Reclamation Act of 1939, 43 U.S.C. 485h(c), clearly indicates that it is not necessary that each and every sale of Federal power recover costs on a contract-by-contract, customer-by-customer basis. The Decision holds that section 9(c) requires only that sales be made at such rates as will recover costs on a project-wide or system-wide basis.

Section 9(c) of the Reclamation Act of 1939 *supra,* requires that all costs associated with the power marketing activities of the Government be restored from the rates. If costs are not paid in a given year, they must be deferred for payment when revenues become sufficient to do so. The DOE Order RA 6120.2 recognizes this and provides that deficiencies in any year are to be capitalized and repaid with imputed interest in later years even before funds are applied to the reduction of the debt associated with the original investment.

As for the new customers, Western recognizes some merit in their argument that, as a matter of equity, the costs of the deficit incurred prior to their becoming CVP customers should not be included in their rates. However, even though they were not customers when the existing CVP deficit occurred, the new customers benefit from the fact that the older customers have repaid other CVP costs, such as $210 million of CVP investment. Furthermore, the deficit is a current CVP cost which must be repaid in a timely manner. Western sees little equity in discriminating among old and new customers in the repayment of current costs.

2. *Long-term payment.* Three customers suggested repaying the deficit over 30 years, 50 years, or as long a period of time as possible. This of course would lessen the impact of repaying the deficit, although it would spread out the payments past the termination of support energy purchased from the inexpensive EA No. 1.

The PRS is prepared in accordance with DOE Order RA 6120.2, which states that if deficits occur, rate increases are required. It does not give any guidance as to how long a period of time is allowed to repay such deficits. However, paragraph 8(c)(3) of RA 6120.2 states, in part, that after payment of various expenses, "Remaining revenues are available for amortization and shall be applied first to unpaid or deferred annual expense, if any, and then to the Federal investment." Western has determined that it is good business practice to recoup the deficits over as short a period of time as possible, particularly in this case, when the deficit will be repaid by the end of October 1985 and subsequent rate increases will nonetheless be required.

3. *Repayment of highest interest bearing deficit first.* The preliminary PRS prepared for the July 13, 1982, rate brochure identified two groups of deficits, deficit operating costs and deficit interest.

When revenue became available to repay them, the deficit operating costs were repaid first, beginning with repayment of the deficit bearing 9 percent interest and ending with repayment of the deficit bearing 5.625 percent interest. Then the deficit interest was repaid, following the same procedure.

A customer representative commented that repayment of these deficits was not in compliance with the RA 6120.2 requirement of repayment of the highest interest-bearing investment first. Western concurred, and consequently, the deficit interest and the deficit operating expense groups were combined in the final PRS for this rate adjustment. Combining the two groups resulted in repayment of the highest interest-bearing deficit of both groups before repayment of the costs of the next highest interest-bearing deficit.

Purchased Power

1. *Projected purchases to be included in the PRS.* A customer commented that, "* * * changes in the predicted availability of surplus power from the Pacific Northwest have not been reflected, nor have the new banking arrangements * * * been included in the repayment estimates * * *."

The PRS includes projected purchases of power from those entities having a signed contract for delivery of power to Western. During the 1982 summer season, surplus power was available from the Northwest which is included in the PRS, but there is no contract for future purchases of surplus power beyond April 1983. New banking arrangements with PGandE were in the discussion state at the time the rates were finalized. The bank account proposals would not significantly change the revenue requirements over the cost evaluation period.

2. *Estimated purchased power costs are too high.* Several customers feel Western's projected purchase costs from Basin Electric and EA No. 2 are too high.

The best available cost estimates were used in the PRS. The costs for purchases from Basin Electric were determined by Basin Electric in accordance with its contract with Western and were adjusted for transmission costs to move the power from the Dakotas to northern California.

The EA No. 2 energy costs are based on a formula which uses PGandE's thermal production costs. For the PRS, PGandE's 1981 cost of production, estimated by PGandE, was used and escalated at 7 percent each year through the end of the cost evaluation period. Costs associated with PGandE's thermal production units that were scheduled to be placed in service during the cost evaluation period were also included.

3. *Transmission losses from Basin Electric.* In reviewing the costs of obtaining power from Basin Electric's Antelope Valley Station, a customer found that electrical line losses incurred in transmitting the power to California were calculated incorrectly.

A recomputation was made, increasing the power at Tracy by 30 GWh per year. The new figures are included in the final PRS used for the proposed rate adjustment.

Diclosure of Cost Allocation

Two customers questioned the cost allocation procedures. The cost allocation for the CVP is prepared by the Bureau and has been available for review during this proceeding. The procedures used for the allocation of the investment for this rate adjustment are the same as procedures used for the 1979 rate adjustment which are on file with the FERC.

One of the customers asked why there has been an increase of $53 million in the investment to be repaid by commercial power since the last rate increase. This increase is primarily due to future transmission facilities to be constructed by Western during the cost-evaluation period.

Operating Cost Increases

A customer found that costs estimated for FY 1986 have increased 2.6 times since the study prepared for the 1979 rate increase. The customer was interested in an explanation of the increase, particularly since the CVP is an all-hydro system.

The reasons for the increased O&M costs are addressed in the section of this rate order entitled "Major Changes Since the Previous Rate Order Was Submitted."

Power Factor Adjustment

One customer commented on the implementation of a power factor adjustment that Western discussed in conjunction with the proposed rate adjustment at the first public comment forum. The power factor adjustment is still under consideration, but has not been included in this rate adjustment.

Other Considerations

Environmental evaluation

In compliance with the National Environmental Policy Act of 1969 (NEPA) and DOE regulations published in the **Federal Register** on February 23, 1982 (47 FR 7976), Western conducted an environmental evaluation of this rate increase.

Section D of the above guidelines states that the level of scrutiny and documentation under NEPA depends upon the size of the rate increase as it relates to the rate of inflation since the last rate increase.

Since the new rate increase exceeds the rate of inflation since the last rate increase, Western prepared an environmental assessment (EA)—wherein it was determined that there are no significant impacts requiring further NEPA documentation. Therefore, a finding of No Significant Impact has been prepared and issued.

Public Utility Regulatory Policies Act

The purposes of PURPA are to encourage: (1) Conservation of energy supplied by electric utilities; (2) the optimization of the efficiency of use of facilities and resources by electric utilities; and (3) equitable rates to electric consumers.

Title I (sections 111, 113, and 114) of the act is applicable to the CVP since the CVP's total annual sales of electric energy for purposes other then resale exceeds 500 million kilowatthours.

The six standards of section 111 were considered by Western during the rate adjustment proceedings and Western's position on each standard was stated in the brochure entitled "Central Valley Project Proposed Power Rate Adjustment, October 26, 1982."

The five standards of section 113 have been addressed on a Western-wide basis. Western's positions on section 113 standards were published at 47 FR 34183 (August 6, 1982).

Western's position with regard to section 114 (Lifeline Rates) was published at 47 FR 13893 (April 1, 1982).

Executive Order 12291

The purpose of Executive Order 12291, dated February 17, 1981, is "* * * to reduce the burdens of existing and future regulations, increase agency accountability for regulatory actions, provide for presidential oversight of the regulatory process, minimize duplication and conflict of regulations, and insure well-reasoned regulations, * * *."

The DOE has determined that this is a major rule pursuant to the criteria of section 1(b) of the order. However, Western has received an exemption from sections 3, 4, and 7 of Executive Order 12291 and therefore will not prepare a regulatory impact statement.

Availability of Information

Information regarding this rate adjustment, including studies, comments, transcripts, and other supporting material, is available for public review in the Sacramento Area Office, Western Area Power Administration, 2800 Cottage Way, Sacramento, California 95825; in the Office of the Administrator, Western Area Power Administration, 1627 Cole Boulevard, Golden, Colorado 80401; and in the Office of the Director of Power Marketing Coordination, Department of Energy, 12th and Pennsylvania Avenue, NW., Washington, DC 20461.

Submission to the FERC

The rates herein confirmed, approved, and placed in effect on an interim basis, together with supporting documents, will be submitted to the FERC for confirmation and approval on a final basis.

Order

In view of the foregoing and pursuant to the authority delegated to me by the Secretary of Energy; I hereby confirm,

approve, and place in effect on an interim basis, Rate Schedules CV-F5, CV-T1, and CV-T2, effective May 25, 1983, applicable the first full billing period thereafter. These rates shall remain in effect pending the FERC confirmation and approval of them or substitute rates on a final basis, or until they are superseded.

Issued in Washington, DC, April 19, 1983.

Joseph J. Tribble,

Assistant Secretary, Conservation and Renewable Energy.

Department of Energy Western Area Power Administration, Central Valley Project, California

[Schedule CV-F5 (Supersedes Schedules CV-F4 and CV-P3)]

Schedule of Rates for Wholesale Firm Power Service

Effective: May 25, 1983.

Available: In the area served by the Central Valley Project (CVP).

Applicable: To wholesale firm power customers for general power service supplied through one meter at one point of delivery, unless otherwise provided by contract.

Character and Conditions of Service: Alternating current, sixty hertz, three phase, delivered and metered at the voltages and points established by contract.

Monthly Rate:

Demand Charge: $3.75 per kilowatt of billing demand.

Energy Charge: For all energy use up to, but not in excess of, the energy obligation under the power sales contract, the rate will be as follows:

	Effective date
8.53 mills per kilowatthour	May 25, 1983.
13.74 mills per kilowatthour	Oct. 1, 1983.
18.95 mills per kilowatthour	Do.
27.97 mills per kilowatthour	Nov. 1, 1983.
31.44 mills per kilowatthour	Oct. 1, 1986.

Upon at least 6-months notice to the CVP customers in advance of the announced effective dates, the effective dates of either or both of the final two steps can be adjusted in 3-month increments.

Billing Demand: The billing demand will be the highest 30-minute integrated demand established during the month up to, but not in excess of, the delivery obligation under the power sales contract.

Energy Obligation: The maximum kilowatthour obligation of the United States during the month as established under the power sales contract.

Minimum Bill: None.

Billing for Unauthorized Overruns: For each billing period in which there is a contract violation involving an unauthorized overrun of the contractual obligation for capacity and/or energy, such overrun shall be billed at ten (10) times the above rate.

Adjustments:

For character and conditions of service: Customers who receive deliveries at transmission voltage may, in some instances, be eligible to receive a 5-percent discount on capacity and energy charges when facilities are provided by the customer which result in a sufficient savings to the United States to justify the discount. The determination of eligibility for receipt of the voltage discount shall be exclusively vested in the United States.

For transformer losses: If delivery is made at transmission voltage but metered on the low-voltage side of the substation, the meter readings will be increased 2 percent to compensate for transformer losses, unless otherwise provided for by contract.

For power factor: None. The customer will normally be required to maintain a power factor at the point of delivery of between 95-percent lagging and 95-percent leading.

Department of Energy Western Area Power Administration, Central Valley Project, California

[Schedule CV-T1]

Schedule of Rates for Firm Transmission Service

Effective: May 25, 1983.

Available: In the area served by the Central Valley Project.

Applicable: To firm transmission service customers where power and energy are received into the Central Valley Project (CVP) system at points of interconnection with other systems and transmitted and delivered, less losses, to points of delivery from the CVP system specified in the service contract.

Character and Conditions of Service: Transmission service for three-phase alternating current at sixty hertz, delivered and metered at the voltages and points specified in the service contract.

Monthly Rate: Transmission Service Charge: $0.35 per kilowatt received into the CVP system.

Adjustments:

For reactive power: None. There shall be no entitlement to transfer of reactive kilovolt-amperes at delivery points, except when such transfers may be mutually agreed upon by Contractor and Contracting Officer or their authorized representatives.

For losses: Power and energy losses incurred in connection with the transmission and delivery of power and energy under this rate schedule shall be supplied by the customer in accordance with the service contract.

Department of Energy Western Area Power Administration, Central Valley Project, California

[Schedule CV-T2]

Schedule of Rates for Firm Transmission Service

Effective: May 25, 1983.

Available: In the area served by the Central Valley Project.

Applicable: To firm transmission service customers where power and energy are received into the Central Valley Project (CVP) system at points of interconnection with other systems and transmitted and delivered, subject to the availability of transmission capacity, less losses, to points of delivery from the CVP system specified in the service contract.

Character and Conditions of Service: Transmission service for three-phase alternating current at sixty hertz, delivered and metered at the voltages and points specified in the service contract.

Monthly Rate: Transmission Service Charge: 1 mill per kilowatthour delivered from the CVP system.

Adjustments:

For reactive power: None. There shall be no entitlement to transfer of reactive kilovolt-amperes at delivery points, except when such transfers may be mutually agreed upon by Contractor and Contracting Officer or their authorized representatives.

For losses: Power and energy losses incurred in connection with the transmission and delivery of power and energy under this rate schedule shall be supplied by the customer in accordance with the service contract.

BILLING CODE 1505-01-M

[WH-2-FRL 2354-5]

Ground Water System of the Clinton Street Ballpark Aquifer; Request for EPA Determination Regarding Aquifer

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: A petition has been submitted by the Purity of Water ad hoc Committee, Vestal, New York pursuant to Section 1424(e) of the Safe Drinking Water Act, Pub. L. 93-523, requesting the Administrator of the Environmental Protection Agency to make a determination that the Clinton Street Ballpark Aquifer is the sole or principal drinking water source for approximately 115,000 residents of Broome County, which, if contaminate, would create a significant hazard to public health.

DATES: Comments, data, and references in response to this Notice should be submitted in writing to Jacqueline E. Schafer at the address given below

within 60 days of publication of this notice.

In addition to considering public comments sent to EPA, the Agency will hold a public hearing on Thursday, May 26, 1983 (1–3 pm and 7–9 pm) in Vestal, N.Y., at the address given below. At the completion of the public hearing, the public comment period will be open until June 25, 1983.

ADDRESSES: Comments, data and references in response to this Notice should be submitted in writing to Jacqueline E. Schafer, Regional Administrator, Region II, Environmental Protection Agency, 26 Federal Plaza, Room 900, New York, N.Y. 10278, Attn: Water Supply Branch.

Information concerning the Clinton Street Ballpark Aquifer, including the original petition and attachments, will be available for inspection at the above address in the EPA library and at the Vestal Public Library, Vestal, New York.

The public hearing will be held at the Vestal Public Library, 320 Vestal Parkway East, Vestal, New York 13850.

FOR FURTHER INFORMATION CONTACT: Damian J. Duda (212) 264–1800, Region II Environmental Protection Agency, 26 Federal Plaza, Room 824 New York, N.Y. 10278.

SUPPLEMENTARY INFORMATION: The petition is reprinted in full below:

Environmental Protection Agency

Region II: Groundwater system of the Clinton Street Ballpark Aquifer Extension servicing the towns of Vestal, Johnson City and the village of Endicott in Broome County, New York State.

Request for EPA Determination Regarding Aquifers.

A petition has been submitted by the Purity of Water ad hoc Committee pursuant to Section 1424(e) of the Safe Drinking Water Act. Pub. L. 93–523, requesting the Administrator of the Environmental Protection Agency to make a determination that the aquifer underlying the Towns of Vestal, Johnson City and the Village of Endicott in the County of Broome, State of New York is the sole or principal drinking water source for the Broome County area which, if contaminated, would create a significant hazard to public health.

This petition is reprinted in full below:

Before the United States Environmental Protection Agency

Anne Gorsuch, Administrator

Petition

1. The Purity of Water ad hoc Committee is composed of a group of citizens located in Broome County (New York State); an area serviced by the Clinton Street Ballpark Aquifer Extension. The Broome County area serviced by the Clinton Street Ballpark Aquifer Extension has a population of 115,000 people and is totally dependent on the permeable sand and gravel aquifer system, that is the subject of this petition, as the sole source of drinking water for the resident population.

Committee members may be contacted as follows:

Joseph G. Kester, 308 W. Benita Blvd., Vestal, New York, 13850 PH. 607–748–3749;

Paul C. Bollen, 1491 Union Center Highway, Endicott, New York, 13760 PH. 607–754–2875;

Joseph Gierlach, 420 W. Benita Blvd., Vestal, New York, 13850 PH. 607–748–6334.

2. A petition to the Administrator and Region II Administrator of the United States Environmental Protection Agency requiring that the permeable sand and gravel aquifer system underlying the Towns of Vestal and Johnson City and the Village of Endicott, in Broome County, New York State be designated as a sole source aquifer as provided under Section 1424(e) of the Safe Drinking Water Act (Pub. L. 93–523) which provides as follows:

(e) If the Administrator determines, on his own initiative or upon petition, that an area has an aquifer which is the sole or principal drinking water source for the area and which, if contaminated, would create a significant hazard to public health, he shall publish notice of that determination in the **Federal Register**. After the publication of any such notice, no commitment for Federal financial assistance (through a grant, contract, loan guarantee, or otherwise) may be entered into for any project which the Administrator determines may contaminate such aquifer through a recharge zone so as to create a significant hazard to public health, but a commitment for Federal financial assistance may, if authorized under another provision of law, be entered into to plan or design the project to assure that it will not so contaminate the aquifer.

3. A Presidential Water Policy Message to the Congress of the United States on June 6, 1979 includes firm guidance on the need for high quality water as follows: "Everywhere, water quality is fundamental to environmental quality. Clean drinking water, recreation, wildlife and beautiful natural areas depend on protection of our water resources."

Protection of the permeable sand and gravel Aquifer system under Section 1424(e) of the Safe Drinking Water Act would measurably preserve the environment in the communities of Vestal, Johnson City and Endicott that are totally dependent on this aquifer as a source of drinking water, thereby affirmatively responding to the President's Water Policy.

4. The Vestal, Johnson City and Endicott area proposed for sole source aquifer designation is comprised of 10 square miles of urban land in the Susquehanna River Valley (see map, attachment I). A 1977 study by Allan D. Randall (U.S. Geological Survey) concludes that the principal source of aquifer recharge is induced from the Susquehanna River. There are 43 wells (31 in the Endicott-Endwell Public Water System; 7 in the Village of Johnson City Water System; and 5 in the Vestal Water System which provide the only available drinking water to 115,000 residents. Since the wells lie in close proximity to the Susquehanna River which is the principal source (90 to 95%) of recharge captured by these wells, there is a high susceptibility to contamination of the aquifer through its recharge from the Susquehanna River.

5. As previously described, the only source of drinking water available to the Vestal, Johnson City and Endicott-Endwell residents is from the area's 43 deep wells. Should these wells become contaminated, the next most available source of drinking water is bottled water available through supermarkets, health food stores and spring water distributors, etc. The costs for bottled water (such as Chemung Spring Water) is prohibitively high at 2250 times the cost for Vestal Water System drinking water.

6. Unfortunately, unless protection is provided, the potential for drinking water contamination exists. During the past few years, two nearby well systems (within a five mile radius in the Vestal Water District) which tap into the permeable sand and gravel aquifer previously described as the Clinton Street Ballpark Aquifer Extension have been forced to close due to high levels of toxic chemical contamination. These wells were found by the New York State Dept. of Environmental Conservation (NYSDEC) and the Broome County Health Department to contain high levels of the highly toxic and potentially carcinogenic chemicals, namely, trichloroethylene, methyl chloroform, percloroethylene, and benzene. The two wells are in adjacent water districts in the Town of Vestal: the one most reently shut down within the last year is in Water District 4; the other well in Water District I has been labeled by state health authorities as the most

contaminated well in the state and has been shut down for over two years. Attempts to purge the wells by pumping to waste have not been successful and the wells remain closed.

7. Federally sponsored projects relating to the Binghamton-Johnson City Joint Sewage Treatment Plant (the most recent being project C–36–961–04) are proceeding in the area which have a potential for impact upon the permeable sand and gravel Clinton Street Ballpark Aquifer Extension. The previously mentioned sewage treatment plant, being a secondary waste treatment facility, accepts toxic chemical wastes (including synthetic organic chemicals and heavy metals) from over 200 local industries, commercial operations, and institutions. Not having the capability of neutralizing or otherwise detoxifying such inputs, contaminated affluent is being discharged into the river in violation of its SPDES permit (reference attachement 2, letter from EPA Mr. Jeffrey Zellikson, Acting Chief, Environmental Impacts Branch to Mr. Joseph Kester, dated 15 Dec. 1980). Since up to 95% of recharge to the aquifer comes from the Susquehanna River tainted by the sewage plant discharges, the three municipalities just downstream of the sewage treatment plant are confronted with a health threat of staggering proportions. In addition, the collection systems of the Binghamton-Johnson City Joint Sewage Treatment Plant and that of the Endicott Sewage Treatment Plant (both of which overlie the aquifer) have extensive problems with leaking joints, corroded pipes and storm related bypassing of wastewater flow directly into the Susquehanna River. The sewer lines in these systems should be constructed to prevent pollution to the aquifer. A preventive action plan should also be put into effect immediately to prevent any chemical discharges from being allowed into the piping system since circumstantial evidence points to these type discharges as the causative factors in the leaking pipes and joints that were found to exist in the past. Sole source designation will surely add a factor of safety to continued federally sponsored wastewater treatment works in the Broome County area.

8. Existing land use and water quality laws do not adequately protect the Permeable Sand and Gravel Aquifer or its recharge areas in the Vestal, Johnson City and Endicott-Endwell areas.

9. The highly industrialized environment of the Broome County area (Vestal, Johnson City, and Endicott-Endwell) provides for the potential for numerous sources of groundwater pollution including old sewer systems, chemical spills, landfill leachate and leachate from old industrial dumps, etc.

10. We therefore conclude: The Groundwater System of the Permeable Sand and Gravel, Clinton Street Ballpark Aquifer Extension is a sole source of drinking water for public well supplies in the area. Furthermore, contamination of this aquifer would create significant hazard to public health.

We conclude therefore that we must respectfully request that the Administrator and Region II Administrator of the USEPA determine that the Permeable Sand and Gravel, Clinton Street Ballpark Aquifer Extension be designated as the "sole or principal drinking water source for the area and which, if contaminated would create a significant hazard to public health," and that you publish notice of this determination in the **Federal Register** as required by Section 1424(e) of the Safe Drinking Water Act of 1974.

Respectfully submitted.

Joseph G. Kester,

Petition Chairman, Purity of Water ad hoc Committee.

June 21, 1981

Exhibits:

1. Clinton Street Ballpark Aquifer Extension (map).
2. Letter from Acting Chief Environmental Impacts Branch (Mr. Jeffry Zellikson to Mr Joseph Kester, dated Dec. 15, 1980.

EPA intends to decide whether to make the requested determination at the earliest time consistent with a complete review of the relevant data and information and with a full opportunity for public participation. In this regard, the Agency is developing a full factual record and is soliciting comments, data, and references to additional sources of information relevant to the determination required by Section 1424(e). In particular, information is sought concerning the hydrogeology of the Clinton Street Ballpark Aquifer, the boundaries of the aquifer and its recharge areas. In addition, EPA requests information concerning the area or areas dependent upon the aquifer for drinking water, the significance of current or anticipated projects receiving Federal financial assistance that may result in contamination of the aquifer, the prospects that such contamination will occur as a result of current activities or anticipated events and any other relevant information.

Comments, data, and references in response to this Notice should be submitted in writing to Jacqueline E. Schafer, Regional Administrator, Region II, Environmental Protection Agency, 26 Federal Plaza, Room 900, New York, N.Y. 10278, Attention: Water Supply Branch; within 60 days of this Notice. Information concerning the Clinton Street Ballpark Aquifer, including the original petition and attachments, will be available for inspection at the above address in the EPA library and at the Vestal Public Library, Vestal, New York.

In addition to considering public comments sent to EPA, the Agency will hold a public hearing on Thursday, May 26, 1983 (1–3pm and 7–9pm) at the Vestal Public Library, 320 Vestal Parkway East, Vestal, New York 13850.

Persons who wish to present prepared statements at the public hearing are urged to give notice to Mr. Damian Duda, Water Supply Branch, Region II, Environmental Protection Agency, 26 Federal Plaza, New York, N.Y. 10278; (212) 264–1800. If possible, written copies of these statements should be submitted at the hearing for inclusion into the record. At the completion of the public hearing, the public comment period will be open until June 25, 1983.

Jacqueline E. Schafer,

Regional Administrator.

BILLING CODE 6560–50–M

[WH-FRL 2353–4]

Plastics Molding and Forming; Intent To Transfer Confidential Information to Contractors

AGENCY: Environmental Protection Agency.

ACTION: Notice of intent to transfer confidential information to contractors.

SUMMARY: The Environmental Protection Agency (EPA) intends to transfer confidential information collected under Section 308 of the Clean Water Act of 1977 to selected EPA contractors. The contractors will use this and other information to analyze, review, and revise the technical and economic data bases that support the development of effluent limitations and standards for the Plastics Molding and Forming (PM&F) point source category.

DATES: Comments on the transfer of existing confidential information are due ten days after the date of publication of this notice in the **Federal Register**. Comments on the transfer of new confidential information must be submitted with that information.

FOR FURTHER INFORMATION CONTACT: Robert M. Southworth, Metals & Machinery Branch, Effluent Guidelines

Division (WH–552), Office of Water, U.S. Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460, (202) 382–7150.

SUPPLEMENTARY INFORMATION: The Clean Water Act of 1977 requires the Environmental Protection Agency to develop, review, and revise effluent limitations and standards for industrial dischargers. The Office of Water Regulations and Standards (OWRS) is responsible for the development of those limitations and standards. EPA awarded a prime contract to Versar, Inc. of Springfield, VA, including Envirodyne Engineers, St. Louis, MO, and the Radian Corporation, McLean, VA, as subcontractors and other contractors as specified below to conduct technical and economic analyses and to provide other contract support to the OWRS for the development of the limitations and standards for the PM&F industry.

One source of information that EPA will use to develop the effluent limitations and standards is a data collection protfolio (dcp) sent to various companies under authority of Section 308 of the Clean Water Act of 1977. The dcp's requested fundamental information about plant size and location, wastewater characteristics, wastewater treatment systems, wastewater flows, production processes, and solid waste disposal practices. The dcp's that EPA will use include those mailed in 1977 and those that will be mailed in 1983. Many of the completed dcp's and results of follow-up communications contain information that the responding companies claimed as confidential. EPA anticipates that some of the responses to the dcp's to be mailed in 1983 will also be claimed confidential.

EPA used the authority in Section 308 to conduct numerous field sampling episodes at PM&F facilities during which in-plant and end-of-pipe wastewater samples were collected. EPA expects to collect additional wastewater samples at various PM&F facilities during 1983. Some companies claimed and EPA anticipates that other companies will claim that the analytical results for their wastewater samples are confidential.

Information collected by EPA through dcp's and from field sampling episodes, including confidential information, will be transferred to EPA contractors. The contractors that will receive the PM&F industry information are: Versar, Inc. (Contract No. 68–01–6469), Springfield, VA, including Envirodyne Engineers, St. Louis, MO, the Radian Corporation, McLean, VA, and Whitescarver Associates, Inc., Reston, VA, as subcontractors and Meta Systems, Inc. (Contract No. 68–01–6426), Cambridge, MA.

EPA believes that it is necessary to transfer the information to the contractors so that they can complete the required work. The contracts and subcontracts for the listed contractors contain the confidentiality provisions required by EPA's confidentiality regulation (40 CFR 2.302(h)(2–3)).

The information, including confidential information, will be stored at the Radian Corporation's office in McLean, VA, during the development of the PM&F limitations and standards. When the project to develop those limitations and standards is completed, the information will be returned to EPA for storage.

EPA will accept comments for ten days from date of this notice on the proposed transfer of existing confidential information to the contractors for the purposes outlined above. EPA will also accept comments on the transfer of new confidential information when that information is submitted.

Dated: April 11, 1983.

Rebecca W. Hanmer,

Acting Assistant Administrator for Water.

BILLING CODE 6560–50–M

FEDERAL COMMUNICATIONS COMMISSION

[CC Docket No. 83–390, File No. 1008–CM–P–80; CC Docket No. 83–391, File No. 1194–CM–P–80]

The BA Co. and Florida MDS, Inc.; Designating Applications for Consolidated Hearing on Stated Issues

In re Applications of Robert A. Gordon d/b/a THE BA COMPANY, CC Docket No. 83–390, File No. 1008–CM–P–80, For Construction Permit in the Multipoint Distribution Service for a New Station at Weeki Wachee, Florida and FLORIDA MDS, INC., CC Docket No. 83–391, File No. 1194–CM–P–80, for Construction Permit in the Multipoint Distribution Service for a New Station at Inverness, Florida, designating applications for consolidated hearing on stated issues.

Memorandum Opinion and Order

Adopted April 11, 1983.

Released April 18, 1983.

1. For consideration are the above-referenced applications. These applications are for construction permits in the Multipoint Distribution Service and they propose operations on Channel 1 at Weeki Wachee/Inverness, Florida. The applications are therefore mutually exclusive and, under present procedures, require comparative consideration. These applications have been amended as result of informal requests by the Commission's staff for additional information. There are no petitions to deny or other objections under consideration.

2. Upon review of the captioned applications, we find that these applicants are legally, technically, financially, and otherwise qualified to provide the services which they propose, and that a hearing will be required to determine, on a comparative basis, which of these applications should be granted.

3. Accordingly, it is hereby ordered, That pursuant to Section 309(e) of the Communications Act of 1934, as amended, 47 U.S.C. 309(e) and Section 0.291 of the Commission's Rules, 47 CFR 0.291, the above-captioned applications are designated for hearing, in a consolidated proceeding, at a time and place to be specified in a subsequent Order, to determine, on a comparative basis, which of the above-captioned applications should be granted in order to best serve the public interest, convenience and necessity. In making such a determination, the following factors shall be considered:[1]

(a) The relative merits of each proposal with respect to efficient frequency use, particularly with regard to compatibility with co-channel use in nearby cities and adjacent channel use in the same city;

(b) The anticipated quality and reliability of the service proposed, including installation and maintenance programs; and

(c) The comparative cost of each proposal considered in context with the benefits of efficient spectrum utilization and the quality and reliability of service as set forth in issues (a) and (b).

4. It is further ordered, That Robert A. Gordon d/b/a The BA Company, Florida MDS, Inc. and the Chief, Common Carrier Bureau, are made parties to this proceeding.

5. It is further ordered, That parties desiring to participate herein shall file their notices of appearance in accordance with the provisions of § 1.221 of the Commission's Rules, 47 CFR 1.221.

[1] Consideration of these factors shall be in light of the Commission's discussion in *Frank K. Spain*, 77 FCC 2d 20 (1980).

6. The Secretary shall cause a copy of this Order to be published in the **Federal Register**.

James R. Keegan,

Chief, Domestic Facilities Division, Common Carrier Bureau.

BILLING CODE 6712-01-M

[MM Docket No. 83-346, File No. BPCT-820607LG; MM Docket No. 83-347, File No. BPCT-820624KU]

Naguabo Broadcasters and Bocanegra/Girald Broadcasting Group, for Construction Permit; Designating Applications for Consolidated Hearing on Stated Issues; Hearing Designation Order

Adopted: March 31, 1983.

Released: April 19, 1983.

1. The Commission, by the Chief, Mass Media Bureau, acting pursuant to delegated authority, has before it: (a) The above-captioned mutually exclusive applications of James Rodriguez, M.D. and Mercedes Rodriguez Palacios d/b/a Naguabo Broadcasters (Broadcasters), and Angel F. Bocanegra et al d/b/a Boncanegra/Girald Broadcasting Group (Bocanegra) [1], for authority to construct a new commercial television station on Channel 68, Humacao, Puerto Rico [2]; (b) an informal objection filed by the Association of Maximum Service Telecasters (AMST); and (c) an "Opposition to Petition For Leave to Amend" and related pleadings filed by Broadcasters against Bocanegra [3].

2. Broadcasters specifies Naguabo as its community of license, while Bocanegra proposes Humacao. Consequently, it will be necessary to determine, pursuant to Section 307(b) of the Communications Act of 1934, as amended, which of the proposals would better provide a fair, efficient, and equitable distribution of broadcast service. Since these proposals would serve substantial areas in common, however, in addition to the Section 307(b) issue, a contingent comparative issue will be specified.

3. The effective radiated visual power, antenna heights above average terrain and other technical data submitted by the applicants indicate that there would be a significant difference in the size of the areas and populations which would be served by each of the proposals. Consequently, for the purpose of comparison, the areas and populations which would be within the predicted 64 dBu (Grades B) contours, together with the availability of other television service of 64 dBu (Grade B) or greater intensity, will be considered under the standard comparative issue, for the purpose of determining whether a comparative preference should accrue to either of the applicants.

4. Bocanegra did not complete section III, FCC Form 301, in that only one of the questions regarding certification was answered. Bocanegra has not, therefore, demonstrated its financial qualifications to construct the proposed station. Accordingly, the applicant will be given 30 days from the date of release of this Order to submit to the Administrative Law Judge the certification required by the Form or to advise that it cannot make the required certification. In the latter event, the Adminstrative Law Judge shall specify an issue.

5. No determination has been reached that the tower height and location proposed by Bocanegra [4] would not constitute a hazard to air navigation. Accordingly, an issue regarding this matter will be specified.

6. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. Since these applications are mutually exclusive, the Commission is unable to make the statutory finding that their grant will serve the public interest, convenience, and necessity. Therefore, the applications must be designated for hearing in a consolidated proceeding on the issues specified below.

7. Accordingly, it is ordered, That, pursuant to Section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, before an Administrative Law Judge at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine, with respect to Bocanegra, whether there is a reasonable possibility that the tower height and location proposed would constitute a hazard to air navigation.

2. To determine the areas and populations that would receive Grade B or better service from the proposals and the availability of other Grade B services to such areas and populations.

3. To determine, in light of Section 307(b) of the Communications Act of 1934, as amended, which of the proposals would best provide a fair, efficient and equitable distribution of television service.

4. In the event it is concluded from Issue 2, above, that a choice among applicants should not be based solely on considerations relating to Section 307(b), to determine which proposal would, on a comparative basis, better serve the public interest.

5. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

8. It is further ordered, That the Federal Aviation Administration is made a party respondent with respect to Issue 4.

9. It is further ordered, That within 30 days of the release of this Order, Angel F. Bocanegra et al d/b/a Bocanegra/Girald Broadcasting Group shall submit a financial certification in the form required by Section III, F.C.C. Form 301, or advise the Administrative Law Judge that the required certification cannot be made, as may be appropriate.

10. It is further ordered, That the informal objection filed by the Association of Maximum Service Telecasters, Inc. and the Opposition and related pleadings filed by Broadcasters against Angel F. Bocanegra et al d/b/a Bocanegra/Girald Broadcasting Group are dismissed as moot.

11. It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants and the party respondent herein shall, pursuant to § 1.221(c) of the Commission's Rules, in person or by attorney, within 20 days of mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and to present evidence on the issues specified in this Order.

12. It is further ordered, That the applicants herein shall, pursuant to Section 311(a)(2) of the Communications Act of 1934, as amended, and § 73.3594 of the Commission's Rules, give notice of the hearing within the time and in the

---

[1] Bocanegra filed a "Petition for Leave to Amend" on December 28, 1982, accompanied by an amendment specifying a new site. Broadcasters has opposed the petition. However, the amendment would remove a potentially disqualifying issue and would also sever these applications from another application filed for Channel 64 that would otherwise be mutually exclusive because of the UHF "taboos" set out in Table IV of § 73.698. We have, therefore, granted the motion and accepted the amendment, but Bocanegra will not be permitted to claim any comparative advantage that may flow from the amendment proposal.

[2] Channel 68 is allocated to Humacao, Puerto Rico. Naguabo is located within 15 miles of Humacao. Accordingly, under former Section 73.607 of the Commission's Rules, Channel 68 is available for use in Naguabo, Puerto Rico.

[3] AMST's objection and Broadcasters Oppositions argue that Bocanegra has proposed a tower site that does not meet the Commission's mileage separation requirements; however, Bocanegra subsequently amended its application to specify a non-short-spaced site. Accordingly, AMST's objection and Broadcasters' opposition and related pleadings will be dismissed as moot.

[4] The Commission is not in receipt of FAA's determination for the tower proposed by Bocanegra.

manner prescribed in such Rule, and shall advise the Commission of the publication of such notice as required by § 73.3594(g) of the Rules.

Federal Communications Commission.

BILLING CODE 6712-01-M

[MM Docket No. 83-348, File No. BPCT-821207KH; MM Docket No. 83-349, File No. BPCT-821005KE]

Owen Broadcasting Enterprises and Del Rio Communications Inc., for Construction Permit; Designating Applications for Consolidated Hearing on Stated Issues; Hearing Designation Order

Adopted: *March 31, 1983.*
Released: *April 20, 1983.*

1. The Commission, by the Chief, Mass Media Bureau, acting pursuant to delegated authoirity, has before it the above-captioned mutually exclusive applications of Owen Broadcasting Enterprises (Owen) and Del Rio Communications Inc. (Del Rio) for authority to construct a new commercial television broadcast station on Channel 10, Del Rio, Texas.

Del Rio Communications Inc.

2. On December 21, 1982, Del Rio filed an amendment to its application stating that because its proposed tower height and location could not meet FAA air safety standards, it was seeking a new site. The applicant has not filed an amendment specifying a new site. Consequently, a question arises as to whether the applicant has a site available to it. An appropriate issue will be specified.

3. Del Rio, in response to Item 10(e), page 2, Section V–C, FCC Form 301, indicates that its Grade B coverage area would contain 3,640 square miles with a population of 26,045 persons. Its contour map, however, shows coverage of a part of Mexico. Section 73.684(e) of the Commission's Rules provides that coverage beyond the borders of the United States shall be excluded in computing coverage areas. It is not clear whether the figures furnished by Del Rio exclude coverage of part of Mexico. The applicant will be required to clarify this situation by appropriate amendment.

Owen Broadcasting Enterprises

4. The proposed antenna for Owen is to be mounted on the tower of AM Radio station KWMC, Del Rio, Texas. Consequently, any grant of a construction permit to Owen will be conditioned to ensure that KWMC's radiation pattern is not adversely affected by the construction of the proposed station.

5. Section II, Page 2, FCC Form 301, requires that if the applicant is a corporation, the names addresses and offices held by each officer must be listed. Owen broadcasting's application shows that Dennis Owen is the sole stockholder, but the office or offices which he holds, if any, have not been disclosed. No other names are listed as officers. The law of the State of Tennessee, however, appear to require that a corporation have at least two officers (Tenn. Code Ann. § 48–811). Furthermore, §73.3514(a) requires applicants to provide all information called for by FCC Form, unless the required information is inapplicable. Accordingly, appropriate issues will be specified to determine the identity and qualifications of the corporate officers and to examine Owen Broadcasting's compliance with § 73.3514(a).

6. Owen indicates in Section V–C, Item 7, FCC Form 301, that it will use electrical and mechanical beam tilt. Section 73.685 (e) and (f) of the Commission's Rules requires that information be submitted to verify the nature of the proposed electrical and mechanical beam tilt. Owen has not done so. Accordingly, applicant will be required to submit an appropriate engineering amendment within 20 days of the release of this order.

7. Owen has also shown coverage of a part of Mexico, but it has furnished no pupulation figures. Accordingly, it will be required to show compliance with § 73.684(e) of the Rules and to furnish the correct area and population figures as required by Item 10(e), page 2, Section V–C, FCC Form 301.

8. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. Since the proposals are mutually exclusive, the Commission is unable to make the statutory finding that their grant will serve the public interest, convenience, and necessity. Therefore, the applicants must be designated for hearing in a consolidated proceeding on the issues specified below.

9. Accordingly, it is ordered, That, purusanat to Section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, before an Administrative Law Judge at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine whether there is reasonable assurance that Del Rio will have a transmitter site available to it.

2. To determine with respect to Owen Broadcasting Enterprises:

a. The number, identity and legal qualifications of the officers of Owen Broadcasting Enterprises;

b. Whether, in light of the evidence adduced pursuant to the foregoing issue, the applicant complied with § 73.3514(a) of the Commission's Rules; and

c. In light of the evidence adduced pursuant to the foregoing issues, the effect of any omissions on the applicant's basic or comparative qualifications.

3. To determine which of the proposals would, on a comparative basis, better serve the public interest.

4. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

10. It is further ordered, That the Federal Aviation Administration is made a party respondent to this proceeding with respect to issue 1.

11. It is further ordered, That, in the event of a grant of the application of Owen, the construction permit shall be conditioned as follows:

During installation of the TV antenna, AM Station KWMC shall determine operating power by the indirect method. Upon completion of the installation, antenna impedance measurements of the AM antenna shall be made. The results shall be submitted to the Commission, along with a tower sketch of the installation, in an application for the AM station to return to the direct method of power determination. Thereafter, the TV station may commence *Limited Program Tests.*

12. It is further ordered, That within 20 days after the date of release of this Order, Del Rio and Owen shall each submit an amendment to clarify the correct area and population figures to the presiding Administrative Law Judge.

13. It is further ordered, That, Owen shall submit, pursuant to § 73.685 (e) and (f) of the Commission's Rules, an appropriate engineering amendment to verify the nature of the proposed electrical and mechanical beam tilt within 20 days after the date of release of this Order to the presiding Administrative Law Judge.

14. It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants and the party respondent herein shall, pursuant to § 1.221(c) of the Commission's Rules, in person or by attorney, within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written

appearance stating an intention to appear on the date fixed for the hearing and to present evidence on the issues specified in this Order.

15. It is further ordered, That the applicants herein shall, pursuant to Section 311(a)(2) of the Communications Act of 1934, as amended, and § 73.3594 of the Commission's Rules, give notice of the hearing within the time and in the manner prescribed in such Rule, and shall advise the Commission of the publication of such notice as required by § 73.3594(g) of the Rules.

Federal Communications Commission.

BILLING CODE 6712-01-M

[CC Docket No. 83-388, File No. 10478-CM-P-80; CC Docket No. 83-389, File No. 50049-CM-P-81]

Quo Vadis, Inc. and Microband Corporation of America, for Construction Permits in the Multipoint Distribution Service for a New Station at Knoxville, Iowa; Designating Applications for Consolidated Hearing on Stated Issues; Memorandum Opinion and Order

Adopted April 11, 1983.
Released April 18, 1983.

1. For consideration are the above-referenced applications.[1] These applications are for construction permits in the Multipoint Distribution Service and they propose operations on Channel 1 at Knoxville, Iowa. The applications are therefore mutually exclusive and, under present procedures, require comparative consideration. There are no petitions to deny or other objections under consideration.[2]

2. Upon review of the captioned applications, we find that these applicants are legally, technically, financially, and otherwise qualified to provide the services which they propose, and that a hearing will be required to determine, on a comparative basis, which of these applications shall be granted.[2]

3. Accordingly, it is hereby ordered, That pursuant to Section 309(e) of the Communications Act of 1934, as amended, 47 U.S.C. 309(e) and § 0.291 of the Commission's Rules, 47 CFR 0.291, the above-captioned applications are designated for hearing, in a consolidated proceeding, at a time and place to be specified in a subsequent Order, to determine, on a comparative basis, which of the above-captioned applications should be granted in order to best serve the public interest, convenience and necessity. In making such a determination, the following factors shall be considered:[3]

(a) The relative merits of each proposal with respect to efficient frequency use, particularly with regard to compatibility with co-channel use in nearby cities and adjacent channel use in the same city;

(b) The anticipated quality and reliability of the service proposed, including installation and maintenance programs; and

(c) The comparative cost of each proposal considered in context with the benefits of efficient spectrum utilization and the quality and reliability of service as set forth in issues (a) and (b).

4. It is further ordered, That Quo Vadis, Inc., Microband Corporation of America and the Chief, Common Carrier Bureau, are made parties to this proceeding.

5. It is further ordered, That parties desiring to participate herein shall file their notices of appearance in accordance with the provisions of § 1.221 of the Commission's Rules, 47 CFR 1.221.

6. The Secretary shall cause a copy of this order to be published in the **Federal Register.**

James R. Keegan,

Chief, Domestic Facilities Division, Common Carrier Bureau.

BILLING CODE 6712-01-M

---

[1] On August 18, 1980, Tymshare, Inc. (Tymshare) and Arthur Lipper Corporation (ALC) executed a contract whereby ALC agreed to transfer control of Microband Corporation of America to Tymshare. *Transfer of Control/MDS*, 85 FCC 2d 1023 (1981).

[2] By Memorandum Opinion and Order adopted June 26, 1981 and released July 2, 1981, Mimeo No. 001863, Microband was granted an exemption from the Commission's "cut-off" rules pursuant to § 21.31 of the Rules, 47 CFR 21.31, to preserve the status of its pending mutually exclusive application.

[3] Consideration of these factors shall be in light of the Commission's discussion in *Frank K. Spain*, 77 FCC 2d 20 (1980).

FEDERAL MARITIME COMMISSION

Global Terminal and Container Sevices, Inc. and Concorde Line, Inc.; Cancellation of Agreement No. T-3965

Agreement No. T-3965 is a container, terminal and LCL service agreement between Global Terminal and Container Sevices, Inc. (Global) and Concorde Line, Inc. (Concorde). It provides that Global will furnish the necessary equipment and labor for the performance of comprehensive terminal and stevedoring services for Concorde at the Port of New York.

The parties to Agreement No. T-3965 have given notice of their intent to terminate this agreement by mutual consent as provided for in Section XX of the agreement. Agreement No. T-3965 will be cancelled 15 days following publication in the **Federal Register.**

Dated: April 21, 1983.

By Order of the Federal Maritime Commission.

Francis C. Hurney,

Secretary.

[FR Doc. 83-11006 Filed 4-25-83; 8:45 am]

BILLING CODE 6730-01-M

Agreements Filed; Georgia Ports Authority, et al.

The Federal Maritime Commission hereby gives notice that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and may request a copy of each agreement and the supporting statement at the Washington, D.C. Office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10325. Interested parties may submit protests or comments on each agreement to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after the date of the **Federal Register** in which this notice appears. The requirements for comments and protests are found on § 522.7 of Title 46 of the Code of Federal Regulations. Interested persons should consult this section before communicating with the Commission regarding a pending agreement.

Any person filing a comment or protest with the Commission shall, at the same time, deliver a copy of that document to the person filing the agreement at the address shown below.

Agreement No.: T-4105.

Title: Georgia Ports Authority and Union Camp Corporation Volume Incentive Agreement.

Parties: Georgia Ports Authority (Authority)/Union Camp Corporation (UCC).

Synopsis: Agreement No. T-4105 provides that the Authority, in consideration for the volume utilization of its facilities, will make available to UCC rates that would decline based on the increased volume of cargo handled through September 30, 1983. Additionally, the agreement provides for additional free time on volume shipments.

Filing Party: Robert W. Goethe, Assistant Executive Director, Georgia Ports Authority, P.O. Box 2406, Savannah, Georgia 31402.

Agreement No.: 2744–49.

Title: Atlantic and Gulf/West Coast of South America Conference.

Parties: Chilean Line, Delta Steamship Lines, Inc., Flota Mercante Grancolombiana, Peruvian State Line, Transnave, and Lykes Bros. Steamship Co., Inc.

Synopsis: The basic agreement would be amended to require the countersignature of a representative of a member line of the Conference in addition to the signature of the Conference Chairman or Vice Chairman before the security deposit of a member line could be drawn upon.

Filing Party: Nathan J. Bayer, Esq., Freehill, Hogan & Mahar, 80 Pine Street, New York, N.Y. 10005

Agreements Nos.: 7540–38 and 7540–39.

Title: United States Atlantic & Gulf/Southeastern Caribbean Conference.

Parties: Box Caribbean Lines, S.A., Concorde/Nopal Line, Nedlloyd Lines (Antilles) N.V., Pan American Mail Line, Inc. d.b.a. Pan Atlantic Lines and Sea-Land Service Inc.

Synopsis: The basic agreement would be amended to: (1) Clarify that the Conference has authority to establish uniform rules and charges concerning free time, demurrage and detention; (2) require the countersignature of a member of the Executive Committee of the Conference, in addition to the signature of the Conference Chairman or Vice Chairman before the security deposit of a member line could be drawn upon; and (3) increase from three to four the number of rate-making sections within the geographic scope of the Conference.

Filing Party: Nathan J. Bayer, Esq., Freehill, Hogan & Mahar, 80 Pine Street, New York, N.Y. 10005.

Agreement No.: 10424–4.

Title: United States Atlantic and Gulf/Jamaica and Hispaniola Steamship Freight Association.

Parties: Concorde-Nopal Line, Puerto Rico Marine Management, Inc., Sea-Land Service, Inc., Trailer Marine Transport/CTMT.

Synopsis: The basic agreement would be amended to require the countersignature of a member line of the Executive Committee of the Conference in addition to the signature of the Chairman or Vice Chairman before the security deposit of a member line could be drawn upon.

Filing Party: Nathan J. Bayer, Freehill, Hogan & Mahar, 80 Pine Street, New York, N.Y. 10005.

Dated: April 21, 1983.

By Order of the Federal Maritime Commission.

Francis C. Hurney,

Secretary.

BILLING CODE 6730–01–M

FEDERAL RESERVE SYSTEM

Formation of Bank Holding Companies, North East Bancshares, Inc. and Planters Financial Corp.

The companies listed in this notice have applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C 1842(a)(1)) to become bank holding companies by acquiring voting shares or assets of a bank. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application may be inspected at the offices of the Board of Governors, or at the Federal Reserve Bank indicated for that application. With respect to each application, interested persons may express their views in writing to the address indicated for that application. Any comment on an application that requests a heaing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

A. **Federal Reserve Bank of Atlanta** (Robert E. Heck, Vice President) 104 Marietta Street, N.W., Atlanta, Georgia 30303:

1. *North East Bancshares, Inc.*, Henagar, Alabama; to become a bank holding company by acquiring 100 percent of the voting shares of Northeast State Bank of Alabama, Henagar, Alabama. Comments on this application must be received not later than May 18, 1983.

B. **Federal Reserve Bank of St. Louis** (Delmer P. Weisz, Vice President) 411 Locust Street, St. Louis, Missouri 63166:

1. *Planters Financial Corporation*, Hopkinsville, Kentucky; to become a bank holding company by acquiring 100 percent of the voting shares of Planters Bank & Trust Company, Hopkinsville, Kentucky. Comments on this application must be received not later than May 18, 1983.

Board of Governors of the Federal Reserve System, April 20, 1983.

James McAfee,

Associate Secretary of the Board.

[FR Doc–83–10975 Filed 4–25–83; 8:45 am.]

BILLING CODE 6210–01–M

Southern Bancorporation, Inc., Proposed Acquisition of Bibb Investment Company

Southern Bancorporation, Inc., South Greenville, Carolina, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to acquire voting shares of Bibb Investment Company, Macon, Georgia.

Applicant states that the proposed subsidiary would engage in the activities of making direct loans to individuals, acting as agent for the sale of credit, accident and health insurance; and acting as agent for credit property insurance written solely in connection with such extensions of credit. These activities would be performed from officers of Applicant's subsidiary on Macon, Georgia, and the geographic areas to be served are Macon, Georgia and surrounding areas. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably by expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased of unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Richmond.

Any person wishing to comment on the application should submit views in

writing to the Reserve Bank to be received not later than May 19, 1983.

Board of Governors of the Federal Reserve System, April 19, 1983.

James McAfee,

Associate Secretary of the Board.

[FR Doc. 83-10981 Filed 4-25-83; 8:45 am]

BILLING CODE 6210-01-M

Southern Bancorporation, Inc.; Proposed Acquisition of General Finance Co.

Southern Bancorporation, Inc., Greenville, South Carolinia, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to acquire voting shares of General Finance Company, Beaumont, Texas.

Applicant states that the proposed sudsidiary would engage in the activities of making direct loans to individuals. These activities would be performed from offices of Applicant's subsidiary in Beaumont, Texas, and the geographic areas and surrounding areas. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(4).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Richmond.

Any person wishing to comment on the application should submit views in writing to the Reserve Bank to be received not later than May 19, 1983.

Board of Governors of the Federal Reserve System, April 19, 1983.

James McAfee,

Associate Secretary of the Board.

[FR Doc. 83-10980 Filed 4-25-83; 8:45 am]

BILLING CODE 6210-01-M

Acquisition of Bank Shares by Bank Holding Companies; Commercial Bancshares, Inc., et al.

The companies listed in this notice have applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire voting shares or assets of a bank. The factors that are considered in acting on the applications are set forth in Section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application may be inspected at the offices of the Board of Governors, or at the Federal Reserve Bank indicated for that application. With respect to each application, interested persons may express their views in writing to the address indicated for that application. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

A. **Federal Reserve Bank of Dallas** (Anthony J. Montelaro, Vice President) 400 South Akard Street, Dallas, Texas 75222:

1. *Commercial Bancshares, Inc.*, Houston, Texas; to acquire 50 percent of the voting shares or assets of Park Tower National Bank, Houston, Texas. Comments on this application must be received not later than May 19, 1983.

2. *Consolidated Bancorp, Inc.*, Hewitt, Texas; to acquire 80 percent of the voting shares or assets of Farmers & Merchants State Bank, Ferris, Texas. Comments on this application must be received not later than May 19, 1983.

B. **Board of Governors of the Federal Reserve System** (William W. Wiles, Secretary) Washington, D.C. 20551:

1. *Mercantile Bankshares Corporation*, Baltimore, Maryland; to acquire 100 percent of the voting shares or assets of The Sudlersville Bank of Maryland, Sudlersville, Maryland. The application may be inspected at the offices of the Board of Governors or the Federal Reserve Bank of Richmond. Comments on this application must be received not later than May 19, 1983.

Board of Governors of the Federal Reserve System, April, 19, 1983.

James McAfee,

Associate Secretary of the Board.

BILLING CODE 6210-01-M

Bank Holding Companies; Proposed de Novo Nonbank Activities; Barclays Bank PLC, et al.

The organizations identified in this notice have applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and section § 225.4(b)(1) of the Bank's Regulation Y (12 CFR 225.4(b)(1)), for permission to engage *de nova* (or continue to engage in an activity earlier commenced *de novo*), directly or indirectly, solely in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to these applications, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resource, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any comment that requests a hearing must include a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying speifically any questions of fact that are in dispute, summarzing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of that proposal.

The applications may be inspected at the offices of the Bank of Governors or at the Federal Reserve Bank indicated. Comments and requests for hearing should identify clearly the specific application to which they relate, and should be submitted in writing and received by the appropriate Federal Reserve Bank not later than the date indicated.

A. **Federal Reserve Bank of New York** (A. Marshall Puckett, Vice President) 33 Liberty Street, New York, New York 10045:

1. *Barclays Bank PLC* and its subsidiary, Barclays Bank International Limited, London, England (leasing activities; Florida): To engage through their subsidiary, BarclaysAmercian/Leasing, Inc. ("BAL"), in lease financing of personal property by means of leases that meet the standards of Section 225.4(a)(6) of Regulation Y. This activity would be conducted from an office of BAL located in Tampa, Florida, serving customers in the State of Florida. Comments on this application must be received not later than May 19, 1983.

2. *Citicorp*, New York, New York (sale of travelers checks; California): To engage through a *de novo* office of its subsidiary, Citicorp (USA), Inc., in the sale of travelers checks. The *de novo* office would be located at the San Francisco International Airport, San Franisco, California and would serve individuals at the airport. Comments on this application must be received not later than May 19, 198.

3. *Heritage Bancorporation*, Monroe Township, New Jersey (data processing and data transmission services): To provide to others financial mortgage, banking and economic data processing and transmission services pursuant to a written agreement so describing and limiting the services. These activities would be conducted from offices in Pennsauken New Jersey, serving the State of New Jersey. Comments on this application must be received not later than May 19, 1983.

B. **Federal Reserve Bank of Richmond** (Lloyd W. Bostian, Jr., Vice President) 701, East Byrd Street, Richmond, Virginia 23261:

1. *Southern Bancorporation, Inc.*, Greenville, South Carolina, (consumer financing activities; Texas): To engage through its subsidiary, World Acceptance Corporation in making extensions of credit as a licensed consumer finance lender. These activities would be conducted from an office in Lufkin, Texas, serving the City of Lufkin and certain other parts of Angelina County within a ten mile radius of Lufkin. Comments on this application must received not later than May 19, 1983.

2. *Southern Bancorporation, Inc.*, Greenville, South Carolina (finance and insurance activities; Georgia): To engage through its subsidiary, World Acceptance Corporation, in making extensions of credit as a licensed consumer finance lender, acting as agent for credit life and accident insurance written in connection with such extensions of credit, and acting as agent for credit property insurance written solely in connection with such extensions of credit. These proposed insurance activities are permissible under Sections 601(A) and 601(B) of the Garn—St Germain Depository Institutions Act of 1982. These activities would be conducted from an office in Augusta, Georgia, serving the approximate city limits of Augusta and certain other parts of the Augusta SMSA within a ten mile radius of Augusta. Comments on this application must received not later than May 19, 1983.

3. *Union Trust Bancorp* ("Union Trust"), Baltimore, Maryland (mortgage banking, consumer financing, and credit insurance activities; Maryland): To engage, through its subsidiary Landmark Financial Services of Mayland, Inc. ("LFS/Maryland"), in the making of mortgage loans secured in whole or in part by mortgages or other liens on real estates, in the making or servicing of installment loans to individuals for personal, family or household purposes; and acting as agent in the sale of life, accident and health, and property insurance directly related to extensions of credit by said subsidiary. LFS/Maryland engaged in the above credit-related insurance activities at the time of its acquisition by Union Trust, which acquisition was approved by Board Order of January, 1975, thereby rendering same permissible activities under Section 601(D) of the Garn-St Germain Depository Institutions Act of 1982. These activities would be conducted from a new office of LFS/Maryland located in Laurel, Maryland, serving Laurel and Ft. Meade, Maryland, and the surrounding area. Comments on this application must be received not later than May 19, 1983.

C. **Federal Reserve Bank of San Francisco** (Harry W. Green, Vice President) 400 Sansome Street, San Francisco, California 94120:

1. *BankAmerica Corporation*, San Francisco, California (financing, servicing, and insurance activities; expansion of geographic scope; Maryland, Pennsylvania, Virginia and West Virginia): To continue to engage through its indirect subsidiary, FinanceAmerica Corporation, a Maryland corporation, in the activities of making or acquiring for its own account loans and other extensions of credit such as would be made or acquired by a finance company; servicing loans and other extensions of credit; and offering credit-related life insurance and credit-related accident and health insurance. The aforementioned types of credit-related insurance are permissible under Section 4(c)(8)(A) of the Bank Holding Company Act of 1956, as amended by the Garn-St Germain Depository Institutions Act of 1982. Credit-related property insurance will not be offered. Such activities will include, but not be limited to, making consumer installment loans, purchasing installment sales finance contracts, making loans and other extensions of credit to businesses, making loans and other extensions of credit secured by real and personal property, and offering credit-related life and credit-related accident and health insurance directly related to extensions of credit made or acquired by FinanceAmerica Corporation. Credit-related life and credit-related accident and health insurance may be reinsured by BA Insurance Company, Inc., an affiliate of FinanceAmerica Corporation. These activities will be conducted from an existing office located in Hagerstown, Maryland, serving the entire States of Maryland, Pennsylvania, Virginia and West Virginia. Comments on this application must be received not later than May 19, 1983.

2. *BankAmerica Corporation* ("BankAmerica"), San Francisco, California (industrial loan company operations, consumer and commercial financing, and insurance activities; Minnesota): To engage *de novo* through its indirect subsidiary, FinanceAmerica Thrift Corporation ("FA Thrift/Minnesota") in the operation of an industrial loan company, and to continue to engage in the activities of commercial and consumer lending and loan servicing, as well as life accident and health, and property insurance directly related to extensions of credit by said subsidiary, in an expanded service area encompassing the State of Minnesota. FA Thrift/Minnesota's industrial loan company activities are to be conducted in conformance with § 225.4(a)(2) of Regulation Y, and Section 4(c)(8) of the Bank Holding Company Act of 1956. FA Thrift/Minnesota engaged in the above financing and credit-related insurance activities in Minnesota at the time of its acquisition by BankAmerica and approved by Board Order of August 14, 1973, thereby rendering said activities permissible under the terms of Section (D) of the Garn-St Germain Depository Institutions Act of 1982. These activities will be conducted from an existing office of FA Thrift/Minnesota located in St. Cloud, Minnesota, serving the State of Minnesota. Comments on this application must be received not later than May 19, 1983.

3. *Security Pacific Corporation*, Los Angeles, California (finance and credit life and credit accident and health insurance activities; West Virginia): To engage through its subsidiary, Security Pacific Finance Money Center Inc., in making or acquiring for its own account or for the account of others, loans and extensions of credit, including making consumer installment personal loans, purchasing consumer installment sales finance contracts, making loans to small businesses and other extensions of credit such as would be made by a factoring company or a consumer finance company, and acting as broker or agent for the sale of credit life and credit accident and health insurance, such insurance agency activities being permitted pursuant to Section 601(A) of Title VI of the Garn-St Germain Act. These activities would be conducted from offices of Security Pacific Finance Money Center Inc. in Elkins, Logan and Welch, West Virginia, each serving the State of West Virginia. Comments on this application must be received not later than May 19, 1983.

4. *Security Pacific Corporation*, Los Angeles, California (securities and commercial paper clearing and custodian activities; United States): To engage through its subsidiary, Security Pacific Clearing & Services Corp. in certain clearing and custodian activities with respect to securities, commercial paper and similar instruments, such as acting as forwarding agent, coupon paying agent and provider of trade confirmation services for securities and acting as issuing and paying agent for commercial paper and similar instruments, as well as activities incident thereto, such as making of call loans to securities dealers. These activities would not include extensions of credit involving margin securities such as would be covered under Regulation G and would be conducted from an office of Security Pacific Clearing & Services Corp. located in New York, New York, serving the United States. Comments on this application must be received not later than May 19, 1983.

Board of Governors of the Federal Reserve System, April 19, 1983.

James McAfee,

Associate Secretary of the Board.

BILLING CODE 6210-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 83F-0116]

Ciba-Geigy Corp.; Filing of Food Additive Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: Food and Drug Administration (FDA) is announcing that Ciba-Geigy Corp. has filed a petition proposing that the food additive regulations be amended to provide for the safe use of tetrakis[methylene(3,5-di-*tert*-butyl-4-hydroxyhydrocinnamate)]-methane as an antioxidant/stabilizer in various food-contact applications.

FOR FURTHER INFORMATION CONTACT: Julia L. Ho, Bureau of Foods (HFF-334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204; 202-472-5690.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 3B3701) has been filed by Ciba-Geigy Corp., Three Skyline Drive, Hawthorne, NY 10532, proposing that the food additive regulations be amended to provide for the safe use of tetrakis[methylene(3,5-di-*tert*-butyl-4-hydroxyhydrocinnamate)]methane as an antioxidant/stabilizer in food-contact applications listed in the following sections: § 175.125 *Pressure-sensitive adhesives* (21 CFR 175.125); § 175.300 (*Resinous and polymeric coatings* (21 CFR 175.300) in paragraph (b)(3)(xxxi); § 175.320 *Resinous and polymeric coatings for polyolefin films* (21 CFR 175.320); § 176.170 *Components of paper and paperboard in contact with aqueous and fatty foods* (21 CFR 176.170); § 176.210 *Defoaming agents used in the manufacture of paper and paperboard* (21 CFR 176.210); § 177.1210 *Closures with sealing gaskets for food containers* (21 CFR 177.1210); § 178.3800 *Preservatives for wood* (21 CFR 178.3800); and § 178.3850 *Reinforced wax* (21 CFR 178.3850).

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 2540(c) (proposed December 11, 1979; 44 FR 71742).

Dated: April 20, 1983.

Sanford A. Miller,

Director, Bureau of Foods.

BILLING CODE 4160-01-M

Consumer Participation; Open Meetings

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the following consumer exchange meetings: Minneapolis District Office, chaired by John Feldman, District Director. The topics to be discussed are: Direct-to-Consumer Advertising of Prescription Drugs and the Reclassification of Prescription Drugs to Nonprescription or Over-the-Counter (OTC) status.

DATE: Wednesday, May 4, 1983, 9:30 a.m. to 11:30 a.m.

ADDRESS: Federal Plaza, Rm. 290, 310 West Wisconsin Ave., Milwaukee, WI 53203.

FOR FURTHER INFORMATION CONTACT: Blanche Erkel, Consumer Affairs Officer, Food and Drug Administration, 240 Hennepin Ave., Minneapolis, MN 55401; 612-725-2121.

Buffalo District Office chaired by David J. Kiessling, Supervisory Consumer Safety Officer, and Lois M. Meyer, Consumer Affairs Officer. The topics to be discussed are: Direct-to-Consumer Advertising of Prescription Drugs, Committee on Patient Education (COPE), Tamper-Resistant Packaging, Sodium Labeling and Educational Initiatives, and Yellow #5 Food Color and Other Additives.

Date: Wednesday, May 4, 1983, 10 a.m.

Address: U.S. Courthouse and Federal Bldg., Rm. 1117, 100 South Clinton St., Syracuse, NY 13260.

For further information contact: Lois M. Meyer, Consumer Affairs Officer, Food and Drug Administration, 599 Delaware Ave., Buffalo, NY 14202; 716-846-4483.

San Francisco District Office, chaired by William C. Hill, District Director. The topics to be discussed are: Direct-to-Consumer Advertising of Prescription Drugs with Updates on Heptachlor, Patient Education Alternatives, Tamper-Resistant Packaging, Pregnancy/Nursing Warning Labels on OTC Drugs, and Salicylates and Their Relationship to Reye Syndrome.

Date: Wednesday, May 11, 1983, 1:15 p.m.

Address: Federal Office Bldg., Rm. 6323, Ala Moana and Punchbowl, Honolulu, HI 96850.

For further information contact: Karen Erdman, Consumer Affairs Officer, Food and Drug Administration, 50 United Nations Plaza, Rm. 524, San Francisco, CA 94102, 415-556-2062.

Los Angeles District Office, chaired by Abraham I. Kleks, District Director. The topics to be discussed are: Direct-to-Consumer Advertising of Prescription Drugs, Adverse Reactions to Food Additives, and Updates on Bubble Bath, Lead, and Pet Food Labeling.

Date: Wednesday, May 18, 1983, 9:30 a.m.

Address: Food and Drug Administration, 1521 West Pico Blvd., Los Angeles, CA 90015.

For further information contact: Gordon L. Scott, Consumer Affairs Officer, Food and Drug Administration, 1521 West Pico Blvd., Los Angeles, CA 90015; 212-688-4395.

San Antonio Resident Inspection Post, chaired by Anthony Whitehead, Chief, Houston Station. The topic to be discussed is: Direct-to-Consumer Advertising of Prescription Drugs.

Date: Friday, May 20, 1983, 2 p.m.

Address: Federal Bldg., 727 East Durango St., Rm A-206, San Antonio, TX 78206.

For further information contact: Juan Tijerina, Consumer Affairs Officer, Food and Drug Administration, San Antonio Resident Inspection Post, 727 East Durango, Rm. B-406, San Antonio, TX 78206; 512-229-6737.

SUPPLEMENTARY INFORMATION: The purpose of these meetings is to encourage dialogue between consumers and FDA officials, to identify and set priorities for current and future health concerns, to enhance relationships between local consumers and FDA's District Offices, and to contribute to the agency's policymaking decisions on vital issues.

Dated: April 22, 1983.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

[FR Doc. 83-11132 Filed 4-25-83; 8:45 am]

BILLING CODE 4160-01-M

[Docket No. 82N-0381]

Notice to Manufacturers and Importers of Confectionery Containing Alcohol

AGENCY: Food and Drug Adminstration.

ACTION: Notice.

SUMMARY: The Food and Drug Adminstration (FDA) is reminding manufacturers and importers of confectionery that the Federal Food, Drug, and Cosmetic Act (the act) prohibits the interstate sale of confectionery containing any amount of alcohol that is not derived form flavoring extracts. Alcoholic beverages such as rum, bourbon, and liqueurs—even if diluted, concentrated, or denatured— are not considered to be flavoring extracts. Any further manufacture of importation of confectionery not in compliance with the act should cease immediately. A reasonable time will be allowed by the agency, however, for depleting existing stocks of confectionery, including imports in transit, containing no more than 0.5 percent by volume alcohol derived from alcoholic beverages.

FOR FURTHER INFORMATION CONTACT: Raymond E. Newberry, Bureau of Foods (HFF-314), Food and Drug Administration, 200 C St. SW., Washington, DC 20204; 202-245-7745

SUPPLEMENTARY INFORMATION: Under section 401(d)(2) of the act, a confectionery is deemed to be adulterated if it "bears or contains any alcohol other than alcohol not in excess of one-half of 1 per centum by volume derived solely from the use of flavoring extracts". Thus, any alcohol in confectionery is illegal unless it is: (1) Derived solely from the use of flavoring extracts, and (2) not in excess of ½ of 1 percent by volume. An alcoholic beverage, including, but not limited to, rum, bourbon, and liqueurs, is not considered a "flavoring extract." The addition of any alcoholic beverage to a confectionery causes the product to be adulterated within the meaning of section 402(d)(2) of the act regardless of the reason for the addition. Dilution of an alcoholic beverage to obtain an alcohol volume of ½ percent or less in the finished confectionery does not alter the fact that the product contains alcohol that is not derived from flavoring extracts. The concentration or denaturing of an alcoholic beverage does not result in a flavoring extract for purposes of this provision of the act.

The method for determining the amount of alcohol is described in the "Official Methods of Analysis of the Association of Official Analytical Chemists," 13th Ed. (1980), section 31.106. The percent of alcohol in a confectionery should be derived by comparing the amount of alcohol with the total weight of the confectionery. In the past, FDA had taken the position that, for confectioneries with a liquid or semi-liquid center, the percent of alcohol was derived by comparing the amount of alcohol with the weight of the center. This change in policy on the method of determining the percent of alcohol in such confectioneries is in the interest of applying the same standards to all confectioneries.

In recent months FDA has detained imported filled chocolates because they appeared to violate section 402(d)(2) of the act. Based upon complaints received and its own investigations, FDA is aware that certain domestic manufacturers also are or have been making these confectioneries that unlawfully contain alcohol not derived from the use of flavoring extracts, and that the confectioneries have been sold in interstate commerce. Some of these importers and manufacturers have stated that they were not aware that the agency considers all alcoholic beverages not to be flavoring extracts. In view of the possibility of misunderstanding, FDA is publishing this notice to apprise all manufacturers and importers of confectionery of the act's requirements.

The further manufacture or importation of confectionery in violation of section 402(d)(2) of the act should cease immediately. Confectioneries containing alcoholic beverages at levels of ½ percent by volume or less do not pose a public health problem, and the economic cost of taking regulatory action against all such products at this time would not be justified. In light of these considerations, and the possibility of confusion over the act's requirements, FDA will allow a reasonable length of time for manufacturers and importers to deplete existing stocks of confectionery, including imports in transit, that contain alcoholic beverages at levels of ½ percent by volume or less. However, the agency may take immediate action against products—or persons responsible for them—that contain alcohol at a level over ½ percent by volume when calculated by the method described above, regardless of the source of the alcohol.

This notice is not intended to prohibit the manufacture of confectionery products containing alcoholic beverages when allowed under State law and when distributed solely within that State.

Dated: April 20, 1983.

Joseph P. Hile,

Associate Commissioner for Regulatory Affairs.

[FR Doc. 83-11133 Filed 4-25-83; 8:45 am]

BILLING CODE 4160-01-M

[Docket No. 83N-0112]

Antibody Search of Florida, Inc.; Revocation of U.S. License No. 823

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the revocation on March 10, 1983, of the establishment license (U.S. License No. 823) and product license issued to Antibody Search of Florida, Inc., 3870 San Jose Park Drive, Jacksonville, FL 32217, for the collection of Source Plasma (Human). On February 28, 1983, the firm notified the agency of its intent to waive the opportunity for a hearing regarding the proposed revocation.

EFFECTIVE DATE: The revocation of the establishment and product licenses was effective on March 10, 1983.

FOR FURTHER INFORMATION CONTACT: Rada Proehl, National Center for Drugs and Biologics (HFN-813), Food and Drug Administration, 8800 Rockville Pike, Bethesda, MD 20205, 301-443-1306.

SUPPLEMENTARY INFORMATION: FDA has revoked the establishment license (U.S. License No. 823) and product license issued to Antibody Search of Florida, Inc., 3870 San Jose Park Drive, Jacksonville, FL 32217, for the collection of Source Plasma (Human).

An inspection by FDA of Antibody Search of Florida, Inc., on August 18, 1982, revealed that the person serving as manager was unqualified to serve as a manager in such a licensed establishment. Following a subsequent investigation, FDA informed the firm of this and other important deviations from 21 CFR Parts 600 and 601 of the biologics regulations. These deviations included:

1. Failure to notify the agency of an important change in responsible personnel as required in 21 CFR 601.12: and

2. Willful disregard for the conditions of licensure and applicable regulations and an attempt to conceal violative conditions from FDA.

Because of the continuing nature of the noncompliance with the licensing and other applicable regulations and the willful concealment of important changes in responsible personnel, FDA concluded that the firm's promises of

corrective action would be insufficient to assure compliance with the regulations. In the absence of such assurance, FDA questioned the integrity of the entire operation of the firm, including qualification of personnel, accuracy of records, and conformance with applicable standards.

Because of the willfulness of the deviations and without providing opportunity for corrections of the deviations, as authorized in 21 CFR 601.5(b), FDA issued a letter on February 10, 1983, that notified the licensee of its intention to revoke U.S. License No. 823 and that set forth the grounds for, and offered an opportunity for a hearing on, the proposed revocation. Before further regulatory action was taken, as provided in 21 CFR 601.5(a), the licensee requested on February 28, 1983, that its establishment and product licenses be revoked and waived the opportunity for a hearing. The agency has granted the licensee's request.

Accordingly, under 21 CFR 12.38 and the Public Health Service Act (sec. 351, 58 Stat. 702 as amended (42 U.S.C. 262)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelgated to the Director, Office of Biologics (21 CFR 5.68), the establishment license (U.S. License No. 823) and product license issued to Antibody Search of Florida, Inc., for the collection of Source Plasma (Human) were revoked, effective March 10, 1983. This notice is issued and published under 21 CFR 601.8

Dated: April 19, 1983.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4160-01-M

[Docket No. 83M-0122]

CILCO™, Inc.; Premarket Approval of 1S and 1P 2-Loop Binkhorst Iridocapsular Intraocular Lenses

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing its approval of the application for premarket approval under the Medical Device Amendments of 1976 of the 1S and 1P 2-Loop Binkhorst Iridocapsular Intraocular Lenses sponsored by CILCO™, Inc., Huntington, WV. After reviewing the recommendation of the Ophthalmic Device Section of the Ophthalmic; Ear, Nose, and Throat; and Dental Devices Panel, FDA notified the sponsor that the application was approved because the device has been shown to be safe and effective for use as recommended in the submitted labeling.

DATE: Petitions for administrative review by May 26, 1983.

ADDRESS: Request for copies of the summary of safety and effectiveness data and petitions for administrative review may be sent to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Charles H. Kyper, National Center for Devices and Radiological Health (HFK-402), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301-427-7445.

SUPPLEMENTARY INFORMATION: On July 17, 1980, CILCO™, Inc., submitted to FDA an application for premarket approval of the 1S and 1P 2-Loop Binkhorst Iridocapsular Intraocular Lenses. The application was reviewed by the Ophthalmic Device Section of the Ophthalmic; Ear, Nose, and Throat; and Dental Devices Panel, an FDA advisory committee, which recommended approval of the application. On March 31, 1983, FDA approved the application by a letter to the sponsor from the Associate Director for Device Evaluation of the Office of Medical Devices. The 1S and 1P 2-Loop Binkhorst Iridocapsular Intraocular Lenses are indicated for primary implantation in persons 60 years of age and older for the viscul correction of aphakia where a cataractous lens has been removed by extracapsular extraction methods.

A summary of the safety and effectiveness data on which FDA's approval is based is on file in the Dockets Management Branch (address above) and is available upon request from that office. A copy of all approved final labeling is available for public inspection at the Office of Medical Devices—contact Charles H. Kyper (HFK-402), address above. Requests should be identified with the name of the device and the docket number found in brackets in the heading of this document.

Opportunity for Administrative Review

Section 515(d)(3) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360e(d)(3)) authorizes and interested person to petition under section 515(g) of the act (21 U.S.C. 360e(g)) for administrative review of FDA's decision to approve this application. A petitioner may request either a formal hearing under Part 12 (21 CFR Part 12) of FDA's administrative practices and procedures regulations or a review of the application and of FDA's action by an independent advisory committee of experts. A petition is to be in the form of a petition for reconsideration of FDA action under § 10.33(b) (21 CFR 10.33(b)). A petitioner shall identify the form of review requested (hearing or independent advisory committee) and shall submit with the petition supporting data and information showing that there is a genuine and substantial issue of material fact for resolution through administrative review. After reviewing the petition, FDA will decide whether to grant or deny the petition and will publish a notice of its decision in the **Federal Register**. If FDA grants the petition, the notice will state the issue to be reviewed, the form of review to be used, the persons who may participate in the review, the time and place where the review will occur, and other details.

Petitioners may, at any time on or before May 26, 1983, file with the Dockets Management Branch (address above) two copies of each petition and supporting data and information, identified with the name of the device and the docket number found in brackets in the heading of this document. Received petitions may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: April 19, 1983.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

Memorandum of Understanding With the United States Department of Agriculture, Agricultural Marketing Service

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) has executed a memorandum of understanding with the United States Department of Agriculture, Agricultural Marketing Service. This agreement sets forth the working arrangement being followed or adopted to enable the Agricultural Marketing Service and FDA to discharge, as effectively as possible, their responsibilities relating to the inspection, sampling, and examination of imported dates and date material.

EFFECTIVE DATE: March 28, 1983.

FOR FUTHER INFORMATION CONTACT: Walter J. Kustka, Intergovernmental and Industry Affairs Staff (HFC-50), Food

and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–1583.

SUPPLEMENTARY INFORMATION: In accordance with § 20.108(c) (21 CFR 20.108(c)) stating that all agreements and memoranda of understanding between FDA and others shall be published in the **Federal Register**, the agency is publishing the following memorandum of understanding:

Memorandum Of Understanding

Between the

United States Department of Agriculture, Agricultural Marketing Service

And the

Department of Health and Human Services, Food and Drug Administration

I. Purpose

This agreement sets forth the working arrangements being followed or adopted to enable the Agricultural Marketing Service (AMS) and the Food and Drug Administration (FDA) to discharge, as effectively as possible, their responsibilities relating to the inspection, sampling, and examination of imported dates and date material.

Statutes Relating to the Agreement

A. FDA is charged with the enforcement of the Federal Food, Drug, and Cosmetic Act. FDA inspects, samples, and examines imported dates and date products intended for processing to determine their status under this statute. One provision of the act deems a food to be adulterated if it consists in whole or in part of any filthy, putrid, or decomposed substance.

B. AMS is responsible for certifying that imported retail packages of dates or bulk dates intended for packaging meet the minimum grade and condition standards as outlined in section 608e of the Agricultural Marketing Agreement Act of 1937, as amended. These requirements recognize insect infestation, filth, and decomposition in dates as defects which may prohibit importation.

Nothing in this agreement shall lessen the responsibilities of AMS under the Agricultural Marketing Agreement Act of 1937; nor of FDA under the Federal Food, Drug, and Cosmetic Act.

III. Background

So that the responsibilities of both agencies could be efficiently carried out, an agreement concerning the inspection, sampling, and examination of whole dates, packaged or intended for packaging, was executed May 29, 1953. The agreement was subsequently amended October 7, 1963, and September 27, 1971. A revision was executed on November 21, 1977. This agreement replaces the Memorandum of Understanding as revised in November 1977.

IV. Substance of Agreement

A. In addition to evaluating dates for the grade condition requirements, AMS will:

1. Sample and examine at the time and place of entry all lots (except those of 70 pounds or less, or lots that are so denatured as to render them unfit for human consumption) of imported packaged dates or bulk dates that are declared for packaging. For the purpose of this agreement, a "lot" shall be considered that portion of an offering for import bearing a single identifying number or mark.

2. Examine the dates for insect infestation, filth, decomposition, and (if pitted) for pits or pit fragments in accordance with the revised method of analysis for dried fruit found in FDA's Microanalytical Manual, Section M13K.

3. Accept or reject lots of dates according to guidelines covering filth, decomposition, or insect infestation using the sequential analysis plan which appears as Table I of Section M13K of FDA's Microanalytical Manual.

4. Upon completion of the examination, promptly notify the appropriate FDA District Office:

(a) Of any lots found not to meet minimum acceptance criteria of this agreement because of pits or pit fragments, insect infestation, filth, or decomposition, and;

(b) Any cases about which there is any question regarding the laboratory examination results.

5. Upon request, provide FDA with a copy of each examination report which will contain information such as required in Table II of Section M13K.

6. Inform the Division of Microbiology, Bureau of Foods, FDA, of any requests for the reclassification of dates and date material and any action taken on those requests.

B. FDA will:

1. Sample and examine lots of dates or date material that are declared for use in processing.

2. Unless AMS is notified to the contrary:

(a) Accept the findings of AMS on any lot of dates sampled and inspected by them.

(b) Cause detention of any lot of dates rejected by AMS because it contains excess pits, or pit fragments, insect infestation, filth, and/or decomposed dates if offered for reentry by the importer for processing.

(c) Permit entry as dates for processing without resampling any lot of whole dates certified by AMS as failing to meet the minimum grade and condition requirements as outlined in Section 608e of the Agricultural Marketing Agreement Act of 1937, as amended. This will be done only for those lots which do not exceed the administrative tolerance for insect infestation, filth, or decomposed dates, and which are not otherwise in violation of the Federal Food, Drug, and Cosmetic Act.

3. Inform the appropriate AMS field office of any detentions of dates that might be offered for reentry for other than processing purposes.

V. Name and Address of Participating Agencies

Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857.

Agricultural Marketing Service, U.S. Department of Agriculture, 12th St. and Independence Ave. SW., Washington, DC 20250.

VI. Liaison Officers

A. For the Agricultural Marketing Service: Head, Grading Section, Processed Products Branch, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, 14th and Independence Ave. SW., Washington, DC 20250, 202–447–5021.

B. For the Food and Drug Administration: Chief, Microanalytical Branch (HFF–237), (currently Paris M. Brickey, Jr.), Division of Microbiology, Bureau of Foods, Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–245–1223.

VII. Period of Agreement:

This agreement, when accepted by both parties, will be effective indefinitely. It may be modified by mutual written consent or terminated by either party upon 30 days' written notice to the other.

Approved and Accepted for the Agricultural Marketing Service.

Eddie Kimbrell,

Deputy Administrator, Commodity Services.

March 16, 1983.

Approved and Accepted for the Food and Drug Administration

Joseph P. Hile,

Associate Commissioner for Regulatory Affairs.

March 28, 1983.

Effective date. This Memorandum of Understanding became effective March 28, 1983.

Dated: April 11, 1983.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4160–01–M

[Docket No. 83D–0120]

Revised Sequential Analysis Plan For Imported Dates and Date Material; Availability of Guide

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is annoucing the availability of FDA Compliance Policy Guide 7110.09 which has been revised to include a new sequential analysis plan that will appear as Table 1 of Section M13K in FDA's Microanalytical Manual. The sequential analysis plan is to be used for examinations of imported dates and date material.

DATE: Written comments by June 27, 1983.

ADDRESS: Written comments on the new sequential analysis plan used for examinations of imported dates and date material and requests for single copies of Compliance Policy Guide

7110.09 and the new sequential analysis plan may be submitted to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Raymond W. Gill, Bureau of Foods (HFF–312), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–245–3092.

SUPPLEMENTARY INFORMATION: The existing multi-class sequential analysis plan in Compliance Policy Guide 7110.09 for subsample examination of imported and domestic dates and date material rejects samples at a variable rate permitting FDA acceptance of imported dates and date material with defects above the 5 percent defect action level for mold, dirt, and insect infestation. Because of the year-to-year fluctuations in the conditions of dates that are to be exported to the United States, the quality of the commodity offered for entry cannot be predicted. Therefore, FDA developed the new sequential analysis plan for imported dates and date material, which will appear as Table I of Section M13K in FDA's Microanalytical Manual. The new plan will improve the speed of analytical operations and will reduce the amount of product required for conducting analyses. More important, it has a 95 percent statistical probability of rejecting lots of dates and date material that exceed the 5 percent defect action level.

Compliance Policy Guide 7110.09 is revised to contain the sequential analysis plan as follows:

SEQUENTIAL ANALYSIS PLAN FOR DATES

Number of dates examined [1]	Accept	Continue analysis	Reject No.
100	0	1 to 4	5
150	1	2 to 7	8
200	3	4 to 9	10
250	5	6 to 12	13
300	7	8 to 14	15
350	9	10 to 17	18
400	15	16 to 19	20
450	19	20 to 22	23
500	24		25

[1] Product is to be selected at random and as nearly equal in number as possible from each subsample in the sample.

Compliance Policy Guide 7110.09 also is revised to cross reference FDA's Microanalytical Manual, Section M13K, for (1) methodology in examination of the samples and (2) format used in reporting results of analysis.

Compliance Policy Guide 7110.09 also refers to a memorandum of understanding (MOU/FDA 225–72–2001) that exists between FDA and the U.S. Department of Agriculture (USDA) which sets forth the working arrangements for each agency with respect to the sampling, examination, and evaluation of imported dates and date material. As announced in a separate notice published elsewhere in this issue of the **Federal Register**, the existing MOU between FDA and the USDA Agricultural Marketing Service also was revised, effective March 28, 1983, to include the new sampling technique.

Requests for single copies of revised FDA Compliance Policy Guide 7110.09 (and the new sequential analysis plan) should reference the docket number found in brackets in the heading of this document and should be submitted in writing to the Dockets Management Branch (address above).

Interested persons may, on or before June 27, 1983, submit to the Dockets Management Branch written comments (preferably two copies and identified with the docket number found in brackets in the heading of this document) regarding revised FDA Compliance Policy Guide 7110.09. Received comments are available for examination in the office above, between 9 a.m. and 4 p.m., Monday through Friday.

Dated: April 11, 1983.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4160–15–M

Public Health Service

Health Maintenance Organizations; Health Central

AGENCY: Health Resources and Services Administration, HHS.

ACTION: Notice, continued regulation of health maintenance organizations: Reestablishment of compliance.

SUMMARY: On October 29, 1982, the Office of Health Maintenance Organizations (OHMO) notified Health Central, 17th and N Streets, Lincoln, Nebraska 68508, a federally qualified health maintenance organization (HMO), that Health Central had successfully reestablished compliance with its assurance to the Secretary that it would maintain a fiscally sound operation. This determination took effect on October 1, 1982.

FOR FURTHER INFORMATION CONTACT: Frank H. Suebold, Ph.D., Acting Associate Director for Health Maintenance Organizations, Bureau of Health Maintenance Organizations and Resources Development, Parklawn Building, Room 9–11, 5600 Fishers Lane, Rockville, Maryland 20857, 301/443–4106.

SUPPLEMENTARY INFORMATION: Under Section 1312(b)(1) of the Public Health Service Act (42 U.S.C. 300e–11(b)(1)), if the Secretary makes a determination under section 1312(a) that a qualified HMO is not organized or operated in the manner prescribed by section 1301(c), then the HMO shall be (1) notified in writing of the determination, and (2) directed to initiate corrective action to bring it into compliance with the assurances it provided to the Secretary under section 1310(d)(1). Section 1312(b)(1) also provides that the Secretary shall publish in the **Federal Register** notices of determinations made under that section.

On October 31, 1980, Health Central was officially notified that it was not in compliance with the assurances it had given the Secretary that it would maintain a fiscally sound operation. This determination of noncompliance, notice of which was published in the **Federal Register** at 46 FR 40093, did not affect Health Central's status as a federally qualified HMO. Subsequently, Health Central successfully implemented corrective action to return to compliance with its assurances. On October 29, 1982, Health Central was notified by OHMO that it had reestablished compliance with the assurances it had given the Secretary. This determination took effect on October 1, 1982.

Dated: April 18, 1983.

Robert Graham, M.D.,

Administrator, Assistant Surgeon General.

BILLING CODE 4160–16–M

Health Maintenance Organizations; Midwest Health Plan

AGENCY: Health Resources and Services Administration, HHS.

ACTION: Notice, continued regulation of health maintenance organizations: Reestablishment of compliance.

SUMMARY: On January 21, 1983, the Office of Health Maintenance Organizations (OHMO) notified Midwest Health Plan (MHP), 3415 Bridgeland Drive, Bridgeton, Missouri 63044, a federally qualified health maintenance organization (HMO), that MHP had successfully reestablished compliance with its assurances to the Secretary that it would (1) maintain a fiscally sound operation, and (2) maintain satisfactory administrative and managerial arrangements. This determination took effect on January 1, 1983.

FOR FURTHER INFORMATION CONTACT: Frank H. Seubold, Ph. D., Acting Associate Director for Health Maintenance Organizations, Bureau of Health Maintenance Organizations and Resources Development, Parklawn Building, Room 9–11, 5600 Fishers Lane, Rockville, Maryland 20857, 301/443–4106.

SUPPLEMENTARY INFORMATION: Under Section 1312(b)(1) of the Public Health Service Act (42 U.S.C. 300e–11(b)(1)), if the Secretary makes a determination under section 1312(a) that a qualified HMO is not organized or operated in the manner prescribed by section 1301(c), then the HMO shall be (1) notified in writing of the determination, and (2) directed to initiate corrective action to bring it into compliance with the assurances it provided to the Secretary under section 1310(d)(1). Section 1312(b)(1) also provides that the secretary shall publish in the **Federal Register** notices of determinations made under that section.

On September 16, 1982, MHP was officially notified that it was not in compliance with the assurances it had given the Secretary that it would (1) maintain a fiscally sound operation, and (2) maintain satisfactory administrative and managerial arrangements. This determination of noncompliance did not affect MHP's status as a federally qualified HMO. Subsequently, MHP successfully implemented corrective action to bring it into compliance with its assurances. On January 21, 1983, MHP was notified by OHMO that it had reestablished compliance with its assurances to the Secretary that it would (1) maintain a fiscally sound operation, and (2) maintain satisfactory administrative and managerial arrangements. This determination took effect on January 1, 1983.

BILLING CODE 4160–16–M

Health Maintenance Organizations; North Central Connecticut Health Maintenance Organization

AGENCY: Health Resources and Services Administration, HHS.

ACTION: Notice, continued regulation of health maintenance organizations: Reestablishment of compliance and change of name.

SUMMARY: On August 10, 1982, the Office of Health Maintenance Organizations (OHMO) notified Kaiser Foundation Health Plan, Inc. (KFHP), One Kaiser Plaza, Oakland, California 94612, that North Central Connecticut Health Maintenance Organization (NCC/HMO), 99 Ash Street, East Hartford, Connecticut 06101, a federally qualified health maintenance

organization (HMO), had successfully reestablished compliance with its assurances to the Secretary that it would (1) maintain a fiscally sound operation, (2) maintain satisfactory administrative and managerial arrangements, and (3) obtain the required contractual provisions with health professionals providing basic health services to its members. The reestablishment of compliance took effect on July 1, 1982, and was based primarily on the completion of an agreement between NCC/HMO and KFHP under which KFHP assumed the operation of NCC/HMO. This notice also reports a name change for NCC/HMO to Kaiser Foundation Health Plan of Connecticut, Inc. (KFHPC).

FOR FURTHER INFORMATION CONTACT: Frank H. Seubold, Ph.D., Acting Associate Director for Health Maintenance Organizations, Bureau of Health Maintenance Organizations and Resources Development, Parklawn Building, Room 9–11, 5600 Fishers Lane, Rockville, Maryland 20857, 301/443–4106.

SUPPLEMENTARY INFORMATION: Under Section 1312(b)(1) of the Public Health Service Act (42 U.S.C. 300e–11(b)(1)), if the Secretary makes a determination under section 1312(a) that a qualified HMO is not organized or operated in the manner prescribed by section 1301(c), then the HMO shall be (1) notified in writing of the determination, and (2) directed to initiate corrective action to bring it into compliance with the assurances it provided to the Secretary under section 1310(d)(1). Section 1312(b)(1) also provides that the Secretary shall publish in the **Federal Register** notices of determinations made under that section.

On April 8, 1981, NCC/HMO was officially notified that it was not in compliance with the assurances it had given the Secretary that it would (1) maintain a fiscally sound operation, (2) maintain satisfactory administration and managerial arrangements, and (3) obtain the required contractual provisions with health professionals providing basic health services to its members. This determination of noncompliance did not affect NCC/HMO's status as a federally qualified HMO Subsequently, the Board of Directors of NCC/HMO accepted an assumption proposal by KFHP. Under the assumption, which was approved on June 30, 1982, by the Insurance Commissioner of the State of Connecticut, the responsibility for continuing operation of NCC/HMO is shared by KFHP and Kaiser Foundation Hospitals.

On August 10, 1982, KFHP was notified by OHMO that NCC/HMO had reestablished compliance with its assurances to the Secretary that it would (1) maintain a fiscally sound operation, (2) maintain satisfactory administrative and managerial arrangements, and (3) obtain the required contractual provisions with health professionals providing basic health services to its members.

This determination took effect on July 1, 1982, and was based primarily on the assumption of the operation of NCC/HMO by KFHP. As a result of this assumption, the name of NCC/HMO was changed to Kaiser Foundation Health Plan of Connecticut, Inc. (KFHPC).

Dated: April 18, 1983.

Robert Graham, M.D.,

Administrator, Assistant Surgeon General.

BILLING CODE 4160–16–M

Grants to State Health Planning and Development Agencies Determination of Population of the States

AGENCY: Health Resources and Services Administration, Public Health Service, HHS.

ACTION: Notice Regarding Grants to State Health Planning and Development Agencies Determination of Population of the States.

SUMMARY: This notice provides the population figures the Department will use when it determines the amount of grants to State Health Planning and Development Agencies (State Agencies).

SUPPLEMENTARY INFORMATION: Section 1525 of the Public Health Service Act (added by the National Health Planning and Resources Development Act of 1974, Pub. L. 93–641 and the Health Planning and Resources Development Amendments of 1979, Pub. L. 96–79), authorized the Secretary of Health and Human Services to make grants (hereinafter referred to as "planning grants") to State Agencies to assist them to meet their operating costs. The amount of the planning grant is determined in accordance with a formula and is based in part on a determination by the Secretary of the population of the States. The formula is provided in the regulations governing grants to State Agencies (42 CFR Part 123, Subpart C). Section 123.204(b) of these regulations provides that the Secretary will determine the population of each State based upon the latest available estimate from the Department of Commerce, and will publish annually in the **Federal Register** a list of all States and their populations. This list is based on the "Estimates of the Population of States," provisional estimates for July 1, 1982, Bureau of the Census, Publication P–25, Number 927.

Accordingly, the Secretary has made the following determination of populations of the States.

Dated: April 19, 1983.

Robert Graham, M.D.,

Administrator, Assistant Surgeon General.

Population of the States for Purposes of Determination of Planning and Development Grants, Fiscal Year 1983

Alabama	3,943,000
Alaska	436,000

BILLING CODE 4160–16–M

Social Security Administration

Commonwealth of the Bahamas; Finding Regarding Foreign Social Insurance or Pension System

AGENCY: Social Security Administration, HHS.

ACTION: Notice of finding regarding foreign social insurance or pension system—Commonwealth of the Bahamas.

Finding: Section 202(t)(1) of the Social Security Act (42 U.S.C. 402(t)(1)) prohibits payment of monthly Social Security benefits to any individual who is not a United States citizen or national for any month after he or she has been outside the United States for six consecutive months. This prohibition does not apply to such an individual where one of the exceptions described in sections 202(t)(2) through 202(t)(5) of the Social Security Act (42 U.S.C. 402(t)(2) through (t)(5)) affects his or her case.

Section 202(t)(2) of the Social Security Act provides that the prohibition against payment shall not apply to any individual who is a citizen of a country which the Secretary of Health and Human Services finds has in effect a social insurance or pension system which is of general application in such country and which:

(a) Pays periodic benefits, or the actuarial equivalent thereof, on account of old-age retirement, or death; and

(b) Permits individuals who are United States citizens but not citizens of that country and who qualify for such benefits to receive those benefits, or the actuarial equivalent thereof, while outside the foreign country regardless of the duration of the absence.

The Secretary of Health and Human Services has delegated the authority to make such a finding to the Commissioner of Social Security. The Commissioner has redelegated that authority to the Director, Office of International Policy. Under that authority the Director, Office of International Policy, has approved a finding that the Commonwealth of the Bahamas, effective with October 7, 1974 has a social insurance system of general application which:

(a) Pays periodic benefits, or the actuarial equivalent thereof, on account of old-age, retirement, or death; and

(b) Permits U.S. citizens who are not citizens of the Commonwealth of the Bahamas to receive such benefits, or their actuarial equivalent, at the full rate without qualification or restriction while outside the Bahamas.

Accordingly, it is hereby determined and found that the Commonwealth of the Bahamas has in effect, beginning October 7, 1974, a social insurance system which meets the requirements of Section 202(t)(2) of the Social Security Act (42 U.S.C. 402(t)(2)).

BILLING CODE 4190-11-M

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

Salt River Indian Irrigation Project, Arizona; Operation & Maintenance Charges

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice.

SUMMARY: An interim rule which changed rates for operation and maintenance charges for delivery of irrigation water by the Salt River Indian Irrigation Project and established a charge for a new category entitled "spill water" (flood water not charged against apportionment) to be delivered through the irrigation facilities of the Salt River Indian Irrigation Project, was published in Volume 48, No. 28, of the **Federal Register** on Wednesday, February 9, 1983, Part 174 of Chapter 1 of 25 CFR to which this interim rule was to apply was rescinded in Volume 48, No. 35 of the **Federal Register** on Friday, February 18, 1983. This public notice which is in compliance with Part 171 of Chapter 1 of 25 CFR is published in lieu of a final rule and reply to the comments received regarding the interim rule. This notice will also fix the rate to reflect the actual cost of labor, materials, equipment, power, energy, and services for OM&R of the Salt River Indian Irrigation Project.

EFFECTIVE DATE: This notice becomes effective April 26, 1983.

FOR FURTHER INFORMATION CONTACT: James Barber, Coordinator, Salt River Agency, Rt 1, Box 117, Scottsdale, AZ 85256, telephone number (602) 261-2842.

SUPPLEMENTARY INFORMATION: This notice is issued by authority delegated to the Assistant Secretary for Indian Affairs by the Secretary of the Interior in 209 DM 8 and redelegated by the Deputy Assistant Secretary for Indian Affairs (Operations) to the Area Directors in 10 BIAM 3.

The Salt River Pima-Maricopa Indian Community, acting through their President, have opposed the establishment of a "spill water" rate. The President also noted that prior to the publishing of the interim rule, the operation and maintenance rate charged for excess water was $28.20

The Bureau of Indian Affairs, after careful consideration of all comments, has concluded that the spill water rate is necessary for the cost of delivering spill water.

Notice shall read as follows:

Salt River Indian Irrigation Project, Arizona

Annual Operation and Maintenance Charges

Basic Assessment—The basic operation and maintenance assessment against the lands under the Salt River Indian Irrigation Project in Arizona to which water can be delivered through the irrigation project works is hereby fixed at $13.20 per acre for the year 1983 and subsequent years until further notice. The payment of the per acre assessment shall entitle the land for which payment is made to receive three acre-feet of water per annum, or such lesser amount as represents the proportionate share of the available water.

Payment—The annual basic charge fixed above shall be due and payable on or before February 1 of each year unless changed by further notice. Charges not paid on the due date shall stand as a first lien against the lands until paid.

Delivery of Water—Delivery of water shall be refused to all tracts of land for which the basic charge remains unpaid on the due date except that water may be delivered (a) to irrigate Indian owned lands that are not under lease, permit, or other form of use by someone other than the Indian owner, upon the partial payment on or before the due date of not less than $2 per acre per annum of the basic charges; (b) to irrigate Indian owned lands not under lease, permits, or other form of use by someone other than the Indian owner when said owner is unable to pay any part of the basic charge, upon the performance of labor on project works and the prior agreement that he will pay from the proceeds received for such work at least

an amount equal to $3.50 per acre per annum; and (c) to irrigate not to exceed 10 acres of Indian owned land when the Superintendent is of the opinion that an Indian landowner is unable to meet the requirement of (a) and (b) of this section, when the Superintendent certifies to that fact. The Superintendent shall promptly furnish the director of the district, for approval or rejection, all such certifications. In such cases, covered by (a), (b), and (c) of this section, the unpaid charges shall be entered on the accounts and will stand as a first lien against the land until paid, without penalty.

Excess Water—Additional water in excess of the basic apportionment of three acre-feet per acre per annum may be purchased when the water is available at the rate of $29.08 per acre-foot or fraction thereof, measured at the farm delivery point. Payment shall be made in advance of delivery.The energy crisis has caused unpredictable rapid increases in the cost of electrical energy. In order to provide funds to purchase the necessary electrical power to operate the well pumps, the cost per acre-foot of excess water will be adjusted as the electrical energy supplier adjusts the rate at which electrical energy is supplied to the Salt River Indian Irrigation Project. Adjustment up or down will be made on the first day of the month following notification of the change in rates.

Spill Water—Spill water which is flood water not charged against the apportionment or as excess water, may be delivered when available at the rate of $6.75 per acre-foot or fraction thereof, if the basic assessment has been paid. Payment shall be made in advance of delivery.

Walter R. Mills,

Acting Assistant Area Director.

[FR Doc. 83-11032 Filed 4-25-83; 8:45 am]

BILLING CODE 4310-02-M

San Xavier Indian Irrigation Project, Arizona

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice.

SUMMARY: The purpose of this notice is to change the annual per acre assessment rate for the operation and maintenance of the irrigation facilities on the San Xavier Indian Irrigation Project to properly reflect the actual costs for labor, materials, equipment and services. The change is from $60 to $100 per assessable acre per annum.

EFFECTIVE DATE: This notice shall become effective April 26, 1983.

FOR FURTHER INFORMATION CONTACT: Curtis Nordwall, Superintendent, Bureau of Indian Affairs, Papago Indian Agency, Sells, Arizona 85634, telephone number (602) 383-7286.

SUPPLEMENTARY INFORMATION: This notice is issued by authority delegated to the Assistant Secretary for Indian Affairs by the Secretary of the Interior in 209 DM 8 and redelegated by the Deputy Assistant Secretary for Indian Affairs (Operations) to the Area Director in 10 BIAM 3.

The operation and maintenance rate at the San Xavier Indian Irrigation Project has not been changed since 1975 when it was fixed at $60 per acre. The costs of labor, materials, power and energy have continued to increase each year until costs now exceed revenue from current charges.

An analysis of the cost of operation and maintenance of the San Xavier Indian Irrigation Project was made and discussed with individual farmers and advertised in two local newspapers. Comments received were carefully considered in arriving at the new rate.

The notice will read as follows:

San Xavier Indian Irrigation Project, Arizona

Annual Operation and Maintenance Charges

Charges—The annual basic operation and maintenance assessment rate for land to which water can be delivered under the San Xavier Indian Irrigation Project, Arizona, is hereby fixed at $100.00 per acre whether the water is used or not. Non-Indian owned land and Indian owned land leased to non-Indians shall pay the full assessment rate. Indian owned and operated land and Indian land leased and operated by Indians shall pay a rate determined by the Superintendent based on the Indian owner's financial ability to pay, but not to exceed the established basic assessment rate, and shall be fixed prior to billing. The payment of assessment rate shall entitle the water user to his prorated share of the water as determined by the production capacity of the wells and/or the availability of funds to pay the pumping operation and maintenance costs.

Payments—The annual basic water charge shall become due and payable on or before March 1 of each year, and any unpaid charges shall stand as a first lien against the land without penalty until paid.

Delivery—Delivery of water shall be refused to all tracts of land for which the charges have not been paid except where the lands are in Indian ownership, not under lease to non-Indians, and the Indian owners are financially unable to pay the assessment when due. In such instances, water may be delivered under the following conditions:

1. The Indian owner shall make necessary arrangements with the Superintendent to pay the assessment from proceeds derived from labor performed on the project works as authorized by the Superintendent, or from proceeds of crops grown on the land when harvested and marketed within that calendar year.

2. In any instances where the Superintendent is convinced that an Indian landowner, whose land is not under lease to a non-Indian, is financially unable to pay his assessment from proceeds for labor performed on the project works, or from the proceeds of crops grown on the land, or from any other source, water may be delivered following certification by the Superintendent to the official in charge of the irrigation project that such Indian is financially unable to pay the assessment.

Water Users Responsibility—The water users are responsible for the water after it has been delivered to their lands, and are required to have their field ditches of proper capacity and in suitable condition for the economical use of the irrigation water.

Distribution and Apportionment—All water of the project is deemed a common water supply in which all irrigable lands of the project are entitled to share equally, and such water will be distributed to the lands of the project as equitably as physical conditions will permit.

Walter R. Mills,

Acting Assistant Area Director.

BILLING CODE 4310-02-M

Bureau of Land Management

[Realty Action, I-18531]

Competitive Sale of Public Lands in Caribou, Bear Lake and Franklin Counties, Idaho

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The following described land has been examined, and through the development of land use decisions based on public input, it has been determined that the sale of these tracts are consistent with Section 203(a) of the Federal Land Policy and Management Act of 1976. The lands will be offered for

sale at public auction for no less than the appraised fair market value indicated below. Both sealed and oral bids will be accepted.

	Acres	Value
Tract #2: T. 10 S., R. 41 E., B.M., Sec. 28: NW¼NW¼	40	$4,000
Tract #3: T. 11 S., R. 44 E., B.M., Sec. 8: NW¼SE¼	40	6,000
Tract #8: T. 13 S., R. 40 E., B.M., Sec. 31: N½SE¼NE¼, SE¼SE¼NE¼, E½SW¼SE¼NE¼	35	7,000

The above aggregates 115 acres.

Upon publication of this Notice in the **Federal Register**, the land described above will be segregated from all forms of appropriation under the public land laws, including the mining laws, but excepting the mineral leasing laws, for a period of two years, or until the lands are sold. The segregative effect may otherwise be terminated by the Authorized Officer by publication of a termination notice in the **Federal Register** prior to the expiration of the two-year period.

The lands will be subject to the following reservations when patented:

1. Ditches and Canals
2. Mineral Reservation
3. Subject to All Existing Rights

DATE: The public auction will be held on June 28, 1983 at 10:00 a.m.

ADDRESSES: The public auction will be held at the Soda Springs Resource Area Office, 490 East 2nd. South, Soda Springs, Idaho. Additional information concerning these lands, terms and conditions of the sale and bidding instructions may be obtained from Marvin R. Bagley, Area Manager, at the Soda Springs Resource Area Office, 490 East 2nd. South, Soda Springs, Idaho or by calling (208) 547–2161 during office hours.

SUPPLEMENTARY INFORMATION: For a period of 45 days from the date of this notice, interested parties may submit comments to the District Manager regarding the proposed action. Any adverse comments will be evaluated by the District Manager who may vacate or modify this realty action and issue a final determination. In the absence of any action by the District Manager, this realty action will become the final determination of the Department of the Interior.

For further information contact O'dell Frandsen, District Manager, Bureau of Land Management, 940 Lincoln Road, Idaho Falls, Idaho 83401.

Dated: April 18, 1983.

W. Bernard Jansen,

Acting District Manager.

BILLING CODE 4310–84–M

[U–23166]

Termination of Proposed Withdrawal and Reservation of Lands

Notice of a proposed withdrawal application by the Bureau of Land Management was published as **Federal Register** Document 75–6568 on page 11759 on March 13, 1975. This application has been cancelled. Pursuant to the regulations contained in 43 CFR 2310.1–4, the segregative effect of the lands involved, 4,999.62 acres, will be terminated at 8:00 a.m. on May 25, 1983.

Dated: April 18, 1983.

Darrell Barnes,

Chief, Branch of Lands and Minerals Operations.

BILLING CODE 4310–84–M

[N–35376]

Realty Action—Noncompetitive Sale of Public Land In Mineral County, Nevada

April 18, 1983.

The following described land, comprising 2.5 acres, has been examined and identified as suitable for sale under Section 203 of the Federal Land Policy and Management Act of October 21, 1976 (90 Stat. 2750), 43 U.S.C. 1713:

Mount Diablo Meridian, Nevada

T. 7 N., R. 34 E.,
Sec. 25: SW¼SE¼NW¼NE¼.

The land will be offered at the appraised fair market value under noncompetitive sale procedures to Gertrude L. Buffington, the adjacent landowner. Mrs. Buffington recently discovered through a land survey that two of her buildings and other valuable improvements are located on the subject land. Noncompetitive sale is considered to be the best way to protect Mrs. Buffington's investment and to resolve the unauthorized occupancy of public land. The land is not needed in support of any federal program. The Bureau's planning system identifies the land as open to all forms of appropriations and disposal. Sale of the land is consistent with local planning and zoning.

Patent, if and when issued, will contain the following reservations to the United States:

1. A right-of-way thereon for ditches and canals constructed by the authority of the United States; Act of August 30, 1890, 26 Stat. 391; 43 U.S.C. 945.

2. All mineral deposits in land so patented, and to it, or persons authorized by it, the right to prospect, mine and remove such deposits from the same under applicable law and such regulations as the Secretary of the Interior may prescribe.

And will be subject to:

1. Those rights for highway purposes which have been granted to the State of Nevada, Department of Transportation, its successors or assigns, by Right-of-Way Grant CC–020631.

Detailed information concerning the sale is available for review at the Carson City District Office, 1050 E. William Street, Suite 335, Carson City, Nevada.

The land will not be offered for sale sooner than 60 days after the date of this notice. For a period of 45 days from the first publication of this notice, interested parties may submit comments to the District Manager, Carson City District Office of the Bureau of Land Management, 1050 E. William Street, Suite 335, Carson City, Nevada 89701. Any adverse comments will be evaluated by the District Manager and forwarded to the Nevada State Director, Bureau of Land Management, who may vacate or modify this realty action and issue a final determination. In the absence of any action by the State Director, this realty action will become the final determination of the Department of the Interior.

James W. Elliott,

Acting District Manager, Carson City District.

[FR Doc. 83–11010 Filed 4–25–83; 8:45 am]

BILLING CODE 4310–84–M

[INT DEIS 83–24]

Proposed Livestock Grazing Management for the South Sierra Foothills Planning Area, Bakersfield District, California

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Bureau of Land Management has prepared a draft environmental impact statement concerning a proposed grazing management program for the South Sierra Foothills Planning Area in Kern and Tulare Counties in California. The proposed action would continue present livestock grazing management practices on the approximately 198,113 acres presently under grazing authorization. Other alternatives analyzed include: Livestock Maximization, Resource Protection, Balanced Resource Use, and No Grazing.

Comments on the Draft Environmental Impact Statement are being solicited from public agencies and interested individuals and entities. The Bureau of Land Management invites written comments on the statement to be submitted by June 13, 1983 to the Area Manager, Caliente Resource Area, Bureau of Land Management, 520 Butte Street, Bakersfield, CA 93305; Attn: South Sierra Foothills Grazing EIS.

A limited number of copies of the document are available upon request at the Bakersfield District Office (805) 861–4191, and the California State Office, Bureau of Land Management, 2800 Cottage Way, Sacramento, CA 95825; (916) 484–4701.

In addition to the above offices, copies of this EIS are available for public reading and review at: Division of Rangeland Management, Bureau of Land Management, Premier Building, Rm 909–H, Washington, D.C. 90006.

Ed Hastey,

State Director.

BILLING CODE 4310–84–M

Land Use Analysis and Proposed Realty Action; Colorado

Summary: This notice issued pursuant to 43 CFR 1600 and 2700, invites public review and comment on preliminary issues and planning criteria to be used in evaluating a proposal to offer for public sale certain public lands located in Cheyenne and Yuma Counties, Colorado.

The proposed planning action involves preparation of an environmental assessment utilizing input received from the public. The environmental assessment to be issued on or about May 25, 1983, will be prepared in accordance with 40 CFR 1500 and will include a determination of the proposed action's consistency with the policies and programs of local, state and other federal agencies. A decision statement will then be issued by the District Manager with the concurrence of the State Director allowing a thirty day protest period (43 CFR 1601.6–1).

The public lands being considered for public sale are:

County	Ownship and range	Section	Acres
Cheyenne	16S., 47W., 6th PM.	2, Lot 5	76.70
Cheyenne	16S., 45W., 6th PM.	4, Lot 12	85.23
Cheyenne	16S., 45W., 6th PM.	22, Lots 5 and 6.	79.13
Cheyenne	16S., 45W., 6th PM.	28, Lots 5 and 6.	78.90
Cheyenne County total.	.....	.....	299.96
Yuma	5S., 45W., 6th PM.	27, Lots 12 and 13.	79.74
Yuma	5S., 45W., 6th PM.	31, Lot 4	40.00
Yuma	5S., 45W., 6th PM.	32, SW¼4NE¼.	40.00
Yuma	5S., 45W., 6th PM.	32, SW¼4SW¼.	40.00
Yuma County total.	.....	.....	199.74

If found suitable, these lands will be offered for public sale at fair market value with all minerals reserved to the United States.

Preliminary issues identified include: economics of continued management as part of the public lands, rights of permittees and leasees, interests of adjoining landowners, and consistency with the plans and programs of other government entities.

Planning criteria to be used in evaluating the proposal are:

1. Public lands may be offered for public sale when such lands, because of location or other characteristics, are difficult and uneconomic to manage and are not suitable for management by another Federal, state or local public entity.

2. Disposal will serve important public objective which outweigh public objectives and values which would be served by maintaining such land in Federal ownership.

The interdisciplinary team performing the land use analysis/environmental assessment represent the following disciplines: Realty, Wildlife, Geology, Hydrology, Cultural Resources, Recreation and Economics.

Public participation will be obtained by a public comment period initiated by this notice. Comments received on or before May 18, 1983 will be considered.

Comments or requests for further information should be addressed to: Frank Young, Area Manager, 10200 W. 44th Avenue, Wheatridge, Colorado 80033; phone (303) 234–4988.

Copies of the environmental assessment will be available for review at the Northeast Resources Area office listed above, and at the Canon City District Office, 3080 East Main Street, Canon City, Colorado 81212.

Supplementary information: This proposed action results from, and is consistent with, issues and criteria developed with public participation for the Northeast Resource Management Plan, initiated in March 1981. The Resource Management Plan is scheduled for completion in 1984. The planning process as it applies to the lands described herein, is being expedited to improve management efficiency and to be responsive to expressions of public interest.

Melvin D. Clausen,

District Manager.

BILLING CODE 4310–84–M

Bureau of Reclamation

Quarterly Status Tabulation of Water Service and Repayment Contract Negotiations; Proposed Contractual Actions Pending Through June 1983

Pursuant to section 226 of the Reclamation Reform Act of 1982 (96 Stat. 1261), the Department of the Interior must afford the affected public an opportunity to be aware of and to provide comments on water service and repayment contract negotiations being conducted by the Bureau of Reclamation. Pursuant to the "Final Revised Public Participation Procedures" for water service and repayment contract negotiations, published in the **Federal Register** February 22, 1982, Vol. 47, page 7763, and the Reclamation Reform Act, a tabulation is provided below of proposed contractual actions in each of the seven Reclamation regions. Each proposed action listed is, or is expected to be, in some stage of the contract negotiation process during April, May, or June of 1983. When contract negotiations are completed, and prior to execution, each proposed contract form must be approved by the Secretary, or pursuant to delegated or redelegated authority, the Commissioner of Reclamation or one of the Regional Directors. In some instances, congressional review and approval of a report, water rate, or other terms and conditions of the contract may be involved. The identity of the approving officer and other information pertaining to a specific contract proposal may be obtained by calling or writing the appropriate regional office at the addresses and telephone numbers given for each region.

This notice is one of a variety of means being used to inform the public about proposed contractual actions. Some of the actions listed have been publicized in the **Federal Register** previously. When this is the case, the date of publication is given. Individual notice of intent to negotiate, and other appropriate announcements, will be made in the **Federal Register** for those actions found to have widespread public interest. In addition, a wide variety of local publicity resources are being used

selectively to inform the public affected by a specific contract proposal.

10. Willamette Basin water users, Willamette Basin Project, Oregon; Water service contracts; $1.25 per acre-foot or $20 minimum per annum, not to exceed 320 acres or 1,000 acre-feet of water annually per contractor for terms up to 40 years.

11. Granger ID, Yakima Project, Washington; R&B loan repayment contract; $1,111,000 proposed obligation.

12. Sunnyside Valley Board of Control, Yakima Project, Washington; R&B loan repayment contract; $15,901,000 proposed obligation.

13. Washington Water Power Company, Inc., Columbia Basin Project, Washington; Industrial water service contract; 32,000 acre-feet of water per year from Franklin D. Roosevelt Lake for the proposed Creston Powerplant; FR notice published December 11, 1982, Vol. 46, page 60658.

14. Cascade Reservoir Water Users, Boise Project, Idaho; Irrigation repayment contracts; 57,251 acre-feet of stored water in Cascade Reservoir.

15. Boise Water Corporation, Boise Project, Idaho; Short-term (2 years) M&I water service contract; up to 5,000 acre-feet annually from stored water in Lucky Peak Reservoir.

Mid-Pacific Region

Bureau of Reclamation, (Federal Office Building) 2800 Cottage Way, Sacramento, CA 95825, telephone (916) 484–4680.

1. El Dorado ID and El Dorado County Water Agency, CVP, California; Coordinated CVP/SOFAR Project operations and water service contract; 12,400 acre-feet with construction of Auburn Dam.

2. El Dorado ID, CVP, California; Amendatory water service contract; 1,000 acre-feet municipal and industrial water supply for service from Folsom Lake to the El Dorado Hills area.

3. 4-E Water District, CVP, California; Water service contract; 80 acre-feet; FR notice published October 3, 1979, Vol. 44, page 56991.

4. 2047 Drain Water Users Association, CVP, California; Water right settlement contract; FR notice published July 25, 1979, Vol. 44, page 43535.

5. Stockton-East Water District, CVP, California; Interim water service contract; 75,000 acre-feet from New Melones Reservoir; FR notice published February 5, 1982; Vol. 47, page 5473.

6. Central San Joaquin Water Conservation District, CVP, California; Water service contract; 49,000 acre-feet firm supply and 39,000 acre-feet interim supplies from New Melcones Reservoir; FR notice published February 5, 1982, Vol. 47, page 5473.

7. Tuolumne Regional Water District, CVP, California; Water service contract; 3,200 acre-feet from New Melones Reservoir; FR notice published February 5, 1982, Vol. 47, page 5473.

8. Calaveras County Water District, CVP, California; Water service contract; 500 acre-feet from New Melones Reservoir; FR notice published February 5, 1982, Vol. 47, page 5473.

9. Solano ID, Solano Project, California; Amendatory loan contract providing for reconveyance and M&I water supply delivery.

10. Carson-Truckee Water Conservancy District, Washoe Project, California/Nevada; Interim water service contract; 10,000 acre-feet; FR notice published May 14, 1981, Vol. 46, page 26705.

11. Miscellaneous Water Users, Mid-Pacific Region, California, Oregon and Nevada; Temporary (interim) water service contracts for surplus project water; Maximum of 10,000 acre-feet annually per contractor for irrigation and maximum of 2,000 acre-feet annually per M&I contractor for terms up to 2 years.

12. State of California, Department of Water Resources, CVP, California; Interim water service contract for approximately 500,000 acre-feet.

13. Madera ID, CVP, California; Agreement for conveyance of non-project water in Millerton Lake and Madera Canal; Maximum of 50 cfs, Friant Unit.

14. Pacheco Water District, CVP, California; Amendatory water service contract providing for a change in point of delivery from Delta-Mendota Canal to the San Luis Canal.

15. City of Redding, CVP, California; Agreement for operation of the City of Redding's Lake Redding Power Project and resolution of potential impacts on Keswick Powerplant.

16. South San Joaquin ID and Oakdale ID, CVP, California; Operating agreement for conjunction operation of New Melones Dam and Reservoir on the Stanislaus River; FR notice published June 6, 1979, Vol. 44, page 32483.

17. City of Santa Barbara, Cachuma Project, California; Agreement for conveyance of non-project water through Lauro Reservoir, Maximum of 21 cfs.

18. Yuba County Water Agency, South County Irrigation Project, SRPA, California; Loan repayment contract; $21,600,000 proposed obligation.

19. County of San Benito, San Felipe Division, CVP, California; Repayment recreation agreement, will provide

recreation facilities in an area that now has a deficit of recreation areas.

20. Santa Barbara County, Cachuma Project, California, Recreation Management Agreement will provide funds for recreation development to a project with heavy visitor use.

21. Broadview Water District, CVP, California; Amendatory water service contract providing for a change in point of delivery from Delta-Mendota Canal to the San Luis Canal.

22. The Westside Irrigation District, CVP, California, Amendment to existing water service contract to provide for transportation of District owned water rights through the Delta-Mendota Canal.

23. City of Avenal, CVP, California, Amendment of existing water service contract to provide for furnishing project power to city canalside relift facilities.

24. Colusa County Water District, CVP, California, Amendatory water service and repayment contract to provide for delivery of M&I water and to provide additional water.

25. Colusa County Water District, CVP, California, Distribution System Loan repayment contract; $12,346,700 proposed obligation.

26. Glide Water District, CVP, California, Distribution System Loan repayment contract; $4,900,000 proposed obligation.

27. Oakdale Irrigation District, SRPA, California, Loan repayment contract; $17,845,000 proposed obligation.

Upper Colorado Region

Bureau of Reclamation, P.O. Box 11568 (125 South State Street), Salt Lake City, UT 84147, telephone (801) 524–5435.

1. Miscellaneous water users, Upper Colorado Region, Utah, Wyoming, Colorado, and New Mexico; Temporary (interim) water service contracts for surplus project water; Maximum of 10,000 acre-feet annually per contractor for irrigation and maximum of 2,000 acre-feet annually per M&I contractor for terms up to 2 years.

2. Ute Mountain Ute Tribe and Bureau of Indian Affairs, Dolores Project, Colorado. Repayment contract; 1,000 acre-feet per year for M&I use; 22,900 acre-feet per year for irrigation; FR notice published September 10, 1980, Vol. 45, No. 177, page 59642.

3. Fontenelle (Chevron) State of Wyoming, Seedskadee Project, Wyoming; Water sales contract for 22,500 acre-feet per year for industrial use. Environmental Impact Statement under preparation; approval pending outcome. FR notice published January 26, 1983, Vol. 48, No. 18, page 3662.

4. Animas-La Plata Conservancy District, Animas-La Plata, Colorado; Water service contract; 9,200 acre-feet per year for M&I use; 72,200 acre-feet per year for irrigation; FR notice published April 17, 1981, Vol. 46, No. 74, page 22474.

5. La Plata Conservancy District, Animas-La Plata Project, New Mexico; Water service contract; 16,000 acre-feet per year for irrigation; FR notice published April 17, 1981, Vol. 46, No. 74, page 22474.

6. City of Farmington, Animas-La Plata Project, New Mexico; M&I water service contract; 19,700 acre-feet per year; FR notice published April 17, 1981, Vol. 46, No. 74, page 22474.

7. City of Aztec, Animas-La Plata Project, New Mexico; M&I water service contract; 5,800 acre-feet per year; FR notice published April 17, 1981, Vol. 46, No. 74, page 22474.

8. City of Bloomfield, Animas-La Plata Project, New Mexico; M&I water service contract; 5,300 acre-feet per year; FR notice published April 17, 1981, vol. 46, No. 74, page 22474.

9. Central Utah Project, Bonneville Unit, Utah; Supplemental M&I repayment contract for 99,000 acre-feet per year; FR notice published August 22, 1980, Vol. 45, No. 165, page 56199; will resume negotiations.

10. Ogden River Water Users Association, Weber Basin Project, Utah; Emergency loan of $435,000 to stabilize and reinforce surge tank foundation; negotiations have been completed and execution of contract expected after Board meeting in mid-April, FR notice published January 26, 1983, Vol. 48, No. 18, page 3661.

11. Preston-Whitney Irrigation Company, North Cache Water Development Project, Idaho, Small Reclamation Project Act, P.L. 84–984. Repayment contract for $26,000,000. Federal loan to convert open ditch system with individual pumps for sprinkler pressurization to a closed pipe gravity pressurized system.

Lower Colorado Region

Bureau of Reclamation, P.O. Box 426 (Nevada Highway and Park Street), Boulder City, NV 89005, telephone (702) 293–8536.

1. Lake Havasu IDD for Horizon Six and Ansazi Pueblo, Boulder Canyon Project, Arizona; M&I water service contracts for 170 and 131 acre-feet per year, respectively. Contract execution pending approval and/or request for negotiating sessions by Lake Havasu IDD and submission of subcontracts for Bureau approval.

2. City of Yuma, Boulder Canyon Project, Arizona; Supplemental and amendatory M&I water service contract; 3,613 acre-feet.

3. Agricultural and M&I water users, Central Arizona Project, Arizona; Water service subcontracts; A certain percent of available suply for irrigation entities and up to 640,000 acre-feet for M&I use.

4. Roosevelt Water Conservation District, Higley, Arizona; R&B loan contract; $7,474,424; FR notice published March 30, 1979, Vol. 44, page 19048.

5. Roosevelt ID, Buckeye, Arizona; SRPA loan contract; $10,560,000; FR notice published December 9, 1980, Vol. 45, page 81130.

6. Ramona Municipal Water District, Ramona, California; SRPA loan contract; $19,224,000.

7. Fallbrook Public Utility District, Fallbrook, California; SRPA loan contract; $12,445,400.

8. Rainbow Municipal Water District, Fallbrook, California; SRPA loan amendatory contract; $9,090,800 cost escalation adjustment; FR notice published May 24, 1979, Vol. 44, page 30173.

9. Agricultural and M&I water users, Central Arizona Project, Arizona; Contracts for repayment of Federal expenditures for construction of distribution systems.

10. National Park Service; Contract for delivery of up to 55 acre-feet of water per year from the Boulder City, Nevada, water supply system for use in the Lake Mead National Recreation Area.

Southwest Region

Bureau of Reclamation, Commerce Building, Suite 201, 714 South Tyler, Amarillo, TX 79101, telephone (806) 378–5430.

1. Village of Questa, San Juan-Chama Project, New Mexico; M&I water service contract for 200 acre-feet annually; FR notice published January 25, 1980, Volume 45, page 6178.

2. City of Belen, San Juan-Chama Project, New Mexico; M&I water service contract for 500 acre-feet annually. FR notice published April 16, 1982, Vol. 47, Page 1782.

3. Fort Cobb Reservoir Master Conservancy District, Washita Basin Project, Oklahoma; Amendatory repayment contract to convert 4,700 acre-feet of irrigation water to M&I use; FR notice published August 13, 1981, Vol. 46, page 40940.

4. Foss Reservoir Master Conservancy District, Washita Basin Project, Oklahoma; Amendatory repayment contract for remedial work. Necessity of amendment is dependent upon outcome of pending Safety of Dams legislation, S. 956 and H.R. 3208.

5. Harlingen Irrigation District, Lower Rio Grande Valley, Texas; the existing Small Reclamation Project Act loan

repayment contract will require an amendment to provide for the collection of an interest payment for M&I water deliveries by the district. Correction of this deficiency is a prerequisite for eligibility to receive additional benefits through an R&B loan sought by the district.

6. Vermejo Conservancy District, Vermejo Project, New Mexico; Amendatory contract to relieve the district of further repayment obligation, presently exceeding $2 million, pursuant to Public Law 96–550.

7. State of Oklahoma, McGee Creek Project, Oklahoma; Repayment contract for State's share of costs associated with development of recreation facilities and certain fish and wildlife facilities; Obligation will be negotiated in accordance with the Federal Water Project Recreation Act (PL 89–72), as amended.

8. State of Colorado, Closed Basin Division, San Luis Valley Project; Repayment contract for State's share of costs associated with development of recreation facilities and certain fish and wildlife facilities; Obligation will be negotiated in accordance with the Federal Water Project Recreation Act (PL 98–72), as amended; FR notice published February 12, 1982, Vol. 47, page 6493.

9. Arch Hurley Conservancy District, Tucumcari Project, New Mexico; R&B of project irrigation distribution system primarily dedicated to lining canals to conserve water.

10. New Mexico Interstate Stream Commission, San Juan-Chama Project, New Mexico; Interim irrigation water service contract for up to 2,000 acre-feet of water. The charge is expected to be approximately $8 per acre-foot.

11. San Angelo Water Supply Corporation, San Angelo, Texas; amendment of existing repayment contract is necessary to reinstate an earlier contractual provision whereby the contractor is granted a credit against its annual payment for costs incurred related to the O&M of nonreimbursable project purposes such as flood control and fish and wildlife.

Upper Missouri Region

Bureau of Reclamation, P.O. Box 2553, Federal Building, 316 North 26th Street, Billings, Montana 59103, Telephone (406) 657–6413.

1. Miscellaneous Water Users, Upper Missouri Region, Montana, Wyoming, North Dakota, and South Dakota; Temporary (interim) water service contracts for surplus project water; Maximum of 10,000 acre-feet annually per contractor for irrigation and maximum of 2,000 acre-feet annually per M&I contractor for terms of up to 2 years.

2. Individual Irrigators, Canyon Ferry Unit, P–SMBP, Montana; Irrigation water service contracts not to exceed 320 acres or 1,000 acre-feet of water annually per contractor for terms up to 40 years.

3. Crook County ID (formerly Belle Fourche-Wyoming Water Association), Keyhole Unit, P–SMBP, Wyoming; Repayment contract for irrigation storage; 10 percent (presently 18,500 acre-feet) of Keyhole Reservoir storage space as provided by Belle Fourche River Compact; FR notice published August 21, 1980, Vol. 45, page 55842.

4. Belle River Pumpers Association, Keyhole Unit, P–SMBP, Wyoming; Repayment contract for irrigation storage; 3 percent (presently 5,500 acre-feet) of Keyhole Reservoir storage space; FR notice published March 29, 1982, Vol. 7, page 13234.

5. Montana Power Company, Yellowtail Unit, P–SMBP, Montana; Industrial water service contract; 6,000 acre-feet of water annually for Colstrip Power Complex; FR notice published February 3, 1981, Vol. 46, Page 10544.

6. Deaver ID, Shoshone Project, Wyoming; R&B loan repayment contract; Up to $1.6 million; FR notice published April 21, 1982, Vol. 47, Page 17118.

7. Nokota Company, Lake Sakakawea, P–SMBP, North Dakota; Industrial water service contract; Up to 16,800 acre-feet of water annually; FR notice published May 5, 1982, Vol. 47 Page 19472.

8. State of Wyoming, Buffalo Bill Dam Modifications, P-SMBP, Wyoming; contract with State of Wyoming for division of additional water impounded, sharing of revenues, and sharing of costs to construct, operate, and maintain modification of the existing Buffalo Bill Dam and Reservoir.

9. WEB Rural Water Development Project, South Dakota; Grant and loan program for rural water facilities; To bring water to approximately 30,000 people and 50 rural communities.

10. Helena Valley ID, P–SMBP, Montana; R&B loan repayment contract; Up to $2.2 million.

11. Fort Shaw ID, Sun River Project, Montana; R&D loan repayment contract; Up to $1.5 million.

12. Individual Irrigators, Heart Butte Unit, Pick-Sloan Missouri Basin Program, North Dakota; Irrigation water service contracts; Water supply to be furnished from Heart Butte Reservoir (Lake Tschida) totaling up to 2 acre-feet per acre annually for application on up to 320 acres per individual contractor for irrigation purposes; Contract term up to 20 years.

13. East Bench Gravity Company, Dillon, Montana; Small Reclamation Projects Act loan repayment contract; Loan amount up to $4.383 million; Loan purpose to convert existing open ditch lateral to closed pipe system and provide gravity pressure to operate sprinker systems.

14. Buffalo Rapids Irrigation District No. 2, Buffalo Rapids Project, Montana; Small Reclamation Projects Act loan repayment contract; Loan amount up to $1.409 million; Loan purpose to rehabilitate pumping plants and portions of lateral and canal system to improve water use efficiency.

15. Galsgow Irrigation District, Milk River Project, Montana; Rehabilitation and Betterment Act loan repayment contract; Loan amount up to $2.2 million.

16. Irrigation Districts and Similar Water User Entities in Montana, North Dakota, South Dakota, and Wyoming; Amendatory repayment and water service contracts; Purpose to conform to the Reclamation Reform Act of 1982 (Pub. L. 97–293); Up to 50 amendatory contracts are expected by April 1987.

Lower Missouri Region

Bureau of Reclamation, P.O. Box 25247 (Building 20, Denver Federal Center), Denver, Colorado 80225, telephone (303) 234–3327.

1. H&RW ID, Frenchman-Cambridge Unit, P–SMBP, Nebraska; Amendatory water service contract; $1,200,000 outstanding; FR notice published February 5, 1982, Vol. 47, Page 5472.

2. City of Cheyenne, Kendrick Project, Wyoming; Interim water storage contract; 10,000 acre-feet; FR notice published April 28, 1982, Vol. 47, Page 18187.

3. Central Nebraska Public Power and ID, Glendo Unit, P–SMBP, Nebraska; Irrigation water service contract; 8,000 acre-feet; FR notice published February 7, 1980, Vol. 45, Page 8364.

4. Purgatoire River Water Conservancy District, Trinidad Project, Colorado; Repayment contract for extension of the development period and revision of the repayment determination methodology; FR notice published September 28, 1982, Vol. 47, page 42642.

5. Frenchman-Cambridge ID, Frenchman-Cambridge Division, P–SMBP, Nebraska; Amendatory R&B contract; Increases current R&B program obligation of $4.4 million to $5.5 million; FR notice published November 10, 1982, Vol. 47, page 51009.

6. Casper-Alcova ID, Kendrick Project, Wyoming; Amendator contract to provide water service to subdivided

district lands; FR notice published November 24, 1980, Vol. 45.

7. Corn Creek ID, Mitchell ID, Earl Michael, Glendo Unit, Wyoming and Nebraska; Irrigation water service contracts. FR notice published January 26, 1983, Vol. 48, page 3662.

8. Town of Breckenridge, Colorado-Big Thompson Project, Colorado; Storage in Green Mountain Reservoir. FR notice published January 26, 1983, Vol. 48, page 3662.

9. Pueblo West Metropolitan District, Fryingpan-Arkansa Project, Colorado; Use of municipal outlet of Pueblo Dam for conveyance service; FR notice published January 26, 1983, page 3662.

10. Natron County, Wyoming, town of Mills, Wyoming, Wardwall Water and Sewer District Impact Joint Powers Board, Kendrick Project; Interim water storage contract; 750 acre-feet; FR notice published January 26, 1983, Vol. 48, page 3662.

11. Miscellaneous water users, Lower Missouri Region, Southeastern Wyoming, Colorado, Nebraska and northern Kansas; Temporary (interim) water service contracts for surplus project water, maximum of 10,000 acre-feet annually per contractor for irrigation and maximum of 2,000 acre-feet annually per M&I contractor for terms up to 2 years: FR notice published January 26, 1983, Vol. 48, page 3662.

12. Ruedi Reservoir, Fryingpan-Arkansas Project/Second round of proposed contract negotiations for sale of water from the regulatory capacity of Ruedi Reservoir.

Opportunity for public participation and receipt of comments on contract proposals will be facilitated by adherence to the following procedures:

(1) All meetings negotiating sessions scheduled by the Bureau with a potential contractor for the purpose of discussing terms and conditions of a proposed contract will be open to the general public for observation. Only those people with authority to act on behalf of the appropriate public entities may negotiate the terms and conditions of a specific contract proposal. Advance notice of such meetings will be furnished to those parties that have made a timely written request for such notice to the appropriate regional or project office of the Bureau.

(2) All written correspondence regarding proposed contracts will be made available to the general public pursuant to the terms and procedures of the Freedom of Information Act (80 Stat. 383), as amended.

(3) Written comments on a proposed contract must be submitted to the appropriate Bureau officials at locations and within time limits set forth in advance public notices or as otherwise established by Bureau officials. Such written comments received and testimony presented at any public hearing will be reviewed and summarized by regional staff for use by the appropriate contract approving authority; i.e., a Regional Director, the Commissioner of Reclamation, or the Secretary of the Interior.

(4) As specific proposed contracts become available for review and comment, copies may be obtained from the appropriate Regional Director identified above.

Dated: April 20, 1983.

Jed D. Christensen,

Acting Commissioner of Reclamation.

BILLING CODE 4310-09-M

INTERSTATE COMMERCE COMMISSION

Motor Carriers; Agricultural Cooperative; Intent To Perform Interstate Transportation for Certain Nonmembers

Dated: April 21, 1983.

The following notices were filed in accordance with section 10526(a)(5) of the Interstate Commerce Act. These rules provide that agricultural cooperatives intending to perform nonmember, nonexempt interstate transportation must file the Notice, Form BOp-102, with the Commission within 30 days of its annual meetings each year. Any subsequent change concerning officers, directors, and location of transportation records shall require the filing of a supplemental Notice within 30 days of such change.

The name and address of the agricultural cooperative (1) and (2), the location of the records (3), and the name and address of the person to whom inquiries and correspondence should be addressed (4), are published here for interested persons. Submission of information which could have bearing upon the propriety of a filing should be directed to the Commission's Office of Compliance and Consumer Assistance, Washington, D.C. 20423. The Notices are in a central file, and can be examined at the Office of the Secretatry, Interstate Commerce Commission, Washington, D.C.

BILLING CODE 7035-01-M

[Volume No. OP1-144]

Motor Carriers; Proposed Exemptions

AGENCY: Interstate Commerce Commission.

ACTION: Notices of proposed exemptions.

SUMMARY: The motor carriers shown below seek exemptions pursuant to 49 U.S.C 11343(e), and the Commission's regulations in Ex Parte No. 400 (Sub-No. 1), *Procedures for Handling Exemptions Filed by Motor Carriers of Property Under 49 U.S.C. 11343,* 367 I.C.C. 113 (1982), 47 FR 53303 (November 24,1982).

DATES: Comments must be received within 30 days after the date of publication in the **Federal Register.**

FOR FURTHER INFORMATION CONTACT: Joyce D. Lannon, (202) 275-7992.

SUPPLEMENTARY INFORMATION: Please refer to the petition for exemption, which may be obtained free of charge by contacting petitioner's representative. In the alternative, the petition for exemption may be inspected at the offices of the Interstate Commerce Commission during usual business hours.

Decided: April 19, 1983.

By the Commission, Heber P. Hardy, Director, Office of Proceedings.

Agatha L. Mergenovich,

Secretary.

Curry Motor Freight Lines, Inc.—Purchase Exemption—Pioneer Express, Inc.

MC-F-15221—Curry Motor Freight Lines, Inc. (Curry) (MC-60087), and Pioneer Express, Inc. (Pioneer) (MC-155341), seek an exemption from the requirement of prior regulatory approval for the purchase by Curry of Pioneer's authority which authorizes the transportation of general commodities (except classes A and B explosives), between Oklahoma City, OK and Shamrock, TX, over U.S. Hwy 66 and Interstate Hwy 40, serving all intermediate points and serving

Arapaho, Bessie, Cordell and Burns Flat, OK, as off-route points, Curry intends to join the newly acquired authority with its existing authority Shamrock in order to provide a direct, through service between Oklahoma City and points located generally in the Texas panhandle region. Send comments to: (1) Motor Section, Room 2139, Interstate Commerce Commission, Washington, DC 20423 and (2) Petitioner's representative, Thomas F. Sedberry, Small Craig & Werkenthin, 2600 Austin National Bank Tower, Austin, TX 78701. Comments should refer to No. MC–F–15221.

Charles F. Peterlin Robert A. Peterlin Sharon Cole, and Raymond L. Peterlin, Jr.—Control Exemption—Peterlin Cartage Co. and Fast Freight, Inc.

MC–F–15228—Charles F. Peterlin, Robert A. Peterlin, Sharon Cole, and Raymond L. Peterlin (PPC&P), all non-carriers, and in turn, Frank Peterlin and Raymond L. Peterlin, Sr., also non-carriers who each control and own 50 percent of the outstanding and issued capital stock of Peterlin Cartage Co. (Cartage) (MC–67450), and Fast Freight, Inc. (Fast) (MC–123272), seek an exemption from the requirements under section 11343 of prior regulatory approval for the transfer of stock ownership and control of Cartage and Fast to PPC&P. Send comments to: (1) Motor Section, Room 2139, Interstate Commerce Commission, Washington, DC 20423 and (2) Petitioner's representative, Joseph Winter, 29 South LaSalle St., Chicago, IL 60603. Comments should refer to No. MC–F–15228.

BILLING CODE 7035–01–M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

Motor Common and Contract Carriers of Property (except fitness-only); Motor Common Carriers of Passengers (public interest); Freight Forwarders; Water Carriers; Household Goods Brokers. The following applications for motor common or contract carriers of property, water carriage, freight forwarders, and household goods brokers are governed by Subpart A of Part 1160 of the Commission's General Rules of Practice. See 49 CFR Part 1160, Subpart A, published in the **Federal Register** on November 1, 1982, at 47 FR 49583, which redesignated the regulations at 49 CFR 1100.251, published in the **Federal Register** December 31, 1980. For compliance procedures, see 49 CFR 1160.19. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart B.

The following applications for motor common carriage of passengers, filed on or after November 19, 1982, are governed by Subpart D of 49 CFR Part 1160, published in the **Federal Register** on November 24, 1982 at 47 FR 53271. For compliance procedures, see 49 CFR 1160.86. Carriers operating pursuant to an intrastate certificate also must comply with 49 U.S.C. 10922(c)(2)(E). Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart E. In addition to fitness grounds, these applications may be opposed on the grounds that the transportation to be authorized is not consistent with the public interest.

Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations.

We make an additional preliminary finding with respect to each of the following types of applications as indicated: common carrier of property—that the service proposed will serve a useful public purpose, responsive to a public demand or need; water common carrier—that the transportation to be provided under the certificate is or will be required by the public convenience and necessity; water contract carrier, motor contract carrier of property, freight forwarder, and household goods broker—that the transportation will be consistent with the public interest and the transportation policy of section 10101 of chapter 101 of Title 49 of the United States Code.

These presumptions shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly.

BILLING CODE 7035–01–M

[Finance Docket No. 30155]

Rail Carriers; Baltimore and Ohio Railroad Company—Abandonment Exemption—Wood County, WV

AGENCY: Interstate Commerce Commission.

ACTION: Notice of exemption.

SUMMARY: The Interstate Commerce Commission exempts from the requirements of 49 U.S.C. 10903 *et seq.* the abandonment by the Baltimore and Ohio Railroad Company of 1.34 miles of railroad extending between Valuation Stations 51+50.2 and 122+05 near Parkersburg, WV.

DATES: This exemption will be effective on May 26, 1983. Petitions to stay the effective date of this decision must be filed by May 6, 1983, and petitions for reconsideration must be filed by May 16, 1983.

ADDRESS: Send pleadings referring to Finance Docket No. 30155 to:

(1) Rail Section, Room 5349, Interstate Commerce Commission, Washington, DC 20423

(2) Petitioner's representative: Rene J. Gunning, The Baltimore and Ohio Railroad Company, Baltimore, MD 21201.

FOR FURTHER INFORMATION CONTACT: Louis E. Gitomer, (202) 275–7245.

SUPPLEMENTARY INFORMATION: Additional information is contained in the Commission's decision. To purchase a copy of the full decision, write to T.S. InfoSystems, Inc., Room 2227, Interstate

Commerce Commission, Washington, DC 20423, or call 289–4357 (D.C. Metropolitan area) or toll free (800) 424–5403.

Decided: April 20, 1983.

By the Commission, Chairman Taylor, Vice Chairman Sterrett, Commissioners Andre and Gradison.

[Permanent Authority Decisions Volume No. OP5–190]

Restriction Removals; Decision-Notice

Decided: April 15, 1983.

The following restriction removal applications, are governed by 49 CFR 1165. Part 1165 was published in the **Federal Register** of December 31, 1980, at 45 FR 86747 and redesignated at 47 FR 49590, November 1, 1982.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1165.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with the criteria set forth in 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Review Board No. 1. Members Parker, Chandler and Fortier.

Agatha L. Mergenovich,

Secretary.

Please direct status inquiries to Team 5, at (202) 275–7289.

MC 125338 (Sub-8X), filed April 7, 1983. Applicant: SUPER SPEED TRANSPORT, INC., 3122 Bernard Pilon, Beloeil, Quebec, Canada J3G 4S5. Representative: Frank J. Weiner, 15 Court Square, Boston, MA 02108, 617–742–3530. Sub 4 certificate (1) broaden to "clay, concrete, glass or stone products" from cement; (2) remove territorial origin restriction; and (3) broaden one-way authority to radial authority.

BILLING CODE 7035–01–M

[Volume No. OP2–FC–81212 et al.]

Finance Applications; Decision Notice

As indicated by the findings below, the Commission has approved the following applications filed under 49 U.S.C. 10924, 10926, 10931 and 10932.

We find:

Each transaction is exempt from section 11343 of the Interstate Commerce Act, and complies with the appropriate transfer rules.

This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsideration; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 CFR 1181.4 may be rejected.

If petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will recite the compliance requirements which must be met before the transferee may commence operations.

Applicants must comply with any conditions set forth in the following decision-notices within 20 days after publication, or within any approved extension period. Otherwise, the decision-notice shall have no further effect.

It is ordered:

The following applications are approved, subject to the conditions stated in the publication, and further subject to the administrative requirements stated in the effective notice to be issued hereafter.

By the Commission, Review Board 2, Carleton, Ewing, and Williams.

Agatha L. Mergenovich,

Secretary.

Please direct status inquiries to Team 2, (202) 275-7030

MC-FC-81212. By decision of April 19, 1983, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1181, Review Board Number 2 approved the transfer to CASSIDY TRUCKING, INC., of Hedgesville, WV, of Certificates No. MC-95743 Sub Nos. 2, 25, and 26, issued May 23 and April 19, 1972, and August 8, 1973, respectively, to WILLIAM F. MEHRING & SONS, INC., of Keymar, MD, authorizing the transportation, over irregular routes, of various named commodities, from and to named points in MD, PA, DE, VA, FL, and DC; bituminous asphalt hot mix, and stone, from named points in MD to points in PA, VA, WV, DE, and DC; and sand, from Warfordsburg and Mount Cydonia, PA, to points in Frederick County, MD. Representative: John H. McDowell, 635 Oak Hill Ave., Hagerstown, MD 21740.

MC-FC-81342. By decision of April 19, 1983, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1181, Review Board Number 2, approved the transfer to DAN'S TRANSIT, INC., Independence, OH, of authority issued to BLUE RIDGE TRANSPORTATION COMPANY, Cleveland, OH, of that portion of Certificate MC-159222 (part (I)(1)(A)(b)), issued February 17, 1982, authorizing, over regular routes, the transportation of general commodities (except articles of size or weight that make handling by motor vehicle impractical, bank bills, coins, currency, drafts, notes, or other valuable papers, precious metals, or articles manufactured therefrom, classes A and B explosives, liquid bulk commodities, and household goods), between Youngstown and Toledo, OH: from Youngstown over U.S. Hwy 422 to Cleveland, OH, then over OH Hwy 254 to Avon, OH, then over OH Hwy 611 to Lorain, OH, then over U.S. Hwy 6 to Fremont, OH, then over OH Hwy 19 to Oak Harbor, OH, then over OH Hwy 163 to Genoa, OH, and then over Business Route U.S. Hwy 20 to Toledo, and return over the same route, serving the intermediate and off-route points of Avon, Cleveland, Fremont, Lakewood, Lorain, McDonald, Sandusky, Vermilion, Warren, Amherst, Birmingham, Elyria, Fostoria, and Bowling Green, OH. Representative: A. Charles Tell, 100 E. Broad St., Columbus, OH 43215. Transferee holds authority in MC-135306.

MC-FC-81352. By decision of April 19, 1983, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1181, Review Board Number 2, approved the transfer to KIRK BROS. TRANSPORTATION, INC., Sidney, OH, of authority issued to BLUE RIDGE TRANSPORTATION CO., Cleveland, OH, of that portion of Certificate MC-159222 (Part (I)(1)(B)), issued February 17, 1982, authorizing, over regular routes, the transportation of general commodities (except articles of size or weight that makes handling by motor vehicle impractical, bank bills, coins, currency, drafts, notes, or other valuable papers, precious metals, or articles manufactured therefrom, classes A and B explosives, liquid bulk commodities, and household goods), between Cleveland, OH and Rochester, NY: from Cleveland over OH Hwy 84 to Ashtabula, OH, then over U.S. Hwy 20 to Irving, NY, then over NY Hwy 5 to Buffalo, NY, then over NY Hwy 384 to Niagara Falls, NY, and then over NY Hwy 31 to Rochester, and return over the same route, serving the intermediate and off-route points of Ashtabula, Conneaut, and Painesville, OH, Erie, PA, and Brockton, Buffalo, Fredonia, Dockport, Middleport, Niagara Falls, Tonawanda, Depew, North Tonawanda, Dunkirk, Wilson, Black Rock, Clarence Center, and Lancaster, NY. Representative: A. Charles Tell, 100 E. Broad St., Columbus, OH 43125. Transferee holds authority in MC-145773.

BILLING CODE 7035-01-M

Permanent Authority Decisions, Decision-Notice

Motor Common and Contract Carriers of Property (fitness-only); Motor Common Carriers of Passengers (fitness-only); Motor Contract Carriers of Passengers; Property Brokers (other than household goods). The following applications for motor common or contract carriage of property and for a broker of property (other than household goods) are governed by Subpart A of Part 1160 of the Commission's General Rules of Practice. See 49 CFR Part 1160, Subpart A, published in the **Federal Register** on November 1, 1982, at 47 FR 49583, which redesignated the regulations at 49 CFR 1100.251, published in the **Federal Register** on December 31, 1980. For compliance procedures, see 49 CFR 1160.19. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart B.

The following applications for motor common or contract carriage of passengers filed on or after November 19, 1982, are governed by Subpart D of the Commission's Rules of Practice. See 49 CFR Part 1160, Subpart D, published in the **Federal Register** on November 24, 1982, at 49 FR 53271. For Compliance procedures, see 49 CFR 1160.86. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart E.

These applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations.

Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. This presumption shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publicaiton, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance

of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce, over irregular routes unless noted otherwise. Applications for motor contract carrier authority are those where service in for a named shipper "under contract".

Please direct status inquiries to Team 1, (202) 275–7992.

Agency Forms Under Review

April 21, 1983.

OMB has been sent for review the following proposals for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35) since the last list was published. The list has all the entries grouped into new forms, revisions, or extensions. Each entry contains the following information:

(1) The name and telephone number of the Agency Clearance Officer (from whom a copy of the form and supporting documents is available); (2) The office of the agency issuing this form; (3) The title of the form; (4) The agency form number, if applicable; (5) How often the form must be filled out; (6) Who will be required or asked to report; (7) An estimate of the number of responses; (8) An estimate of the total number of hours needed to fill out the form; (9) An indication of whether Section 3504(H) of Pub. L. 96–511 applies; (10) The name and telephone number of the person or office responsible for OMB review.

Copies of the proposed forms and supporting documents may be obtained from the Agency Clearance Officer whose name and telephone number appear under the agency name. Comments and questions about the items on this list should be directed to the reviewer listed at the end of each entry and to the Agency Clearance Officer. If you anticipate commenting on a form but find that time to prepare will prevent you from submitting comments promptly, you should advise the reviewer and the Agency Clearance

Officer of your intent as early as possible.

DEPARTMENT OF LABOR

Bureau of Labor Statistics

Labor Research Advisory Council Committees; Meetings and Agenda

The regular spring meetings of committees of the Labor Research Advisory Council will be held on May 17, 18, and 19, in Room N–3437, *Frances Perkins Department of Labor Building, 200 Constitution Avenue, NW., Washington, D.C.*

The Labor Research Advisory Council and its committees advise the Bureau of Labor Satistics with respect to technical matters asociated with the Bureau's programs. Membership consists of union research directors and staff members.

The schedule and agenda of the meetings are as follows:

Tuesday, May 17

9:30 a.m.—Committee on Employment Structure and Analysis

1. Defining the dislocated worker
2. Conversion to the new occupational coding system
3. Recent trends in insured unemployment and the relationship to total unemployment
4. Status report on the 790 revision
5. Update on employment-related economic hardship: annual report
6. Transfer of labor market informaion funding responsibility

Tuesday, May 17

1:30 p.m.—Committee on Prices and Living Conditions

1. Consumer prices and price indexes revision plans
2. Status of producer prices and price indexes revision
3. Status of international price program
4. Status of Consumer Expenditure Survey
5. Report on research study: "The Incorporation of Direct Taxes Into a Consumer Price Index."

Wednesday, May 18

9:30 a.m.—Committee on Productivity, Technology and Economic Growth

1. BLS projections for economic growth and employment, 1990, 1995
2. Recently developed and released multifactor productivity measures

Wednesday, May 18

1:30 p.m.—Committee on Wages and Industrial Relations

1. Review of Office of Wages and Industrial Relations work in progress
2. Fiscal Year 1984 budget program
3. Specific data needs for collective bargaining—presentations by several committee members to include discussions on the proposed restructuring of the Industry Wage Program
4. Other business

Thursday, May 19

9:45 a.m.—Committee on Occupational Safety and Health Statistics

1. Discussion of quality assurance program
2. Annual survey update
3. Discussion of Work Injury Reports
4. Other business

Thursday, May 19

1:30 p.m.—Committee on Foreign Labor and Trade

1. Discontinuance of trade monitoring program—work on imports and employment, import penetration ratios
2. Status of international comparisons programs—labor force and unemployment; productivity, and unit labor costs; hourly compensation costs for production workers.
3. Status of U.S. Import and Export Price Index Program

The meetings are open. It is suggested that persons planning to attend as observers contact Joseph P. Goldberg, Executive Secretary, Labor Research Advisory Council on (Area Code 202) 272–5239.

Signed at Washington, D.C., this 18th day of April 1983.

Janet L. Norwood,

Commissioner of Labor Statistics.

BILLING CODE 4510–24–M

Employment and Training Administration

Availability of Options Paper Regarding Allocation of Fiscal Year 1984 Secretary of Labor's Three Percent Set-Aside of Wagner-Peyser Funds

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice of availability of document.

SUMMARY: This notice alerts interested persons to the availability of copies of a document describing options for implementing, for fiscal year 1984, the provisions of the Wagner-Peyser Act, as amended, relating to the set-aside of up to three percent of the annual appropriation to assure that each State will have sufficient resources to carry out employment services and related activities on a statewide basis. Release of the options paper is intended to alert

interested persons to issues and options relating to the set-aside.

ADDRESS: Requests for copies, including self-addressed envelopes and/or mailing label, should be addressed to the Assistant Secretary of Labor for Employment and Training, U.S. Department of Labor, 601 D Street, NW., Room 9000, Washington, D.C. 20213. Attention: Patrick J. O'Keefe, Acting Administrator, Office of Strategic Planning and Policy Development.

FOR FURTHER INFORMATION CONTACT: Patrick J. O'Keefe, telephone: (202) 376–6600.

SUPPLEMENTARY INFORMATION: On October 13, 1982, the President signed the Job Training Partnership Act, Public Law 97–300. This statute includes amendments to the Wagner-Peyser Act (29 U.S.C. 49 et seq.) which, *inter alia*, established a statutory allocation formula that allots appropriations among the States based on their relative shares of civilian labor force and unemployment. The amendments also provide for the set-aside of up to three percent of funds appropriated to assure that each State will have staff and other resources sufficient to carry out employment service activities and related administrative and support functions on a Statewide basis (Section 6(b)(4) of the Act).

The options paper now being made available describes five options regarding the approach to allocating these set-aside funds. Comments on these, or other possible options, are being solicited at this time.

Signed this 22nd day of April, 1983.

Albert Angrisani,

Assistant Secretary of Labor.

BILLING CODE 4510-30-M

Job Training Partnership Act; Proposed Secretary's Performance Standards and Reporting Requirements

AGENCY: Employment Training Administration, Labor.

ACTION: Notice.

SUMMARY: Section 106 of the Job Training Partnership Act (JTPA) requires the Secretary of Labor to prescribe performance standards for Title II–A and Title III programs. Section 165 of JTPA authorizes the Secretary to require each recipient to maintain records and submit reports regarding the performance of the programs. The Secretary's instructions for implementing the performance standards requirements and reporting provisions developed in response to Section 106 and 165 of JTPA are set forth below. The purpose of this notice is to advise the employment and training community that the Department has forwarded to the Office of Management and Budget "The Secretary's Performance Standards and Reporting Requirements" for JTPA Titles II and III for review under the requirements of the Paperwork Reduction Act. Upon completion of the review, the Department will notify the employment and training community of any changes or adjustments as a result of the review.

DATES: Comments must be submitted on or before May 26, 1983.

ADDRESS: Comments should be addressed to the Assistant Secretary of Labor for Employment and Training, U.S. Department of Labor, 601 D Street, N.W., Washingtgon, D.C. 20213, Attention: Ms. Kay Albright, Director, Office of Performance Management.

FOR FURTHER INFORMATION CONTACT: Ms. Kay Albright, Telephone (202) 376–6620.

SUPPLEMENTARY INFORMATION:

A. Purpose of the Performance Standards

The performance standards system is intended to be the cornerstone of a performance driven job training program. Performance standards will be used by Governors to make determinations about service delivery area (SDA) performance and to identify technical assistance needs, provide incentive grants, and impose sanctions.

B. Authority to Issue Performance Standards

Section 106 of the Act directs the Secretary to establish performance standards for the Title II–A adult and youth and Title III dislocated workers programs. The Secretary is further required at Section 106 of the Act to establish parameters within which each Governor may prescribe variations in the performance standards based on specific economic, geographic, and demographic factors within a State and the SDA's in a State, the characteristics of the population to be served, and the type of services to be provided.

C. Participatory Process

The Department established two distinct groups to assist in the development of the performance standards system. A Technical Workgroup was assembled to work with ETA staff members in drafting technical papers for the review and deliberation of the Department and an Advisory Committee. The Technical Workgroup consisted of staff members from service deliverers including Governors and other State staff, two regional offices, several offices from the national level, the Bureau of Labor Statistics, and the Office of the Assistant Secretary for Policy, Evaluation, and Research. This group met twice during the developmental stages of the JTPA initial performance standards process.

An Advisory Committee was established to review and comment on the technical workpapers prepared by ETA staff and the Technical Workgroup. The Advisory Committee included six State and five local program directors, two Regional Administrators, three congressional staff members, seven ETA officials, officials from the National Commission for Employment Policy, the Department of Health and Human Services, the Bureau of Labor Statistics, and the Women's Bureau, and representatives from the National Governors Association, the National Alliance of Business, the National Association of Counties, the U.S. Chamber of Commerce, the Council of Chief State School Officers and the U.S. Conference of Mayors. This group also met twice during the developmental stage of the JTPA performance standards process.

The two groups explored the various alternatives surrounding four major topics: (1) Selection of measures, (2) standard setting methodology, (3) application of standards, and (4) implications for reporting and recordkeeping.

D. Necessity for Reporting Requirements

Section 165(a)(2) of the Act authorizes the Secretary to require the recipients to maintain and submit reports regarding the performance of their programs. Section 106 of the Act requires the Secretary to establish standards for measures reflecting program termination outcomes (e.g., entered employment rate), post-program participant experience (e.g., amount of welfare reductions), and cost effectiveness (e.g., cost per earnings gains). The legislation also recognizes that States and SDA's have different economic conditions, population characteristics, and employment barriers. The Act permits Governors to prescribe variations in the standards, within parameters established by the Secretary, based on specific economic, geographic, and demographic factors, the characteristics of the population to be served, and the types of services to be provided.

Regression analysis has been chosen as the method for the Secretary to establish standards and set the

parameters. It provides a mechanism for simultaneously determining the impact of multiple local factors on performance, enabling individual standards to be set for each SDA. After an exhaustive examination, it has been concluded that this is the most equitable and objective way to set performance standards.

The use of regression analysis, however, requires the reporting of SDA-level data to the Governor and from the Governor to the Secretary. Other methods were considered for collecting data to establish national performance models, but were rejected for technical reasons or because they were too costly. Two of the alternative methods considered were:

a. Limited reporting of State-level aggregate data and

b. National sampling of SDA-level participant records

From management, technical, and cost perspectives, Federal reporting of SDA-level data through the Governors provides the best approach for meeting the performance standards requirements of the Act. Therefore, SDA's will be required to submit to their Governors an annual report which includes the following types of information for adult, adult welfare, youth and dislocated worker terminees:

a. Participation and termination summary data;

b. Selected participant characteristics data on terminees;

c. Wage and welfare data, at termination;

d. Program cost data; and

e. Followup data (wage and welfare data collected 13 weeks after termination).

Followup data must be collected on all terminees who are adults, adult welfare, or dislocated workers.

The followup information must be collected via participant contact only. Sampling will be permitted if the respective terminee populations are large enough to provide estimates which meet minimum standards of statistical precision and confidence. These minimum standards require a sample which provides estimates which have a 95% confidence level and an expected error of no more than ± 10%. In addition, SDA's which choose to sample should design their efforts to achieve a minimum response rate of 70%.

E. OMB Submission

Accordingly, the document included at the appendix to this notice has been submitted to OMB for review.

Signed at Washington, D.C. this 19th day of April, 1983.

Albert Angrisani,

Assistant Secretary of Labor.

Appendix—the Secretary's Performance Standards and Reporting Requirements

I. Purpose

This issuance transmits to the Governors the Secretary of Labor's instructions for implementing the performance standards requirements and reporting provisions of the Job Training Partnership Act (JTPA).

II. Background

The Secretary is directed by Section 106 of JTPA to prescribe performance standards for adult, youth, and dislocated worker programs. The purpose of these standards is to provide the Governor with the basis for determining those service delivery areas (SDA's) entitled to rewards and to identify those warranting technical assistance or sanctions. Furthermore, such standards shall contribute to the overall goals of JTPA of increased employment and earnings and reduced welfare dependency. The approach taken by the Secretary in prescribing these performance standards is that experience with past performance is the most rational and objective basis for projecting future program potential. Furthermore, the determination of performance potential must be based on the differing local circumstances within which service deliverers must operate. This issuance provides detailed instructions on performance standards requirements. Before describing those requirements, the following summary presents the basic elements of the Secretary's Performance Standards procedures:

- *Measure Selection.* Seven performance measures have been selected for setting performance standards (Adults: Entered Employment Rate, Cost per Entered Employment, Average Wage at Placement, and Welfare Recipient Entered Employment Rate. Youth: Entered Employment Rate, Positive Termination Rate, and Cost per Positive Termination.) Out of the many program termination measures considered, these were judged to most closely track the legislative goals and, for six of the seven, there is data available under CETA to project performance. Each measures outcomes at termination. Post-program measures such as earnings gains cannot be initiated until there is a period of JTPA activity enabling a data base to be established on which to project performance.

- The *Secretary's Performance Standards.* For each measure, a Secretary's Performance Standard will be set which involves adjusting the prior performance period national average performance level for differing local circumstances. This adjustment systematically takes into account the impact of selected local factors based on an analysis of past performance in order to project future performance potential. The Secretary provides a "weight" for each factor to the Governor.

The "weight" is applied to the local planning data to project the SDA performance. In other words, if the unemployment rate is 5% points above the national average, the "weight" provided by the Secretary directs how much of an adjustment in expected performance should be made for that difference. The combined adjustments for each of the factors when applied to the national average performance for the measure project the SDA performance potential. This projected level is the Secretary's Performance Standard.

- *The Secretary's Parameters.* There may be reasons why the projected performance should be varied by the Governor. Not all factors which impact performance may have been included in the projection. Later information may be available. The Governor may vary the Secretary's Performance Standard within the parameters set by the Secretary for such reasons. The parameters are the upper and lower limits around the projected performance level within which the variance may be made. If the Governor chooses to vary the Secretary's Performance Standard, then that becomes the SDA's Performance Standard.

- *Application of the Standards.* At the end of the performance period, it will be appropriate to update the factors used to project performance to reflect the actual circumstances within which the service deliverers operated. The Governor may also choose to again vary the "recalculated" Secretary's Performance Standard within the parameters. Once these steps are taken, the Governor can determine whether the standards were met and provide rewards, technical assistance, or sanctions as appropriate.

III. Instructions for Implementing Performance Standards

This section provides specific instructions to implement the elements described in Section II. The measures are specifically defined at A. and B. The procedures for calculating the Secretary's Performance Standards are described at C. 1. and 2. The Secretary's

parameters are described at C.3., recalculation procedures at C.4., and procedures for calculating the "Entered Employment Rate for Welfare Recipients" are described at C.5. Part D. describes the use of performance standards. Part E. and F. describe requirements for dislocated workers and youth employment competencies.

A. Adult Performance Measures

Performance standards for adult outcomes resulting from Title IIA participation are established for the following four (4) measures (Definitions are included with reporting instructions):

1. *Entered Employment Rate*—Number of adults who entered employment as a percentage of the number of adults who terminated.

2. *Cost per Entered Employment*—Total expenditures for adults divided by the number of adults who entered employment.

3. *Average Wage at Placement*—Average wage for all adults who entered employment at the time of termination.

4. *Welfare Entered Employment Rate*—Number of adult welfare recipients who entered employment at termination as a percentage of the number of adult welfare recipients who terminated.

B. Youth Performance Measures

Performance standards for youth outcomes resulting from Title IIA participation are established for the following three (3) measures:

1. *Entered Employment Rate*—Number of youth who entered employment at termination as a percentage of the number of youth who terminated.

2. *Positive Termination Rate*—Number of youth having a positive termination (entered employment plus employability enhancement terminations) as a percentage of the total number of youth who terminated.

3. *Cost Per Positive Termination*—Total expenditures for youth divided by the number of youth having a positive termination.

C. Secretary's Performance Standards for Adults and Youth

The following describes the methodology which Governors must use to calculate Secretary's Performance Standards for each SDA for 6 of the 7 measures defined above. The exception is the adult welfare entered employment rate. The methodology for calculating the Secretary's Performance Standard for this measure is in the next section. For the remaining measures, the methodology described below will enable Governors systematically and objectively to take into account the varying influence that participant characteristics, economic conditions, and other factors have on SDA performance expectation. Six separate Performance Standards Worksheets (PSW) have been developed to assist in calculating SDA Performance Standards (Attachment #1). The worksheets include for each measure, as appropriate, the information necessary for calculating individual SDA Performance Standards. It should be noted that the worksheets are not required, but merely represent a suggested format for completing the necessary calculations. The calculation steps themselves, however, are required. Instructions for completing the required calculations are included in this attachment.

1. *Overview.*—In accordance with Section 106(c) of JTPA, the data base accumulated under the Comprehensive Employment and Training Act (CETA) will be used to establish performance standards for the Title IIA programs. Data covering FY 1982 were used to identify local factors and determine the direction and magnitude of their influence on performance expectations for each of the appropriate measures identified previously. An analytical model was employed to determine the relationship between these factors and performance outcomes. The analysis compared actual prime sponsor performance with actual local factors in the prior performance period. The model identified 15 local factors which influence performance, including selected participant characteristics and economic conditions, as well as the average weeks participated in the program. The number of local factors found to influence performance varies depending on the particular performance measure as reflected in the PSWs. Importantly, the model is able to take these local factors into account simultaneously to explain a substantial portion of variation in performance among service deliverers. Each factor, therefore, has a "weight" which indicates its expected impact. It should be recognized, however, that some factors which are directly under the control of SDAs, such as differences in management practices, are inappropriate and are not accounted for in the analytical model.

2. *The Process for Determining Expected Levels of Performance—The Secretary's Performance Standards.*—The following is an explanation of the process that Governors must use to determine the SDA projected level of performance for each of the six measures. The projected levels will constitute the Secretary's Performance Standards. (The step by step instructions for the calculations are included in Attachment #1.)

As noted above, particular circumstances which may affect performance or the types of participants being served vary considerably from area to area. For performance standards to be equitable, they must take these local differences into consideration. The first step then is to determine the planned values for each of the local factors found to influence performance.

After the SDA planning values are determined for the local factors (e.g., what the percent of welfare participants will be of all participants planned to be terminated), the national average value for each factor is subtracted from it. The difference between the local value and the national average is then multiplied by the weight of that factor to determine what the anticipated local impact on performance will be for that unique level of planning. This is determined for all the factors and added up to estimate the total effect these local factors will have on performance expectations. This combined influence is then applied to the national average performance level for the measure to predict local performance. That predicted performance level becomes the Secretary's Planned Performance Standard for that measure for that SDA.

For the four outcome measures, SDA planned or actual outcomes would meet or exceed the Secretary's Performance Standards if the planned or actual outcome was at or above the Secretary's Performance Standard. For the two cost measures, SDA planned or actual outcomes would meet or exceed the Secretary's Performance Standard if the costs were at or below the Secretary's Performance Standard.

3. *Secretary's Parameters.*—Section 106(*e*) of JTPA allows each Governor to vary the Secretary's Performance Standards for individual SDAs within parameters established by the Secretary. It si recognized that the analytical model used to establish the Secretary's Performance Standards for the various outcome and cost measures identified above do not account for all factors which affect performance. Moreover, it is acknowledged that specific and exceptional local conditions may occur which have a positive or negative influence on an SDA's ability to achieve the Secretary's Performance Standards. Therefore, the Governors have the discretion to raise or lower the Secretary's Performance Standards calculated during the planning process

to review SDA planned performance and/or recalculated at the end of the performance period to assess actual SDA performance. These adjustments, if applied, must be based on unique opportunities or problems present in an SDA's jurisdiction and not already reflected in the analytical model used to determine the Secretary's Performance Standard for each measure. For example, a plant may be scheduled to close which could significantly impact unemployment levels and performance potential.

If the Governor does not vary the standard within the parameters, then the Secretary's Performance Standard becomes the SDA Performance Standard. If the Governor varies the standard, then the adjusted level becomes the SDA Performance Standard.

In addition, adjustments to the Secretary's Performance Standards and the factors used in making these adjustments must be documented and reported to the Secretary, as part of the Governor's Coordination and Special Services Plan in accordance with Section 121(b)(3) of the Act. The Governor shall report to the Secretary the factors he intends to use in varying the Secretary's standards in setting SDA standards for the upcoming program period of JTPA. These factors should be announced in advance and consistently applied. The Governor shall also report the extent of adjustment made and the reasons for the adjustment during the current period.

Furthermore, the Governor may only vary the Secretary's Performance Standards within the parameter limits set by the Secretary. Such ranges are set for each standard so that if SDA's perform in the same manner as prime sponsors did through FY 1982, 25% of the SDAs would fail to reach the lower side of the ranges and 25% of the SDAs would exceed the higher side of the ranges.

4. *End-of-Performance-Period Recalculation of Secretary's Performance Standards.*—At the end of performance period, the steps in 2.. above must be repeated to calculate the Secretary's Final Performance Standard for each of the six measures when JTPA performance data is available. The recalculation will be based on actual data for participant characteristics, average weeks participated, and updated economic conditions. The recalculated standards constitute the Secretary's Final Performance standards for each SDA together with any variations applied by the Governors in accordance with the Section 106(e). These final standards are the basis for the Governor to issue rewards and sanctions. The information needed to be used with SDA planning data or actual data to calculate the Secretary's Planned and/or Final Performance Standards is preprinted on the worksheets in Attachment #1.

5. *Calculation of Secretary's Performance Standards for the Adult Welfare Entered Employment Rate.*— An adequate data base is not available to enable construction of an analytical model for use in establishing the Secretary's Planned Performance Standard for this measure. Consequently, an alternative methodology must be used. Attachment #2 contains for each CETA prime sponsor and each State based on FY 1982 CETA data:

— The ratio of the welfare recipient entered employment rate to the total entered employment rate.

The information in Attachment #2 must be used in conjunction with the Secretary's Planned Performance Standard for the adult entered employment rate calculated from Step (2) above as follows:

a. Where the jurisdiction of the SDA under JTPA is the same as that of a prime sponsor under CETA during FY 1982, multiply the appropriate prime sponsor ratio shown in Attachment #2 by the Secretary's Performance Standard for the adult entered employment rate calculated from Step (2) above (e.g., Prime Sponsor Ratio of .55 times Secretary's Standard for the adult entered employment rate of 50% equals the Secretary's Standard for the Welfare Entered Employment Rate of 27.5%).

b. Where the jurisdiction of the SDA under JTPA is not the same as that of a prime sponsor under CETA during FY 1982, multiply the appropriate State ratio shown in Attachment #2 by the Secretary's Performance Standard for the adult entered employment rate calculated from Step (2.) above.

The same calculations must be competed at the end of the performance period to calculate the Secretary's Final Performance Standard for the adult Welfare Entered Employment Rate. Attachment #1 contains a worksheet to assist in completing these calculations for this measure. The Secretary's parameters also apply to this measure in the same manner as they apply to other measures.

6. *Calculation Instructions for Puerto Rico, Virgin Islands, Guam and the Trust Territories.*— The calculation steps described in the preceding items 1. through 5. shall not be used for setting SDA standards for these jurisdictions, since the influence of local factors could not be adequately measured in their unique circumstances. Standards shall be set in these jurisdictions using national average performance levels as the Secretary's Standard for each measure. Such standards may be varied based on the influence of local economic, geographic and demographic factors and the characteristics of the participants, in accordance with Section 106(e) of the Act.

D. Use of Performance Standards

The following describes how SDA Performance Standards established by the Governors are to be used in the review of SDA job training plans, and for judging SDA performance accomplishments for the purposes described at Section 106 (h) and 202 (b)(3) of the Act.

1. *Review of SDA Job Training Plan.* — In accordance with Sections 104 (b) (4) and 105 (b) (1) (D) of the Act, the Governor should ensure that SDA planning levels contained in the job training plan for each of the seven measures are consistent with the appropriate planned performance standard.

2. *Final Year-End Performance Assessment.*—Governors compare actual SDA performance with the SDAs Final Performance Standard for each measure to determine appropriate use of technical assistance/sanctions and rewards in accordance with the provision of Sections 106(h) and 202(b)(3) of the Act, respectively. It should be noted, however, that Section 181(j)(3) of the Act does provide a grace period for the application of sanctions based on performance standards. No SDA is to be penalized for not meeting performance standards during the initial program period beginning October 1, 1983 and ending June 30, 1984.

As indicated previously, SDA's are eligible for performance incentive funds if they exceed the Secretary's Final Performance Standards varied by the Governor within the Secretary's parameters. Since there are seven standards for Title IIA programs, an SDA shall have to meet five of the seven standards to be entitled to incentive funds. The adult entered employment rate, welfare recipient entered employment rate, and youth positive termination rate must be among the five.

E. Dislocated Workers

Title III–Section 106(g) of the Act requires the Secretary to prescribe performance standards based on placement and retention in unsubsidized jobs for the State dislocated worker

programs. Because performance data will not be available until during FY 1985, the Secretary defers the prescribing of performance standards until such data is available. Instead, Governors are directed to set performance "goals" for the State's dislocated worker program. The goals set by the Governor will not be subject to review by the Secretary. Experience accumulated during the initial program period and after will provide a base for establishment of standards for subsequent periods. However, at a minimum, States are to use the performance measures prescribed by the Secretary in setting goals. These measures are:

- *Entered Employment Rate*—Number of individuals who entered employment as a percentage of the number of individuals who terminated.
- *Cost Per Entered Employment*—Total Federal expenditures divided by the number of individuals who entered employment.

F. Youth Employment Competencies.

In accordance with Section 106(b)(2)(A) of the Act and 20 CFR 629.46(a) the Secretary's standards for youth employment competencies prescribe the framework within which an SDA's youth employment competencies system shall be developed. The framework includes the following:

1. Competencies shall be developed within three categories:

- *Basic Educational Skills*—including reading, writing and computational skills;
- *Job Specific Skills*—including knowledge and skills normally required to carry out entry-level tasks of a specific occupational or cluster of occupations; and
- *Pre-employment and work maturity skills*—including those skills not covered above needed to look for, obtain, and retain a job.

2. A competency system shall include:

- A deficiency identification process to determine which element or elements are appropriate for the youth; and
- A testing/assessment process to determine that the youth has attained the competencies specified for him or her.

The following provisions apply to SDA youth employment and competency systems:

—All participants age 21 and under shall be included in the youth competencies system; and
—A youth need only be included in those competency categories for which he or she has a knowledge deficit.

A technical assistance guide will be issued to assist Governors and SDAs in implementing the youth employment competencies system.

IV. JTPA Annual Status Report (ASR)

1. *Purpose.* The JTPA Annual Status Report (ASR) displays cumulative data on participation, termination, performance measures and the socio-economic characteristics of all terminees on an annual basis. The information will be used to determine levels of program service and performance measures. Selected information will be aggregated to provide quantitative program accomplishments on a local, State, and national basis.

2. *General Instructions.* A single ASR for Title III (Column D) programs only will be submitted by the Governor on a Statewide basis. Also, a separate ASR for Title II–A (Columns A–C) programs only will be submitted for each Service Delivery Area (SDA) designated by the Governor.

Note.—Exclude information for Title II–B, Summer Youth Employment and Training Program (SYETP), from the ASR. (Data for Title II–B activity is to be submitted on the appropriate Statewide JTPA Quarterly Status Reports.)

Each reporting period begins on the start date of each JTPA program year, as stated in Section 161 of the Act. Reports are due in the national office no later than 45 days after the end of each program year. Three copies of the ASR are to be provided to: Employment and Training Administration, U.S. Department of Labor, Attn: TSVR, 601 D Street NW., Washington, D.C. 20213.

An additional copy of the ASR is to be provided to the appropriate Regional Administrator for Employment and Training in the DOL regional office that includes the State in which the JTPA recipient is located.

REMARKS

BILLING CODE 4510-30-C

4. *Instructions for Completing the JTPA Annual Status Report.*

a. *SDA Grant Recipient's Name and Address.* Enter the name and address of the SDA Grant Recipient.

b. *SDA Number or Statewide.* Enter this information as provided by the Governor.

c. *Reporting Period.* Enter in "From" the beginning date of the designated JTPA program year and enter in "To" the ending date of the program year.

d. *Type of Program.* Check the appropriate box(es) and specify as indicated. Program Types are: II–A (Adult and Youth Program); III (Dislocated Workers Program); Other (Specify).

e. *Signature and Title* (at bottom of the page) The authorized official of the Governor signs here and enters his other title.

f. *Date Signed.* Enter the date the report was signed by the authorized official.

g. *Telephone Number.* Enter the area code and telephone number of the authorized official.

5. *General Information.* The column breakouts are based strictly on age rather than on program strategy. For purposes of the ASR, the adult and adult welfare columns will include terminees age 22 years and older. The youth column will include terminees who were age 14–21 at the time of eligibility determination. The dislocated workers column may include adults and youth, as applicable.

Data reported should be based on information collected at the time of intake with two exceptions—immediate post program outcomes and followup data collected 13 weeks after termination. In order to facilitate the reporting of the immediate post program outcomes and the followup sections of the ASR, the Governor should consider requiring his/her SDA's to collect the 13 weeks pre-program information at the time of eligibility determination. (See Lines 30–34, 41, 43 and 45.) Refer to the participant Record for further information.

CHARACTERISTICS INFORMATION OBTAINED ON AN INDIVIDUAL AT THE TIME OF ELIGIBILITY DETERMINATION FOR THE RECIPIENT'S JTPA PROGRAM SHOULD NOT BE UPDATED WHEN THE INDIVIDUAL TERMINATES FROM THE JTPA PROGRAM.

Column Headings

Column A *Total Adults*

This column will contain an entry for each appropriate item for all adult participants in Title II–A only.

Column B *Adults (Welfare)*

This column will contain an entry for each appropriate item for adult participants in Title II–A who were welfare recipients or whose family received cash payment under AFDC (SSA Title IV), General Assistance (State or local government), or the Refugee Assistance Act of 1980 (PL 96–212) at the time of JTPA eligibility determination. For performance standards purposes, exclude recipients of SSI (SSA Title XVI) from entries in Column B.

Note.—Column B is a sub-breakout of Column A; therefore, Column B should be less than or equal to Column A, except for Lines 34, 47–49.

Column C *Youth*

This column will contain an entry for each appropriate item for all youth participants in Title II–A only.

Column D *Dislocated Workers*

This column will contain an entry for each appropriate item for all participants in Title III who were determined to be eligible dislocated workers.

Note.—All information regarding a given participant must be entered in the same column.

Columns A, B, and C apply to Title II–A only

Column D applies to Title III only.

Section I—Participation and Termination

Summary

Section I displays the program's accomplishments in terms of the total cumulative number of actual participants in the program and the number and types of terminations from the program, as of the end of the reporting period.

Entries for items I.A and I.B are cumulative and types from the beginning of the program year through the end of the reporting period.

Item I.A. Total Participants

Enter the total number of participants who are or were in the program through the end of the reporting period, including both those on board at the beginning of the designated program year and those who have entered during the program year.

"Participant" means any individual who has: (1) Been determined eligible for participation upon intake; and (2) Started receiving subsidized employment, training, or services (except post-termination services) funded under the Act, following intake, except for an individual who receives only outreach and/or intake and assessment services.

Item I.B. Total Terminations

Enter the total number of participants terminated from the program for any reason from the beginning of the program year through the end of the reporting period. This item is the sum of items I.B.1. through I.B.3.

"Termination" means the separation of a participant from a given title of the Act who is no longer receiving employment, training or services (except post-termination services) funded under that title.

Note.—Individuals may continue to be considered as participants for a period of 90 days after last receipt of employment or training funded under a given title.

Item I.B.1. Entered Unsubsidized Employment

Enter the cumulative number of terminees who entered (through the efforts of the subrecipient or otherwise) full- or part-time unsubsidized employment through the end of the reporting period. Unsubsidized employment means employment not financed from funds provided under the Act. (For JTPA reporting purposes, this term includes entry into the Armed Forces, entry into employment in a registered apprenticeship program, and terminees who became self-employed.)

Item I.B.1.a. Entered Registered Apprenticeship Program

Enter the cumulative number of terminees who entered registered apprenticeship programs following termination from the program. This item is a sub-breakout of Item I.B.1.

Item I.B.1.b. Entered Armed Forces

Enter the cumulative number of terminees who entered the Armed Forces following termination from the program. This item is a sub-breakout of Item I.B.1.

Item I.B.2. Youth Employability Enhancement Terminations

Enter the cumulative number of youth participants who were terminated under one of the Youth Employability Enhancements through the end of the report period. "Youth Employability Enhancement" means an outcome for youth, other than entered unsubsidized employment, which is recognized as

enhancing long-term employability and contributing to the potential for a long-term increase in earnings and employment. Outcomes which meet this requirement shall be restricted to the following: (1) Entered Non-Title II Training; (2) Returned to Full-Time School; (3) Age 14–15 Completed Program Objectives; or (4) Completed Major Level of Education.

Note.—For reporting purposes, a youth shall not be counted in this item, if he/she entered unsubsidized employment, and shall be counted in only one of these categories, even though more than one may have been achieved.

Item I.B.2.a. Entered Non-Title II Training

Enter the cumulative number of youth terminees who entered an employment/training program not founded under Title II of the JTPA. This item is a sub-breakout of Item I.B.2.

Item I.B.2.b. Returned to Full-Time School

Enter the cumulative number of terminees who returned to full-time school if, at the time of eligibility determination the participant was not attending school and had not obtained a high school diploma or equivalent. This item is a sub-breakout of Item I.B.2.

Item I.B.2.c. Age 14–15 Completed Program Objectives

Enter the cumulative number of terminees who completed program objectives as defined in approved exemplary youth project plans if, at the time of entry, the participant was less than 16 years of age. This item is a sub-breakout of Item I.B.2.

I.B.2.d Completed Major Level of Education

Enter the cumulative number of terminees who completed, during enrollment, a level of educational achievement which had not been reached at the time of entry. Levels of educational attainment are elementary, secondary, and post-secondary. This item is applicable only for those not in school at time of entry into the program. This item is a sub-breakout of Item I.B.2.

Note.—The sum of Items I.B.2.a. through I.B.2.d. in Column B should equal Item I.B.2., Youth Employability Enhancement Terminations, in that column.

Item I.B.3. Other Terminations

Enter the cumulative number of participants who were terminated for reasons other than those in Items I.B.1. and I.B.2.—both positive and negative-through the reporting period.

Section II—Terminee Performance Measures Information

Section II displays performance measures/parameters information. As indicated previously, characteristics information for terminated participants is as of the time of eligibility determination for the recipient's JTPA program. Other information is as specified (e.g., "Unemployed 1–14 Weeks of Prior 26 Weeks" means the cumulative number of terminees who were unemployed 1–14 weeks during the 26 weeks prior to eligibility determination).

References to items in the Participant Record are to the individual recordkeeping document to be provided by DOL in a Technical Assistance Guide (TAG). Governors have the option of using the record, as outlined in the TAG, or may develop any other record which meets the requirements of Section 629.35(c) and (d) of the JTPA Regulations.

Line 1 Male
Line 2 Female

Distribute the terminees according to Sex. (Item A.20. of the Participant Record). The sum of Lines 1 and 2 in each column should equal Item I.B. in that column.

Age

Line 3 14–15
Line 4 16–17
Line 5 18–21
Line 6 22–44
Line 7 45–54
Line 8 55 and Over

Distribute the terminees according to Age. (Item A.6. of the Participant Record). The sum of Lines 3 through 8 in each column should equal Item I.B. in that column.

Education Status

Line 9 School Dropout
Line 10 Student (High School or less)
Line 11 High School Grad. or Equiv. (No Post-High School)
Line 12 Post-High School Attendee

Distribute the terminees according to Education Statutes. (Item A.21. of the Participant Record). The sum of Lines 9 through 12 in each column should equal Item I.B. that column.

Family Status

Line 13 Single Parent with Dependent(s) Under Age 6
Line 14 Single Parent with Dependent(s) Ages 6 thru 17

Distribute the terminees, by column, if either of the above Family Status classifications apply (Item A.10. of the Participant Record).

Note.—A terminee who is a single parent and has dependent children who are over *and* under age 6 should be included in the entry for Line 13 only.

Race/Ethnic Group

Line 15 White (Not Hispanic)
Line 16 Black (Not Hispanic)
Line 17 Hispanic
Line 18 American Indian or Alaskan Native
Line 19 Asian or Pacific Islander

Distribute the terminees according to the Race/Ethnic Groups listed above. For purposes of this report, Hawaiian Natives are to be recorded as "Asian or Pacific Islander" (Item A.22. of the Participant Record). The sum of Lines 15 through 19 in each column should equal Item I.B. in that column.

Other Barriers to Employment

Line 20 Limited English-Language Proficiency
Line 21 Handicapped (Adults/Youth)
Line 22 Offender

Enter the terminees, by column, for as many of the above Barriers to Employment in Lines 20 through 22 as apply (Item A.23. of the Participant Record).

Unemployment Compensation Status

Line 23 Unemployment Compensation Claimant
Line 24 Unemployment Compensation Exhaustee

Enter the terminees, by column, if either of the above Unemployment Compensation classifications apply (Item A.16. of the Participant Record).

Labor Force Status

Line 25 Unemployed: 1–4 Wks. of Prior 26 Wks.
Line 26 Unemployed: Long-term—15 or More Wks. of Prior 26 Wks.
Line 27 Not in Labor Force

Distribute the terminees by column, if any of the Labor Force Status (Item A.17. of the Participant Record) classifications apply.

Line 28 Average Weeks Participated

Entered the average number of weeks of participation in the program for all terminees.

To calculate this entry: Count the number of days participated for each terminee, including weekends, from his/her date of entry into the program until his/her termination date. Divide this result by 7. This will give the number of weeks participated for that terminee.

Sum all the terminees' weeks of participation and divide the result by the number of terminees, as entered (by column) in Item I.B.

Line 29 Youth Welfare Recipient

Enter the number of youth terminees who were welfare recipients or whose family received cash payments under AFDC (SSA Title IV), General Assistance (State or local government), or the Refugee Assistance Act of 1980 (PL 96–212) at the time of JTPA eligibility determination. For performance standards purposes, *exclude* recipients of SSI (SSA Title XVI) from entries for Line 19.

Item II.B. Wage and Welfare Data

Line 30 No. of Terminees Entered Unsubsidized Employment (For Terminees with Preprogam Hourly Wage)

Enter the number of terminees who entered unsubsidized employment at termination and who had a preprogram hourly wage (i.e., had held a job sometime during the 13 weeks prior to eligibility determination).

Line 31 Average Hourly Wage in Last Job (13 Weeks Preprogram)

Enter the average hourly wage for the last job held during the 13 weeks prior to eligibility determination for the total number of terminees shown on Line 30 above (by column).

To calculate this entry: Sum the hourly wage for the last job held during the 13 weeks prior to eligibility determination for all the terminees shown on Line 30 above (by column). Divide the result by the number of terminees shown on Line 30 above (by column).

Line 32 Average Hourly Wage at Termination (For Terminees with Preprogram Hourly Wage)

Enter the average hourly wage at termination for the total number of terminees shown on Line 30 above (by column).

To calculate this entry: Sum the hourly wage at termination for all the terminees shown on Line 30 above (by column). Divide the result by the number of terminees shown on Line 30 above (by column).

Line 33 Average Hourly Wage at Termination (For Terminees with Preprogram Hourly Wage)

Enter the average hourly wage at termination for terminees who entered unsubsidized employment and who had no preprogram hourly wage (i.e., had not held a job sometime during the 13 weeks prior to eligibility determination).

To calculate this entry: Subtract the entry for Line 30 in each column from the entry for Item 1.B.1 of Section I in that column. This will give the number of terminees who had no preprogram hourly wage. Sum the hourly wage at termination for such terminees. Divide the result by the number of terminees who had no preprogram hourly wage.

Line 34 Average Monthly Welfare Grant (At Time of Eligibility Determination)

Enter the average monthly welfare grant for all terminees who were welfare recipients or whose family received cash payments under AFDC, General Assistance, or the Refugee Assistance Act of 1980 at the time of eligibility determination. For performance standards purposes, exclude recipients of SSI from entries in Column B.

To calculate this entry: Sum the average monthly welfare grant for each terminee who was a welfare recipient or whose family received cash payments, as defined above, at the time of eligibility determination. Divide the result by the number of terminees shown in Item I.B., Column B.

Note.—Since followup is required for all terminees, it is strongly encouraged that the 13 weeks pre-program information be collected at the time of eligibility determination in order to facilitate the matching of followup data with required pre-program data. Refer to the Participant Record for further information.

Section III—Program Costs

Line 35 Total Program Costs

Enter the total accrued expenditures, through the end of the reporting period, of the funds allocated to SDAs under Section 202(a) of the Act or otherwise distributed by the Governor to SDA's under Section 202(b)—Performance incentives—for the Title II–A program in Columns A and C, as appropriate, for all participants served. Enter the total accrued expenditures, through the end of the reporting period, of Title III funds received by the Governor under Section 301 of the Act in Column D only, for all participants served.

Note.—Entries will be made to the nearest dollar. The ASR program cost data will be compiled on an accrual basis. If the recipient's accounting records are not normally maintained on an accrual basis, the accrual information should be developed through an analysis of the records on hand or on the basis of best estimates.

Section IV—Followup Information

Note.—This information must be obtained for all terminees, if the terminee populations are not large enough to use sampling (see the next section for further details), by means of participant contact methods only. Information required concerning terminees who had and did not have pre-program wages will be used for establishing further performance standards.

Line 36 Potential Total Contacts

Enter the total number of individuals for whom followup is required (if sampling is not used) and whose followup period ends within the reporting period. Individuals who terminate during the previous reporting period, but whose followup period ended during the current reporting period, are include in the entry for Line 36.

Line 37 Potential Sample Contracts

When sampling is used, enter the number of individuals in the sample in Line 37. Otherwise, enter zero for this line. (See the following section for the appropriate sample sizes.)

Line 38 Responses

Enter the number of individuals (of those entered in Line 36 or 37, as appropriate) for which all required followup information has been obtained.

Line 39 Total Employed (At Time of Contact)

Enter the number of individuals who were in unsubsidized employment at the time of contact (13 weeks after termination).

Line 40 Total Employed (Sometime During the First 13 Weeks after Termination)

Enter the number of individuals who were at time of contact, or had been sometime during the 13 weeks after termination, in unsubsidized employment.

Line 41 Average Hourly Wage (13 Weeks Preprogram)

Enter the average hourly wage for the last job held, if any, during the 13 weeks prior to eligibility determination for individuals who terminated during the report period, and for whom followup responses have been obtained (see entry for line 40).

To calculate this entry: Sum the last hourly wage for the last job held during the 13 weeks prior to eligibility determination for each of the individuals shown in the entry for Line 40 (by column). Divide that result by the total number of individuals shown in the entry for Line 40 (by column). If the individual had no preprogram wage, enter zero in the summation.

Line 42 Average Hourly Wage (13 Weeks after Termination)

Enter the average hourly wage for individuals who were, or had been, in unsubsidized employment sometime during the first 13 weeks after termination, who terminated during the report period, and for whom followup

responses have been received (see entry for Line 40).

To calculate this entry: Sum the last hourly wage for the last job held during the 13 weeks after termination for each of the individuals shown in the entry for Line 40 (by column). Divide that result by the total number of individuals shown in the entry for Line 40 (by column).

Line 43 Average Weeks Worked (13 Weeks Preprogram)

Enter the average number of weeks worked in the 13 weeks prior to eligibility determination for all individuals shown in the entry for Line 40 who terminated during the report period, and for whom followup responses have been obtained.

To calculate this entry: Sum the total number of weeks worked in the 13 weeks prior to eligibility determination for each of the individuals shown in the entry for Line 40. Divide that result by the total number of individuals shown in the entry for Line 40 (by column). If the individual had no preprogram wage, enter zero in the summation.

Line 44 Average Weeks Worked (13 Weeks after Termination)

Enter the average number of weeks worked in the 13 weeks after termination for all individuals shown in the entry for Line 40 who terminated during the report period, and for whom follow-up responses have been obtained.

To calculate this entry: Sum the total number of weeks worked in the 13 weeks after termination for each of the individuals shown in the entry for Line 40. Divide that result by the total number of individuals shown in the entry for Line 40 (by column).

Line 45 Average Hours Worked—Last Job (13 Weeks Preprogram)

Enter the average number of hours worked during a week for the last job held during the 13 weeks prior to eligibility determination for all individuals shown in the entry for Line 40 who terminated during the report period, and for whom followup responses have been obtained.

To calculate this entry: Sum the total number of hours usually worked during *a week* for the last job held during the 13 weeks prior to eligibility determination for each of the individuals shown in the entry for Line 40. Divide that result by the total number of individuals shown in the entry for Line 40 (by column). If the individual had no preprogram wage, enter zero in the summation.

Line 46 Average Hours Worked-Last Job (13 Weeks after Termination)

Enter the average number of hours worked during a week for the last job held during the 13 weeks after termination for all individuals shown in the entry for Line 40 who terminated during the report period, and for whom followup responses have been obtained.

To calculate this entry: Sum the total number of hours usually worked during a week for the last job held during the 13 weeks after termination for each of the individuals shown in the entry for Line 40. Divide that result by the total number of individuals shown in the entry for Line 40 (by column).

Line 47 Individuals Off Welfare (13 Weeks After Termination)

Enter the number of individuals who were welfare recipients at the time of termination from the program, and who entered unsubsidized employment at termination or were employed sometime during the 13 weeks after termination, and who were no longer welfare recipients.

Line 48 Individuals with Reduced Welfare (13 Weeks after Termination)

Enter the number of terminees, who were welfare recipients at the time of termination from the program, and who entered unsubsidized employment at termination or were employed sometime during the 13 weeks after termination, and who were receiving reduced welfare grants.

Line 49 Average Welfare Grant Reduction (13 Weeks After Termination)

Enter the total reduction in the monthly welfare grant(s) 13 weeks after termination for all individuals off welfare and all those receiving reduced grants who entered unsubsidized employment at termination or were employed sometime during the 13 weeks after termination.

To calculate this entry: Sum the monthly grant reduction for each terminee of welfare or whose grant has been reduced (see entries for Lines 47 and 48). Divide this result by the total number of terminees included in the entries for Lines 47 and 48.

Note.—Again, it is strongly encouraged that all information requested concerning preprogram experience be collected for all participants at the time of eligibility determination in order to facilitate the matching of followup data to required preprogram data.

V. Use of Sampling To Obtain Followup Information

As indicated in the reporting instructions, the necessary participant followup information for all adult (AD) terminees, adult welfare (WR) terminees, and/or dislocated workers (DW) terminees, may be based on an annual sample drawn at random. Where sampling is used to obtain this information, SDA's will be expected to establish a system which provides accurate and reliable data that are representative of the followup universe. Consequently, it is necessary to have a system which ensures consistent random identification of sample participants throughout the performance period. Furthermore, the system must be structured to permit the matching of intake records with termination and followup records to produce the appropriate preprogram, termination, and postprogram data that must be reported for the sample population. In addition the system should facilitate prompt contact of sample participants once their followup period is completed (i.e., 13 weeks after the date of termination). This will necessitate access to current participant locator information. It is, therefore, important for SDA's to update locator information at time of termination for each participant who will be in the sample. This should include the participant's address and telephone number, as well as telephone numbers of relatives, friends, and/or neighbors. Oftentimes participants change residence after terminating from the program. Additional contact information will be extremely helpful in locating individuals in this instance.

However, the use of sampling will depend on whether the respective terminee populations are large enough to provide estimates which meet minimum standards of statistical precision and confidence. These minimum standards require a sample which provides estimates that have a 95 percent confidence level and an expected error of no more than ±10 percent. In addition, SDA's that choose to sample should design their efforts to achieve a minimum response rate of 70 percent.

Based on national estimates of means and standard deviations of earnings and welfare payments from the Continuous Longitudinal Manpower Survey (CLMS), the following sample sizes will be necessary to meet the appropriate satistical specifications:

AD terminees—296
WR terminees—321
DW terminees—321

If the number of individuals for whom followup is required and whose followup period ends within the reporting period is less than the required sample sampling cannot be used to obtain participant followup information.

In such cases, followup information must be obtained for all the appropriate terminees. Otherwise, the sample sizes noted above are adequate to provide acceptable estimates within the minimum sampling standards for all terminee populations.

The required sample sizes shown above assume that independent "AD terminees","WR terminees", and "DW terminees" samples will be drawn randomly. In order to select terminees for followup, first compute the proportion of terminees to be sampled as follows:

(1) For adult terminees, divide 296 by the number of terminations which are expected to occur during the program year. (Example: assume an SDA expects 1500 terminations during the year; (296/1500 x 100 = 20%)).

(2) For welfare terminees, divide 321 by the number of welfare terminees expected. (Example: assuming the SDA above expects 60 percent of the 1500 terminations to have been receiving welfare at entry: 321/(.6 x 1500) x 100 = 36%).

(3) For dislocated workers terminees, divide 321 by the number of terminations which are expected to occur during the program year.

(Example: assuming a State expects 2000 terminations during the year: (321/2000 x 100 = 16%)).

The above examples assume that independent "AD terminees', "WR terminees", and "DW terminees samples will be drawn. That may not be wholly necessary since "WR terminees" appearing in the "AD terminees" sample could also be included in the "WR terminees" sample.

Once the proportions are determined, a table of random numbers or other random selection techniques must be used to select the terminees who will be sampled. Terminees comprising the sample should be "flagged" at the time of termination and followup information should be obtained 13 weeks after termination.

Definition of Terms Necessary for Completion of Reports

Education Status

School Dropout—An individual who is not attending any school and has not received a high school diploma or a GED Certificate.

Student (high school or less)—An individual who is enrolled in an elementary or secondary school (including elementary, junior and senior high school or equivalent), or is between school terms and intends to return to school.

High School Graduate or Equivalent (no post-high school)—An individual who has received a high school diploma or GED Certificate, but who has not attended any post-secondary vocational, technical, or academic school.

Post-High School Attendee—An individual who is attending, or has attended, a post-secondary vocational, technical, or academic school.

Handicapped Individual—Refer to Section 4(10) of the Act. Any individual who has a physical or mental disability which for such individual constitutes or results in a substantial handicap to employment.

Note.—This definition will be used for performance standards purposes, but not for program eligibility determination (Section 4(8)(E).

Labor Force Status

Employed—(a) An individual who, during the 7 consecutive days prior to application to a JTPA program, did any work at all: (i) as a paid employee; (ii) in his or her own business, profession or farm, or (iii) worked 15 hours or more as an unpaid worker in an enterprise operated by a member of the family; and (b) an individual who was not working, but has a job or business from which he or she was temporarily absent because of illness, bad weather, vacation, labor-management dispute, or personal reasons, whether or not paid by the employer for time off, and whether or not seeking another job. (This term includes members of the Armed Forces who have not been discharged or separated; participants in registered apprenticeship programs; and self-employed individuals.)

Unemployed—An individual who did not work during the 7 consecutive days prior to application to a JTPA program, who made specific efforts to find a job within the past 4 weeks prior to application, and who was available for work during the 7 consecutive days prior to application (except for temporary illness).

Not in Labor Force—A civilian 16 years of age or over who is not clasified as employed or unemployed. (This term includes persons who never worked at a full-time job lasting 2 weeks or no longer and "discouraged workers," who have been and are longer actively seeking employment.)

Limited English Language Proficiency—Inability of an applicant, whose native language is not English, to communicate in English, resulting in a job handicap.

Offender—Refer to Section 4(17) of the Act. Any adult or juvenile who is or has been subject to any stage of the criminal justice process for whom services under this Act may be beneficial or who requires assistance in overcoming artificial barriers to employment resulting from a record of arrest or conviction.

Single Parent— A single, abandoned, separated, divorced, or widowed individual who has responsibility for one or more dependent children: (1) Under age 6, or (2) Ages 6 through 17.

UC Claimant—Any individual who has filed a claim and has been determined monetarily eligible for benefit payments under one or more State or Federal unemployment compensation programs, and who has not exhausted benefit rights or whose benefit year has not ended.

UC Exhaustee—Any individual who has exhausted his unemployment compensation benefits (not including Extended, Additional State, or Federal Supplemental Benefits) for which he has been determined monetarily eligible.

Attachment #1—Optional JTPA Performance Standards Worksheets (Completion Instructions)

The JTPA Performance Standards Worksheets (PSW) are provided to assist the Governor's staff in calculating performance standards for each of the performance measures.

A separate PSW is provided for each of the performance measures. The worksheets will assist the Governor in establishing Service Delivery Area (SDA) Performance Standards for each performance measure based on the Secretary's Performance Standards and any variations applied by the Governor within the Secretary's parameters.

To facilitate the Governor's calculation of performance standards, appropriate information has been preprinted on each PSW. This information includes:

(1) Local factors which influence performance potential (Column F);

(2) National Average Factor Values (Column H);

(3) Weights (Column J);

(4) National Average Performance Level (Block L); and

(5) Secretary's Parameters Limits (Block N).

The remainder of this attachment is divided into four parts:

Part A—Facsimiles of the Performance Standards Worksheets including appropriate preprinted information;

Part B—General Instructions for Completing the Performance Standards Worksheets;

Part C—Supplemental Instructions for Completing Selected Items on the Performance Standards Worksheets; and

Part D—Local Economic Data or Sources for Obtaining It.

Part A—Facsimiles of the JTPA Performance Standards Worksheets Including Appropriate Preprinted Information

EXAMPLE

BILLING CODE 4510-30-C

Part B—General Instructions for Completing the JTPA Performance Standards Worksheets

The following provides general instructions for completing the JTPA Performance Standards Worksheets (PSW) found in Part A of this attachment. These instructions include the sources of data and computation methods for most of the items on the worksheets. However, the sources of the data and the computation methods for certain entries on the PSW warrant a more detailed explanation and may be found in Part C of this attachment. Supplemental instructions for completing Column G (SDA Factor Values) are provided in Part C of this attachment.

Instructions for Completing the JCPA Performance Standards Worksheets

A. Service Delivery Area's Name

Enter the Service Delivery Area's name.

B. SDA Number

Enter the JTPA number assigned by the Governor to the SDA.

C. Performance Period

Enter the program year for which the performance standard for each measure is being established.

D. Type of Standard/Date

Enter a check in the box next to the appropriate response (i.e., whether the standard is based on the SDA plan or is recalculated based on the end-of-year performance). For Date, enter for "Calculated" the date on which the calculations were made.

E. Performance Measure

The name of the appropriate performance measure for which the SDA Performance Standard is being established is preprinted

F. Column F—Local Factors

The local factors determined by the Secretary to have a measurable influence on SDA expected performance levels for each of the performance measures have been preprinted.

G. Column G—SDA Factors Values

Enter the SDA's values for each local factor listed in "Column F" which reflect the characteristics of the planned participants who will terminate during the program year and the planned average number of weeks of participation for all terminees. These planning values should be obtained from the SDA's. The characteristics of the terminees must be expressed at a percent of the total planned number of participants who will terminate during the program year. The average weeks participated will reflect the sum of the number of weeks participated for all terminees divided by the total number of terminees. Data reflecting local economic conditions are provided in PART D of this attachment. These data should be used for the economic planning values in those cases where the SDA reflects the same geographical configuration as the previous program period. If the SDA's geographical configuration is changed, economic planning values should be obtained from the State Employment Security (SESAs) or the SDA. To the extent possible, the ETA will provide updated local economic conditions for each SDA at a later date. (See PART C of this attachment for detailed completion instructions.)

Note.—Actual SDA Factor Values based on actual experience will be substituted for the planned SDA Factor Values when the Secretary's Performance Standards are recalculated at the end of the performance period.

H. Column H—National Average Factor Values

The national average data for the local factors shown in "Column F" have been preprinted.

I. Column I—Difference

Enter the result of subtracting "Column H" from "Column G" for each local factor listed in "Column F".

J. Column J—Weights

The appropriate weight for each local factor listed in "Column F" has been preprinted.

K. Column K—Effect of Local Factors on Performance Expectations

Enter the net result of multiplying "Column I" by "Column J" for each local factor listed in "Column F".

L. Block L—National Average Performance Level

The national average performance level for each performance measure has been preprinted

M. Block M—Secretary's Performance Standard

Enter the Secretary's Performance Standard by adding the plus factor, or subtracting the minus factor, found in the "Total" box for "Column K" to the National Average Performance Level ("Block L").

N. Block N—Secretary's Parameters Limits

The appropriate Secretary's Parameters Limits for each performance measure have been preprinted.

O. Block O—Governor's Adjustment Factor Within Parameters

The Governor may take into consideration exceptional or mitigating circumstances and thereby adjust the Secretary's Performance Standard ("Block M"). However, in *no* case may the Governor's adjustment go beyond the Secretary's Parameters Limits ("Block N") without approval by the Secretary. Any adjustment made by the Governor should be entered in "Block O".

Examples: The Secretary's Parameters Limits for the entered employment rate are +30% and −20%. The SDA's jurisdiction experienced a major plant opening after the period for which the economic data was generated, therefore the Governor adjusted the Secretary's Performance Standard upward by 5%. The +5% would be entered in "Block O".

The Secretary's Parameters Limits for the cost per entered employment are +40% and −10%. The SDA's jurisdiction experienced a major plant opening after the period for which the economic data was generated, therefore, the Governor adjusted the Secretary's Performance Standard downward by 5%. The −5% would be entered in "Block O".

P. Block P—Governor's Adjustment Within Parameters

The Governor's Adjustment Within Parameters will be the percentage points (dollars for the cost per measures and the average wage at placement measure) which will be added to or subtracted from the Secretary's Performance Standard ("Block M").

Examples:

If the Secretary's Performance Standard for the entered employment rate is 50% and the Governor's Adjustment Factor Within Parameters ("Block O") is +5%, then the Governor's Adjustment Within Parameters ("Block P") is +2.5% points.

If the Secretary's Performance Standard for the cost per entered employment is $4,500 and the Governor's Adjustment Factor Within Parameters ("Block O") is −5%, then the Governor's Adjustment Within Parameters ("Block P") is −$225.

Q. Block Q—SDA Performance Standard

The figure entered for the Governor's Adjustment Within Parameters ("Block P") should be added to or subtracted from the Secretary's Performance Standard ("Block M"). The result of this calculation is the SDA Performance Standard.

Exampes:

If the Secretary's Performance Standard for the entered employment rate is 50% ("Block M") and the Governor's Adjustment Within Parameters is +2.5% points ("Block P"), then the SDA performance Standard is 52.5%.

If the Secretary's Performance Standard for the cost per entered employment is $4,500 and the Governor's Adjustment Within Parameters is $225, then SDA Performance Standard is $4,275

Instructions for Completing the JTPA Performance Standards Worksheet (Welfare Entered Employment Rate)

A. Blocks A through E

Complete in accordance with the instructions provided for the JTPA Performance Standards Worksheets (PSW) for the other six measures.

B. Line 1—Secretary's Performance Standard for the Adult Entered Employment Rate

Transfer the figure in "BLock M" (Secretary's Performance Standard) from the completed PSW for the adult entered employment rate measure.

C. Line 2—SDA (State) Welfare Entered Employment Rate Ratio

Enter the ratio of the welfare entered employment rate to the Total entered employment rate and shown on Attachment #1, PART D. Where the jurisdiction of the SDA is the same as that of the previous year, the SDA's ratio should be entered on "Line 2". Where the jurisdiction of the SDA is

different, the State's ratio should be entered on "Line 2".

D. Line 3—Welfare Entered Employment Rate

Multiply the SDA (State) Welfare Entered Employment Rate Ratio ("Line 2") by the Secretary's Performance Standard for the Adult Entered Employment Rate ("Line 1") and post the results on "Line 3".

E. Block M—Secretary's Performance Standard

Transfer the figure shown on "Line 3" above to "Block M".

F. Blocks N through Q

Complete in accordance with the instructions for the JTPA Performance Standards Worksheets (PSW) for the other six measures.

Part C—Supplemental Instructions for Calculating Selected Items on the JTPA Performance Standards Worksheets

The following provides detailed instructions regarding data sources and computations for entries on the JTPA Performance Standards Worksheets for Column G (SDA Factor Values).

Column G (SDA Factor Values)—The following describes the sources of the planning data to be used in computing the planned value for each local factor found to influence performance expectations. The factors are terminee characteristics, average weeks participated, and economic data. Data concerning the terminee characteristics and the average weeks participated should be obtained from the SDA's. Local economic data are provided in PART D of this Attachment. If the SDA's geographical configuration is the same as the previous year, then the local economic data provided in PART D of this Attachment should be used. If the SDA's geographical configuration is different, the local economic data should be obtained from the State Employment Security Agency (SESA) or the SDA (if not already provided by the ETA). The specific entries for SDA Planned Values will be posted in "Column G" of the appropriate PSW.

1. *Terminee Characteristics.* Compute the percentages comprising the SDA Factor Values for terminee characteristics by utilizing the planned termination data for age, race, sex, public assistance status, educational status, etc. obtained from the SDA's. In computing the SDA Factor Values, the planned cumulative data through June 30, 1984 should be used. The basic formula for determining these entries is:

—the planned cumulative number of terminations through June 30, 1984 for each characteristic as a percent of the planned cumulative number of total terminations from the program.

Note.—Actual SDA Factor Values based on actual cumulative data through June 30, 1984 should be used in lieu of the planned SDA Factor Values when the Secretary's Performance Standards are recalculated at the end of the performance period. The basic formula for determining the actual SDA Factor Values entries is:

—the actual cumulative number of terminations through June 30, 1984 for each characteristic as a percent of the actual cumulative number of total terminations from the program.

Example: SDA #1 submits a plan which contains the following planned characteristic data through June 30, 1984:

Adult terminee characteristics	Planned adult terminations
Total	1,000
Males	531
Females	469
22 to 44 years	700
45 to 54 years	190
55 years and up	110
White	236
Black	412
Hispanic	301
American Indian or Alaska Native	30
Asian or Pacific Islander	21
Post High School	300
Students (High School or Less)	0
Dropouts	250
High School Grad (or Equiv.)	450
Handicapped	95
UI Claimants	100
Welfare Recipients	350

The SDA Factor Values which would be posted in "Column G" of the appropriate PSW for SDA #1 would be as follows:

Local factors (percent)	Computation	SDA planned values
Female	469÷1,000	49.9
45 to 54 years	190÷1,000	19.0
55 years and up	110÷1,000	11.0
Black	412÷1,000	41.2
Hispanic	301÷1,000	30.1
Other minority	(30+21)÷1,000	5.1
Dropouts	250÷1,000	25.0
Handicapped	95÷1,000	9.5
UI claimants	100÷1,000	10.0
Welfare recipients	350÷1,000	35.0

Similar calculations as those shown above should be done in order to compute the SDA Factor Values for all of the terminee characteristics included as local factors in "Column F".

2. *Average Weeks Participated.* SDA's should provide to the Governor the planned average number of weeks of participation of all terminees. The planned Average Weeks Participated number should be entered in "Column G", SDA Factor Values.

3. *Local Economic Conditions.* The remaining local factors reflect SDA planning assumptions pertaining to economic conditions. The specific economic factors are:

—Unemployment Rate;

—Average Wage for the Area

As previously stated, PART D of this Attachment provides local economic data pertaining to CETA prime sponsors during FY 1982. To the extent that the SDA's geographical configuration is the same as the previous program period, the planning data on PART D of this Attachment should be used. If the SDA's geographical configuration is different, the SDA Factor Values for the economic factors should be obtained from the SESA or the SDA (if not already provided by the ETA). To the extent feasible, updated SDA economic planning data will be supplied by the ETA at a later date.

Performance Measures Calculation Formulas—Use the following formulas in order to compute the performance measures listed below:

Performance Measure and Applicable program(s)

(1) Entered Employment Rate—Adult and Youth

Planned Total Terminees Who Will Obtain Employment—Planned Total Terminees

(2) Cost per Entered Employment—Adult

Planned Total Expenditures, Including Administrative Costs—Planned Total Terminees Who Will Obtain Employment

(3) Average Wage at Placement—Adult
Average Wage of all Terminees who Entered Employment at Time of Termination

(4) Positive Termination Rate—Youth
Planned Total Terminees who will: (Obtain Employment) + (Enter non-Title II Training) + (Return to Full-Time School) + (Complete Program Objectives—14–15 Years Only) + (Complete Major Level of Education)—Planned Total Terminees

(5) Cost Per Positive Termination—Youth
Planned Total Expenditures, including Administrative Costs—Planned Total Terminees who will: (obtain Employment) + (Enter non-Title II Training) + (Return to Full-Time School) + (Complete Program Objectives—14–15 Years Only) + (Complete Major Level of Education)

Part D—Local Economic Data or Sources for Obtaining It

[TA-W-13,329]

Bendix Corp., Heavy Vehicle Systems Group, Elyria, Ohio; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974, the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on January 12, 1983 applicable to all workers of the Elyria, Ohio plant of the Bendix Corporation, Heavy Vehicle Group. The Notice of Certification was published in the **Federal Register** on January 21, 1983 (FR 2856).

On the basis of additional information, the Office of Trade Adjustment Assistance, on its own motion, reviewed the certification for the Elyria, Ohio plant, TA-W-13,329. The additional information revealed that company imports of crankshafts began in June 1981 and the first impact of these importations were felt in August 1981. Substantial layoffs and declines in production occurred several weeks before the Department's initial impact date of November 1, 1981. Consequently, these layoffs were not covered by the initial certification.

The intent of the certification for workers at the Elyria, Ohio plant is to cover all workers who were affected by the decline in production of crankshafts and air compressors which was related to the increase in imports of "like or directly competitive articles." The certification for workers at the Elyria, Ohio plant, TA-W-13,329, therefore, is amended by changing the November 1, 1981 impact date to August 1, 1981.

The certification applicable to TA-W-13,329 is hereby amended and issued as follows:

All workers of Elyria, Ohio plant of Bendix Corporation, Heavy Vehicle System, who became totally or partially separated from employment on or after August 1, 1981 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, D.C. this April 19, 1983.

Robert A. Schaerfl,

Director, Office of Program Management, Unemployment Insurance Service.

BILLING CODE 4510-30-M

Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents summaries of determinations regarding eligibility to apply for adjustment assistance issued during the period April 11, 1983–April 15, 1983

In order for an affirmative determination to be made and a certification of eligibility to apply for adjustment assistance to be issued, each of the group eligibility requirements of Section 222 of the Act must be met.

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated,

(2) That sales or production, or both, of the firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Negative Determinations

In each of the following cases the investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA-W-13,744; Our Sportswear, Inc., Elysburg, PA

TA-W-13,407; Republic Steel Corp., Manufacturing Group, Storage Rack Div., Coil Coating Div., Youngstown, OH

TA-W-13,432; Parker Majestic, Inc., Detroit, MI

TA-W-13,720; Teledyne Vasco, Latrobe, PA

TA-W-13,804; Pennsylvania Wire Rope Corp., Williamsport, PA

TA-W-13,717; Mansfield Sportswear, Inc., New York, NY

TA-W-13,778; U.S. Steel Corp., Texas Works, Baytown, TX

TA-W-13,201; Phelps Dodge Corp., Morenci, AZ

TA-W-13,587; Phelps Dodge Corp., Douglas, AZ

TA-W-13,588; Phelps Dodge Corp., Ajo, AZ

TA-W-13,665; Phelps Dodge Corp., Tyrone, NM

TA-W-13,926; Phelps Dodge Corp., El Paso, TX

In the following cases the investigation revealed that criterion (3) has not been met for the reasons specified.

TA-W-13,708; Armco, Inc., Harewood Mine, Longacer, WV

Aggregate U.S. imports of metallurgical coke are negligible.

TA-W-13,701; Ford Motor Company, Metuchen Assembly Plant, Edison, NJ

Aggregate U.S. imports of subcompact automobiles did not increase as required for certification.

TA–W–13,927; Price River Coal Co., #3 Mine, Helper, UT

Aggregate U.S. imports of steam coal are negligible.

TA–W–13,928; Price River Coal Co., #5 Mine, Helper, UT

Aggregate U.S. imports of steam coal are negligible.

TA–W–13,929; Price River Coal Co., Preparation Plant, Helper, UT

Aggregate U.S. imports of steam coal are negligible.

Affirmative Determinations

TA–W–13,412; Consolidated Aluminum Corp., Hannibal, OH

A certification was issued in response to a petition received on April 7, 1982 covering all workers separated on or after September 6, 1981.

TA–W–13,416; Ormet Corp., Hannibal, OH

A certification was issued in response to a petition received on April 5, 1982 covering all workers separated on or after September 6, 1981.

TA–W–13,737; U.S. Steel Corp., Gary Works, Tubing Specialties Div., Gary, IN

A certification was issued in response to a petition received on August 18, 1982 covering all workers separated on or after January 1, 1982.

TA–W–13,585; Sunbeam Corp., Oster Div., Glendale, WI

A certification was issued covering all workers employed in the production of back massagers and vibra massagers who were separated on or after April 1, 1982 and before January 1, 1983.

TA–W–13,630; Jones & Laughlin Steel Corp., Campbell Works, Campbell, OH

A Certification was issued in response to a petition received on June 28, 1982 covering all workers of the Campbell works of Jones & Laughlin Steel Corp., Campbell, OH engaged in employment related to the production of pipe and tubing who became totally or partially separated from employment on or after January 1, 1982.

I hereby certify that the aforementioned determinations were issued during the period April 11, 1983–April 15, 1983. Copies of these determinations are available for inspection in Room 9120, U.S. Department of Labor, 601 D Street, N.W., Washington, D.C. 20213 during normal business hours or will be mailed to persons who write to the above address.

Dated: April 19, 1983.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance

BILLING CODE 4510–30–M

Federal-State Unemployment Compensation Program; Ending of Extended Benefit Period in Nevada

This notice announces the ending of the Extended Benefit Period in Nevada, effective on April 23, 1983.

Background

The Federal-State Extended Unemployment Compensation Act of 1970 (26 U.S.C. 3304 note) established the Extended Benefit Program as a part of the Federal-State Unemployment Compensation Program. The Extended Benefit Program takes effect during periods of high unemployment in a State, to furnish up to 13 weeks of extended unemployment benefits to eligible individuals who have exhausted their rights to regular unemployment benefits under permanent State and Federal unemployment compensation laws. The Act is implemented by State unemployment compensation laws and by Part 615 of Title 20 of the Code of Federal Regulations (20 CFR Part 615).

Extended Benefits are payable in a State during an Extended Benefit Period, which is triggered "on" when the rate of insured unemployment in the State reaches the State trigger rate set in the Act and the State law. During an Extended Benefit Period individuals are eligible for a maximum of up to 13 weeks of benefits, but the total of Extended Benefits and regular benefits together may not exceed 39 weeks.

The Act and the State unemployment compensation laws also provide that an Extended Benefit Period in a State will trigger "off" when the rate of insured unemployment in the State is no longer at the trigger rate set in the law. A benefit period actually terminates at the end of the third week after the week for which there is an off indicator, but not less than 13 weeks after the benefit period began.

An Extended Benefit Period commenced in the State of Nevada on January 23, 1983 and has now triggered off.

Determination of "off" Indicator

The head of the employment security agency of the State named above has determined that the rate of insured unemployment in the State for the period consisting of the week ending on April 2, 1983, and the immediately preceding twelve weeks, fell below the State trigger rate, so that for that week there was an "off" indicator in the State.

Therefore, the Extended Benefit Period in the State terminated with the week ending on April 23, 1983.

Information for Claimants

The State employment security agency will furnish a written notice to each individual who is filing claims for Extended Benefits of the end of the Extended Benefit Period and its effect on the individual's right to Extended Benefits. 20 CFR 615.13(d)(3).

Persons who wish information about their rights to Extended Benefits in the State named above should contact the nearest State employment service office or unemployment compensation claims office in their locality.

Signed at Washington, D.C., on 20th of April 1983.

Albert Angrisani,

Assistant Secretary of Labor.

[FR Doc. 83–11125 Filed 4–25–83; 8:45 am]

BILLING CODE 4510–30–M

Federal-State Unemployment Compensation Program; New Extended Benefit Period in the Virgin Islands

This notice announces the beginning of a new Extended Benefit Period in the Virgin Islands, effective on April 17, 1983.

Background

The Federal-State Extended Unemployment Compensation Act of 1970 (26 U.S.C. 3304 note) established the Extended Benefit Program as a part of the Federal-State Unemployment Compensation Program. The Extended Benefit Program takes effect during periods of high unemployment in a State, to furnish up to 13 weeks of extended unemployment benefits to eligible individuals who have exhausted their rights to regular unemployment benefits under permanent State and Federal unemployment compensation laws. The Act is implemented by State unemployment compensation laws and by Part 615 of Title 20 of the Code of Federal Regulations (20 CFR Part 615).

In accordance with section 203(d) of the Act each State unemployment compensation law provides that there is a State "on" indicator in the State for a week if the head of the State employment security agency determines that, for the period consisting of that week and the immediately preceding 12 weeks, the rate of insured employment under the State unemployment compensation law equalled or exceeded the State trigger rate. The Extended

Benefit Period actually begins with the third week following the week for which there is an "on" indicator. A benefit period will be in effect for a minimum of 13 consecutive weeks, and will end the third week after there is an "off" indicator.

Determination of "on" Indicator

The head of the employment security agency of the State named above has determined that the rate of insured unemployment in the State, for the period consisting of the week ending on April 2, 1983, and the immediately preceding 12 weeks, rose to a point that equals or exceeds the State trigger rate, so that for that week there was an "on" indicator in the State.

Therefore, a new Extended Benefit Period commenced in the State with the week beginning on April 17, 1983.

Information for Claimants

The duration of extended benefits payable in the new Extended Benefit Period, and the terms and conditions on which they are payable, are governed by the Act and the State unemployment compensation law. The State employment security agency will furnish a written notice of potential entitlement to extended benefits to each individual who has established a benefit year in the State that will expire after the new Extended Benefit Period begins, and who has exhausted all rights under the State unemployment compensation law to regular benefits before the beginning of the new Extended Benefit Period. 20 CFR 615.13(d)(1). The State employment security agency also will provide such notice promptly to each individual who exhausts all rights under the State unemployment compensation law to regular benefits during the Extended Benefit Period, including exhaustion by reason of the expiration of the individual's benefit year. 20 CFR 615.13(d)(2).

Persons who believe they may be entitled to extended benefits in the State named above, or who wish to inquire about their rights under the Extended Benefit Program, should contact the nearest State employment service office or unemployment compensation claims office in their locality.

Signed at Washington, D.C., on 20th of April 1983.

Albert Angrisani,

Assistant Secretary of Labor.

BILLING CODE 4510-30-M

Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance

Petitions have been filed with the Secretary of Labor under Section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Employment and Training Administration, has instituted investigations pursuant to Section 221(a) of the Act.

The purpose of each of the investigations is to determine whether the workers are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

The petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 6, 1983.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 6, 1983.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Employment and Training Administration, U.S. Department of Labor, 601 D Street, N.W., Washington, D.C. 20213.

Signed at Washington, D.C. this 18th day of April 1983.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

BILLING CODE 4510-30-M

[TA-W-13,728]

CF & I Steel Corp., et al.; Revised Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In the matter of CF & I Steel Corp., Pueblo, Colorado; CF & I Steel Corp., Monarch Quarry, Monarch, Colorado; and CF & I Steel Corp., Canon Quarry, Canon City, Colorado.

In accordance with Section 223 of the Trade Act of 1974, on March 23, 1983, the Department of Labor issued a certification of eligibility to apply for adjustment assistance to all workers of CF & I Steel Corporation, Pueblo, Colorado.

Subsequent to the certification, the Office of Trade Adjustment Assistance received a request to review and redetermine the impact date for the workers of CF & I Steel Corporation, Pueblo, Colorado, engaged in employment related to the production of seamless pipe and tubing, steel rails, rolled products, wire and wire products, basic and semi-finished steel, coke and coke chemicals, and to expand the scope of the investigation to include workers of CF & I's limestone and dolomite quarries, located in Monarch and Canon City, Colorado, respectively. Further investigation initiated in response to this request revealed that U.S. imports of seamless carbon steel pipe and tubing, carbon steel structural shapes, steel rails, carbon steel wire rod and carbon steel wire increased absolutely in 1981 compared to 1980; and surveyed customers reduced purchases of seamless carbon steel pipe and tubing, rolled products, carbon steel wire rod and carbon steel wire and wire products from CF & I Steel Corporation in 1981 compared to 1980 while increasing purchases of imported seamless carbon steel pipe and tubing, rolled products, carbon steel wire rod and wire and wire products.

The investigation also revealed that operations at the limestone quarry are of a seasonal nature, with no production from late October through April of each year. Employees were not recalled in April of 1982 as a result of a decision by CF & I to obtain its burnt lime (limestone in a further stage of processing) from other domestic sources. CF & I relied upon other domestic sources for all of its needs from May to July 1982, by which time CF & I temporarily suspended all production operations which require limestone as a raw material.

Furthermore, the investigation revealed that dolomite extracted from the dolomite quarry in Canon City, Colorado was used in the Pueblo plant's soaking pits. By late April 1983, as a result of reduced production of rails and rounds (unfinished rail and pipe), most of the soaking pits were shut down. The dolomite quarry itself was shut down by the first week of June 1982, by which time all employees were laid off.

The certification, therefore, is revised to include workers of CF & I Steel Corporation, Pueblo, Colorado, engaged in employment related to the production of seamless pipe and tubing, steel rails, rolled products, wire and wire products, including rod, basic and semi-finished steel, coke and coke chemicals, who were separated prior to the January 1, 1982 impact date, and workers of CF & I Steel Corporation, Canon Quarry, Canon City, Colorado.

The revised certification would not affect workers engaged in employment related to the production of rail accessories, grinding media and mine supplies at the Pueblo plant.

The revised certification applicable to TA-W-13,728 is hereby issued as follows:

All workers of the CF & I Steel Corporation, Pueblo, Colorado engaged in employment related to the production of seamless pipe and tubing, steel rails, rolled products, wire and wire products, basic and semi-finished steel, coke and coke chemicals, who became totally or partially separated from employment on or after August 11, 1981, and all workers of the Canon Quarry of CF & I Steel Corporation, Canon City, Colorado who become totally or partially separated from employment on or after April 30, 1982 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

I further determine that all workers of CF & I Steel Corporation, Pueblo, Colorado, engaged in employment related to the production of rail accessories, grinding media and mine supplies, and all workers of the Monarch Quarry of CF & I Steel Corporation, Monarch, Colorado be denied eligibility to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, D.C. this 18th day of April 1983.

Harold A. Bratt,

Deputy Director, Office of Program Management, Unemployment Insurance Service.

BILLING CODE 4510-30-M

[TA-W-13,773]

Magma Copper Co., Superior, Arizona; Negative Determination Regarding Application for Reconsideration

By an application dated March 29, 1983, the United Steelworkers of America requested administrative reconsideration of the Department of Labor's Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance in the case of workers and former workers at Magma Copper Company, Superior, Arizona. The determination was published in the **Federal Register** on March 22, 1983 (48 FR 12006).

Pursuant to 29 CFR 90.18(c), reconsideration may be granted under the following circumstances:

(1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;

(2) If it appears that the determination complained of was based on a mistake in the determination of facts previously considered; or

(3) If, in the opinion of the Certifying Officer, a misinterpretation of facts or of the law justifies reconsideration of the decision.

In its request for reconsideration, the Union argues that the Department's decision should have been based on the total copper content of imported copper (ore concentrates, matte, blister, refined and scrap) instead of imports of refined copper. Had this been done, according to the Union, there would have been a sufficient basis for an affirmative determination of eligibilty, given the declining domestic production of refined copper. The Union indicated that there was no survey of customers of Magma Copper cited in the Department's negative determination. Lastly, the union suggests that the Magma Copper

determination was inconsistent with those issued by the Department for workers producing refined copper at Kennecott Corporation, TA-W-13,509; 13,628; 13,648 and 13,649.

In the instant case the Department's investigation revealed that all copper ore and concentrates produced by the company was used in company production of cathodes. Neither copper ore nor copper concentrate was marketed to outside customers. That being the case, the proper focus of competitive impact is on the final product i.e., copper cathodes and rods. The Department used imports of refined copper as the product like or directly competitive with the products produced by the company. The investigation revealed that refined copper imports had declined both in absolute and relative terms during the period relevant to the investigation. Total domestic production of refined copper declined while U.S. exports of refined copper increased during the investigative period.

The Department is not obliged to conduct a customer survey as substantiating the "contributed importantly" part of Section 222 of the Act for group certification if the increased import criterion of that Section is not met. All of the criteria of Section 222 of the Act must be met for certification.

The Department's initial denial for trade adjustment assistance for Magma Copper workers is not inconsistent with certifications issued to the Kennecott Corporation. The decisions were different because the facts pertinent to the decision in the respective cases were different. Each worker petition must be handled on its own merits for the appropriate time frame for which it was filed in determining whether it meets the satutory criteria of Section 222 of the Trade Act. The worker investigations for workers at Kennecott (TA-W-13,509; 13,628; 13,648 and 13,649) were instituted in an earlier time frame when only import data for the first six months of 1982 was available. The data was used in conjunction with company data for the same period. The worker petition for Magma Copper (TW-W-13,776) was filed later when data on imports of refined copper in the first nine months of 1982 became available. Data now on file show that U.S. imports of refined copper for the entire 1982 year declined 22 percent compared to 1981. Company data for the same relevant period was used in the investigation.

Conclusion

After careful review of the application and the investigative file, I conclude that there has been no error or misinterpretation of the law which would justify reconsideration of the Department of Labor's prior decision. Accordingly, the application is, denied.

Signed at Washington, D.C. this 18th day of April 1983.

Harold A. Bratt,

Deputy Director, Office of Program Management, Unemployment Insurance Service.

[FR Doc. 83-11120 Filed 4-25-83; 8:45 am]

BILLING CODE 4510-30-M

Job Training Partnership Act (Pub. L. 97-300); Additional Fiscal Year 1983 Allocations Under Title III, Section 301(b); Employment and Training Assistance for Dislocated Workers

AGENCY: Employment and Training Administration, Labor.

SUMMARY: Amounts allotted to States for programs under Title III, Section 301(b) of JTPA were published in the **Federal Register** on Tuesday, February 8, 1983. Those funds were made available through Pub. L. 97-377. This notice sets forth additional funds made available pursuant to the emergency job legislation—Pub. L. 98-8—which the President signed into law on March 24, 1983.

FOR FURTHER INFORMATION CONTACT: Robert N. Colombo, Acting Director, Office of Employment and Training Programs, Employment and Training Administration, 601 D Street NW., Washington, D.C. 20213, telephone number (202) 376-6093.

SUPPLEMENTARY INFORMATION: Additional JTPA Title III dislocated worker funds are being made available pursuant to Pub. L. 98-8 which was signed into law by the President on March 24, 1983. There are no non-federal matching requirements for these funds.

These funds are being distributed in accordance with the JTPA title III statutory formula and the latest available data. The data used for relative number of unemployed and relative number of excess unemployed are an average for the period February 1982 through January 1983. The long-term unemployment data are 1982 annual averages.

These funds are in addition to funds provided to Governors in February for dislocated worker programs. Governors are being advised in writing of the procedures to follow in applying for these funds.

Following are the allotments for each State along with an explanation for each column.

Column 1 is a listing of each State.

Column 2 is the annual average unemployment rate for each State based on data for the months October 1981 through September 1982. This is the unemployment data used to compute the non-federal match required for funds announced in February.

Column 3 indicates the number of units by which the matching requirements are reduced. This column does not apply to the additional dislocated worker funds since there is no non-federal matching requirement.

Column 4 shows a total amount of $18,750,000 and is the original Title III dislocated worker allotment provided to the Governors in February.

Column 5 shows a total amount of $12,952,931 and is the original amount States had to provide in matching in order to qualify for the Federal funds shown in Column 4.

Column 6 shows a total amount of $31,702,931 and is the total program level for the original dislocated worker program. This is a total of Columns 4 and 5.

Column 7 shows a total amount of $63,750,000 and is the additional funds now being made available pursuant to the recently passed Pub. L. 98-8. These are Federal funds and are not subject to matching requirements.

Column 8 show a total amount of $95,452,931 and is the new total program level. This is the total of Columns 6 and 7.

Signed this 14th day of April 1983.

Joyce Kaiser,

Associate Assistant Secretary for Employment and Training.

March 29, 1983.

BILLING CODE 4510-30-M

Job Training Partnership Act (Pub. L. 97-300); Proposed Fiscal Year (FY) 1984 Allotments for Programs Under Title II, Part A; Training Services for the Disadvantaged; Adult and Youth Programs

AGENCY: Employment and Training Administration, Labor.

SUMMARY: This notice sets forth the proposed FY 1984 allotments to States for programs under Title II-A of the Job Training Partnership Act (JTPA). Proposed FY 1984 allotments for Titles II-B and III of JTPA will be issued at a later date.

SUPPLEMENTARY INFORMATION: Attached are proposed FY 1984 annual allotments to States for programs funded under Title II-A of the JTPA. The proposed allotments for Titles II-B and III will be issued at a later date. These proposed allotments are based on the President's January budget request for JTPA, the statutory formula contained in the Act and the latest data available to the Secretary.

These proposed allotments are subject to change as a result of any differences between the final FY 1984 JTPA appropriation and the President's January budget request for FY 1984 upon which these allotments are based.

These Title II-A proposed allotments may also be updated based on the most recent unemployment data available at the time the final allotments are issued. The Department is prepared to update the proposed allotments based on such data. However, the Department is soliciting comments on whether these proposed allotments should be updated when released as final allotments on the basis of the most recent data available at that time, or whether the final

allotments should be based on the same data as are used for these proposed allotments. In this latter case, it would mean that these proposed allotments would change only if there is a difference between the final level appropriated for Title II–A and the President's January budget request. Any decision to update based on the most recent data available would apply to all future JTPA allotments.

The attachment shows a total proposed allotment of $1,886,151,000. This amount represents 100 percent of the funds requested for the Title II–A program. This amount is composed entirely of FY 1984 formula new obligational authority funds. No matching is required for these funds. These funds support the basic job training program. The following data were used in developing these proposed allotments. Data for both areas of substantial unemployment and the number of excess unemployed individuals are averages for the 12-month period, November 1981 through October 1982. The economically disadvantaged data are from the 1980 Census.

The Title II–A proposed allotments contained in the attachment for Guam, the Virgin Islands, American Samoa, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Marianas are based on a proposed formula published in the **Federal Register** on March 11, 1983. These allotments to the territories are subject to change as a result of any change in the proposed formula resulting from comments received on the March 11, 1983, notice.

Comment: The Title II–A proposed allotments will be updated to reflect differences between the final FY 1984 JTPA appropriation and the President's Janaury budget request for FY 1984 upon which these proposed allotments are based. The Department is soliciting comments through this notice on whether it is the preference of the States that we update the allotments based on unemployment data available at the time of tne final appropriations, or use the same data as were used in these proposed allotments.

DATE: Comments on the proposal to update the Title II–A allotments based on the most recent unemployment data at the time of the final FY 1984 JTPA appropriation must be submitted on or before May 26, 1983.

ADDRESS: Comments should be addressed to Robert N. Colombo, Acting Director, Office of Employment and Training Programs, 601 D Street NW., Room 6402, Washington, D.C. 20213.

Signed this 14th day of April 1983.

Joyce Kaiser,

Associate Assistant Secretary for Employment and Training.

April 4, 1983.

BILLING CODE 4510–30–M

Occupational Safety and Health Administration Advisory Committee on Construction Safety and Health; Meeting

Notice is hereby given that the Advisory Committee on Construction Safety and Health, established under Section 107(e) of the Contract Work Hours and Safety Standards Act (40 U.S.C. 333) and Section 7(b) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 656) will meet on May 23–24, 1983 in the Broward Room, Sheraton Twin Towers, Orlando, Florida 32805. The meeting is open to the public and will begin at 9:00 a.m.

The agenda for this meeting will include a review of a draft proposal on crane or derrick suspended personnel platforms, a discussion of a proposed program directive on cranes, comments on a proposed standard for ethylene oxide, a discussion on asbestos, and a general discussion of construction safety and health matters.

Written data, views or comments may be submitted, preferably with 20 copies, to the Division of Consumer Affairs. Any such submissions received prior to the meeting will be provided to the members of the Committee and will be included in the record of the meeting.

Anyone wishing to make an oral presentation should notify the Division of Consumer Affairs before the meeting. The request should state the amount of time desired, the capacity in which the person will appear, and a brief outline the content of the presentation.

Oral presentations will be scheduled at the discretion of the Chairman depending on the extent to which time permits. Communications may be mailed to: Ken Hunt, Committee Management Officer, Office of Information and Consumer Affairs, Occupational Safety and Health Administration U.S. Department of Labor, 200 Constitution Avenue NW., Room N–3635, Washington, D.C. 20210; Telephone: 202–523–8024.

Materials provided to members of the Committee are available for inspection and copying at the above address.

Signed at Washington, D.C., the 20th day of April 1983.

Thorne G. Auchter,

Assistant Secretary.

[FR Doc. 83–11122 Filed 4–25–83; 8:45 am]

BILLING CODE 4510–26–M

Pension and Welfare Benefit Programs Office

Grant of Individual Exemptions; Merchants National Bank of Cedar Rapids

ACTION: Grant of Individual Exemptions.

SUMMARY: This document contains exemptions issued by the Department of Labor (the Department) from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and/or the

Internal Revenue Code of 1954 (the Code).

Notices were published in the **Federal Register** of the pendency before the Department of proposals to grant such exemptions. The notices set forth a summary of facts and representations contained in each application for exemption and referred interested persons to the respective applications for a complete statement of the facts and representations.The applications have been available for public inspection at the Department in Washington, D.C. The notices also invited interested persons to submit comments on the requested exemptions to the Department. In addition the notices stated that any interested person might submit a written request that a public hearing be held (where appropriate). The applicants have represented that they have complied with the requirements of the notification to interested persons. No public comments and no requests for a hearing, unless otherwise stated, were received by the Department.

The notices of pendency were issued and the exemptions are being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

Statutory Findings

In accordance with section 408(a) of the Act and/or section 4975(c)(2) of the Code and the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following findings:

(a) The exemptions are administratively feasible;

(b) They are in the interests of the plans and their participants and beneficiaries; and

(c) They are protective of the rights of the participants and beneficiaries of the plans.

The Merchants National Bank of Cedar Rapids Profit Sharing Plan and Trust (the Plan) Located in Cedar Rapids, Iowa

[Exemption Application No. D–3619; Prohibited Transaction Exemption 83–60]

Exemption

The restrictions of section 406(a) and 406(b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the cash sale of certain fixed income obligations by the Plan to the Merchants National Bank of Cedar Rapids, provided the price paid is no less than the fiar market value of the obligations on the date of sale.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on February 4, 1983 at 48 FR 5398.

Comments and Hearing Requests

The applicant represents that it was unable to notify interested persons of the proposed exemption within the time period specified in the **Federal Register** Notice of February 4, 1983. Therefore, pursuant to discussions with the Department, all interested persons were notified of the proposed exemption on March 11, 1983 and informed that the comment period would be extended until April 11, 1983.

FOR FURTHER INFORMATION CONTACT: Ms. Linda M. Hamilton of the Department, telephone (202) 523–8881. (This is not a toll-free number.)

Annuity Trust Fund of Exxon Corporation (the Fund) Located in Houston, Texas

[Exemption Application No. D–3623; Prohibited Transaction Exemption 83–61]

Section I. The restrictions of section 406(a), 406(b) (1) and (2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply to:

(A) The contribution of certain improved real property (the Property) to the Fund by Exxon Company, U.S.A. (EUSA), a contributing employer to the Fund, provided that EUSA's Federal tax deduction for the contribution does not exceed the fair market value of the Property as of the date it is contributed to the Fund;

(B) The lease (the Lease) of office space by the Fund to Friendswood Development Company (Friendswood), a contributing employer to the Fund, entered into pursuant to the property management agreement (the Management Agreement) between the Fund and Friendswood;

(C) The grant and exchange of certain interests in the Property between Friendswood and the Fund pursuant to an easement agreement; and

(D) The joint use of certain portions of the Property by Friendswood and the Fund pursuant to a joint operating agreement (the Joint Operating Agreement).

Section II. The restrictions of section 406(b) (1) and (2) [1] of the Act and the sanctions resulting from the application of section 4975 of the code, by reason of section 4975(c)(1)(E) of the Code, shall not apply to the provision of certain real property management services to the Fund by Friendswood pursuant to the Management Agreement and the Joint Operating Agreement, provided that Friendswood receives no more than reasonable compensation for such services, pursuant to section 408(b)(2) of the Act and the regulations promulgated thereunder.

Section III. The restrictions of section 406(a) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (D) of the Code, shall not apply to the lease of space by the Fund to certain parties in interest with respect to the Fund, provided that no space is leased (other than pursuant to the Lease) to:

(A) A subsidiary, division or affilliate (as defined in section 407(d)(7) of the Act) of Exxon Corporation (Exxon), the Fund sponsor, or

(B) A person who exercises discretionary authority, responsibility or control, or who provides investment advice, either with respect to the investment of any assets of the Fund or with respect to the management or disposition of the Property.

The exemption is subject to the condition that the terms and conditions of each of the above-described transactions is at least as favorable to the Fund as those that could be obtained from an unrelated party.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on December 21, 1982 at 47 FR 56938.

The Department received no requests for a hearing but did receive one comment. The commentator noted that Exxon had secured one appraisal of the Property and asserted that more than one appraisal should be obtained because of the amount of Plan assets involved in the transactions (approximately $53,630,000 which would constitute approximately 1.6% of the Fund's current net assets). However, the commentator did not question the

[1] No exemption from section 406(a) of the Act or section 4975(c)(1) (A) through (D) of the Code is being granted for the transactions discussed in this section beyond that which is provided by the statutory exemption provided by section 408(b)(2) of the Act or section 4975(d)(2) of the Code.

statement by the Fund's independent fiduciary, Interfirst Bank Dallas, N.A., Trust Division (the Bank) concerning the general acceptability of a single appraisal, nor did he question the quality of the appraisal that was obtained or the independence of the appraiser.

The Department notes that the Bank, in its capacity as a fiduciary of the Fund, has agreed to review the terms and conditions of all the transactions for which exemptive relief is being granted. The Bank is therefore obligated to review and approve the appraisal of the Property since it is a condition of the exemption that it be contributed at no more than its fair market value. Due to the fact that both the appraiser and the Bank will be independently responsible for determining the fair market value of the Property, the Department believes that the Fund is adequately protected by securing a single appraisal of the Property.

Therefore, the Department has determined to grant the exemption as proposed.

The effective date of the exemption will be December 15, 1982.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and/or the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) These exemptions are supplemental to and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

(3) The availability of these exemptions is subject to the express condition that the material facts and representations contained in each application accurately describes all material terms of the transaction which is the subject of the exemption.

Signed at Washington, D.C., this 19th day of April, 1983.

Alan D. Lebowitz,

Assistant Administrator for Fiduciary Standards, Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.

[FR Doc. 83–10813 Filed 4–25–83; 8:45 am]

BILLING CODE 4510–29–M

Office of Pension and Welfare Benefit Programs

Grant of Individual Exemptions; Alaska Teamsters Employer Pension Trust et al.

AGENCY: Office of Pension and Welfare Benefit Programs, Labor.

ACTION: Grant of individual exemptions.

SUMMARY: This document contains exemptions issued by the Department of Labor (the Department) from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and/or the Internal Revenue Code of 1954 (the Code).

Notices were published in the **Federal Register** of the pendency before the Department of proposals to grant such exemptions. The notices set forth a summary of facts and representations contained in each application for exemption and referred interested persons to the respective applications for a complete statement of the facts and representations. The applications have been available for public inspection at the Department in Washington, D.C. The notices also invited interested persons to submit comments on the requested exemptions to the Department. In addition the notices stated that any interested person might submit a written request that a public hearing be held (where appropriate). The applicants have represented that they have complied with the requirements of the notification to interested persons. No public comments and no requests for a hearing, unless otherwise stated, were received by the Department.

The notices of pendency were issued and the exemptions are being granted solely by the Department because,

effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

Statutory Findings

In accordance with section 408(a) of the Act and/or section 4975(c)(2) of the Code and the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following findings:

(a) The exemptions are administratively feasible;

(b) They are in the interests of the plans and their participants and beneficiaries; and

(c) They are protective of the rights of the participants and beneficiaries of the plans.

The Alaska Teamsters Employer Pension Trust (the Plan) and the Alaska Hotel and Restaurant Employees Pension Trust (the Hotel Plan) Located in Anchorage, Alaska

[Prohibited Transaction Exemption 83–64; Exemption Application No. D–2812]

Exemption

The sanctions resulting from the application of section 4975 of the Code, by reason of section 4975 (c)(1) (A) through (D) of the Code, shall not apply to Carr-Gottstein Properties, Inc. (CGP) by reason of the Plan's participation in a mortgage loan originated by the National Bank of Alaska to CGP for the period from February 5, 1976 to August 9, 1978, and by reason of the Hotel Plan's participation in the loan beginning August 9, 1978.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on February 1, 1983 at 48 FR 4578.

Effective Date: This exemption is effective February 5, 1976.

Limited Scope of Exemption: Based upon the record submitted, the Department is granting an exemption from the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (D) of the Code, with respect to CGP. The Department is not granting exemptive relief for any other aspects of the transaction, or for any other parties to the extent such parties may have engaged in prohibited transactions.

For Further Information Contact: Gary H. Lefkowitz of the Department, telephone (202) 523–8881. (This is not a toll-free number.)

The Alaska Teamsters Employer Pension Trust (the Plan) Located in Anchorage, Alaska

[Prohibited Transaction Exemption 83–65; Exemption Application No. D–2813]

Exemption

The sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (D) of the Code, shall not apply to L. J. Carr (Carr), B. J. Gottstein (Gottstein), Carr-Gottstein Co., Inc. (C–G) and Carr-Gottstein Properties, Inc. (CGP) by reason of the Plan's participation beginning October 24, 1975, in a mortgage loan originated by the Alaska Mutual Savings Bank to Carr and Gottstein and in the refinancing of the loan to CGP on December 21, 1977.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on February 1, 1983 at 48 FR 4579.

Effective Date: This exemption is effective October 24, 1975.

Limited Scope of Exemption: Based upon the record submitted, the Department is granting an exemption from the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (D) of the Code, with respect to Carr, Gottstein, C–G and CGP. The Department is not granting exemptive relief for any other aspects of the transaction, or for any other parties to the extent such parties may have engaged in prohibited transactions.

For Further Information Contact: Gary H. Lefkowitz of the Department, telephone (202) 523–8881. (This is not a toll-free number.)

The Alaska Laborers Employer Pension Trust (the Plan) Located in Anchorage, Alaska

[Prohibited Transaction Exemption 83–66; Exemption Application No. D–2815]

Exemption

The sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (D) of the Code, shall not apply to James and Daris Lundgren (the Lundgrens) by reason of the Plan's participation in a mortgage loan originated by the National Bank of Alaska to the Lundgrens for the period beginning April 16, 1976 through December 30, 1980.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on February 1, 1983 at 48 FR 4580.

Effective Date: This exemption is effective from April 16, 1976 through December 30, 1980.

Limited Scope of Exemption: Based upon the record submitted, the Department is granting an exemption from the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (D) of the Code, with respect to the Lundgrens. The Department is not proposing exemptive relief for any other aspects of the transaction, or for any other parties to the extent such parties may have engaged in prohibited transactions.

For Further Information Contact: Gary H. Lefkowitz of the Department, telephone (202) 523–8881. (This is not a toll-free number.)

The Alaska Teamsters Employer Pension Trust (the Teamsters Plan) and the Alaska Laborers Employer Pension Trust (the Laborers Plan) Located in Anchorage, Alaska

[Prohibited Transaction Exemption 83–67; Exemption Application No. D–2818]

Exemption

The sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (D) of the Code, shall not apply to Anchorage Sand & Gravel Company, Inc. (Anchorage) by reason of the participation by the Teamsters Plan in a loan originated by the First Federal Savings and Loan Association to Anchorage, effective December 27, 1976 and by reason of the Laborers Plan's participation in the loan for the period from December 27, 1976 through May 4, 1979.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on February 1, 1983 at 48 FR 4580.

Effective Date: This exemption is effective December 27, 1976.

Limited Scope of Exemption: Based upon the record submitted, the Department is granting an exemption from the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) and (D) of the Code, with respect to Anchorage. The Department is not granting exemptive relief for any other aspects of the transaction, or for any other parties to the extent such parties may have engaged in prohibited transactions.

[Prohibited Transaction Exemption 83–78; Exemption Application No. D–3493]

Exemption

The sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the cash sale of certain partnership interests by the Plan to Cliff Electrodiagnostic, Inc., a party in interest with respect to the Plan, for the total amount of $10,500, provided that the terms of the sale are not less favorable to the Plan than those obtainable in an arm's-length transaction with an unrelated party on the date of sale.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on March 11, 1983 at 48 FR 10497.

The notice of proposed exemption stated that the Department is considering granting relief from both Title I and Title II of the Act. However, pursuant to section 408(d)(3) of the Act, the Department does not have the authority to grant relief under Title I of the Act in this instance. Therefore, this exemption grants relief solely under Title II of the Act.

For Further Information Contact: Ms. Linda Hamilton of the Department, telephone (202) 523–8881. (This is not a toll-free number.)

Neurological Associates of Tucson Profit Sharing Plan and Trust (the Profit Sharing Plan) and Neurological Associates of Tucson Money Purchase Pension Plan and Trust (the Pension Plan; Collectively, the Plans) Located in Tucson, Arizona

[Prohibited Transaction Exemption 83–79; Exemption Application Nos. D–3722 and D–3723]

Exemption

The restrictions of section 406(a), 406(b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the contribution by Neurological Associates of Tucson (the Employer) of two medical condominiums (Buildings B–8 and B–9) to the Profit Sharing Plan and the San Rafael Building to the Pension Plan, provided the contribution is valued at its fair market value on the date contributed, and the leasing of the Buildings by the Plans to the Employer, under the terms set forth in the notice of proposed exemption, provided such terms are not less favorable to the Plans than those obtainable in an arm's-length transaction with an unrelated party.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published March 4, 1983 at 48 FR 9393.

For Further Information Contact: Gary H. Lefkowitz of the Department, telephone (202) 523–8881. (This is not a toll free number.)

Norman E. Storm Professional Corporation Employees' Pension Plan (the Plan) Located in Southfield, Michigan

[Prohibited Transaction Exemption 83–80; Exemption Application No. D–3730]

Exemption

The sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the formation and operation of a limited partnership entered into between the Plan and Norman E. Storm, a disqualified person with respect to the Plan. Because Mr. Storm is the sole shareholder of Norman E. Storm Professional Corporation, the sponsor of the the Plan and is the sole Plan participant, there is no jurisdiction under Title I of the Employee Retirement Income Security Act of 1974 (the Act) pursuant to 29 CFR 2510.3–3(c)(1). However, there is jurisdiction under Title II of the Act under section 4975 of the Code.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published January 21, 1983 at 48 FR 2870.

For Further Information Contact: Louis Campagna of the Department, telephone (202) 523–8973. (This is not a toll free number.)

Cartersville Cable T.V., Inc. Money Purchase Pension Plan (the Plan) Located in Cartersville, Georgia

[Prohibited Transaction Exemption 83–81; Exemption Application No. D–3883]

Exemption

The restrictions of section 406(a) and 406(b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the sale of certain stock by the Plan to Mr. Jon Oscher, a party in interest with respect to the Plan, for the amount of $20,875 in cash provided such amount is not less than the fair market value of such stock at the time of the consummation of the transaction.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published March 4, 1983 at 48 FR 9395.

For Further Information Contact: Ms. Linda Hamilton of the Department, telephone (202) 523–8881. (This is not a toll free number.)

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section

4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and/or the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) These exemptions are supplemental to and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

(3) The availability of these exemptions is subject to the express condition that the material facts and representations contained in each application accurately describes all material terms of the transaction which is the subject of the exemption.

Signed at Washington, D.C., this 21st day of April 1983.

Alan D. Lebowitz,

Assistant Administrator for Fiduciary Standards, Pension and Welfare Benefit Programs, Labor-Management Services Administration, Department of Labor.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[83-33]

Agency Report Forms Under OMB Review

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of Agency Report Forms Under OMB Review.

SUMMARY: Under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35), agencies are required to submit proposed information collection requests to OMB for review and approval, and to publish a notice in the **Federal Register** notifying the public that the agency has made the submission. The proposed forms under review are listed below. All three are extensions.

Copies of the proposed forms, the request for clearance (S.F. 83), supporting statement, instructions, transmittal letters, and other documents submitted to OMB for review, may be obtained from the Agency Clearance Officer. Comments on the items listed should be submitted to the Agency Clearance Officer and the OMB Reviewer.

DATE: Comments must be received in writing by May 6, 1983. If you anticipate commenting on a form but find that time to prepare will prevent you from submitting comments promptly, you should advise the OMB Reviewer and the Agency Clearance Officer of your intent as early as possible.

ADDRESS: Christine Cabill, NASA Agency Clearance Officer, Code NSM-23, NASA Headquarters, Washington, DC 20546; Suzanne Evinger, Office of Information and Regulatory Affairs, OMB, Room 3208, New Executive Office Building, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Christine Cabell, NASA Agency Clearance Officer, (202) 755-8390.

Reports

Title: Tape Use Survey.
OMB Number: 2700-0012.
Type of Request: Extension and Revision.
Frequency of Report: On Occasion.
Type of Respondent: TV Stations.
Annual Responses: 2,320.
Annual Reporting Hours: 194.
Federal Cost: $1,276.
Number of Forms: One.
Abstract-Needs/Uses: NASA produces audio and video tapes each month to report status on its programs and research underway. These tapes are mailed to TV and radio stations throughout the country for use as public service programmming or as news features. This "post card" report is used to measure the effectiveness of the tapes and provides the date and time they were aired.

Title: NASA Teach Briefs-Subscription Notice.
OMB Number: 2700-0019.
Type of Request: Extension.
Frequency of Report: Annual.
Type of Respondent: Research and Development Firms.
Annual Responses: 50,000.
Annual Reporting Hours: 6,500.
Federal Cost: $7,500.
Number of Forms: One.
Abstract-Needs/Uses: The Office of Management and Budget has requested NASA to annually verify user interests in receiving "NASA Tech Briefs" and target distribution to individuals directly involved with the technology transfer process. This form accommodates OMB's requirement.

Title: Contract Pricing Proposal.
OMB Number: 2700-0024.
Type of Request: Extension.
Frequency of Report: On Occasion.
Type of Respondent: NASA Contractors.
Annual Reporting Hours: 2,400.
Federal Cost: $72,000.
Abstract-Needs/User: The law requires a prospective contractor to submit cost or pricing data to the Government with each noncompetitive proposal for a negotiated contract or contract adjustment. NASA shares the use of this report form with the Department of Defense so as to provide our contractors with a uniform reporting requirement.

April 18, 1983.

Ann P. Bradley,

Acting Associate Administrator for Management.

BILLING CODE 75-10-01-M

NATIONAL SCIENCE FOUNDATION

Advisory Committee for Physics; Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the National Science Foundation announces the following meeting:

Name: Advisory Committee for Physics.
Date and Time: May 12-14, 1983; 9:00 a.m.-5:00 p.m., each day.
Place: National Science Foundation, 1800 G Street, NW., Washington, D.C. 20550. Room 540 each day.
Type of Meeting: Open.
Contact Person: Dr. Marcel Bardon, Director, Division of Physics, National Science Foundation, Washington, D.C. 20550. Telephone (202) 357-7985.
Summary of Minutes: May be obtained from Dr. Marcel Bardon, Director, Division of Physics, National Sceince Foundation, 1800 G Street, NW. Washington, D.C. 20550.
Purpose of Committee: To provide advice and recommendations concerning support for research in physics.
Agenda:

May 12, 1983, 9:00 a.m.-5:00 p.m.
Oversight review of NSF support of gravitational physics, including the report of the Subcommittee for Review of NSF Gravitational Physics Program.

May 13, 1983, 9:00 a.m.-5:00 p.m.
Review of status of the National Academy's *Survey of Physics for the 80s*; review of major projects; discussion of

DOE/NSF Nuclear Science Advisory Committee Review of Electron Accelerators; discussions of FY 1983 budget and funding prospects for 1984; discussion of topics to be included in Long Range Planning session scheduled for October 1983 meeting.

May 14, 1983, 9:00 a.m.–5:00 p.m.

Continuation of discussions of previous two days.

Dated: April 21, 1983.

M. Rebecca Winkler,

Committee Management Coordinator.

[FR Doc. 83-11047 Filed 4-25-83; 8:45 am]

BILLING CODE 7555-01-M

Advisory Panel for Physiology, Cellular and Molecular Biology Subpanel on Cell Biology; Meeting

In accordance with the Federal Advisory Committee Act, as amended, Pub. L. 92–463, the National Science Foundation announces the following meeting:

Name: Subpanel on Cell Biology, of the Advisory Panel for Physiology, Cellular, and Molecular Biology.

Date and Time: May 11, 12, and 13, 1983; 9:00 a.m. to 5:00 p.m. each day.

Place: Room 338, National Science Foundation, 1800 G Street, NW., Washington, DC 20550.

Type of Meeting: Closed.

Contact Person: Dr. John S. Cook, Program Director, Cell Biology Program, Room 332, National Science Foundation, Washington DC 20550 Telephone: 202/357–7474.

Purpose of Subpanel: To provide advice and recommendations concerning support for research in Cell Biology.

Agenda: To review and evaluate research proposals as part of the selection process of awards.

Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concering individuals associated with the proposals. These matters are within exemption (4) and (6) of 5 U.S.C. 552b(c) Government in the Sunshine Act.

Authority To Close: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of Pub. L. 92–463. The Committee Management Officer was delegated the authority to make such determinations by the Director, NSF, on July 6, 1979.

Dated: April 21, 1983.

M. Rebecca Winkler,

Committee Management Coordinator.

BILLING CODE 7555-01-M

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards, Joint Subcommittees on Reliability and Probabilistic Assessment and Extreme External Phenomena; Meeting

The ACRS Joint Subcommittees on Reliability and Probabilistic Assessment and Extreme External Phenomena will hold a meeting on May 11, 1983, Room 1167, at 1717 H Street, NW, Washington, DC. The Subcommittees will discuss the status of NRC sponsored research and technical assistance programs on reliability and probabilistic assessment and external events. Notice of this meeting was published March 23, 1983.

In accordance with the procedures outlined in the **Federal Register** on October 1, 1982 (47 FR 43474), oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittees, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The entire meeting will be open to public attendance.

Wednesday, May 11, 1983–3:00 p.m. until the conclusion of business: During the initial portion of the meeting, the Subcommittees, along with any of their consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittees will then hear presentations by and hold discussions with representatives of the NRC Staff, their consultants, and other interested persons regarding the topics to be discussed.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the Designated Federal Employee, Dr. Richard Savio (telephone 202/634–3267) between 8:15 a.m. and 5:00 p.m., e.s.t.

Dated: April 20, 1983.

John C. Hoyle,

Advisory Committee Management Officer.

[FR Doc. 83-11102 Filed 4-25-83; 8:45 am]

BILLING CODE 7590-01-M

Advisory Committee on Reactor Safeguards, Subcommittee on AC/DC Power Systems; Meeting

The ACRS Subcommittee on AC/DC Power Systems will hold a meeting on May 10, 1983, Room 1167, 1717 H Street, NW., Washington, DC. The Subcommittee will discuss the ongoing NRC work associated with station blackout and requirements for DC power systems. Notice of this meeting was published March 23, 1983.

In accordance with the procedures outlined in the **Federal Register** on October 1, 1982 (47 FR 43474), oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The entire meeting will be open to public attendance.

The agenda for subject meeting shall be as follows:

Tuesday, May 10, 1983—8:30 a.m. until the conclusion of business: During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, will exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC Staff, their consultants, and other interested persons regarding the topics to be discussed.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant Designated Federal Employee, Dr. Richard Savio (telephone 202/634–3267) between 8:15 a.m. and 5:00 p.m., e.s.t.

Dated: April 20, 1983.

John C. Hoyle,

Advisory Committee Management Officer.

[FR Doc. 83-11103 Filed 4-25-83; 8:45 am]

BILLING CODE 7590-01-M

[Docket Nos. 50-245/336]

The Connecticut Light and Power Co., et al.; Exemption

I

In the matter of the Connecticut Light & Power Co., the Hartford Electric Light Co., Western Massachusetts Electric Co., and Northeast Nuclear Energy Co. (Millstone Nuclear Power Station, Units 1 and 2).

The Connecticut Light and Power Company, the Hartford Electric Light Company, Western Massachusetts Electric Company, and Northeast Nuclear Energy Company (the licensees) are the holders of Provisional Operating License No. DPR-21 and Facility Operating License No. DPR-65 which authorize Northeast Nuclear Energy Company (NNECO) to operate the Millstone Nuclear Power Station, Units 1 and 2 (the facilities), respectively. The licenses provide, among other things, that they are subject to all rules, regulations and Orders of the Nuclear Regulatory Commission (the Commission) (NRC). Millstone Unit 1 comprises a boiling water reactor and Unit 2 comprise a pressurized water reactor located in Waterford, Connecticut.

II

10 CFR 50.54(q) of the Commission's regulations require a licensee authorized to operate a nuclear power plant to follow and maintain in effect emergency plans which meet the standards of 10 CFR 50.47(b) and the requirements of Appendix E to 10 CFR Part 50. Section IV.F.1 of Appendix E requires each licensee annually to conduct an emergency preparedness exercise with full participation by the State and local county governments unless the State and all local county governments in the plume exposure pathway Emergency Planning Zone (EPZ) for the licensee's facility have otherwise participated in a full-scale exercise during the annual period (with such participation occurring in conjunction with a full-scale exercise at another nuclear power plant). In this latter case, the licensee is required to conduct an annual exercise with the participation of State and local governments consistent with the provisions of Section IV.F.3 of Appendix E for small-scale exercises.

III

By letter dated December 30, 1982, NNECO requested a one-time exemption from the schedular requirements of 10 CFR 50, Appendix E, Section IV.F, to conduct annual emergency preparedness exercises for the year subsequent to the last full-scale exercises held on April 19, 1982. A schedule for the exercise was developed after conferring with Northeast Nuclear Energy Company, the Federal Emergency Management Agency (FEMA), and the Regional Advisory Committee which includes a representative from NRC Region I. The exercise for Millstone Units 1 and 2 was agreed upon for January 19, 1983. NNECO states that the Millstone date was later found to be unacceptable by most of the parties involved and a subsequent mutually acceptable date of October 1983 was agreed upon. Accordingly, NNECO requested a one-time exemption for the Millstone Nuclear Power Station, Units 1 and 2 full-scale exercise.

Based on the fact that the last full-scale emergency preparedness exercise was successfully conducted at the Millstone site on April 19, 1982; that a delay is necessary based on the refueling and maintenance outage for Millstone Unit 2 commencing on May 28, 1983; that training of emergency response personnel will continue within the Millstone Nuclear Power Station; and NRC's conclusion that the most effective and beneficial annual exercises are those involving the full-scale participation of State and local government organizations, the staff finds that a one-time delay in performing the next emergency preparedness exercise at the Millstone site, presently scheduled for October 5, 1983 will not adversely affect the overall state of emergency preparedness.

IV

Accordingly, the NRC staff concludes that an exemption in accordance with 10 CFR 50.12 is authorized by law, will not endanger life or property of the common defense and security and is otherwise in the public interest. Therefore, the exemption to permit the annual emergency exercise at the Millstone Nuclear Power Station, Units 1 and 2, to be conducted no later than the week of October 5, 1983, is hereby granted.

The Commission's staff has determined that this exemption does not authorize a change in effluent types or total amounts nor an increase in power level and will not result in any significant environmental impact. Having made this determination, we have further concluded that the exemption involves an action which is insignificant from the standpoint of environmental impact and, pursuant to 10 CFR 51.5(d)(4), that an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with this action.

Dated at Bethesda, Maryland this 21st day of April 1983.

For the Nuclear Regulatory Commission.

Darrell G. Eisenhut,

Director, Division of Licensing, Office of Nuclear Reactor Regulation.

[FR Doc. 83-11097 Filed 4-25-83; 8:45 am]
BILLING CODE 7590-01-M

[Docket No. 50-348]

Alabama Power Co; Notice of Issuance of Amendment To Facility Operating License and Negative Declaration

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 31 to Facility Operating License No. NPF-2, issued to Alabama Power Company (the licensee), which revised Technical Specifications for operation of the Joseph M. Farley Nuclear Plant, Unit No. 1, (the facility) located in Houston County, Alabama. The amendment is effective as of the date of issuance.

The amendment revises the Technical Specification to enlarge the capacity of the spent fuel pool from 675 fuel assemblies to 1407 assemblies.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Notice of Proposed Issuance of Amendment to Facility Operating License in connection with this action was published in the Federal Register on February 4, 1982 (47 FR 5371). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

The Commission has prepared an environmental impact appraisal for the revised Technical Specifications and has concluded that an environmental impact statement for this particular action is not warranted because the proposed action will not significantly affect the quality of the human environment.

For further details with respect to this action, see: (1) The application for amendment dated March 19, 1982, as modified by letters dated April 21, and September 14, 1982, (2) Amendment No. 31 to License No. NPF-2, (3) the Commission's related Safety Evaluation and (4) the Commission's Environmental Impact Appraisal. All of these items are

available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., and at the Houston Memorial Library, 212 W. Burdeshaw Street, Dothan, Alabama 36303. A copy of items (2), (3) and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland this 15th day of April 1983.

For the Nuclear Regulatory Commission.

Steven A. Varga,

Chief, Operating Reactors Branch No. 1, Division of Licensing.

[FR Doc. 83-11094 Filed 4-25-83; 8:45 am]

BILLING CODE 7590-01-M

Applications for Licenses To Import/Export Nuclear Facilities or Materials

Pursuant to 10 CFR 110.70(b) "Public notice of receipt of an application", please take notice that the Nuclear Regulatory Commission has received the following applications for import/export licenses. A copy of each application is on file in the Nuclear Regulatory Commission's Public Document Room located at 1717 H Street, NW., Washington, D.C.

A request for a hearing or petition for leave to intervene may be filed within 30 days after publication of this notice in the **Federal Register**. Any request for hearing or petition for leave to intervene shall be served by the requestor or petitioner upon the applicant, the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, the Secretary, U.S. Nuclear Regulatory Commission and the Executive Secretary, Department of State, Washington, D.C. 20520.

In its review of applications for licenses to export production or utilization facilities, special nuclear material or source material, noticed herein, the Commission does not evaluate the health, safety or environmental effects in the recipient nation of the facility or material to be exported. The table below lists all new major applications.

Dated this 18th day of April at Bethesda, Maryland.

For the Nuclear Regulatory Commission.

James V. Zimmerman,

Assistant Director, Export/Import and International Safeguards, Office of International Programs.

EXPORT/IMPORT LICENSES

Name of applicant, date of application, date received, application No.	Material type	Material in kilograms		End-use	Country of destination
		Total element	Total isotope		
General Electric Co., Mar. 18, 1983–Mar. 24, 1983, XSNM01630(01).				Add ENUSA as an intermediate consignee to fabricate fuel.	Spain.
General Electric Co., Mar. 18, 1983–Mar. 24, 1983, XSNM01645(01).				Add ENUSA as an intermediate consignee to fabricate fuel.	Spain.
Transnuclear Inc., Mar. 29, 1983–Mar. 29, 1983, XSNM001982(01).				Amend to authorize export of Australian-origin source material.	West Germany

BILLING CODE 7590-01-M

[Dockets Nos. 50-316 and 50-368]

Arkansas Power and Light Co. Issuance of Amendments To Facility Operating Licenses and Negative Declaration

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendments Nos. 76 and 43 to Facility Operating Licenses Nos. DPR-51 and NPF-6, issued to Arkansas Power and Light Company (the licensee), which revised the Technical Specifications for operation of Arkansas Nuclear One, Units Nos. 1 and 2, respectively (ANO-1 and 2), located in Pope County, Arkansas. The amendments are effective as of the date of issuance.

The amendments allow an increase in the spent fuel storage capacity from 589 spaces to 968 spaces for ANO-1 and from 485 spaces to 988 spaces for ANO-2 through the use of high density storage racks.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Notice of Consideration of Issuance of Amendments to Facility Operating Licenses in connection with this action was published in the **Federal Register** on December 22, 1982 (47 FR 57154).

No request for a hearing or petition for leave to intervene was filed following notice of the proposed action. The Commission has prepared an environmental impact appraisal for this action and has concluded that an environmental impact statement for this particular action is not warranted because it will not significantly affect the quality of the human environment.

For further details with respect to this action, see: (1) The application for amendments dated November 5, 1982, as supplemented February 17, 1983, and April 7, 1983, (2) Amendment No. 76 to License No. DPR-51 and Amendment No. 43 to License No. NPF-6, (3) the Commission's related Safety Evaluation, and (4) the Commission's Environmental Impact Appraisal. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Arkansas Tech University, Russellville, Arkansas. A copy of items (2), (3) and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland this 15th day of April 1983.

For the Nuclear Regulatory Commission.

John Stolz,

Chief, Operating Reactors Branch #4, Division of Licensing.

[FR Doc 83-11095 Filed 4-25-83; 8:45 am]

BILLING CODE 7590-01-M

[Docket Nos. 50-315 and 50-316]

Indiana and Michigan Electric Co.; Granting Relief From Inservice Inspection Requirements

The U.S. Nuclear Regulatory Commission (the Commission) has granted relief from certain requirements of the ASME Code, Section XI, "Rules for Inservice Inspection of Nuclear Power Plant Components," to the Indiana and Michigan Electric Company, which revised the inservice inspection program for the Donald C. Cook Nuclear Power Plant, Unit Nos. 1 and 2, located in Berrien County, Michigan. The ASME Code requirements are incorporated by reference into the Commission's Rules and Regulations in 10 FR Part 50. The relief is effective as of the date of issuance.

This action provides relief from performing certain required tests and on some systems, provides relief by requiring alternative testing to assure integrity.

The request for relief complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the letter granting relief and accompanying Safety Evaluation.

The Commission has determined that the granting of this relief will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with this action.

For further details with respect to this action, see: (1) The letter from Indiana and Michigan Electric Company dated November 18, 1977, as revised September 22, 1978, August 25, 1978, September 11, 1979, July 2, 1982, September 2, 1982 and September 23, 1982, (2) the letter to Indiana and Michigan Electric Company dated April 15, 1983, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Maude Reston Palenske Memorial Library, 500 Market Street, St. Joseph, Michigan 49084. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 15th day of April 1983.

For the Nuclear Regulatory Commission.

Steven A. Varga,

Chief, Operating Reactors Branch No. 1, Division of Licensing.

Pacific Gas and Electric Co. (Stanislaus Nuclear Project, Unit No. 1); Reconstitution of Atomic Safety and Licensing Appeal Board

Notice is hereby given that, in accordance with the authority conferred by 10 CFR 2.787(a), the Chairman of the Atomic Safety and Licensing Appeal Panel has reconstituted the Atomic Safety and Licensing Appeal Board for this antitrust proceeding to substitute Thome S. Moore for Stephen F. Eilperin. As reconstituted, the Appeal Board for this antitrust proceeding will consist of the following members.

Alan S. Rosenthal, Chairman
Thomas S. Moore
Gary J. Edles

Dated: April 20, 1983.

C. Jean Shoemaker,

Secretary to the Appeal Board.

BILLING CODE 7590-01-M

[Docket No. 50-387]

Pennsylvania Power and Light Co. and Allegheny Electric Cooperative, Inc.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 14 to Facility Operating License No. NPF-14, issued to Pennsylvania Power & Light Company and Allegheny Electric Cooperative, Inc., for Susquehanna Steam Electric Station, Unit 1 (the facility) located in Luzerne County, Pennsylvania. This amendment grants changes to Technical Specifications to enhance operator awareness of the testing provision of the reactor mode switch, to update Technical Specification 4.6.1.7 to design drawings and plant configuration, to correct typographical errors in various specifications, and to add inadvertent line omissions in Technical Specifications 6.2.3.2 and 6.3. This amendment is effective as of the date of issuance.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations. The Commission has made appropriate findings as required by the Act and the Commission's regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR Section 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see: (1) The application for the amendment dated December 10, 1982 and March 11, 1983; (2) Amendment No. 14 to License NPF-14; and (3) the Commission's evaluation in support of the amendment. These items are available for public inspection at the Commission's Public Document Room 1717 H Street, N.W., Washington, D.C. 20555, and at the Osterhout Free Library, Reference Department, 71 South Franklin Street, Wilkes-Barre, Pennsylvania 18701. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Marland, this 15th day of April 1983.

For the Nuclear Regulatory Commission.

A. Schwencer,

Chief, Licensing Branch No. 2, Division of Licensing.

[Docket Nos. 50-266 and 50-301]

Wisconsin Electric Power Co.; Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 72 to Facility Operating License No. DPR-24, and Amendment No. 77 to Facility Operating License No. DPR-27 issued to Wisconsin Electric Power Company (the licensee), which revised Technical Specifications

for operation of Point Beach Nuclear Plant, Unit Nos. 1 and 2 (the facilities) located in the Town of Two Creeks, Manitowoc County, Wisconsin. The amendments are effective as of the date of issuance.

The amendments modify the frequency for conducting independent audits of the Point Beach Nuclear Plant emergency preparedness program from once every 24 months to annually in accordance with the requirements of 10 CFR 50.54(t).

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see: (1) The application for amendments dated March 21, 1983, (2) Amendment Nos. 72 and 77 to License Nos. DPR–24 and DPR–27 and (3) the Commission's related letter dated April 15, 1983. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555, and at the Joseph Mann Library, 1516 16th Street, Two Rivers, Wisconsin 54241. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

BILLING CODE 7590–01–M

[Docket No. 50–305]

Wisconsin Public Service Corp., et al.; Granting of Relief From ASME Code Requirements

The U.S. Nuclear Regulatory Commission (the Commission) has granted relief from certain requirements of the ASME Code, Section XI, "Rules for Inservice Inspection of Nuclear Power Plant Components," to the Wisconsin Public Service Corporation, the Wisconsin Power and Light Company and the Madison Gas and Electric Company, which revised the inservice inspection program for the Kewaunee Nuclear Power Station, located in Kewaunee, Wisconsin. The ASME Code requirements are incorporated by reference into the Commission's Rules and Regulations in 10 CFR Part 50. The relief is effective as of April 19, 1983.

This action provides relief from performing volumetric examinations of the welds on certain class 1 components, class 2 components, certain pressure tests and certain repair procedures. Alternate examination tests and repair procedures have been proposed and accepted.

The request for relief complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the letter granting relief and accompanying Safety Evaluation.

The Commission has determined that the granting of this relief will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with this action.

For further details with respect to this action, see: (1) The letters from Wisconsin Public Service Corporation dated April 15, 1977, July 18, 1977, February 9, 1979, May 1, 1981, May 7, 1982, and June 25, 1982, (2) the letter to Wisconsin Public Service Corporation dated April 19, 1983, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Kewaunee Public Library, 822 Juneau Street, Kewaunee, Wisconsin 54216. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 19th day of April 1983.

For the Nuclear Regulatory Commission.

BILLING CODE 7590–01–M

PENSION BENEFIT GUARANTY CORPORATION

Pendency of Request for Exemption From Bond/Escrow Requirement Relating to Sale of Assets by an Employer That Contributes to a Multiemployer Plan: Barton Brands, Ltd.

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Notice of pendency of request.

SUMMARY: This notice advises interested persons that the Pension Benefit Guaranty Corporation has received a request from Barton Brands, Ltd. for an exemption from the bond/escrow requirement of section 4204(a)(1)(B) of the Employee Retirement Income Security Act of 1974. Section 4204(a)(1) provides that the sale of assets by an employer that contributes to a multiemployer pension plan will not constitute a complete or partial withdrawal from the plan if certain conditions are met. One of these conditions is that the purchaser post a bond or deposit money in escrow for a five plan year period beginning after the sale. The PBGC is authorized to grant individual and class exemptions from this requirement. Prior to granting an exemption, the PBGC is required to give interested persons an opportunity to comment on the exemption request. The effect of this notice is to advise interested persons of this exemption request and to solicit their views on it.

DATES: Comments must be submitted on or before June 10, 1983.

ADDRESSES: All written comments (at least three copies) should be addressed to: Assistant Executive Director for Policy and Planning (140), Pension Benefit Guaranty Corporation, 2020 K Street, N.W., Washington, D.C. 20006. The request for exemption and any comments received will be available for public inspection at the PBGC Public Affairs Office, Suite 7100, at the above address, between the hours of 9:00 a.m. and 4:00 p.m.

FOR FURTHER INFORMATION CONTACT: James M. Graham, Office of the

Executive Director, Policy and Planning (140), Pension Benefit Guaranty Corporation, 2020 K Street, N.W., Washington, D.C. 20006; (202) 254–4862. [This is not a toll-free number.]

SUPPLEMENTARY INFORMATION:

Background

Section 4204 of the Employee Retirement Income Security Act of 1974, as amended (ERISA), 29 U.S.C. 1384, provides that a bona fide arm's-length sale of assets of a contributing employer to an unrelated party will not be considered a withdrawal if three conditions are met. These conditions, enumerated in Section 4204(a)(1)(A)–(C), are that—

(A) The purchaser has an obligation to contribute to the plan for substantially the same number of contribution base units for which the seller was obligated to contribute;

(B) The purchaser obtains a bond or places an amount in escrow, for a period of five plan years after the sale, in an amount equal to the greater of the seller's average required annual contribution to the plan for the three plan years preceding the year in which the sale occurred or the seller's required annual contribution for the plan year preceding the year in which the sale occurred; and

(C) The contract of sale provides that if the purchaser withdraws from the plan within the first five plan years beginning after the sale and fails to pay any of its liability to the plan, the seller shall be secondarily liable for the liability it (the seller) would have had but for section 4204.

The bond or escrow described above would be paid to the plan if the purchaser withdraws from the plan or fails to make any required contributions to the plan within the first five plan years beginning after the sale.

Additionally, section 4204(b)(1) provides that if a sale of assets is covered by section 4204, the purchaser assumes by operation of law the contribution record of the seller for the plan year in which the sale occurred and the preceding four plan years.

Section 4204(c) of ERISA authorizes the Pension Benefit Guaranty Corporation ("PBGC") to grant individual or class variances or exemptions from the purchaser's bond/escrow requirement of section 4204(a)(1)(B) when warranted. The legislative history of section 4204 indicates a Congressional intent that the sales rules be administered in a manner that assures protection of the plan with the least practicable intrusion into normal business transactions. The granting of an exemption or variance from the requirements of section 4204(a)(1)(B) does not constitute a finding by PBGC that a particular transaction satisfies the other requirements of section 4204(a)(1).

Under § 2643.3(a) of the PBGC's regulation on procedures for variances for sales of assets, (46 FR 46127 (1981)), the PBGC shall approve a request for a variance or exemption if it determines that approval of the request is warranted, in that it—

(1) Would more effectively or equitably carry out the purposes of Title IV of the Act; and

(2) Would not significantly increase the risk of financial loss to the plan.

Section 4204(c) of ERISA and § 2643.3(b) of the regulation require the PBGC to publish a notice of the pendency of a request for a variance or exemption in the **Federal Register**, and to provide interested parties with an opportunity to comment on the proposed variance or exemption.

The Request

The PBGC has received a request from Barton Brands, Ltd. (formerly known as BBL Acquisition Co.) ("Barton") for an exemption from the bond/escrow requirement of ERISA section 4204(a)(1)(B). In the request, Barton represents, among other things, that:

1. Effective June 30, 1982, Barton purchased the assets of Bardstown Partners, Ltd. (formerly known as Barton Brands, Ltd.) and its subsidiaries ("Bardstown") for approximately $38 million in cash.

2. Barton has assumed the responsibilities of Bardstown, under a collective bargaining agreement with the Food, Drug and Beverage Warehousemen, Food Processors, Packers and Clerical Employees' Union, Local No. 595, which required contributions to the Western Conference of Teamsters Pension Trust Fund (the "Fund"). Bardstown's potential withdrawal liability to the Fund has been estimated to be $340,000.

3. The amount of the bond or escrow required under ERISA section 4204(a)(1)(B) is $72,982 (the annual contribution required to be made by Bardstown for the 1981 plan year, the plan year preceding the sale).

4. Barton intends to continue to operate the business, which is the subject of the sale, as it was previously conducted, using substantially the same management and employees. In the sale contract, Bardstown agreed that, if the purchaser withdraws and fails to pay withdrawal liability within five years of the date of the sale, Bardstown would be secondarily liable for any withdrawal liability it would have had to the Fund but for the operation of ERISA section 4204.

5. Barton is a new company, chartered in Delaware, and thus has no prior financial history separate from the assets that were purchased. Barton did provide its unaudited consolidated financial statement for the year ended December 31, 1982 which showed net assets of approximately $20.3 million. That figure reflects $16.3 million in long-term debt incurred incidental to this sale. Barton is a 95% owned subsidiary of Amalgamated Distilled Products PLC ("ADP"), a publicly owned United Kingdom corporation registered in Scotland.

6. A copy of this request has been sent by Barton to the Fund and to the collective bargaining representatives of Bardstown's former employees.

Comment

All interested persons are invited to submit written comments on the pending class exemption to the above address, on or before June 10, 1983. All comments will be made a part of the record. Comments received, as well as the relevant information submitted in support of the application for exemption, will be available for public inspection at the address set forth above.

Issued at Washington, D.C. on this 20th day of April 1983.

Edwin M. Jones,

Executive Director, Pension Benefit Guaranty Corporation.

Pendency of Request for Exemption From Bond/Escrow Requirement Relating to Sale of Assets by an Employer That Contributes to a Multiemployer Plan: Dayton Malleable Inc. et al.

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Notice of pendency of request.

SUMMARY: This notice advises interested persons that the Pension Benefit Guaranty Corporation has received a joint request from Dayton Malleable Inc. and Chromalloy American Corporation for an exemption from the bond/escrow requirement of section 4204(a)(1)(B) of the Employee Retirement Income Security Act of 1974. Section 4204(a)(1) provides that the sale of assets by an employer that contributes to a multiemployer pension plan will not constitute a complete or partial withdrawal from the plan if certain

conditions are met. One of these conditions is that the purchaser post a bond or deposit money in escrow for a five plan year period beginning after the sale. The PBGC is authorized to grant individual and class exemptions from this requirement. Prior to granting an exemption, the PBGC is required to give interested persons an opportunity to comment on the exemption request. The effect of this notice is to advise interested persons of this exemption request and to solicit their views on it.

DATES: Comments must be submitted on or before June 10, 1983.

ADDRESSES: All written comments (at least three copies) should be addressed to: Assistant Executive Director for Policy and Planning (140), Pension Benefit Guaranty Corporation, 2020 K Street, N.W., Washington, D.C. 20006. The request for exemption and the comments received will be available for public inspection at the PBGC Public Affairs Office, Suite 7100, at the above address, between the hours of 9:00 a.m. and 4:00 p.m.

FOR FURTHER INFORMATION CONTACT: James M. Graham, Office of the Executive Director, Policy and Planning (140), Pension Benefit Guaranty Corporation, 2020 K Street, N.W., Washington, D.C. 20006; (202) 254-4862. [This is not a toll-free number.]

SUPPLEMENTARY INFORMATION:

Background

Section 4204 of the Employee Retirement Income Security Act of 1974, as amended by the Multiemployer Pension Plan Amendments Act of 1980, (ERISA), 29 U.S.C. 1384, provides that a bona fide arm's-length sale of assets of a contributing employer to an unrelated party will not be considered a withdrawal if three conditions are met. These conditions, enumerated in section 4204(a)(1)(A)–(C), are that—

(A) The purchaser has an obligation to contribute to the plan for substantially the same number of contribution base units for which the seller was obligated to contribute;

(B) The purchaser obtains a bond or places an amount in escrow, for a period of five plan years after the sale, in an amount equal to the greater of the seller's average required annual contribution to the plan for the three plan years preceding the year in which the sale occurred or the seller's required annual contribution for the plan year preceding the year in which the sale occurred; and

(C) The contract of sale provides that if the purchaser withdraws from the plan within the first five plan years beginning after the sale and fails to pay any of its liability to the plan, the seller shall be secondarily liable for the liability it (the seller) would have had but for section 4204. The bond or escrow described above would be paid to the plan if the purchaser withdraws from the plan or fails to make any required contributions to the plan within the first five plan years beginning after the sale.

Additionally, section 4204(b)(1) provides that if a sale of assets is covered by section 4204, the purchaser assumes by operation of law the contribution record of the seller for the plan year in which the sale occurred and the preceding four plan years.

Section 4204(c) of ERISA authorizes the Pension Benefit Guaranty Corporation ("PBGC") to grant individual or class variances or exemptions from the purchaser's bond/escrow requirement of section 4204(a)(1)(B) when warranted. The legislative history of section 4204 indicates a Congressional intent that the sales rules be administered in a manner that assures protection of the plan with the least practicable intrusion into normal business transactions. The granting of an exemption or variance from the requirements of section 4204(a)(1)(B) does not constitute a finding by PBGC that a particular transaction satisfies the other requirements of section 4204(a)(1).

Under § 2643.3(a) of the PBGC's regulation on procedures for variances for sales of assets, (46 FR 46127 (1981)), the PBGC shall approve a request for a variance or exemption if it determines that approval of the request is warranted, in that it—

(1) Would more effectively or equitably carry out the purposes of Title IV of the Act; and

(2) Would not significantly increase the risk of financial loss to the plan.

Section 4204(c) of ERISA and § 2643.3(b) of the regulation require the PBGC to publish a notice of the pendency of a request for a variance or exemption in the **Federal Register**, and to provide interested parties with an opportunity to comment on the proposed variance or exemption.

The Request

The PBGC has received a joint request from the purchaser, Dayton Malleable Inc. ("Dayton"), and the seller, Chromalloy American Corporation ("Chromalloy"), (collectively referred to as the "Parties") for an exemption from the requirement of ERISA section 4204(a)(1)(B). In the request, the Parties represent, among other things, that:

1. Effective December 10, 1982, Chromalloy sold certain assets relating to its Newnam Foundry Division to Dayton.

2. In connection with this sale, Dayton has assumed, or will assume, the responsiblities of Chromalloy under collective bargaining agreements with the International Molders and Allied Workers Union AFL-CIO-CLC, Local Union No. 262 and Chauffers Teamsters Workers Local Union No. 364.

3. The following chart lists the two multiemployer plans for which an exemption is requested, the estimated amount of Chromalloy's withdrawal liability and the estimated amount of the bond/escrow that would be required under ERISA section 4204(a)(1)(B) with respect to each such plan:

Plan	Estimate of seller's liability	Amount of bond/escrow
Indiana State Conference Board Pension Plan	$314,000	[1] $186,822
Central States, Southeast, and Southwest Areas, Pension Fund	65,644	[1] 13,731
Total	379,644	200,553

[1] The amount represents the annual contribution required to be made by Chromalloy for plan year 1981

4. In the sale contract, Chromalloy agreed that, if the purchaser withdraws and fails to pay withdrawal liability within five years of the date of the sale, Chromalloy would be secondarily liable for any withdrawal liability it would have had to the affected plan but for the operation of ERISA section 4204.

5. According to its audited consolidated financial statements, Dayton and its subsidiaries had total net assets for its fiscal year ended August 31, 1982 of approximately $38 million. Dayton suffered a net loss after taxes for its fiscal years 1980 and 1982 ($5.5 and $8.7 million, respectively) and had net income after taxes of $1.8 million for its fiscal year 1981.

6. The Parties have sent a copy of this request to the plans and the collective bargaining representatives of Chromalloy's former employees by certified mail, return receipt requested.

Comments

All interested persons are invited to submit written comments on the pending exemption to the above address, by June 10, 1983. All comments will be made a part of the record. Comments received, as well as the application for exemption, will be available for public inspection at the address set forth above.

Issued at Washington, D.C. on this 20th day of April, 1983.

Edwin M. Jones,

Executive Director, Pension Benefit Guaranty Corporation.

BILLING CODE 7708-01-M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 22915; 70-6857]

Arkansas Power & Light Co.; Proposed Transactions Related to Financing of Pollution Control and Waste Disposal Facilities

April 20, 1983.

Arkansas Power & Light Company ("Arkansas"), First National Building, Little Rock, Arkansas 72201, a public-utility subsidiary of Middle South Utilities, Inc., a registered holding company, has filed an application-declaration with this Commission pursuant to Sections 6(b), 9(a), 10, and 12(d) of the Public Utility Holding Company Act of 1935 ("Act") and Rules 44(b)(3) and 50(a)(5) promulgated thereunder.

Pursuant to authorization of the Commission in File No. 70-6531, Arkansas participated with Independence County, Arkansas ("County") in a transaction involving the issuance in February 1981 of $40,000,000 in principal amount of the County's 9¼% Pollution Control Bonds, Series 1981, in order to finance the acquisition of an undivided interest ("Facilities") in certain pollution control and sewage and solid waste disposal facilities at Arkansas' jointly-owned Independence Steam Electric Station ("Plant") near Newark, in Independence County, Arkansas. In order to effect this transaction, Arkansas entered into an Installment Sale Agreement with the County, dated as of February 1, 1981 ("Original Agreement") which provided for the acquisition, construction, and installation of the Facilities on behalf of the County. As contemplated by the Original Agreement, the County issued the 1981 Pollution Control Bonds pursuant to a trust indenture ("1981 Indenture").

The 1981 Pollution Control Bonds will mature on February 1, 1984. In order to: (a) Effect their redemption or repayment and (b) finance increased costs of the Facilities and/or finance the acquisition of an undivided interest in certain additional pollution control and/or sewage and solid waste disposal facilities at the Plant (such increased costs and/or undivided interest in additional facilities are hereinafter referred to as the "Additional Facilities"), the County intends to issue not to exceed $45,000,000 in aggregate principal amount of its Pollution Control Revenue Bonds, Series 1983. In connection therewith, Arkansas proposes to enter into an Amended Installment Sale Agreement with the County ("Amended Agreement"), which will amend the Original Agreement, and the County intends to enter into a supplemental indenture to the 1981 Indenture with the 1981 Trustee in order to issue the 1983 Pollution Control Bonds. Alternatively, Arkansas may enter into a new installment sale agreement with the County ("New Agreement"), and the County may enter into a new indenture ("New Indenture") with a Trustee ("New Trustee"), which may or may not be the 1981 Trustee, which would provide for the financing of the Additional Facilities by the County and the redemption or repayment of the 1981 Pollution Control Bonds through the issuance by the County of the 1983 Pollution Control Bonds.

The proceeds of the sale of the 1983 Pollution Control Bonds will be deposited by the County with the Trustee under the Indenture and applied to redeem or repay the 1981 Pollution Control Bonds and to finance the Additional Facilities. The Agreement will provide for the sale of the Facilities and the Additional Facilities (both hereinafter referred to as the "Pollution Control Facilities") by the County to Arkansas, subject to a lien and security interest retained by the County and Permitted Encumbrances, as therein defined (except that, in the event Arkansas issues the Collateral Bonds, as hereinafter defined, the County may not retain such a lien and security interest). The Agreement will also provide for the payment by Arkansas of the purchase price of the Pollution Control Facilities in semi-annual installments over a term of years. Such payment by Arkansas will be an amount as shall be sufficient (together with other moneys held by the Trustee under the Indenture and available therefor) to pay the principal of the 1983 Pollution Control Bonds as the same become due and payable. Arkansas is obligated under the Agreement to pay interest on the unpaid balance of the purchase price of the Pollution Control Facilities equal to the premium, if any, and interest on the 1983 Pollution Control Bonds.

It is intended that the 1983 Pollution Control Bonds will be issued as either serial bonds ("Serial Bonds") or term bonds ("Term Bonds"), or a combination thereof. The Term Bonds, if any, would mature not later than 30 years from the first day of the month in which they are initially issued and may be subject to a mandatory cash sinking fund. Series Bonds, if any, would mature at various times, but in any event not later than 30 years. The Agreement and the Indenture may include provisions for an adjustable interest rate for the Term Bonds or for one or more series of the Serial Bonds ("Variable Bonds").

The Agreement will provide that Arkansas may at any time prepay all or any portion of the unpaid balance of the purchase price of the Pollution Control Facilities, together with interest thereon, in whole or in part, such payment to be sufficient (together with other moneys held by the Trustee under the Indenture and available therefor) to redeem the 1983 Pollution Control Bonds in a manner and to the extent provided in the Indenture.

The Agreement and the Indenture may also provide that holders of all or a portion ("Put Bonds") of the 1983 Pollution Control Bonds would have the right to have their Put Bonds purchased at a price equal to the principal amount thereof. Arkansas would be obligated to pay amounts equal to the amounts to be paid by the Remarketing Agent or the Escrow Agent pursuant to the Indenture for the purchase of outstanding Put Bonds.

The 1983 Pollution Control Bonds will be subject to optional redemption, at the direction of Arkansas, in whole at any time or in part from time to time, by lot or in such manner as may be determined by the trust to be fair and equitable, at the redemption prices (expressed as percentages of principal amount) set forth in the Indenture, plus accrued interest to the redemption date; provided, however, with certain exceptions, that: (a) Any Variable Bonds would not be subject to optional redemption: (i) For a specified period during the first Rate Period and (ii) for a specified number of years (which, when combined with (i) above, would not exceed ten years) after the Fixed Rate Date and (b) any 1983 Pollution Control Bonds which are not Variable Bonds would not be subject to optional redemption for a specified number of years (which would not exceed ten years) after their initial issuance.

The Agreement provides that prior to the sale of the Pollution Control Facilities by the County to Arkansas, such portions of the Pollution Control Facilities as have already been constructed or acquired by the company will be conveyed to the County, subject to the lien of Arkansas' Mortgage and Deed of Trust.

As evidence of its obligations to make payments of the purchase price of the

Pollution Control Facilities under the Agreement, Arkansas from time to time may obtain the authentication of a series of its first mortgage bonds ("Collateral Bonds") under the Mortgage, as it may be supplemented by one or more further supplemental indentures. Arkansas would deliver the Collateral Bonds to the Trustee to be held for the benefit of the holders of the 1983 Pollution Control Bonds. The Collateral Bonds would not be transferable, except to a successor Trustee. They would be issued on the basis of unfunded net property additions.

It is contemplated that the 1983 Pollution Control Bonds will be sold by the County pursuant to arrangements with a group of underwriters. Arkansas will not be party to the underwriting arrangements; however, the Agreement provides that the terms of the 1983 Pollution Control Bonds, and their sale by the County, shall be satisfactory to Arkansas. Arkansas understands that interest payable on the 1983 Pollution Control Bonds will be exempt from Federal income taxes under the provisions of Section 103 of the Internal Revenue Code of 1954, as amended to the date of issuance of the 1983 Pollution Control Bonds.

The application-declaration and any amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by May 16, 1983, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the applicant-declarant at the address specified above. Proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

Cincinnati Stock Exchange; Applications for Unlisted Trading Privileges and of Opportunity for Hearing

April 20, 1983.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to Section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the following stocks:

Muse Air Corporation
Common Stock, $.10 Par Value (File No. 7-6577)
Dome Mines Ltd.
Common Stock, No Par Value (File No. 7-6578)
TDK Corporation
American Depository Share (Two Common—50 Yen Par) (File No. 7-6579)

These securities are listed and registered on one or more other national securities exchange and are reported in the consolidated transaction reporting system.

Interested persons are invited to submit on or before May 11, 1983 written data, views and arguments concerning the above-referenced applications. Persons desiring to make written comments should file three copies thereof with the Secretary of the Securities and Exchange Commission, Washington, D.C. 20549. Following this opportunity for hearing, the Commission will approve the applications if it finds, based upon all the information available to it, that the extensions of unlisted trading privileges pursuant to such applications are consistent with the maintenance of fair and orderly markets and the protection of investors.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Release No. 13173; (812-5450)]

Hutton Investment Partnership II and Hipco Inc.; Filing of Application

April 20, 1983.

Notice is hereby given that Hutton Investment Partnership II ("Partnership"), One Battery Park Plaza, New York, New York 10004, registered under the Investment Company Act of 1940 ("Act") as a closed-end, non-diversified, management investment company, and Hipco Inc., its general partner ("General Partner") (referred to with the Partnership as "Applicants"), filed an application on February 8, 1983, and an amendment thereto on April 1, 1983, pursuant to Section 6(b) of the Act, for an order exempting the Partnership and subsequent, similar limited partnerships (collectively, the "Partnerships") from all provisions of the Act or, alternatively, from Sections 8(b), 10(a), (b), and (f), 14(a), 15(a), 16(a), 17(a), (d), (f), and (g), 18(a)(1) and (i), 19(b), 20(a), 23(c)(3), 30(a), (b), and (d), and 32(a) of the Act. Applicants further request an order pursuant to Section 45(a) of the Act granting confidential treatment for certain periodic reports filed with the Commission under Section 30 of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below, and are referred to the Act and the rules thereunder for further information as to the provisions to which the exemptions apply.

Organized as a limited partnership under New York law, the Partnership serves as an investment vehicle for certain employees of the E. F. Hutton Group Inc. ("Hutton") and its subsidiaries. Applicants will limit participation in the Partnership to directors of Hutton and officers and employees of Hutton and its subsidiaries who earned a gross income of $36,000 in the fiscal year ended December 31, 1982. Applicants will limit subsequent Partnerships to directors of Hutton and officers and employees of Hutton and its subsidiaries, with the General Partner determining minimum gross income requirements for each Partnership. All subsequent Partnerships will have minimum income requirements and minimum and maximum contributions. Limited partners of the Partnership must make an initial capital contribution of five units at $500 per unit, which they may supplement by purchasing additional units up to a maximum of 20% of their income earned in fiscal year 1982.

Applicants acknowledge the generally non-redeemable and non-transferable nature of their limited partnership interests, and they expect subsequent Partnerships to have the same non-transferability and redemption provisions. Applicants' amended agreement of limited partnership (the "Partnership Agreement") offers a redemption option in 1992, and allows the General Partner to redeem limited partnership interests, at net asset value, whenever a limited partner resigns from Hutton, dies, or becomes legally disabled. Limited partners cannot transfer their partnership interests

without the express consent of the General Partner and, in any event, cannot transfer their interests to persons who do not meet the previously described eligibility criteria. No secondary trading in the limited partnership interests will exist.

Applicants expect the Partnerships to enable certain officers and employees of Hutton to pool their investment resources and take advantage of investment opportunities deemed unsuitable for Hutton and its subsidiaries. The Partnerships seek capital appreciation, through aggressive and speculative investments, primarily in high-technology, energy, natural resource, and real estate based assets. Applicants' investments may include debt or equity issues in either ongoing or newly-formed public or private companies. The Partnerships may invest in limited partnerships or other investment vehicles offered privately or to the general public by Hutton, or they may invest in tandem with such funds or other funds advised by Hutton. Applicants represent they will not enage in short sales, purchases on margin, the writing of uncovered put and call options, or commodity trading (except for bona fide hedge transactions). The Partnerships intend to invest principally in venture capital opportunities identified by employees of Hutton and its subsidiaries.

All of the Partnerships' investment decisions will be made by the General Partner. Only officers or employees of Hutton or its subsidiaries may serve as directors, officers, or employees of the General Partner. The General Partner's directors and officers may own limited partnership interests in the Partnerships. Of the Partnerships' profits and losses, 1% of each will be allocated to the General Partner in recognition of its contribution of 1% of the Partnerships' capital. No compensation will be paid to the General Partner or its directors or officers for services, except for the reimbursement of reasonable and necessary out-of-pocket expenses they incur while conducting Partnership business. Hutton subsidiaries will perform stock brokerage services for the Partnership without compensation other than for out-of-pocket expenses.

Hutton, its subsidiaries, or the General Partner may make investments on a Partnership's behalf prior to the Partnership's receipt of funds from its public offering. Hutton, its subsidiaries, or the General Partner will hold such investments on behalf of the Partnership until such Partnership's receipt of funds at which time the Partnership will acquire such investments at the lesser of cost or fair market value at the time of acquisition.

Applicants represent that the Partnerships will send the limited partners annual reports regarding the operations and assets of the Partnerships. These annual reports will contain financial statements of the Partnerships provided by Hutton and will disclose, together with other information, the Partnerships' outstanding borrowings during the period covered. Limited partners will also receive reports containing information with respect to their income, gains, and losses, for federal income tax purposes.

Applicants state that each Partnership constitutes an "employees' securities company" as defined in Section 2(a)(13) of the Act and deserves, as such, exemption from all provisions of the Act. Alternatively, Applicants request an order pursuant to Sections 6(b) and 45(a) of the Act exempting the Partnerships, to the extent noted below, from the following provisions of the Act:

(a) From Section 8(b) to the extent necessary to relieve the Partnerships from complying with Regulation 8b–16 under the Act which might require the Partnerships to file annual amendments to their registration statements. Applicants assert that compliance with Regulation 8b–16 is unnecessary for their investors' protection, and would cause unnecessary burden and expense, because each Partnership operates as a closed-end company and will make only one offering of limited partnership interests, for which no secondary trading will exist. Moreover, limited partners will receive periodic reports and accounting.

(b) From Section 10(a) to the extent necessary to permit the Partnerships to be managed solely by the General Partner, a subsidiary of Hutton, and to permit all directors and officers of the General Partner to be officers or employees of Hutton or its subsidiaries. Because all directors of the general Partner are officers or employees of Hutton or its subsidiaries, Applicants cannot comply with Section 10(a).

(c) From Section 10(b) to permit the Partnerships to employ as broker and principal underwriter a Hutton subsidiary affiliated with the General Partner. Because limited partners pay no sales load and because, with respect to transactions on a principal basis specifically exempted from Section 17(a) by the proposed order, the Partnerships will not pay any brokerage fees other than to reimburse the Hutton subsidiary involved for its expenses, exemption from Section 10(b) seems appropriate.

(d) From Section 10(f) to permit the Partnerships to purchase securities through an underwriting or selling syndicate of which a Hutton subsidiary acs as principal underwriter. Applicants acknowledge an inability to avail themselves of the conditional relief from Section 10(f) provided by Rule 10f–3 because, as structured, they have no disinterested directors required by paragraph (h) of Rule 10f–3 to perform certain tasks. Nevertheless, for purposes of the exemption requested, the Partnerships undertake to otherwise comply with all the remaining provisions of Rule 10f–3.

(e) From Section 14(a) to the extent necessary to permit each of the Partnerships to offer limited partnership interests before they have a net worth of $100,000. Applicants characterize the protections afforded by Section 14(a) as inapplicable to their situation where a community of interest between all participants exists.

(f) From Section 15(a) to the extent necessary to permit Hutton's subsidiaries to act from time to time as an investment adviser to the Partnerships without a written contract and without the limited partners' approval. Applicants assert that a written contract is unnecessary because the General Partner makes all investment decisions and receives no compensation therefor. Moverover, the Partnerships will not pay any commissions or finders' fees to the General Partner or its officers, directors, or employees. Nor will the Partnerships pay any such fee to other persons within or without the Hutton organization. Hutton or its subsidiaries will pay any fees to be paid to any person, and they will not charge such fees, in whole or in part, to the Partnerships. Employees of Hutton's subsidiaries may from time to time analyze and review investments, but such subsidiaries will receive no separate compensation therefor.

(g) From Section 16(a) to the extent necessary to permit Hutton to appoint and replace the directors and officers of the General Partner in accordance with the Partnership Agreement. Because Applicants' proposal requires all directors and officers of the General Partner to be officers or employes of Hutton or its subsidiaries, the resulting community of interest, Applicants assert, mandates this exemption.

(h) From Section 17(a) to permit the Partnerships to: (1) Invest, as appropriate, in partnerships or other investment vehicles offered by Hutton subsidiaries on a principal basis or to purchase securities from such vehicles, (2) purchase interests in a company

where Hutton or its affiliates already own 5% or more of the voting securities of the company or where such company is otherwise affiliated with a Partnership, and (3) participate as a selling stockholder in a public offering underwritten by a Hutton subsidiary or in which a Hutton subsidiary acts as a member of the underwriting group. To effect these transactions, the General Partner's board of directors must determine that the transactions' terms are reasonable and fair to the limited partners and involve no overreaching of the Partnerships or its limited partners by any person.

Applicants need exemption from Section 17(a) to permit the Partnerships to purchase short-term investments from, and sell such obligations to, subsidiaries or affiliates of Hutton at market value without payment of brokerage fees by the Partnerships other than reimbursement of expenses. Investments in funds advised by Hutton subsidiaries will be subject to a management fee, but on the same basis as that charged to and paid by unaffiliated participants in the same fund or transaction.

Applicants further request exemption from Section 17(a) to permit a Partnership to participate in investments which Hutton or its subsidiaries or the General Partner has advanced funds or made an investment on a Partnership's behalf prior to the time a Partnership had sufficient funds available for such purpose. As stated earlier, such a Partnership will acquire such investments at the lesser of cost or fair market value at the time of acquisition.

Applicants contend that exemption from Sections 17(a)(1) and 17(a)(2) is consistent with the Partnerships' policy and the protection of investors. Applicants will fully inform the limited partners of the possible extent of the Partnerships' dealings with affiliates. As successful professionals in the securities industry, the limited partners can readily evaluate risks emanating from the Partnerships. If the General Partner makes investments prior to the consummation of the Partnerships' public offering, Applicants will fully inform prospective limited partners as to the nature of the investment. Applicants acknowledge that any transaction otherwise subject to Section 17(a) for which they have not requested exemptive relief requires specific approval by the Commission.

(i) From Section 17(d) on the undertaking that the Partnerships will not make any investment in which Hutton or any of its subsidiaries, or any officer, director, or employee of the General Partner participates or plans concurrently or otherwise directly or indirectly to participate, except that this undertaking shall not apply to: (1) Investments by the Partnerships in any other partnership or other investment vehicle sponsored or managed by Hutton or its affiliates or (2) investments by the Partnerships in which a partnership or other investment vehicle described in clause (1) participates or plans to participate and which would not be prohibited investments for the Partnerships except that Hutton or any of its subsidiaries, or one or more officers, directors, or employees of the General Partner have a partnership interest in, or compensation arrangement with, the partnership or investment vehicle described in clause (1). Officers and directors of the General Partner will review each investment situation described in clauses (1) and (2) to determine that any such investment by an affiliate would not disadvantage a Partnership in the making of such investment, maintaining its investment position, or disposing of such position. Any investments made concurrently with Hutton affiliates will be made by the Partnerships on the same basis as such affiliates.

Applicants recognize that any other transactions otherwise subject to Section 17(d) for which they have not sought exemptive relief would require specific approval by the Commission. The General Partner specifically represents and concedes that it is subject to and must comply with Sections 36, 57(f)(3), and 57(h) of the Act, for exemptions from Section 17(a) as well as 17(d), the requirements of which Applicants have specifically incorporated by reference in this application. Pursuant to the terms of the Partnership Agreement, all minutes of actions of the board of directors and any investment committee of the General Partner, including all procedures adopted by the General Partner in connection with its evaluation of investments, will be available for inspection by limited partners.

Applicants assert that, because of the potentially large number of limited partners of the Partnerships and persons affiliated with such limited partners, strict compliance with Section 17(d) may cause the Partnerships to forego many otherwise attractive investment opportunities simply because a limited partner or other affiliated person of a Partnership had, or contemplated making, a similar investment. Moreover, attractive investment opportunities of the types considered by the Partnerships often require each participant to make available funds in amounts substantially greater than that available to a Partnership alone and thus, in certain instances, may preclude a Partnership from taking advantage of an attractive opportunity unless it so participates with affiliated persons.

(j) From Section 17(f) to the extent necessary to permit Hutton or its subsidiaries to act as custodian without a written contract. With the exception of a written contract, the Partnerships will otherwise comply with all the provisions of Rule 17f–1. Applicants represent that any securities held by Hutton or its subsidiaries will have the protection of fidelity bonds.

(k) From Section 17(g) to the extent necessary to permit the Partnerships to comply with Rule 17g–1 without having a majority of the board of directors of the General Partner who are not "interested persons" take such action and make such approvals as prescribed in that rule. Because all of the General Partner's directors will be affiliated persons, without the relief requested, the Partnerships could not comply with the rule. Except as noted above, the Partnerships will otherwise comply with Rule 17g–1.

(l) From Section 18(a)(1) to the extent necessary to exempt the Partnerships when they effect nonrecourse borrowings for: (1) Investments in property other than securities and (2) leveraged buy-out transactions in which Partnerships or other Hutton affiliates (or affiliates of Hutton's affiliates) will control the acquired entity. Applicants request this exemption because the Partnerships contemplate issuing senior securities representing indebtedness in connection with the above activities. In both situations, Applicants will borrow only on a nonrecourse basis. Neither the Partnerships nor the General Partner nor any limited partner will be personally liable for the principal of, or any interest on, such borrowings, thereby precluding any lender from looking beyond the property securing the indebtness.

The Partnerships also seek exemption from Section 18(a)(1) to enhance capital appreciation by purchasing securities with money borrowed on a nonrecourse basis. Applicants represent that the Partnership Agreement already provides, through the preparation of annual audited financial statements, for the valuation review required by Section 18(a)(1). Applicants request, therefore, that their purchase of securities with borrowed money be exempt from Section 18(a)(1)'s requirement of immediate compliance with that section after the issuance or sale of senior securities. In lieu thereof, Applicants intend to comply with Section 18(a)(1) on annual basis.

Other than the three situations described above, Applicants represent that the Partnerships will comply with Section 18(a)(1). The Partnerships' prospectuses will disclose potential borrowing to prospective investors. Because of the Partnerships' investment objectives, and because of the limited partners' sophistication and community of interest, Applicants believe exemption from Section 18(a)(1) to be appropriate.

(m) From section 18(a)(i) to the extent necessary to permit limited partners to have only those rights with respect to the Partnerships' management as set forth in the Partnership Agreement. Limited partners may vote only on decisions to terminate a Partnership.

(n) From Section 19(b) to the extent necessary to permit the Partnerships to distribute their portofolio securities, or the proceeds of liquidated portfolio securities, to the limited partners more than once a year, a part of which could reflect long-tem capital gains. Because the Partnerships may hold each investment only until it becomes liquid and then distribute it or the proceeds thereof, Applicants beleive that compliance with Section 19(b) might seriously interfere with the Partnerships' proposed operations.

(o) From Section 20(a) and Rule 20a–1 when soliciting proxies. Applicants seek exemption from Section 20(a) and Rule 20a–1 for proxies involving the limited partners' right to remove the General Partner, to approve significant amendments to the respective Partnership Agreement, and to grant the General Partner their power of attorney to execute and file certain documents on behalf of the Partnerships and to amend the respective Partnership Agreement in minor respects. Applicants believe that compliance with Section 20(a) could involve difficult questions of interpretation likely to make the process of preparing and filing proxy statements unusally costly and prolonged, and they contend that such costs seem unnecessary because of the limited partners' sophistication. As a condition of exemption from the provisions of Section 20(a) and the rule and regulations thereunder, Applicants agree that they will conduct any proxy solicitations in accordance with the provisions of Section 14(a) of the Securities Exchange Act of 1934 and the rules and reguations thereunder.

(p) From Section 23(c)(3) to permit the Partnerships to redeem partnership interests pursuant to the Partnership Agreement. The Partnerships cannot rely on the exemption set forth in Rule 23c–1 because in each repurchase the limited partner selling his interest would be an affiliated person of the Partnership, thus violating paragraph (a)(4) of that rule. The Partnerships undertake to comply with the conditions set forth in paragraphs (5), (6), (7), (8), (9), and (11) of that rule.

(q) From Sections 30(a), 30(b), and 30(d) to the extent necessary to exempt the Partnerships from filing annual and quarterly reports with the Commission, and to permit them to report only annually to the limited partners in the manner prescribed by the Partnership Agreement (which allows the General Partner to waive certain requirements of Section 30(d)(1) and (2)). Applicants represent that the Partnerships must, pursuant to the Partnership Agreement, disclose to the limited partners the pertinent information included in reports filed with the Commission under Sections 30(a) and 30(b). Applicants assert that the Partnerships' investment require a sophisticated and complex valuation. Because of such valuation, and because of the lack of trading or public market for partnership units, Applicants submit that annual rather than semi-annual reports would be consistent with the protection of investors and the policy fairly intended by the Act.

Applicants further request that, to the extent they must make filings under Section 30, the Commissiom grant confidential treatment to such filings as provided for by Section 45(a) of the Act. Applicants request confidential treatment because they assert that public dissemination of the Partnerships' investments would competitively disadvantage Hutton. Because no public trading exists in partnership units, and because the only persons possibly interested in such information will directly receive such information, Applicants feel that confidential treatment would be consistent with the protection of investors and the purposes fairly intended by the Act.

(r) From Section 32(a) to the extent necessary to permit the General Partner to select independent certified public accountants for the Partnerships without submitting their selection to the limited partners for ratification or rejection. Independent accountants will certify the Partnerships' annual financial statements.

Applicants request the above exemptions because they consider them necessary or relevant to the Partnerships' operations as investment programs uniquely adapted to the needs of the officers and employees of Hutton and its subsidiaries. Applicants assert a need for these exemptions to maintain the community of interest between participants. Because of such community of interest, and because each Partnership meets Section 2(a)(13)'s definition of an "employees' securities company," Applicants contend that the safeguards provided by the sections of the Act they seek exemption from are not necessary, appropriate, or consistent with the protection of investors.

Notice is further given that any interested person wishing to request a hearing on the application may, not later than May 16, 1983, at 5:30 p.m., do so by submitting a written request setting forth the nature of his/her interest, the reasons for his/her request, and the specific issues, if any, of fact or law that are disputed, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of the request should be served personally or by mail upon Applicant at the address stated above. Proof of service (by affidavit or, in the case of an attorney-at-law, by certificate shall be filed with the request. Persons who request a hearing will receive any notices and orders issued in this matter. After said date, and order disposing of the application will be issued unless the Commission orders a hearing upon request or upon its own motion.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010–01–M

[Release No. 13170; (812–5458)]

Kidder, Peabody Tax Exempt Money Fund, Inc.; Filing of Application

April 19, 1983.

Notice is hereby given that Kidder, Peabody Tax Exempt Money Fund, Inc. (the "Fund") 20 Exchange Place, New York, New York 10005, an open-end, diversified investment company registered under the Investment Company Act of 1940 ("Act"), filed an application on February 15, 1983, requesting an order of the Commission, pursuant to Section 6(c) of the Act, exempting the Fund from the provisions of Section 2(a)(41) of the Act and Rules 2a–4 and 22c–1 thereunder to the extent necessary to permit the Fund to value its portfolio securities by means of the amortized cost method of valuation. all interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below, and to the Act for the complete text of those provisions of

the Act from which an exemption is being sought.

According to the application, the Fund is a "money market fund," the objective of which is the maximization of short-term interest income exempt from federal income taxes to the extent consistent with the preservation of capital and the maintenance of liquidity. The Fund states that it is designed to provide a convenient means of investing short-term funds where the direct purchase of short-term, high qualify, tax exempt securities may be undesirable or impractical.

The Fund represents that its portfolio may be invested prinicipally in a variety of (1) High quality tax exempt debt obligations issued by state or municipal governments and by public authorities, (2) securities of these issuers sold as interim financing in anticipation of tax collections, revenue receipts or bond sales and (3) tax exempt project notes secured by the full faith and credit of the United States. Applicant maintains that, from time to time, on a temporary basis other than for defensive purposes (but not to exceed 20% of the Fund's net assets) or for defensive purposes, the Fund may invest in a variety of taxable short-term instruments. The Fund represents further that all of its investments will consist of obligations maturing within one year from the date of acqusition, and the average maturity of all its investments (on a dollar-weighted basis) will be 120 days or less. The Fund states that all of the sevurities in its portfolio will be purchased with and payable in U.S. dollars.

According to the application, in Release No. IC–9786, the Commission issued an interpretation of Rule 2a–4, expressing its view that it was inconsistent with Rule 2a–4 for money market funds to value their portfolio securities on an amortized cost basis and that such valuation should be made with reference to market factors.

Section 6(c) of the Act provides, in pertinent part, that the Commission, by order upon application, may conditionally or unconditionally exempt any person, security, or transaction, or any class or classes or persons, securities, or transactions, from any provision of the Act or of any rule or regulation under the Act, if and to the extent that such exemption is necessary or approporate in the public interest and consistent with the protection of investors and the purposes fairly inended by the policy and provisions of the Act.

The Fund states that as a result of te experience of its investment adviser and sub-investment adviser and administrator in advising other funds, it has become apparent that two qualities are helpful in order to attract investment, namely: (1) Stability of principal and (2) steady flow of investment income. The Fund maintains that investors are concerned that the daily income declared by the Fund reflect income as earned and that the sales and redemption prices not change. The Fund further maintains that by utlizing high quality tax exempt instruments of short maturities combined with a stable net asset value, preferably $1.00 per share, it would be possible to provide these features to a variety of investors.

The Fund states that its management has determined that an average portfolio maturity of 120 days combined with a stable price may accomplish both of the above aims of investors—that is, it somewhat obviates the possibility of a change in the price per share, while at the same time providing a yield on portfolio instruments related to yields available in the general debt market, and which is otherwise not available with a portfolio having an average maturity of a shorter duration. The Fund represents that there will usually be a relatively negligible discrepancy between market value and amortized cost value of such securities.

The Fund believes that the valuation of its portfolio securites on the amortized cost basis will benefit its sharesholders by enabling the Fund to more effectively maintain a stable price per share while providing shareholders with the opportunity to receive a flow of investment income less subject to fluctuation than under procedures whereby its dividend would be adjusted by all realized and unrealized gains and losses on its portfolio securities.

The Fund's Board of Directors has determined in good faith that in light of the characteristics of the Fund, absent unusual or extraordinary circumstances, the amortized cost method of valuing portfolio securities is appropriate and preferable for the Fund and reflects fair value of such securities.

The Fund agrees that the following may be made conditions of the order:

1. In supervising the Fund's operations and delegating special responsibilities involving portfolio management to the Fund's investment adviser, the Fund's Board of Directors undertakes—as a particular responsibility within the overall duty of care owed to its shareholders—to establish procedures reasonably designed, taking into account current market conditions and the Fund's investment objectives, to stabilize the Fund's net asset value per share, as computed for the purpose of distribution, redemption and repurchase at $1.00 per share.

2. Included within the procedures to be adopted by the Board of Directors shall be the following:

(a) Review by the Board of Directors, as it deems appropriate and at such intervals as are reasonable, in light of current market conditions, to determine the extent of deviation, if any, of the net asset value per share as determined by using available market quotations from the Fund's $1.00 amortized cost price per share, and maintenance of records of such review. To fulfill this condition, the Fund will use actual quotations or estimates of market value reflecting current market conditions selected by its Board of Directors in the exercise of its discretion to be appropriate indicators of value. The quotations or estimates utilized may include, *inter alia*, (1) Quotations or estimates of market value for individual portfolio instruments, or (2) values obtained from yield data relating to classes of money market instruments furnished by reputable sources.

(b) In the event such deviation from the $1.00 amortized cost price per share exceeds ½ of 1%, the Board of Directors will promptly consider what action, if any, should be initiated.

(c) Where the Board of Directors believes the extent of any deviation from the Fund's $1.00 amortized cost price per share may result in material dilution or other unfair results to investors or existing shareholders, it shall take such action as it deems appropriate to eliminate or to reduce to the extent reasonably practicable such dilution or unfair results, which action may include: redeeming shares in kind; selling portfolio securities prior to maturity to realize capital gains or losses, or to shorten the Fund's average portfolio maturity; withholding dividends; or utilizing a net asset value per share as determined by using available market quotations.

3. The Fund will maintain a dollar-weighted average portfolio maturity appropriate to its objective of maintaining a stable net asset value per share; provided, however, that the Fund will not (a) purchase and instrument with a remaining maturity at the date of acquisition of greater than one year, or (b) maintain a dollar-weighted average portfolio maturity in excess of 120 days. In fulfilling this condition, if the disposition of a portfolio instrument results in a dollar-weighted average portfolio maturity in excess of 120 days, the Fund will invest its available cash in such a manner as to reduce its dollar-weighted average portfolio maturity to

120 days or less as soon as reasonably practicable.

4. The Fund will record, maintain and preserve permanently in an easily accessible place a written copy of the procedures (and any modifications thereto) described in condition 1 above, and the Fund will record, maintain and preserve for a period of not less than six years (the first two years in an easily accessible place) a written record of the Board of Directors' considerations and actions taken in connection with the discharge of its responsibilities, as set forth above, to be included in the minutes of the Board of Directors' meetings. The documents preserved pursuant to this condition shall be subject to inspection by the Commission in accordance with Section 31(b) of the Act as though such documents were records required to be maintained pursuant to rules adopted under Section 31(a) of the Act.

5. The Fund will limit its portfolio investments to those U.S. dollar-denominated instruments which the Board of Directors determines present minimal credit risks, and which are of high quality as determined by any major rating service or, in the case of any instrument that is not rated, of comparable quality as determined by the Board of Directors.

6. The Fund will include in each quarterly report, as an attachment to Form N–10, a statement as to whether any action pursuant to condition 2(c) was taken during the preceding fiscal quarter, and, if any such action was taken, will describe the nature and circumstances of such action.

Notice is further given that any interested person wishing to request a hearing on the application may, not later than May 16, 1983, at 5;30 p.m., do so by submitting a written request setting forth the nature of his/her interest, the reasons for his/her request, and the specific issues, if any, of fact or law that are disputed, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of the request should be served personally or by mail upon the Fund at the address stated above. Proof of service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed with the request. Persons who request a hearing will receive any notices and orders issued in this matter. After said date, an order disposing of the application will be issued unless the Commission orders a hearing upon request or upon its own motion.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010–01–M

[Release No. 22914; (70–6856)]

Middle South Utilities, Inc.; Proposal To Issue and Sell Common Stock

April 20, 1983.

Middle South Utilities, Inc. ("Middle South"), 225 Baronne Street, New Orleans, Louisiana 70112, a registered holding company, has filed an application-declaration with this Commission pursuant to Sections 6(a) and 7 of the Public Utility Holding Company Act of 1935 ("Act") and Rule 50 thereunder.

Middle South proposes to issue and sell, in one or more sales from time to time not later than April 30, 1984, up to 10,000,000 authorized but unissued shares of its common stock, $5 par value ("Additional Common Stock"). Middle South will use the proceeds to reduce outstanding bank loans.

After receiving competing proposals, Middle South will sell not more than 8,000,000 shares of the Additional Common Stock on a delayed basis ("Delayed Offering Stock"). Middle South will issue and sell not more the 4,000,000 shares of the Additional Common Stock through a continuous offering shelf registration program pursuant to Rule 415 under the Securities Act of 1933. The total aggregate number of shares of the Delayed Offering Stock and the Continuous Offering Stock will not exceed 10,000,000 shares.

Middle South proposes to enter into a Sales Agency Agreement ("Agreement") with an investment banker ("Agent") who will act as Middle South's exclusive agent in offering and selling the Continuous Offering Stock: (1) In ordinary broker's regular-way transactions in the auction market on the floor of the New York Stock Exchange, or any regional exchange on which Middle South's Common Stock may be listed or admitted to trading; (2) in block transactions (which may involve crosses) on such exchanges or in the over-the-counter market, in which the Agent may act as a principal for its own account; and (3) in "fixed-price offerings" off the floors of such exchanges, or "special offerings" and "exchange distributions" in accordance with the rules of such exchanges.

Transactions on exchanges will be at prevailing market prices. Over-the-counter transactions, will be negotiated by the Agent and related to prevailing market prices. The terms of any offering under (3) above will be subject to Middle South's prior approval.

In selling the Continuous Offering Stock, as outlined in methods (1) and (2) above, Middle South will comply with the competitive bidding requirements of Rule 50, as modified by HCAR No. 22623; it may request an exception from conpetitive bidding for sales under method (3).

Middle South believes that the sale or sales of the Delayed Offering Stock may require the assistance of underwriters, dealers or agents if market conditions at the time of the offering of the securities are unfavorable. Accordingly, Middle South may seek an exception from Rule 50 so that it may offer the Delayed Offering Stock through a negotiated sale.

The application-declaration and any amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by May 16, 1983, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the applicant-declarant at the address specified above. Proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010–01–M

[Release No. 34–19691; File No. SR–BSECC–83–2]

Self-Regulatory Organizations; Proposed Change By Boston Stock Exchange Clearing Corp.

Pursuant to Section 19(b) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on March 14, 1983, the Boston Stock Exchange Clearing Corporation filed with the Securities and Exchange

Commission the proposed change as described in Item I, II, and III below, which items have been prepared by the self-regulatory organization.

The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Boston Stock Exchange Clearing Corporation has adopted the Institutional Delivery Service and as part of its fee schedule and has established new fees as contained in Exhibit I attached.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places set forth in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections (A), (B) and (C) below, of the most significant aspects of such statements.

(A) *Self-Regulatory Organization's Statement of the Purpose of, and Basis for, the Proposed Rule Change.* (a) Due to the changing economic and operational environment of the Clearing Corporation, a Fee Committee was established to review projected costs and revise, where appropriate, all fees of the Clearing Corporation. In reviewing the preliminary budget, the Fee Committee recommended and the Board of Directors approved to establish a number of changes in its fee structure.

(b) The proposed rule change is consistent with the requirements of the Securities Exchange Act of 1934 and the rules and regulations thereunder applying to the Boston Stock Exchange Clearing Corporation because it continues the equitable allocation of fees charged to all participants. The proposed rule change will be implemented consistently with the safeguarding of securities and funds in its custody or control or for which it is responsible because it would insure an efficient system for the settlement of trades and the safekeeping of assets.

(B) *Self-Regulatory Organization's Statement on Burden on Competition.* No burden on competition is perceived by adoption of the proposed rule change.

(C) *Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others.* Comments have neither been solicited nor received.

III. Data of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change became effective March 1, 1983 pursuant to Section 19(b)(3)(A) of the Securities Exchange Act of 1934. At any time within 60 days of the filing of such rule change, the Commission may summarily abrogate the rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed change that are filed with the Commission, and all written communications relating to the proposed change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted within 21 days after the date of this publication.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: April 20, 1983.

George A. Fitzsimmons,
Secretary.

[File No. 22-12409]

Frontier Holdings, Inc.; Application and Opportunity for Hearing

April 19, 1983.

Notice is hereby given that Frontier Holdings, Inc. (the "Company") has filed an application pursuant to clause (ii) of Section 310(b)(1) of the Trust Indenture Act of 1939, as amended (the "Trust Indenture Act") for a finding by the Securities and Exchange Commission (the "Commission") that the trusteeship of United States Trust Company of New York ("United States Trust") under an indenture of the Company dated as of September 1, 1982 (the "1982 Indenture") and the trusteeships by United States Trust under indentures of Frontier Airlines, Inc. ("Frontier Airlines") dated as of March 1, 1967 (the "March 1967 Indenture") and October 15, 1967 (the "October 1967 Indenture"), respectively, each of which was heretofore qualified under the Trust Indenture Act, are not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify United States Trust from acting as trustee under said Indentures.

In support of its application the Company alleges that:

(1) Pursuant to the 1982 Indenture the Company issued $40,000,000 aggregate principal amount of its 10% Convertible Subordinated Debentures Due 2007 (the "10% Debentures"), all of which were outstanding on February 28, 1983. The 10% Debentures were registered under the Securities Act of 1933, as amended (the "Securities Act") (File No. 2-79099) and the 1982 Indenture was qualified under the Trust Indenture Act (File No. 22-11847). United States Trust is the Trustee under the 1982 Indenture.

(2) Pursuant to the March 1967 Indenture, Frontier Airlines issued $15,000,000 aggregate principal amount of its 5½% Subordinated Debentures due March 1, 1987 (the "5½% Debentures"). The 5½% Debentures were registered under the Securities Act (File No. 2-28039) and the March 1967 Indenture was qualified under the Trust Indenture Act (File No. 22-4367). Since March 16, 1970 United States Trust has

been the Trustee under the March 1967 Indenture.

(3) Pursuant to the October 1967 Indenture, Frontier Airlines issued $20,000,000 aggregate principal amount of its 6% Convertible Subordinated Debentures due October 15, 1992 (the "6% Debentures"). The 6% Debentures were registered under the Securities Act (File No. 2-27405) and the October 1967 Indenture was qualified under the Trust Indenture Act (File No. 22-4721). Since March 16, 1970 United States Trust has been the Trustee under the October 1967 Indenture.

(4) Section 9.10 of the 1982 Indenture provides that "the Trustee shall comply with [the Trust Indenture Act] section 310(b)."

(5) On April 22, 1982 the holders of the common stock of Frontier Airlines approved a Plan of Reorganization and Agreement of Merger involving a corporate reorganization (the "Reorganization") of Frontier Airlines through a merger which became effective on May 6, 1982 (the "Effective Date") and resulted in: (i) Frontier Airlines becoming a wholly-owned operating subsidiary of the Company, and (ii) the automatic conversion, on a share-for-share basis, of each issued share of common stock of Frontier Airlines into an issued share of common stock of the Company.

(6) The outstanding indebtedness of Frontier Airlines, including its 6% Debentures and its 5½% Debentures, continued as indebtedness of Frontier Airlines and was not assumed by the Company as a part of the Reorganization, but by their terms the 6% Debentures became convertible after the Effective Date into the same number of shares of common stock of the Company as the number of shares of common stock of Frontier Airlines into which they could have been converted immediately before the Effective Date, and the Company executed a supplemental indenture providing for such conversion. Frontier Airlines also had outstanding warrants to purchase shares of its common stock (the "Warrants") which had been originally issued in units with the 5½% Debentures. At the Effective Date, pursuant to the terms of the Warrants and the Reorganization, the Warrants were assumed by the Company and became exercisable for the purchase of common stock of the Company.

(7) On March 31, 1983 the Company, Frontier Airlines and United States Trust executed Supplemental Indentures to the March 1967 and October 1967 Indentures pursuant to which the Company assumed, jointly and severally with Frontier Airlines and on a subordinated basis the same as the subordination provisions contained in the 1982 Indenture, the obligation to pay the principal of, premium, if any, and interest on the 5½% and 6% Debentures in accordance with the terms of such Debentures and Indentures. The Company also assumed in such Supplemental Indentures the obligation to file with the Indenture Trustee and the Commission and to transmit to holders of the 5½% and 6% Debentures reports required of an issuer is such Debentures by Section 314(a) of the Trust Indenture Act and the related provisions of the respective Indentures.

(8) The 1982 Indenture, the March 1967 Indenture and the October 1967 Indenture are wholly unsecured and qualified under the Trust Indenture Act. Except for the assumption of the obligations referred to in paragraph (7) above, the Company did not assume any other material covenants of the March 1967 Indenture or the October 1967 Indenture, other than in respect of the conversion of the 6% Debentures as stated above. The assumption by the Company of the obligation to pay the principal of, premium, if any, and interest on the 5½% and 6% Debentures was on the same subordinated basis as the subordination provisions contained in the 1982 Indenture of the Company. The assumption to pay the 5½% and 6% Debentures, on a subordinated basis the same as the subordination applicable to the Company's 10% Debentures, is unlikely to cause any conflict of interest between the respective trusteeships of United States Trust under said Indentures of Frontier Airlines and the 1982 Indenture of the Company within the meaning of Section 310(b) of the Trust Indenture Act since the obligation of the Company in respect of the 5½% and 6% Debentures will rank equally with the obligation of the Company in respect of its 10% Debentures.

(9) The Company is not in default under the 1982 Indenture and Frontier Airlines is not in default under either the March 1967 Indenture or the October 1967 Indenture.

(10) The assumption by the Company of the obligations described above under the March 1967 Indenture and the October 1967 Indenture is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify United States Trust from acting as trustee under said Indentures or the 1982 Indenture.

For a more detailed account of the matters of fact and law asserted, all persons are referred to the application which is a public document on file in the offices of the Commission at 450 Fifth Street N.W., Washington, D.C. 20549.

Notice is further given that any interested person may, not later than May 20, 1983, request in writing that a hearing be held on such matter, stating briefly the nature of the interest of the person submitting such request, the reasons for such request, and the issues of fact and law raised by the application which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 450 Fifth Street N.W., Washington, D.C. 20549.

For the Commission by the Division of Corporation Finance, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

[Declaration of Disaster Loan Area #2080]

Mississippi; Declaration of Disaster Loan Area

As a result of the President's major disaster declaration, I find that the

Counties of Forrest, Franklin, Green, Lamar, Lawrence, Marion, Perry, Rankin and Walthall, Mississippi, constitute a disaster area because of damage resulting from severe storms, tornadoes and flooding beginning on April 1, 1983. Eligible persons, firms and organizations may file applications for loans for physical damage until the close of business on June 16, 1983, and for economic injury until the close of business on January 16, 1984, at: U.S. Small Business Administration, 100 West Capital Street, Suite 322, Federal Building, Jackson, Mississippi 39269, or other locally announced locations.

Interest rates for applicants filing for assistance under this declaration are as follows:

	Percent
Home Owners with credit available elsewhere	11.5
Home Owners without credit available elsewhere	5.75
Businesses with credit available elsewhere	10.5
Businesses without credit available elsewhere	8.0
Businesses (EIDL) without credit available elsewhere	8.0
Other (non-profit organizations including charitable and religious organizations)	11.375

It should be noted that assistance for agricultural enterprises is the primary responsibility of the Farmers Home Administration as specified in Pub. L. 96-302.

(Catalog of Federal Domestic Assistance Programs Nos. 59002 and 59008)

Dated: April 18, 1983.

BILLING CODE 8025-01-M

Small Business Investment Co.; Maximum Annual Cost of Money To Small Business Concerns

13 CFR 107.301(c) sets forth the SBA Regulations governing the maximum annual cost of money to small business concerns for Financing by small business investment companies.

Section 107.301(c)(2) requires that SBA publish from time to time in the **Federal Register** the current Federal Financing Bank (FFB) rate for use in computing the maximum annual cost of money pursuant to § 107.301(c)(1). It is anticipated that a rate notice will be published each month.

13 CFR 107.301(c) does not supersede or preempt any applicable law that imposes an interest ceiling lower than the ceiling imposed by that regulation. Attention is directed to new subsection 308(i) of the Small Business Investment Act, added by section 524 of Pub. L. 96-221, March 31, 1980 (94 Stat. 161), to that law's Federal override of State Usury ceilings, and to its forfeiture and penalty provisions.

Effective May 1, 1983, and until further notice, the FFB rate to be used for purposes of computing the maximum cost of money pursuant to 13 CFR 107.301(c) is 10.415% per annum.

Dated: April 21, 1983.

Edwin T. Holloway,

Associate Administrator for Finance and Investment.

VETERANS ADMINISTRATION

National Cemetery, Florida; Availability of Final Environmental Impact Statement

Notice is hereby given that a document entitled Final Environmental Impact Statement, Veterans Administration National Cemetery, Florida, dated April 1983, has been prepared as required by the National Environmental Policy Act of 1969.

This Final Environmental Impact Statement evaluates the adverse and beneficial effects of creating a new National Cemetery in Florida. For both of the alternative sites—Withlacoochee State Forest Site near Brooksville and Cross Florida Barge Canal Site near Ocala—seven categories of economic, social and physical environmental effects are examined and compared with existing conditions. For each site and for each category of impact, measures to mitigate impacts are described. Alternative sites are discussed, as is the no-action alternative. Significant comments received by the Veterans Administration during the 45-day public review period (October 1 through November 15, 1982) are included, each followed by an appropriate response. Factual corrections have been made to the text of the EIS based on comments received. Finally, a list of preparers, bibliography and index to appendices available upon request is provided.

The document is being placed for public examination at the Veterans Administration in Washington, D.C. Persons wishing to examine a copy of the document may do so at the following office: Mr. William F. Sullivan, Director, Office of Environmental Affairs (088C), Room 423, Veterans Administration, 811 Vermont Avenue, NW., Washington, D.C. 20420, (202–389–3316). Single copies of the Final Environmental Impact Statement may be obtained on request to the above office.

Dated: April 19, 1983.

By direction of the Administrator.

Everett Alvarez, Jr.,

Deputy Administrator.

Part II

Office of Personnel Management

Excepted Service; Schedules A, B, and C

OFFICE OF PERSONNEL MANAGEMENT

Excepted Service

AGENCY: Office of Personnel Management.
ACTION: Notice.

SUMMARY: This gives notice of positions placed or revoked under Schedules A, B, and C in the excepted service, as required by Civil Service Rule VI, Exceptions from the Competitive Service.

FOR FURTHER INFORMATION CONTACT: William Bohling, 202–632–6000.

SUPPLEMENTARY INFORMATION: The Office of Personnel Management published its last monthly notice updating appointing authorities established or revoked under the Excepted Service provisions of 5 CFR Part 213 on March 25, 1983 (48 FR 12625). Individual authorities established or revoked under Schedules A, B, or C between March 1, 1983 and March 31, 1983 appear in a listing below. Future notices will be published on the fourth Tuesday of each month, or as soon as possible thereafter. A consolidated listing of all authorities will be published as of June 30 of each year.

Schedule A

The following exception is established:

Federal Emergency Management Agency

Field positions at grades GS–15 and below, or equivalent, which are engaged in work directly related to unique response efforts to environmental emergencies not covered by the Disaster Relief Act of 1974, Public Law 93–288, as amended. Employment under this authority may not exceed 36 months on any single emergency. Persons may not be employed under this authority for long-term duties or for work not directly necessitated by the emergency response effort. Effective March 28, 1983.

Schedule C

The following exceptions are established:

Department of Agriculture

One Private Secretary to the Assistant Secretary for Economics, Office of the Secretary. Effective March 3, 1983.

One Confidential Assistant to the Administrator, Food Safety and Inspection Service. Effective March 3, 1983.

One Private Secretary to the Director, Office of Minority Affairs. Effective March 4, 1983.

One Confidential Assistant to the Assistant Secretary for Governmental and Public Affairs. Effective March 7, 1983.

One Confidential Assistant to the Manager, Federal Crop Insurance Corporation. Effective March 7, 1983.

One Confidential Assistant to the General Counsel, Office of the General Counsel. Effective March 7, 1983.

One Confidential Assistant to the Assistant Secretary for Economics, Office of the Secretary. Effective March 7, 1983.

One Confidential Assistant to the Administrator, Foreign Agricultural Service. Effective March 15, 1983.

One Confidential Assistant to the Director, Office of Minority Affairs. Effective March 17, 1983.

One Confidential Assistant to the Assistant Secretary for Governmental and Public Affairs. Effective March 22, 1983.

One Confidential Assistant to the Administrator, Agricultural Stabilization and Conservation Service. Effective March 22, 1983.

One Deputy Director, Office of Rural Development Policy. Effective March 23, 1983.

One Confidential Assistant to the Assistant Secretary for Economics. Effective March 29, 1983.

One Confidential Assistant to the Administrator, Agricultural Stabilization and Conservation Service. Effective March 31, 1983.

One Confidential Assistant to the Assistant Secretary for Governmental and Public Affairs. Effective March 31, 1983.

Department of the Air Force

One Special Assistant to the Assistant to the President, Office of the Secretary. Effective March 11, 1983.

One Special Assistant to the Assistant to the Vice President for National Security Affairs. Effective March 29, 1983.

Department of the Army

One Confidential Assistant to the Deputy Director, Presidential Personnel, Office of the Secretary. Effective March 31, 1983.

Department of Commerce

One Congressional Liaison Assistant to the Deputy Assistant Secretary for Congressional Operations, Office of the Secretary. Effective March 15, 1983.

One Special Assistant to the Assistant Secretary for Communications and Information, Office of the Secretary. Effective March 16, 1983.

One Special Assistant to the Deputy Assistant Secretary for Intergovernmental Affairs, Office of the Secretary. Effective March 16, 1983.

One Confidential Assistant to the Deputy Director, Office of Minority Business Development Agency. Effective March 17, 1983.

One Confidential Assistant to the Director, Office of Export Trading Company Affairs. Effective March 22, 1983.

One Deputy Director, Office of Intergovernmental Affairs. Effective March 23, 1983.

One Confidential Assistant to the Assistant Secretary for International Economic Policy, International Trade Administration. Effective March 24, 1983.

One Special Assistant to the Deputy Assistant Secretary for Import Administration. Effective March 24, 1983.

Department of Defense

One Special Projects Assistant to the Deputy Assistant Secretary for Equal Opportunity and Safety Policy. Effective March 1, 1983.

One Personal and Confidential Assistant to the Deputy Secretary of Defense. Effective March 7, 1983.

One Private Secretary to the Principal Deputy Assistant Secretary of Defense (Public Affairs). Effective March 7, 1983.

One Special Assistant to the Assistant Secretary of Defense (Manpower, Reserve Affairs and Logistics). Effective March 7, 1983.

One Special Assistant for Technology Transfer Policy, Office of the Deputy Assistant Secretary of Defense (International Economic, Trade and Security Policy). Effective March 8, 1983.

Department of Education

One Special Assistant to the Director of the National Institute of Education. Effective March 14, 1983.

One Special Assistant for Planning and Compliance Operations, Office for Civil Rights. Effective March 18, 1983.

One Confidential Assistant to the Associate Deputy Under Secretary for Planning, Budget and Evaluation. Effective March 22, 1983.

One Special Assistant to the Deputy Under Secretary for Management. Effective March 22, 1983.

One Executive Assistant to the Assistant Secretary for Elementary and Secondary Education. Effective March 25, 1983.

Department of Energy

One Staff Assistant to the Assistant Secretary for Conservation and Renewable Energy. Effective March 4, 1983.

One Staff Assistant to the Director, Office of Minority Economic Impact. Effective March 7, 1983.

One Legislative Affairs Specialist, Office of the Assistant Secretary for Congressional, Intergovernmental, and Public Affairs. Effective March 7, 1983.

One Secretary (Confidential Assistant) to the Assistant Secretary for Management and Administration. Effective March 8, 1983.

One Private Secretary to the Commissioner, Federal Energy Regulatory Commission. Effective March 11, 1983.

One Staff Assistant to the Assistant Secretary for International Affairs. Effective March 23, 1983.

Department of Health and Human Services

One Confidential Assistant to the Deputy Assistant Secretary for Legislation (Appropriations), Office of the Assistant Secretary for Legislation. Effective March 22, 1983.

One Confidential Assistant to the Secretary, Office of the Secretary. Effective March 25, 1983.

One Confidential Assistant to the Administrator, Alcohol, Drug Abuse, and Mental Health Administration. Effective March 30, 1983.

Department of Housing and Urban Development

One Special Assistant to the Deputy Assistant Secretary for Policy and Budget. Effective March 9, 1983.

One Executive Assistant to the Deputy Assistant Secretary for Legislation, Office of the Assistant Secretary for Legislation and Congressional Relations. Effective March 24, 1983.

One Senior Assistant for Congressional Relations, Office of the Assistant Secretary for Legislation and Congressional Relations. Effective March 24, 1983.

One Senior Legislative Specialist, Office of the Assistant Secretary for Legislation and Congressional Relations, Effective March 24, 1983.

One Special Assistant to the Deputy Assistant Secretary for Public and Indian Housing. Effective March 31, 1983.

Department of the Interior

One Confidential Assistant to the Director, Fish and Wildlife Service. Effective March 10, 1983.

One Special Assistant to the Director, Fish and Wildlife Service. Effective March 22, 1983.

One Special Assistant for Congressional and Legislative Affairs, Office of the Director, Geological Survey. Effective March 22, 1983.

One Director, Office of Congressional and Legislative Affairs. Effective March 24, 1983.

One Assistant for Public Affairs to the Associate Director, Bureau of Land Management. Effective March 29, 1983.

Department of Justice

One Secretary (Stenography) to the Deputy Assistant Attorney General, Land and Natural Resources Division. Effective March 1, 1983.

One Staff Assistant (Typing) to the Associate Attorney General, Office of the Associate Attorney General. Effective March 3, 1983.

One Special Assistant to the Deputy Attorney General, Office of the Deputy Attorney General. Effective March 9, 1983.

One Secretary (Stenography) to the Assistant Attorney General, Civil Rights Division. Effective March 9, 1983.

One Personal Assistant to the Director, Bureau of Justice Statistics. Effective March 22, 1983.

One Special Assistant to the Attorney General, Office of the Attorney General. Effective March 25, 1983.

One Legislative Aide to the Director, Regulatory and Legislative Affairs Staff. Effective March 25, 1983.

Department of Labor

One Special Assistant to the Assistant Secretary Occupational Safety and Health Administration. Effective March 7, 1983.

One Staff Assistant to the Director, Office of Workers' Compensation Programs. Effective March 10, 1983.

One Special Assistant to the Assistant Secretary, Occupational Safety and Health Administration. Effective March 23, 1983.

One Special Assistant to the Assistant Secretary for Employment and Training, Office of the Assistant Secretary. Effective March 29, 1983.

One Special Assistant to the Director, Women's Bureau. Effective March 30, 1983.

One Private Secretary to the Deputy Under Secretary, Office of the Deputy Under Secretary for Intergovernmental Affairs. Effective March 31, 1983.

Department of State

One Secretary (Stenography) to the Director, Management Operations. Effective March 1, 1983.

One Secretary (Stenography) to the Under Secretary, Office of the Under Secretary for Management. Effective March 3, 1983.

One Staff Assistant to the Special Advisor to the Secretary, Office of the Ambassador-at-Large/Special Middle East Negotiator. Effective March 23, 1983.

One Deputy Chief of Protocol, Office of the Chief of Protocol. Effective March 25, 1983.

One Staff Assistant (Cultural Property) to the Associate Director for Educational and Cultural Affairs. Effective March 28, 1983.

One Special Assistant to the Deputy Director, Office of the Deputy Director. Effective March 29, 1983.

Department of Transportation

One Special Assistant to the Secretary, Office of the Secretary. Effective March 22, 1983.

One Special Assistant to the Director, Office of Public and Consumer Affairs. Effective March 22, 1983.

One Secretary (Stenography) to the Special Assistant to the Secretary. Effective March 22, 1983.

One Staff Assistant to the General Counsel, Office of the General Counsel. Effective March 22, 1983.

Department of the Treasury

One Special Assistant to the Commissioner of Customs, Office of the Commissioner. Effective March 4, 1983.

One Staff Assistant to the Deputy Assistant Secretary (Financial Systems). Effective March 8, 1983.

One Public Affairs Specialist, Office of the Assistant Secretary (Public Affairs). Effective March 15, 1983.

One Staff Assistant to the Commissioner of Customs, Office of the Commissioner. Effective March 16, 1983.

ACTION

One Special Assistant to the Assistant Director, Office of Policy and Planning. Effective March 15, 1983.

One Deputy Associate Director for Older American Volunteer Programs. Effective March 21, 1983.

Administrative Office of the United States Courts

One Attorney-Adviser (Legislative). Effective March 8, 1983.

One Secretary (Stenography) to the Legislative Affairs Officer. Effective March 8, 1983.

One Attorney-Adviser (Legislative). Effective March 8, 1983.

Agency for International Development

One Confidential Assistant to the Administrator, Office of the Administrator. Effective March 22, 1983.

One Special Assistant to the Assistant Administrator, Bureau for Food for Peace and Voluntary Assistance. Effective March 23, 1983.

Commodity Futures Trading Commission

One Special Assistant to the Commissioner, Office of Commissioner West. Effective March 23, 1983.

Consumer Product Safety Commission

One Staff Assistant to the Commissioner. Effective March 22, 1983.

One Special Assistant to the Commissioner. Effective March 30, 1983.

Equal Employment Opportunity Commission

One Congressional Liaison Assistant to the Director, Office of Congressional Affairs. Effective March 11, 1983.

Executive Office of the President

One Administrative Assistant to the Assistant Director for Legislative Affairs, Office of Management and Budget. Effective March 7, 1983.

Federal Mine Safety and Health Review Commission

One Attorney-Advisor. Effective March 24, 1983.

Federal Trade Commission

One Special Assistant (Economic Adviser) to the Commissioner, Office of Commissioner Douglas. Effective March 10, 1983.

One Staff Assistant to the Chairman, Office of the Chairman. Effective March 11, 1983.

Government Printing Office

One Secretary (Typing) to the Congressional Relations Officer, Office of the Public Printer. Effective March 22, 1983.

Office of Personnel Management

One Special Assistant to the Assistant Director for Public Affairs, Office of Policy and Communications. Effective March 30, 1983.

Securities and Exchange Commission

One Executive Aide (Typing) to the Executive Assistant to the Chairman, Office of the Chairman. Effective March 24, 1983.

Small Business Administration

One Confidential Program Assistant to the Administrator, Office of the Administrator. Effective March 10, 1983.

U.S. Information Agency

One Special Assistant for Congressional Relations, Office of the General Counsel and Congressional Liaison. Effective March 7, 1983.

Office of Management and Budget

Budget Deferrals

OFFICE OF MANAGEMENT AND BUDGET

Budget Deferrals

To the Congress of the United States:

In accordance with the Impoundment Control Act of 1974, I herewith report four new deferrals of budget authority totaling $31,441,000 and one revision to a previously reported deferral, increasing the amount deferred by $6,000,000.

The deferrals affect the Department of Commerce and the Department of Energy.

The details of each deferral are contained in the attached reports.

Ronald Reagan.

THE WHITE HOUSE,
April 21, 1983.

BILLING CODE 3110-01-M

Deferral No: D83-71

1/ This amount includes $23,400,000 in current budget authority for the rural telephone bank that is offset by a corresponding increase in permanent budget authority (R83-20).
2/ All amounts listed represent budget authority except for $15,944,000 of outlays only in one general revenue sharing deferral (D83-16B).

Deferral No: D83-71

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of Commerce
Bureau: National Oceanic and Atmospheric Administration
Appropriation title & symbol: Operations, Research, and Facilities 13X1450
OMB identification code: 13-1450-0-1-306
Grant program: [X] Yes [ ] No
Type of account or fund: [ ] Annual [ ] Multiple-year _____ (expiration date) [X] No-year

New budget authority (P.L. 97-377): $895,654,000
Other budgetary resources: 143,054,883
Total budgetary resources: 1,038,708,883
Amount to be deferred: Part of year: ____ Entire year: 2,965,000
Legal authority (in addition to sec. 1013): [X] Antideficiency Act [ ] Other _____
Type of budget authority: [X] Appropriation [ ] Contract authority [ ] Other _____

Justification: This account provides for the research, development, and support of operating programs, and acquisition of the facilities for fulfilling the basic responsibilities of the National Oceanic and Atmospheric Administration (NOAA). The General Accounting Office (GAO) conducted a review of NOAA's computer procurement actions at the request of the Chairman of the House committee on Government Operations. As a result of GAO recommendations in their report (GAO/CED-82-81, April 28, 1982) NOAA has reassessed its computer requirements for FY 1983-85 and identified $2,965,000 that will not be needed for computer procurement in FY 1983. These funds are being deferred for the remainder of FY 1983 and will be used to offset other funding needs for this account in FY 1984. This deferral action is taken under the provisions of the Antideficiency Act, due to the change in computer requirements.

Estimated Effects: This deferral action will have no impact on the program.

Outlay Effect: This deferral action will shift $2,965,000 in outlays from FY 1983 to FY 1984.

Deferral No: D83-72

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Energy Activities	New budget authority (P.L. 97-377): $2,071,016,000
Bureau: Energy Programs	Other budgetary resources: 393,890,722
Appropriation title & symbol: Energy supply, research and development activities (Operating Expenses) 89X0224 1/	Total budgetary resources: 2,464,906,722
	Amount to be deferred: Part of year: ____ Entire year: 15,226,000
CMB identification code: 89-0224-0-1-271	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other ____
Grant program: ☐ Yes ☒ No	
Type of account or fund: ☐ Annual ☐ Multiple-year ____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ____

Justification: The Energy Supply Research and Development account provides support for research and development of a variety of new energy technologies. This deferral action consists of two parts: (1) it defers $10,226,000 in funds which are in excess of the Department's 1983 financial operating plan as approved by the House Appropriations Committee by letter of February 11, 1983, and (2) it defers $5,000.000 to avoid initiation of two new demonstration projects, the Second Small Community experiment and the Salton Sea Solar Pond Project, for which there is near-term commercial interest and for which the option of private sector funding exists, or where previous DOE funded efforts have lessened technical risks. The Department will continue to support research of a longer term, generic nature for which there is no present commercial interest.

Estimated Effects: This deferral action will allow for an orderly transition to a more generic and long term research program.

Outlay Effect: This deferral action shifts $10,000,000 in FY 1983 outlays into FY 1984 and $5,226,000 from FY 1984 to FY 1985.

1/ This account was the subject of a deferral in FY 1982 (D82-228A).

Deferral No: D83-73

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Energy Activities	New budget authority (P.L. 97-377): $2,000,000 (P.L. 97-394): 215,514,000
Bureau: Energy Programs	Other budgetary resources: 136,637,249
Appropriation title & symbol: Fossil Energy Research and Development 89X0213 1/	Total budgetary resources: 354,151,249
	Amount to be deferred: Part of year: ____ Entire year: 8,750,000
CMB identification code: 89-213-0-1-271	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other ____
Grant program: ☐ Yes ☒ No	
Type of account or fund: ☐ Annual ☐ Multiple-year ____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ____

Justification: The Fossil Energy Research and Development Program conducts research and development in the areas of coal, petroleum and gas. The program is continuing to focus on generic and technology base research where private sector involvement and commitment is unlikely. This deferral action is being taken for several reasons: (1) $4.50 million is deferred because the funds are in excess of that required to carry out planned program requirements in the areas of peat research, fluidized-bed coal gasification and unconventional gas recovery from eastern gas shales; (2) $1.25 million is deferred to avoid initiation of a coal-fired combined cycle gas turbine cogeneration facility, which has already been demonstrated; and (3) $3.00 million is deferred in the MHD program, which is the amount in excess of funds required to terminate the project. (The Department notified Congress of its proposal to terminate the MHD program by letter from the Secretary of Energy on March 31, 1983).

Estimated Effects: This deferral action will allow for an orderly transition to a more generic and long term research program.

Outlay Effect: This deferral action will shift $6,000,000 in outlays from FY 1983 to FY 1984, and $2,750,000 from FY 1984 to FY 1985.

1/ This account is the subject of another FY 1983 deferral (D83-8A).

Deferral No: D83-49A

DEFERRAL OF BUDGET AUTHORITY

D83-49A

SUPPLEMENTARY REPORT

Report Pursuant to Section 1014(e) of P.L. 93-344

This report updates Deferral No. D83-49, transmitted to the Congress on February 1, 1983.

This revision to a deferral of fossil energy construction funds in the Department of Energy increases the amount previously reported as deferred from $20,000,000 to $26,000,000. The increase of $6,000,000 is due to a decision not to fund certain additional near term development and demonstration activities.

Deferral No: D83-49A

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Energy Activities	New budget authority ($) (P.L.)
Bureau: Energy Programs	Other budgetary resources: 51,041,891
Appropriation title & symbol: Fossil Energy Construction 1/ 89X0214	Total budgetary resources: 51,041,891
	Amount to be deferred: Part of year ($) Entire year: 26,000,000*
OMB identification code: 89-0214-0-1-271	Legal authority (in addition to sec. 1013): [X] Antideficiency Act ($20,000,000)
Grant program: [ ] Yes [X] No	[ ] Other
Type of account or fund: [ ] Annual [ ] Multiple-year (expiration date) [X] No-year	Type of budget authority: [X] Appropriation [ ] Contract authority [ ] Other

Justification: The Fossil Energy Program conducts research and development in the areas of coal, petroleum and gas. Development and demonstration of near term technologies supported in the past by this program are no longer funded by the Federal government. This reorientation permits the deferral of excess funds for the entire year resulting in a reduction in the FY 1984 appropriation request. This deferral action is taken under provisions of the Antideficiency Act (31 U.S.C. 1512).

Estimated Effects: This deferral action has no programmatic effect.

Outlay Effect:* This deferral action will shift $26,000,000 in outlays from FY 1983 into FY 1984.

1/ This account was the subject of a deferral in FY 1982 (D82-9).

* Revised from previous report.

	Amount to be deferred: Part of year ____ Entire year 4,500,000
OMB identification code: 89-0215-0-1-272	Legal authority (in addition to sec. 1013): ☒ Antideficiency Act $1,500,000 ☐ Other ____
Grant program ☒ Yes ☐ No	
Type of account or fund: ☐ Annual ☐ Multiple-year ____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ____

Justification: The Energy Conservation program funds research and development on long-term, high risk, high payoff energy conservation technologies. The program also provides State and local grants for energy conservation.

This action defers $3,000,000 from the consumer product technology program and $1,500,000 for the National Appropriate Technology Assistant Service (NATAS), for a total deferral of $4,500,000 for the remainder of the fiscal year.

The consumer product technology deferral reflects the continuing redirection of the program toward long term, generic high-risk, but potentially high-pay-off research and development. Funds for projects inconsistent with this policy, and/or of low priority, are being deferred.

Deferral of the NATAS funds will provide time for a more complete examination of the results of the Appropriate Technology Program and of the need for a NATAS. Should it become apparent that such a technical assistance service is important, reconsideration of the establishment of the NATAS, and of the best organization to place it into effective operation, can be undertaken at that time.

Estimated Effects: The deferral of $3,000,000 from the Consumer Product Technology program will delay work on selected projects inconsistent with Administration policy or of low priority. However, the rest of this program will continue on schedule in FY 1983. The $1,500,000 deferral for NATAS will delay initiation of this service while its need is being examined.

Outlay Effect: This deferral action will shift $4,500,000 in outlays from FY 1983 to FY 1984.

Part IV

Department of Energy

Office of the Secretary

Industrial Energy Conservation Program

DEPARTMENT OF ENERGY

Office of the Secretary

Industrial Energy Conservation Program; Indentification of Corporations for Purposes of Industrial Energy Efficiency Improvement and Recovered Materials Utilization Reporting

AGENCY: Department of Energy.

ACTION: Notice of Corporate Identification.

SUMMARY: The Department of Energy (DOE) is identifying corporations which consumed at least one trillion British thermal units (Btu's) of energy in calendar year 1981 in any of the major energy-consuming industries, as required by DOE's regulations at 10 CFR 445.15(b) which implements section 373(b) of the Energy Policy and Conservation Act (EPCA), as amended by the National Energy Conservation Policy Act.

Section 445.12 of these regulations require certain corporations which consumed at least one trillion Btu's of energy in a calendar year in any of the 20 major energy-consuming industries identified by DOE to file a certified statement with DOE. The deadline to file this report with DOE was February 28, 1983. Based on the reports filed in response to this requirement and reports filed previously, DOE identifies the corporations listed in the appendix to this notice. Identified corporations are required to meet the reporting requirements of 10 CFR Part 445 Subpart C.

A corporation may file a request with DOE to modify its identification on the grounds of technical or clerical error as provided in 10 CFR 445.16.

Identified corporations are required to report on energy efficiency improvements and, if appropriate, recovered materials utilization in calendar year 1982 either directly to DOE or to DOE-approved sponsors of reporting programs, pursuant Subpart C of 10 CFR Part 445 which implements the requirements of sections 374A, 375 and 376 of EPCA.

BILLING CODE 6450-01-M

Industrial Energy Conservation Program; Proposed Exempt Corporations and Adequate Reporting Programs

AGENCY: Department of Energy.

ACTION: Notice of proposed exempt corporations and adequate reporting programs.

SUMMARY: As an annual part of the Department of Energy's (DOE) Industrial Energy Conservation Program, as set forth at 10 CFR Part 445, DOE is proposing to exempt certain corporations from the requirement of filing corporate reporting forms directly with DOE and to determine as adequate certain industrial reporting programs for sponsor reporting. This notice is required pursuant to section 376(g)(1) of the Energy Policy and Conservation Act and DOE's regulations set forth at 10 CFR Part 445, Subpart D. The proposed exempt corporations and the respective sponsors of proposed adequate reporting programs are listed alphabetically by industry in the appendix to this notice.

DOE will receive written comments with respect to this proposed list and will issue a final list of exempt corporations and adequate reporting programs.

Identified corporations are required to report on energy efficiency improvements and, if appropriate, recovered materials utilization in calendar year 1982 either directly to DOE or to DOE-approved sponsors of reporting programs, pursuant Subpart C of 10 CFR Part 445 which implements the requirements of sections 374A, 375 and 376 of EPCA.

DATE: Written comments must be received by May 26, 1983.

ADDRESS: Comments should be addresed to: Office of Hearings & Dockets, U.S. Department of Energy, Office of Conservation and Renewable Energy, Mail Station 6B-025, Room 5F078, 1000 Independence Avenue, SW., Washington, D.C. 20585.

FOR FURTHER INFORMATION CONTACT:
Tyler E. Williams, Jr., Office of Industrial Programs, CE-122.1, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, D.C. 20585, (202) 252-2371

Pamela Pelcovits, Office of General Counsel, GC-33, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, D.C. 20585, (202) 252-9519.

Issued In Washington, D.C. April 19, 1983.

Joseph J. Tribble

Assistant Secretary, Conservation and Renewable Energy.

Correction

In FR Doc. 83–9093 beginning on page 15800 in the issue of Tuesday, April 12, 1983, make the following corrections:

1. On page 15803, fifteen lines from the bottom of the center column, "housing facility of real property" should have read "housing facility or real property".

2. On page 15806, § 500.1(e), nineteen lines from the top of the third column of the page, "certificate or" should have read "certificate of".

3. On page 15808, first column, § 500.10, tenth line, "of these regulations" should have read "or these regulations".

4. On page 15815, center column, § 500.72(b), "Act of these regulations" should have read "Act or these regulations".

5. On page 15817, center column, § 500.102(d), fifth line, "of agricultural association" should have read "or agricultural association".

6. Same page, third column, the section now designated as "§ 550.103" should have been designated as "§ 500.103".

7. In the introductory text of § 500.105, on page 15818, first column, first line, "and 500.102(b) shall comply" should have read "and 500.102(d) shall comply".

8. On page 15820, § 500.132(a)(2), thirty lines from the bottom of the center column of the page, "rather than ODHA" should have read "rather than OSHA".

9. On page 15821, § 500.145, "Employee Certificate or Registration" should have read "Employee Certificate of Registration".

Department of the Interior

Minerals Management Service

1983 Sale Offerings to Eligible U.S. Refiners of Royalty Oil Available From Federal Offshore and Onshore Leases

DEPARTMENT OF THE INTERIOR

Minerals Management Service

1983 Sale Offerings to Eligible U.S. Refiners of Royalty Oil Available From Federal Offshore and Onshore Leases

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Notice of 3 Sale Offerings of Available Royalty Oil.

SUMMARY: Because the Secretary of the Interior has determined that some U.S. refiners do not currently have access to adequate supplies of crude oil, he is offering to sell the Federal Government's royalty share of oil produced from certain offshore and onshore Federal leases. This offering to all qualified applicants is made pursuant to regulations governing the disposal of Federal royalty-in-kind (RIK) oil. Applications for contracts will be processed as quickly as possible for the 3 separate sales to be conducted in 1983: Sale No. 83–1 on July 6; Sale No. 83–2 on August 3; Sale No. 83–3 on September 7. All 3 sales will be held at the Denver Federal Center, Lakewood, Colorado.

DATES: Completed applications for Sale No. 83–1 must be received by close-of-business (c.o.b.) June 15, 1983; for Sale No. 83–2 by c.o.b. July 15, 1983; for Sale No. 83–3 by c.o.b. August 15, 1983.

ADDRESS: Application forms for the contract purchase of RIK oil may be obtained from Mr. James Mikelson, Minerals Management Service, Payor Accounting Branch, P.O. Box 5760 T.A., Denver CO 80217. Completed applications should be returned to the same MMS office; the telephone number is (303) 231–3133.

FOR FURTHER INFORMATION CONTACT: RIK Sale Coordinator Dennis Whitcomb, (303) 231–3432.

SUPPLEMENTARY INFORMATION: As MMS stated in the **Federal Register** of January 14, 1983 (48 FR 1833: Notice of Intent to Revise Timing of U.S. Royalty Oil Sales from Federal Offshore and Onshore Leases; request for comments), availability royalty oil will be offered in separate sales, based on the geographical regions designated below:

Sale No. 83–1

RIK oil from Federal leases in the Outer Continental Shelf (OCS) regions of the Gulf of Mexico and the Pacific Coast will be sold under contracts beginning October 1, 1983, with an expiration date of October 1, 1984. Approximately 100,000 barrels per day will be offered in this sale to qualified applicants.

The effective beginning date of subsequent royalty oil contracts for production from these regions will be October 1, 1984, and every 3 years thereafter.

Sale No. 83–2

RIK oil from Federal leases in the States of Alaska, Arizona, California, Idaho, Nevada, New Mexico, Oklahoma, Oregon, Texas, and Washington will be sold under contracts beginning November 1, 1983, with an expiration date of October 1, 1985. Approximately 15,000 barrels per day will be offered in this sale to qualified applicants.

The effective beginning date of subsequent royalty oil contracts for production from these 10 States will be October 1, 1985, and every 3 years thereafter.

Sale No. 83–3

RIK oil from Federal leases in all other States will be sold under contracts beginning December 1, 1983, with an expiration date of October 1, 1986. Approximately 20,000 barrels per day will be offered in this sale to qualified applicants.

The effective beginning date of subsequent royalty oil contracts for this region will be October 1, 1986, and every 3 years thereafter.

An application received after the specified date for a particular sale cannot be considered and must be rejected. If an MMS official requests additional information from an applicant, that additional information must be received by the date specified by the MMS requester of the application will be rejected.

MMS is adopting this 3 separate-sales schedule in order to furnish better production data to interested eligible purchasers of U.S. royalty oil. Comments received from the public and industry were uniformly positive.

Sales Terms Information

MMS is holding the 1983 sales as early as is consistent with giving adequate notice and information to qualified applicants. Before each sale, an information package will be sent to every applicant who has filed a timely application with MMS. The package will include such pertinent data as: (1) General administrative details concerning the allocation and contract award process; (2) a copy of the Federal oil and gas contract, including terms under which it will be awarded; (3) a statement on surety requirements; (4) the lease locations, quality and approximate quantities of royalty oil and, (5) sale arrangements such as the date, location, and time of each sale.

Eligibility Requirements for Applicants

For the purchase of offshore royalty oil, "eligible refiner" means the owner of an existing oil refinery or refineries (including refineries not in operation) who qualifies as a small business enterprise under the rules of the Small Business Administration and who is unable to purchase in the open market an adequate supply of crude oil to meet the needs of that total existing refinery capacity.

For the purchase of onshore royalty oil, "eligible refiner" means the owner of an existing oil refinery or refineries who is unable to purchase in the open market an adequate supply of crude oil sufficient for that refinery's operation at the time of application for royalty oil and whose total refining capacity (including parent and/or subsidiaries) does not exceed 175,000 barrels per day.

However, an otherwise eligible refiner would not be permitted to participate in a royalty sale if, at the time of the sale, that refiner was in arrears on payments owed (including interest and/or penalties) under a previously awarded royalty oil contract.

Moreover, the Secretary of the Interior, in the exercise of the discretionary authority granted him by applicable statutes, has elected to continue to grant a preference in the allocation of onshore Federal royalty oil. A preference will be granted to a refiner who applies to purchase onshore royalty oil produced in a designated area for use in a refinery located in the same or nearest geographical area. Designations by MMS used to establish 6 onshore "preference" areas for this purpose are as follows:

1. *Western area* includes the States of Arizona, Idaho, California, Nevada, Oregon, and Washington. Refineries located in Hawaii will also be given preference for oil produced in the Western area.

2. *Alaska area includes the State of Alaska.*

3. *South Central area* includes the States of New Mexico, Oklahoma, and Texas.

4. *Central area* includes the States of Colorado, Kansas, Nebraska, and Utah.

5. *North Central area* includes the States of Montana, North Dakota, South Dakota, and Wyoming.

6. *Eastern area* includes all other states in which qualified RIK applicants have refineries.

Surety Bond Requirement

A purchaser of Federal royalty oil shall be required to furnish a surety bond or an irrevocable straight letter of

credit (from a financial institution acceptable to MMS) 45 days prior to the effective date of the contract. The surety must be in an amount equal to the value of Federal royalty oil that could be taken by the purchaser in a 90-day period. If a letter of credit is furnished, it must be maintained by the purchaser for term of the contract plus 180 days.

Dated: April 20, 1983.

Orie L. Kelm,

Deputy Associate Director for Royalty Management, Minerals Management Service.

Part VII

Department of Agriculture

Food and Nutrition Service

Emergency Food Assistance Programs; Interim Rules

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

7 CFR Parts 250 and 251

Emergency Food Assistance Programs

AGENCY: Food and Nutrition Service, USDA.

ACTION: Interim rules.

SUMMARY: These interim rules amend the Food Distribution Program regulations (7 CFR Part 250) and establish new regulations under 7 CFR Part 251 governing emergency food assistance programs required by Titles I and II of Public Law 98–8. Amendments to Part 250 make technical changes required by the legislation relating to certain charges that may be imposed by distributing agencies and to provisions regarding fraud in connection with USDA food donations. The new regulations set forth the terms and conditions under which (1) surplus food will be distributed to eligible recipient agencies under the emergency food assistance programs and (2) Federal funds will be provided to assist in such distribution.

DATES: These rules are effective as of May 1, 1983. To be assured of consideration, comments must be received or postmarked on or before June 27, 1983.

ADDRESS: Comments should be sent to: Gwena Kay Tibbits, Chief, Program Administration Branch, Food Distribution Division, Food and Nutrition Service, U.S. Department of Agriculture, Alexandria, Virginia 22302.

Comments in response to these rules may be inspected at 3101 Park Center Drive, Room 506, Alexandria, Virginia, during normal business hours (8:30 a.m. to 5:00 p.m., Mondays through Fridays).

FOR FURTHER INFORMATION CONTACT: Gwena Kay Tibbits, Chief, Program Administration Branch, (703) 756–3660.

SUPPLEMENTARY INFORMATION:

Classification

These regulations have been reviewed under Executive Order 12291 and have been classified as "non-major." The provisions of Titles I and II of Public Law 98–8 implemented by these rules are considered as separate actions, neither of which will have an annual effect on the economy of $100 million or more nor will they cause a major increase in costs or price for consumers; individual industries; Federal, State or local government agencies; or geographic regions. The actions will not have significant adverse effects on competition, employment, investment productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

This rule has been reviewed with regard to the Regulatory Flexibility Act (Pub. L. 96–354). Robert E. Leard, Administrator of the Food and Nutrition Service, has certified that this action will not have a significant economic impact on a substantial number of small entities.

Robert E. Leard has also determined pursuant to 5 U.S.C. 533 (b) and (c) that good cause exists for making these rules effective earlier than 30 days after publication. Public Law 98–8 mandates emergency food assistance programs to address immediate problems among unemployed and low-income persons. Section 210 of the legislation requires the Secretary to issue regulations implementing its provisions within 30 days of enactment of Public Law 98–8 on March 24, 1983. However, public comments are solicited on these provisions and appropriate changes will be made on the basis of comments received. Mr. Leard has also determined that an emergency situation exists for making these regulations effective without the benefit of prior public comments.

I. Legislative Background

Title I of Public Law 98–8 appropriates $75 million for the purchase and distribution of perishable agricultural commodities to States for use in areas of high unemployment. These commodities are to be distributed to cooperative emergency feeding facilities which provide nutrition services to indigent persons. Title II of Public Law 98–8 is the "Temporary Emergency Food Assistance Act of 1983." Title II provides for distribution of surplus agricultural commodities to various outlets. Title II also appropriates $50 million for the cost of distribution and storage of commodities. At least $10 million of these funds are to be given by State agencies to certain outlets for costs incurred in providing commodities to relieve situations of emergency and distress to needy persons, including low-income and unemployed persons. Public Law 98–8 also contains provisions for supplemental funding of administrative expenses for the Commodity Supplemental Food Program (Section 209) and for the encouragement of processing agreements (Sections 203). Implementations of these sections will be addressed separately.

II. Discription of Regulations

Part 251 sets forth the basic terms to implement a temporary program. Donations of commodities under these regulations will be made until the authorities for such donations expire on September 30, 1983. At that time, donations of commodities will continue pursuant to the legislative authorities governing distribution of USDA commodities in effect prior to enactment of Public Law 98–8.

Within the State, traditional outlets, such as schools and charitable institutions, are eligible to receive donated commodities under Title II of Public Law 98–8. Distribution of commodities to those outlets will be carried out in accordance with existing agreements under Part 250. Commodities provided under Title II will also be made available to another group of outlets called emergency feeding organization, which includes organizations such as soup kitchens, temporary shelters, hunger centers for indigent persons and food banks. In order to receive funds for storage and distribution costs incurred in connection with distributions to emergency feeding organizations, the State will be required to enter into a new agreement under Part 251. Any organization which meets both the charitable institution requirements for Part 250 and the requirements for an emergency feeding organization under Part 251, may receive commodities under both Part 250 and Part 251 agreements. However, only those costs incurred in connection with the distribution of commodities to and by emergency feeding organizations under a new Part 251 agreement will be eligible for the funding provided by Title II of Public Law 98–8.

These interim rules amend the Food Distribution Program Regulations (7 CFR Part 250) and establish new regulations under 7 CFR Part 251 to implement the provisions of Public Law 98–8. An analysis of the major provisions of these rules follows.

Title I Commodities

Title I of Public Law 98–8 makes available $75 million for the purchase of perishable agricultural commodities through surplus removal operations. Section 251.3(h) of the regulations establishes a definition of these "Title I commodities."

These commodities will be distributed to emergency feeding organizations which operate cooperative emergency feeding facilities for indigent persons. "Cooperative emergency feeding organization" and "emergency feeding

organization" are defined by § 251.3 (c) and (e) of the regulations.

Section 251.4(b)(2) indicates that each State will receive an allocation of Title I commodities based on the number of unemployed persons in the State. Appendix A of the regulations sets forth the allotments for each State.

Title II Commodities

Section 202 of Public Law 98–8 requires the Secretary to determine the availability of Commodity Credit Corporation commodities which are in excess of the amount needed to (1) carry out the payment-in-kind (PIK) program, (2) maintain the United States share of world markets, and (3) meeting international market development and food aid commitments.

The Secretary will determine the types and amounts of commodities which are available. These commodities are defined by § 251.3(i) of the regulations as "Title II commodities." Section 251.4(b) of the regulations states that the Department will announce the availability of Title II commodities and the Food and Nutrition Service will notify State agencies concerning their allocations of available commodities. State agencies will then inform the Department concerning the amount of Title II commodities requested and the arrangements for distribution.

Section 202 of Public Law 98–8 requires that Title II commodities be distributed to "eligible recipient agencies." Section 251.3(d) of the regulations defines eligible recipient agencies. The definition includes all those organizations which are considered eligible to receive donated surplus USDA commodities under the terms and conditions of Part 250, as well as food banks or food bank-type organizations which distribute commodities to individuals for household consumption.

Funding for Distribution of Commodities

Section 204 of Public Law 98–8 requires the Department to make available to States $50 million for costs incurred in storing and distributing commodities to certain organizations. These organizations ("emergency feeding organizations") are defined by § 251.3(e) of the regulations to include any "eligible recipient agency" which provides nutrition assistance to relieve situations of emergency and distress through the provision of food to needy persons, including low-income and unemployed persons.

The definition of "emergency feeding organization" does not include eligible recipient agencies such as schools and certain charitable institutions. The legislative history of Public Law 98–8 indicates that Congress intended these funds to be used to defray costs of distribution to emergency and distress type feeding facilities whose primary purpose is the provision of food in emergency and distress situations to needy persons. Therefore "emergency feeding organization" has been defined to include soup kitchens, temporary shelters, hunger centers for indigent persons and food banks.

Section 204 of Public Law 98–8 and Section 251.6 of the regulations provide that at least $10 million of the $50 million appropriation be allocated by States to emergency feeding organizations for actual costs of storage and distribution of Title I and Title II commodities incurred by those organizations.

Section 251.6 of the regulations also implements the statutory requirements that funds given to emergency feeding organizations not exceed 5 percent of the value of commodities distributed by those organizations. Section 251.6(d)(3) limits the amount of advance payments that shall be made to emergency feeding organizations. In general, funds will be made available to State agencies on a reimbursement basis. Advance payments to State agencies will be available for emergency feeding organizations which have demonstrated their need for advance payments.

Allocation of $50 Million Among States

Because the primary objective of Public Law 98–8 is to assist low-income persons, particularly those affected by unemployment, the $50 million will be apportioned among States on the basis of the following formula: (1) the number of households with incomes below the poverty level (60%) and (2) the number of unemployed persons (40%).

Because Public Law 98–8 was enacted as an emergency relief measure to address problems created by proverty and unemployment, the Department determined it was appropriate to use these factors in identifying areas most in need of emergency relief.

Administration

Section 251.2 of this rule provides that (1) distribution of surplus commodities under Part 251 to traditional recipient agencies such as schools, hospitals and correctional institutions is the responsibility of the State's present distributing ageny for donations to these outlets, and (2) distribution of commodities to emergency feeding organizations and receipt of payments for storage and distribution is the responsibility of a State agency, designated by the Governor or other appropriate State executive authority, which has entered into the required agreement as the distributing agency for that purpose. This allows a State, in cases where the present State distributing agency does not choose to take on the added responsibilities to designate another agency to administer the program. Section 251.3(f) defines "State agency" to include both of the above types of agencies.

Section 251.5(a) provides that State agencies shall determine which agencies are eligible to receive commodities under the regulation. Eligible recipient agencies that are already participating as recipient agencies under State commodity agreements under Part 250 will be considered as eligible under Part 251. However, a separate eligibility determination will be required for other potential eligible recipient agencies.

Section 251.4(c) provides that once the Department has announced the types and amounts of commodities available and FNS has notified States of their allocation, State agencies may place their requests for such commodities with FNS. State agencies may request the types and amounts of those commodities which can be utilized without waste.

Section 251.6(b) provides that funds made available to States shall be subject to the Department's uniform Federal Financial Assistance Regulations (7 CFR Part 3015). Those regulations implement OMB Circulars A–102 and A–110, pertaining to the administration of Federal grants and cooperative agreements.

Section 251.6(c) provides that payments will be made to each State agency within the State's apportionment by means of U.S. Treasury checks upon submission by the distributing agency of SF–270, Request for Advance or Reimbursement. The same section requires that any funds that are unobligated by the State as of September 30, 1983, shall be promptly returned to FNS.

Section 251.6(d) specifies proper use of funds and requires that not less than 20 percent of each State's apportionment be used to pay for actual storage and distribution costs incurred by emergency feeding organizations, in accordance with Section 204 of Public Law 98–8. In addition to the recordkeeping requirements of Part 250, State agencies and emergency feeding organizations under Part 251 will be required to document that, in accordance with Section 204, payments to emergency feeding organizations do not exceed 5 percent of the value of commodities distributed by such organizations.

Miscellaneous Provisions

Section 250.6(j) currently permits distributing agencies and subdistributing agencies to operate systems of assessments whereby recipient agencies are required to pay part or all of the intrastate cost of USDA food distribution. Section 208 of Public Law 98–8 requires that whenever a commodity is made available without charge or credit under any nutrition program administered by the Department, no State may charge recipient agencies any amount that is in excess of the State's direct costs of storing and transporting the commodities, minus any amount the Department provides the State for paying such costs. Appropriate amendments have been made to § 250.6(j). The amendment is effective for the period May 1, 1983 through September 30, 1983.

Section 250.13(b) of the regulations governing the Food Distribution Program has been amended to reflect the criminal penalties imposed by Public Law 98–8 for theft, embezzlement or fraudulent misapplication of commodities or of funds, assets or property deriving from donation of commodities.

List of Subjects in 7 CFR Parts 250 and 251

Aged, Agricultural commodities, Business and industry, Food assistance programs, Food donations, Grant programs, Social programs Indians, Infants and children, Price support programs, Reporting and recordkeeping requirements, School breakfast and lunch programs, Surplus agricultural commodities.

Accordingly, a new Part 251 is added to read as follows:

PART 251—TEMPORARY EMERGENCY FOOD ASSISTANCE PROGRAMS

Sec.

251.1 General purpose and scope.
251.2 Administration.
251.3 Definitions.
251.4 Availability of commodities.
251.5 Eligibility determinations.
251.6 Payment of funds for storage and distribution costs.
251.7 Miscellaneous provisions.

Appendix A—Allocation to States of $75 million in Commodities under Title I, Public Law 98–8 and Standard Metropolitan Statistical Areas with High Unemployment Rates—1982.

Appendix B—Apportionment to States of $50 million for Storage and Distribution Costs under Title II Public Law 98–8.

Authority: Title I and Secs. 202–208, Public Law 98–8.

§ 251.1 General purpose and scope.

This part announces the policies and prescribes the regulations necessary to carry out certain provisions of Public Law 98–8.

§ 251.2 Administration.

(a) Within the United States Department of Agriculture (the "Department"), the Food and Nutrition Service (FNS) shall have responsibility for the program of distribution of food commodities and apportionment of funds under this part.

(b) Within the States, distribution under this part to organizations eligible to participate as recipient agencies under Part 250 of this chapter shall be the responsibility of the State agency which has entered into an agreement under § 250.5(c) for such distribution. Distribution to emergency feeding organizations and receipt of payments for storage and distribution shall be the responsibility of the State agency which has: (1) Been designated for such responsibility by the Governor or other appropriate State executive authority and (2) entered into an agreement with the Department for such distribution and receipt in accordance with paragraph (c) of this section.

(c) Each State agency which has been designated to make distributions of donated foods to emergency feeding organizations and to receive payments for storage and distribution costs in accordanee with Section 251.6 of this part shall enter into an agreement with the Department.

§ 251.3 Definitions.

For the purposes of this part:

(a) The terms used in this part that are defined in Part 250 of this chapter shall have the meanings ascribed to them therein.

(b) "Area of high unemployment" means a civil jurisdiction with a high level of unemployment that has been so classified based on data provided by the Assistant Secretary for Employment and Training, United States Department of Labor.

(c) "Cooperative emergency feeding organization" means an emergency feeding organization which provides prepared food to need persons for consumption in a congregate setting.

(d) "Eligible recipient agencies" means disaster organizations, charitable institutions, nonprofit summer camps for children, school food authorities, schools, service institutions, welfare agencies, institutions with nutrition programs for the elderly, nonresidential child care institutions, and food banks and similar public or nonprofit institutions which distribute commodities to needy individuals for household consumption. The terms used in this definition shall be given the meaning ascribed to them by 7 CFR Part 250.3.

(e) "Emergency feeding organization" means any eligible recipient agency which provides nutrition assistance to relieve situations of emergency and distress through the provision of food to needy persons, including low-income and unemployed persons and which receives commodities under agreements pursuant to § 251.2(c). This definition includes cooperative emergency feeding organizations, soup kitchens, temporary shelters, hunger centers for indigent persons, and food banks.

(f) "State agency" means: (1) The State governmental unit designated by the Governor or other appropriate State executive authority which has entered into an agreement with the United States Department of Agriculture under § 251.2(c) and (2) the State governmental unit which has entered into an agreement to act as a distributing agency under 7 CFR Part 250.

(g) "Storage and distribution costs" means direct costs incurred by an emergency feeding organization or by a State for intrastate storage and transportation of any Title I or II commodity donated for use by an emergency feeding organization.

(h) "Title I commodities" means commodities distributed to States by the United States Department of Agriculture under the paragraph entitled "Distribution of Agricultural Commodities" in Title I of Public Law 98–8.

(i) "Title II commodities" means commodities distributed to States by the United States Department of Agriculture under Title of Public Law 98–8.

(j) "Value of commodities distributed" means the Department's cost of acquiring commodities for distribution under this part.

§ 251.4 Availability of commmodities.

(a) *General.* The Department shall make commodities available for distribution and use in accordance with the provisions of this part and also in accordance with the terms and conditions of Part 250 of this chapter to the extent that the latter terms and conditions are not inconsistent with this part.

(b) *Allocation.* Allocations of Title II commodities shall be made to State agencies on the basis of the historical patterns of utilization of USDA-donated commodities, number of unemployed persons, number of households with incomes below the poverty level, and

capacity and willingness to utilize the commodities without waste.

(1) FNS shall promptly notify State agencies regarding their allocation of Title II commodities to be made available under this part. (2) Allocations of Title I commodities shall be made to State agencies in accordance with each State's number of unemployed persons. States' allocations of Title I commodities, included as Appendix A, have been established on the basis of recent information in this regard provided by the Bureau of Labor Statistics, U.S. Department of Labor.

(c) *Requests.* After FNS notifies State agencies regarding their allocation of Title II commodities, State agencies shall request the types and amounts of those commodities which can be utilized without waste.

(d) *Processing and packaging.* The Department will furnish commodities to be distributed to institutions and to needy persons in households in forms and units suitable for institutional and home use.

(e) *Distribution.* (1) Title I surplus commodities shall be distributed under this part only to cooperative emergency feeding organizations in areas of high unemployment.

(2) Title II commodities may be distributed to any eligible recipient agency, except that the Department may, at its discretion, require State agencies to restrict distribution of such commodities to one or more classes of eligible recipient agencies.

§ 251.5 Eligibility determinations.

(a) *Eligible recipient agencies.* Prior to making distribution to agencies under this part, the State agency shall determine that they are eligible receipent agencies and shall enter into agreements in accordance with § 250.6(b) of this chapter when such agreements have not already been entered into.

(b) *Cooperative emergency feeding organizations.* To assist State agencies in targeting Title I commodities to cooperative emergency feeding organizations in areas of high unemployment, a list of areas of high unemployment is provided as Appendix A.

§ 251.6 Payment of funds for storage and distribution costs.

(a) *Availability and apportionment of funds.* For the period May 1, 1983, through September 30, 1983, FNS will make available $50,000,000 to States for storage and distribution costs in connection with Title I and Title II commodities donated for use by emergency feeding organizations. Each State shall receive an apportionment based on the number of persons in the State in households with incomes below the poverty level and the number of unemployed persons in the State. Total apportionments are provided in Appendix B.

(b) *Uniform Federal Assistance Regulations.* Funds provided under this section shall be subject to the Department's regulation issued under 7 CFR Part 3015.

(c) *Payments to States.* (1) Funds under this section shall be made available by means of U.S. Treasury Department checks in favor of the appropriate State agency. The State agency shall use any funds received without delay in accordance with paragraph (d) of this section. (2) Upon notification by the FNS Regional Office (FNSRO) that an agreement has been entered into in accordance with § 251.2(c) of this part, FNS shall promptly make funds available to each State agency within the State's apportionment upon submission by the State agency of SF–270, Request for Advance or Reimbursement. In general, funds will be made available to State agencies on a reimbursement basis. Advance payments to State agencies will be available for emergency feeding organizations which have demonstrated their need for advance payments. (3) Each State agency shall return to FNS any funds made available under this section which are unobligated as of September 30, 1983. Such return shall be made as soon as practicable but in no event later than 30 days following demand made by FNS.

(d) *Use of Funds.* (1) Each State shall make available at least 20 percent of the apportionment it receives under paragraph (a) of this section for payment of the actual storage and distribution costs incurred by emergency feeding organizations. The remaining amount of the apportionment may be retained by the States for use in paying the State agency's costs of storage and distribution to emergency feeding organizations. (2) States shall not make advance payments to emergency feeding organizations in amounts in excess of 35% of any projected payments to such organizations under paragraph (d)(1) as estimated by the State. (3) In no case shall payments to emergency feeding organizations paragraph (d)(1) of this section exceed 5 percent of the value of commodities distributed under this part by such emergency feeding organizations.

§ 251.7 Miscellaneous provisions.

(a) *Records.* (1) State agencies and eligible recipient agencies shall maintain records to document the receipt, disposal and inventory of commodities received under this part in accordance with requirements of §250.6(r) of this chapter.

(2) In addition to maintaining financial records in accordance with 7 CFR Part 3015, State agencies which receive funds under this part shall maintain records to document that the amount of funds paid to emergency feeding organizations for the actual storage and distribution costs incurred by any emergency feeding organization does not exceed 5 percent of the value of commodities distributed by such organization in accordance with § 251.6(d)(3) of this part. State agencies shall ensure that emergency feeding organizations maintain records as required by this paragraph.

(b) *Commodities not income.* Notwithstanding any provision of law, commodities distributed under this part shall not be considered income or resources for any purposes under any Federal, State, or local law.

(c) *Discrimination.* There shall be no discrimination in the distribution of foods donated under this part because of race, color, national origin, sex, age, or handicap.

(d) *Relationship to the Food Stamp Program.* Section 4(b) of the Food Stamp Act of 1977 shall not apply with respect to the distribution of commodities to households under this part.

The above figures are based on a 1982 national unemployment rate of 9.5%. SMSA's with at least 90% of that rate, or 8.5%, are in the above list. Source of this data is the Bureau of Labor Statistics, United States Department of Labor.

The 1982 unemployment rate for the District of Columbia was 10.6%.

APPENDIX A(2): STANDARD METROPOLITAN STATISTICAL AREAS WITH 90 PER CENT OF STATE OR NATIONAL UNEMPLOYMENT RATES

Third Page

The following States had no SMSA's with 90% or more of the national unemployment rate, but did have SMSA's with at least 90% of that state's unemployment rate for 1982:

STATE	RATE
Hawaii	
Honolulu	6.1
Kansas	
Topeka	6.7
Wichita	8.4
Montana	
Great Falls	8.4
Nebraska	
Omaha	7.0
New Hampshire	
Manchester	7.5
Portsmouth	7.0
North Dakota	
Bismarck	6.0
Grand Forks	6.5
Oklahoma	
Tulsa	6.1
Utah	
Provo	8.4
Salt Lake City	7.6
Vermont	
Statewide rate	7.2
Wyoming	
Casper	6.1

The following States had no SMSA's meeting any of the criteria; that is, no SMSA's with either 90% of either the national or subject state's 1982 unemployment rate:

Alaska
American Samoa
Guam
Idaho
Northern Marianas
South Dakota
Trust Territory
Virgin Islands

BILLING CODE 3410-30-C

PART 250—FOOD DISTRIBUTION PROGRAM

Accordingly, Part 250 is amended as follows:

1. In §250.1, paragraph (b) is amended by adding a new paragraph (21) to read as follows:

§ 250.1 General purpose and scope.

* * * * *

(b) Legislation * * *

(21) Section 202 of Public Law 98–8, which reads as follows:

Section 202.(a) Notwithstanding any other provision of law, commodities acquired by the Commodity Credit Corporation that are in excess of quantities needed for the fiscal year to carry out a payment-in-kind acreage diversion program, maintain U.S. share of world markets, and meet international market development and food aid commitments, shall be made available by the Secretary of Agriculture (hereinafter in this Act referred to as the "Secretary") without charge or credit in such fiscal year for use by eligible recipient agencies. Upon request, commodities provided by the CCC shall be provided in a form suitable for individual household or institutional use.

(b) Notwithstanding any other provision of law, if wheat stocks acquired by the Commodity Credit Corporation are not available for the purpose of this Act, up to 300,000 metric tons of wheat designated under section 302(b)(1) of the Food Security Wheat Reserve Act of 1980 shall be used for the purposes of this Act. Any amount of wheat used from the Food Security Wheat Reserve under this Act shall be replenished by an equivalent quantity of wheat under the provisions of section 302(b) of the Food Security Wheat Reserve Act of 1980 as soon as practicable, but before December 31, 1983.

* * * * *

2. In Section 250.6, paragraph (j) is revised to read as follows:

§ 250.6 Obligations of distributing agencies.

* * * * *

(j) *Distribution charges.* (1) Except as provided in paragraph (j)(2) of this section, recipient agencies may be required to pay part or all of the intrastate costs of distribution through a system of charges assessed by distributing or subdistributing agencies. Any system of assessment operated by the distributing or subdistributing agency shall have the prior approval of and be subject to review by the FNSRO. The charges assessed shall be used solely in accordance with the provisions of paragraph (f) of this section.

(2) For the period May 1, 1983 through September 30, 1983, whenever a commodity is donated to a State without charge or credit against entitlement, recipient agencies may not be assessed for any part of the intrastate costs of storage and transportation of such commodity that is in excess of the distributing or subdistributing agency's direct costs for such storage and transportation minus any amount that the Department provides to the State to pay such costs under Part 251 of this chapter.

(3) Under no circumstance shall recipients be required to make any payments in money, materials, or services for or in connection with the receipt of donated foods, nor shall voluntary contributions be solicited in connection with the receipt of donated foods for any purpose.

* * * * *

§250.13 [Amended]

3. In Section 250.13, paragraph (b) is amended by:

a. Removing the words "authorized under the National School Lunch Act, as amended, or the Child Nutrition Act of 1966, as amended" in the first sentence;

b. Adding the words "or section 4(c) of the Agriculture and Consumer Protection Act of 1973, as amended" after the words "section 12(g) of the National School Lunch Act, as amended" at the end of the first sentence; and

c. Adding the words "or section 4(c)" after the words "section 12(g)" each time they appear thereafter in paragraph (b).

* * * * *

(Title I and Secs. 202–208, Public Law 98–8)

(Catalog of Federal Domstic Assistance No. 10.550.)

Effective Date: These regulations are effective as of May 1, 1983.

Dated April 22, 1983.

Richard E. Lyng,

Deputy Secretary.

Now Available 1980-1981 Microfilm Editions of the Federal Register

The microfilm editions of the **Federal Register** for 1980 and 1981 (volumes 45 and 46) are now available at a cost of $735. These volumes cover 150,566 pages, the annual indexes, and the quarterly indexes of the List of CFR Sections Affected. Volume 45, the 1980 edition, is available on 26 rolls of microfilm at a cost of $390. Volume 46, the 1981 edition, is on 23 rolls and costs $345. The entire microfilm publication (M190), now comprising 410 rolls and spanning the years 1936–1981, is for sale at $6,150. Further information concerning the 1980–81 volumes or any other volumes may be obtained from the Publications Sales Branch (NEPS), National Archives and Records Service, Washington, D.C. 20408.

Institutions or business may place their orders directly with NEPS. The **Federal Register** is filmed on 35 mm. roll film only.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $300.00 per year, or $150.00 for six months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

Rules and Regulations

Federal Register
Vol. 48, No. 82
Wednesday, April 27, 1983

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 991

Hops of Domestic Production; Final Salable Quantity and Allotment Percentage for the 1983–84 Marketing Year

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Emergency final rule.

SUMMARY: This emergency final rule establishes the quantity of hops that may be freely marketed from the 1983 crop to promote orderly marketing conditions under the marketing order for domestic hops.

EFFECTIVE DATE: August 1, 1983 through July 31, 1984.

FOR FURTHER INFORMATION CONTACT: J. S. Miller, Chief, Specialty Crops Branch, Fruit and Vegetable Division, AMS, USDA, Washington, D.C. 20250, (202) 447–5697.

SUPPLEMENTARY INFORMATION: This final rule has been reviewed under USDA guidelines implementing Executive Order 12291 and Secretary's Memorandum No. 1512–1 and has been classified a "non-major" rule under criteria contained therein.

William T. Manley, Deputy Administrator, Agricultural Marketing Service, has certified that this action will not have a significant economic impact on a substantial number of small entities because it would result in only minimal costs being incurred by the regulated seventeen handlers.

It is found that it is impractical, unnecessary, and contrary to the public interest to give preliminary notice because an emergency situation exists which warrants publication without opportunity for a public comment period on this emergency final action. Growers have until March 31, 1983, to transfer allotment base to other growers. Moreover, handlers and growers are making preparations for handling and growing 1983 crop hops. Hence, it is critical that they know as soon as possible what salable quantity and allotment percentage will be effective for the 1983–84 marketing year so they can plan their operations accordingly.

The salable quantity and allotment percentage would be established in accordance with the provisions of Marketing Order No. 991, as amended (7 CFR Part 991), regulating the handling of hops of domestic production, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The rule was recommended by the Hop Administrative Committee.

The salable quantity for the ensuing marketing year is based upon a recommendation of the Committee, and the following estimates for the marketing year beginning August 1, 1983:

(1) Total domestic consumption of 43,000,000 pounds of hops;

(2) Minus imports of 16,000,000 pounds of hops to result in domestic consumption of U.S. hops of 27,000,000 pounds;

(3) Plus total exports of 41,500,000 pounds of hops to equal 68,500,000 pounds total usage of U.S. hops;

(4) Plus 2,000,000 pounds to adjust for weight loss of hops processed into pellets and extract;

(5) Minus inventory adjustment of 7,355,000 pounds; and

(6) Plus an adjustment of 15,109,649 pounds to provide for adequate supplies should some producer allotments not be fully produced.

(7) This results in a salable quantity for the 1983–84 marketing year of 78,254,649 pounds.

The salable percentage of 130 percent is computed by subtracting from this salable quantity a total of 1,203,809 pounds for additional allotment bases for hops of the Fuggle variety granted pursuant to § 991.38(b) and § 991.138(c) and dividing the remainder by 59,269,877 pounds, the total of all other allotment bases.

After consideration of all relevant matter presented, including the information and recommendations submitted by the Committee, and other available information it is further found that to establish a salable quantity and allotment percentage, as hereinafter set forth, will tend to effectuate the declared policy of the act.

Therefore, the salable quantity and allotment percentage to be applicable to the 1983–84 marketing year [August 1, 1983–July 31, 1984] are established as follows: [The following section will not be published in the Code of Federal Regulations].

§ 991.221 Allotment percentage and salable quantity for hops during the marketing year beginning August 1, 1983.

The allotment percentage during the marketing year beginning August 1, 1983, shall be 130 percent, and the salable quantity shall be 78,254,649 pounds.

7 CFR Part 1046

[Milk Order No. 46]

Milk in the Louisville-Lexington-Evansville Marketing Area; Order Suspending Certain Provisions of the Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Suspension of rules.

SUMMARY: This action suspends for 1983 the "take-out/pay-back" (Louisville) plan for paying producers under the Louisville-Lexington-Evansville milk order. The intent of the plan is to encourage level milk production throughout the year. Under the plan, 40 cents per hundredweight is withheld from payments to producers for milk deliveries during April through July, when milk supplies are normally abundant. The money is then added to the marketwide pool for distribution to producers during September through December, when milk supplies are relatively short. The suspension was requested by Dairymen, Inc., a

cooperative association that represents a large portion of the producers supplying the market. The request was made at a public hearing held February 15, 1983, to consider replacing the order's Louisville plan with a seasonal base-excess payment plan.

EFFECTIVE DATE: April 27, 1983.

FOR FURTHER INFORMATION CONTACT: Richard A. Glandt, Marketing Specialist, Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, (202) 447–4829.

SUPPLEMENTARY INFORMATION: Prior document in this proceeding:

Notice of Hearing: Issued January 25, 1983; published January 28, 1983 (48 FR 3992).

It has been determined that this suspension is not a major action under the criteria set forth in Executive Order 12291.

It also has been determined that the need for suspending certain provisions of the order on an emergency basis precludes following certain review procedures set forth in Executive Order 12291. Such procedures would require that this document be submitted for review to the Office of Management and Budget at least 10 days prior to its publication in the **Federal Register**. However, this would not permit the completion of the required suspension procedures in time to preclude the Louisville plan take-out money from being withheld from producer payments for their milk deliveries in April 1983. The initial request for this action was made at a public hearing on proposed amendments to the order that was held on February 15, 1983. Announcement of the suspension action was not appropriate until it was determined whether to recommend the adoption of a base-excess plan to replace the Louisville plan.

William T. Manley, Deputy Administrator, Agricultural Marketing Service, has certified that this action will not have a significant economic impact on a substantial number of small entities. Under the suspension, monies normally withheld from payments to producers in accordance with the Louisville plan will be paid instead to such producers. Also, the suspension will have no effect on regulated handlers since the action affects only the manner in which the proceeds from milk sales are distributed to producers.

This order of suspension is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and of the order regulating the handling of milk in the Louisville-Lexington-Evansville marketing area.

It is hereby found and determined that the following provisions of the order do not tend to effectuate the declared policy of the Act:

In § 1046.61, the provisions in paragraph (g) in their entirety.

Statement of Consideration

This action suspends the operation of the "Louisville" payment plan during 1983. The suspension, which is based on evidence received at a public hearing held on February 15, 1983, at Louisville, Kentucky, was requested by Dairymen, Inc. (DI), a cooperative representing a large portion of the producers supplying the market.

Under the Louisville plan, 40 cents per hundredweight is withheld from payments to producers for their milk deliveries in the months of April through July when milk supplies are normally abundant. That money is then distributed to producers through the marketwide "blend" prices for the following months of September through December when supplies are seasonally lower. The purpose of the plan is to encourage dairy farmers to produce about the same amount of milk for the market each month.

A proposal by Dairymen, Inc., to replace the order's current Louisville plan with a seasonal base-excess plan for paying producers was considered at the recent hearing. At the conclusion of the hearing, the proponent cooperative asked that the current take-out provisions of the Louisville plan be suspended before any money is deducted from payments to producers during the 1983 take-out months. He stated that if the take-out provisions are not suspended, the money would be deducted from payments to producers under the provisions of the Louisville plan and then there would be no provisions for paying the money back to producers if a new seasonal base-excess plan becomes effective by September 1, 1983.

A tentative decision recommending the replacement of the Lousiville plan with a seasonal base-excess plan is being issued concurrently with this suspension order. If issued, an order incorporating the base-excess provisions into the Federal order most likely would be made effective by September 1, 1983, which would be the beginning of the first base-forming period under the new base plan. In that case, the operation of the Louisville plan would have resulted in money being withheld from producer payments for their deliveries during April through July. However, the order provisions to return the money to producers through the blend prices for the months of September through December would no longer exist, because the Louisville plan provisions would have been replaced with the provisions of a seasonal base-excess plan.

In view of the foregoing, it is appropriate to suspend the take-out provisions for 1983 pending completion of the amendment proceeding. This action will promote an orderly transition from the Louisville plan to a seasonal base-excess plan should the latter plan eventually be implemented under the order.

It is hereby found and determined that thirty days' notice of the effective date hereof is impractical, unnecessary and contrary to the public interest in that:

(a) This suspension is necessary to reflect current marketing conditions and to maintain orderly marketing of milk in the marketing area. This action will provide an orderly transition from the current Louisville plan to a seasonal base-excess plan that is being considered for this market;

(b) This suspension does not require of persons affected substantial or extensive preparation prior to the effective date; and

(c) The basis for this action was explored fully at a public hearing held on February 15, 1983. All interested parties had an opportunity to present their views regarding a suspension of the take-out provisions of the Louisville plan. No one opposed DI's suspension request at the hearing or in briefs.

Therefore, good cause exists for making this order effective upon publication in the **Federal Register**.

List of Subjects in 7 CFR Part 1046

Milk marketing orders, Milk, Dairy products.

PART 1046—[AMENDED]

§ 1046.61 [Amended]

It is therefore ordered, That in § 1046.61, the provisions in paragraph (g) in their entirety are hereby suspended.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: April 27, 1983.

Signed at Washington, D.C., on April 22, 1983.

John E. Ford,

Deputy Assistant Secretary, Marketing and Inspection Services.

BILLING CODE 3410–02–M

Farmers Home Administration

7 CFR Part 1955

Purchasing of Services for Program Property

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration (FmHA) is removing from the Code of Federal Regulations (CFR) its regulation regarding procurement of goods and services for inventory property and program services. This regulation is being removed since the portions of it that affect the public are contained elsewhere in the CFR. The intended effect of this action is to remove an unneeded regulation from the CFR.

EFFECTIVE DATE: April 27, 1983.

FOR FURTHER INFORMATION CONTACT: Edward W. Nidever, Realty Specialist, Property Management Branch, Servicing and Property Management Division, Farmers Home Administration, USDA, Room 6342, South Agriculture Building, Washington, D.C. 20250, telephone (202) 382-1452.

SUPPLEMENTARY INFORMATION: This final action has been reviewed under USDA procedures established in Secretary's Memorandum 1512-1 to implement Executive Order 12291, and has been determined to be exempt from those requirements because it involves only internal Agency management. Certain aspects of the regulation are provided in the regulations issued by the General Services Administration, as contained in 41 CFR Chapter 1, and the U.S. Department of Agriculture, as contained in 41 CFR Chapter 4, publication of the Agency regulation is not necessary.

It is the policy of this Department to publish for comment rules relating to public property, loans, grants, benefits or contracts notwithstanding the exemption in 5 U.S.C. 553 with respect to such rules. This action, however, is not published for proposed rulemaking since the purpose of this change involves Agency management, and publication for comments is unnecessary.

This regulation does not directly affect any FmHA programs or projects which are subject to A-95 clearinghouse review.

This document has been reviewed in accordance with FmHA Instruction 1901-G, "Environmental Impact Statement." It is the determination of FmHA that this action does not constitute a major Federal action significantly affecting the quality of the human environment and in accordance with the National Environmental Policy Act of 1969, Public Law 91-190, an Environmental Impact Statement is not required.

This action does not affect any programs listed in the current Catalog of Federal Domestic Assistance (CFDA).

BILLING CODE 3410-07-M

FEDERAL ELECTION COMMISSION

11 CFR Parts 100, 110, and 9003

Candidate's Use of Property In Which Spouse Has an Interest

AGENCY: Federal Election Commission.

ACTION: Final rule; Transmittal of Regulations to Congress.

SUMMARY: The Commission has transmitted regulations to Congress to govern the application of the Federal Election Campaign Act of 1971, as amended (2 U.S.C. 431 *et seq.*), to a federal candidate's use of property in which his or her spouse has an interest. The regulations address the definitions of "contribution" and of "personal funds" of a candidate.

2 U.S.C. 438(d) requires that any rule or regulation proposed by the Commission to implement Chapter 14 of Title 2, United States Code be transmitted to the Speaker of the House and the President of the Senate prior to final promulgation. If neither House of Congress disapproves the regulation within 30 legislative days after its transmittal, the Commission may finally prescribe the regulations in question. The following regulations were transmitted to Congress on April 22, 1983.

EFFECTIVE DATE: Further action, including the announcement of an effective date will be taken after the regulations have been before Congress 30 legislative days in accordance with 2 U.S.C. 438(d).

FOR FURTHER INFORMATION CONTACT: Susan E. Propper, Assistant General Counsel, 1325 K Street NW., Washington, D.C. 20463, (202) 523-4143 or (800) 424-9530.

SUPPLEMENTARY INFORMATION: On July 20, 1982, the Commission published a Notice of Proposed Rulemaking amending and adding to the regulations pertaining to a candidate's use of property in which the spouse has an interest. (47 FR 31390, July 20, 1982) No public comments were received during the thirty day comment period.

Explanation and Justification of Regulations Concerning a Candidate's Use of Property in Which Spouse has an Interest

The revisions primarily address two situations involving loans obtained by the candidate for use in a campaign. In the first situation, the loan is acquired on the basis of property owned jointly with the candidate's spouse. In the second situation, the signature of the spouse is required on the loan instrument to waive some statutory non-ownership interest such as dower or curtesy. A third situation covered by these revisions involves the drawing of funds from assets such as jointly held bank accounts or the proceeds from liquidating jointly held stock.

The revisions carve out a narrow area to allow for the use of property in which the candidate's spouse has an interest or

to allow for spousal signature on a loan without violating the contribution limits. This is implemented in 11 CFR 100.7(a)(1)(i) by adding a new subsection (D) which states that a signatory spouse will not be considered a contributor if the value of the candidate's share of the property used as collateral or as a basis for the loan equals or exceeds the amount of the loan to be used for the candidate's campaign. In addition, the standard set out in subsection (D) is applied as an exception to those parts of §§ 100.7(b)(11) and 100.8(b)(12) which classify endorsers and guarantors as contributors.

The revisions also clarify the definition of "personal funds" of a candidate as set out in §§ 110.10(b) and 9003.2(c)(3). By changing the term "right of beneficial enjoyment" to "equitable interest" the Commission is using a term which more specifically applies to an ownership or pecuniary interest that is not one of legal title. By reordering the criteria defining "personal funds," it is made clear that the criteria of "legal and rightful title" and "equitable interest" must each be linked with "legal right of access to or control over." The latter criterion is the standard set out in the legislative history of the 1974 Amendments to 18 U.S.C. 608 pertaining to the limitations of expenditures of personal funds by a candidate, also cited in *Buckley v. Valeo*, 424 U.S. 1, 51, 52, n.57.

Finally, the revisions add a subsection (3) to the "personal funds" definition in 11 CFR 110.10(b) and a subsection (iii) to the "personal funds" definition in § 9003.2(c)(3) in order to address the concept of "personal funds" in joint ownership situations. These new provisions permit a candidate to use the full value of his or her share of assets jointly owned with a spouse without the spouse being considered a contributor. If there is no written instrument indicating the candidate's ownership share of the property, the candidate will be considered to own one-half of the value of the property under these rules. This 50% rule would apply in community property states, as well as in non-community property states.

11 CFR Chapter I is Amended to Read as Follows:

PART 100—[AMENDED]

1. 11 CFR 100.7(a)(1)(i)(C) is revised to read as follows:

§ 100.7 [Amended]

(a) * * *
(1) * * *
(i) * * *

(C) Except as provided in (D), a loan is a contribution by each endorser or guarantor. Each endorser or guarantor shall be deemed to have contributed that portion of the total amount of the loan for which he or she agreed to be liable in a written agreement. Any reduction in the unpaid balance of the loan shall reduce proportionately the amount endorsed or guaranteed by each endorser or guarantor in such written agreement. In the event that such agreement does not stipulate the portion of the loan for which each endorser or guarantor is liable, the loan shall be considered a loan by each endorser or guarantor in the same proportion to the unpaid balance that each endorser or guarantor bears to the total number of endorsers or guarantors.

* * * * *

2. 11 CFR 100.7(a)(1)(i)(D) is redesignated as 11 CFR 100.7(a)(1)(i)(E) and 11 CFR 100.7(a)(1)(i)(D) is added as follows:

(a) * * *
(1) * * *
(i) * * *

(D) A candidate may obtain a loan on which his or her spouse's signature is required when jointly owned assets are used as collateral or security for the loan. The spouse shall not be considered a contributor to the candidate's campaign if the value of the candidate's share of the property used as collateral equals or exceeds the amount of the loan which is used for the candidate's campaign.

* * * * *

3. 11 CFR 100.7(b)(11) is revised to read as follows:

* * * * *

(b) * * *

(11) A loan of money by a State bank, a federally chartered depository institution (including a national bank) or a depository institution whose deposits and accounts are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or the National Credit Union Administration is not a contribution by the lending institution if such loan is made in accordance with applicable banking laws and regulations and is made in the ordinary course of business. A loan will be deemed to be made in the ordinary course of business if it: bears the usual and customary interest rate of the lending institution for the category of loan involved; is made on a basis which assures repayment; is evidenced by a written instrument; and is subject to a due date or amortization schedule. Such loans shall be reported by the political committee in accordance with 11 CFR 104.3(a). Each endorser or guarantor shall be deemed to have contributed that portion of the total amount of the loan for which he or she agreed to be liable in a written agreement, except that, in the event of a signature by the candidate's spouse, the provisions of 11 CFR 100.7(a)(1)(i)(D) shall apply. Any reduction in the unpaid balance of the loan shall reduce proportionately the amount endorsed or guaranteed by each endorser or guarantor in such written agreement. In the event that such agreement does not stipulate the portion of the loan for which each endorser or guarantor is liable, the loan shall be considered a contribution by each endorser or guarantor in the same proportion to the unpaid balance that each endorser or guarantor bears to the total number of endorsers or guarantors. For purposes of 11 CFR 100.7(b)(11), an overdraft made on a checking or savings account shall be considered a contribution by the bank or institution unless: the overdraft is made on an account which is subject to automatic overdraft protection; the overdraft is subject to a definite interest rate which is usual and customary; and there is a definite repayment schedule.

* * * * *

4. 11 CFR 100.8(b)(12) is revised to read as follows:

§ 100.8 Expenditures (2 U.S.C. 431(9)).

* * * * *

(b) * * *

(12) A loan of money by a State bank, a federally chartered depository institution (including a national bank) or a depository institution whose deposits and accounts are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or the National Credit Union Administration is not an expenditure by the lending institution if such loan is made in accordance with

applicable banking laws and regulations and is made in the ordinary course of business. A loan will be deemed to be made in the ordinary course of business if it: bears the usual and customary interest rate of the lending institution for the category of loan involved; is made on a basis which assures repayment; is evidenced by a written instrument; and is subject to a due date or amortization schedule. Such loans shall be reported by the political committee in accordance with 11 CFR 104.3(a). Each endorser or guarantor shall be deemed to have contributed that portion of the total amount of the loan for which he or she agreed to be liable in a written agreement, except that, in the event of a signature by the candidate's spouse, the provisions of 11 CFR 100.7(a)(1)(i)(D) shall apply. Any reduction in the unpaid balance of the loan shall reduce proportionately the amount endorsed or guaranteed by each endorser or guarantor in such written agreement. In the event that the loan agreement does not stipulate the portion of the loan for which each endorser or guarantor is liable, the loan shall be considered an expenditure by each endorser or guarantor in the same proportion to the unpaid balance that each endorser or guarantor bears to the total number of endorsers or guarantors. For the purpose of 11 CFR 100.8(b)(12), an overdraft made on a checking or savings account shall be considered an expenditure unless: the overdraft is made on an account which is subject to automatic overdraft protection; and the overdraft is subject to a definite interest rate and a definite repayment schedule.

* * * * *

PART 110—CONTRIBUTION AND EXPENDITURE LIMITATIONS AND PROHIBITIONS

5. 11 CFR 110.10(b)(1) is revised to read as follows:

§ 110.10 [Amended]

* * * * *

(b) * * *

(1) Any assets which, under applicable state law, at the time he or she became a candidate, the candidate had legal right of access to or control over, and with respect to which the candidate had either:

(i) Legal and rightful title, or

(ii) An equitable interest.

6. 11 CFR 110.10(b)(3) is added to read as follows:

* * * * *

(b) * * *

(3) A candidate may use a portion of assets jointly owned with his or her spouse as personal funds. The portion of the jointly owned assets that shall be considered as personal funds of the candidate shall be that portion which is the candidate's share under the instrument(s) of conveyance or ownership. If no specific share is indicated by an instrument of conveyance or ownership, the value of one-half of the property used shall be considerd as personal funds of the candidate.

PART 9003—ELIGIBILITY FOR PAYMENTS

7. 11 CFR 9003.2(c)(3) is revised to read as follows:

§ 9003.2 Candidate certificates.

* * * * *

(c) * * *

(3) For purposes of this section, the terms "personal funds" and personal funds of his or her immediate family" mean—

(i) Any assets which, under applicable state law, at the time he or she became a candidate the candidate had legal right of access to or control over, and with respect to which the candidate, had either:

(A) Legal and rightful title, or

(B) An equitable interest.

(ii) Salary and other earned income from bona fide employment; dividends and proceeds from the sale of the candidate's stocks or other investments; bequests to the candidate; income from trusts established before candidacy; income from trusts established by bequest after candidacy of which the candidate is a beneficiary; gifts of a personal nature which had been customarily received prior to candidacy; proceeds from lotteries and similar legal games of chance.

(iii) A candidate may use a portion of assets jointly owned with his or her spouse as personal funds. The portion of the jointly owned assets that shall be considered as personal funds of the candidate shall be that portion which is the candidate's share under the instrument(s) of conveyance or ownership. If no specific share is indicated by any instrument of conveyance or ownership, the value of one-half of the property used shall be considered as personal funds of the candidate.

BILLING CODE 6715-01-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Part 271

[Docket No. RM79-76-143 (Texas—20 Addition); Order No. 291]

High-Cost Gas Produced From Tight Formations; Final Rule

Issued: April 21, 1983.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Final rule.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determined that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This final order adopts the recommendation of the Railroad Commission of Texas that the Monte Christo, South (9000') Formation be designated as a tight formation under § 271.703(d).

EFFECTIVE DATE: This rule is effective May 23, 1983.

FOR FURTHER INFORMATION CONTACT: Steven Ross (202) 357-8571 or Walter Lawson (202) 357-8556.

SUPPLEMENTARY INFORMATION: The Commission hereby amends § 271.703(d) of its regulations to include the Monte Christo, South (9000') Formation underlying land in Hidalgo County, Texas, as a designated tight formation eligible for incentive pricing under § 271.703. The amendment was proposed in a Notice of Proposed Rulemaking by the Director, Office of Pipeline and Producer Regulation, issued November 1, 1982 (47 FR 50300, November 5, 1982) [1] based on a recommendation by the Railroad Commission of Texas (Texas) in accordance with § 271.703, that the Monte Christo, South (9000') Formation, an addition to the Monte Christo

[1] Comments were invited on the proposed rule and one comment supporting the recommendation was received. No party requested a public hearing and no hearing was held.

Vicksburg (9000') Formation,[2] be designated as a tight formation.

Evidence submitted by Texas supports the assertion that the Monte Christo, South (9000') Formation meets the guidelines contained in § 271.703(c)(2). The Commission adopts the Texas recommendation.

The amendment shall become effective May 23, 1983.

List of Subjects in 18 CFR Parts 271

Natural gas, Incentive price, Tight formations.

(Department of Energy Organization Act, 42 U.S.C. 7101 *et seq.*; Natural Gas Policy Act of 1978, 15 U.S.C. 3301–3432; Administrative Procedure Act, 5 U.S.C. 553)

In consideration of the foregoing, Part 271 of Subchapter H, Chapter I, Code of Federal Regulations, is amended as set forth below.

By the Commission.

Kenneth F. Plumb,

Secretary.

PART 271—[AMENDED]

Section 271.703 is amended by redesignating paragraph (d)((91)(i) as (d)(91)(i)(A) and by adding a new heading for paragraph (d)((91)(i), by redesignating paragraph (d)(91)(ii) as (d)(91)(i)(B), by revising the heading for paragraph (d)(91), and by adding a new paragraph (d)(91)(ii) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) *Designated tight formations.*

* * * * *

(91) Vicksburg (9000') Formation in Texas. RM79–76 (Texas—20).

(i) *Monte Christo Vicksburg 9000' Formation.*

* * * * *

(ii) *Monte Christo, South (9000') Formation.*

(A) *Delineation of formation.* The Monte Christo, South (9000') Formation is located in the southern portion of Hidalgo County, Texas, Railroad Commission District 4. The designated area includes the following surveys: Macedonia Jr. Vela No. 214, A–623; Tex.-Mex. R.R. No. 215, A–130; W. T. Bomar No. 218, A–626; Jas. L. Hudson, A–649; Walter A. Hoffhein, A–797; W. Fluazifop-Butyl; Tolerances for Pesticides

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: These rules establish food and feed additive regulations to permit residues of (±)-2-[4-[[5-(trifluoromethyl)-2-pyridinyl]oxy]phenoxy]propanoic acid (fluazifop), both free and conjugated, and of (±)-butyl 2[4-[[5-(trifluoromethyl)-2-pyridinyl]oxy]phenoxy]propanoate (fluazifop-butyl), all expressed as fluazifop, in or on certain food and feed commodities. These regulations to establish maximum permissible levels for residues of fluazifop and fluazifopbutyl, all expressed as fluazifop, in or on the commodities was requested, pursuant to a petition, by ICI Americas, Inc.

EFFECTIVE DATE: Effective on: April 27, 1983.

ADDRESS: Written objections may be submitted to the: Hearing Clerk (A–110), Environmental Protection Agency, Rm. 3708, 401 M St., SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Richard Mountfort, Registration Division (TS–767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 237, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703–557–1830).

SUPPLEMENTARY INFORMATION: EPA issued a notice, published in the **Federal Register** of March 16, 1983 (48 FR 11161), that announced that ICI Americas, Inc., Agricultural Chemicals Div., Wilmington, DE 19897, had submitted food/feed additive petition 3H5385 to the Agency proposing to amend 21 CFR Parts 193 and 561 by establishing regulations permitting residues of (±)-2-[4-[[5-(trifluoromethyl)-2-pyridinyl]oxy]phenoxy]propanoic acid (fluazifop) both free and conjugated, and of (±)-butyl 2-[4-[[5-(trifluoromethyl)-2-pyridinyl]oxy]phenoxy]propanoate (fluazifop-butyl), all expressed as fluazifop, in or on the food commodities (21 CFR Part 193) cottonseed oil at 0.2 part per million (ppm) and soybean oil at 2.0 ppm and in or on the feed commodities (21 CFR Part 561) cottonseed soapstock at 0.2 ppm and soybean meal and soapstock at 2.0 ppm.

There were no comments received in response to the notice of filing.

The data submitted in the petition and all other relevant material have been evaluated. The toxicological data considered in support of the tolerances in cottonseed and soybean oil is discussed in the notice establishing tolerances for fluazifop-butyl in soybeans, cottonseed, and animal tissues [PP 2F2630/R552] which appears elsewhere in today's **Federal Register.**

Based on the NOEL of 1 mg/kg in the rat chronic feeding study and a 100-fold safety factor, the acceptable daily intake (ADI) has been set at 0.01 mg/kg/day with a maximum permissible intake (MPI) of 0.6 mg/day for a 60-kg person. These tolerances have a theoretical maximum residue contribution (TRMC) of 0.0619 mg/day in a 1.5 kg diet and would utilize 10.32 percent of the ADI.

The nature of the residues is adequately understood and an adequate analytical method, high pressure liquid chromatography (HPLC) using an ultra-violet detector is available for enforcement purposes. Adequate tolerances for secondary residues in meat, milk, poultry and eggs resulting from this use of the pesticide are established in the above related document [PP 2F2630/R552]. There are currently no regulatory actions pending against the pesticide.

The pesticide is considered useful for the purpose for which the regulation is sought. It is concluded that the pesticide may be safely used in the prescribed manner when such use is in accordance with the label and labeling registered pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, (86 Stat. 973, 89 Stat. 751, U.S.C. 135(a) *et seq*) and is established as set forth below.

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96–534, 94 Stat. 1164, 5 U.S.C. 601–612), the Administrator has determined that regulations establishing new food or feed additive levels, or conditions for safe use of additives, or raising such food or feed additive levels do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (46 FR 24945).

(Sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 346(c)(1)))

List of Subjects in 21 CFR Part 193 and 561

Food additives, Animal feeds, Pesticides and pests.

Dated: April 15, 1983.

Edwin L. Johnson,

Director, Office of Pesticide Programs.

PART 193—[AMENDED]

Therefore, 21 CFR, Chapter I, is amended as follows:

1. In Part 193 by adding a new § 193.466 to read as follows:

§ 193.466 Fluazifop-butyl.

Tolerances are established for residues of (±)-2-[4-[[5-(trifluoromethyl)-2-pyridinyl]oxy]phenoxy]propanoic acid (fluazifop), both free and conjugated, and of (±)-butyl 2[4-[[5-(trifluoromethyl)-2-pyridinyl]oxy]phenoxy]propanoate (fluazifop-butyl), all expressed as fluazifop, in or on the following foods:

Foods	Parts per million
Cottonseed, oil	0.2
Soybean, oil	2.0

PART 561—[AMENDED]

2. In part 561 by adding a new § 561.428 to read as follows:

§ 561.428 Fluazifop-butyl.

Tolerances are established for residues of (±)-2-[4-[[5-(trifluoromethyl)-2-pyridinyl]oxy]phenoxy]propanoic acid (fluazifop), both free and conjugated, and of (±)-butyl 2[4-[[5-(trifluoromethyl)-2-pyridinyl]oxy]phenoxy]propanoate (fluazifop-butyl), all expressed as fluazifop, in or on the following feeds:

Feeds	Parts per million
Cottonseed, soapstock	0.2
Soybean, meal	2.0
Soybean, soapstock	2.0

BILLING CODE 6560-50-M

DEPARTMENT OF JUSTICE

Office of the Attorney General

28 CFR Part 0

[Order No. 1010–83]

Delegation of Authority to the Deputy Assistant Attorneys General of the Criminal Division

AGENCY: Department of Justice.

ACTION: Final rule.

SUMMARY: This order delegates authority to the Deputy Assistant Attorneys General of the Criminal Division to perform certain functions or duties pertaining to the Act to compensate law enforcement officers not employed by the United States who are killed or injured while in the process of apprehending persons suspected of committing federal crimes. It also delegates to the Assistant Attorney General of the Criminal Division authority to redelegate those functions and duties to the Chief of the Section in his Division which supervises the implementation of that Act.

EFFECTIVE DATE: April 18, 1983.

FOR FURTHER INFORMATION CONTACT: Roger B. Cubbage (202–724–6893), Deputy Chief for Legal Advice, General Litigation and Legal Advice Section, Criminal Division, Department of Justice, Washington, D.C 20530.

SUPPLEMENTARY INFORMATION: Sections 8191–8193 of Title 5 provide, *inter alia*, for compensation of a non-federal law enforcement officer or his survivors if the officer sustains a disabling personal injury or is killed while engaged in the "apprehension or attempted apprehension of any person * * * for the commission of a crime against the United States" or in the "lawful prevention of, or lawful attempt to prevent, the commission of a crime against the United States." 5 U.S.C. 8191(1)(A) and (3).

Claims under these provisions are made to the Department of Labor. Under 5 U.S.C. 8193(d) the Department of labor may seek the advice and assistance of the Attorney General of the United States in resolving any questions arising out of a particular claim.

The provisions of 28 CFR 0.58 currently authorize the Assistant Attorney General for the Criminal Division to exercise or perform any of the functions conferred upon the Attorney General by 5 U.S.C. 8191–8193.

In practice the claims are forwarded to the Criminal Division by the Department of Labor. An initial review and recommendation is made by the General Litigation and Legal Advice Section and forwarded to the Assistant Attorney General for the Criminal Division wherein it is reviewed by one of his deputies prior to his taking final action in the case. The procedure can be made more efficient by granting the power to give advice and assistance in the resolution of any questions raised by a particular claim under these provisions to Deputy Assistant Attorneys General in the Criminal Division or to the Chief of the Section within that division which is responsible for the initial review and recommendations.

This order is not a rule within the meaning of either Executive Order 12291, section 1(a), or the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*

List of Subjects in 28 CFR Part 0

Authority delegations (Government agencies), Government employees, Organization and functions (Government agencies).

PART 0—[AMENDED]

Accordingly, by the authority vested in me as Attorney General by 28 U.S.C. 509 and 510, and 5 U.S.C. 301, § 0.58 of Title 28 of the Code of Federal Regulations is hereby revised to read as follows:

§ 0.58 Delegation respecting payment of benefits for disability or death of law enforcement officers not employed by the United States.

The Assistant Attorney General in charge of the Criminal Division and his Deputy Assistant Attorneys General are each authorized to exercise or perform any of the functions or duties conferred upon the Attorney General by the Act to Compensate Law Enforcement Officers not Employed by the United States Killed or Injured While Apprehending Persons Suspected of Committing Federal Crimes (5 U.S.C. 8191, 8192, 8193). The Assistant Attorney General in charge of the Criminal Division is authorized to redelegate any function delegated to him under this section to the Chief of the Section within the Criminal Division which supervises the implementation of the aforementioned Compensation Act.

Dated: April 18, 1983.

William French Smith,

Attorney General.

28 CFR Part 16

[AAG/A Order No. 8-83]

Exemption of Records System Under the Privacy Act

AGENCY: Department of Justice.

ACTION: Final rule.

SUMMARY: On January 26, 1983, the Department of Justice, United States Marshals Service issued proposed regulations to amend 28 CFR 16.101, "Exemption of U.S. Marshals Service Systems—Limited access, as indicated," to provide additional specificity as to statutory authorities; to make editorial changes; and to promulgate a new exemption. The exemption will preclude serving "notice on an individual when any record on such individual is made available to any person under compulsory legal process when such process becomes a matter of public record." 5 U.S.C. 552a(e)(8). The exemption is necessary because the individual notice requirement would present a serious impediment to law enforcement in that it would give persons sufficient warning to avoid warrants, subpoenas, etc. The other changes have no effect on the public.

DATES: This rule will be effective April 27, 1983.

ADDRESS: Administrative Counsel, Justice Management Division, Department of Justice, Room 6239, 10th and Constitution Avenue NW., Washington, D.C. 20530.

FOR FURTHER INFORMATION CONTACT: William J. Snider (202-633-3452).

SUPPLEMENTARY INFORMATION: No comments were received regarding the proposed regulations published on January 26, 1983.

List of Subjects in 28 CFR Part 16

Administrative practice and procedure, Courts, Freedom of information, Privacy and Sunshine Act.

Pursuant to the authority vested in the Attorney General by 5 U.S.C. 552a and delegated to me by Attorney General Order No. 793-78, the proposed regulations published in the **Federal Register** on January 26, 1983 (48 FR 3637) are adopted without change as set forth below.

Dated: April 13, 1983.

Kevin D. Rooney,

Assistant Attorney General for Administration.

PART 16—[AMENDED]

Section 16.101 is amended by revising paragraph (a)(1), introductory text to paragraph (e), paragraphs (e)(1), (f) (1) and (2); by redesignating the existing paragraphs (f)(7) and (f)(8) as (f)(8) and (f)(9), respectively; and by adding a new paragraph (f)(7).

§ 16.101 Exemption of U.S. Marshals Service Systems—Limited access, as indicated.

(a) * * *

(1) Warrant Information System (JUSTICE/USM-007).

These exemptions apply only to the extent that information in this system is subject to exemption pursuant to 5 U.S.C. 552a(j)(2).

* * * * *

(e) The following system of records is exempt from 5 U.S.C. 552a (c) (3) and (4), (d), (e) (2) and (3), (e)(4) (G) and (H), (f) and (g) and may be additionally exempt from subsection (e)(8):

(1) Internal Investigations System (JUSTICE/USM-002)—Limited access.

These exemptions apply only to the extent that information in this system is subject to exemption pursuant to 5 U.S.C. 552a(k)(5) or (j)(2).

(f) * * *

(1) From subsection (c)(3) where the release of the disclosure accounting for disclosures made pursuant to subsection (b) of the Act would reveal a source who furnished information to the Government in confidence.

(2) From subsection (c) (4) for the reason stated in (b)(2) of this section.

* * * * *

(7) From subsection (e)(8) for the reason stated in (b)(7) of this section.

* * * * *

BILLING CODE 4410-04-M

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

33 CFR Part 204

Pacific Ocean Between Point Sal and Point Conception, California, Danger Zone

AGENCY: Army Corps of Engineers, DoD.

ACTION: Final rule.

SUMMARY: The Corps of Engineers is amending the regulations which establish danger zones in the Pacific Ocean near Vandenberg Air Force Base (VAFB), California. This amendment will renumber all the danger zones, relocate some of the existing interior boundaries and add some restrictions to a sensitive danger zone. This will cause a decrease in the total number of danger zones from eleven to nine, with no changes in the perimeter of the existing danger zones.

EFFECTIVE DATE: June 13, 1983.

ADDRESS: HQDA, DAEN-CWO-N, Washington, D.C. 20314.

FOR FURTHER INFORMATION CONTACT: Mr. Richard Clark at (213) 688-5606 or Mr. Ralph T. Eppard at (202) 272-0200.

SUPPLEMENTARY INFORMATION: Proposed revisions were published in the Proposed Rules Section of the **Federal Register** on 26 November 1982, (47 FR 53424) and in a public notice, dated 1 December 1982, distributed by the Commander, Los Angeles District, Corps of Engineers. The Notice of Proposed Rulemaking published in the **Federal Register** resulted in one comment from the Santa Barbara County, Resource Management Department, concerning the placement of fixed or mobile oil drilling platforms within the danger zones. The comment did not concern these proposed amendments and accordingly did not result in any change. No comments were received in response to the local public notice. Stations 9 and 10 are no longer needed to describe the danger zone's perimeter and are deleted in the final text. They were originally used to mark the extension of the danger zones in a previous publication and were inadvertently placed in the proposed rules.

Note.—This non-major regulation is issued with respect to a military function of the Defense Department and the provisions of EO 12291 do not apply. The Department of the Army has determined that this regulation will not have a significant economic impact on a substantial number of entities and thus does not require preparation of a regulatory flexibility analysis.

List of Subjects in 33 CFR Part 204

Water, Transportation, Vessels.

Dated: April 6, 1983.

Approved:

William R. Gianelli,

Assistant Secretary of the Army (Civil Works).

Accordingly, 33 CFR 204.202 is amended by revising paragraphs (a)(2) (i), (ii), (iii), (iv), (v), (vi), (vii), (viii), (ix); removing (x) and (xi); and adding a subparagraph (2) to subsection (b). As amended, § 204.202 reads as follows:

PART 204—DANGER ZONE REGULATIONS

§ 204.202 Pacific Ocean, Western Space and Missile Center (WSMC), Vandenberg AFB, California; danger zones.

(a) *The Area.* (1) The waters of the Pacific Ocean in an area extending seaward from the shoreline a distance of about three nautical miles and basically outlined as follows:

Station	Latitude	Longitude
Point Sal	34°54'08"	120°40'15"
1	34°54'08"	120°44'00"
2	34°52'48"	120°44'00"
3	34°50'00"	120°40'30"
4	34°44'50"	120°42'15"
5	34°41'50"	120°40'12"
6	34°35'12"	120°42'45"
7	34°33'00"	120°41'05"
8	34°30'40"	120°37'29"
9	34°24'18"	120°30'00"
10	34°23'34"	120°27'05"
11	34°24'21"	120°24'40"
12	34°27'20"	120°24'40"
Point Sal	34°54'08"	120°40'15"

(2) The danger area described in paragraph (a)(1) of this section will be divided into zones in order that certain firing tests and operations, whose characteristics as to range and reliability permit, may be conducted without requiring complete evacuation of the entire area. These zones are described as follows:

(i) Zone 1. An area extending seaward about three nautical miles from the shoreline beginning at Point Sal, latitude 34°54'08", longitude 120°40'15"; thence due west to latitude 34°54'08", longitude 120°44'00"; thence to latitude 34°52'48", longitude 120°44'00"; thence to latitude 34°50'00", longitude 120°40'30"; thence due east to the shoreline at latitude 34°50'00", longitude 120°36'30".

(ii) Zone 2. An area extending seaward about three nautical miles from the shoreline beginning at latitude 34°50'00", longitude 120°36'30"; thence due west to latitude 34°50'00", longitude 120°40'30", thence to latitude 34°45'28", longitude 120°42'05"; thence due east to the shoreline at Purisima Point, latitude 34°45'28", longitude 120°38'15".

(iii) Zone 3. An area extending seaward about three nautical miles from the shoreline beginning at Purisima Point latitude 34°45'28", longitude 120°38'15"; thence due west to latitude 34°45'28", longitude 120°42'05"; thence to latitude 34°44'50", longitude 120°42'15"; thence to latitude 34°41'50", longitude 120°40'12"; thence due east to the shoreline at the mouth of the Santa Ynez River, latitude 34°41'50", longitude 120°36'20".

(iv) Zone 4. An area extending seaward about three nautical miles from the shoreline beginning at the mouth of the Santa Ynez River latitude 34°41'50", longitude 120°36'20"; thence due west to latitude 34°41'50", longitude 120°40'12"; thence to latitude 34°35'12"; longitude 120°42'45"; thence latitude 34°34'32", longitude 120°42'15", thence due east to the shoreline at Point Arguello, latitude 34°34'32", longitude 120°39'03".

(v) Zone 5. An area extending seaward about three nautical miles from the shoreline beginning at Point Arguello, latitude 34°34'32", longitude 120°39'03"; thence due west to latitude 34°34'32", longitude 120°42'15"; thence to latitude 34°33'00", longitude 120°41'05"; thence to latitude 34°30'40", longitude 120°37'29"; thence due north to the shoreline at latitude 34°33'15", longitude 120°37'29".

(vi) Zone 6. An area extending seaward about three nautical miles from the shoreline beginning at latitude 34°33'15", longitude 120°37'29"; thence due south to latitude 34°30'40", longitude 120°37'29"; thence due east to the shoreline at latitude 34°30'40", longitude 120°30'10".

(vii) Zone 7. An area extending seaward about three nautical miles from the shoreline beginning at latitude 34°30'40", longitude 120°30'10"; thence due west to latitude 34°30'40", longitude 120°37'29"; thence to latitude 34°26'56", longitude 120°33'06"; thence due east to the shoreline at Point Conception, latitude 34°26'56", longitude 120°28'10".

(viii) Zone 8, An area extending seaward about three nautical miles from the shoreline beginning at Point Conception, latitude 34°26'56", longitude 120°28'10"; thence due west to latitude 34°26'56", longitude 120°33'06"; thence to latitude 34°24'18", longitude 120°30'00"; thence to latitude 34°23'34", longitude 120°27'05"; thence shoreward to Point Conception, latitude 34°26'56", longitude 120°28'10".

(ix) Zone 9. An area extending seaward about three nautical miles from the shoreline beginning at Point Conception, latitude 34°26'56", longitude 120°28'10"; thence seaward to latitude 34°23'34", longitude 120°27'05"; thence to latitude 34°24'21", longitude 120°24'40"; thence due north to the shoreline at latitude 34°27'20", longitude 120°24'40".

(b) *The regulations.* (1) Except as prescribed in this section or in other regulations, the danger zone will be open to fishing, location of fixed or movable oil drilling platforms and general navigation without restrictions.

(2) The stopping or loitering of vessels is expressly prohibited within Danger Zone 4, between the mouth of the Santa Ynez River and Point Arguello, unless prior permission is obtained from the Commander, Western Space and Missile Center (WSMC) at Vandenberg AFB, CA.

(3) The impacting of missile debris from launch operations will take place in any one or any group of zones in the danger areas at frequent and irregular intervals throughout the year. The Commander, WSMC, will announce in advance, the closure of zones hazarded by missile debris impact. Such advance announcements will appear in the weekly "Notice to Mariners." For the benefit of fishermen, small craft operators and drilling platform operators, announcements will also be made on radio frequency 2182 kc, 2638 kc, VHF channel 6 (156.30 MHZ), VHF channel 12 (156.60 MHZ), and VHF channel 16 (156.80 MHZ) for daily announcements. Additionally, information will be posted on notice boards located outside Port Control Offices (Harbormasters) at Morro Bay, Port San Luis, Santa Barbara, Ventura, Channel Islands, and Port Hueneme Harbors, and any established harbor of refuge between Santa Barbara and Morro Bay.

(4) All fishing boats, other small craft, drilling platforms and shipping vessels with radios are requested to monitor radio freqency 2182 kc, 2638 kc, VHF channel 6 (156.30 MHZ), VHF channel 12 (156.60 MHZ), or channel 16 (156.80 MHZ) while in these zones for daily announcements of zone closures.

(5) When a scheduled launch operation is about to begin, radio broadcast notifications will be made periodically, starting at least 24 hours in advance, Additional contact may be made by surface patrol boats or aircraft equipped with a loudspeaker system. When so notified, all vessels shall leave the specified zone or zones immediately by the shortest route.

(6) The Commander, WSMC, will extend full cooperation relating to the public use of the danger area and will fully consider every reasonable request for its use in light of requirements for national security and safety of persons and property.

(7) Where an established harbor of refuge exists, small craft may take shelter for the duration of zone closure.

(8) Fixed or movable oil drilling platforms located in zones identified as hazardous and closed in accordance with this regulation shall cease operations for the duration of the zone closure. The zones shall be closed continuously no longer than 72 hours at any one time. Such notice to evacuate personnel shall be accomplished in accordance with procedures as established by the Commander, WSMC.

and the oil industry in the adjacent waters of the Outer Continental Shelf.

(9) No seaplanes, other than those approved by the Commander, WSMC, may enter the danger zones during launch closure periods.

(10) The regulations in this section shall be enforced by personnel attached to WSMC and by such other agencies as may be designated by the Commander, WSMC.

(11) The regulations in this section shall be in effect until further notice. They shall be reviewed again during September 1987.

(33 U.S.C. 1, 3)

[FR Doc. 83-11185 Filed 4-26-83; 8:45 am]
BILLING CODE 3710-93-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 180

[PP 6E1736/R546; PH-FRL 2354-2]

Tolerances and Exemptions From Tolerances for Pesticide Chemicals in or on Raw Agricultural Commodities; 4-(2,4-Dichlorophenoxy) Butyric Acid

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes a tolerance for the combined residues of the herbicide 4-(2,4-dichlorophenoxy) butyric acid and its metabolite in or on the raw agricultural commodity mint hay. This regulation to establish a maximum permissible level for residues of the herbicide in or on the commodity was requested in a petition submitted by the Interregional Research Project No. 4 (IR-4).

EFFECTIVE DATE: Effective on April 27, 1983.

ADDRESS: Written objections may be submitted to the: Hearing Clerk (A-110), Environmental Protection Agency, Rm. 3708, 401 M St. SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Donald Stubbs, Emergency Response and Minor Use Section, Registration Division (TS-767C), Environmental Protection Agency, Rm. 716B, CM #2, 1921 Jefferson Davis Highway, Arlington, VA 22202. (703-557-1192).

SUPPLEMENTARY INFORMATION: EPA issued a proposed rule, published in the Federal Register of March 9, 1983 (48 FR 9888) that announced that the Interregional Research Project No. 4 (IR-4), New Jersey Agricultural Experiment Station, P.O. Box 231, Rutgers University, New Brunswick, NJ 08903, had submitted pesticide petition 6E1736 to EPA on behalf of the IR-4 Technical Committee and the Agricultural Experiment Station of Oregon.

This petition requested that the Administrator, pursuant to section 408(e) of the Federal Food, Drug, and Comestic Act, propose the establishment of a tolerance for the combined residues of the 4-(2,4-dichlorophenoxy)butyric acid (2,4-DB) and its metabolite 2,4-dichlorophenoxyacetic acid (2,4-D) in or on the raw agricultural commodity peppermint hay at 1.5 ppm. The petition was later amended to propose a tolerance for the combined residues of the herbicide and its metabolite in or on the raw agricultural commodity mint hay at 0.2 part per million (ppm).

There were no comments or requests for referral to an advisory committee received in response to the proposed rule.

The data submitted in the petition and other relevant material have been evaluated and discussed in the notice of proposed rulemaking. The pesticide is considered useful for the purpose for which the tolerance is sought. It is concluded that the tolerance would protect the public health and is established as set forth below.

Any person adversely affected by this regulation may, within 30 days after publication of this notice in the Federal Register, file written objections with the Hearing Clerk, at the address given above. Such objections should specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing and the grounds for the objections. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

(Sec. 408(e), 68 Stat. 514 (21 U.S.C. 346(a)(e)))

PART 180—[AMENDED]

Therefore, 40 CFR 180.331 is revised to read as follows:

§ 180.331 4-(2,4-Dichlorophenoxy) butyric acid; tolerances for residues.

Tolerances are established for the combined residues of the herbicide 4-(2,4-dichlorophenoxy) butyric acid and its metabolite 2,4-dichlorophenoxyacetic acid in or on the following raw agricultural commodities:

Commodities	Parts per million
Alfalfa	0.2N
Clover	0.2N
Mint, hay	0.2
Peanuts	0.2N
Soybeans	0.2N
Soybeans, hay	0.2N
Trefoil, birdsfoot	0.2N

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes tolerances for residues of (±)-2-[4-[[5-(trifluoromethyl)-2-pyridinyl]oxy]phenoxy]propanoic acid (fluazifop), both free and conjugated, and of (±)-butyl 2-[4-[[5-(trifluoromethyl)-2-pyridinyl]oxy]phenoxy]propanoate (fluazifop-butyl), all expressed as fluazifop, in or on certain raw agricultural commodities. This regulation to establish maximum permissible levels for residues of fluazifop and fluazifop-butyl, all expressed as fluazifop, in or on the raw agricultural commodities was requested, pursuant to a petition by ICI Americas, Inc.

EFFECTIVE DATE: Effective on April 27, 1983.

ADDRESS: Written objections may be submitted to the: Hearing Clerk (A-110), Environmental Protection Agency, Rm. 3708, 401 M St., SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Richard Mountfort, Product Manager (PM) 23, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 237, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703-557-1830).

SUPPLEMENTARY INFORMATION: EPA issued a notice, published in the **Federal Register** of March 10, 1982 (47 FR 10290), that announced that ICI America, Inc, Agricultural Chemicals Division, Wilmington, DE 19897, had filed pesticide petition 2F2630 with the EPA. This petition proposed that tolerances be established for residues of (±)-2-[4-[[5-(trifluoromethyl)-2-pyridinyl]oxy]phenoxy]propanoic acid (fluazifop), both free and conjugated, and of (±)-butyl 2-[4-[[5-(trifluoromethyl)-2-pyridinyl]oxy]phenoxy]propanoate (fluazifop-butyl), all expressed as fluazifop, in or on the raw agricultural commodities fat, meat, and meat byproducts of cattle, goats, hogs, horses, poultry, and sheep at 0.05 part per million (ppm); eggs and milk at 0.05 ppm; cottonseed at 0.1 ppm; and soybeans at 1.0 ppm.

ICI Americas, Inc. subsequently amended the proposal by filing food additive petition 3H5385, notice of which was published in the **Federal Register** of March 16, 1983 (48 FR 11161). The petition proposed amending 21 CFR Parts 193 and 561 by establishing regulations permitting residues of fluazifop and fluazifop-butyl, all expressed as fluazifop, in or on the food and/or animal feed items cottonseed oil and soapstock at 0.2 ppm and soybean meal, oil, and soapstock at 2.0 ppm.

A related document, (FAP 3H5385/R553), establishing regulations permitting residues of fluazifop and fluazifop-butyl in or on the above food and feed commodities, appears elsewhere in today's issue of the **Federal Register**.

There were no comments received in response to the notices of filing.

The data submitted in the petition and other relevant material have been evaluated. The data considered in support of the tolerances included plant and animal metabolism studies; a rat oral lethal dose (LD_{50}) with an LD_{50} of 3,300 milligrams (mg) per kilogram (kg) of body weight (bw); a rabbit subchronic dermal study with a no-observed-effect level (NOEL) of 100 parts per million (ppm) (5 mg/kg/day); a 90-day rat feeding study with a NOEL of 0.5 mg/kg/day; a 90 day dog feeding study with a NOEL of 25 mg/kg/day; a rat teratology study with a teratogenic and maternal toxicity NOEL of 10 mg/kg/day (the teratogenic and maternal toxic effect level is 200 mg/kg/day (highest dose) with diaphragmatic hernia) and the NOEL of 1 mg/kg/day (based on fetotoxicity). Margin of Safety (MOS) values are based on the NOEL of 1 mg/kg/day for fetotoxicity or 10 mg/kg/day for maternal toxicity and teratogenicity; a rabbit teratology study with no terata at 90 mg/kg/day [highest dose] and a NOEL of 10 mg/kg/day; a 2-generation rat reproduction study with a NOEL of 80 ppm (4 mg/kg/day); a 2-year chronic feeding/oncogenicity study in rats with no observed oncogenic potential at 3.0 mg/kg/day (highest dose and a NOEL of 1 mg/kg/day); a 20-month mouse chronic feeding/oncogenicity study with no-observed oncogenic potential at 3.0 mg/kg/day (highest dose) and a NOEL of 1.0 mg/kg/day; an Ames test (negative); a rat cytogenetic study (negative); an in-vitro transformation assay (negative); and an acute delayed neurotoxicity study in hens (negative). Data considered desirable, but lacking, include a 1-year subchronic feeding study in dogs and a dermal penetration study, preferably in the rat. The petitioner is nearing completion of the subchronic dog feeding study and has agreed to submit the final study and the dermal penetration study.

Based on the NOEL of 1 mg/kg in rat chronic feeding study and a 100-fold safety factor, the acceptable daily intake (ADI) has been set at 0.01 mg/kg/day with a maximum permissible intake (MPI) of 0.6 mg/day for a 60-kg person. These tolerances have a theoretical maximum residue contribution (TMRC) of 0.0619 mg/day in a 1.5 kg diet and would utilize 10.32 percent of the ADI.

The nature of the residue of the pesticide is adequately delineated, and an adequate analytical method, high pressure liquid chromatography (HPLC) using an ultra-violet detector, is available for enforcement purposes.

The pesticide is considered useful for the purpose for which the tolerances are sought. It is concluded that the tolerances would protect the public health and are established as set forth below.

Any person adversely affected by this regulation may, within 30 days after publication of this notice in the **Federal Register**, file written objections with the Hearing Clerk, at the address given above. Such objections should specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing and the grounds for the objections. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L 96-534, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (46 FR 24950).

(Sec. 408(e), 68 Stat. 514 (21 U.S.C. 346(a)(e)))

PART 180—[AMENDED]

Therefore, 40 CFR Part 180 is amended by adding a new § 180.411 to read as follows:

§ 180.411 Fluazifop-butyl; tolerances for residues.

Tolerances are established for residues of (±)-2-[4-[[5-(trifluoromethyl)-2-pyridinyl]oxy]phenoxy]propanoic acid (fluazifop), both free and conjugated, and of (±) butyl 2[4-[[5-(trifluoromethyl)-2-pyridinyl]oxy]phenoxy]propanoate (fluazifop-butyl), all expressed as fluazifop, in or on the following raw agricultural commodities:

Commodities	Parts per million
Cattle, fat	0.05
Cattle, meat	.05
Cattle, mbyp	.05
Cottonseed	.1
Eggs	.05
Goats, fat	.05
Goats, meat	.05
Goats, mbyp	.05
Hogs, fat	.05
Hogs, meat	.05
Hogs, mbyp	.05
Horses, fat	.05
Horses, meat	.05

Tolerances and Exemptions From Tolerances for Pesticide Chemicals in or on Raw Agricultural Commodities; Sodium Chlorate

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes an exemption from the requirement of a tolerance for residues of the fungicide sodium chlorate when used in or on the agricultural commodities flaxseed and flax straw. This regulation to exempt sodium chlorate from the requirement to establish maximum permissible levels for residues in or on the commodities was requested in a petition submitted by the Interregional Research Project No. 4 (IR-4).

EFFECTIVE DATE: Effective on April 27, 1983.

ADDRESS: Written objections may be submitted to the: Hearing Clerk (A-110), Environmental Protection Agency, Rm. 3708, 401 M St., SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Donald Stubbs, Emergency Response and Minor Use Section (TS-767C), Registration Division, Environmental Protection Agency, Rm. 716B, CM #2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703-557-1192).

SUPPLEMENTARY INFORMATION: EPA issued a proposed rule, published in the **Federal Register** of March 9, 1983 (48 FR 9688), that announced that the Interregional Research Project No. 4 (IR-4), New Jersey Agricultural Experiment Station, P.O. Box 231, Rutgers University, New Brunswick, NJ 08903, had submitted pesticide petition 9E2142 to EPA on behalf of the IR-4 Technical Committee and the Agricultural Experiment Stations of Minnesota and North Dakota.

This petition requested that the Administrator, pursuant to section 408(e) of the Federal Food, Drug, and Cosmetic Act, propose the establishment of an exemption from the requirement of a tolerance for residues of sodium chlorate in or on flaxseed, wheat, and their fodder, forage, and straw when it is used in accordance with good agricultural practice as a desiccant in flaxseed and wheat production. The petition was later amended by withdrawing the request for wheat and proposing the exemption for flaxseed and flax straw only.

There were no comments or requests for referral to an advisory committee received in response to the proposed rule.

The data submitted in the petition and other relevant material have been evaluated and discussed in the notice of proposed rulemaking. The pesticide is considered useful for the purpose for which the tolerance is sought. It is concluded that the tolerance would protect the public health and is established as set forth below.

Any person adversely affected by this regulation may, within 30 days after publication of this notice in the **Federal Register**, file written objections with the Hearing Clerk, at the address given above. Such objections should specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing and the grounds for the objections. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

Edwin L. Johnson,

Director, Office of Pesticide Programs.

PART 180—[AMENDED]

Therefore, 40 CFR 180.1020 is revised to read as follows:

§ 180.1020 Sodium chlorate; exemption from the requirement of a tolerance.

Sodium chlorate is exempted from the requirement of a tolerance for residues in or on the following raw agricultural commodities when used as a defoliant, desiccant, or fungicide in accordance with good agricultural practice in the production of chili peppers, corn, cotton, flax, guar beans, rice, safflower seed, sorghum, soybeans, and sunflower seed.

Commodities

Chili peppers
Corn fodder
Corn forage
Corn grain
Cottonseed
Flaxseed
Flax straw
Grain sorghum
Guar beans
Rice
Rice straw
Safflower seed
Sorghum fodder
Sorghum forage
Soybeans
Sunflower seed

LEGAL SERVICES CORPORATION

45 CFR Part 1611

Eligibility; Income Levels for Individuals Eligible for Assistance

AGENCY: Legal Services Corporation.

ACTION: Final rule; Revised Appendix.

SUMMARY: The Legal Services Corporation is required by law to establish maximum income levels for individuals eligible for legal assistance. This document updates the specified income levels to reflect the annual amendments to the Official Poverty Threshold as defined by the Department of Health and Human Services.

EFFECTIVE DATE: May 27, 1983.

FOR FURTHER INFORMATION CONTACT: Linda Perle, Legal Services Corporation, 733 Fifteenth Street, NW., Washington, D.C. 20005 (202) 272-4010.

SUPPLEMENTARY INFORMATION: Section 1007(a)(2) of the Legal Services Corporation Act, 42 U.S.C. 2996f(a)(2), requires the Corporation to establish maximum income levels for individuals eligible for legal assistance, and the Act provides that income shall be taken into account along with other specified factors. Section 1611.3(b) of the Corporation's Regulations establishes a maximum income level equivalent to one-hundred and twenty-five percent (125%) of the Official Poverty Threshold as defined by the Office of Management and Budget. Responsibility for revision of the Official Poverty Threshold was shifted in 1982 from the Office of Management and Budget to the Department of Health and Human Services. The revised figures for 1983 equivalent to 125% of the current Official Poverty Threshold are set forth below:

Proposed Rules

Federal Register
Vol. 48, No. 82
Wednesday, April 27, 1983

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR PART 1046

[Docket No. AO-123-A50]

Milk in the Louisville-Lexington-Evansville Marketing Area; Recommended Decision and Opportunity To File Written Exceptions on Proposed Amendments To Tentative Marketing Agreement and To Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This decision recommends replacing the order's seasonal production incentive program known as the "Louisville plan" with a seasonal base-excess plan for distributing to producers their returns from the sale of milk. This change was proposed by Dairymen, Inc. (DI), a cooperative that represents a large portion of the dairy farmers that supply milk for the market.

Under the recommended provisions, each producer would establish a new "base" annually. It would be determined from the dairy farmer's milk deliveries during the base-forming months of September-December. During the following months of March through June, minimum payments to a producer would be based on the amounts of base and excess milk marketed by such dairy farmer. In the other months (July through February), producers would be paid not less than the marketwide uniform price for all of their milk deliveries. This new producer payment plan is intended to encourage level milk production throughout the year.

DATE: Comments are due by May 12, 1983.

ADDRESS: Comments (four copies) should be filed with the Hearing Clerk, Room 1077, South Building, United States Department of Agriculture, Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT: Richard A. Glandt, Marketing Specialist, Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202/447-4829.

SUPPLEMENTARY INFORMATION: This administrative action is governed by the provisions of sections 556 and 557 of Title 5 of the United States Code and, therefore, is excluded from the requirements of Executive Order 12291.

William T. Manley, Deputy Administrator, Agricultural Marketing Service, has certified that this action would not have a significant economic impact on a substantial number of small entities, and would have no effect on regulated handlers since the action affects only the manner in which the proceeds from milk sales are distributed to producers.

Prior document in this proceeding:

Notice of Hearing: Issued January 25, 1983; published January 28, 1983 (48 FR 3992).

Preliminary Statement

Notice is hereby given of the filing with the Hearing Clerk of this recommended decision with respect to proposed amendments to the tentative marketing agreement and the order regulating the handling of milk in the Louisville-Lexington-Evansville marketing area. This notice is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington, D.C. 20250, by the 15th day after publication of this decision in the **Federal Register**. Four copies of the exceptions should be filed. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposed amendments hereinafter set forth are based on the record of a public hearing held at Louisville, Kentucky, on February 15, 1983, pursuant to a notice of hearing issued on January 25, 1983 (48 FR 3992).

The material issue on the record of the hearing relates to replacing the "Louisville" plan to pay producers under the order with a seasonal base-excess plan.

Findings and Conclusions

The following findings and conclusions on the material issue are based on evidence presented at the hearing and the record thereof:

The order should be amended to provide a seasonal base-excess plan to pay producers in place of the current "Louisville" plan. Under the present plan, 40 cents per hundredweight is withheld from payments to producers for milk delivered during the months of April through July when supplies are abundant. This money is paid back to producers through the marketwide pool during the following months of September through December when supplies are seasonally lower.

As in the case of the Louisville plan, the purpose of a base-excess plan is to provide an incentive for producers to even out their milk production throughout the year. Such a plan is designed to encourage more production in the months of seasonally low production and discourage production in the months of seasonally high production.

Dairymen, Inc. (DI), a cooperative that represents about 44 percent of the producers supplying the market, proposed that the order's current producer payment plan (Louisville plan) be replaced with a seasonal base-excess plan for use in distributing to producers their returns from the sale of milk, The DI witness testified that the proposed base-excess plan is needed to provide an enhanced inducement to dairy farmers to increase their production during the months of seasonally low milk production, which is when Class I demand is greatest, and to decrease their production during the months of seasonally high milk production, when fluid demand is somewhat lower.

In support of its proposal, the witness for the proponent cooperative testified that the current take-out rate under the Lousiville plan is too low to effectively encourage desirable production patterns for the market. He also contended that

increasing the withholding rate to a level which would make it effective was not a practical solution because it would lower the blend prices too much in the take-out months. Hence, the cooperative proposed replacement of the Louisville plan with a seasonal base-excess plan to pay producers.

Southeastern Graded Milk Producers Association, another cooperative representing producers supplying the market, made a statement at the hearing in support of DI's proposed base-excess plan. Dean Milk Company, a proprietary handler under the order, also indicated support for DI's proposal at the hearing. Although the spokesman could not speak for the individual dairy farmers supplying the company's pool plant, he submitted a position statement on behalf of his company. In his view, the proposal would be beneficial to overall marketing conditions in the region from the standpoint of milk procurement between adjacent order areas. In addition, he recognized DI's concern about the declining influence in recent years of the Louisville plan adjustments on the blend prices dairy farmers receive.

No one testified in opposition to the proposed base-excess plan.

A base-excess plan should be provided for the Louisville-Lexington-Evansville market. The base plan will provide a means of encouraging a more level seasonal production pattern that will be beneficial to producers, handlers, and consumers.

The Louisville market has developed a good seasonal milk production pattern over the years. Nevertheless, milk production for the market does fluctuate seasonally, with supplies generally increasing in the spring and declining in the fall. This is evidence, for example, by the market data for producer receipts for a recent 5-year period.

These data indicate that the 1978–82 average daily deliveries of producer milk in May, the peak production month, were 108 percent of the 5-year daily average. Downswings of comparable magnitude occurred with the 5-year daily average producer milk deliveries during October, when production is lowest, dropping to 94 percent of the daily average for the entire 5-year period.

Although the seasonal fluctuations in production are relatively small, the changes are more meaningful when viewed in terms of the somewhat opposite swing in Class I Producer milk. When milk supplies were lower in the fall, average daily producer milk allocated to Class I was higher. For instance, the 1978–82 September daily average producer milk used in Class I was 114 percent of the daily average for the entire 5–year period. This compares to a 5–year daily average of Class I utilization of producer milk during June, which was 92 percent of the average for the entire 5–year period.

The National Farmers Organization (NFO) filed a posthearing brief urging that a base-excess plan not be adopted. One of the points raised by NFO was that the Louisville plan provides an adequate incentive for level production, and that it has, in fact, provided a "remarkably stable level of production throughout the year."

This market's favorable production pattern has been influenced somewhat by the seasonal incentive (Louisville) plan which has been used to pay producers supplying the market for many years. Since early 1968, the take-out rate has been 10 percent of the preceding year's average basic formula price, but not to exceed 40 cents per hundredweight.[1] Because of this 40-cent limitation, which has limited the deduction since 1968, the Louisville plan has been less effective in recent years in promoting level milk production.

When the take-out rate represented 10 percent of the basic formula price for the take-out months in 1968, it provided an adequate incentive for producers to level their production. Since 1968, the 40-cent limit has applied and has represented a steadily declining percentage of the basic formula price. Since 1975, the 40-cent take-out has been less than 5 percent of the basic formula price for the preceding calendar year.[2] The 40-cent withholding rate now represents only about 3 percent of the basic formula price. Such a rate is too low to effectively encourage level production by dairy farmers. Hence, a seasonal base-excess plan should be provided in place of the order's current Louisville plan to provide a better incentive for producers to maintain their level milk production patterns throughout the year.

NFO's brief also stated that the proponent's reasons offered in support of a base-excess plan were "speculative." While the impact of payment plans on production may be difficult to measure with any preciseness, the decline of the take-out rate as a percent of the basic formula price cannot be ignored. At the least, it can be presumed that the take-out rate currently provides a smaller incentive to level production than it did in 1968. It is important to note that the predominant view by producers in this market is that a base-excess plan will be more effective than the Louisville plan in maintaining a desirable seasonal pattern of production in the future.

Because of the declining effectiveness of the Louisville plan, proponent cooperative has operated seasonal incentive plans outside the order in each of the past two years to encourage to a greater extent the leveling of production. However, since the cooperative represents only about one-half of the market's producers, the effects of such programs are reflected in lower returns to the cooperative's members relative to other producers on the market. Other producers stand to benefit to the extent that they receive higher blend prices as a result of DI's curtailed production. The seasonal base-excess plan adopted herein would apply equally to all producers.

If milk production fluctuates widely on a seasonal basis, serious marketing problems could be created for producers, and especially for cooperatives that perform a major role in balancing the market's fluid needs. These problems would involve obtaining adequate supplies of milk for handlers' fluid needs during the months of seasonally low milk production and disposing of excess supplies during the months of seasonally high milk production. For example, if production declines too much in the short milk production season, cooperatives could find it necessary to import milk from beyond the local supply area to meet the shortage of the market's fluid processors. This could involve moving milk considerable distances, which is quite costly.

Another aspect of seasonal imbalances in milk production is the disposition of milk that is excess to the market's fluid needs. More marketing problems are experienced under this order in handling the excess supplies during the flush milk production season than with importing milk for the market during the short milk production season.

This is because there is considerably more milk produced in this general area than is needed to meet the fluid needs. Hence, at times when local manufacturing plants are operating at or near capacity, excess milk must be transported to manufacturing plants at considerable distance from the major consumption areas of the market.

In addition, a more level milk production pattern during the year

[1] Official notice in taken of the Assistant Secretary's decision issued March 22, 1968 (33 FR 5040), with respect to the provisions of the current Louisville plan.

[2] Official notice is taken of "Federal Milk Order Market Statistics", December 1982, and Annual Summaries for 1968 through 1981, issued by the Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C.

would reduce the amount of manufacturing capacity needed to handle the market's peak milk production and would allow area manufacturing plants to operate throughout the year with less seasonal fluctuation in the volumes of milk handled. This would improve the plants' operating efficiency, and in the case of cooperative manufacturing plants permit greater returns to members.

Hence, producers, handlers and consumers would benefit from a low variation in milk production primarily because of reduced marketing costs associated with disposing of excess supplies in the flush production months. In view of the foregoing, adoption of a base-excess plan applicable to all producers under this order is appropriate in the interest of maintaining reasonably level milk production for this market throughout the year.

The issue in this proceeding primarily concerns producers in that it deals with how the pool funds are to be divided among the producers supplying the market. In such case, the views of producers are an important consideration. The record in this proceeding clearly shows that a large portion of the producers associated with the Louisville market prefer a base-excess plan to the current Louisville plan as a means of encouraging more level milk production.

The base-excess plan adopted in this decision is very similar to that proposed by producers. Each producer would be assigned a base computed by dividing the producer's total pounds of producer milk in September through December (the base-forming period) by the number of days' production represented in such producer milk deliveries or by 100, whichever is more.

Bases would be computed, assigned, announced, and transferred on a daily basis (in terms of pounds per day). However, the milk of some dairy farmers may not be picked up each day. Hence, producers should be aware of the procedure that would be used by the market administrator to convert their every-other-day pickup to days of production. In that regard, if a producer's milk is regularly picked up every other day, a single pickup would be considered two days of production in computing such dairy farmer's base.

The market administrator would compute a new base for each producer annually. By February 1 of each year, he would notify each producer and the handler receiving the milk of the producer's base. If requested to do so by a cooperative, the market administrator would notify such cooperative of the amount of base assigned to each producer-member in lieu of sending a notice to each individual producer-member of the cooperative. It is noted that any producer who did not receive a notice could obtain the base information by contacting the market administrator.

At the hearing, DI modified its hearing notice proposal with respect to notifying its member-producers about their established bases. Under the original proposal the market administrator would have been required to notify all producers (both cooperative members and nonmembers).

Instead of notifying each of the cooperative's member-producers, DI asked that the market administrator notify the cooperative of each member's base if requested to do so by such association. The witness for the cooperative testified that the base on which DI pays a member-producer may be different from the base established by such producer under the order. It is concluded that the cooperative's wishes in this regard should be accommodated since the cooperative has been designated by its producer-members to act as the marketing agent for their milk.

The order should provide for the computation of a separate base by the market administrator for each dairy farm operated by a producer. Although the proposed provisions included in the hearing notice did not cover this point, it is reasonable to expect that a producer who is operating two or three dairy farms may wish to sell the base that is associated with the milk production of an individual farm if he sells that farm. Establishing a separate base for each farm would accommodate this situation. In cross examination at the hearing, the witness for DI stated that the cooperative intended that a separate base be computed for each farm of a producer.

As proposed by DI, the months of September through December should be the base-forming period. It is during these months that milk production tends to reach its lowest point and the market's Class I needs are greatest. In order to establish a production level for which they will receive payment at the higher uniform price for base milk in the base-paying months, producers will tend to establish a higher level of production in the base-forming months.

Record data show that the market's Class I utilization of producer milk during 1978–82 was greatest during the months of September-November. It was noted at the hearing that the supply-sales relationship was somewhat better in January than December during the 5-year period. Although there was little difference in the relationship in the two months as a whole, proponent indicated that the demand for milk in the first two-thirds of December is relatively higher. He also stated that in the last third of December, due to school closings and the holidays, the demand for milk falls off sharply. In view of the higher Class I use in the greater part of the month of December, it is appropriate that December be included with September, October, and November as the base-forming months.

The uniform (weighted average) price would be the minimum order price payable to producers for producer milk delivered during July through February.

The base-paying months should be March through June, as proposed by DI. These months form a period of time during the year when, in general, milk production is high and Class I utilization of milk is low. Thus, it is a period when the base plan should be discouraging excessive seasonal production. This would occur under the plan because during the base-paying months payments to producers would reflect a lower price for any excess producer milk delivered to the market. Operation of the base-excess plan should serve to maintain, or perhaps improve, the seasonal production pattern that producers desire.

Record data show that the market's producer receipts were substantially greater than Class I sales in the 5-year period of 1978–82 Recommended Decision—Louisville-Lexington-Evansville in April-June. The 5-year data also indicate that producer receipts exceeded Class I sales by a greater amount in July than in March. Nevertheless, March rather than July should be included as a base-paying month so that the base-paying months under the base plan for this order will conform with the base-paying period in the nearby Tennessee Valley market. The record also indicates that the local manufacturing plants in Kentucky, which are the normal outlets for this market's excess supplies, are utilized to dispose of the surplus milk of other markets in the Southeast where production tends to reach its seasonal peak earlier in the year. Because of this, DI has found it more difficult to secure a local outlet for surplus milk in the month of March than to do so in the month of July. In view of the foregoing, it is appropriate to include the month of March with the months of April through June in the base-paying period.

"Base milk" would be the producer milk of a producer in each month of March through June that is not in excess of the producer's base multiplied by the number of days in the month. "Excess

milk" would be the producer milk of a producer in each such month that is in excess of the producer's base milk for the month. Excess milk would include all of the producer milk in March through June of a producer who has no assigned base.

In computing the uniform prices for base and excess milk, Class III producer milk would be assigned to excess milk first. If there are more pounds of Class III producer milk in the market than there are pounds of excess milk delivgries by produces, the uniform price for excess milk will be the Class III price. In such case, the additional value for the remaining Class III producer milk as well as the values for Class I and Class II producer milk will be reflected in the uniform price for base milk.

As proposed by producers, the uniform price for excess milk should not be subject to a location adjustment. Since excess milk would represent basically producer milk classified in Class III (milk for manufacturing uses) to which no location adjustment is applicable, the uniform price for excess milk should not be subject to a location adjustment. There is practically no difference in the location value of milk for Class III uses. The Class III price under the Louisville order and other orders is equal to the average price per hundredweight for the month of manufacturing grade milk f.o.b. plants in Minnesota and Wisconsin. If a location adjustment were applied to the excess price, it could result in applying an excess price to the producer milk at various plant locations that is less than the value of manufacturing grade milk delivered to those same plant locations.

A producer generally would deliver milk continuously throughout the base-forming period. However, because of various circumstances (e.g., storm damage at the farm or to roads, temporary suspension of a health permit or temporary loss of market when cut off by a buying handler), a producer may be off the market for a limited number of days in the base-forming period. In recognition of this, proponent cooperative proposed that a producer who delivered at least 100 days' production during the 122 days in the base-forming period have the average daily delivery computed on the same basis as a producer who delivered continously throughout the entire period (by dividing the total producer milk during the four-month period by the number of days' production represented in such producer's deliveries).

The requirement that a producer supply the market in the base-forming months in order to earn base provides an incentive for a producer to ship milk to this market instead of to other markets in the months when production is lowest relative to the demand for Class I milk. A Producer who ships at least 100 days' production during the four-month base-forming period can reasonably be considered as being fully associated with the market. A producer who delivered less than 100 days' production should have a base determined by dividing such person's total production in the base-forming period by 100. Thus, a producer who may have been supplying the Class I needs of another market for a substantial part of the base-forming period would receive a base that reflects the dairy farmer's contribution as a producer toward supplying the fluid needs of the Louisville market in such period.

In its brief, NFO maintained that a base-excess plan should not be adopted because it would restrict the movement of milk onto or off of the Louisville market. The testimony presented at the hearing was essentially silent with regard to whether a base-excess plan would restrict producer entry to the market more than would a Louisville plan. However, there is an indication that producers who shift from the Tennessee Valley or Nashville markets to the Louisville market (or vice-versa) would find a base-excess plan more compatible than the current Louisville plan.

The application of the base-excess plan adopted herein to new producers is essentially that proposed by DI. There are several types of new producers whose first association with this market could take place during the base-paying period. Two examples would be dairy farmers who had supplied the fluid milk needs of another order market or who had supplied an unregulated market in the preceding base-forming period. Milk produced on their farms in the base-paying months that becomes associated with this order would represent production that is surplus to the Class I needs of the market with which they had been previously associated. It is appropriate, therefore, that for their deliveries of such milk under the Louisville order in the base-paying months, such producers should receive only the excess milk price.

In other instances, persons who have not previously supplied a fluid milk market may become new producers for the Louisville market. Included in this category would be dairy farmers who had previously been shipping manufacturing grade milk and persons starting new dairy farm operations. Before coming onto the market as new producers, such persons would be expected to have planned their entry into the market in advance. If such dairy farmers choose to begin delivering as new producers in one of the four base-paying months, presumably that decision would be made in recognition of the fact that the excess price would be received for milk delivered to the market in such months by producers without bases.

As proposed, if a dairy farmer's milk was delivered to a nonpool plant that became a pool plant after the beginning of the base-forming period, a base should be assigned in the same manner as if the dairy farmer had been a producer during the entire base-forming period. Such base would be calculated from all of the dairy farmer's deliveries that would have qualified as producer milk (including diversions) if the nonpool plant had been a pool plant for the entire September through December base-forming period. The same procedure would apply to a producer-handler operation that qualified as a pool plant.

To acquire pool status under the order a plant must dispose of a certain percentage of its receipts on routes in the marketing area or to other pool plants. Hence, when a nonpool plant becomes a pool plant it will most likely add Class I sales to the pool relative to such sales in prior periods when it was a nonpool plant. It is appropriate, therefore, that those dairy farmers who had been supplying the plant have bases computed for them on the basis of their deliveries in the base-forming period.

Bases so assigned to such producers should not be transferable. Such producers would be receiving bases without having incurred any of the economic costs that the market's regular producers incurred in adjusting their operations to achieve more level production. Thus, any income received from the transfer of such bases in essence would be windfall gains, which should not be permitted.

The base earned by any producer who supplied the market during the preceding base-forming period should be transferable. This procedure will facilitate the transfer of property when a baseholder dies or when the dairy farmer decides to go out of business. It will also permit dairy farmers to expand or contract their operations. However, proper safeguards would be provided so that the transfer provisions may not be exploited at the expense of producers regularly supplying the market.

The amount of base tranferred could be in its entirety or in amounts of not less than 300 pounds. These limits, which were proposed at the hearing, are

administratively practicable and should be adequate under current marketing conditions.

At the hearing, the witness for the proponent cooperative clarified its intent with respect to transfers of base. In the cooperative's view, a producer should be permitted to transfer any remaining amount of base after transferring a least 300 pounds of base to another dairy farmer, even though such remainder might be less than 300 pounds. Such an interpretation would allow a dairy farmer to transfer all of the base earned by such person.

The order should specifically provide that base may only be transferred to a person who is or will be a producer by the end of the month that the base transfer is to become effective. Although the hearing notice proposal was not specific on this point, proponent's witness indicated that a base would only have value to a dairy farmer who delivers producer mik under the order, and expressed no opposition to having this limitation placed on transfers of base. Accordingly, the base rules specifically incorporate the necessary words to accomplish this.

Base transfers would be effective on the first day of the month following the date on which an application for transfer is received by the market administrator. Such application would be required to be on a form approved by the market administrator and signed by a baseholder or the baseholder's heirs and the person or persons to whom the base is to be transferred. If a base is held jointly, it would be required that the application be signed by all joint holders or their heirs. These provisions would insure that there will be no misunderstanding between the parties involved concerning transfers.

A producer who transferred base on or after February 1 would not be permitted to receive other base by transfer that would be applicable within the March-June period of the same year. Also, a producer who received base by transfer on or after February 1 would not be permitted to transfer a portion of the base assigned to such producer to be applicable within the March-June period of the same year, but would be permitted to transfer the entire base. Adoption of these provisions will tend to insure that the exchanges of base between producers are bona fide transfers. Absent such provisions, the transferring of base back and forth by two or more producers throughout the base-paying period could result in unwarrantedly increasing their share of the total payment under the order for producer milk at the expense of all of the other producers.

The base established by a partnership may be divided between the partners on any basis agreed to in writing by them if written notification of the agreed-upon division, signed by each partner, is received by the market administrator or prior to the first day of the month in which the division is to be effective. This will facilitate the division of the assets of a partnership that is dissolved during the base-paying period. On the other hand, it will in no may affect the total quantity of base milk in the pool, irrespective of the manner in which the division of the base is made between the partners.

Likewise, the order should provide that two or more producers who decide to form a partnership may combine their separately established bases. As with the division of base in a partnership, it should be noted that the combination of individual bases by producers forming a partnership would not affect the total quantity of base milk in the pool the partners would be required to notify the market administrator prior to the first day of the month in which such combination of bases is to be effective.

In some instances, a "natural disaster" may cause a producer to suffer a significantly reduced rate of production or force such person to discontinue temporarily the production of milk. Unless provision is made in the order to give consideration to such occurrences in computing a producer's base, the producer would suffer an undue hardship. Thus, the order should specify certain conditions under which relief may be granted to a producer whose production was adversely affected in the base-forming period as the result of an occurrence beyond the control of such producer.

This can be achieved by providing that the base assigned to a person who was a producer in the preceding base-forming period may be increased by any amount up to 90 percent of the producer's average daily producer milk deliveries in the month immediately preceding the month during which such person's production was adversely affected by an allowable "hardship" condition. Such relief would be granted only after the producer submitted to the market administrator by March 1 a written statement that established to the satisfaction of the market administrator that the amount of milk produced on such dairy farmer's farm in the immediately preceding base-forming period was substantially reduced because of a condition beyond the producer's control, which resulted from:

(1) Loss by fire or windstorm of a farm building used in the production of milk on the producer's farm;

(2) Brucellosis, bovine tuberculosis or other infectious diseases in the producer's milking herd, as certified by a licensed veterinarian; or

(3) A quarantine by a Federal or State authority that prevents the dairy farmer from supplying milk from the farm of such producer to a plant.

The conditions under which hardship relief (in the form of an increased base) may be granted a producer encompass most natural disasters that could result in reduced production or in the temporary discontinuance of production on a dairy farm. Such a standard will provide the market administrator the guidance necessary for applying the provision in an objective manner.

Allowing hardship relief by assigning a producer a base equal to any amount up to 90 percent of such dairy farmer's average daily producer milk deliveries in the month immediately preceding the month during which the hardship occurred provides an equitable standard for this purpose. The order should indicate specifically that the market administrator could adjust a producer's base by any amount up to 90 percent of the dairy farmer's average daily producer milk deliveries. This would provide the market administrator with the flexibility necessary to administer the hardship provisions on the basis of each individual situation. Setting this forth in the order and the decision will let producers know how the provisions will be applied should such a situation occur.

In connection with replacing the order's "Louisville" plan with a seasonal base-excess plan, certain conforming changes in other sections of the order need to be made.

Under present order provisions, each handler is required to report on or before the 8th day of each month the total pounds of milk received from producers during the month. Since producers would be paid for base and excess milk deliveries only during the months of March-June, handlers should be required to report by the same date the total amount of base milk received from all producers during these months. Later, by the 20th day of each such month, handlers would be required to report the total amount of base milk received from each producer.

The entire section dealing with the computation of the uniform price is revised to provide that the market administrator compute a weighted average price each month. During the months of July through February the weighted average price also would be the uniform price and would be the minimum price to pay producers for all

of their milk deliveries. In the other months (March-June) the market administrator would compute uniform prices for base milk and excess milk, which would be the minimum prices to pay producers for their milk deliveries.

Following the computation of the uniform price or prices, the market administrator would be required to announce such uniform price or prices. Accordingly, the section dealing with such announcements is appropriately modified to reflect this change. In addition, certain other payment sections of the order are revised essentially for the purpose of referring to base and excess milk deliveries by producers and uniform prices for base and excess milk.

At the conclusion of the hearing, DI asked that a base-excess plan be incorporated in the order by September 1, 1983. Under the current provisions of the Louisville plan, money is withheld in paying producers for milk pooled during April through July and is distributed to producers through the "blend" prices for milk pooled in the following months of September through December. In view of this, the proponent cooperative requested that the current take-out provisions of the order be suspended before any money is deducted from producers during the 1983 take-out months. This is because the order provisions for distributing the withheld amounts plus interest would no longer exist if the base-excess plan adopted herein becomes effective by September 1983. For this reason, the take-out provisions of the Louisville plan are being suspended concurrently with the issuance of this recommended decision.

Rulings on Proposed Findings and Conclusions
